Art. 70. (*a*.) Aucune chaudière ou fourneau à vapeur ne sera construit, ajusté ou arrangé de façon à ce que l'échappement de la vapeur par la soupape de sûreté puisse être complètement ou partiellement intercepté par l'action d'aucune autre soupape.

(*b*.) Une soupape d'arrêt doit toujours être placée entre la chaudière et le tuyau à vapeur; et, lorsque deux chaudières ou plus sont reliées par un récipient à vapeur ou surchauffeur, entre chaque chaudière et le surchauffeur ou récipient, à vapeur. Le but de ceci est évident, savoir, éviter que toutes les chaudières soient affectées par le défaut d'une seule d'entre elles. Le col des soupapes d'arrêt sera aussi court que possible.

(*c*.) Des tuyaux de raccordement en fer vissés peuvent être employés sur les bateaux à vapeur, d'un diamètre n'excédant pas quatre pouces; et si ces tuyaux dépassent deux pouces de diamètre, ils devront être raccordés par des brides et boulons convenables, à la satisfaction de l'inspecteur qui les aura inspectés.

Art. 71. (*a*.) Chaque chaudière sera munie d'un indicateur d'eau en verre, de deux robinets d'essai au moins, et d'un manomètre, c'est-à-dire, chaque chaudière doit être munie de tous les accessoires au complet, de même que s'il n'y avait qu'une seule chaudière.

(*b*.) Les chaudières avec fourneaux aux deux extrémités, et celles d'une largeur plus qu'ordinaire, doivent avoir des indicateurs d'eau et des robinets d'essai à chaque extrémité ou côté, selon le cas. Quant un navire à vapeur a plus d'une chaudière, et que ces chaudières sont munies de soupapes d'arrêt, chaque chaudière sera traitée comme chaudière distincte et aura tous les accessoires nécessaires.

Art. 72. Les inspecteurs auront grand soin de ne donner aucune sanction officielle à aucun nouvel arrangement ou construction de chaudière à vapeur, dites de "marine," sans avoir d'abord obtenu la permission par écrit du président; il ne leur est pas permis non plus de donner aucune approbation par écrit en faveur d'aucune invention ou arrangement, à moins d'y être autorisés par le bureau; et chaque fois qu'ils apprendront qu'une invention ou un arrangement nouveau doit être appliqué à un navire qui doit porter un certificat pour transporter des passagers, ils devront aussitôt que possible s'en procurer des plans et les soumettre au président.

Art. 73. Lorsque les sutures longitudinales de fourneaux cylindriques ne sont pas soudées ou faites sous bandes bout-à-bout, tel que prescrit par l'article 56 des présents règlements, les quantités constantes suivantes seront substituées à 90,000 :—

(*a.*) Fourneaux avec joints bout-à-bout et trous de rivets forés.	90,000, lorsque les sutures longitudinales sont à deux rangs de rivets et assujéties par de simples bandes bout-à-bout; 80,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de simples bandes bout-à-bout; 90,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de doubles bandes bout-à-bout.
(*b.*) Fourneaux avec joints bout-à-bout et trous de rivets percés à l'emporte-pièce.	85,000 lorsque les sutures longitudinales sont à deux rangs de rivets et assujéties par de simples bandes bout-à-bout; 75,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de simples bandes bout-à-bout; 85,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de doubles bandes bout-à-bout.
(*c.*) Fourneaux avec joints rabattus et trous de rivets forés.	80,000, lorsque les sutures longitudinales sont à deux rangs de rivets et en biseau; 75,000, lorsque les sutures longitudinales sont à deux rangs de rivets et non en biseau; 70,000, lorsque les sutures longitudinales sont à un rang de rivets et en biseau; 65,000, lorsque les sutures longitudinales sont à un rang de rivets et non en biseau.
(*d.*) Fourneaux avec joints rabattus et trous de rivets percés à l'emporte-pièce.	75,000, lorsque les sutures longitudinales sont à deux rangs de rivets et en biseau. 70,000, lorsque les sutures longitudinales sont à deux rangs de rivets et non en biseau. 65,000, lorsque les sutures longitudinales sont à deux rangs de rivets et en biseau. 60,000, lorsque les sutures longitudinales sont à un rang de rivets et non en biseau.

Fourneaux et tuyaux.

Art. 74. (*a.*) La pression effective extérieure qui sera permise sur les fourneaux et tuyaux en acier, planes circulaires, lorsque soumis à cette pression, quand les joints longitudinaux sont soudés ou faits sous bandes bout-à-bout, sera déterminée au moyen de la formule suivante :—

(*b.*) Le produit de 90,000 multiplié par le carré de l'épaisseur de la tôle en pouces, divisé par la longueur du tuyau, ou fourneau, en pieds, plus 1 multiplié par le diamètre en pouces, sera la pression effective permise par pouce carré en livres, ajoutant dix pour cent au résultat de la formule, pourvu qu'elle ne dépasse par celle trouvée au moyen de la formule suivante :—

$$\frac{90{,}000 \times T^2}{(L + 1) \times D} = \text{la pression effective lorsque}$$

T = l'épaisseur de la tôle en pouces.

D = le diamètre extérieur du carneau en pouces.

L = la longueur du carneau ou du fourneau en pieds, ou la longueur entre les anneaux en pieds, s'il est renforcé par des anneaux propices ou des joints Adamson

(*c.*) Le produit de 10,000 multiplié par l'épaisseur de la tôle en pouces, divisé par le diamètre (extérieur) du tuyau ou fourneau, en pouces, sera la pression effective permise par pouce carré en livres.

Fourneaux et tuyaux en acier ridé.

Art. 75. (*a.*) Pour les fourneaux à tubes en acier, lorsque neufs, ridés et faits à la machine, et pratiquement ronds, la pression effective est trouvée au moyen de la formule suivante, pourvu que les parties planes aux extrémités n'excèdent pas six pouces de longueur, et que les plaques n'aient pas moins de $\frac{5}{16}$ de pouce d'épaisseur :—

$$\frac{14{,}000 \times \text{l'épaisseur en pouces}}{\text{Moyenne du diamètre en pcs.}} = \left\{ \begin{array}{c} \text{la pression effective} \\ \text{au pouce carré.} \end{array} \right.$$

(*b.*) Quand les fourneaux sont rivés, en deux longueurs ou plus, le cas devrait être soumis au président pour être considéré, vu qu'il pourrait être nécessaire de faire une réduction.

Fourneaux en fer ridé.

Art. 76. La pression effective pour les fourneaux en fer ridé, pratiquement circulaires, et faits à la machine, pourvu que les parties planes aux extrémités n'excèdent pas six pouces de longueur et que les plaques n'aient pas moins de $\frac{5}{16}$ de pouce d'épaisseur, ne devrait pas excéder celle trouvée par la formule suivante :

$$\frac{10{,}000 \times \text{l'épaisseur en pouces}}{\text{Moyenne du diamètre en pcs.}} = \left\{ \begin{array}{c} \text{la pression effective} \\ \text{au pouce careé.} \end{array} \right.$$

Devoirs des inspecteurs.

Art. 77. Les inspecteurs fixeront la pression effective des chaudières a moyen d'une série de calculs de la force des diverses parties, et suivant l'ouvrage et les matériaux.

Art. 78. Avant d'éprouver une chaudière, l'inspecteur devra l'examiner, faire les mesurages et calculs nécessaires pour s'assurer que la pression effective est conforme aux présents règlements; si l'épreuve n'est pas satisfaisante, les défauts seront corrigés et la chaudière éprouvée de nouveau. Cette instruction s'applique aux surchauffeurs, récipients à vapeur et chemises à eau aussi bien qu'aux chaudières.

Art. 79. Si la chaudière est trop chaude pour que l'inspecteur puisse l'examiner efficacement avec sûreté et facilité, il devra refuser de l'examiner, et refuser absolument d'accorder un certificat jusqu'à ce qu'il en ait fait un examen suffisant.

Art. 80. Les inspecteurs veilleront à ce que toutes les chaudières neuves et les chaudières qui auront été sorties d'un navire pour être réparées, soient éprouvées au moyen de la pression hydrostatique, dans la proportion d'au moins un et demi de la presssion effective qui sera permise, avant que les chaudières ne soient placées dans les navires pour éprouver l'ouvrage, etc.; mais la pression effective sera établie par la force des armatures, l'épaisseur des plaques et la force des rivets, etc., et non pas par l'épreuve hydrostatique.

Art. 81. L'épreuve hydrostatique ne devra, dans aucun cas excéder celle prescrite par l'article 44 des présents règlements, et ne doit jamais être appliquée avant que la chaudière n'ait été ouverte pour l'examen ni avant que la force n'ait été calculée d'après les mesurages nécessaires pris sur la chaudière même.

Art. 82. Lorsqu'une chaudière est partiellement inspectée par un inspecteur, et que l'inspection est complétée et le certificat accordé par un autre, si l'inspecteur qui était présent à l'épreuve des chaudières par la pression hydrostatique a l'occasion de les examiner à l'intérieur et à l'extérieur après l'épreuve, cet inspecteur fixera la pression qui sera permise sur les chaudières en question, en ayant soin d'informer les propriétaires, fabricants ou agents, et l'inspecteur qui doit plus tard accorder le certificat, de la pression qu'il croit devoir être permise sur ces chaudières, et l'inspecteur qui a partiellement inspecté la chaudière informera l'inspecteur qui complète l'inspection de tous les détails de son inspection de la chaudière.

Art. 83. Les armatures en fonte ne doivent pas être employées, et les inspecteurs devront condamner l'usage de cales et assiettes en fonte pour les chaudières. On doit porter une attention toute spéciale à coincer et assujétir les chaudières dans les navires.

Art. 84. La pression permise sur la chaudière d'un bateau à passagers ne doit jamais, dans aucune circonstance, être augmentée, à moins que l'inspecteur n'ait préalablement écrit au président pour en obtenir la permission. Dans les cas où un inspecteur croira qu'une plus forte pression peut avec sûreté être permise, il devra en informer l'inspecteur qui aura inspecté la chaudière en dernier lieu; et si, en apprenant pourquoi la pression actuelle avait autrefois été permise, l'inspecteur est encore d'opinion qu'elle peut être augmentée, il devra communiquer tous les faits au président; mais comme il est dit plus haut, la pression ne devra, dans aucun cas, être augmentée tant que la question n'aura pas été décidée par le président.

Art. 85. En établissant le maximum de la pression effective sur les chaudières de bateaux à vapeur, les inspecteurs prendront la pression permise comme force motrice pour une chaudière neuve de quarante-deux pouces de diamètre faite de la meilleure qualité de tôle d'acier, d'au moins un quart de pouce d'épaisseur, les trous des rivets devant être percés en place, les plaques étant ensuite séparées et les bavures ébarbées, les sutures longitudinales de la chemise étant assujéties au moyen le bandes d'acier bout-à-bout coupées en travers du grain de la tôle, et chacune de cinq-huitièmes d'épaisseur des plaques qu'elles recouvrent, et toutes les sutures des plaques étant au moins à double rang de rivets et ayant pour le moins soixante-dix pour cent de la force de la tôle solide, toutes les surfaces planes devant être étayées de la meilleure manière et toutes les sutures à doubles rangs de rivets; et ils établiront la pression effective de toutes les chaudières en acier ainsi faites, qu'elles soient d'un moindre ou d'un plus grand diamètre, d'après cette règle; et dans tous ces cas l'épreuve excèdera la pression effective permise pour ces chaudières dans la proportion de cent cinquante à cent livres, et la température de l'eau dont il sera fait usage dans les épreuves n'excèdera pas soixante degrés Fahrenheit; et toutes les proportions ajoutées au facteur de sûreté pour ouvrage mal fait ou matériaux inférieurs devront être déduites de cette pression.

Art. 86. En établissant le maximum de la pression effective sur les chaudières de bateaux à vapeur, les inspecteurs prendront la pression de cent livres par pouce carré pour maximum de pression permise comme force motrice pour une chaudière neuve de quarante-deux pouces de diamètre, faite du meilleur fer affiné, d'au moins un quart de pouce d'épaisseur, de la meilleure manière et de la qualité requise par le présent règlement ; et il établira la pression effcetive de toutes les chaudières en fer, qu'elles soient d'un moindre ou d'un plus grand diamètre, d'après cette règle ; et dans tous ces cas, l'épreuve excédera la pression effective permise dans la proportion de cent cinquante à cent livres, et la température de l'eau dont il sera fait usage dans les épreuves n'excédera pas soixante degrés Fahrenheit; toutes les proportions ajoutées au facteur de sûreté pour ouvrage mal fait ou matériaux inférieurs, devront être déduites de cette pression.

Art. 87. Dans le cas de rivure en zig-zag, la force à travers la tôle diagonalement entre les rivets est égale à la force horizontale entre les rivets, lorsque l'écartement diagonal = $\frac{6}{10}$ de l'écartement horizontal + $\frac{4}{10}$ le diamètre du trou du rivet.

PARTIE III.

Règlement pour l'inspection des chaudières à tubes à eau.

MODE D'INSPECTION DU GENRE DE CHAUDIÈRE À TUBES À EAU APPELÉE "ROBERTS' SAFETY WATER TUBE BOILER," OU AUTRE CHAUDIÈRE SEMBLABLE.

Art. 88. Tout inspecteur pourra, chaque fois qu'il le jugera nécessaire, et un inspecteur devra, au moins une fois chaque année, éprouver la chaudière à tubes à eau de tout bateau à vapeur par une pression hydrostatique dans la proportion de deux cents livres par pouce carré, à cent cinquante livres permises comme pression effective, et la température de l'eau dont il sera fait usage dans l'épreuve n'excédera pas soixante degrés Fahrenheit, et il devra s'assurer, par un examen personnel et des épreuves expérimentales, par vapeur et par eau, que cette chaudière est bien faite et que ces matériaux sont sains et sans défauts. Le propriétaire du bateau à vapeur fournira la pompe à bras et les appareils et le combustible et autres choses nécessaire pour faire l'épreuve, et l'équipage du navire les fera fonctionner; et aucun inspecteur de chaudières et machines ne fera ni ne donnera aucun certificat au propriétaire ou au capitaine d'un bateau à vapeur muni d'une chaudière ou de chaudières à tubes à eau à moins qu'il n'ait préalablement soumis la chaudière ou les chaudières du bateau à cette épreuve hydrostatique, et en marche sous vapeur, afin d'éprouver les chaudières et le fonctionnement des pompes d'alimentation en mouvement, et à l'examen prescrit par le présent, la durée de l'épreuve en marche sous vapeur sera d'au moins une heure, mais pourra être prolongée plus longtemps au choix de l'inspecteur.

Art. 89. Avant qu'une chaudière à tubes à eau ne soit soumise à l'épreuve par la pression hydrostatique, elle sera ouverte pour la visite de l'inspecteur, l'enveloppe extérieure sera enlevée, l'extérieur et l'intérieur de la chaudière seront nettoyés, les grilles enlevées et le fourneau dechargé et balayé, afin qu'il puisse en faire une inspection satisfaisante et complète; lorsque des cloisons seront placées de manière à empêcher une inspection minutieuse de la tôle et des tubes de la chaudière elles seront enlevées ; et le propriétaire ou capitaine du bateau veillera à ce que toutes les dispositions susdites soient prises avant de demander une inspection.

Art. 90. Chaque fois que l'épreuve n'aura pas été satisfaisante, les défauts seront réparés et la chaudière sera soumise à une seconde épreuve, qui devra être satisfaisante avant qu'un certificat ne soit délivré.

Art. 91. L'inspecteur doit fixer la pression effective des chaudières à tubes à eau au moyen d'une série de calculs de résistance des diverses parties tel que ci-dessous spécifié, et en raison de la nature de la main-d'œuvre et des matériaux.

Art. 92. Si une chaudière est trop chaude pour qu'un inspecteur puisse l'examiner efficacement avec sûreté et facilité, il devra refuser de l'examiner, et refuser absolument d'accorder un certificat jusqu'à ce qu'il en ait fait un examen satisfaisant.

Art. 93. Pour s'assurer de la force et de l'état d'une chaudière à tubes à eau, à l'intérieur, l'inspecteur pourra, s'il le juge nécessaire, y faire percer des trous, en faire enlever certaines sections et détacher des tuyaux, et pourra aussi demander qu'on lui fournisse au moyen des dessins et des devis des différentes parties de la chaudière, des renseignements suffisants sur sa construction pour lui permettre au moyen de calculs et d'un examen de déterminer leur force de résistance.

Art. 94. Pendant la confection de toute chaudière à tubes à eau faite en Canada, le fabricant devra notifier l'inspecteur du district dans lequel elle sera faite qu'il peut la venir inspecter, et il devra en tout temps pendant cette confection, donner à l'inspecteur libre accès à la chaudière.

Art. 95. Aucune chaudière à tubes à eau ne devra être faite de tôle à chaudière, soit en fer soit en acier, qui n'aura pas été étampée du nom ou de la marque du fabricant, et nul certificat ne sera délivré pour une chaudière à tubes à eau faite en entier ou en partie de tôle ne portant pas une pareille marque ; et avant qu'un certificat puisse être délivré pour une chaudière à tubes à eau, le fabricant devra fournir à l'inspecteur une déclaration, attestée sous serment, du nom du fabricant de la tôle employée, de la qualité de celle-ci et de la qualité de tous les tuyaux et matériaux employés dans la confection de la chaudière ainsi que la qualité de la main-d'œuvre ; ce serment pourra être prêté devant un juge de paix en Canada, ou devant un notaire public, et attesté sous son sceau officiel, s'il est prêté en dehors du Canada; pourvu toujours que, dans les cas où cette declaration sous serment, par le fabricant de la chaudière, ne pourrait être obtenu pour quelque cause jugée suffisante par l'inspecteur, l'affidavit de deux fabricants pratiques de chaudières à tubes à eau qui auront examiné la chaudière et fait rapport sur la qualité des matériaux qui y ont été employés, celle de l'ouvrage et la force de la chaudière, sera, s'il est trouvé satisfaisant par l'inspecteur, considéré comme suffisant et tiendra lieu de la déclaration requise du fabricant de la chaudière.

Art. 96. Afin d'empêcher qu'il ne s'élève de différends après qu'une chaudière à tubes à eau aura été commencée, le fabricant ou l'entrepreneur devra fournir à l'inspecteur, pour son approbation, les détails relatifs à sa construction, au moyen de dessins et de devis ; l'inspecteur, lorsqu'il aura reçu ces plans ou devis et les aura approuvés veillera à ce qu'ils soient suivis dans la construction, et il devra réduire la pression effective si ces plans n'ont pas été suivis. Le présent règlement s'appliquera aussi aux chaudières subissant des changements.

Art. 97. Aucune chaudière à tubes à eau, ni aucun tuyau s'y rattachant, ne sera approuvé s'il est fait en entier ou en partie de mauvais matériaux, ou si l'ouvrage est défectueux, ou s'il est dangereux à cause de sa forme, de sa vétusté, de sa détérioration par l'usage, ou pour toute autre cause.

Art. 98. Les inspecteurs veilleront à ce que toutes les chaudières à tubes à eau neuves et les chaudières à tubes à eau qui auront été sorties d'un navire pour être réparées, soient éprouvées au moyen de la pression hydraulique dans la proportion d'au moins deux fois la pression effective qui sera permise, avant que les chaudières ne soient placées dans le navire, et éprouver l'ouvrage et les matériaux, mais la pression effective sera établie par la force des armatures, l'épaisseur de la plaque et des tuyaux, la force des rivets, etc., et non pas par l'épreuve hydraulique seulement.

Art. 99. L'épreuve hydraulique ne devra pas excéder la proportion de deux fois la pression effective permise, et ne doit jamais être appliquée avant que la chaudière n'ait été ouverte pour l'examen, ni avant que la force de toutes les parties de la chaudière n'ait été calculée d'après les mesurages nécessaires pris sur la chaudière même.

Art. 100. Lorsqu'une chaudière à tubes à eau est partiellement inspectée par un inspecteur, et que l'inspection est complétée et le certificat accordé par un autre si l'inspecteur qui était présent à l'épreuve de la chaudière par la pression hydraulique, et en marche sous vapeur, a l'occasion de l'examiner à l'intérieur et à l'extérieur après l'épreuve, cet inspecteur fixera la pression effective qui sera permise sur la chaudière, en ayant soin d'informer les propriétaires ou le fabricant ou le capitaine ou l'agent, et l'inspecteur qui l'a partiellement inspectée, de la pression effective qu'il croit devoir être permise sur cette chaudière, et l'inspecteur qui a partiellement inspecté la chaudière devra informer l'inspecteur qui complète l'inspection de tous les détails de son inspection de la chaudière.

Art 101. Les armatures, tuyaux et coudes en fonte ne doivent pas être employés dans les chaudières à tubes à eau ; les inspecteurs devront condamner l'usage de cales et assiettes en fonte pour les chaudières. On doit porter une attention toute spéciale à coincer et assujétir les chaudières dans les navires pour les empêcher de se déplacer et de se détacher, et tous les tuyaux devront être de la meilleure qualité de métal, à joints superposés, ou faits tout d'une pièce.

Art. 102. La pression permise sur la chaudière à tubes à eau ne doit jamais, dans aucune circonstance, être augmentée, à moins que l'inspecteur n'ait préalablement écrit au président du bureau d'inspection des bateaux à vapeur, pour en obtenir la permission. Dans les cas où un inspecteur croira qu'une plus forte pression peut avec sûreté être permise, il devra en informer l'inspecteur qui aura inspecté la chaudière en dernier lieu ; et si, en apprenant pourquoi la pression actuelle avait autrefois été permise, l'inspecteur est encore d'opinion qu'elle peut être augmentée, il devra communiquer tous les faits au président, mais comme il est dit plus haut, la pression ne devra, dans aucun cas, être augmentée tant que la question n'aura pas été décidé par le président.

Art. 103. Dans le cas d'une nouveauté quelconque dans la construction d'une chaudière à tubes à eau, ou si l'on s'est départi du mode d'entretoisement et de renforcement prescrit dans les présentes règles, l'inspecteur fera rapport de toutes les circonstances au président avant de fixer la pression effective.

Art. 104. Un inspecteur ne déclarera pas qu'une chaudière à tubes à eau est sûre à moins qu'il n'en connaisse tout à fait la construction, les matériaux et la main-d'œuvre. Il devra par conséquent prendre des précautions avant de s'aventurer à sanctionner une chaudière qu'il n'aura pas été appelé à inspecter avant qu'elle ait été terminée et mise en place.

Art. 105. Dans le cas de chaudières à tubes à eau neuves, les inspecteurs autoriseront une tension n'excédant pas 5,000 livres par pouce carré de la section nette des tirants en fer plein filetés supportant des surfaces planes; mais la tension ne devra pas dépasser 4,000 livres si les tirants ont été soudés. Lorsque la tête du tambour est assujétie au moyen d'un tirant au centre, l'aire à supporter sera d'un quart de toute l'aire de la tête, mesurée à l'intérieur du tambour. Pour les tirants dans les chaudières à tubes à eau, il pourra être permis 6,000 livres par pouce carré d'aire de profil, si d'ailleurs elles sont conformes aux chaudières auxquelles s'appliquent les règles I et II.

Art. 106. La pression sur les plaques formant des surfaces planes est déterminée par la formule suivante :—

$$\frac{C \times (T-1)^2}{S-6} = \text{pression effective par pouce carré.}$$

Lorsque la tête du tambour est supportée par un tirant au centre, l'aire de la surface plane supportée et la pression effective se trouvent par la formule suivante :—

$$\frac{C \times (T+1)^2}{\left(\frac{d}{2}-1\right)^2-6} = \text{la pression effective.}$$

d = le diamètre intérieur de la tôle du tambour en pouces.

T = l'épaisseur de la tôle en seizièmes de pouces.

S = la surface supportée en pouces carrés.

C = la constante déterminée suivant les circonstances suivantes :—

(*a*.) C = 80 lorsque les tôles sont exposées au choc de la chaleur, flamme ou gaz chauds, l'eau et la vapeur étant en contact avec elles (comme dans la chaudière dite Roberts Safety Water Pipe Boiler), et que les tirants sont vissés dans les tôles, munis d'écrous; ou bien rivés avec une bonne tête.

(*b*.) Lorsque les extrémités vissées des tirants sont très corrodées ou brûlées, les constantes doivent être réduites, mais l'inspecteur doit se guider sur les circonstances constatées lors de l'inspection; et dans le cas où il est reconnu que les extrémités vissées des tirants sont dans cet état, la constante pourra être réduite de 80 à 36. Dans les cas douteux l'inspecteur pourra soumettre le cas au président.

Art. 107. Par rapport à l'inspection en général de la Roberts Safety Water Tube Boiler, ou de chaudières de forme semblable—

La chaudière sera ouverte à l'inspection pendant sa construction, l'inspecteur s'assurera que dans toutes les chaudières de ce genre faites après le premier jour de février 1891, la qualité de la tôle ou matière dont est fait le tambour est de la "meilleure qualité," et porte le nom ou l'étampe du fabricant, et, s'il est d'acier, que la force de tension est entre 57,000 et 64,000 livres, et supporte au moins 25 pour 100 d'allongement, et que les épreuves des tôles (applicables lorsque le tambour est rivé longitudinalement) et des tirants sont identiques aux épreuves prescrites par l'article 36 des susdits "Règlements pour l'inspection des chaudières des bateaux à vapeur."

(*a*.) La constante qui sert à calculer la pression effective permise sur un tambour de tôle de fer ou d'acier sera de 30,000 livres par pouce carré d'aire de profil, tenant compte du pourcentage des sutures si elles sont rivées, et du pourcentage de tôle laissé par la ligne de trous là où les tubes à eau sont attachés, employant un facteur d'au moins 5, avec additions tel que prescrit dans les susdits "Règlements pour l'inspection des chaudières de bateaux à vapeur."

Art. 108. L'épaisseur de la tôle dans les tambours de chaudières à tubes à eau de moins de dix pouces de diamètre devra avoir au moins trois-huitièmes de pouce, et pour les tubes de dix pouces de diamètre jusqu'à quatorze pouces elle sera d'au moins un demi-pouce, et les têtes de tambour n'auront jamais moins d'un demi-pouce d'épaisseur, et après avoir été bridées si elles sont de tôle d'acier, elles seront trempées.

Les têtes de tambour des chaudières à tubes à eau pourront être soudées au tambour au lieu d'être rivées ou boulonnées au tambour, lorsque le tambour et les tôles sont en fer, et n'excèdent pas neuf pouces de diamètre.

Art. 109. Les soupapes de sûreté seront placées une sur le tuyau à vapeur près du tambour, et une sur le tambour, le nombre et les dimensions des soupapes de sûreté seront tel que prescrit dans les "Règlements concernant l'inspection des soupapes de sûreté."

(*a*.) L'aire collective de soupape de sûreté requise sur chaque chaudière à tubes à eau jumelle (reliées par des soupapes ou des robinets) au delà de la même aire de grille, peut être divisée en quatre soupapes de sûreté; deux sur chaque partie de la chaudière.

PARTIE IV.

RÈGLEMENTS CONCERNANT L'INSPECTION DES SOUPAPES DE SURETÉ, EN VERTU DU 1ER ARTICLE DE L'ACTE 53 VICTORIA, CHAPITRE 17, INTITULÉ "ACTE MODIFIANT DE NOUVEAU L'ACTE D'INSPECTION DES BATEAUX À VAPEUR, CHAPITRE 78 DES STATUTS REVISÉS."

Art. 110. (*a*.) Après que les règlements seront devenus exécutoires, chaque chaudière faite ou placée à bord d'un bateau à vapeur sera munie de deux soupapes de sûreté, ou plus, fermées à clef, dont la construction sera approuvée par le bureau d'inspecteurs de bateaux à vapeur, ou par le président, si le bureau n'est pas alors en session; l'aire collective des dites soupapes de sûreté ne sera pas inférieure à celle spécifiée dans la table ci-jointe vis-à-vis la pression attribuée à la chaudière; les soupapes de sûreté devraient être posées sur la chaudière, ou aussi près que possible de la chaudière, sans tuyaux, robinets, soupapes et autres obstacles possibles entre les soupapes de sûreté et la chaudière.

Chaque inspecteur, lorsqu'il inspecte, visite ou examine la chaudière ou les machines d'un bateau à vapeur, devra s'assurer que les soupapes de sûreté y attachées sont de dimensions convenables, en nombre suffisant, bien disposées et fonctionnent bien, et ne portent que le poids nécessaire pour leur permettre de s'ouvrir à la pression ou au-dessous de la pression effective certifiée; et, s'il le juge à propos, il pourra ordonner que deux de ces soupapes de sûreté ou plus (lesquelles seront ensemble de dimensions suffisantes à laisser échapper toute la vapeur que la chaudière peut produire, et dont il approuvera la construction) soient fermées à clé et soustraite au contrôle du mécanicien lorsque la vapeur est levée; mais le mécanicien aura accès aux soupapes de sûreté lorsque la vapeur n'est pas levée, et veillera à ce qu'elles soient tenues en bon état de fonctionnement, et le capitaine du bateau à vapeur verra à ce que le mécanicien y ait accès à cette fin, et les tienne en bon état de fonctionnement.

Les robinets et soupapes attachés aux chaudières seront solidement faits, et jamais fixés aux chaudières au moyen de vis dans la tôle, à moins que pour plus grande sûreté, des brides boulonnées ne soient ajoutées en sus de ses attaches.

Aucune soupape ne devra, dans aucun cas, porter un poids, ou être arrangée de manière à assujétir la chaudière à une plus grande pression que celle permise par l'inspecteur lors de sa dernière inspection.

Chaque soupape de sûreté faite ou placée à bord d'un bateau à vapeur et attachée à une chaudière devra avoir un jeu au moins égal à un quart de son diamètre, les orifices pour le passage de la vapeur en entrant et sortant, auront chacune une aire égale à l'aire de la soupape, de même que le tuyau de renvoi d'eau, et la boîte de la soupape aura un tuyau de renvoi d'eau; si le levier d'une soupape de sûreté n'est pas emboîté dans du cuivre, la cheville sera de cuivre,—le fer en contact avec le fer ne sera pas permis; chaque soupape de sûreté sera munie d'un appareil de levage de manière à pouvoir le faire fonctionner avec la main, soit de la chambre de la machine soit de la cale des feux, ou par le capitaine ou personne en charge sur le pont;

(*b*.) On ne doit pas admettre de soupape de sûreté qui n'ont pas au moins deux pouces de diamètre, sauf dans le cas de petites chaudières dont la surface de grille a moins de quinze pieds carrés, cas où l'on peut tolérer des soupapes de sûreté d'un moindre diamètre; mais en aucun cas ce diamètre ne doit avoir moins d'un pouce, et pourvu qu'elles soient d'une construction approuvée, et que l'aire de la soupape de sûreté soit relativement à l'aire de grille dans le rapport indiqué dans les tables d'aires de soupapes de sûreté.

(*c*.) L'aire de la grille sera constatée en mesurant la longueur de la grille depuis le bord intérieur de la plaque fixe jusqu'au devant de l'arche, et la largeur d'un côté à l'autre du fourneau au-dessus des barres à leur centre.

(*d*.) L'inspecteur éprouvera les soupapes de sûreté sur les nouvelles chaudières, ou sur d'autres chaudières s'il désire les prouver, sous pleine vapeur et feux ardents pendant au moins 15 minutes, tenant le tuyau d'alimentation arrêté, et la soupape d'arrêt fermée Si l'accumulation de la pression excède 10 pour 100 de la pression voulue, il n'accordera pas de certificat sans faire rapport au président de tous les détails de l'épreuve, et de la pression dans la chaudière ainsi qu'un dessin de la soupape de sûreté; et un inspecteur ne devra jamais donner un certificat pour des soupapes de sûreté sans les avoir examinées, et s'être mis au fait des détails de leur construction.

Art. 111. (*a*.) Instruction est donnée aux inspecteurs que dans toutes les nouvelles chaudières, et chaque fois que des changements peuvent facilement être faits, la boîte de soupape doit être placée directement sur la chaudière; et le col, ou la partie de la boîte et la bride qui est attachée à la chaudière, doivent être aussi courts que possible.

(*b*.) Chaque fois qu'un inspecteur croit qu'il est positivement dangereux d'avoir une longueur de tuyaux entre les chaudières et la boîte de la soupape de sûreté, il devra de suite insister pour que les changements nécessaires soient faits avant d'accorder un certificat.

(*d.*) Lorsque des soupapes à levier sont employées la distance entre le centre de la soupape et le centre du point d'appui ne doit pas être moindre que le diamètre de la soupape.

(*e.*) Les soupapes de sûreté doivent être placées dans des endroits convenables et d'accès facile, afin que leur ajustement et examen puissent être faits aisément et efficacement. Dans l'examen des chaudières et des machines, l'inspecteur doit surtout porter son attention aux soupapes, et chaque fois qu'il le juge nécessaire il doit s'assurer de la pression sur la chaudière en en faisant l'épreuve. L'inspecteur doit examiner les soupapes de sûreté, les poids et les ressorts à chaque inspection.

(*f.*) Les sièges des soupapes doivent être fixés de manièete à ne pas lever avec la soupape.

(*g.*) L'arbre du tiroir doit être attaché à la soupape de façon à lever en même temps que la soupape.

(*h.*) La dimension de l'acier dont est fait le ressort pour les soupapes de sûreté à ressort, se trouve au moyen de la formule suivante prise des règlements du Conseil du Commerce Impérial:—

$$\sqrt[3]{\frac{S \times D}{c}} = d$$

$c = 8,000$ pour acier rond.

$c = 11,000$ pour acier carré.

$S =$ le poids en livres sur le ressort.

$D =$ le diamètre du ressort (d'axe en axe du fil métallique en pouces.)

$d =$ le diamètre ou côté du fil métallique, en pouces.

Le ressort doit être protégé contre la vapeur et les impuretés sortant de la chaudière, et des mesures doivent être prises pour maintenir le ressort en position sur la soupape dans le cas où il se briserait.

(*i.*) Un ressort règlementaire fait du meilleur acier carré, contient ·25 d'un pouce carré, le diamètre intérieur est de deux pouces, et le diamètre extérieur est de trois pouces; il a treize tours complets avec les bouts, et a 11½ pouces de long. Le poids effectif est placé à 600 livres, un sixième de son poids de rupture lorsqu'il est trempé à un degré justement suffisant pour le casser; avec ce poids il doit fléchir exactement d'un pouce.

(*j.*) Pour trouver l'aire de profil pour tout autre ressort, la pression ou poids sur la soupape étant donnée:—

600 : 700 : : ·25 : ·29 = aire de profil ou ressort à une charge de 700 liv. Les autres dimensions du ressort sont dans la même proportion, le nombre de tours, treize, étant constant.

$$\frac{37\cdot5}{\text{pression brute}} = \text{un pouce carré de la soupape de sûreté par pouce de grille.}$$

PARTIE V.

Devoirs et responsabilité des mécaniciens.

Art. 112 (*a.*) Dans tous les cas, les mécaniciens, en arrêtant la machine, devront ouvrir la soupage de sûreté de façon à maintenir la vapeur dans la chaudière au-dessous de la limite fixée par le certificat de l'inspecteur, comme le prescrit la loi, ouvrir le fourneau et fermer les registres, et quand, à la suite d'un accident ou pour toute autre cause, l'eau de la chaudière est descendue au-dessous du point de sûreté, éteindre les feux immédiatement.

(*b.*) Les mécaniciens devront entretenir en parfait état les pompes, les boyaux et leurs jonctions, afin qu'ils soient toujours prêts en cas de besoin; et lorsque ces appareils ne pourront plus servir par suite de leur usage ou pour d'autre cause, les mécaniciens devront faire rapport de l'état dans lequel sont les dits appareils à l'inspecteur des coques qui a inspecté le vapeur en dernier lieu.

(*c.*) Les mécaniciens lorsqu'un vapeur est conduit à ses quartiers d'hiver, ou quand il les quitte définitivement, devront faire rapport au propriétaire et à l'inspecteur de la division la plus voisine, de tous défauts qui existent dans la chaudière ou la machine, ou des dommages qu'elles ont subis et qui pourraient compromettre la sûreté des passagers. Ils feront aussi rapport à l'inspecteur de la division dans laquelle le vapeur a abordé, de tout accident qui aura pu arriver à la chaudière ou machine, et dans le cas d'omission à faire ce rapport, la licence du mécanicien coupable de cette omission sera révoquée.

(*d.*) Le mécanicien en chef d'un vapeur est tenu responsable par le département de la Marine du soin et du bon entretien des chaudières et machines dont il a la charge. Dans aucun cas il ne devra donc s'absenter du vapeur quand il fait ses voyages réguliers, à moins qu'il ne se fasse remplacer durant son absence par une personne compétente.

(*e.*) Les mécaniciens à leur entrée en charge sur un vapeur, et au moins une fois par année ensuite, devront s'assurer par un examen minutieux que les tirants, armatures et fiches de la chaudière sont en bon état et capables de soutenir la tension à laquelle ils peuvent être exposés ; ils devront aussi s'assurer que les soupapes de sûreté sont en bon état et peuvent suffire dans les cas mentionnés dans les articles 65 et 110 de ces règlements.

(*f.*) Les mécaniciens afficheront leurs certificats dans la chambre des machines, ainsi qu'une copie de ces règlements lorsqu'ils en seront requis.

Soin des chaudières.

Art. 113 (*a.*) Lever la vapeur. – Chauffez la chaudière graduellement. On ne doit pas produire de vapeur avec de l'eau froide en moins de quatre heures. Si c'est possible, allumez les feux la veille au soir. En produisant de la vapeur trop vite, la chaudière sera détruite en peu de temps.

(*b.*) Chauffer.—Chauffez régulièrement. Tenez les côtés pleins et employez le tisonnier légèrement et le moins souvent possible.

(*c.*) Eau d'alimentation.—Que la provision d'eau soit régulière et constante.

(*d.*) Manomètre en verre et robinets d'essai.—Tenez le verre libre et essayez les robinets tous les quarts d'heure.

(*e.*) Soupapes de sûreté.—Soulevez chaque soupape de sûreté au moins une fois par jour, et toujours avant de lever la vapeur.

(*f.*) Eau basse. – Eteignez les feux en les retirant ou en les recouvrant de cendres. N'y jetez jamais d'eau. On ne doit jamais laisser baisser l'eau.

(*g.*) Vider la chaudière.—Ne videz pas au moyen de la pression de vapeur ; laissez écouler l'eau si c'est possible. Veillez à ce que les feux soient éteints et les cendres chaudes enlevées.

(*h.*) Nettoyeurs de chaudières.—N'employez jamais de compositions pour empêcher les encroûtements, ni d'huile ou autres impuretés pour les enlever, sans l'approbation du président.

(*i.*) Règles générales.—Tenez la chaudière nette à l'intérieur et à l'extérieur et exempte de fuites d'eau. Ne jetez jamais d'eau dans la fournaise. Sous une haute pression, soulevez doucement la soupape de sûreté. Amortissez les feux, ou, si c'est nécessaire, arrêtez la machine (si le patron croit que la chose peut se faire avec sûreté), lorsque l'eau écume, pour trouver son niveau.

PARTIE VI.

RÈGLEMENT CONCERNANT L'EXAMEN DES MÉCANICIENS.

Mécaniciens de quatrième classe.

1. Nul n'aura droit d'obtenir un certificat de mécanicien de quatrième classe à moins qu'il ne remplisse les conditions suivantes, savoir :—

(*a.*) Il devra être âgé de plus de vingt et un ans.

(*b.*) Il devra avoir fait un apprentissage de pas moins de trente-six mois dans un atelier de machines à vapeur et avoir été employé à la confection et réparation de machines à vapeur ; ou, s'il n'a pas fait cet apprentissage, il devra avoir été employé pendant trente-six mois au moins comme compagnon dans quelque atelier à la confection et réparation de machines à vapeur ; ou—

(*c.*) Il devra avoir servi pendant trente-six mois au moins dans la chambre de la machine d'un bateau à vapeur comme mécanicien de quart ; ou—

(*d.*) Il devra avoir servi pendant trente-six mois au moins dans la chambre de la machine d'un bateau à vapeur d'une force nominale de trente chevaux au moins, comme graisseur de quart ; ou—

(*e.*) Il devra avoir servi pendant quarante-huit mois au moins dans la cale des feux d'un bateau à vapeur d'une force nominale de trente chevaux au moins, comme chauffeur de quart ;

(*f.*) Et dans chacun des cas ci-dessus mentionnés, il pourra avoir servi pendant douze (12) mois du temps prescrit dans un atelier de chaudières à la confection et réparation des chaudières à vapeur.

(*g.*) Service dans la double capacité de mécanicien et chauffeur, ou de graisseur et chauffeur, ne sera accepté que comme service de chauffeur, pour mécanicien de quatrième classe, et nulle autre, si ce service a été sur des machines d'une force nominale d'au moins trois chevaux.

(*h.*) Il devra savoir lire et avoir une écriture lisible.

(*i.*) Il devra comprendre l'agencement et le fonctionnement de la pompe alimentaire, des indicateurs d'eau et des soupapes de sûreté ; il devra savoir quand une chaudière gonfle et comment arrêter le gonflement ; il devra aussi comprendre le danger résultant de la négligence à entretenir une chaudière proprement, et savoir comment la nettoyer.

Mécaniciens de troisième classe.

2. Nul n'aura droit à un certificat de mécanicien de troisième classe à moins qu'il ne remplisse les conditions suivantes, savoir :—

(*a.*) Il devra être âgé de plus de vingt et un (21) ans ;

(*b.*) Il devra avoir fait un apprentissage de trente-six mois ou moins dans un atelier de machines à vapeur, et avoir été employé à la confection et la réparation de ces machines ;—ou, s'il n'a pas fait cet apprentissage, il devra avoir été employé pendant trente-six mois au moins comme compagnon dans quelque atelier à la confection et réparation de ces machines ; et, dans l'un ou l'autre cas, il devra avoir servi pendant douze mois dans la chambre de la machine d'un bateau à vapeur comme mécanicien de quart ; ou—

(*c.*) Il devra avoir servi pendant quarante-huit mois au moins dans la chambre de la machine d'un bateau à vapeur comme mécanicien de quart ;

(*d.*) Il devra pouvoir faire une description des chaudières, de la manière de les étayer, et savoir comment les réparer, comment doubler une machine, poser ses excentriques et ajuster les tiroirs ou soupapes, et connaître la cause de tout dérangement et les moyens d'y remédier.

(*e.*) Il devra savoir lire et avoir une bonne écriture et comprendre les cinq premières règles de l'arithmétique.

Mécaniciens de seconde classe.

3. Un mécanicien de seconde classe devra remplir les conditions suivantes, savoir :—

(*a.*) Il devra être âgé de plus de vingt et un ans ;

(*b.*) Il devra avoir fait un apprentissage, de pas moins de trente-six mois dans un atelier de machines à vapeur, et avoir été employé à la confection et réparation des machines à vapeur ;—ou, s'il n'a pas fait cet apprentissage il devra prouver qu'il a été employé pendant pas moins de trente-six mois comme compagnon dans quelque atelier, à la confection et à la réparation des machines à vapeur, * et dans l'un et l'autre cas il devra aussi avoir servi pendant douze mois au moins dans la chambre de la machine d'un bateau à vapeur d'une force nominale de trente chevaux au moins, comme mécanicien de quart ; ou—

(*c.*) Il devra avoir servi pendant quarante-huit mois au moins dans la chambre de la machine d'un bateau à vapeur comme mécanicien de quart, dont vingt-quatre mois au moins l'auront été sur un bateau à vapeur d'une force nominale de pas moins de trente chevaux ;

(*d.*) Il devra être capable de faire la description des chaudières et de la manière de les étayer, ainsi que l'emploi et le fonctionnement des divers robinets, soupapes, tuyaux et raccordements ;

(*e.*) Il devra savoir comment remédier aux défectuosités provenant d'accidents, usure, etc., et comment réparer ces défectuosités ;

(*f.*) Il devra comprendre l'emploi du baromètre, du thermomètre, du salinomètre, et les principes d'après lesquels ils sont construits ;

(*g.*) Il devra indiquer les causes et les effets des incrustations et de la corrosion, et les remèdes à y apporter ;

(*h.*) Il devra pouvoir expliquer comment faire une réparation temporaire ou permanente, dans le cas où une partie du mécanisme se dérangerait ;

(*i*) Il doit pouvoir lire lisiblement, et comprendre les cinq premières règles de l'arithmétique, et les décimales, et leur application aux questions relatives à la consommation des provisions, et la capacité des réservoirs et soutes, le fonctionnement des pompes, et la tension directe dans les machines et les chaudières.

(*j.*) Il devra pouvoir passer un examen honorable sur les diverses constructions de machines à aubes et à hélice d'un usage général, sur les détails des diverses pièces de fonctionnement, extérieures et intérieures, et l'utilité de chaque pièce.

Mécaniciens de première classe.

4. L'aspirant à un certificat de mécanicien de première classe devra être âgé de vingt-deux ans.

(*a.*) En sus des capacités et connaissances d'un mécanicien de seconde classe, il devra avoir servi au moins douze mois dans un grade qui ne sera pas inférieur à celui de mécanicien de seconde classe de quart dans la chambre de la machine d'un bateau ou de bateaux à vapeur de la force nominale de cent chevaux ou plus, pendant lequel temps il devra avoir été porteur d'un certificat de capacité comme mécanicien de seconde classe.

---

* Nulle période de service excédant six mois dans un atelier de dessin ne peut être admise à compter comme service dans un atelier.

(*b.*) Il devra pouvoir calculer l'épaisseur de la tôle nécessaire pour une chaudière de dimensions données pour supporter une pression fixe de vapeur par pouce carré, et aussi la pression que l'on peut faire porter à la chaudière, ses dimensions, étais et autres parties, son genre de construction et l'épaisseur de la tôle étant donnés.

(*c.*) Il devra pouvoir calculer la tension directe, la force de torsion et la force de courbure des barres rectangulaires et rondes soumises à certaines charges. La capacité voulue de la pompe d'alimentation, et l'aire des soupapes de sûreté d'une chaudière de dimensions données, et la force d'une machine d'après le diagramme de son fonctionnement.

(*d.*) Il devra connaître les volumes relatifs de la vapeur à diverses températures et pressions, les parties constituantes chimiques de la houille et la quantité d'air nécessaire pour sa combustion.

(*e.*) Il devra connaître la conpensation de surface, le surchauffage et le travail de la vapeur par dilatation.

(*f.*) Il devra pouvoir expliquer le fonctionnement de la machine, et faire une épure de n'importe quelle partie de la machine.

(*g.* Ses connaissances en fait d'arithmétique devront s'étendre à l'extraction des racines carrées, et le mesurage des superficies et des solides.

Les demandes d'examen doivent être adressées au bureau d'inspecteur des bateaux à vapeur, ou à l'inspecteur de la division où réside le candidat; elles seront faites sur des formules fournies à cette fin par l'inspecteur, et seront accompagnées des preuves de service et de certificats de sobriété, d'expérience et d'habileté, de bonnes mœurs et de bonne conduite en général pendant au moins les douze mois précédant immédiatement la date de la demande d'examen. Si le service s'est fait à terre, les certificats devront être signés par un patron, s'il s'est fait en mer, par le capitaine et mécanicien-chef, s'ils ne sont pas ainsi signés, de bonnes raisons devront être données à l'examinateur, car ce dernier n'acceptera aucune preuve de service ni aucuns certificats qui ne seront pas complètement satisfaisants.

Les mécaniciens qui pour une cause quelconque ont eu leurs certificats révoqués subiront un second examen avant de pouvoir encore porter un certificat du même grade. S'ils passent l'examen un nouveau certificat leur sera accordé. Toutefois, le ministre de la Marine pourra, dans certains cas spéciaux, sur le rapport du bureau d'inspecteurs de bateaux à vapeur, et si les circonstances le permettent, dispenser de ce nouvel examen.

Tout mécanicien qui, antérieurement à l'année 1886, était porteur d'un certificat de mécanicien de première, deuxième ou troisième classe, pourra recevoir du ministre un certificat du même grade, en subissant un examen semblable à son premier examen devant le bureau d'inspecteurs des bateaux à vapeur, si le dit bureau ou le président du bureau est convaincu que ses mœurs, connaissance et expérience des devoirs d'un mécanicien justifient ce certificat, et pourvu que le dit bureau ou le président fasse rapport au ministre dans ce sens, et spécifie le grade de certificat qu'il doit recevoir; et pour ce certificat il aura à payer un honoraire de $5.

SERVICE EXIGÉ POUR OBTENIR DES CERTIFICATS DE MÉCANICIENS DE SECONDE OU DE PREMIÈRE CLASSE VALABLES DANS LE ROYAUME-UNI.

Les mécaniciens porteurs de certificats canadiens de première et seconde classe, qui ont passé des examens de même degré que les examens actuellement en vigueur dans le Royaume-Uni, et qui désirent échanger leurs certificats pour des certificats du même grade valables dans le Royaume-Uni, pourront s'adresser au président ou à un inspecteur pour être examinés quant au service en mer, la sobriété, la moralité, les couleurs, l'habileté et l'ouïe. S'ils passent cet examen, un certificat valable dans le Royaume-Uni pourra leur être accordé gratis.

Les aspirants aux certificats canadiens de mécaniciens de seconde ou de première classe valables dans le Royaume-Uni seront obligés de passer des examens du même degré que les examens dans le Royaume-Uni.

Le service que les papiers d'examen du candidat devront établir, est le suivant :—

Certificats de mécaniciens de seconde classe valables dans le Royaume-Uni.

1. 36 mois de service dans un atelier, employé à la confection et réparation de machines à vapeur, ainsi que—
   12 mois de service comme mécanicien de quart sur les navires de long cours, ou
2. 36 mois de service dans un atelier employé à la confection et réparation de machines à vapeur, ainsi que—
   18 mois de service comme mécanicien de quart dans le cabotage, ou—
3. 36 mois de service dans un atelier, employé à la confection et réparation des machines à vapeur, ainsi que—
   18 mois de service comme mécanicien de quart sur les lacs ou rivières, et—
   3 mois de service comme mécanicien de quart en mer, ou—
4. 48 mois de service comme mécanicien de quart sur navires de long cours, ou
5. 72 mois de service comme mécanicien de quart dans le cabotage, ou
6. 90 mois de service comme mécanicien de quart sur les lacs et rivières, ainsi que—
   3 mois de service comme mécanicien de quart en mer.

Certificats de mécaniciens de première classe valables dans le Royaume-Uni.

1. En outre des qualités requises d'un mécanicien de seconde classe, le candidat devra avoir servi au moins 12 mois en mer comme mécanicien de quart dans la chambre de la machine d'un navire à vapeur d'une force nominale de pas moins de 100 chevaux, durant lesquels il devra avoir été porteur d'un certificat de capacité comme mécanicien de seconde classe ;
2. Ou il devra avoir servi au moins 18 mois comme mécanicien de quart sur un navire à vapeur engagé dans le cabotage, d'une force nominale de pas moins de 100 chevaux, et avoir été porteur d'un certificat de capacité comme mécanicien de seconde classe pendant ce temps ;
3. Ou il devra avoir servi pendant 12 mois comme mécanicien-chef ou seul mécanicien sur un vapeur des lacs ou rivières ayant une aire collective de piston de pas moins de 2,000 pouces circulaires; de plus, il devra avoir servi en mer pendant au moins 6 mois comme mécanicien de quart, et pendant tout ce temps il devra avoir été porteur d'un certificat de capacité comme mécanicien de seconde classe.

Définition.

" Service des lacs et rivières " signifie service sur les eaux intérieures, lequel aura dû être fait dans une capacité non inférieure à celle de 3e mécanicien sur un vapeur ayant une aire collective de piston de pas moins de 2,000 pouces circulaires, 2 mois de tel service n'étant considérés que l'équivalent d'un mois de service en mer.

" Cabotage " signifie service sur les navires à vapeur naviguant entre un port ou endroit en Canada, et tout autre port ou endroit en Canada, n'étant pas un port ou endroit dans les eaux de l'intérieur. Service dans le cabotage doit être double du service sur les navires de long cours.

" Service d'atelier " signifie l'apprentissage avec un mécanicien, ou un compagnon employé dans une usine, ou atelier, employé à la confection et la réparation des machines à vapeur.

" Mécanicien de quart " signifie la charge réelle des machines de propulsion, responsable des clochettes, et dans une capacité qui lui donne l'occation d'obtenir une expérience pratique comme mécanicien. Service comme graisseur ou chauffeur ne sera pas accepté.

" Service en mer " ou " long cours " signifie service à bord de navires à vapeur engagés dans le commerce étranger, et naviguant entre quelque port ou endroit dans la Puissance du Canada et quelque port ou endroit en dehors de la Puissance, n'étant pas un port ou endroit dans aucunes des eaux de l'intérieur.

PARTIE VII.

Inspection des coques et équipement des bateaux à vapeur portant des passagers.

Art. 1. Avant d'accorder un certificat pour transporter des passagers, les inspecteurs de coques devront s'assurer que les prescriptions de l'acte concernant l'inspection des bateaux à vapeur ont été observées.

(*a.*) Que la coque du bateau est suffisante pour le service auquel il est destiné, et est en bon état.

(*b.*) Que les canots, ceintures de sauvetage, bouées, feux, signaux, et boussoles sont en bon état, et que les certificats du capitaine et du second ou des seconds, du mécanicien ou des mécaniciens, sont en conformité du dit acte.

(*c.*) La durée (si pour moins de 12 mois) pour laquelle la dite coque sera jugée suffisante.

(*d.*) Les limites (si aucune) que, dans l'opinion de l'inspecteur, le navire ne doit pas dépasser, vu l'état de la coque et des équipements.

(*e*.) Le nombre de passagers, à part l'équipage, que le navire peut porter, faisant une distinction, si c'est nécessaire, entre les nombres respectifs à transporter sur le premier pont et le second pont.

Art. 2. (*a*.) Les inspecteurs devraient faire leur inspection en présence du propriétaire, du capitaine et du mécanicien du navire, si c'est possible. Les réparations nécessaires peuvent alors être indiquées aux personnes intéressées, sans perte de temps. Si ces personnes ne sont pas présentes, les inspecteurs feront leur inspection sans elle.

(*b*.) Afin d'empêcher toute erreur quant à la nature et à l'étendue des réparations exigées par les inspecteurs, chaque fois qu'ils ne peuvent donner un certificat avant que les réparations ne soient effectuées ou les changements faits, un état par écrit des défaut à corriger ou des changements requis devrait, dans tous les cas, être donné au propriétaire ou capitaine du navire, que cet état soit ou non demandé par lui; et copie de cet état devrait toujours être prise et transférée au registre des lettres du bureau.

(*c*.) S'il s'élève quelque différend entre l'inspecteur et le propriétaire ou capitaine, les faits devraient être immédiatement soumis au président d'inspection des bateaux à vapeur pour sa considération, et pour être référés au ministre de la Marine et des Pêcheries, si c'est nécessaire.

Art. 3. Si un navire qui fait ordinairement le service dans une circonscription est conduit dans une autre circonscription pour être inspecté, l'inspecteur de cette dernière circonscription ne doit pas donner de certificat sans avoir d'abord communiqué avec l'inspecteur de la première circonscription; et, dans le cas de différence d'opinion, il devra renvoyer la question au président susdit, pour être décidée.

Art. 4. C'est le devoir de l'inspecteur de coques de veiller par lui-même à chaque détail de l'inspection d'un navire, et de ne pas se fier à aucun certificat ou autre document, donné par une personne non autorisée par son département, lequel département le tiendra responsable en touts points de l'exécution du devoir qui lui est confié, et le supportera dans toute démarche raisonnable qu'il jugera nécessaire de prendre pour accomplir son devoir.

Art. 5. Chaque fois que l'inspecteur a raison de croire que la coque ou l'équipement ne peut durer aussi longtemps que douze mois il donnera son certificat pour telle période plus courte qu'il jugera à propos, en donnant aux propriétaires les raisons qui l'ont porté à agir ainsi.

Art. 6. Il est très à désirer qu'un inspecteur complète l'inspection d'un navire dans tous ces détails, une fois commencée; et, si c'est possible, des arrangements devraient être faits avec le propriétaire à cette fin. On éviterait des délais et des inconvénients si les propriétaires notifiaient l'inspecteur que le navire est prêt à être inspecté et que son équipement est à bord. Un inspecteur ne devrait pas donner de certificat pour aucun détail qu'il n'a pas inspecté et pour lequel il n'est pas prêt à se tenir responsable.

Art. 7. Quiconque sciemment ou volontairement fait ou aide à faire ou fait faire un certificat au sujet d'un bateau à vapeur, ou qui contrefait ou aide à contrefaire ou fait contrefaire, change frauduleusement un certificat exigé par l'*Acte d'inspection des bateaux à vapeur*, ou quelques mots ou chiffres dans un certificat, ou quelque signature y apposée, est coupable de délit.

Art. 8. Il ne doit pas être accordé de certificat pour douze mois, chaque fois que l'inspecteur a quelques doutes quant à l'efficacité d'une partie quelconque du navire ou de l'équipement pour une telle période,

Art. 9. Les inspecteurs décideront si les coques des vapeurs à passagers sont en bon état et capables de faire le service auquel ils sont destinés; et ils devront examiner les coques à l'extérieur et à l'intérieur une fois par année, si possible, ou plus souvent, et en tel temps qui conviendra le mieux aux propriétaires.

Art. 10. Les vapeurs neuf devraient être inspectes avant d'être peinturés ou finis, mais cette inspection ne doit pas empêcher l'inspection complète de la coque et de l'équipement après parachèvement, l'objet étant de se former une idée de l'ouvrage, des matériaux et de la construction.

Art. 11. Lorsqu'un vapeur qui a été inspecté pour un certificat de passagers n'est pas sous tous rapports en bon état, bien que les défauts ne soient pas suffisants pour justifier le refus du certificat, et bien que le navire soit pratiquement propre au service projeté, l'inspecteur devrait, lorsqu'il accorde le certificat, transmettre au président un rapport sur la nature des défauts en question.

Art. 12. En examinant les parties internes d'un vapeur à passagers, l'inspecteur devra, s'il le juge nécessaire, faire enlever certaines parties du plafond, afin de pouvoir s'assurer de l'état de la coque, de la charpente, des planchers, etc., particulièrement dans les chambres de la machine et de la chaudière; et aussi les soutes au charbon à l'état vide.

Art. 13. La date de la dernière inspection sera inscrite dans le livre d'inspection du bureau, accompagnée des détails sur l'état de la coque dans le temps, avec dessins approximatifs de la section du milieu, indiquant la forme, la construction et les dimensions du navire, et de ses parties assez détaillés pour donner une idée de sa coupe et de sa force. Toute question de doute quant à la force du navire pour la route qu'il doit suivre devrait être soumise au président.

Art. 14. La hauteur des surbaux autour des ouvertures dans le pont supérieur et les moyens pris pour protéger et fermer sûrement les abat-jour, ouvertures, etc., sont des choses importantes que l'inspecteur doit noter dans les vapeurs exposés aux grosses vagues. Toutes les passerelles et ouvertures sur ou au-dessous du tillac devraient être munies de couvercles de façon à ce qu'elles puissent être promptement et efficacement fermées. Les écoutilles devraient être munies d'appareils pour les fermer solidement. Des panneaux de grille et d'écoutilles doivent être gardés et assujétis à un endroit convenable et d'un accès facile, et près des ouvertures auxquelles ils sont destinés.

Art. 15. Tous les canots doivent être suspendus à des daviers et tenus prêts à servir à un moment donné. Les inspecteurs devront veiller à ce que tous les canots soient munis d'un assortiment complet de rames; que chaque canot ait deux tampons pour chaque trou, attachés avec des aiguillettes ou chaînes, et un assortiment et demi de tolets attachés au canot par de bonnes aiguillettes; une écope, un gouvernail et une corde ou des cordes de timon: une amarre de bonne longueur, et une gaffe. Le gouvernail et l'amarre seront attachés aux canots par d'assez longues aiguillettes, et prêts pour le service. On devra prendre des moyens pour détacher instantanément les canots des dernières poulies du davier On ne tolèrera pas de crochet ordinaire dans la dernière poulie passé dans un œillet fixe dans le canot.

Art 16. Les inspecteurs devront veiller à ce que les daviers du bateau soient assez forts et assez espacés pour pouvoir lancer le canot sans travail inutile; que les cales du canot puissent être enlevées facilement, et que le canot ne frappe pas le flanc du navire en descendant lorsque le navire n'a pas de bande, et que tous les agrès, daviers, palans, poulies, boulons à œillet et anneaux, etc., soient d'une force suffisante pour pouvoir descendre le canot avec son équipement et son équipage au complet. Les palans des daviers devront être assez longs pour descendre les canots à l'eau lorsque le navire est lège. Des amarres de sauvetage seront assujéties aux daviers, d'une longueur suffisante pour atteindre l'eau lorsque le navire est lège, et il faudra allouer pour l'extrême roulis du navire.

Art. 17. Les inspecteurs refuseront un certificat chaque fois que ces instructions ne seront pas suivies, mais les propriétaires de bateaux auront le choix de fournir les moyens qui leur plairont pour lancer les chaloupes à l'eau pourvu qu'ils se conforment à l'intention de l'acte. Toute méthode inusitée ou douteuse de mettre les chaloupes à l'eau devra être soumise au bureau d'inspection des bateaux à vapeur, pour considération et approbation avant d'être adoptée. Tous les canots devraient être mis à l'eau lors de chaque inspection.

Art. 18. Des bouées de sauvetage munies d'amarres seront fixées au moyen d'un taquet ou autre méthode semblable, de façon à ce qu'elles puissent être facilement décrochées. Elles ne doivent pas être amarrées ni attachées au garde-corps ou aucune partie du navire, mais être tenues prêtes à servir à un moment d'avis en cas d'urgence. Les bouées et gilets de sauvetage doivent être soigneusement examinés lors de l'inspection du navire, afin de s'assurer si les matières dont ils sont composées ne sont pas détériorées et si les cordes qui y sont attachées sont de longueur suffisante et en bon état de service.

Mâts et voiles, et passerelles.

Art. 19. L'article 54 de l'*Acte d'inspection des bateaux à vapeur* autorise le ministre de la Marine et des Pêcheries à exiger que les navires à vapeur jaugeant plus de soixante tonneaux de registre portant des passagers—sur les côtes maritimes du Canada, ou sur aucune ou toutes les eaux canadiennes, sauf certaines exceptions, soient munis d'un mât ou de mâts avec une voile ou des voiles, convenables à tel bateau à vapeur, et à fixer la dimension de ces mâts et voiles respectivement.

Art. 20. Les inspecteurs de coques, en faisant l'inspection des vapeurs à passagers sur la côte maritime ou sur les grands lacs du Canada, doivent voir à ce qu'ils soient gréés de voilure suffisante pour leur permettre de marcher dans le cas où leurs machines se dérangeraient. Toutes ces voiles doivent être examinées par l'inspecteur, qui devra s'assurer de leur efficacité, ainsi que de tous les agrès à chaque inspection, et dans tous les cas de doute, il devra demander des instructions au président du bureau.

Art. 21. Les inspecteurs devront voir à ce que de bonnes passerelles sûres soient fournies, avec moyens de les attacher sûrement aux deux bouts.

Art. 22. Lors de la première inspection d'un vapeur employé sur les côtes maritimes ou sur les grands lacs du Canada, qu'il soit en fer ou en bois, l'inspecteur devra exiger que les boussoles soient convenablement ajustées ou vérifiées par une personne compétente choisie par le propriétaire, sur le rapport de laquelle cette personne compétente accordera un certificat au propriétaire à l'effet que les boussoles du navire sont convenablement ajustées, et lui fournira une table d'erreurs, lequel certificat sera présenté par le propriétaire à l'inspecteur avant que celui-ci ne donne son certificat d'inspection.

Art. 23. Les inspecteurs de coques veilleront à ce que des pompes sur le pont, mues à bras ou par la vapeur, soient convenablement placées, en nombre suffisant, et que des moyens soient pris pour atteindre les boyaux d'aspiration en cas d'engorgement. Aucune pompe nécessitant le chargement à la main avant de pouvoir fonctionner ne sera acceptée. Quand la chose se rencontre, l'inspecteur doit insister pour que des dispositions soient prises pour rendre la pompe effective en tout temps. Les boyaux à incendie devraient être tendus sur toute la longueur et parfaitement examinés et éprouvés sous la pression des pompes, au moins une fois par année, et en tout autre temps que l'inspecteur jugera nécessaire. Le boyau devrait se relier aux pompes pour usage immédiat.

Art. 24. Un timon de rechange sera fourni, avec agrès, et sera gardé près du gouvernail, prêt à servir immédiatement, sur tous les vapeurs transatlantiques et les vapeurs des grands lacs. L'appareil de timonerie devra être inspecté et complètement examiné au moins une fois par année.

Art. 25. Les inspecteurs de coques auront soin de s'assurer que chaque vapeur transatlantique sujet aux dispositions de l'acte, et chaque vapeur employé sur les grands lacs soient munis de tous les câbles-chaînes, ancres et agrès nécessaires, à leur service, et en bon état; que le câble soit sorti des coffres au moins une fois par année, nettoyé si c'est nécessaire, et les goupilles sorties des manilles.

Art. 26. (*a.*) Les inspecteurs de coques tiendront un registre pour les navires neufs, dans lequel ils devront inscrire les détails de leur enregistrement, leur numéro officiel, leur nom, leur port d'enregistrement, leurs dimensions, leur tonnage, à qui ils appartiennent, et les noms des capitaines; aussi une description générale de leur construction, indiquant un tracé de la section du milieu, donnant les dimensions de la charpente, du bordage, des barrots de ponts, emboîtures, courbes, panneaux et attaches, selon le cas, de façon à donner une idée du navire et de sa capacité pour la route sur laquelle il est placé. Une description des œuvres vives sur les vapeurs à passagers devra aussi être donnée; indiquant comment elles sont assujéties à la coque, et quelle disposition est prise contre le roulis dans les gros temps.

(*b.*) L'assiette du navire lège et chargé devra être indiquée sur le tracé de la section du milieu.

(*c.*) La capacité des canots et autres équipements pour le sauvetage, s'ils sont suffisants pour le nombre de passagers que le vapeur doit porter, avec l'équipage, sur la route qu'il doit suivre, sera aussi donnée dans ces détails. Copie de ces détails au long, transcrite proprement sur du papier-ministre, sera envoyée au président du bureau des inspecteurs de bateaux à vapeur, pour être déposée dans le bureau pour l'information du département de la Marine et des Pêcheries.

Art. 27 (*a.*) Chaque inspecteur de coques tiendra aussi un registre de carénage, dans lequel il inscrira la date de la dernière entrée dans le bassin de chaque vapeur inspecté par lui, avec les détails des réparations qui y ont été faites; aussi un mémoire de sa dernière inspection, telle que faite par lui; l'état dans lequel il avait alors trouvé la coque et l'équipement; avec copie de toute correspondance entre lui et le propriétaire et capitaine, concernant les réparations, agrès, équipement ou autres choses qu'il faudra prouver dans le cas où elles n'auraient pas été faites.

(*b.*) Les inspecteurs de coques ne doivent pas se croire déchargés de leur devoir au sujet d'un vapeur auquel ils ont accordé un certificat pour une année ou toute période plus courte, mais le département s'attend qu'ils surveilleront tous les vapeurs sujets aux dispositions de l'acte dans leur circonscription ou qui y viendront. Si quelque infraction de la loi commise par un propriétaire ou capitaine de vapeurs mettant en danger la vie ou la propriété, vient à la connaissance de l'inspecteur, il sera du devoir de ce dernier d'en faire rapport sans délai, afin que le département prenne des mesures pour prévenir ce danger.

Passagers.

Art. 28. (*a.*) On peut trouver le nombre de passagers qu'un vapeur peut porter en multipliant la longueur par la largeur du navire à la ligne de flottaison, et divisant le produit par un facteur de sûreté, selon la classe de navire, ainsi :—

Pour les vapeurs transatlantiques le facteur sera	10
Pour les cabotiers maritimes	10
Pour les vapeurs des grands lacs	9
Pour les vapeurs naviguant sur les côtes des lacs et dans les ports, sur les rivières, les bateaux passeurs et bateaux d'excursion	6

(*b.*) On ne devra pas s'écarter de cette règle sans le consentement du président du bureau d'inspection des bateaux à vapeur et l'approbation du ministre de la Marine et des Pêcheries.

(*c.*) Pour les vapeurs d'excursion portant des passagers dans la cale, la limite sera laissée à la discrétion de l'inspecteur, mais ne devra, dans aucun cas, excéder le nombre qui pourra facilement y prendre place.

(*d.*) Ces facteurs pourront être augmentés si, à raison de l'âge ou autre cause, le bateau n'est pas jugé propre à porter autant de passagers.

Art. 29. Le nombre de personnes qu'une chaloupe peut porter sera déterminé comme suit, savoir :—

En multipliant la longueur de la quille par la largeur et la profondeur depuis le dessus de la quille jusqu'au platbord, en pieds, et ensuite divisant le produit par 10, le quotient sera le nombre de personnes que chaque chaloupe peut porter.

Canots de sauvetage et leur équipement.

Art. 30. (*a.*) Des canots de sauvetage seront construits sur le modèle des baleinières, avec un ensellement d'environ $\frac{3}{4}$ de pouce par pied, s'élevant également depuis le milieu du canot jusqu'à l'avant et l'arrière, et auront de bons et forts compartiments imperméables à l'air, construits et ajustés de façon que l'eau n'y puisse pénétrer.

(*b.*) Le canot de sauvetage sera solidement construit en fer galvanisé, égal en épaisseur au fil métallique nº 18.

(*c.*) On n'emploiera pas de zinc dans la construction d'un canot de sauvetage, ni de ses compartiments à l'air.

(*d.*) Les compartiments imperméables à l'air seront distribués de manière à donner au canot la légèreté et la solidité convenables. Il sera laissé au choix du propriétaire de placer les compartiments à air, soit sous les bancs, soit dans les bouts ou le long des côtés, pourvu qu'un canot de sauvetage efficace soit fourni.

(*e.*) Les espaces remplis ou contenant quelques matières ne seront pas censés être des espaces à air.

(*f.*) Un bateau à poupe carrée ne sera pas considéré être un canot de sauvetage.

(*g.*) Des cordes de sauvetage seront convenablement attachées aux plats-bords du canot de sauvetage.

(*h.*) Le canot de sauvetage doit être muni d'un assortiment complet de rames bien assujéties, deux tampons pour chaque trou, attachées avec des aiguillettes ou chaînes, une écope, un gouvernail et un timon aussi attachés au canot par des aiguillettes; une petite hache aussi attachée par une aiguillette devra être gardée à chaque bout du canot, ainsi qu'une amarre et une gaffe.

(*i.*) On devra prendre des moyens pour détacher instantanément le canot de sauvetage des dernières poulies du davier. On ne tolèrera pas de crochet ordinaire dans la dernière poulie. Les daviers du bateau devront être assez forts et assez espacés pour pouvoir lancer le canot sans travail inutile, que les cales du canot puissent être enlevées facilement, et que le canot ne frappe pas le flanc du navire en descendant lorsque le navire n'a pas de bande, et que tous les agrès, daviers, palans, poulies, boulons à œillet et anneaux, etc., sont d'une force suffisante pour pouvoir descendre le canot avec son équipage au complet.

Droit de tonnage.

Art. 31. Le droit de tonnage suivant sera payé par le propriétaire ou le capitaine d'un bateau à vapeur, en Canada en vertu des dispositions de l'article 46 du chapitre 78 des Statuts Revisés du Canada :

Le droit de tonnage que paieront tous les ans les propriétaires ou les capitaines de bateaux à vapeur, sera de huit centins par chaque tonneau du jaugeage brut de chaque bateau à vapeur.*

RÈGLES ET RÈGLEMENTS

CONCERNANT L'INSPECTION DES CANOTS, BOUÉES ET AUTRES APPAREILS DE SAUVETAGE QUE DEVRONT PORTER LES BATEAUX À VAPEUR OU AUTRES VAISSEAUX SOUS L'EMPIRE DE L'ACTE D'INSPECTION DES BATEAUX À VAPEUR, ET SES AMENDEMENTS.

Canots.

Art. 1. On observera les dispositions ci-jointes au sujet des canots que devront porter les bateaux à vapeur :—

(*a.*) Nul bateau à vapeur ayant des passagers à bord ne prendra la mer d'un port ou endroit en Canada, ou ne partira d'un port ou endroit, ou ne naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe, ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur;

(*b.*) Sans avoir à bord, ou attachés à ce bateau à vapeur, des canots solides bien équipés et en bonne condition, d'au moins dix-sept pieds de quille chacun, et munis de six rames et autres agrès nécessaires, et pouvant soutenir chacun au moins douze personnes adultes à part l'équipage du canot.

Ces canots seront dans la proportion suivante quant au tonnage de registre de ce bateau, savoir :—

NOTE.—Ce tarif a été établi le 1er octobre 1889.

Au moins un canot pour chaque bateau à vapeur de moins de cinquante tonneaux,—

Au moins deux canots pour chaque bateau à vapeur de cinquante tonneaux et plus, mais de moins de (300) trois cents tonneaux :

Au moins trois canots pour chaque bateau à vapeur de trois cents tonneaux et plus ; et

(*c.*) Si ce bateau à vapeur est du tonnage de registre de cent tonneaux ou plus de (300) trois cents tonneaux, sans qu'il ait à bord ou y attachés en sus des canots ci-dessus exigés,—

Un bon et solide canot de sauvetage capable de soutenir à l'intérieur trente personnes. Ce canot de sauvetage sera censé être d'une capacité suffisante s'il a les dimensions suivantes : Longueur de quille, vingt-deux pieds ; largeur du bau en dehors, cinq pieds six pouces ; profondeur depuis le dessus de la quille jusqu'au dessus du plat-bord, en bas des toletières, deux pieds neuf pouces ; ou

Deux bons et solides canots de sauvetage, chacun capable de soutenir à l'intérieur vingt personnes. Ces canots de sauvetage seront censés d'une capacité suffisante s'ils ont les dimensions suivantes : Longueur de quille, dix-huit pieds, largeur à l'extérieur, cinq pieds deux pouces ; profondeur depuis le dessus de la quille jusqu'au-dessus du plat-bord, deux pieds deux pouces ;

(*d.*) Si ce bateau à vapeur a un tonnage de registre de (300) trois cents tonneaux ou plus jusqu'à six cents tonneaux ou plus (alors que le nombre des canots de sauvetage pourra être augmenté à la satisfaction de l'inspecteur), sans qu'il y ait à bord ou y attachés, en sus des canots exigés,—

Deux bons et solides canots de sauvetage capables de soutenir à l'intérieur trente personnes, ou quatre bons et solides canots de sauvetage chacun capable de soutenir à l'intérieur vingt personnes, et chacun de la grandeur décrite à (*c*) au moins.

Art. 2. Chaque canot de sauvetage sera fait de métal convenable d'une épaisseur égale au fil métallique n° 18, ou de bois sur le modèle des baleinières, avec une tonture d'environ ¾ de pouce par pied, s'élevant également depuis le milieu du canot jusqu'à l'avant et derrière. Il aura de bons compartiments imperméables à l'air aux bouts et aux côtés, faits de bois ou de métal ; ces compartiments auront une capacité en pieds cubes de un dixième de la capacité du canot. Cette capacité se trouve en multipliant la longueur et la largeur à l'extérieur, et la profondeur en dedans depuis le dessous des toletières ou dessus du plat-bord en pieds, et par ·6, le résultat égale les pieds cubes voulus dans les compartiments intérieurs et extérieurs, dont environ la moitié doit être à l'extérieur ; et en divisant par 10, donnera le nombre de personnes que le canot de sauvetage sera censé pouvoir porter. A l'extérieur on pourra employer du liège solide au lieu de compartiments imperméables à l'air ; 1·25 pieds cube de liége étant considéré égal à 1 pied cube de compartiment à air ;

(*a.*) On ne doit pas employer de zinc dans la construction d'un canot de sauvetage ou de ses compartiments à air, lesquels doivent être d'un métal approuvé par le bureau d'inspection des bateaux à vapeur, ou par le président.

(*b.*) Les compartiments imperméables à l'air seront distribués de manière à donner au canot la légèreté et la solidité convenables. Il sera laissé au choix du propriétaire de placer les compartiments à air, soit sous les bancs, soit dans les bouts ou le long des côtés, pourvu qu'un canot de sauvetage efficace soit fourni à la satisfaction de l'inspecteur ;

(*c.*) Les espaces remplis ou contenant quelques matières ne seront pas censés être des espaces à air ;

(*d.*) Un bateau à poupe carrée ne sera pas considéré être un canot de sauvetage ;

(*e.*) Des cordes de sauvetage avec bouées seront convenablement attachées aux côtés ou plats-bords du canot de sauvetage.

Art. 3. Les canots de sauvetage seront munis d'un assortiment complet de rames, une pour chaque toletière, et deux rames de rechange, bien assujéties et prêtes à servir ;

(*a.*) Avec deux tampons pour chaque trou, attachés avec des aiguillettes ou des chaînes, et un jeu et demi de tolets attachés au canot par des aiguillettes et prêts à mettre en place ;

(*b.*) Avec une ancre du large, un gouvernail et un timon, et des cordes de gouvernail, une amarre assez longue pour atteindre des daviers au canot lorsqu'il est à l'eau, et le remorquer, une écope, une petite hache à chaque bout du canot, et une gaffe, aussi attachés au canot par une bonne aiguillette ;

(*c.*) Si le bateau à vapeur navigue en mer (sur l'eau salée) on devra garder à bord de chaque canot un vaisseau rempli d'eau douce (et un canot de sauvetage au moins doit être gréé d'un mât ou de mâts, et d'une voile ou de voiles et agrès), et d'une bonne boussole et un gallon d'huile animale ou végétale, et un vaisseau ou appareil d'un modèle approuvé pour la répandre sur l'eau dans le mauvais temps, et d'un fanal rempli d'huile capable de durer huit heures ;

(*d.*) On devra prendre des moyens pour détacher instantanément le canot de sauvetage des dernières poulies du davier On ne tolèrera pas de crochet ordinaire dans la dernière poulie. Les daviers du bateau devront être assez forts et assez espacés pour pouvoir lancer le canot sans travail inutile, que les cales du canot puissent être enlevées facilement, et que le canot ne frappe pas le flanc du navire en descendant lorsque le navire n'a pas de bande, et que tous les agrès, daviers, palans, poulies, boulons à œillet et anneaux, etc., soient d'une force suffisante pour pouvoir descendre le canot avec son équipage au complet.

Art. 4. Chaque canot sera entretenu en bonne condition, étanche et prêt à servir immédiatement ; quand on se sert de bois pour chauffer les chaudières des bateaux à haute pression (non condenseurs) les abris de ces canots seront faits de bois recouvert de zinc ; et chaque canot aura le nom du bateau à vapeur auquel il appartient, ainsi que le nom de son port d'enregistrement peinturé à l'avant et à l'arrière.

Art. 5. Chaque tel bateau à vapeur sera muni de moyens suffisants pour descendre à l'eau sûrement et promptement les canots qui sont ci-dessus requis d'être à bord ou attachés à ce bateau à vapeur ; et les capitaines de bateaux à vapeur diviseront leurs équipages par escouades et les dresseront à descendre et manœuvrer les dits canots et canots de sauvetage au moins une fois par semaine, alternativement.

Art. 6 Chaque tel canot sera pendu à des daviers distincts, avec des agrès complets et prêts à le descendre sans délai ; pourvu que dans le cas où un tel bateau à vapeur porte deux canots de sauvetage, un des autres canots pourra être porté sur le pont supérieur sans daviers.

Art. 7. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il ne porte pas plus que vingt-cinq passagers ne sera obligé d'avoir à bord ou attaché à ce bateau à vapeur que deux canots en sus d'un canot de sauvetage.

Art. 8. Le ministre de la Marine et des Pêcheries pourra autoriser l'usage dans certains cas particuliers, d'un nombre plus ou moins grand de canots, ou de dimensions différentes de ceux ci-dessus spécifiés ; et avec cette autorisation il suffira que tout tel bateau à vapeur porte et soit muni de canots des dimensions spécifiées dans telle autorisation.

Art. 9. Les bateaux à vapeur restreints à la navigation de la rivière Saint-Jean en amont de Frédéricton, les eaux du district de Muskoka, le comté de Victoria, et le comté de Peterborough dans la province d'Ontario, et les eaux de la rivière Ottawa et ses tributaires en amont de la cité d'Ottawa, ou des lacs ou rivières dont la largeur n'excèdera pas un mille à un point quelconque sur la route de ce bateau à vapeur, et qui sont employés au transport des passagers, portera au moins un bon canot muni de quatre rames, et assez grand pour pouvoir contenir au moins douze personnes, à part l'équipage.

Art. 10. Chaque bateau à vapeur employé au transport de passagers, et ne naviguant que sur des rivières ou eaux intérieures, autres que les rivières et eaux intérieures ci-dessus spécifiées, devra, si ce bateau à vapeur dépasse cent cinquante tonneaux de registre, porter au moins deux bons canots munis de quatre rames chacun, et d'une capacité suffisante pour pouvoir porter avec sûreté au moins douze personnes à part l'équipage ; et si ce bateau à vapeur ne dépasse pas cent cinquante tonneaux de registre et n'a pas moins que cinquante tonneaux de registre, il ne sera pas tenu de porter plus qu'un tel canot ; et si ce bateau à vapeur a moins que cinquante tonneaux de registre, il portera un bon canot, des grandeur et description, et gréé selon que l'approuvera l'inspecteur dans chaque cas.

Art. 11. Chaque bateau à vapeur non employé au transport des passagers, et chaque bateau à vapeur auquel les dispositions précédentes du présent article ne s'appliquent pas, devra en tout temps, lorsque son équipage est à bord, avoir à bord ou attaché à ce bateau à vapeur, dans quelque endroit propice, un bon canot solide, ou de bons canots solides, en bonne condition et convenablement équipés et munis de rames en nombre suffisant et autres agrès nécessaires, et d'une capacité suffisante pour pouvoir porter tout l'équipage de ce bateau à vapeur, avec des moyens suffisants pour descendre ce canot ou ces canots sûrement et promptement.

Art. 12. Le nombre de personnes que ces canots pourront porter sera déterminé en multipliant la longueur de la quille par la largeur à l'extérieur, et par la profondeur depuis le dessus de la quille jusqu'au dessous des toletières en pieds, et divisant par 10, le quotient donnera le nombre de personnes que chaque canot pourra porter.

Radeaux et bouées de sauvetage.

Art. 13. Les radeaux de sauvetage doivent être approuvés par le bureau d'inspection des bateaux à vapeur avant de déterminer le nombre de personnes qu'ils pourront porter ; pourvu que trois pieds cubes au moins de forts et bons compartiments à air construits de façon que l'eau n'y puisse pénétrer seront le montant d'espace d'air alloué à chaque personne portée sur le radeau.

Art. 14. Pour qu'un appareil flottant soit approuvé il ne faut pas qu'il soit nécessaire de le gonfler avant de s'en servir; il devra être de construction approuvée, et marqué de façon à indiquer distinctement le nombre de personnes adultes qu'il peut porter.

La légèreté de cet appareil, en proportion du nombre de personnes à porter, peut être déterminée en divisant par 32 le nombre de livres de fer qu'il peut supporter dans l'eau douce.

Art. 15. Une bouée de sauvetage approuvée sera faite de liège solide capable de flotter sur l'eau au moins 24 heures avec 32 livres de fer y attachées ; ou—

(*a.*) Une forte bouée de sauvetage de tout autre modèle et de matériaux approuvés, pourvu qu'il soit capable de flotter sur l'eau pendant au moins 24 heures avec 32 livres de fer y attachées, et pourvu qu'elle ne soit pas bourrée d'ajoncs, de râpures de liège ou autre planures, ou de liège granulé ou autre matière libre, et n'ait pas besoin d'être gonflée avant de servir. Chaque bateau à passagers que la loi oblige à porter deux canots, devra avoir au moins deux bouées de sauvetage, avec une bonne corde de longueur suffisante attachée à chaque bouée, et tenues toujours prêtes à servir à tout instant.

(*b.*) Les boîtes à air pour les radeaux de sauvetage ne doivent pas excéder la longueur approuvée par le bureau (quatre pieds), avec joints agrafés, martelés et soudés, ou rivés, et si elles sont en fer ce fer sera galvanisé ; elles seront solidement entourées de bois à joints bien clos.

La couverture des boîtes à air dans les canots doivent être assujéties au moyen de vis de cuivre, de façon à pouvoir être facilement enlevée pour examiner les boîtes à air.

Des canots qui s'emboîtent pourront être employés s'ils sont approuvés par un inspecteur, avec le consentement du président.

Art. 16. Nul nouveau modèle ou matière pour les canots, radeaux ou bouées de sauvetage ne sera passé avant d'être approuvé par le bureau d'inspection des bateaux à vapeur.

Ceintures de sauvetage.

Art. 17. Nul bateau à vapeur transportant des passagers ne prendra la mer d'un port ou endroit en Canada, ou ne partira d'un port ou endroit, ou naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur ; ni ne naviguera dans une baie ou bras de mer en Canada sans avoir à bord à chaque voyage,—

(*a.*) Deux cents ceintures de sauvetage si ce bateau est de deux cents tonneaux et plus de registre ; ou cent ceintures de sauvetage, s'il est de cent tonneaux et plus de deux cents tonneaux de registre ; et s'il est de moins de cent tonneaux, ce bateau pourra être muni et porter à bord à chaque voyage cinquante ceintures de sauvetage.

Art. 18. Chaque bateau à vapeur transportant des passagers sur des rivières et eaux intérieures autres que les lacs et rivières spécifiés dans l'article immédiatement précédent, s'il a deux cents tonneaux et plus de registre, devra avoir à bord à chaque voyage, pas moins que cent ceintures de sauvetage, et s'il y a moins que deux cents tonneaux de registre, ce bateau portera à bord à chaque voyage cinquante ceintures de sauvetage.

Art. 19. Pourvu qu'un bateau ne sera pas tenu de porter plus de ceintures de sauvetage que le nombre de passagers qu'il est autorisé à porter, et le nombre maximum de ces ceintures de sauvetage que chaque bateau à vapeur est tenu d'avoir à bord, n'excédera pas deux cents ; mais si un bateau n'a pas le nombre de canots et de ceintures de sauvetage proportionné au nombre de passagers que son certificat d'inspection lui permet de porter, on suppléera à ce déficit au moyen de flotteurs en bois, équivalant chacun en légèreté à un pied cube de pin blanc séché, égal au nombre de passagers et de l'équipage pour lesquels il n'y a pas de canots ni de ceintures de sauvetage.

Art. 20. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il transportera pas plus que soixante passagers, ne sera tenu d'avoir à bord, dans un voyage, plus d'une ceinture de sauvetage pour chaque passager, et une ceinture de sauvetage pour chacun de l'équipage alors à bord de tel bateau.

Art. 21. Chaque bateau à vapeur non employé au transport de passagers, et chaque bateau à vapeur auquel les articles 17, 18, 19 et 20 ne s'appliquent pas, devra avoir, en tout temps lorsque l'équipage est à bord, une ceinture de sauvetage pour chacun de l'équipage.

Art. 22. Chacune de ces ceintures de sauvetage sera capable de flotter dans l'eau douce pendant 24 heures, avec 15 livres de fer y attachées. Elles seront échancrées de 2 pouces sous les aisselles, et ajustées et assujéties de façon à ne pas se déranger une fois mises, avec bretelles et ceinturon, ou autres moyens approuvés par l'inspecteur. Si d'autre matière que du liège solide est employée pour faire flotter, elle sera d'abord approuvée spécialement par le bureau d'inspection des bateaux à vapeur, et les ceintures de sauvetage seront en tout temps gardées dans un endroit accessible et à la main dans les cabines ou sur le pont du bateau, bien abritées et prêtes à servir à tout instant.

Art. 23. Un gilet de liège avec bretelles et ceinturons pour le fixer autour du corps, ou toute autre espèce de ceinture de sauvetage que le Gouverneur général en conseil pourra approuver, sera la forme de ceinture de sauvetage à employer sur les bateaux à passagers.

Barges à passagers à la remorque.

Art. 24. Avant qu'une barge, chaloupe, bateau, chalan ou vaisseau non ponté ayant des passagers à bord, toué par un remorqueur, reçoive un certificat d'inspection, il devra être muni d'un canot ou de canots, de ceintures, bouées et radeaux de sauvetage, ou de tous et chacun des équipements mentionnés au présent, en sus de l'équipement mentionné à l'article 9 de l'acte du parlement du Canada, intitulé "Acte modifiant de nouveau l'acte d'inspection des bateaux à vapeur," et sanctionné le 10e jour de mai 1892, à la satisfaction de l'inspecteur des bateaux à vapeur qui l'inspecte, qui exigera qu'il soit équipé d'un appareil convenable pour sauver la vie pour les eaux sur lesquelles il navigue, ainsi que les commodités convenables pour l'usage des passagers ;

(*a.*) Les canots et équipements exigés devront être tel que spécifié dans l'article 1 (*b*) des présents règlements, et afin qu'ils aient la capacité voulue pour porter douze personnes adultes avec l'équipage, ou dix-sept personnes en tout, ils devront avoir 17 pieds de quille et 5 pieds de bau sur 2 pieds de profondeur, cette capacité étant déterminée en multipliant longueur, largeur et profondeur, et divisant par 10.

E. ADAMS,

Président du Bureau d'inspection des bateaux à vapeur.

RÈGLEMENTS CONCERNANT L'INSPECTION DES ARBRES MOTEURS DE BATEAUX À VAPEUR.

Arbres moteurs.

4. Aucun arbre moteur, arbre de couche, arbre droit ou arbre des roues ayant un moindre diamètre que celui trouvé par la formule suivante, ne devrait être accepté sans avoir d'abord soumis le cas au président du Bureau d'inspection des bateaux à vapeur.

Pour les machines mixtes à condenser avec deux cylindres ou plus, lorsque les axes coudés ne sont pas suspendus :

$$S=\sqrt[3]{\frac{C\times P\times D^2}{f\left(2+\frac{D^2}{d^2}\right)}}$$

$$P=\frac{f\times S^3}{C\times D^2}\left(2+\frac{D^2}{d^2}\right)$$

Lorsque $S =$ le diamètre de l'arbre en pouces.

Lorsque $d^2 =$ le carré du diamètre du cylindre à haute pression en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres à haute pression ou plus.

Lorsque $D^2 =$ le carré du diamètre d'un cylindre à basse pression en pouces, ou la somme des carrés des diamètres dans les cas où il y a deux cylindres à basse pression ou plus.

Lorsque $P =$ la pression absolue en livres par pouce carré, c'est-à-dire la pression de chaudière *plus* 15 livres.

Lorsque $C =$ la longueur de l'axe coudé en pouces.

Lorsque $f =$ la constante d'après la table suivante.

NOTE.—Les cylindres à pression intermédiaire ne paraissent pas dans la formule.

Pour les machines à condenser ordinaires, avec un ou deux cylindres et plus, alors que les axes coudés ne sont pas suspendus : —

$$S=\sqrt[3]{\frac{C\times P\times D^2}{3\times f}}$$

$$P=\frac{3\times f\times S^3}{C\times D^2}$$

Lorsque $S =$ le diamètre en pouces.

$D^2 =$ le carré du diamètre du cylindre en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres ou plus

$P =$ la pression absolue en livres par pouce carré, c'est-à-dire la pression de la chaudière *plus* 15 livres.

$C =$ la longueur de l'axe coudé en pouces.

$f =$ la constante d'après la table suivante :

TABLE.

Pour deux axes coudés. Angles entre les axes.	Pour arbres moteurs et de manivelle. *f.*		Pour arbres droits. *f.*
90°	Pour les machines à roues d'un modèle ordinaire, multipliez la constante dans cette colonne pour l'angle des axes coudées par 1·4.	1,047	1,221
100°		996	1,128
110°		904	1,055
120°		855	997
130°		817	953
140°		788	919
150°		766	894
160°		751	877
170°		743	867
180°		740	864
Pour trois axes coudés 120°.		1,110	1,295

NOTE.—Lorsqu'il n'y a qu'un axe coudé, les constantes applicables sont celles dans la table vis-à-vis 180°.

RÈGLEMENTS CONCERNANT L'ÉPREUVE DE NOUVELLES MACHINES À BORD DE VAPEURS À PASSAGERS.

Dans le cas de nouvelles machines à bord de vapeurs à passagers les inspecteurs devront les voir éprouver lorsque les bateaux sont en marche à pleine vapeur, afin de s'assurer autant que possible qu'il n'existe pas de défauts dans les diverses parties de la machine qui auraient échappé à l'examen de l'inspecteur, tel que prescrit par l'article 15 de l'acte 49 Victoria, chapitre 78.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence, en vertu des dispositions du chapitre 97 des Statuts Revisés du Canada, intitulé "Acte concernant les passages d'eau," et l'acte 51 Victoria, chapitre 23 qui le modifie, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'arrêté en conseil du 2 d'avril 1896, établissant des règlements pour la gouverne d'un passage d'eau sur la rivière Sainte-Marie, entre le Sault Ste. Marie, dans la province d'Ontario, et le Sault Ste. Marie, dans l'Etat du Michigan, un des Etats-Unis d'Amérique, soit et il est par le présent cancellé, et que les règlements suivants soient établis en remplacement :—

RÈGLEMENTS.

1. *Limites.*—Les limites du passage d'eau seront les mêmes que celles de la ville du Sault Ste. Marie, Ontario, jusqu'à un point dans la ville du Sault Ste. Marie, Michigan, qui sera fixé par les autorités municipales de cet endroit.

2. *Débarcadères.*—Des quais et débarcadères seront en tous temps fournis et entretenus par l'adjudicataire à quelque point central dans la dite ville du Sault Ste. Marie, et devront pouvoir servir en tout état de la rivière, et seront assujétis à l'approbation du Contrôleur du Revenu de l'intérieur.

3. *Bateaux.* — Les bateaux qui seront employés seront solides et navigables et capables de porter sûrement et facilement tout le trafic qui se fait entre les deux villes. Ils devront être munis de machines d'une force suffisante et à haute pression, et les bateaux et les machines seront soumis à l'approbation de l'Inspecteur fédéral des bateaux à vapeur.

4. *Transport d'effets de contrebande.*—L'adjudicataire ne transportera, ni ne permettra, ni ne tolèrera en aucun temps pendant la durée de son bail qu'il soit transporté sur le dit bac, aucun article ou effet de contrebande.

5. *Observation des lois douanières.*—L'adjudicataire observera toutes les lois de douane et du revenu du Canada et des Etats-Unis d'Amérique.

6. *Heures des traversées.*—A partir du 1er de juin jusqu'au 30 de septembre de toute et chaque année, le bateau commencera ses traversées à 7 heures a.m., et continuera à traverser toutes les 30 minutes ensuite jusqu'à 9 heures p.m., d'après le *central standard time* (à l'exception des dimanches), sauf dans le cas d'accidents maritimes imprévus, de brume ou de circonstances inévitables, et depuis le 1er de novembre jusqu'à la fin de la navigation jusqu'à 8 heures p.m., *central standard time.*

7. *Tarif des péages.*—Le tarif des péages et prix de passage sur le dit bac ne sera jamais plus élevé que le suivant, savoir :—

	centins
Pour les piétons, en chaque sens, adultes..........	10
" " enfants...........	5
Pour un cheval et son cavalier, en chaque sens....	25
Pour un cheval, en chaque sens..........................	25
Pour un cheval et voiture, et conducteur, en chaque sens..	35
Pour chaque cheval et passager en sus...............	10
Pour chaque bête à cornes, en chaque sens	25
Pour chaque mouton ou cochon, en chaque sens..	5
Pour chaque 100 livres de bagage ou autre article, en chaque sens..	10

8. *Affichage du tarif.*—Une pancarte contenant le prix de passage et le tarif des péages sera affichée et maintenue en tout temps dans un endroit bien en vue sur ou près le quai ou l'embarcadère, ainsi que sur les bacs ou vapeurs faisant le service.

9. *Modification du tarif.*—Le Gouverneur en conseil aura le droit de changer et modifier le tarif et les prix ci-dessus établis, s'il le juge à propos dans l'intérêt du public ; et après que le tarif aura été ainsi modifié, l'adjudicataire ne pourra demander ou recevoir aucuns péages ou prix plus élevés que ceux prescrits par le tarif ainsi modifié, tant qu'il restera en existence.

10. *Négligence de remplir les conditions.*—Le Gouverneur en conseil aura toujours le droit, lorsqu'il lui sera prouvé que l'adjudicataire ne remplit pas les conditions ci-dessus ou celles stipulées dans son bail, de déclarer le bail résilié et nul, et alors ce dernier deviendra nul et non avenu à toutes fins et intentions, comme s'il n'eût jamais été consenti, sans indemnité pour l'adjudicataire.

11. *Observations des lois des Etats-Unis.*—L'adjudicataire ne devra en aucun temps pendant l'existence du bail, sciemment ou volontairement enfreindre aucune des lois ou aucun des statuts ou règlements des Etats-Unis d'Amérique, ou de l'Etat du Michigan, ou de la ville du Sault-Sainte-Marie, E.-U., au sujet du service du bac, qui peuvent s'appliquer au passage d'eau ou à quelque partie de ce passage qui peut se trouver sous la juridiction des Etats-Unis d'Amérique, soit de l'Etat du Michigan, ou de la ville du Sault-Sainte-Marie, E.-U., ni ne permettra ou ne souffrira que ses employés ou serviteurs les enfreignent.

12. *Disposition contre les indemnités.*—Pourvu toujours que si les Etats-Unis d'Amérique, ou l'Etat du Michigan, ou la ville du Sault-Sainte-Marie, E.-U., dans l'exercice de quelque pouvoir leur appartenant en aucun temps pendant la durée du bail, empêchaient ou entravaient le service du bac sur le passage d'eau, ou sur quelque partie de ce passage qui peut être sous leur juridiction, ou s'ils causaient à l'adjudicataire quelque perte, dépense, frais ou dommage à ce sujet, celui-ci n'aura droit à aucune indemnité ou compensation de la part du Canada.

13. *Commencement du service.*—Les bacs seront placés sur la route immédiatement à l'ouverture de la navigation du printemps de 1896.

14. *Durée du bail.*—Le bail sera accordé pour une période de dix (10) ans à compter du 1er de mai 1896. L'adjudicataire sera tenu de fournir deux cautions, approuvées par le Contrôleur du Revenu de l'intérieur, lesquelles seront obligées conjointement et individuellement avec le principal en la somme de cinq mille ($5,000) piastres, pour le fidèle accomplissement par l'adjudicataire des conditions du bail.

JOHN J. McGEE,
Greffier du Conseil privé.

45-4

[1430]

HOTEL DU GOUVERNEMENT A OTTAWA.

Mardi, le 28e jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 97 des Statuts Revisés du Canada, intitulé "Acte concernant les passages d'eau," et l'acte 51 Victoria, chapitre 23, qui le modifie, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants pour la gouverne d'un passage d'eau sur la rivière Détroit, entre Windsor, Ontario, et Détroit dans l'Etat du Michigan, un des Etats-Unis d'Amérique, et désigné sous le nom de "Passage d'eau de la rue Ouelette."

RÈGLEMENTS.

1. *Limites.*—Les limites du passage d'eau s'étendront de la limite est à la limite ouest de la ville de Windsor, telle que produite jusqu'à la rivière Détroit, et un point dans la cité de Détroit, qui sera fixé par les autorités municipales de cet endroit.

2. *Débarcadères.*—Des quais et débarcadères seront en tous temps fournis et entretenus par l'adjudicataire à quelque point dans la dite ville de Windsor, dans les dites limites, et devront pouvoir servir en tout état de la rivière, et seront assujétis à l'approbation du Ministère du Revenu de l'intérieur.

3. *Bateaux.*—Les bateaux seront solides et navigables, d'au moins 85 pieds de quille et 28 pieds de bau, et seront munis de gardes de façon à donner toute l'espace nécessaire pour les chevaux et voitures, et auront une vitesse d'au moins dix milles à l'heure.

4. Les machines auront une force d'au moins 100 chevaux-vapeur, à haute ou basse pression, et seront, de même que les bateaux généralement, soumis à l'inspection et approbation de l'inspecteur fédéral des bateaux à vapeur. Le bateau devra être muni d'appareils de sauvetage et parfaitement équipé et commandé par un homme capable et respectable ; et le contrôleur du Revenu de l'Intérieur se réserve le droit de refuser tout bateau qui pourra en aucun temps être placé sur cette voie pour faire le service, ou son capitaine, ou le quai ou débarcadère, s'il les jugeait impropres au service, ou dangereux, ou insuffisants pour répondre aux besoins du public.

5. L'adjudicataire ne transportera, ni ne permettra, ni ne tolèrera en aucun temps pendant la durée de son bail qu'il soit transporté sur le dit bac, aucun article ou effet de contrebande.

6. L'adjudicataire observera toutes les lois de douane et du revenu du Canada et des Etats-Unis d'Amérique.

7. Durant la période commençant le 1er de janvier et finissant le 31 de décembre, de toute et chaque année, le dit bac commencera à traverser à 6 heures du matin, vrai temps méridien de Windsor (sauf les dimanches), et continuera de traverser d'un côté à l'autre à des intervalles de quinze minutes successivement ensuite jusqu'à 7 heures du matin, et à des intervalles de dix minutes successivement ensuite jusqu'à 8 heures du soir, et à des intervalles de 20 minutes successivement ensuite jusqu'à 11.40 p.m.

Le dimanche le dit bac continuera à traverser d'un côté à l'autre commençant à 7 heures du matin à des intervalles de 15 minutes successivement ensuite jusqu'à 10 heures p.m., et à des intervalles de 20 minutes successivement ensuite jusqu'à 11.20 p.m., à moins que cette traversée ne soit pas rendue impossible par les dangers de la navigation.

8, Le tarif des péages et prix de passage sur le dit bacne sera jamais plus élevé que le suivant, savoir :—

Piétons, chacun	$0.05
Promenade à cheval, matin, après-midi et soir.	0.10
Enfants au-dessous de 12 ans	Gratis.
Cheval, voiture et conducteur	$0.10
Voiture à deux chevaux et conducteur	0.20
Cheval et son cavalier ou domestique	0.10
Bétail, à pied, chacun	0.15
Moutons, cochons, ou veaux, à pied, chacun	0.05
Fret non transporté dans une voiture, pour chaque 100 livres, ou moins	0.03
Charges de foin, paille, meubles, ou effets encombrants ou lourds	0.50
Charges comme ci-dessus traînées par un cheval.	0.25
Piétons, 10 billets	0.25
Voiture à un cheval, conducteur et une autre personne, 10 billets	1.00
Voiture à deux chevaux, conducteur et une autre personne, 5 billets	1.00

9. Une pancarte contenant le prix de passage et le tarif des péages sera affichée et maintenue en tout temps dans un endroit bien en vue sur ou près le quai ou l'embarcadère, ainsi que sur les bacs ou vapeurs faisant le service.

10. Le Gouverneur en conseil aura le droit de changer et modifier le tarif et les prix ci-dessus établis, s'il le juge à propos dans l'intérêt du public ; et après que le tarif aura été ainsi modifié, l'adjudicataire ne pourra demander où recevoir aucuns péages ou prix plus élevés que ceux prescrits par le tarif ainsi modifié, tant qu'il restera en existence.

11. Le Gouverneur en conseil aura toujours le droit, lorsqu'il lui sera prouvé que l'adjudicataire ne remplit pas les conditions ci-dessus ou celles stipulées dans son bail, de déclarer le bail résilié et nul, et alors ce dernier deviendra nul et non avenu à toutes fins et intentions, comme s'il n'eût jamais été consenti, sans indemnité pour l'adjudicataire.

12. L'adjudicataire ne devra en aucun temps pendant l'existence du bail, sciemment ou volontairement enfreindre aucune des lois ou aucun des statuts ou règlements des Etats-Unis d'Amérique, ou de l'Etat du Michigan, ou de la cité de Détroit, au sujet du service du bac, qui peuvent s'appliquer au passage d'eau ou à quelque partie de ce passage qui peut se trouver sous la juridiction des Etats-Unis d'Amérique, soit de l'Etat du Michigan, ou la cité de Détroit, ni ne permettra ou ne souffrira que ses employés ou serviteurs les enfreignent.

13. Pourvu toujours que si les Etats-Unis d'Amérique, ou l'Etat du Michigan, ou la cité de Détroit dans l'exercice de quelque pouvoir leur appartenant en aucun temps pendant la durée du bail, empêchaient ou entravaient le service du bac sur le passage d'eau, ou sur quelque partie de ce passage qui peut être sous leur juridiction, ou s'ils causaient à l'adjudicataire quelque perte, dépense, frais ou dommage à ce sujet, celui-ci n'aura droit à aucune indemnité ou compensation de la part du Canada.

14. Le bail sera accordé pour une période de dix (10) ans.

15. Le bail ne sera ni sous-loué ni cédé.

JOHN J. McGEE,
Greffier du Conseil privé.

45-4

[1245]

HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 13e jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que le tarif de péages et droits pour les quais de l'Etat, qui impose un taux de quaiage de 10 centins par tonne sur la pierre à plâtre, soit, et il est par le présent modifié en substituant le taux de $2\frac{1}{2}$ centins par tonne pour la pierre à plâtre, au lieu du dit taux de 10 centins.

JOHN J. McGEE,
Greffier du Conseil privé.

44-3

ORDRES GÉNÉRAUX DE MILICE
1896.

QUARTIERS GÉNÉRAUX,
16 mai 1896.

O. G. 36.

MILICE ACTIVE.

ETAT-MAJOR AUX QUARTIERS GÉNÉRAUX.

INSPECTEUR DE CAVALERIE.

La Major François Louis Lessard, des Dragons Canadiens Royaux, a été nommé inspecteur de cavalerie, en sus de ses devoirs actuels, *vice* Turnbull, qui s'est retiré.

INSPECTEUR D'INFANTERIE.

Les Lieutenants-colonels George J. Maunsell et William D. Otter, Régiment Royal d'Infanterie Canadienne, ont été nommés inspecteurs d'infanterie, en sus de leurs devoirs actuels.

—

ETAT-MAJOR DE DISTRICT.

MAJORS DE BRIGADE.

Il a plu à Son Excellence le Gouverneur général, le 21 d'avril 1896, de nommer Frederick Moore Pope, écuyer, de la liste des lieutenants-colonels en retraite, major de brigade du district militaire No. 6, avec résidence à Sherbrooke, P.Q.

Le grade de major dans la Milice Active est accordé à cet officier, à compter du 21 d'avril 1896.

Il a plu à Son Excellence le Gouverneur général en conseil le 13 d'avril 1896, de nommer le Major Josiah Albert Black, du 93e bataillon d'infanterie "Cumberland", major de brigade du district militaire No. 9.

—

COLLÈGE MILITAIRE ROYAL DU CANADA.

PERSONNEL CIVIL.

Ira E. Martin, écuyer, a été confirmé dans sa nomination de Professeur de mathématiques, de mécanique et d'astronomie, à compter du 1er juillet 1895.

CAVALERIE.

2E DRAGONS.—Troupe "D."—Le 2nd Lieutenant provisoire Carl V. Johnson a la permission de se retirer.

6E "DUKE OF CONNAUGHT'S ROYAL CANADIAN HUSSARS.—Troupe "A."—Est nommé capitaine, à compter du 22 d'avril 1896 : le 2nd Lieutenant Frederick Whitley, *vice* Clerk, décédé.

ARTILLERIE ROYALE CANADIENNE.

Est nommé chirurgien-vétérinaire, à compter du 6 d'avril 1896 : Le Chirurgien-vétérinaire Joseph A. Couture, de la 1re batterie d'artillerie de campagne canadienne, pour compléter l'effectif.

ARTILLERIE CANADIENNE.

2E BATTERIE D'ARTILLERIE DE CAMPAGNE "OTTAWA."—Est nommé 2nd lieutenant, provisoirement, à compter du 8 de mai 1896 : William George Hurdman, gentilhomme, pour compléter l'effectif.

3E BATTERIE D'ARTILLERIE DE CAMPAGNE, "MONTRÉAL."—Est nommé lieutenant : le Lieutenant Francis Bertram Wilson, de la Réserve des officiers, *vice* Costigan, promu.

Est nommé 2nd lieutenant, provisoirement : Donald Alexander Smith, gentilhomme, *vice* Benyon, transféré.

5E BATTERIE D'ARTILLERIE DE CAMPAGNE, "KINGSTON." —Sont nommés 2nd lieutenants, provisoirement, à compter du 29 d'avril 1896 : William Dafoe Hart, gentilhomme, *vice* Caines, promu, et Miles P. Cotton, pour compléter l'effectif.

1ER RÉGIMENT "HALIFAX."—Le Capitaine Guy C. Hart a la permission de résigner sa commission et de retenir le grade de capitaine.

Est nommé 2nd lieutenant, provisoirement : George Edward Vanbuskirk, gentilhomme, *vice* Hart, qui s'est retiré.

5E RÉGIMENT "BRITISH COLUMBIA."—Les 2nd Lieutenants provisoires James M. Buxton et Frederick W. Alexander ont la permission de se retirer.

Est nommé 2nd lieutenant, provisoirement : Peter MacLaren Forin, gentilhomme, *vice* Buxton, qui s'est retiré.

COMPAGNIE NO. 1, "LÉVIS."—Est nommé major : le Capitaine et Major titulaire Joseph Octave Martineau, pour compléter l'effectif.

Est nommé capitaine : le Lieutenant Laparre Marsan, *vice* Martineau, promu.

Sont nommés lieutenants, provisoirement, pour compléter l'effectif : Le 2nd Lieutenant provisoire Emile Gelly, de la Compagnie No. 4, 17e bataillon d'infanterie, et le 2nd Lieutenant provisoire Omer Carrier, de la compagnie No. 3, 17e bataillon.

COMPAGNIE DE DIGBY.—Le 2nd Lieutenant Frank L. Bacon a la permission de résigner sa commission.

Est nommé 2nd lieutenant provisoirement : le Sergent Arthur E. Cousins, *vice* Bacon, qui s'est retiré.

INFANTERIE ET CARABINIERS.

GARDES À PIED DU GOUVERNEUR GÉNÉRAL.—Est nommé 2nd lieutenant provisoirement : John L. Garland, gentilhomme, pour compléter l'effectif.

3E BATAILLON "CARABINIERS VICTORIA DU CANADA." L'Aide-chirurgien Charles J. C. Wilson ayant quitté les limites, son nom est rayé du cadre des officiers de la Milice Active.

Est nommé chirurgien : Herbert Stanley Birkett, écuyer, M.D., *vice* Campbell, qui s'est retiré.

Est nommé 2nd lieutenant, provisoirement : Henry Bruce Stuart, gentilhomme, pour compléter l'effectif.

AVIS est donné au public qu'en vertu de "l'Acte des compagnies" il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 23e jour d'avril 1896, constituant en corporation Henry Dobell, de la cité de Montréal, dans la province de Québec, marchand ; John Delisle, de Saint-Jean d'Orléans, dans la dite province de Québec, capitaine au long cours ; Charles Archibald, de Sydney, Cap-Breton, bourgeois ; William Henry Archibald, du même lieu, bourgeois ; Henry E. Hardisty, de la cité de Montréal susdite, commis ; W. Patterson, du même lieu, commis pour les fins suivantes :—Acquérir, posséder, gérer, naviguer et entretenir le steamship *Acadian* enregistré à Montréal, et tout navire, steamship ou autre embarcation qu'il sera jugé convenable ou nécessaire aujourd'hui ou en tout temps à l'avenir d'ajouter ou de substituer au dit steamship ; d'y transporter des effets, articles, marchandises, fret et cargaisons de toute espèce, ainsi que des passagers, la malle, et autre trafic, entre tels ports dans toutes les parties du monde que la compagnie jugera à propos ; acheter et vendre et faire le trafic de cargaisons et de marchandises pour fret, rémunération ou autrement,—sous le nom de "Acadian Steamship Company" (à resp. limitée), avec un capital-actions total de douze mille piastres, divisé en cent vingt actions de cent piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 1er jour de mai 1896.

CHARLES TUPPER,
Secrétaire d'Etat.
44-3

AVIS est donné au public qu'en vertu de "l'Acte des compagnies," il a été délivré sous le grand sceau du Canada, des lettres patentes supplémentaires en date du 23e jour d'avril 1896, par lesquelles le capital-actions de la "Provincial Natural Gas and Fuel Company of Ontario" (à resp. limitée) est réduit de cinq cent dix mille (510,000) piastres à trois cent mille (300,000) piastres, et le montant de chaque action de ce capital réduit de quatre-vingt-cinq (85) piastres à cinquante (50) piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 1er jour de mai 1896.

CHARLES TUPPER,
Secrétaire d'Etat.
44-3

AVIS AUX MARINS.

No. 11 de 1896.

PHARE DE LA POINTE AUX CITROUILLES EMPORTÉ.

On a été informé que le phare de la Pointe aux Citrouilles, sur le fleuve Saint-Laurent, en amont de Québec, a été emporté par la glace. Jusqu'à ce que la tour soit reconstruite, un feu temporaire sera exhibé sur un poteau.

Cet avis affecte la Liste canadienne des phares et signaux de brume No. 702.

JOHN HARDIE,
Sous-ministre suppléant de la Marine et des Pêcheries.

Ministère de la Marine et des Pêcheries,
Ottawa, Canada, 22 avril 1896.

☞Tous les relèvements, à moins d'avis contraire, sont magnétiques et sont donnés venant de la mer, les milles sont des milles marins, les hauteurs sont au-dessus des hautes eaux, et toutes les profondeurs sont à l'eau basse moyenne.

Les pilotes, capitaines et autres intéressés sont instamment priés d'envoyer tous renseignements quant aux dangers, changements aux aides à la navigation, avis de nouvelles battures ou de nouveaux chenaux, erreurs dans les publications, ou autres faits touchant la navigation dans les eaux canadiennes, au "Sous-ministre de la Marine et des Pêcheries, Ottawa, Canada."
45-3

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada*, voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre voulu d'insertions.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée. Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministère de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurances—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

Imprimeur de la Reine et Contrôleur
de la Papeterie.

Département des Impressions
et de la Papeterie publiques,
Ottawa, novembre 1891.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill prive ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

RÈGLE SPÉCIALE DU SÉNAT.

Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Ordre spécial de la Chambre des Communes.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Substance des règles et formes de procéder du Sénat concernant les bills de divorce.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage a 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

CHEMIN DE FER BAIE D'HUDSON ET PACIFIQUE.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire, exploiter et entretenir un chemin de fer mû par la vapeur et l'électricité partant de Port Churchill sur la Baie d'Hudson, traversant les territoires du Nord-Ouest et de Kéwatin jusqu'à Fond du Lac sur le lac Athabasca, et depuis Port Churchill susdit sur la Baie d'Hudson, traversant le territoire de Kéwatin au sud de la rivière Churchill et au nord de la rivière Nelson, jusqu'à un point à ou près de Sea Falls, sur la dite rivière ; de là, au nord du lac Winnipeg traversant le territoire de Saskatchewan jusqu'à Prince-Albert, dans le dit territoire ; de là, continuant sur le dit territoire et le territoire d'Alberta, en ligne droite jusqu'à Calgary, dans le dit territoire en dernier lieu mentionné, avec pouvoir de construire un embranchement depuis un point près du lac Manitou, dans le territoire de Saskatchewan, jusqu'à Edmonton, dans le territoire d'Alberta. Aussi, avec pouvoir de construire, acheter, noliser, entretenir et naviguer des vaisseaux à vapeur et autres pour faire le service entre Fort Churchill et d'autres contrées, porter et transporter des passagers et du fret, et faire un service général de transport en rapport avec le dit chemin de fer ; construire, exploiter, et entretenir les ponts, docks, quais, élévateurs, etc., qui seront nécessaires et avantageux pour les fins de la dite entreprise. Aussi, construire et exploiter des lignes de télégraphe et de téléphone tout le long du chemin de fer projeté et du dit embranchement, pour la transmission de messages pour le public ainsi que pour les fins du dit chemin de fer ; aussi, acquérir les pouvoirs hydrauliques qui seront jugés nécessaires pour la génération de l'électricité pour les fins du chemin de fer et du dit embranchement, et l'achat, construction et entretien de tout outillage électrique qui sera trouvé nécessaire en rapport avec le dit chemin de fer et son embranchement, ses ponts, élévateurs, quais et docks ; et avec tous autres pouvoirs et droits qui pourront être avantageux et nécessaires au succès de la dite entreprise, y compris tels pouvoirs et droits qui pourront être accordés et prescrits, avec le consentement du parlement du Canada, par le parlement de la Grande-Bretagne et l'Irlande.

JOSEPH NELSON.

Ottawa, 12 mai 1896. 46-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire un chemin de fer, mû par la vapeur ou par l'électricité, ou les deux, partant de la ville de Portage la Prairie, dans la province du Manitoba, et allant jusqu'à un gué de la rivière Saskatchewan, aux ou près des Grands Rapides ; de là, par la route la plus praticable, jusqu'à la navigation en eau profonde sur la Baie d'Hudson, avec un embranchement depuis un point à ou près de la frontière internationale entre les rangs onze et quinze, à l'ouest du premier médidien principal, dans la dite province du Manitoba, courant dans une direction nord ou nord-ouest jusqu'à son intersection avec la ligne mère ; aussi une ligne d'embranchement depuis un point sur la ligne mère près des Grands Rapides jusqu'à Edmonton *via* Prince-Albert et Battleford, dans les Territoires du Nord-Ouest ; avec pouvoir de construire et exploiter des lignes de télégraphe et de téléphone le long du dit chemin de fer et ses embranchements pour toutes fins que ce soit ; aussi acquérir, construire, acheter, noliser, posséder et naviguer des vaisseaux à vapeur et autres sur les lacs, rivières et autres eaux navigables, dans le but de faciliter le trafic en rapport avec le dit chemin de fer ; acquérir, construire, acheter et posséder des élévateurs, entrepôts, quais, docks et chantiers en rapport avec le dit chemin fer ; avec tous les pouvoirs et privilèges nécessaires ou ordinaires donnés ou conférés aux compagnies constituées pour aucune des fins susdites.

GEO. ELDON KIDD,
Solliciteur des requérants.

Ottawa, 14 mai 1896. 46–9

COMPAGNIE DE CANAL ET NAVIGATION DE LA BAIE D'HUDSON.

AVIS est donné par le présent que demande sera faite au parlement du Canada, à sa prochaine session, à l'effet de passer un acte constituant une compagnie pour construire un canal depuis un point sur le bras est de la rivière Nelson jusqu'à la Baie d'Hudson ; et d'améliorer la navigation des rivières et cours d'eau se déversant dans le lac Winnipeg de façon à établir une navigation continue, et de prélever des péages ; et de construire, équiper et utiliser des barges et autres vaisseaux, et des tramways pour le transport du fret et des passagers ; et de construire et exploiter des élévateurs, moulins, quais, docks et entrepôts, et des lignes de télégraphe et de téléphone, des outillages hydrauliques et électriques, et fournir la force motrice s'y rattachant, et pour d'autres usages, et généralement avoir et exercer tels pouvoirs qui sont conférés aux corporations de chemins de fer par "l'Acte des chemins de fer," et qui seront applicables à la navigation des canaux et eaux intérieures.

N. F. HAGEL,
Solliciteurs des requérants.

Winnipeg, 2 mai 1896. 44–9

PROCLAMATIONS.

ABERDEEN.
[L.S.]

CANADA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c., &c.

To Our Beloved and Faithful the Senators of the Dominion of Canada, and the Members elected to serve in the House of Commons of Our said Dominion, and to all whom it may concern—Greeting :

WHEREAS We have thought fit, by and with the advice and consent of Our Privy Council for Canada, to DISSOLVE the present Parliament of Canada, which stands prorogued to the SECOND day of JUNE next ;

Now Know Ye, that We do for that end publish this Our Royal Proclamation, and do hereby DISSOLVE the said Parliament of Canada accordingly ; and the Senators and the Members of the House of Commons are discharged from their meeting and attendance on the said SECOND day of JUNE next.

In Testimony Whereof, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed. Witness, Our Right Trusty and Right Well-Beloved Cousin and Councillor the Right Honourable Sir John Campbell Hamilton-Gordon, Earl of Aberdeen; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia, Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George, etc., etc., Governor General of Canada.

At Our Government House, in Our City of OTTAWA, this TWENTY-FOURTH day of APRIL, in the year of Our Lord one thousand eight hundred and ninety-six, and in the Fifty-ninth year of Our Reign.

By Command,

SAML. E. ST. O. CHAPLEAU,
Clerk of the Crown in Chancery,

JOSEPH POPE,
Under Secretary of State.

DESPATCHES.

[1237 J.]

Canada.
No. 326.

Downing Street,
16th December, 1895.

Sir,—I have the honour to transmit to you a copy of the document noted in the subjoined schedule, received from the Foreign Office, respecting sanitary regulations as to vessels arriving at Italian Ports.

I have the the honour to be, sir,
Your most obedient humble servant,
R. H. MEADE,
For the Secretary of State.

The Officer administering
the Government of Canada.

Date.	Description of Document.
1895. 23rd November..	Translation of an Italian Ordinance.

Tranlation of a decree of the Italian Ministry of the Interior relating to Maritime Sanitary precautions.

No. 9.

Considering the convenience, generally speaking, of exempting ships on arrival at Italian ports, under ordinary circumstances, from presenting their Bill of Health (patente di sanita) when the sanitary information is marked on the ship's papers (carte di bordo); and in virtue of the power conferred by the Maritime Sanitary Regulations of determining (in concert with the Minister of Marine) what measures are to be taken in such matters; the Minister of the Interior hereby decrees :—

That every vessel arriving at Italian ports from the other European ports, with the exception of Turkish ports, are exempted from the presentation of the Bill of Health (*patente di sanita*); and this exemption applies equally to ships from the Atlantic ports of North America and Canada; but, in any case, ships arriving from ports which have been either declared infected by the local authorities, or have been proclaimed as such by the Italian Ministry of the Interior, are not included, and will have to be furnished with bills of health.

And every ship included in the terms of the present Decree shall have marked on its list of the crew, or on its certificate, information respecting the sanitary conditions of the place of departure, the hygienic conditions of the ship itself and of its cargo, and the state of health of the crew and of the passengers both at the moment of starting and at each port touched at.

The Prefects of the Maritime Provinces and the Harbour authorities are charged with the execution of the present Decree.

Dated Rome, 23rd November, 1895.

(Signed) CRISPI,
Minister of the Interior.

47-2

AT THE COURT AT OSBORNE HOUSE, ISLE OF WIGHT.

The 8th day of February, 1896.

PRESENT:

The Queen's Most Excellent Majesty in Council.

Whereas by an Order in Council made in pursuance of The Merchant Shipping Act Amendment Act, 1862, and dated the 11th day of August, 1884, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to direct that on and after the 1st day of September, 1884, the regulations contained in the schedule thereto should, so far as regards British ships and boats, be substituted for the regulations contained in the first schedule to an Order in Council made as aforesaid, and dated the 14th day of August, 1879.

And whereas by two Orders in Council made in pursuance of the said Act, and on such joint recommendation as aforesaid, and dated respectively the 30th day of December, 1884, and the 24th day of June, 1885, certain modifications and additions were made to the said regulations contained in the schedule to the said recited Order in Council of the 11th day of August, 1884, as regards British fishing vessels and boats.

And whereas by another Order in Council made in pursuance of the said Act, and on such joint recommendation as aforesaid, and dated the 18th day of August 1892, certain modifications and additions were made to the said regulations contained in the schedule to the said recited Order in Council of the 11th August, 1884, as regards steam pilot vessels.

And whereas by the said regulations contained in the schedule to the said Order in Council of the 11th day of August, 1884, it is amongst other things provided as follows :—

Art. 3. A sea-going steamship when under way shall carry—

(*a.*) On or in front of the foremast, at a height above the hull of not less than 20 feet, and if the breadth of the ship exceeds 20 feet then at a height above the hull not less than such breadth, a bright white light so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the ship, viz., from right ahead to two points abaft the beam on either side, and of such a character as to be visible on a dark night with a clear atmosphere, at a distance of at least five miles.

(*b.*) On the starboard side a green light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible on a dark night with a clear atmosphere, at a distance of at least two miles.

(*c.*) On the port side a red light so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the port side, and of such a character as to be visible on a dark night with a clear atmosphere at a distance of at least two miles.

(*d.*) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

And whereas by another Order in Council, made in pursuance of the said Act and on such joint recommendation as aforesaid, and dated the 30th day of January, 1893, the said regulations contained in the schedule to the said Order in Council of the 11th day of August, 1884, were further modified by the addition to the said recited article 3, of the provisions contained in the schedule to the said Order in Council now in recital and set out in the schedule hereto.

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the said recited Order in Council of the 30th day of January, 1893, should be rescinded to the intent that the modifications and additions made to the said recited article 3, and set out in the schedule hereto, should no longer continue in operation.

And whereas Her Majesty was pleased, by and with the advice of Her Privy Council, on the 12th day of December, 1895, by a Provisional Order within the meaning of The Rules Publication Act, 1893, to rescind the said Order in Council of the 30th January, 1893.

And whereas the provisions of section 1 of The Rules Publication Act, 1893, have been complied with :

Now, THEREFORE, Her Majesty, by virtue of the powers vested in Her by The Merchant Shipping Act, 1894, and by and with the advice of Her Privy Council, is pleased to rescind the said recited Order in Council of the 30th day of January, 1893, and to direct that from the date of this Order the provisions contained in the schedule to the last mentioned Order and to this Order, shall cease to be in operation, and the said recited article 3 of the said regulations contained in the said Order in Council of the 11th day of August, 1884, shall have effect as if the said Order in Council of the 30th day of January, 1893, had never been made.

45-3 (Sgd.) C. L. PEEL.

AT THE COURT AT WINDSOR,

The 22nd day of February, 1896.

PRESENT :

The Queen's Most Excellent Majesty in Council.

WHEREAS by an Order in Council dated the 23rd day of July, 1889, made by Her Majesty in the exercise of the powers conferred upon Her by The Merchant Shipping Act Amendment Act, 1862, Her Majesty was pleased, by and with the advice of Her Privy Council, to direct as follows :—

1. As regards sailing ships, that merchant sailing ships of the German Empire, the measurement whereof after the 1st day of January, 1873, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof shall be deemed to be of the tonnage denoted in such registers and other national papers in the same manner and to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.
2. As regards steamships, that merchant ships belonging to the said German Empire which are propelled by steam or any other power requiring engine room, the measurement whereof shall after the said 1st day of January, 1873, have been ascertained and denoted in the registers and other national papers of such steamships, testified by the dates thereof, shall be deemed to be of the tonnage denoted on such registers or other national papers in the same manner and to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of registry of British ships is deemed to be the tonnage of such ships. Provided, nevertheless, that if the owner or master of any such German steamship desires the deduction for engine room in his steamship to be estimated under the rules for engine room measurement and deduction applicable to British ships instead of under the German rule, the engine room shall be measured and the deduction calculated according to British rules; and that in the event of any such steamship possessing a certificate of tonnage or other national paper issued as aforesaid on or after the 20th day of June, 1888, denoting the net registered tonnage of such ship under the British rules, the ship shall be deemed to be of the tonnage so denoted thereon.

And whereas by section 84 of The Merchant Shipping Act, 1894, it is enacted that, whenever it appears to Her Majesty the Queen in Council that the tonnage regulations of that Act have been adopted by any foreign country, and are in force there, Her Majesty in Council may order that the ships of this country shall without being remeasured in Her Majesty's dominions, be deemed to be of the tonnage denoted in their certificates of registry or other national papers in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship ;

And whereas it has been made to appear to Her Majesty in Council that the tonnage regulations of The Merchant Shipping Act, 1894, have been adopted by the Government of His Majesty the German Emperor, and such regulations are now in force in the German Empire, having come into operation on the 1st day of July, 1895 ;

And whereas there still are or may be ships belonging to the German Empire to which the hereinbefore recited Order of the 23rd July, 1889, may apply, and it is expedient not to revoke the same, but to let the said recited Order remain in force so long as there are any ships to which the same may so apply ;

And whereas the provisions of section one of The Rules Publication Act, 1893, have been complied with :

Now, therefore, Her Majesty (in pursuance and exercise of the powers hereinbefore mentioned) is hereby pleased, by and with the advice of Her Privy Council, to direct that the merchant ships of the German Empire the measurement whereof shall, after the 1st day of July, 1895, have been ascertained and denoted in the registers and other national papers of such ships, shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship.

44-4 C. L. PEEL.

ORDERS IN COUNCIL.

[1716]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 13th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of The Harbour Masters Act, chapter 86 of the Revised Statutes, and by and with advice of the Queen's Privy Council for Canada, is pleased to appoint Mr. A. P. St. Laurent, to be Harbour Master of the Port of Rimouski, Province of Quebec, in the room of Mr. Joseph St. Laurent, deceased.

JOHN J. McGEE,
47-4 Clerk of the Privy Council.

[1717]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 13th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of chapter 84 of the Revised Statutes, intituled "An Act respecting Government Harbours, Piers and Breakwaters," and by and with the advice of the Queen's Privy Council for Canada, is pleased to appoint Mr. Samuel Hagan, of Thessalon, in the District of Algoma and Province of Ontario, to be Wharfinger of the Government Wharf at that place.

JOHN J. McGEE,
47-4 Clerk of the Privy Council.

[1690]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 15th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of Section 17 of the Consolidated Revenue and Audit Act, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Inland Revenue Division of Saint John's, P.Q., which comprises the following counties, viz :—Brome, Iberville, Missisquoi, Napierville, Shefford and Saint John's, shall be and the same is hereby attached to the Inland Revenue Division of Sherbrooke, to be known and designated as the Inland Revenue Division of Sherbrooke.

JOHN J. McGEE,
47-4 Clerk of the Privy Council.

QUARANTINE REGULATIONS.

By Order in Council dated 4th May, 1896, in virtue of Chapter 68, Revised Statutes, intituled: "An Act respecting Quarantine."

The whole of the Quarantine Service of Canada is under the administration of the Minister of Agriculture.

There is a medical officer as General Superintendent of Canadian Quarantine.

On the Pacific coast there is a Medical Superintendent of Quarantines for British Columbia.

Each Quarantine Station is in the immediate charge of a specially appointed medical quarantine officer.

At each unorganized maritime or inland quarantine station, the local Collector of Customs is the quarantine officer for the purposes of these regulations.

The Quarantine Stations.

The Quarantine stations of Canada are :—

1. On the Atlantic coast :—

(*a.*) Grosse Isle, in the River St. Lawrence, with Rimouski, the Louise Embankment and the Grand Trunk Wharf at Lévis, as sub-stations, province of Quebec ;

(*b.*) Halifax, the Harbour and Lawlor's Island, in the province of Nova Scotia ;

(*c.*) St. John, the Harbour and Partridge Island, in the province of New Brunswick ;

(*d.*) Sydney, Cape Breton, in the province of Nova Scotia ;

(*e.*) Pictou, in the province of Nova Scotia ;

(*f.*) Hawkesbury, in the province of Nova Scotia ;

(*g.*) Chatham, in the province of New Brunswick ;

(*h.*) Charlottetown, in the province of Prince Edward Island ;

2. On the Pacific coast :—

(*a.*) William Head, including Albert Head, in the Strait of Fuca, province of British Columbia, and also including as a sub-station the port of Victoria, and,

(*b.*) Vancouver ;

3. Every other port, on both coasts, each such port being designated an Unorganized Maritime Quarantine Station ;

4. And every inland Customs port on the Canadian frontier, between the Pacific and Atlantic oceans, each such port being designated an Unorganized Inland Quarantine Station.

5. Every quarantine officer at a Quarantine Station in Canada, and every customs collector in his quality of quarantine officer, shall for the purpose of these regulations be a justice of the peace in virtue of the provisions of Sec. 5 of the Act respecting Quarantine, Chap. 68, Revised Statutes.

General Provisions.

6. Every vessel arriving from any port outside of Canada at any Organized Quarantine Station shall be inspected by a duly appointed quarantine officer, at the place duly appointed for such inspection, and shall not be allowed to make customs entry at any port in Canada until it has received a clean bill of health.

(*a*) If a vessel from an infected port bound for a port in Canada, which is an Unorganized Quarantine Station, has first to pass an Organized Quarantine Station, it shall be held to call at such station before proceeding to its destination.

7. No person shall be allowed to land from any vessel until such person shall have been declared by a quarantine officer free from infectious disease, and until, in the judgment of such officer, such landing can be effected without danger to the public health.

8. Every vessel from any port outside of Canada requiring quarantine inspection shall, on arrival at any port in Canada, display a yellow flag at the fore, for a distinctive quarantine signal, in order to inform the quarantine officer that his services are required, and any vessel arriving by night shall display a red light at the fore for such signal.

9. Coasting vessels from Newfoundland and from ports in the United States contiguous to Canada and free from infectious disease may, from time to time, be excepted from these regulations by order of the Minister of Agriculture.

10. Any of Her Majesty's ships of war or any transport having the Queen's troops on board, accompanied by a medical officer, and in a healthy state, is exempt from quarantine inspection and detention.

Quarantine Detention.

11. Every quarantine offier shall satisfy himself as to the presence or absence of infectious disease by the personal inspection of those on board or by the sworn statement of the captain or surgeon, in the form hereto appended, or by both.

12. Every vessel with infectious disease on board, or coming from an infected port or country, shall be liable to be detained at a quarantine station for disinfection, together with its passengers, crew and pilot, passengers' luggage and cargo ;

(*a.*) A vessel may be detained at quarantine for disinfection during the time necessary for that purpose;

(*b.*) The time during which a vessel may be detained for quarantine of observation is the accepted period of the incubation of the disease quarantined against from the ascertained date of last possible exposure.

13. Any vessel so detained by order of the quarantine officer shall forthwith be anchored or moored in such position as the quarantine officer shall direct.

14. And whilst such ship is so detained no person shall leave the same, nor shall communication be allowed with such vessel, without permission from the quarantine officer.

15. The quarantine officer detaining any ship as aforesaid shall immediately notify the Minister of Agriculture, stating the cause of such detention.

16. Within the meaning of these regulations an infected port or country is a port or country where Asiatic Cholera or other epidemic disease has been communicated to one or more persons through the medium of an infected person, personal effects or otherwise. A port or country is not considered infected when a single case or a small number of cases has been imported, and the disease has not been communicated from such cases.

Hours of Inspection—Putting Back—Costs.

17. Every vessel may be inspected during any hour of the twenty-four ;

(*a.*) With the exception that in times of epidemic the Minister of Agriculture may direct that inspection shall only take place during the hours of daylight.

(*b.*) All quarantine inspections, except those under section 46 (*a*), shall be made without any charge against the vessel.

18. Any vessel shall have the option before breaking bulk to put to sea in preference to being quarantined, as provided by Section 9 of the Act intituled "An Act respecting Quarantine," chap. 68, Revised Statutes.

19. All costs incurred in the maintenance of healthy persons, who may have been exposed to infection, detained for quarantine of observation are to be at the charge of the vessel ;

(*a.*) And the master of a vessel shall make arrangements with the quarantine officer for the landing of the necessary provisions and attendance of stewards for serving them in cases where passengers are landed ;

(*b.*) Persons actually sick will be treated and taken care of in the quarantine hospitals, at the charge of the Government ;

(*c.*) In the event of a vessel being allowed to proceed, leaving its passengers in quarantine, the subsequent transfer of such passengers from quarantine to the port of destination shall be at the charge of the vessel.

(*d.*) The appliances, materials and labour for disinfection are supplied by the Government without charge to the vessel.

Quarantinable Diseases.

20. The graver quarantinable diseases are : Asiatic cholera, small pox, typhus fever, yellow fever and the plague. The minor : scarlet fever, enteric fever (typhoid), diphtheria, measles and chicken-pox ;

(*a.*) In addition to the above recital, it is the duty of every quarantine officer to satisfy himself as to the presence or absence of any other contagious or infectious disease ;

(*b.*) With respect to leprosy it is the duty of every quarantine officer, particularly on the Pacific coast, to satisfy himself as to the fact of the presence or absence of such disease among the passengers; and in the event of any case of such disease being found, the person affected shall not be allowed to land, but must be taken back by the vessel to the place whence he or she came.

Pilots furnish Regulations.

21. It shall by the duty of every pilot to furnish the master of every vessel arriving at any port of Canada with a copy of these Regulations, under the penalty hereinafter prescribed.

Relating to Vaccination.

22. Every passenger shall be required to furnish evidence, to the satisfaction of a quarantine officer, of having been vaccinated, or having had the small-pox.

23. The production of a certificate by a ship's surgeon called "a protection card," and his testimony under oath verifying the truth of such certificate, may be taken by a quarantine officer as evidence of such vaccination and protection. Such quarantine officer shall, however, from time to time, make personal examination of holders of such certificates to satisfy himself of the manner in which they have been issued.

24. Any person not having shown satisfactory evidence of having been vaccinated, or of having had small-pox, shall be vaccinated by a quarantine officer; or in the event of refusal shall be landed at the quarantine station, subject to detention for observation, and the expense of the maintenance of such person during such detention shall be a charge against the vessel;

(*a.*) A vessel arriving at any quarantine station in Canada will be less liable to detention if the vaccination of all steerage passengers not showing proof of vaccination within seven years is insisted on before embarkation. The ship's surgeon should satisfy himself of such fact in the case of every passenger early during the voyage or at the time of embarkation if possible, in order to be able to answer the questions put to him by the quarantine officer.

25. In the event of small-pox having occurred on any vessel, every person on board not showing satisfactory evidence of having been vaccinated within seven previous years, or of having had the small-pox within that period, shall be vaccinated by or under the supervision of the quarantine officer; or in the event of refusal, shall be landed at the quarantine station, subject to detention for observation, and the expense of maintenance of such person or persons during such detention shall be a charge against the vessel.

Examination.

26. The quarantine officer shall examine the surgeon or any officer of any vessel, under oath, touching the state of health of such vessel and of every person on board, in the form of the questions appended to these Regulations.

Isolation.

27. Every vessel provided with an isolated hospital for men, and another for women, on the upper deck, ventilated from above and not by the door only, may, if the quarantine officer is furnished with satisfactory evidence that such hospital accommodation has been promptly and intelligently made use of, be allowed to proceed after the landing of the sick and the disinfection of such hospital as has been used; any vessel, however, arriving with any infectious disease, without having such special isolated and ventilated hospital accommodation, or if having it, without satisfactory evidence that it has been promptly and intelligently made use of, shall be liable to be detained for disinfection at a quarantine station.

Mails at Rimouski.

28. In the case of a vessel carrying Her Majesty's mails and arriving by the St. Lawrence, clearance certificate shall be from a quarantine officer at Rimouski or Grosse Isle, and in the case of every other vessel from Grosse-Isle only;

(*a.*) With the exception that during a time of cholera or other epidemic, the permission to a mail steamer from an infected port or country to land passengers at Rimouski may be suspended by direction of the Minister of Agriculture;

(*b.*) And, in such conditions, the mails only to be landed at Rimouski, and the vessel to proceed to Grosse Isle for inspection;

(*c.*) In the event of cholera having occurred on board of such vessel during the voyage, the outer bags containing the mail matter to be left on board the steamship for disinfection at Grosse Isle.

Disinfection of Luggage.

29. During a time of cholera or other epidemic, the luggage of immigrants or passengers by every vessel arriving at any port in Canada, whether from an infected or healthy port or country, may by direction of the Minister of Agriculture be disinfected in each case.

(*a.*) When this disinfection is carried out at a substation, subsequent to the inspection and clearance at the main station, the clearance granted by the quarantine officer shall be conditional on the landing of immigrants and their luggage for disinfection.

(*b.*) The supervising officer of such disinfection to count the immigrants as they land, and if he finds the number tallies with that marked on the clearance of the quarantine officer and has satisfactory evidence that all their luggage has been landed with them, he shall punch the clearance at the place marked for that purpose, which shall then become valid for Customs entry.

Passenger's Certificates.

30. Every maritime quarantine officer shall punch each immigrant's "International passengers certificate" where such are in use, in such manner as to convey to inland health officers the result of the quarantine inspection, as provided by such card or certificate.

(*a.*) Every maritime quarantine officer shall punch the schedule list of immigrants by destination, province (or State if destined for the United States) where such is in use, which shall be furnished by the ship's surgeon on forms supplied by the Government, and shall forward such lists forthwith to the Secretary of the Board of Health in the Province or State to which such immigrants are destined.

Steam Tugs.

31. Any steam tug or other vessel which shall have towed or otherwise communicated with any vessel of the class of vessels subject to quarantine or quarantine inspection shall thereby be held to the same regulations and requirements as apply to the vessel communicated with;

(*a.*) If the communication between the vessel and the steam tug is confined to attachment of a rope, afterwards loosed, the quarantine officer may decide to release such tug from quarantine detention.

Rags.

32. Rags coming from a port or country in which infectious disease prevails, may be prohibited, and the name of any port or country so infected shall, from time to time, be published in the *Canada Gazette;*

(*a.*) Rags arriving from prohibited ports at a quarantine station shall be liable to be burnt or otherwise treated on the order of the Minister of Agriculture based on a report of the quarantine officer.

New Merchandise.

33. New merchandise in general may be accepted without question.

In Times of Epidemics.

34. Passengers during a period of epidemic disease should be notified by steamship agents to dispense as far as possible with luggage that may be injured by wetting, in case of having to undergo disinfection—such as fabrics, of which the dyes are likely to run—as the owners will be compelled to assume all risks of injury.

35. Vessels during a period of epidemic disease should dispense as far as possible with woollen hangings, curtains, carpets and upholstering, substituting non-absorbing coverings.

36. Every vessel carrying cargo, and liable to be disinfected, should have provided a plain frame shaft allowing a clear inside space of 12 inches each way, placed in the main hatch, in a sailing vessel; and one in each hatch of a steamship, divided by bulkheads. The frame work in this shaft to be set before loading and to extend from the hatchway to the bottom of the vessel. This simple arrangement would receive the fumigating pipe and avoid shifting cargo.

Passengers.

37. Passengers, for the purpose of these regulations are divided into two classes, cabin and steerage. Steerage passengers are those occupying compartments other than those of first and second cabin.

Methods of Disinfection.

38. The methods of disinfection at the Quarantine Stations of Canada shall be as follow :—

(*a.*) Exposure to steam not less than 30 minutes, steam to be of the temperature of not less than 100° Centigrade (212° Fahrenheit) nor greater than 115° Centigrade (239° Fahrenheit) ;

(*b.*) Articles that would be destroyed by the above method, to be disinfected by thoroughly wetting with a solution of mercuric chloride, of one part to one thousand, or approximately one drachm to one gallon, wine measure, applied by means of a brush, or by drenching, or by immersion.

(*c.*) Where sulphur dioxide is used, it is to be provided by burning not less than 3 pounds of rolled sulphur per 1000 cubic feet of space or if it is used in liquid form in the same proportionate strength, and the period of exposure to be not less than 6 hours.

39. The disinfection of iron vessels shall be as follows, as may be required :—

(*a.*) *Holds*—After mechanical cleansing, the hold to be thoroughly washed with an acid solution of mercuric chloride, 1 to 800 (mercuric chloride 1 part, hydrochloric acid 2 parts, water 800 parts), applied to all surfaces by means of a hose. If danger is apprehended from the poisonous effects of the mercury deposited on the surfaces, they can be subsequently washed down with clean water ;

(*b.*) *Steerage*—The same treatment should be given the steerage as the hold, but when there is a steam pipe provided for each compartment (for the prevention of fire), steam disinfection of the steerage should be practised. The temperature in all parts of each compartment to be not less than 100° C. (212° Fahr.) ;

(*c.*) *The forecastle or apartment for crew*—After mechanical cleansing the application of mercuric chloride in the manner hereinbefore prescribed, or sulphurous fumes, or steam disinfection, if facilities are provided for the same, should be employed ;

(*d.*) *Officer's quarters, cabin, state rooms, &c.*—Each compartment to receive the same treatment, under the same conditions as hereinbefore specified, it being borne in mind that the decorative metal work in cabins, saloons, &c., would be injured by the use of the mercuric chloride solution, and therefore in such cases other forms of disinfection are to be used as determined by the quarantine officer.

40. The disinfection of wooden vessels shall be as follows, as may be required :—

(*a.*) Fumigation by sulphur dioxide made by burning not less than 3 pounds of rolled sulphur to each 1,000 cubic feet of space ; or by the use of liquid sulphur dioxide in the same proportionate strength ; and the period of exposure to be not less than 24 hours.

(*b.*) Washing or flushing with acid solution of mercuric chloride (1 to 800). Cabins, forecastle and other apartments to be thoroughly washed with mercuric solution.

41. In all classes of vessels all clothing, bedding, curtains, &c., to be subjected to steam for 30 minutes at from 100° C. (212° Fahr.) to 115° C. (239° Fahr.)

42. In all classes of vessels, the bilges to be first flushed with sea or river water, pumped out, and then treated with acid solution of mercuric chloride in large quantity, and allowed to remain in long contact.

Unorganized Maritime Quarantine Stations.

43. At every port at which there is no regular quarantine station, the Collector of Customs shall be the quarantine officer for the purposes of these Regulations ; and in the event of disease, such collector may for the purposes of these regulations call in the services of a medical man, who shall, while so acting, be held to be a quarantine officer ; and every such port shall be designated an Unorganized Maritime Quarantine Station.

44. Every vessel arriving at an unorganized Maritime Quarantine Station from an infected port, or on board of which any death from infectious disease or outbreak of infectious disease has occurred during the voyage, shall remain outside until it receives permission to enter from the quarantine officer.

45. All the Regulations applicable to regularly organized Maritime Quarantine Stations shall also apply to every unorganized Maritime Quarantine Station in so far as circumstances will admit, and particularly the provisions in relation to inspection, anchoring or mooring, disinfecting, customs clearance, putting back to sea before breaking bulk, questions to ship's surgeon or officers, and penalties.

46. Any collector or sub-collector of customs in his quality of quarantine officer at any unorganized Maritime Quarantine Station in Canada, if he is informed of or has reason to suspect the presence of any of the graver quarantinable diseases recited in section 20 of these Regulations, shall order a medical inspection to be made of the vessel bringing such disease ;

(*a.*) In the event of a vessel arriving at an unorganized Maritime Quarantine Station with quarantinable disease on board, the master shall pay a fee of $4 for each medical inspection ordered by the quarantine officer, and such fee or fees must be paid before customs clearance is granted.

(*b.*) If no disease is found on board a vessel arriving at an unorganized maritime quarantine station and ordered to be inspected by the quarantine officer, the cost of such inspection shall not be a charge against the vessel, but will be defrayed by the Government.

(*c.*) If the disease found on board a vessel, or the history, conditions, or circumstances of a vessel be such as may seem to the collector or sub-collector of customs to be beyond the capabilities for isolation or disinfection existing at an unorganized Maritime Quarantine Station, he shall at once report the same to the Minister of Agriculture, who may, at his discretion, order that the vessel proceed to an organized Quarantine Station for quarantine clearance, before being allowed to make customs entry. And in such case the expense of the transfer of the vessel to the Organized Maritime Quarantine Station shall be a charge against the vessel.

Unorganized Inland Quarantine Stations.

47. Every inland port on the frontier of Canada between the Atlantic and the Pacific Oceans, at which there is a collector or a sub-collector of customs, shall for the purpose of these Regulations, be constituted an unorganized inland quarantine station.

48. Every collector or sub-collector of customs at every such inland frontier port shall be the quarantine officer.

49. Any collector or sub-collector of customs in his quality of quarantine officer at any unorganized inland quarantine station in Canada, if he is informed of or has reason to suspect the presence of any of the graver quarantinable diseases recited in section 20 of these regulations shall, in time of cholera or other epidemic disease, order a medical inspection to be made of the car, carriage, vehicle, boat or thing bringing such disease ;

(*a.*) And such quarantine officer is empowered to detain such car, carriage, vehicle, boat or thing, until such medical inspection shall have been made to his satisfaction ;

(*b.*) A medical man making such inspection by order of the quarantine officer shall, while engaged in such service, be the quarantine medical officer.

50. The fee payable to such quarantine medical officer for each such inspection shall not exceed the sum of $4, and in the event of any quarantinable disease being found, such fee shall be payable by the company or owner of the car, carriage, vehicle, boat or thing, bringing such disease.

51. The customs collector or sub-collector in his quality of quarantine officer shall, on the report of the quarantine medical officer, in a time of epidemic disease, in the event of any of the graver quarantinable diseases being found, cause the detention of the car, carriage, vehicle, boat or thing, bringing any person ill with such infectious disease until the requirements of these Regulations are in his judgment satisfied;

(*a.*) Any such person shall not be allowed to enter Canada until in the opinion of the quarantine medical officer he or she can safely do so;

(*b.*) Any car, carriage, vehicle, boat or thing, bringing such person to the frontier shall have the option of returning as an alternative to quarantine detention; or

(*c.*) The customs collector or sub-collector in his quality of quarantine officer shall in his discretion, on the report of the quarantine medical officer, cause the removal and isolation of such person in any car or boat, set apart for the purpose, or in any suitable building sufficiently separated from other buildings to prevent contact or infection;

(*d.*) And such quarantine officer may cause the disinfection of the car, carriage, vehicle, boat or thing bringing such person, by means of sulphurous fumes, or any other mode or disinfection prescribed in these Regulations adapted to the circumstances of the particular case.

52. In the event of cholera or other epidemic disease prevailing in any part of the United States through which a railway crossing the frontier of Canada runs, the Governor in Council may, on an order published in the *Canada Gazette* or in an extra of the *Canada Gazette*, made on a report of the Minister of Agriculture, and where there may not happen to be at that point of the frontier any adequate quarantine arrangements and apparatus to cope with an inroad of such epidemic disease, direct the complete cessation of passenger traffic at such point; or such restriction thereof as may, in the circumstances, be deemed advisable.

Quarantine Officers give all Necessary Orders—Prohibited from Receiving Fees or Gratuities.

53. Every quarantine officer is empowered to give any necessary order, or do any necessary act, to enforce these regulations, and it is his duty to report immediately to the Minister of Agriculture any breach or attempted breach of them.

(*a.*) No quarantine officer nor other person employed in the quarantine service of Canada shall directly or indirectly receive or take any fee or private gratuity or reward for any service rendered to any company, or owner, master, or crew, passenger, or other person at or detained in any quarantine, maritime or inland.

(*b*) Every person to whom the knowledge of any breach of these regulations may come should forthwith report the same to the Minister of Agriculture.

Penalties for customs officers, pilots, masters, surgeons and officers of vessels, etc.

54. Every pilot shall be furnished with printed copies of these regulations, one of which it shall be his duty to hand to the master of every vessel coming from a port outside of Canada, immediately on boarding such vessel, under a penalty of $50.

55. Every collector of customs or customs officer shall be liable to a penalty of $400, and emprisonment for six months, for allowing customs entry of any vessel in the absence of production of a Quarantine Clearance, in accordance with the requirements of these regulations.

56. Every master of a vessel, pilot, or other person, shall be liable to a penalty of $400 and imprisonment for 6 months, for any contravention of any of the foregoing regulations. The vessel shall be held liable for any pecuniary penalty imposed on the master.

57. Every ship's surgeon or other officer not answering with exact truth any of the questions contained in the form hereunto appended shall be liable to a penalty of $400 and imprisonment for 6 months.

58. Every breach of sub-section *a* of section 53 of these regulations shall be held to be a malfeasance of office, an offence punishable with dismissal, fine or imprisonment.

Questions to be answered under oath to quarantine officers by masters, surgeons, or officers of vessels.

Date 189 .

1. What is your vessel's name and your name?

2. From what port and at what date did your vessel sail?

3. What is your cargo and whence taken on board?

4. Are there any rags in such cargo?

5. Has your vessel touched at any place or places on her voyage?

6. Was such place or places, or any of them, to your knowledge, infected with cholera, small-pox, plague or any pestilential fever or disease?

7. How many persons were on board when the vessel sailed? Cabin passengers ; intermediate ; steerage ; cattlemen ; crew . Total .

8. State whether any person on board during the voyage has been, or is now, ill with any of the diseases above referred to, and if so, how many?

9. Has any person died on board during the present voyage, and if so, state all particulars?

10. Has each of the steerage passengers on board been vaccinated or had the small-pox?

11. Did the vaccination of steerage passengers take place at time of, or before, embarking?

12. How many have you vaccinated on your present voyage?

13. (*Question to be asked, in the event of small-pox having occurred during the voyage, of ship's surgeon, if such is on board*—Have you personally during the present voyage, examined each one of the passengers and crew for proof of vaccination within seven years, or of having had the small-pox in that period?)

14. Did you or any of the crew or passengers, within your knowledge, land at any place or places within Canada during the present voyage?

15. Is there any person on board lunatic, idiotic, deaf and dumb, blind or infirm, and if so, is such person accompanied by relatives or guardians?

16. Have you an isolated hospital for men, and another for women, ventilated from above and not from the alley-way?

17. Were such hospitals, or one of them, immediately made use of on the occurrence of disease?

18. Are there any other facts which, in your opinion, should be communicated?

(Signature) Master.

(Signature) Surgeon.

I, Master,
Surgeon,
(*here state whether ship's master, or occupying another position on board*) do solemnly and sincerely swear to the exactness and truth of the answers to the above questions signed by me. So Help me God.

Master.

Surgeon.

Sworn before me at this day of
189 .

Quarantine Officer and Justice of the Peace, authorized by Order in Council in virtue of Chap. 68, Revised Statutes, intituled "An Act respecting Quarantine."

REGULATIONS RESPECTING THE IMPORTATION AND EXPORTATION OF HORSES.

(*Passed by an Order of His Excellency the Governor General in Council under date the* 6th *May,* 1896, *in virtue of the* "*Animal Contagious Diseases Act,*" *and amendment thereto.*)

1. The importation of horses from Great Britain and the continent of Europe is prohibited except at the port of Charlottetown, P.E.I., Halifax, Nova Scotia, St. John, N.B., Quebec, P.Q., and Montreal, P.Q., and such other ports as may hereafter be indicated by the Minister of Agriculture.

2. Such horses must be accompanied by the certificate of a qualified Veterinarian and the local authority, at the time of their embarkation, that they have not been brought from a place or locality where Glanders, "Maladie du Coït" or other infectious or contagious disease was at said time in existence. Similar certificates of freedom of the *port of shipment* from contagious disease at the date of embarkation, must also be furnished.

3. All importers of horses are obliged to certify under oath that the certificate produced applies to the horse which it purports to describe and to no other, and that the locality named is the actual one from which said horse came. Any attempt at evasion or misrepresentation will render the horse liable to seizure and detention pending the orders of the Minister of Agriculture as to its disposal.

4. All horses entering Canada at any of the above named ports shall be subject to inspection at those ports by officers appointed for that purpose.

Inspection shall be made on board ship at the port of arrival. Should an Inspector discover contagious disease, he will order the horses to be disembarked, together with all fodder, litter, troughs, buckets, blankets, and other articles which may have been used by or for said infected animals on board ship. He will superintend such landing and see that the horses and above mentioned articles are conveyed to the quarantine, there to be dealt with as the Minister of Agriculture or his representative shall direct.

When no such disease is discovered, the horses and other articles named may proceed to their destination.

5. All horses imported from Great Britain or the continent of Europe, destined for Montreal, must be inspected at the port of Quebec, during summer navigation.

6. Horses from the United States may enter into Canada in bond at the ports of Sarnia, Windsor, Amherstburg, Sault Ste. Marie, Rouse's Point, St. Armand's Station, Island Pond, The Suspension Bridge (Niagara Falls), The International Bridge (Fort Erie), Prescott, Lacolle, Potton, Abercorn, Newport, Beechers Falls, Agnes, and Megantic, for transit through Canada to Montreal, Three Rivers, Quebec, St. John, N.B., Halifax, and such other ports as the Minister of Agriculture may hereafter indicate, for exportation to Great Britain, Europe, or elsewhere.

(*a.*) Horses may also be entered, in bond for exhibition, racing, breeding, circus, or show purposes; subject to the provisions of clauses 7, 13 and 14 of these regulations.

7. Horses from the United States entering Canada must be accompanied by a certificate, signed by a qualified Veterinarian, that the locality from which such horses have come is free from Glanders, "Maladie du Coït," or other contagious diseases of horses. A certificate signed by a qualified Veterinarian must also accompany each consignment from the place of shipment in bond, giving the name of the owner, the sex, class and number of horses, declaring that the said horses have been inspected by him and are free from contagious diseases.

8. Such horses shall be subject to inspection at the port of exportation for Europe or elsewhere, by officers who may from time to time be appointed for that purpose.

9. No horses shall be permitted to be placed on board any steamship or other vessel for exportation at any Canadian port, till they have been inspected by a duly authorized Veterinary Inspector at such port, and certified by him to be free from contagious disease; such inspection to be made within twenty-four hours of embarkation.

10. All horses for exportation must reach the port of exportation thirty-six hours before shipment, for rest and inspection; and in order to enable the Inspector to make a careful, individual examination, owners of such animals must notify him at least twenty-four hours before embarkation. Such notices must be in writing and sent to the office of the Inspector.

11. Inspectors will mark each horse inspected by them V R on the breast by means of paint. Horses will not be allowed to be embarked without such mark and a certificate of inspection stating the name of the owner, number, sex and class of horses, and freedom from contagious disease.

12. No inspections are to be made except in daylight.

13. Horses entering Canada from the United States for breeding or other purposes, not in bond, must be accompanied by the certificates provided for in clause 7 of these Regulations, and must also be inspected by a duly authorized Veterinary Inspector at the port of entry, and if found free from contagious disease will be allowed to enter. If contagious disease be discovered, entry shall be prohibited.

14. For the purpose of defraying the expenses of inspection under the preceding clause, the owner or importer shall pay fees according to the following scale:—

For 1 horse	$ 1 00
For 5 horses up to 10	7 50
For over 10 up to 20	12 50
For over 20 up to 30	15 00
For over 30 up to 50	20 00

For any number over 50, 25 cents each, but the fee must not be less than $20.

Such fees to be paid to the inspector before he delivers the certificate.

15. On Glanders or other contagious disease of horses being discovered on board any steamship, railroad car, stable, shed or other place, it will be the duty of the inspector, on the removal of any infected horse, to superintend the thorough disinfection of such steamship, railroad car, stable, shed or other place, without loss of time, in the manner prescribed under the general regulations for disinfection of premises.

16. Inspectors must make monthly returns to the Minister of Agriculture of every inspection made by them, including a statement of fees received. 46-2

HIS Excellency, in virtue of the provisions of The Harbour Masters Act, chapter 86 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to appoint Mr. George Rowe, to be Harbour Master for the port of Comox, Vancouver, British Columbia.

JOHN J. McGEE,
Clerk of the Privy Council.

45-4

[1031]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 1st day of April, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to approve of the following Rules and Regulations for the Government of Pilots in the Pilotage District of Restigouche, which have been framed by the Pilotage Authority of that district, and the same are hereby approved accordingly.

JOHN J. McGEE,
Clerk of the Privy Council.

—

RULES AND REGULATIONS

For the government of Pilots for the Pilotage District of Restigouche, in the Dominion of Canada made by the Pilotage Authority of the said district under the Pilotage Acts of Canada.

That all rules and regulations heretofore made for the Government of Pilots or in relation to pilotage in the said district, be, and the same are hereby repealed; and in lieu thereof—

1. That the limits of the Pilotage District of Restigouche shall be held to extend on the Bay of Chaleurs north as far easterly as Black Cape, County of Bonaventure, in the Province of Quebec; thence on the Bay of Chaleurs southward as far easterly as The Light House in the Province of New Brunswick, embracing all the navigable waters, harbours, bays and rivers west of said outline; and that with in the limits of the said district the payment of pilotage dues is made compulsory.

2. Every person now acting under license as a pilot by and under the Pilotage Authority of the Pilotage District of Restigouche, shall forthwith on demand surrender said license to the said Pilotage Authority and shall if legally entitled thereto receive a license for such term of years as the Pilotage Acts of Canada may permit on the payment of a license fee computed at the rate of five dollars per annum.

3. Every person not heretofore acting as a pilot, applying to be licensed as such for the Pilotage District of Restigouche aforesaid must make application in writing to the Secretary of the Pilotage Authority and be a resident of the County of Bonaventure west of the Grand Cascapedia or of the County of Restigouche, of not less than twenty-one years of age, and shall have continuously served as an Indentured Apprentice approved by the said Pilotage Authority under a licensed Pilot for a term of not less than three years; two years of which apprenticeship shall have been on board a licensed pilot boat and the third year he shall accompany the pilot on board all ships in which such pilot shall be employed; and have served at least two months as seaman on board a square-rigged vessel or made an Atlantic voyage on board such ship or vessel; shall also produce a certificate of good character while serving his apprenticeship, from the pilot to whom he was indentured, and shall be examined by examiners appointed for that purpose by the Pilotage Authority of the said district; and at that examination shall answer such questions and shew such qualification as will warrant them in giving said applicant a certificate of his competency to perform all the duties of a pilot in the said district and a license shall issue to such person for such term as the Pilotage Acts of Canada may direct on payment of the expenses of such examination and a license fee as per term computed at the rate of five dollars per annum.

4. The rates of pilotage including the properly securing and mooring all ships or vessels piloted for the several ports within the Pilotage District of Restigouche shall be as follows:—For every foot of water any ship or vessel shall draw at the time inward or outward bound—Port of Dalhousie, Benjamin, Beaver Point, Nash's Creek, Jacquet River, or any loading station east of Dalhousie on the Bay of Chaleurs, one dollar; Port of Campbellton, one dollar and fifty cents; Oak Bay or any loading station east of same, west of Dalhousie, one dollar and twenty-five cents when ships proceed direct from sea.

Ships bound for Dalhousie, Benjamin, Beaver Point, Nash's Creek, Jacquet River, or any loading station east of Dalhousie, calling at any of the said harbours for orders, or to discharge ballast, cargo, or otherwise on ship's account, one dollar; and thence to any other of the said ports or loading station—on the Bay of Chaleurs, fifty cents per foot on draft of such ship at the time.

Ships bounds for Campbellton, Oak Bay, or any loading station, east of Oak Bay and west of Dalhousie waiting at Dalhousie or at any of the outer or Bay Ports to discharge ballast, cargo, or otherwise on ship's account, one dollar; and thence to the said Port of Campbellton, seventy-five cents; Oak Bay or any loading station east of Oak Bay and west of Dalhousie, fifty cents per foot on draft of such ship at the time, and *vice versa.*

For the removal of any ship including the properly securing and mooring such ship, the following rates, viz.:—The sum of one dollar and fifty cents for ships not exceeding one hundred and twenty tons; the sum of two dollars for ships over one hundred and twenty tons, and not exceeding two hundred tons; the sum of three dollars for ships over two hundred tons, and not exceeding three hundred tons; the sum of four dollars for ships over three hundred tons, and not exceeding six hundred tons; and the sum of five dollars for all ships over six hundred tons; and when the distance of removal extends four miles, fifty per cent additional to above rates.

5. No owner or master of any ship shall in any case be compelled to employ or to give his ship into the charge of a pilot on the ground of his being compelled to pay pilotage dues to any person or otherwise.

If any such pilot shall within the said Pilotage District offer his services to any inward bound ship, liable to pay pilotage and be refused, no other licensed pilot being on board, or having previously within said limits offered his services to such ship, such pilot so refused shall be entitled to demand and receive the same rate of pilotage as if he had been actually employed to pilot such ship into any of the ports in the Pilotage District of Restigouche.

6. Every ship which navigates within the limits of this district for which the payment of pilotage dues is made compulsory shall pay pilotage dues unless such ship is on her inward bound voyage, and no licensed pilot has offered his services as a pilot.

No owner or master of any outward bound ship shall be compelled to accept the services of the pilot who brought such ship into any port in the said district, or any other pilot, to pilot such ship outward, on any pretense, under sections 57 and 58 of the Pilotage Act. If such ship is on her outward bound voyage, and the owner or master does not employ a pilot, or give his ship into the charge of a pilot, the pilotage dues shall be paid to the Pilotage Authority and applied as the Pilotage Act provides.

7. All boats to be licensed as pilot boats shall be surveyed by, or on behalf of the Pilotage Authority, and if satisfactory shall be licensed for a term of twelve months on payment of a fee of five dollars each; and such boats shall be surveyed annually; and if found satisfactory shall have the license renewed for a like term on the payment of a fee of five dollars for every renewal.

8. All licensed pilot boats, shall be of not less than five tons measurement and shall have conspicuous numbers, such to be painted dark on each side of the fore or main sail in figures corresponding to the number of the licensed boat; and likewise the number of the boat license painted on each bow.

9. Every licensed pilot shall be the actual owner of not less than half of a decked pilot boat in actual service under penalty of suspension of his pilot license.

10. Every applicant before receiving a license to pilot ships within said District of Restigouche, shall be required to produce proof satisfactory to the

Pilotage Authority of said district that he is the actual owner of at least half of a decked pilot boat.

11. Any licensed pilot boat that may at any time on survey by the Pilotage Authority be found in any way unfit for the service for which she is licensed, or not characterized in accordance with section eighty of the Pilotage Act, thereto, shall have the license suspended until she is made and fitted out to the satisfaction of the Pilotage Authority, and the license shall during such suspension be lodged with the secretary of the Pilotage Authority.

12. In case of any dispute between masters of ships, owners or agents and pilots, respecting pilotage, removals or other pilot duties or for remuneration thereof or for extra services of any nature, ordinary or extraordinary, the matter shall be referred to one or more of the Pilot Commissioners nearest to the place of dispute and his or their decision shall be final and binding on all parties to the dispute respecting all such questions and disputes in which the sum in dispute does not exceed forty dollars; and all pilotage. or fees for services and all costs for summoning witnesses and the hearing of any question or matter in dispute shall be paid by such person or persons respectively as the Commissioner or Commissioners by his or their order may direct; and any licensed pilot who shall neglect to appear before Commissioner or Commissioners within twenty-four hours after notice when his attendance shall be required on any occasion or who shall give any unnecessary trouble or annoyance to any Commissioner or Commissioners or cause detention to master or ship shall for every offence as above specified be liable to a penalty not exceeding forty dollars and also to the suspension of their license or dismissal at the discretion of the Pilotage Authority as represented by a majority of the Commission.

13. On proof to the satisfaction of the Pilotage Authority that any pilot licensed by them has been guilty of any improper conduct, drunkenness, whether the same shall occur while in charge of a ship or at any other time, or wilful neglect of duty or that any pilot be incapacitated by age or mental or bodily infirmity such pilot shall be suspended or deprived of his license at the discretion of the Pilotage Authority.

14. Every licensed pilot while acting in that capacity shall be provided with his license and shall produce the same whether requested to produce it or not, to every person by whom he is employed, or to whom he offers his services as pilot at the time he enters into the employment of, or offers his services to, such person; and shall at all times produce his license at the request of every person by whom he is employed as pilot; and if he neglects or refuses to produce his license, he shall for every such neglect or refusal incur a penalty not exceeding forty dollars and shall be subject to suspension or dismissal by the Pilotage Authority; he shall also produce to the master of any ship, or other person employing him, when required so to do, a copy of the Pilotage Act, Revised Statutes of Canada, chap. 80, and any Acts amending the same, likewise a copy of the by-laws and tariff dues, or pilotage rates, established within the district for which he is licensed; and in default shall incur a penalty not exceeding twenty dollars at the discretion of said Pilotage Authority.

15. Every licensed pilot shall on attaining the age of sixty-five years produce and deliver up his license to the Pilotage Authority of the district to which it extends; and such authority may grant him a new license for one year on the payment of a license fee of five dollars—and so on from year to year on the payment of five dollars license fee for every renewal.

16. That this Pilotage Authority may limit the period during which any license to a pilot granted by it, shall be in force to any term not less than two years from the date thereof, and may in its discretion after the end of such period renew such license for a further limited term not less than two years; and may also in its discretion cancel any license to a pilot, heretofore granted, and substitute for it, a license limited and renewable as aforesaid.

17. Every pilot shall make a report to the secretary of the Pilotage Authority, of every ship piloted by him from or to the sea, on the forms to be furnished him by the said secretary, giving the name, rig, tonnage, nationality, draft of water and when boarded, if inward bound, where from and to whom consigned; and if outward bound, name of shipper, port and where bound; also to report other and extra services, if any have been rendered. To which report, he shall, if possible, obtain the master's signature. He shall also report any casualty or accident, that may have happened to any ship under his charge, or any other matter of importance, coming under his observations connected with ships. He shall likewise report, when any of the buoys are not in their places, or any of the lighthouses are not lighted at the proper time or not kept lighted as required, and any pilot neglecting to make report in accordance with this section and in connection with the various subject matters specified, the Pilotage Authority may at their discretion cancel the license of such delinquent pilot, or refuse any such a renewal of license to pilot ships in said district.

18. If exigencies should obtain that in the judgment of the Pilotage Authority of the District of Restigouche, the interests in ships and commerce, would be the better served by the appointment of pilots other than indentured apprentices if none such are available, it shall be competent for the Pilotage Authority of the said District of Restigouche, to receive such other applications for license, and on examination of any such applicant by examiners appointed for that purpose by said Pilotage Authority of the said district, and should any such applicant show such qualifications as will warrant said examiners in giving applicant a certificate of his competency to perform all the duties of a pilot, in the said district, said Pilotage Authority may, waiving the provisions of sections nine and ten of these By-laws, forthwith issue a license for such term as the Pilotage Act permits, to such applicant to pilot ships within said district on payment of the expenses of such examination, and a license fee as per term computed at the rate of five dollars per annum.

19. Every person wishing to become an indentured apprentice to a licensed pilot must make application in writing to the secretary of the Pilotage Authority and have the rudiments of an ordinary English education, and be of good moral character and approved by the Pilotage Authority, and on such approval be indentured to a licensed pilot to serve for a term of three years as a pilot apprentice on board of a licensed pilot boat of the Pilotage District of Restigouche under the directions and control of the master pilot to whom indentured.

20. Any licensed pilot not complying with these rules and regulations or evading the sense, intent or meaning conveyed or intended to be conveyed of any or either of them shall be liable to a penalty not exceeding forty dollars for the breach of any such rule or regulations, with, in case of the continuing breach a further penalty not exceeding four dollars, for every twenty-four hours during which such breach continues, and shall be liable to have his license cancelled at the discretion of the Pilotage Authority.

21. Every licensed pilot, before boarding any ship, shall enquire if any infectious or contagious disease be on board or if ship be from any port or place making her liable to be quarantined, in such cases, pilot shall not go on board; but his boat shall be towed astern, or he may lead such ship; and he shall cause the national flag to be hoisted at the main, and shall bring her to anchor at the place appointed for riding quarantine; and shall not suffer any person to board or leave the ship, until she is visited by the health officer; nor then without said officer's permission, under penalty not exceeding thirty dollars or suspension of his license, at the discretion of the Pilotage Authority.

22. That Andrew G. Wallace one of the Commissioners of Pilots for the Pilotage District of Restigouche, is hereby appointed Secretary and Treasurer of the Pilotage Authority of said district, and as such secretary and treasurer he shall collect and receive all fees for licenses, fines, costs and other moneys under these regulations, record the minutes and keep a book for the entry of all licenses, fees, fines and other moneys received and paid. That said secretary-treasurer

shall receive the salary of twenty-five dollars per annum, to be, with the other necessary expenses of the pilotage businesss of the said district deducted from the fees for licenses.

(Signed) KILGOUR SHIVAS,
Chairman.
J. D. SOWERBY.
ANDREW G. WALLACE,
Secretary-treasurer.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of The Steamboat Inspection Act, chapter 78 of the Revised Statutes, and amendments thereof, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the accompanying consolidation of the rules and regulations respecting steamboat inspection and examinations for engineer's certificates shall be, and the same are hereby established as the Rules and Regulations for the Inspection of Steamboats and the examination of applicants for engineer's certificates.

JOHN J. McGEE,
Clerk of the Privy Council.

RULES FOR THE INSPECTION OF STEAMBOATS AND FOR THE EXAMINATION OF ENGINEERS OF STEAMBOATS.

PART I.

Mode of Inspection.

Sec. 1. Any Inspector may, whenever he deems it necessary so to do, and one Inspector shall, at least once in every year, subject the boiler of every steamboat to a test by hydrostatic pressure, in the ratio of one hundred and fifty pounds to one hundred pounds allowable as a working pressure, using the water in such test at a temperature not exceeding sixty degrees Fahrenheit, and shall satisfy himself by examination and experimental trials that such boiler is well made of good and suitable materials. For the purposes of such test the owner of the steamboat shall provide the necessary hand-pump and apparatus, the same to be worked by the crew of the vessel; and no Inspector of boilers and machinery shall make or deliver to the owner or master of any steamboat any certificate, unless he has first subjected the boiler or boilers of such steamboat to such test by hydrostatic pressure and examination as herein prescribed.

Sec. 2. Before a boiler is subjected to a test by hydrostatic pressure, it shall be opened up for inspection, the man-hole and mud-plate doors removed, and the outside and the inside of the boiler cleaned, the furnace grates removed and the furnace swept out clean, so that satisfactory and efficient inspection may be made; when bulkheads are so placed as to prevent a close examination of the plate of the boiler, they shall be removed; and the owner or master of the steamboat shall see that the foregoing requirements are complied with before applying for inspection.

Sec. 3. In any case in which the test is not satisfactory, the defects shall be made good and the boiler re-tested satisfactorily, before a certificate is granted.

Sec. 4. Inspectors are to fix the working pressure of boilers by a series of calculations of the strength of the various parts, and according to the workmanship and material of which they are composed.

Sec. 5. Before testing a boiler the Inspectors should examine it, take the necessary measurements and calculate what the working pressure should be, in accordance with these regulations; these instructions apply to superheaters, steam chests, and water-jackets, as well as boilers.

Sec. 6. If a boiler is too hot for an Inspector to examine it efficiently with safety and convenience, he should decline to do so, and absolutely refuse to grant a certificate until he can make a satisfactory examination.

Sec. 7. In order to satisfy himself as to strength and internal condition of the boiler, the Inspector may, should he deem it necessary, order holes to be cut in it, and may also demand that such information by drawings and specifications of the several parts be furnished him of the construction, as will enable him to determine, by calculation and examination, their strength.

Sec. 8. During the construction of every boiler made in Canada, the maker of such boiler shall notify the Inspector of the District in which it is being made, that it is open to his inspection, and shall, at all times during such construction allow the Inspector free access to it.

Sec. 9. To prevent questions arising after a boiler is commenced, particulars of its construction by drawings and specifications should be furnished the Inspector by the maker or contractor, for his approval; the Inspector having received such drawings or specifications, and approved of them, will be careful to see that they are followed in construction, or deductions made in accordance with Section 25. This regulation will also apply to boilers undergoing alterations.

Sec. 10. No boiler shall be made of boiler plate, whether iron or steel, which has not been stamped with the name or mark of the maker thereof; and no certificate shall be granted with respect to any boiler made wholly or in part of plate not so marked; and before a certificate shall be granted with respect to any boiler, a declaration on oath by the maker of the boiler, stating the name of the maker of the plates, their quality and the quality of all materials used in the construction of the boiler, shall be furnished the Inspector; such oath may be taken before any Justice of the Peace in Canada, or before a Notary Public and certified under his official seal, if taken out of Canada: Provided always, that in any case where such declaration on oath by the maker of the boiler cannot be obtained owing to the death of the maker, or from other causes deemed sufficient by the Inspector, the affidavit of two practical boiler-makers who have examined the boiler and reported upon the quality of the materials in it and its workmanship and strength, shall, if satisfactory to the Inspector, be deemed sufficient in lieu of such declaration by the maker of the boiler.

Sec. 11. No boiler or pipe in connection therewith shall be approved which is made in whole or in part of bad material or workmanship, or is unsafe in its form, or from age, use or from any other cause.

Sec. 12. Inspectors should see all new boilers, and boilers that have been taken out of a ship for thorough repair, tested by hydraulic pressure up to at least one and one-half of the working pressure that will be allowed, previous to the boiler being placed in the vessel, to test the workmanship, etc., but the working pressure is to be determined by the stay power, the thickness of the plate, strength of riveting, etc., and not by the hydraulic test.

Sec. 13. The hydraulic test should in no case exceed the ratio of one and one-half the working pressure allowed, and it is never to be applied until the boiler has been opened up for examination and until the strength of all the parts has been calculated from the necessary measurements taken from the boiler itself.

Sec. 14. When a boiler is partially inspected by one Inspector, and the inspection is completed and the certificate to be granted by another Inspector, if the Inspector who witnesses the test of the boiler by the hydrostatic pressure has an opportunity of examining the boiler inside and outside after the test, such Inspector shall determine the working pressure to be allowed on the boiler, taking care to inform the owner or master, or maker or agent, and the Inspector who partially inspected it, what working pressure should in his opinion be allowed, and the Inspector

who partially inspected the boiler should inform the Inspector who completes the inspection of all particulars of his inspection of the boiler.

Sec. **15**. Cast iron must not be used for stays in boilers; Inspectors should also discourage the use of cast iron for chocks and saddles for boilers; particular attention should be paid to chocking and fastening boilers to the vessels to guard against shifting or breaking loose.

Sec. **16**. A pressure once allowed on a boiler is not, under any circumstances whatever, to be increased, unless the Inspector has previously written for and obtained the sanction of the Chairman of the "Board of Steamboat Inspection." In cases where an Inspector is of opinion that an increased pressure may with safety be allowed, he should communicate with the Inspector who last inspected the boiler, and if on learning why the existing pressure was formerly allowed, the Inspector is still of opinion that it may be increased, he should communicate all the facts of the case to the Chairman; but, as above stated, the pressure should not, in any case, be increased until the question has been decided by the Chairman.

Sec. **17**. In the event of any novelty in construction of a boiler, or of any departure from the practice of staying and strengthening as prescribed in these rules and regulations, the Inspector shall report full particulars to the Chairman before fixing the working pressure.

Sec. **18**. An Inspector shall not declare a boiler safe unless he is fully informed as to its construction, material and workmanship. He should, therefore, be very careful how he ventures to give a certificate for a boiler that he is not called in to inspect until after it is completed and fixed in the ship.

Sec. **19**. In the case of new boilers, the Inspector may allow a stress not exceeding 7,000 pounds per square inch of net section on solid iron screw stays supporting flat surfaces, but the stress should not exceed 6,000 pounds when the stays have been welded or worked in the fire.

Sec. **20**. (*a*.) The pressure on plate forming flat surfaces is found by the following formula :—

$$\frac{C \times (T+1)^2}{S-6} = \text{Working pressure.}$$

T = Thickness of plate in sixteenths of an inch.
S = Surface supported in square inches*.
C = Constant according to the following circumstances :—

C = 100 when the plates are not exposed to the impact of heat or flame, and the stays are fitted with nuts and washers, the latter being at least three times the diameter of the stay and two-thirds the thickness of the plate they cover.

C = 90 when the plates are not exposed to the impact of heat or flame, and the stays are fitted with nuts only.

C = 60 when the plates are exposed to the impact of heat or flame, and the steam in contact with the plates, and the stays fitted with nuts and washers, the latter being at least three times the diameter of the stay, and two-thirds the thickness of the plates they cover.

C = 54 when the plates are exposed to the impact of heat or flame, and steam in contact with the plates, and the stays fitted with nuts only.

(*b*.) If the diameter of riveted washers be at least two-thirds the pitch of the stays, and the thickness not less than the plates they cover, the constants may be increased to 150.

(*c*.) When doubling plates are fitted of the same thickness of the plates they cover, and not less in width than two-thirds the pitch of the stays, the constants may be increased to 160.

(*d*.) When doubling plates cover the whole of the flat surfaces, the constant may be increased to 200.

C = 80 when the plates are exposed to the impact of heat or flame, with water in contact with the plates, and the stays screwed into the plates and fitted with nuts.

C = 60 when the plates are exposed to the impact of heat or flame, with water in contact with the plates, and the stays screwed into the plates, having the ends riveted over to form substantial heads.

C = 36 when the plates are exposed to the impact of heat or flame, and steam in contact with the plates, with the stays screwed into the plates, and having the ends riveted over to form substantial heads.

(*e*.) In cases where plates are stiffened by T or L irons, and a greater pressure is required for the plate than is allowed by the use of the above constants, the case should be submitted for the consideration of the Chairman.

(*f*.) When the riveted ends of the screw stays are much worn, or when the nuts are burned, the constants should be reduced, but the Inspector must act according to the circumstances that present themselves at the time of the inspection, and it is expected that in cases where the riveted ends of screw stays in the combustion boxes and furnaces are found in this state it will be often necessary to reduce the constant from 60 to 36.

(*g*.) Flat steel plates, which are in no way exposed to the action of the fire or hot gases and stayed with stays, having nuts with washers at least in diameter one-third pitch of stays, and half the thickness of plate, the working pressure to be allowed may be found by the following formula :—

$$48000 \times \frac{T^2}{P^2} = \text{W. P.}$$

T = Thickness plate in inches.
P = Greatest pitch of stay bolts in inches.

Sec. **21**. Inspectors should not in any case allow a greater compressive stress on the tube plates than 7,500 pounds, which is that used in the following formula :—

$$\frac{(D-d)\ T \times 15{,}000}{W \times D} = \text{Working pressure.}$$

D = Least horizontal distance between centres of tubes in inches.
d = Inside diameter of ordinary tube in inches.
T = Thickness of tube plate in inches.
W = Extreme width of combustion box in inches from front of tube plate to back of fire box, or distance between combustion box tube plates when boiler is double-ended and the box common to the furnaces at both ends.

Sec. **22**. When stays prevent an Inspector from getting inside a boiler, he must order their removal, and he must see them properly replaced before granting a certificate.

Sec. **23**. In the case of zig-zag riveting the strength through the plate diagonally between the rivets is equal to that horizontally between the rivets, when the diagonal pitch equals six-tenths the horizontal pitch *plus* four-tenths the diameter of the rivet.

Sec. **24**. When the outside of the bottom of a boiler can not be otherwise thoroughly inspected, the boiler should be lifted once at least in every four years.

Construction of Boilers.

Sec. **25**. (*a*.) When cylindrical boilers or the cylindrical parts of boilers composed of iron plates are made of the best material with all the rivet holes drilled in place and all the seams fitted with double butt straps, each of at least five-eighths the thickness of the plates they cover, and all the seams at least double riveted with rivets having an allowance of not more than 75 per cent over the single shear, and provided that the boilers have been open to inspection, then 4·5 may be used as the factor of safety. The tensile strength of the material is to be taken as equal to 47,000 pounds per square inch with the grain, and 40,000 pounds across the grain. When the above conditions are not complied with, the addition, in the following scale, must be added to the factor, according to the circumstances of each case :—

A·15—To be added when all the holes are fair and good in the longitudinal seams, but drilled out of place after bending.
B·3—To be added when all the holes are fair and good in the longitudinal seams, but drilled out of place before bending.
C·3—To be added when all the holes are fair and good in the longitudinal seams, but punched after bending instead of drilled.
D·5—To be added when all the holes are fair and good in the longitudinal seams, but punched before bending.
E*·75—To be added when all the holes are not fair and good in the longitudinal seams.
F·1—To be added if the holes are all fair and good in the circumferential seams, but drilled out of place after bending.
G·15—To be added if the holes are fair and good in the circumferential seams, but drilled before bending.
H·15—To be added if the holes are fair and good in the circumferential seams, but punched after bending.
I·2—To be added if the holes are fair and good in the circumferential seams, but punched before bending.
J*·2—To be added if the holes are not fair and good in the circumferential seams.
K·2—To be added if double butt straps are not fitted to the longitudinal seams, and the said seams are lapped and double riveted.
L·1—To be added if double butt straps are not fitted to the longitudinal seams, and the said seams are lapped and treble riveted.
M·3—To be added if only single butt straps are fitted to the longitudinal seams, and the said seams are double riveted.
N·15—To be added if only single butt straps are fitted to the longitudinal seams, and the said seams are treble riveted.
O1·—To be added when any description of joint in the longitudinal seams is single riveted.
P‡·1—To be added if the circumferential seams are fitted with single butt straps and are double riveted.
Q‡·2—To be added if the circumferential seams are fitted with single butt straps and are single riveted.
R‡·1—To be added if the circumferential seams are fitted with double butt straps and are single riveted.

---

*When a greater ratio than 4 to 5 the greatest square to be taken.

S‡·1—To be added if the circumferential seams are lapped joints and are double riveted.

T·2—To be added if the circumferential seams are lapped joints and are single riveted.

U·25—To be added when the circumferential seams are lapped, and the strakes of plates are not entirely under or over.

V·3—To be added when the boiler is of such a length as to fire from both ends, or is of unusual length, such as flue boilers; and the circumferential seams are fitted as described opposite P., R. and S., but of course when the circumferential seams are as described opposite Q. and T., V·3 will become V·4.

W*·4—To be added if the seams are not properly crossed.

X*·4—To be added when the iron is in any way doubtful, and the Inspector is not satisfied that it is of the best quality.

Y†1·65—To be added if the boiler is not open for inspection during the whole period of its construction.

(*b.*) The strength of the joints is found by the following method:—

$$\frac{(\text{Pitch}-\text{Diameter of rivets}) \times 100}{\text{Pitch.}} = \text{Percentage of strength of plate at joint as compared with the solid plate.}^{**}$$

$$\frac{(\text{Area of rivets} \times \text{No. of rows of rivets}) \times 100}{\text{Pitch} \times \text{thickness of plate.}} = \text{Percentage of strength of rivets as compared with the solid plate.}^{\dagger\dagger}$$

(*c.*) Where marked * the allowance may be increased still further if the workmanship or material is very doubtful or unsatisfactory.

** The maximum pitch of the rivets should not exceed 8½ inches, and if in any case the Inspector finds the pitch in excess of this, he should report to the Chairman.

†† If the rivets are exposed to double shear, multiply the percentage as found by 1·75.

† When inspecting boilers that have not been open to inspection during construction the case should be submitted to the Chairman as to the factors to be used.

‡ P‡·1, Q‡·2, R‡·1, S‡·1, shall not apply to the end or circumferential seams, if such seams are sufficiently stayed by through bolts; nor to the seams between the square and round part of the shell, in cylindrical boilers with square furnaces, when such seams are double riveted.

(*d.*) Then take iron as equal in tensile strength to 47,000 pounds per square inch and use the smallest of the two percentages as the strength of the joint, and adopt the factor of safety as found from the preceding scale:—

$$\frac{47{,}000 \times \text{percentage of strength of joint} \times \text{twice the thickness of the plate in inches.}}{\text{Inside diameter of boiler in inches} \times \text{factor of safety.}}$$
$$= \text{Pressure to be allowed per square inch on the safety-valves.}$$

(*e.*) Plates that are drilled in place must be taken apart and the burr taken off and the holes slightly countersunk from the outside.

(*f.*) Butt straps must be cut from plates and not from bars, and must be of as good quality as the shell plate, and for the longitudinal seams must be cut across the fibre.

(*g.*) The rivet holes may be punched or drilled when the plates are punched or drilled out of place, but when drilled in place, must be taken apart and the burr taken off and slightly countersunk from the outside.

(*h.*) When single butt straps are used and the rivet holes in them punched, they must be one-eighth thicker than the plates they cover.

(*i.*) The diameter of rivets must not be less than the thickness of the plate of which the shell is made, but it will be found when the plates are thin, or when lap joints or single butt straps are adopted, that the diameter of the rivets should be in excess of the thickness of the plate.

(*j*) The distance of the rivet holes from the end or edge of the plates shall not be less than the diameter of the rivets.

(*k.*) Dished ends that are not truly hemispherical must be stayed; if they are not theoretically equal in strength to the pressure needed they must be stayed as flat surfaces, but if they are theoretically equal in strength to the pressure needed the stays may have a strain of 10,000 lbs. per effective square inch of sectional area.

(*l.*) Inspectors will remember that the strength of a sphere to resist internal pressure is double that of a cylinder of the same diameter and thickness.

Sec. **26**. (*a.*) The neutral parts of boiler shells under steam domes must be sufficiently stiffened and stayed.

(*b.*) The sides of boilers having square furnaces and half round tops must be stayed from side to side of the shell, over the furnace, one or more rows of these stays to be placed well above the centre of the cylindrical part.

(*c.*) Screw stays are not to be used when supporting flat surfaces at any angle but a right angle to the surface supported, their diameter to be measured inside the thread.

(*d.*) The longitudinal seams in the cylindrical shell of boilers should be as far as possible from the bottom.

(*e.*) The inside diameter of the outside strake or course in the cylindrical shell of a boiler is to be taken as the measure of its diameter.

Sec. **27**. (*a.*) In cylindrical super-heaters the strength of the joints and the factor of safety is found in a similar manner as for cylindrical boilers and steam receivers, but instead of using 47,000 pounds as the tensile strength of iron, 24,000 pounds is adopted, unless where the heat of flame impinges at or nearly at right angles to the plate, then 18,000 pounds is substituted.

(*b.*) In all cases the internal steam pipes should be so fitted that the steam in flowing to them will pass over all the plates exposed to the impact of heat or flame.

(*c.*) Super-heaters or water-jackets should, as regards inspection, be deemed to be the most important part of the boilers, and must be inspected inside and outside; those that cannot be entered (on account of their size) must have a sufficient number of doors through which a thorough inspection of the whole of the interior can be made.

(*d.*) Special attention should be paid to the inspection of super-heaters, as with high pressure the plates may become dangerously weak and not give any sound to indicate their state when tested with the hammer; the plate should, therefore, be occasionally drilled. Drain pipes must be in all cases fitted to super-heaters in which a collection of water in the bottom is possible.

(*e.*) Super-heaters that can be shut off from the main boiler must be fitted with a Government lock-up safety valve of sufficient size, but the least size passed shall not be less than two inches in diameter.

Sec. **28**. The areas of diagonal stays are found in the following way:—

Find the area of a direct stay needed to support the surface, multiply this area by the length of the diagonal stay and divide the product by the length of a line drawn at right angles to the surface supported to the end of the diagonal stay, the quotient will be the area of the diagonal stay required.

Sec. **29**. (*a.*) When the tops of combustion boxes or other parts of a boiler are supported by solid rectangular girders, the following formula, which is used by the Imperial Board of Trade, will be useful for finding the working pressure to be allowed on the girders, assuming that they are not subjected to a greater temperature than the ordinary heat of steam, and the ends fitted to the edges of the tube plate and the back plate of the combustion box:

$$\frac{C \times d^2 \times T}{(W-P)\, D \times L} = \text{Working pressure.}$$

W=Width of combustion box in inches.
P=Pitch of supporting bolts in inches.
D=Distance between the girders from centre to centre in inches.
L=Length of girder in feet.
d=Depth of girder in inches.
T=Thickness of girder in inches.
C=500 when the girder is fitted with one supporting bolt.
C=750 when the girder is fitted with two or three supporting bolts.
C=850 when the girder is fitted with four supporting bolts.

(*b.*) The working pressure for the supporting bolts, and for the plate between them, shall be determined by the rule for ordinary stays.

Sec. **30**. The flat ends of all boilers, as far as the steam space extends, and the ends of super-heaters should be fitted with shield, or baffle plates, where exposed to the hot gases of the up-take, as all the plates subjected to the direct impact of heat or flame are liable to injury, unless covered with water.

When a super-heater is constructed with a tube subject to external pressure, the working pressure should be ascertained by the rules given for circular iron furnaces, but the constants should be reduced as thirty is to forty-seven:

If steel is proposed to be used in super-heaters, the particulars should be submitted to the Board of Steamboat Inspection or to the Chairman, if the Board is not sitting, for consideration, but in all cases it should be discouraged for this purpose; this applies to the unshielded up-takes of all boilers, including ordinary vertical donkey boilers.

Sec. **31**. Donkey boilers that are in any way attached to, or connected with the main boilers, or with the machinery used for propelling the ship, must be inspected and fitted the same way as the main boilers, and must have a water and steam gauge, and all other fittings complete, and as regards safety-valves, must comply with the same regulations as the main boilers, and no safety-valve shall be passed less than two inches in diameter, except as hereinafter provided by the rules relating to the inspection of safety-valves.

Sec. **32**. (*a.*) No boiler or steam chamber is to be so constructed, fitted or arranged as that the escape of steam from it through the safety-valve can be wholly or partially intercepted by the action of any other valve.

(*b.*) A stop valve must always be fitted between the boiler and the steam pipe, and (when two or more boilers are connected with a steam receiver or super-heater) between each boiler and super-heater or steam receiver. The object of this is obvious, viz., to avoid the failure of all the boilers through the failure of one. The necks of stop valves should be as short as practicable.

Sec. **33**. (*a.*) Each boiler must be fitted with glass water gauge, at least two test cocks, and steam gauge,

that is to say, each boiler must be fitted with all the fittings as complete as if there was only one boiler.

(*b.*) Boilers that fire at both ends, and those of unusual width, must have water gauges and test cocks at each end or side, as the case may be. When a steamer has more than one boiler, and those boilers are fitted with stop valves, each boiler must be treated as a separate one, and have all the requisite fittings.

Sec. **34**. Inspectors shall be most careful not to give any official sanction to any new arrangement or construction of marine steam boilers without first obtaining the permission of the Chairman in writing, nor shall they give any written approval of any invention or arrangement unless by direction of the Chairman, and whenever they know that any invention or new arrangement is to be fitted to a vessel that is intended to have a passenger certificate, they shall as soon as possible obtain plans and specifications and submit the same to the Chairman.

Sec. **35**. When the longitudinal seams in cylindrical furnaces are not welded or made with a butt strap, the following constants will be substituted for 90,000:

(*a.*) Furnaces with butt joints and drilled rivet holes.	90,000 where the longitudinal seams are double riveted and fitted with single butt straps; 80,000 where the longitudinal seams are single riveted and fitted with single butt straps; 90,000 where the longitudinal seams are single riveted and fitted with double butt straps.
(*b.*) Furnaces with butt joints and punched rivet holes.	85,000 where the longitudinal seams are double riveted and fitted with single butt straps; 75,000 where the longitudinal seams are single riveted and fitted with single butt straps; 85,000 where the longitudinal seams are single riveted and fitted with double butt straps.
(*c.*) Furnaces with lapped joints and drilled rivet holes.	80,000 where the longitudinal seams are double riveted and bevelled; 75,000 where the longitudinal seams are double riveted and not bevelled; 70,000 where the longitudinal seams are single riveted and bevelled; 65,000 where the longitudinal seams are single riveted and not bevelled.
(*d.*) Furnaces with lapped joints and punched rivet holes.	75,000 where the longitudinal seams are double riveted and bevelled; 70,000 where the longitudinal seams are double riveted and not bevelled; 65,000 where the longitudinal seams are single riveted and bevelled; 60,000 where the longitudinal seams are single riveted and not bevelled.

Steel Boilers.

Sec. **36**. (*a.*) The following rules should guide Inspectors when the general quality of the steel has been found suitable for marine boilers:—

(*b.*) The steel makers or boiler makers should test one or more strips or pieces cut from each plate and bar for tensile strength and elongation, and stamp both results on each plate or bar. When practicable the plates or bars should be so stamped that the marks can be easily seen when the boiler is constructed.

(*c.*) An Inspector is not obliged to witness the foregoing test, but he should see that all the plates and bars are properly stamped.

(*d.*) From the plates and bars, the tests of which have been stated to have been made by the steel maker, and not witnessed by the Inspector, the Inspector may, if he thinks it advisable, select any plates or bars after they are in the boiler shop and require specimens to be cut off and tested. If the results are not satisfactory, the whole of the plates, except those which were tested and found satisfactory by the Inspector, may be liable to be rejected.

(*e.*) Twenty-five per cent of the rivet bars should be tested for tensile strength and elongation, the tensile strengh should be from 26 to 30 tons gross, or 58,000 to 67,000 pounds to the square inch, and the elongation in ten inches should not be less than 25 per cent.

(*f.*) The Inspector may not in every case see some of the rivets tested, but he should occasionally select a few, and after they are prepared, see them tested. The tensile stress should be from 27 to 32 tons gross, or 62,000 to 72,000 pounds to the square inch, with a contraction of area of 60 per cent. The elongation should when practicable be taken in length equal to two and a half times the diameter of the prepared part.

(*g.*) Twenty-five per cent of the bars for stays of each size should be tested, solid steel screw stays which have not been welded or otherwise worked after heating, may be allowed a working stress of 9,000 pounds to the square inch of net section, provided the tensile stress is from 27 to 32 tons gross, or 62,000 to 72,000 pounds to the square inch, and the elongation in ten inches about 25 per cent, and not less than 20 per cent.

(*h.*) Steel stays which have been welded or worked in the fire have been found to be unreliable, therefore they should not be passed.

(*i.*) If the original size of the bars for rivets or stays be reduced before testing it should be done in the lathe or by a machine; test pieces of any kind should not be prepared by heating and drawing down.

(*j.*) If for the plates from which the Inspectors select the above proportion, a greater stress is wished than is allowed for iron, tests for tensile stress and elongation should be made, also a few tempering and bending tests, and those for which no reduction of thickness is asked may be tested for resistance to bending and tempering only, if preferred in the latter case, the stress and elongation stamped on each plate should be reported by the Inspector to the Chairman, along with the result of the bending and tempering test.

(*k.*) The breadth of test strips for tensile stress should be about 2 inches, and the elongation, taken in the length of 10 inches should be about 25 per cent, and not less than 20 per cent. The strips must be carefully prepared and measured, and they should be cut from the plate by a planing or shaping machine. The skin of the test pieces should not be removed by planing, shaping or otherwise, the edges only being planed or shaped, and in no case should the test pieces be prepared or reduced in size by hammering or otherwise working on the anvil, and they must not be annealed previous to being tested, neither must the plates or bars be annealed before the test pieces are cut from them.

(*l.*) The bending tests for plates not exposed to flame should be made with strips in their normal condition, and occasionally also some tempering test. Strips cut from furnaces, combustion boxes, &c., should be heated to a cherry red, then plunged into water of about 80 degrees and kept there until of the same temperature as the water and then bent. The bending and tempering strips should not be less than two inches broad and ten inches long, and they should be bent until they break, or until the sides are parallel at a distance from each other of not more than (3) three times the thickness of plate.

(*m.*) When full allowance over iron is wished, the tensile stress of the plates not exposed to flame should be not less than 27 tons gross, or 62,000 lbs., and should not exceed 32 tons gross, or 72,000 lbs., per square inch of section, and 29 tons gross, or 65,000 lbs., should be the stress used in the calculation for cylindrical shells, if the plates comply with all the conditions as stated therein; but when the minimum tensile strength of shell plate is not less than 28 tons gross, or 63,000 lbs., and allowance is wished for the excess, then the case should be specially submitted for the consideration of the Chairman as to whether the stress in the calculation may be increased to 30 tons gross, or to 67,000 lbs.: the tensile strength of furnace, flanging and combustion box plates may range from 26 tons gross, or 58,000 lbs., to 30 tons gross, or 67,000 lbs., to the square inch.

(*n.*) All plates that are punched, flanged or locally heated must be carefully annealed after being so treated.

(*o.*) The rivet holes in the furnaces and longitudinal seams of cylindrical shells should be drilled, but if it is wished to punch them and afterwards bore or anneal the plates in a proper furnace, the particulars of the punching and boring or annealing should be submitted to the Chairman for consideration before being done, but all punched holes should be made after bending.

(*p.*) In all cases where assent has been given by the Chairman for plates to be punched after bending, and then annealed, the maker of the boiler should stamp the plates with the words "punched after bending and then annealed," and in all cases where assent has been given for punching and afterwards boring plates the words "punched and then bored" should be stamped on the plates.

(*q.*) If the flanging plates and those exposed to flame comply with the foregoing conditions, the constants in these rules for iron boilers may be increased as follows:—

1. The constants for flat surfaces, when they are supported by stays screwed into the plates and riveted, 10 per cent.

2. The constants for flat surfaces, when they are supported by stays screwed into the plates and nutted, or when the stays are nutted in the steam space, 25 per cent. This is also applicable to the constants for flat surfaces stiffened by riveted washers or doubling strips and supported by nutted stays.

3. The constants for combustion box girders, 10 per cent.

(*r.*) When the furnaces are new, corrugated, and machine made, and practically true circles, the working pressure is found by the following formula, provided that the plain parts at the ends do not exceed 6 inches in length and the plates are not less than $\frac{5}{16}$ inch thick.

$$\frac{14,000 \times T}{D} = \text{Working pressure.}$$

$T =$ Thickness in inches.
$D =$ Mean diameter in inches.

(If the furnace is riveted in two or more lengths, the case should be submitted to the Chairman.

(*s.*) A greater compressive stress should not be allowed on tube plates than 10,000 lbs. to the square inch, which is that used in the following formula:—

$$\frac{(D-d)\ T \times 20{,}000}{W \times D} = \text{Working pressure.}$$

D = Least horizontal distance between centres of tubes in inches.

d = Inside diameter of ordinary tubes in inches.

T = Thickness of tube plate in inches.

W = Extreme width of combustion box in inches from front of tube plate to back of fire box, or distance between combustion box tube plates when boiler is double ended and the box common to the furnaces at both ends.

(*t.*) The rivet section, if of iron, in the horizontal seams of cylindrical shells, where lapped and at least double riveted, should not be less than $\frac{13}{8}$ times the net plate section; but if steel rivets are used, their section should be at least $\frac{28}{23}$ of the net section of the plate if the tensile stress of the rivet is not less than 27 tons gross or 62,00 lbs., or not more than 32 tons gross or 72,000 pounds per square inch. Therefore, in calculating the working pressure, the percentage strength of the rivet may be found in the usual way by the rules, but in the case of iron rivets the percentages found should be divided by $\frac{13}{8}$, and in the case of steel rivets by $\frac{28}{23}$, the result being the percentages required. If the percentage strength of the rivets by calculation is less than the calculated percentage strength of the plate, calculate the working pressure by both percentages. When using the percentage strength of the plate, use the nominal factor of safety suitable for the method of construction as by the rules for iron boilers, but when using the percentage strength of the rivets, use 4·5 as the factor of safety. The less of the two pressures so found is the working pressure to be allowed for the cylindrical portion of the shell, or otherwise in accordance with the formulæ in appendix.

(*u.*) Local heating of the plates should be avoided, as many plates have failed from being so treated.

(*v.*) Steel plates which have been welded should not be passed if subject to a tensile stress, and those welded and subject to a compressive stress should be sufficiently annealed. In other respects the boiler should comply with the rules for iron boilers.

Sec. **37**. In no case shall a certificate be granted for a boiler, when drift pins have been used in bringing the holes in the sheets together.

Sec. **38**. Man-hole openings must be stiffened with compensating plates or rings of at least the same effective sectional area as the plate cut out, and in no case shall such plates or rings be of less thickness than the plate to which they are attached, nor the attachment of less strength than the plate or ring. All openings in the shells of boilers should have their short axes placed longitudinally, and if not so placed must have compensating plates or rings, and attachments, equal to twice the effective sectional area of the plate cut out.

Where cast iron frames are fastened around man-holes in steamboat boilers, a compensating ring in addition must be provided.

Mud-holes or hand-holes should not be placed in boiler shells of a greater short diameter than five inches, unless provided with reinforcing plates, and if on the cylindrical shell of a boiler, their short diameter should be in a line with the axis of the shell.

Sec. **39**. Every boiler made after the coming into force of these Regulations, shall be stamped with the initial letters of the Inspector's name who inspected and tested it, the year it was made and the pressure under which it was tested, also the actual working pressure allowed upon it.

Furnaces and Flues.

Sec. **40**. (*a.*) The external working pressure to be allowed on plane circular steel furnaces and flues, when subjected to such pressure when the longitudinal joints are welded or made with a butt strap, shall be determined by the following formulæ:—

(*b.*) The product of 90,000 multiplied by the square of the thickness of the plate in inches, divided by the length of the flue, or furnace, in feet, plus *one* multiplied by the diameter in inches, will be the allowable working pressure per square inch in pounds, adding ten per cent to the result of the formula; provided it does not exceed that found by the following formula:

$$\frac{90{,}000 \times T^2}{(L+1) \times D} = \text{Working pressure, where}$$

T = Thickness of plate in inches.

D = Diameter of flue outside in inches.

L = Length of flue or furnace in feet, or the length between the rings in feet, if it is strengthened by suitable rings or Adamson joints.

(*c.*) The product of 10,000 multiplied by the thickness of the plate in inches, divided by the diameter (outside) of the flue or furnace, in inches, will be the allowable working pressure per square inch in pounds.

Corrugated Steel Furnaces and Flues.

Sec. **41**. (*a.*) In steel flue furnaces when new, corrugated, and machine made, and practically true circles, the working pressure is found by the following formula, provided that the plane parts at the ends do not exceed 6 inches in length and the plates are not less than $\frac{5}{16}$ inch thick:

$$\frac{14{,}000 \times \text{thickness in inches}}{\text{Mean diameter in inches}} = \text{Working pressure per sq. in.}$$

(*b.*) When the furnaces are riveted in two or more lengths the case should be submitted to the Chairman for consideration, as it may be necessary to make a reduction.

Corrugated Iron Furnaces.

Sec. **42**. The working pressure for corrugated iron furnaces practically circular and machine made, provided the plane parts at the ends do not exceed 6 inches in length and the plates are not less than $\frac{5}{16}$ inch thick, should not be greater than that found by the following formula:—

$$\frac{10{,}000 \times \text{thickness in inches}}{\text{Mean diameter in inches}} = \text{Working pressure.}$$

Cylindrical Boiler Shells.

JOINTS WITH DRILLED HOLES.

Sec. **43**. Formulæ for ordinary chain riveted and ordinary zig-zag riveted joints, and for joints of these descriptions, when every alternate rivet in the outer or in the outer or inner rows have been omitted:—

Let E = distance from edge of plate to centre of rivet in inches.

V = distance between rows of rivets in inches.

V_1 = distance between inner and middle row of rivets in inches for joint J.

B = boiler pressure in lbs. per square inch.

C = 1 for lap or single butt joints.

= 1·75 for double butt joints.

d = diameter of rivets in inches.

D = inside diameter of boiler in inches.

F = factor of safety for shell plates, as by section 25 of these regulations.

n = number of rivets in one pitch.

p_D = diagonal pitch in inches.

P_D = diagonal pitch in inches between inner and middle rows of rivets in inches for joint J.

p = greatest pitch of rivets in inches.

r = percentage of plate left between holes in greatest pitch.

R = percentage of rivet section.

R_1 = percentage of combined plate and rivet section.

S = tensile strength of material in lbs. per square inch of section.

T = thickness of plate in inches.

T_1 = thickness of each butt strap in inches.

$^0|_0$ = least value of r, R, R as the case may be, divided by 100.

When joints are used in boiler construction other than those shown in the attached sketches, or when any of the rivets are less than two diameters apart, the particulars of such joints should be submitted for the consideration of the Board.

ORDINARY CHAIN AND ZIG-ZAG RIVETED JOINTS.

Iron plates and iron rivets or steel plates and steel rivets:—

$$\frac{100\,(p-d)}{p} = r.$$

Iron plates and iron rivets:—

$$\frac{100 \times d^2 \times \cdot 7854 \times n \times C}{p \times T} = R.$$

Steel plates and steel rivets:—

$$\frac{100 \times 23 \times d \times \cdot 7854 \times n \times C \times F}{4{\cdot}5 \times 28 \times p \times T} = R.$$

GIVEN C, d, F, n, T, TO FIND p, SO THAT r AND R ARE EQUAL.

Iron plates and iron rivets:—

$$\frac{d^2 \times \cdot 7854 \times n \times C}{T} + d = p.$$

Steel plates and steel rivets:—

$$\frac{23 \times d^2 \times \cdot 7854 \times n \times C \times F}{4{\cdot}5 \times 28 \times T} + d = p.$$

GIVEN C, F, n, T, r, TO FIND p AND d.

Iron plates and iron rivets:—

$$\frac{r \times T}{(100-r) \times \cdot 7854 \times n \times C} = d.$$

$$\frac{100 \times r \times T}{(100-r)^2 \times \cdot 7854 \times n \times C} = p.$$

Steel plates and steel rivets:—

$$\frac{4{\cdot}5 \times 28 \times r \times T}{23 \times (100-r) \times {\cdot}7854 \times n \times C \times F} = d.$$

$$\frac{100 \times 4{\cdot}5 \times 28 \times r \times T}{23 \times (100-r)^2 \times {\cdot}7854 \times n \times C \times F} = p.$$

Iron plates and iron rivets or steel plates and steel rivets when d is found first, then:—

$$\frac{100\,d}{100-r} = p.$$

Iron plates and iron butt straps or steel plates and steel butt straps:

Double butt straps:—

$$\frac{5 \times T}{8} = T_1.$$

Single butt straps:—

$$\frac{9 \times T}{8} = T_1.$$

For Distance between Rows of Rivets, &c.

Iron and steel:—

$$\frac{3 \times d}{2} = E.$$

Chain riveted joints not less than:—

$$2 \times d = V.$$

(*See* Note (*a*) *below.*)

Zig-zag riveted joints:—

$$\sqrt{\frac{(11p + 4d)\,(p + 4d)}{10}} = V.$$

Diagonal pitch:—

$$\frac{6p + 4d}{10} = p_D.$$

To Determine the Working Pressure

$$\frac{S \times \% \times 2\,T}{F \times D} = B.$$

Chain and Zig-zag Riveted Joints in which every alternate Rivet has been omitted in the Outer Row, or in the Outer and the Inner Rows such as are shown by the following Sketches.

Iron plates and iron rivets or steel plates and steel rivets:—

$$\frac{100\,(p-d)}{p} = r.$$

Iron plates and iron rivets:—

$$\frac{100 \times d^2 \times {\cdot}7854 \times n \times C}{p \times T} = R.$$

Steel plates and steel rivets:—

$$\frac{100 \times 23 \times d^2 \times {\cdot}7854 \times n \times C \times F}{4{\cdot}5 \times 28 \times p \times T} = R.$$

Iron plates and iron rivets or steel plates and steel rivets:—

$$\frac{100\,(p-2d)}{p} + \frac{R}{n} = R_1.$$

For iron lap joints of this description the diameter of the rivet should not be less than:—

$$\frac{T}{{\cdot}7854} = d$$

For steel lap joints of this description the diameter of the rivet should not be less than:—

$$\frac{T \times 28 \times 4{\cdot}5}{{\cdot}7854 \times 23 \times F} = d.$$

Joints fitted with Single or Double Butt Straps.

Where the number of rivets in the inner row is double the number in the outer row.

Iron plates and iron butt straps or steel plates and steel butt straps:—

Double butt straps:—

$$\frac{5 \times T\,(p-d)}{8 \times (p-2d)} = T_1.$$

Single butt straps:—

$$\frac{9 \times T\,(p-d)}{8 \times (p-2d)} = T_1.$$

When the number of rivets in the inner row is the same as in the outer row.

Double butt straps:—

$$\frac{5 \times T}{8} = T_1.$$

Single butt-straps:—

$$\frac{9 \times T}{8} = T_1.$$

For Distance between Rows of Rivets, &c.

Iron and steel:—

$$\frac{3 \times d}{2} = E.$$

Chain riveted joints:—

$$\left.\begin{array}{l} \sqrt{\dfrac{(11p + 4d)\,(p + 4d)}{10}} = V \\ \text{or} \\ \quad 2 \times d = V \end{array}\right\}$$

The greater of these two values of V to be used. (*See* Note (*a*) *below.*)

For joint K.:— $2 \times d = V_1$. (*See* Note (*a*) *below.*)

Zig-zag riveted joints:— $\sqrt{(\tfrac{11}{20}p + d)\,(\tfrac{1}{20}p + d)} = V$

Diagonal pitch:— $\tfrac{3}{10}p + d = p_D$.

For joint J.:— $\sqrt{\dfrac{(11p + 8d)\,(p + 8d)}{20}} = V_1$.

Diagonal pitch:— $\dfrac{3p + 4d}{10} = P_D$.

To Determine the Working Pressure.

$$\frac{S \times \% \times 2T}{F \times D} = B.$$

Note (*a*).—The minimum value of V or V_1 for chain riveted joints is given as $2d$, but $\dfrac{4d + 1}{2}$, is more desirable.

PART II.

Regulations governing the inspection and testing of boilers now in existence and of boilers now or hereafter to be manufactured, in Canada, for the use of steamboats, whenever in the opinion of the Inspector the regulations contained in Part One of these regulations, on account of the make of such boilers, or for some other reason, are not capable of application in the testing thereof; provided that in every such case the Inspector shall issue his certificate, in which he shall state that his inspection has been made under Part Two of this order.

Mode of Inspection.

Sec. 44. Any Inspector may, whenever he deems it necessary so to do, and one Inspector shall, at least once in every year, subject the boiler of every steamboat to a test by hydrostatic pressure, and shall satisfy himself by examination and experimental trials that such boiler is well made of good and suitable materials; the limit of such pressure shall be in the ratio of one hundred and fifty pounds to one hundred pounds allowable as a working pressure; for the purposes of such test the owner of the steamboat shall provide the necessary hand-pump and apparatus, and the same shall be worked by the crew of the steamboat; and no Inspector shall make or deliver to the owner or master of any steamboat, any certificate unless he has first subjected the boiler of such steamboat to such test by hydrostatic pressure.

Sec. 45. Before a boiler is subjected to a test by hydrostatic pressure, it shall be opened up for inspection, the man-hole doors and mud-plates removed, and the outside and inside of the boiler cleaned, the furnace grates removed and the furnace swept out clean, so that satisfactory and efficient inspection may be made. When bulkheads are so placed as to prevent a close examination of the plates of the boiler, they shall be removed; and the owner or master of the steamboat shall see that the foregoing requirements are complied with before applying for inspection.

Sec. 46. In any case in which the test is not satisfactory, the defects shall be made good and the boiler retested satisfactorily before a certificate is granted.

Sec. 47. When the outside of the bottom of the boiler cannot be otherwise perfectly inspected, the boiler shall be lifted for inspection once at least in every four years.

Sec. 48. In subjecting boilers made of iron plates to the hydrostatic test aforesaid, the Inspector shall assume one hundred pounds to the square inch as the maximum pressure

allowable as a working power for a new boiler 42 inches in diameter, made of the best refined iron, at least one quarter of an inch thick, in the best manner and of the quality herein required, and shall rate the working pressure of all iron boilers, whether of greater or less diameter, according to their strength compared with this standard; and in all such cases the test applied shall exceed the working pressure allowed, in the ratio of one hundred and fifty pounds to one hundred, using the water in such tests at a temperature not exceeding sixty degrees Fahrenheit.

Sec. **49**. In subjecting boilers made of steel to the hydrostatic test aforesaid, the Inspector shall assume one hundred and twenty-five pounds as the maximum pressure allowable as a working power for a new boiler 42 inches in diameter, made in the best manner of the best quality of steel plate, at least one quarter of an inch thick, with all the rivet holes drilled in place, the plates being then taken apart and the burrs removed, the longitudinal seams in the shell being fitted with double butt steel straps cut across the grain of the plate, and each of at least five-eighths or over the thickness of the plates they cover, and all the seams being at least double riveted and having at least seventy per cent of the strength of the solid plate, and all the flat surfaces stayed in the best manner and all the seams double riveted,—and they shall rate the working pressure of all steel boilers so made, whether of greater or less diameter, according to their strength compared with this standard; and in all such cases the test applied shall exceed the working pressure allowed for such boilers in the ratio of one hundred and eighty-seven and a half pounds to one hundred and twenty five pounds, using the water in such tests at a temperature not exceeding sixty degrees Fahrenheit.

Sec. **50**. If the Inspector is of opinion that any boiler, whether made of iron or steel plates, by reason of its construction or material, will not safely allow so high a working pressure as that hereinbefore specified for each such description of boiler respectively, he may, for reasons to be stated specifically in his certificate, fix the working pressure of such boiler at less than two-thirds of the test pressure.

Sec. **51**. The foregoing rules shall be observed in all cases, unless the proportion between such boilers and the cylinders, or some other cause renders it manifest that their application would be unjust, in which case the Inspector may depart from the said rules if it can be done with safety; but in no case shall the working pressure allowed exceed the proportion hereinbefore mentioned, as compared with the hydrostatic test.

Sec. **52**. (*a.*) The external working pressure to be allowed on plane circular iron furnaces and flues subjected to such pressure, when the longitudinal joints are welded or made with a butt strap, shall be determined by the following formula:—

(*b.*) The product of 90,000 multiplied by the square of the thickness of the plate in inches,—divided by the length of the flue or furnace in feet plus 1, multiplied by the diameter in inches,—shall be the allowable working pressure per square inch in pounds,—provided it does not exceed that found by the following formula:—

(*c.*) The product of 8,000 multiplied by the thickness of the plate in inches, divided by the diameter of the furnace or flue in inches, shall be the allowable working pressure per square inch in pounds,—

(*d.*) The length of the furnace to be used in the first formula being the distance between the rings, if the furnace is made with rings; and that one of the two formulæ which gives the lowest pressure being the one by which the Inspector shall be guided.

Sec **53**. On flat surfaces the allowable working pressure shall not exceed six thousand pounds to each effective square inch of sectional area of the stays supporting it; the pressure to be allowed on plates forming flat surfaces shall be that found by the following formula:—

$$\frac{C \times (T+1)^2}{S-6} = \text{Working pressure in pounds per square inch, where—}$$

T = Thickness of plate in sixteenths of an inch;
S = Surface supported in square inches; when a greater ratio than 4 to 5, the greatest square to be taken
C = 100; but when the plates are exposed to the impact of heat or flame, and steam only is in contact with the plates on the opposite side, C is to be reduced to 50.

(*a.*) When the plates are not exposed to the impact of heat or flame, and the stays are fitted with nuts and riveted washers.

If the diameter of riveted washers be at least two-thirds the pitch of the stays, and the thickness not less than the plates they cover, the constants may be increased to 150.

(*b.*) When doubling plates are fitted of the same thickness of the plates they cover, and not less in width than two-thirds the pitch of the stays, the constants may be increased to 160.

(*c.*) When doubling plates cover the whole of the flat surfaces, the constant may be increased to 200.

Sec. **54**. In order to satisfy himself as to the strength and condition of a boiler, the Inspector may if he deems it necessary, order holes to be cut in it, and may also demand that such information shall be furnished him in respect to the interior construction of the boiler as will enable him to judge correctly of its strength.

Sec. **55**. In no case shall a certificate be granted for a boiler when drift pins have been used in bringing the holes in the sheets together.

Sec. **56**. Man-hole openings must be stiffened with compensating plates or rings of at least the same effective sectional area as the plates cut out and in no case shall such plates or rings be of less thickness than the plate to which they are attached, nor the attachment of less strength than the plate or ring. All openings in the shells of boilers should have their short axes placed longitudinally and if not so placed must have compensating plates or rings and attachments, equal to twice the effective sectional area of the plate cut out.

Where cast iron frames are fastened around man-holes in steamboat boilers, a compensating ring in addition must be provided.

Mud-holes or hand-holes should not be placed in boiler shells of a greater short diameter than five inches, unless provided with reinforcing plates, and if on the cylindrical shell of a boiler, their short diameter should be in a line with the axis of the shell.

Sec. **57**. When bars or angle irons are used for sustaining the crown sheet of the furnace of a boiler, three-fifths of the working pressure allowable upon the crown sheet shall be sustained by hanging stays from the shell of the boiler attached to the crown sheet.

Sec. **58**. Donkey boilers on steamboats shall be provided with two safety-valves, which may be locked up.

Sec. **59**. Boilers in which the longitudinal seams in the cylindrical shell are single riveted, in place of being double riveted, shall be subject to a reduction in the working pressure allowable for a boiler made in the best manner (as prescribed by sections 48 and 49 of these regulations), and the limit of pressure in boilers so made shall not exceed eighty pounds to the square inch in place of one hundred pounds or one hundred and twenty-five pounds, as mentioned in the said section.

Sec. **60**. No boiler made and placed on board a steamboat shall be made of boiler plate, whether iron or steel, which has not been stamped with the mark or name of the maker thereof; and no certificate shall be granted with respect to any boiler made wholly or in part of plate not so marked; and before a certificate shall be granted with respect to any boiler, a declaration on oath by the maker of the boiler, stating the name of the maker of the plates, their quality, and the quality of all materials used in the construction thereof, shall be furnished to the Inspector; such oath may be taken before any justice of the peace in Canada, or before a notary public, and certified under his official seal, if taken out of Canada: Provided always, that in any case where such declaration on oath by the maker of the boiler cannot be obtained owing to the death of the maker, or from any other cause deemed sufficient by the Inspector, the affidavit of two practical boiler-makers who have examined the boiler and reported upon the quality of the materials in it, and its workmanship and strength, shall, if satisfactory to the Inspector, be deemed sufficient in lieu of such declaration by the maker of the boiler.

Sec. **61**. During the construction of every boiler made in Canada, the maker of such boiler shall notify the Inspector of the district in which it is being made, that it is open to his inspection, and shall, at all times during such construction, allow the Inspector access to such boiler.

Sec. **62**. No boiler or pipe shall be approved which is made in whole or in part of bad material, or is unsafe in its form, or dangerous from defective workmanship, age, use, or any other cause.

Construction of boilers.

Sec. **63**. (*a.*) When cylindrical boilers or the cylindrical parts of boilers composed of iron plates are made of the best material with all the rivet holes drilled in place and all the seams fitted with double butt straps each of at least five-eighths the thickness of the plates they cover, and all the seams at least double riveted with rivets having an allowance of not more than 75 per cent over the single shear, and provided that the boilers have been open to inspection during the whole period of construction, then 4 may be used as the factor of safety. The tensile strength of the material is to be taken as equal to 48,000 lbs. per square inch with the grain, and 42,000 lbs. across the grain. When the above conditions are not complied with, the addition, in the following scale, must be added to the factor according to the circumstances of each case.

A·15—To be added when all the holes are fair and good in the longitudinal seams, but drilled out of place after bending.

B·3—To be added when all the holes are fair and good in the longitudinal seams, but drilled out of place before bending.

C·3—To be added when all the holes are fair and good in the longitudinal seams, but punched after bending instead of drilled.
D·5—To be added when all the holes are fair and good in the longitudinal seams, but punched before bending.
E*·75—To be added when all the holes are not fair and good in the longitudinal seams.
F·1—To be added if the holes are all fair and good in the circumferential seams, but drilled out of place after bending.
G·15—To be added if the holes are fair and good in the circumferential seams, but drilled before bending.
H·15—To be added if the holes are fair and good in the circumferential seams, but punched after bending.
I·2—To be added if the holes are fair and good in the circumferential seams, but punched before bending.
J*·2—To be added if the holes are not fair and good in the circumferential seams.
K·2—To be added if double butt straps are not fitted to the longitudinal seams, and the said seams are lap and double riveted.
L·1—To be added if double butt straps are not fitted to the longitudinal seams, and the said seams are lap and treble riveted.
M·3—To be added if only single butt straps are fitted to the longitudinal seams, and the said seams are double riveted.
N·15—To be added if only single butt straps are fitted to the longitudinal seams, and the said seams are treble riveted.
O1·—To be added when any description of joint in the longitudinal seams is single riveted.
P‡·1—To be added if the circumferential seams are fitted with single butt straps and are double riveted.
Q‡·2—To be added if the circumferential seams are fitted with single butt straps and are single riveted.
R‡·1—To be added if the circumferential seams are fitted with double butt straps and are single riveted.
S‡·1—To be added if the circumferential seams are lap joints and are double riveted.
T·2—To be added if the circumferential seams are lap joints and are single riveted.
U·25—To be added when the circumferential seams are lap, and the strakes of plates are not entirely under or over.
V·3—To be added when the boiler is of such a length as to fire from both ends, or is of unusual length, such as flue boilers; and the circumferential seams are fitted as described opposite P., R. and S., but of course when the circumferential seams are as described opposite Q. and T., V·3 will become V·4.
W*·4—To be added if the seams are not properly crossed.
X*·4—To be added when the iron is in any way doubtful, and the Inspector is not satisfied that it is of the best quality.
Y†1·—To be added if the boiler is not open to inspection during the whole period of its construction.

(*b.*) The strength of the joints is found by the following method:—

$$\frac{(\text{Pitch} - \text{Diameter of rivet hole}) \times 100}{\text{Pitch.}} = \text{Percentage of strength of plate at joint compared with the solid plate.}$$

$$\frac{(\text{Area of rivets} \times \text{No. of rows of rivets}) \times 100}{\text{Pitch} \times \text{thickness of plate.}} = \text{Percentage of strength of rivets as compared with solid plate. ††}$$

(*c.*) Where marked * the allowance may be increased still further if the workmanship or material is very doubtful or unsatisfactory.

†† If the rivets are exposed to double shear multiply the percentage as found by 1·75.

† When surveying boilers that have not been open to inspection during construction the case should be submitted to the Chairman as to the factors to be used.

P‡·1, Q‡·2, R‡·1, S‡·1, shall not apply to the end or circumferential seams, if such seams are sufficiently stayed by through bolts; nor to the seams between the square and round part of shell, in cylindrical boilers with square furnaces, when such seams are double riveted.

(*d.*) Then take iron as equal in tensile strength to 48,000 pounds per square inch and use the smallest of the two percentages as the strength of the joint, and adopt the factor of safety as found from the preceding scale:—

$$\frac{(48{,}000 \times \text{percentage of strength of joint}) \times \text{twice the thickness of the plate in inches.}}{\text{Inside diameter of boiler in inches} \times \text{factor of safety.}}$$

$$= \text{Pressure to be allowed per square inch on the safety-valves.}$$

(*e.*) For steel plates of the best quality the tensile strength may be taken as equal to 60,000 pounds per square inch, using the same factor of safety.

(*f.*) Plates that are drilled in place must be taken apart and the burr taken off and the holes slightly countersunk from the outside.

(*g.*) Butt straps must be cut from plates and not from bars, and must be of as good quality as the shell plates, and for the longitudinal seams must be cut across the fibre.

(*h.*) The rivet holes may be punched or drilled when the plates are punched or drilled out of place, but when drilled in place must be taken apart and the burr taken off and slightly countersunk from the outside.

(*i.*) When single butt straps are used and the rivet holes in them punched they must be one-eighth thicker than the plates they cover.

(*j.*) The diameter of rivets must not be less than the thickness of the plates of which the shell is made, but it will be found when the plates are thin, or when lap joints or single butt straps are adopted, that the diameter of the rivets should be in excess of the thickness of the plates.

(*k.*) The distance of the rivet holes from the ends or edge of the plates shall not be less than the diameter of the rivet.

(*l.*) Dished ends that are not truly hemispherical must be stayed; if they are not theoretically equal in strength to the pressure needed they must be stayed as flat surfaces, but if they are theoretically equal in strength to the pressure needed the stays may have a strain of 10,000 pounds per effective square inch of sectional area. Dished ends, of less diameter than two feet, may be passed without stays, if theoretically double the strength required.

(*m.*) Inspectors will remember that the strength of a sphere to resist internal pressure is double that of a cylinder of the same diameter and thickness.

Sec. **64**. (*a.*) The neutral parts of boiler shells under steam domes must be sufficiently stiffened and stayed.

(*b.*) The sides of boilers having square furnaces and half round tops must be stayed from side to side of the shell, over the furnace, one or more rows of these stays to be placed well above the centre of the cylindrical part.

(*c.*) Screw stays are not to be used when supporting flat surfaces at any angle but a right angle to the surface supported, their diameter to be measured inside the thread.

(*d.*) The longitudinal seams in the cylindrical shell of boilers should be as far as possible from the bottom.

(*e.*) The inside diameter of the outside strake or course in the cylindrical shell of a boiler is to be taken as the measure of its diameter.

Sec. **65**. (*a.*) In cylindrical super-heaters, the strength of the joints and the factor of safety is found in a similar manner as for cylindrical boilers and steam receivers, but instead of using 48,000 pounds as the tensile strength of iron 24,000 pounds is adopted unless where the heat or flame impinges at or nearly at right angles to the plate, then 18,000 pounds is substituted.

(*b.*) In all cases the internal steam pipes should be so fitted that the steam in flowing to them will pass over all the plates exposed to the impact of heat or flame.

(*c.*) Super-heaters or water-jackets should, as regards inspection, be deemed to be the most important part of the boilers and must be inspected inside and outside; those that cannot be entered (on account of their size) must have a sufficient number of doors through which a thorough investigation of the whole of the interior can be made.

(*d.*) Special attention should be paid to the inspection of super-heaters, as with high pressure the plates may become dangerously weak and not give any sound to indicate their state when tested with the hammer; the plate should therefore be occasionally drilled. Drain pipes must be in all cases fitted to super-heaters in which a collection of water in the bottom is possible.

(*e.*) Super-heaters that can be shut off from the main boilers must be fitted with a Government lock-up safety-valve of sufficient size, but the least size passed shall not be less than 2 inches diameter.

Sec. **66**. The areas of diagonal stays are found in the following way:

Find the area of a direct stay needed to support the surface, multiply this area by the length of the diagonal stay and divide the product by the length of a line drawn at right angles to the surface supported to the end of the diagonal stay, the quotient will be the area of the diagonal stay required.

Sec. **67**. (*a.*) When the tops of combustion boxes or other parts of a boiler are supported by solid rectangular girders, the following formula, which is used by the Imperial Board of Trade, will be useful for finding the working pressure to be allowed on the girders, assuming that they are not subjected to a greater temperature than the ordinary heat of steam, and in case of combustion chambers, that the ends are fitted to the edges of the tube plate and the back plate of the combustion box:

$$\frac{C \times d^2 \times T}{(W-P)\, D \times L} = \text{Working pressure.}$$

W = Width of combustion box in inches.
P = Pitch of supporting bolts in inches.
D = Distance between the girders from centre to centre in inches.
L = Length of girder in feet.
d = Depth of girder in inches.
T = Thickness of girder in inches.
C = 500 when the girder is fitted with one supporting bolt.
C = 750 when the girder is fitted with two or three supporting bolts.
C = 850 when the girder is fitted with four supporting bolts.

(*b.*) The working pressure for the supporting bolts and for the plate between them, shall be determined by the rule for ordinary stays.

Sec. **68**. The flat ends of all boilers, as far as the steam space extends, and the ends of super-heaters should be fitted with shield, or baffle plates, where exposed to the hot gases of the uptake, as all the plates subjected to the direct impact of heat or flame are liable to get injured unless covered with water.

"When a super-heater is constructed with a tube subject to external pressure, the working pressure should be ascertained by the rules given for circular iron furnaces, but the constants should be reduced as thirty is to forty-seven.

"If steel is proposed to be used in super-heaters, the particulars should be submitted to the Board of Steamboat Inspection or to the Chairman, if the Board is not sitting, for consideration, but in all cases it should be discouraged for this purpose; this applies to the unshielded uptakes of all boilers, including ordinary vertical donkey boilers."

Sec. **69**. Donkey boilers that are in any way attached to, or connected with the main boilers, or with the machinery used for propelling the ship, must be inspected and fitted the same way as the main boilers, and have a water and steam gauge, and all other fittings complete, and as regards safety-valves, must comply with the same regulations as the main boilers, and no safety-valve shall be passed less than two inches diameter, except as hereinafter provided in the rules relating to the inspection of safety-valves.

Sec. **70**. (*a.*) No boiler or steam-chamber is to be so constructed, fitted or arranged as that the escape of steam from it through the safety-valve can be wholly or partially intercepted by the action of any other valve.

(*b.*) A stop valve must always be fitted between the boiler and the steam pipe, and when two or more boilers are connected with a steam receiver or super-heater, between each boiler and super-heater or steam receiver. The object of this is obvious, viz., to avoid the failure of all the boilers through the failure of one. The necks of stop valves should be as short as practicable.

(*c.*) Screwed steam connecting pipes of iron may be used on steamboats up to and not exceeding four inches diameter; and if such pipes are over two inches diameter, they must be connected with suitable flanges and bolts, to the satisfaction of the Inspector who inspected them.

Sec. **71**. (*a.*) Each boiler must be fitted with glass water gauge, at least two test cocks, and steam gauge, that is to say, each boiler must be fitted with all the fittings as complete as if they were only one boiler.

(*b.*) Boilers that fire at both ends and those of unusual width, must have water gauges and test cocks at each end or side, as the case may be. When a steamer has more than one boiler, and those boilers are fitted with stop valves, each boiler must be treated as a separate one and have all the requisite fittings.

Sec. **72**. Inspectors are to be most careful not to give any official sanction to any new arrangement or construction of marine steam boilers, without first obtaining the permission of the Chairman in writing, nor are they allowed to give any written approval of any invention or arrangement unless by direction of the Board, and whenever they know that any invention or new arrangement is to be fitted to a vessel that is intended to have a passenger certificate, they should, as soon as possible, obtain plans and submit the same to the Chairman.

Sec. **73**. When the longitudinal seams in cylindrical furnaces are not welded or made with a butt strap, as provided in section 52 of these regulations, the following constants will be substituted for 90,000:

(*a.*) Furnaces with butt joints and drilled rivet holes.	90,000 where the longitudinal seams are double riveted and fitted with single butt straps; 80,000 where the longitudinal seams are single riveted and fitted with single butt straps; 90,000 where the longitudinal seams are single riveted and fitted with double butt straps.
(*b.*) Furnaces with butt joints and punched rivet holes.	85,000 where the longitudinal seams are double riveted and fitted with single butt straps; 75,000 where the longitudinal seams are single riveted and fitted with single butt straps; 85,000 where the longitudinal seams are single riveted and fitted with double butt straps.
(*c.*) Furnaces with lap joints and drilled rivet holes.	80,000 where the longitudinal seams are double riveted and bevelled; 75,000 where the longitudinal seams are double riveted and not bevelled; 70,000 where the longitudinal seams are single riveted and bevelled; 65,000 where the longitudinal seams are single riveted and not bevelled.
(*d.*) Furnaces with lapped joints and punched rivet holes.	75,000 where the longitudinal seams are double riveted and bevelled; 70,000 where the longitudinal seams are double riveted and not bevelled; 65,000 where the longitudinal seams are single riveted and bevelled; 60,000 where the longitudinal seams are single riveted and not bevelled.

Furnaces and Flues.

Sec. **74**. (*a.*) The external working pressure to be allowed on plane circular steel furnaces and flues where subjected to such pressure, when the longitudinal joints are welded or made with a butt strap, shall be determined by the following formulæ:—

(*b.*) The product of 90,000 multiplied by the square of the thickness of the plate in inches, divided by the length of the flue, or furnace, in feet, plus 1, multiplied by the diameter in inches, will be the allowable working pressure per square inch in pounds, adding ten per cent to the result of the formula, provided it does not exceed that found by the following formula:—

$$\frac{90{,}000 \times T^2}{(L + 1) \times D} = \text{Working pressure, where}$$

T = Thickness of plate in inches.

D = Diameter of flue outside in inches.

L = Length of flue or furnace in feet, or the length between the rings in feet, if it is strengthened by suitable rings or Adamson joints.

(*c.*) The product of 10,000 multiplied by the thickness of the plate in inches, divided by the diameter (outside) of the flue or furnace, in inches, will be the allowable working pressure per square inch in pounds.

Corrugated Steel Furnaces and Flues.

Sec. **75**. (*a.*) Steel flue furnaces when new, corrugated and machine made, and practically true circles, the working pressure is found by the following formula, provided that the plane parts at the ends do not exceed six inches in length, and the plates are not less than $\frac{5}{16}$ inch thick.

$$\frac{14{,}000 \times \text{thickness in inches}}{\text{Mean diameter in inches}} = \text{Working pressure per square inch.}$$

(*b.*) When the furnaces are riveted in two or more lengths the case should be submitted to the Chairman for consideration, as it may be necessary to make a reduction.

Corrugated Iron Furnaces.

Sec. **76**. The working pressure for corrugated iron furnaces practically circular, and machine made, provided the plane parts at the ends do not exceed six inches in length and the plates are not less than $\frac{5}{16}$ inch thick, should not be greater than that found by the following formula:—

$$\frac{10{,}000 \times \text{thickness in inches}}{\text{Mean diameter in inches}} = \text{Working pressure per square inch.}$$

Duties of Inspectors.

Sec. **77**. Inspectors are to fix the working pressure of boilers by a series of calculations of the strength of the various parts, and according to the workmanship and material.

Sec. **78**. Before testing a boiler the Inspector should examine it, take the necessary measurements and calculate what the working pressure should be, in accordance with these regulations. If the test is not satisfactory the defects must be made good and the boiler re-tested. This instruction applies to super-heaters, steam chests and water-jackets as well as boilers.

Sec. **79**. If the boiler is too hot for the Inspector to examine it efficiently with safety and convenience, he should decline to examine it, and absolutely refuse to grant a certificate until he can make an efficient examination.

Sec. **80**. Inspectors should see all new boilers and boilers that have been taken out of a ship for a thorough repair, tested by a hydrostatic pressure up to at least one and one-half the working pressure that will be allowed previous to the boilers being placed in the vessel to test the workmanship, etc., but the working pressure is to be determined by the stay power, thickness of plates and strength of riveting, etc., and not by the hydrostatic test.

Sec. **81**. The hydrostatic test should in no case exceed that provided by section 44 of these regulations, and it is never to be applied until the boiler has been opened up for examination and until the strength has been calculated from the necessary measurements taken from the boiler itself.

Sec. **82**. When a boiler is partially inspected by one Inspector, and the inspection is completed and the certificate to be granted by another, if the Inspector who witnesses the test of the boiler by the hydrostatic pressure has an opportunity of examining it inside and outside after the test, such Inspector shall determine the working pressure to be allowed on the boiler in question, taking care to inform the owner or master, or maker or agent, and the Inspector who partially inspected it what working pressure should in his opinion be allowed on it, and the Inspector who partially inspected the boiler, should inform the Inspector who completes the inspection of all particulars of his inspection of the boiler.

Sec. **83**. Cast iron must not be used for stays, and Inspectors should also discourage the use of cast iron for chocks and saddles for boilers. Particular attention should be paid to chocking and fastening boilers to the vessel.

Sec. **84**. A pressure once allowed on the boiler of a passenger steamer is not, under any circumstances whatever, to be increased, unless the Inspector has previously written for and obtained the sanction of the Chairman. In cases where an Inspector is of opinion that an increased pressure may with safety be allowed he should communicate with the Inspector who last inspected the boiler, and if on learning the reason why the existing pressure was formerly allowed, the Inspector is still of opinion that it may be increased, he should communicate all the facts of the case to the Chairman, but as above stated the pressure should not in any case be increased until the question has been decided by the Chairman.

Sec. **85**. In fixing the maximum working pressure on steamboat boilers, Inspectors are to assume one hundred and twenty-five pounds to the square inch as the limit allowable for a new steel boiler forty-two inches in diameter, madein the best manner, of the best quality of steel plates, at least one quarter of an inch thick, with all the rivet holes drilled in place, the plates being then taken apart and the burrs removed, the longitudinal seams in the shell being fitted with double butt steel straps cut across the grain of the plate and each of at least five-eighths the thickness of the plates they cover, and all the seams being at least double riveted and having at least seventy per cent of the strength of the solid plate, and all the flat surfaces stayed in the best manner and all the seams double riveted, and they shall rate the working pressure of all steel boilers so made, whether of greater or less diameter according to their strength compared with this standard, and in all such cases the test applied shall exceed the working pressure allowed for such boilers in the ratio of one hundred and fifty pounds to one hundred pounds, using the water in such tests at a temperature not exceeding sixty degrees Fahrenheit, and all percentages added to the factor of safety for inferior workmanship or material, are to be deducted from that pressure.

Sec. **86**. In fixing the maximum working pressure on steamboat boilers, Inspectors are to assume one hundred pounds to the square inch as the limit allowable for a new boiler forty-two inches in diameter, made of the best refined iron, at least one quarter of an inch thick, in the best manner and of the quality herein required, and shall rate the working pressure of all iron boilers, whether of greater or less diameter, according to their strength compared with this standard, and in all such cases the test applied shall exceed the working pressure allowed, in the ratio of one hundred and fifty pounds to one hundred, using the water in such test at a temperature not exceeding sixty degrees Fahrenheit, and all percentages added to the factor of safety, for inferior workmanship or material, are to be deducted from that pressure.

Sec. **87**. In the case of zig-zag riveting the strength through the plate diagonally between the rivets is equal to that horizontally between the rivets, when diagonal pitch $= \frac{6}{10}$ horizontal pitch $+ \frac{4}{10}$ diameter of rivet hole.

PART III.

Rules for Inspection of Water Tube Boilers.

MODE OF INSPECTION OF THE WATER TUBE TYPE OF BOILER KNOWN AS THE ROBERTS SAFETY WATER TUBE BOILER OR OF SIMILAR TYPE OF BOILER.

Sec. **88**. Any Inspector may, whenever he deems it necessary so to do, and one Inspector shall at least once in every year, subject the water tube boiler of every steamboat to a test by hydrostatic pressure, in the ratio of two hundred pounds to the square inch, to one hundred pounds allowable as a working pressure, using the water in such test at a temperature not exceeding sixty degrees Fahrenheit, and shall satisfy himself by examination and experimental trials, under both steam and water tests, that such boiler is well made and of good and suitable materials. For the purposes of such tests the owner of the steamboat shall provide the necessary hand-pump and apparatus, and fuel and other requisites, the same to be worked and operated by the crew of the vessel; and no Inspector of boilers and machinery shall make or deliver to the master or owner of any steamboat fitted with water tube boiler or boilers, any certificate of inspection unless he has first subjected the boiler or boilers of such steamboat to such tests by hydrostatic pressure, and running under steam, to test both the boilers and the working of the feed pumps while running, and by examination as herein prescribed, the period of test while running under steam to be not less than one hour, but may be extended to a longer time at the option of the Inspector.

Sec. **89**. Before a water tube boiler is subjected to a test by hydrostatic pressure it shall be opened up for inspection, the outer covering shall be removed and the outside and inside of the boiler cleaned, the furnace grates removed and the furnace swept out clean, so that satisfactory and efficient inspection may be made. When bulkheads are so placed as to prevent a close examination of the plate and tubes of the boiler, they shall be removed, and the owner or master of the steamboat shall see that the foregoing requirements are complied with before applying for inspection.

Sec. **90**. In any case in which the test is not satisfactory, the defects shall be made good and the boiler retested satisfactorily to the Inspector before a certificate is granted.

Sec. **91**. Inspectors are to fix the working pressure of water tube boilers by calculations of the strength of the several parts hereinafter specified, and by tests of the whole as provided herein.

Sec. **92** If a water tube boiler is too hot for an Inspector to examine it efficiently with safety and convenience, he should decline to do so, and absolutely refuse to grant a certificate until he can make a satisfactory examination.

Sec. **93**. In order to satisfy himself as to strength and internal condition of a water tube boiler, the Inspector may, should he deem it necessary, order holes to be cut in it, any sections or coils of pipes taken apart, and may also demand that such information by drawings and specifications of the several parts be furnished him of the construction, as will enable him to determine by calculations and tests and by examination their strength.

Sec. **94**. During the construction of every water tube boiler made in Canada, the maker of such boiler shall notify the Inspector of the district in which it is being made, that it is open to his inspection, and shall at all times during such construction allow the Inspector free access to it.

Sec. **95**. No part of a water tube boiler shall be made of boiler plate, whether iron or steel, which has not been stamped with the name or stamp of the maker thereof, and no certificate shall be granted with respect to any water tube boiler made partly of plate not so stamped, and before a certificate shall be granted with respect to any water tube boiler, a declaration on oath by the maker of the boiler, stating the name or stamp of the maker of the plates, their quality and the quality of all pipes and materials used in the construction of the boiler, and stating the quality of the workmanship, shall be furnished the Inspector; such oath may be taken before any justice of the peace in Canada, or before a notary public and certified under his official seal if taken out of Canada: Provided that in any case such declaration on oath by the maker of the boiler cannot be obtained from any cause deemed sufficient by the Inspector, the affidavit of two practical water tube boiler makers who have examined the boiler and reported upon the quality of the materials in it, and its workmanship and strength, shall if satisfactory to the Inspector be deemed sufficient in lieu of such declaration by the maker of the boiler.

Sec. **96**. To prevent questions arising after a water tube boiler is commenced, particulars of its construction by drawings or specifications should be furnished the Inspector by the maker or contractor for his approval, the Inspector having received such drawings and specifications, and not disapproving of them, will be careful to see that they are followed in construction, or to make deductions to the working pressure if not followed; this regulation will also apply to boilers undergoing alterations.

Sec. **97**. No water tube boiler or pipe in connection therewith shall be approved which is made in whole or in part of bad or faulty material, or bad workmanship, or is unsafe in its form, or from age, or from use, or from any other cause.

Sec. **98**. Inspectors should see all new water tube boilers, and water tube boilers that have been taken out of a ship for thorough repair, tested by hydraulic pressure up to at least twice the working pressure that will be allowed previous to the boiler being placed in the vessel, to test the workmanship and materials, but the working pressure is not to be determined by the test alone, as the stay power, thickness of plate and tubes, and the strength and workmanship are all to be considered.

Sec. **99**. The hydraulic test should not exceed twice the working pressure allowed, and it is never to be applied until the boiler has been opened up for examination, and the strength of the parts has been decided on, from the measurements and examination of those parts of the boiler.

Sec. **100**. When a water tube boiler is partially inspected by one Inspector, and the inspection is completed and the certificate to be granted by another Inspector, if the Inspector who witnesses the tests of the boiler by hydrostatic pressure, and while running under steam, has an opportunity of examining the boiler inside and outside after the tests, such Inspector shall determine the working pressure to be allowed on the boiler, taking care to inform the owners or maker, or master or agents, and the Inspector who partially inspected it, what working pressure should in his opinion be allowed, and the Inspector who partially inspected the boiler should inform the Inspector who completes the inspection of all particulars of his inspection of the boiler.

Sec. **101**. Cast iron must not be used for stays, pipes or elbows in water tube boilers; Inspectors should also discourage the use of cast iron for chocks and saddles for boilers; particular attention should be paid to chocking

and fastening boilers to vessels to guard against shifting or breaking loose, and all pipes to be of the best quality of metal, lapwelded or solid drawn.

Sec. **102**. A pressure once allowed on a water tube boiler is not under any circumstances to be increased, unless the Inspector has previously written for and obtained the sanction of the Chairman of the Board of Steamboat Inspection. In cases where an Inspector is of opinion that an increased working pressure may with safety be allowed he should communicate with the Inspector who last inspected the boiler, and if on learning the reason why the existing pressure was formerly allowed, the Inspector is still of the opinion that it may be increased, he should communicate all the facts of the case to the Chairman, but as above stated the working pressure should not in any case be increased until the question has been decided by the Chairman.

Sec. **103**. In the event of any novelty in construction of a water tube boiler, or any departure from the practice of staying and strengthening as prescribed in these regulations and rules, the Inspector shall report full particulars to the Chairman before fixing the working pressure.

Sec. **104**. An Inspector shall not declare a water tube boiler safe unless he is fully informed as to its construction and material and workmanship; he should therefore be very careful when he proposes to give a certificate for a boiler that he is not called in to inspect until after it is completed and fitted in the ship.

Sec. **105**. In the case of new water tube boilers the Inspector may allow a stress not exceeding 5,000 pounds per square inch of net section on solid iron screw stays supporting flat surfaces, but the stress should not exceed 4,000 pounds when the stays have been welded; where the head of drum is held by one stay in the centre, the area to be supported by it will be one quarter of the whole area of the head, measuring from inside of drum. Stays in water tube boilers may have an allowance of 6,000 pounds per square inch of sectional area, when under conditions similar to boilers to which rules in parts I. and II. apply.

Sec. **106**. The pressure on plate forming flat surfaces is found by the following formulæ: -

$$\frac{C \times (T + 1)^2}{S - 6} = \text{Working pressure per square inch.}$$

When the head of drum is supported by one stay in the centre the area of flat surface supported and the working pressure will be found by the formula:

$$\frac{C \times (T + 1)}{(\frac{d}{2} - 1)^2 - 6} = \text{Working pressure.}$$

d = Inside diameter of drum head in inches.
T = Thickness of plate in sixteenths of an inch.
S = Surface supported in square inches.
C = Constant as follows:

(*a.*) C = 80 when the plates are exposed to the impact of heat, flame or hot gases, and the water and steam (as in the Roberts Safety Water Pipe Boiler) in contact with the plates, and the stays screwed into the plates, fitted with nuts, or well riveted over with a good head.

(*b.*) When the riveted ends of the screw stays are much worn, or when the ends are burned, the constants should be reduced, but the Inspector must act according to the circumstances that present themselves at the time of the inspection, as when the ends of the screw stays are found in this condition the constant may be reduced from 80 to 36. In doubtful cases the Inspector should refer the case to the Chairman.

Sec. **107**. With regard to the inspection generally of the Roberts Safety Water Tube Boiler, or of boilers of a similar type: -

The boiler shall be open to inspection during construction, the Inspector to satisfy himself that in regard to all boilers constructed of this type made after the first day of February, 1891, the quality of the plate or material of which the drum is made is of the "best quality," and stamped with the name or stamp of the manufacturer thereof, and if of steel the tensile strength to be between 57,000 pounds and 64,000 pounds, and with not less than 25 per cent elongation, and the tests for plates (applicable when the drum is riveted longitudinally) and for stays to be similar to tests required in section 36 of the foregoing "Rules for inspection of boilers of steamboats."

(*a.*) The constant for calculating the working pressure to be allowed on the drum if of iron or steel plates to be 30,000 pounds per square inch of sectional area, due regard being had to percentage of seams if riveted, and to percentage of plate left by line of holes where the water tubes are attached, using a factor of not less than 5, with additions as provided in the foregoing "Rules for inspection of boilers of steamboats."

Sec. **108**. The thickness of plate in drums of water tube boilers of less than ten inches diameter to be not less than three-eighths of an inch, and of ten inches diameter and up to fourteen inches diameter to be not less than half an inch thick, and the drum heads to be in no case less than half-inch thickness, and after being flanged, if of steel plate, to be annealed.

The drum heads of water tube boilers may be welded to the drum, instead of being riveted or bolted to the drum, when the drum and heads are made of iron, and of not over nine inches in diameter.

Sec. **109**. The safety-valves to be placed one on the steam pipe near the drum, and one on the drum; the number and dimensions of safety-valves will be the same as provided by "Rules relating to the inspection of safety-valves."

(*a.*) The aggregate safety-valve area required on each twin water tube boiler (connected by valves or cocks), over the same grate area, may be divided into or among four safety-valves, two being on each part of boiler.

PART IV.

RULES RELATING TO THE INSPECTION OF SAFETY-VALVES. AS PROVIDED BY SEC. 1 OF THE ACT 53 VIC. CHAP. 17, INTITULED "AN ACT TO AMEND THE STEAMBOAT INSPECTION ACT, CHAP. 78 OF THE REVISED STATUTES."

Sec. **110**. (*a.*) After the following rules come into operation, every boiler made or placed on board a steamboat shall be fitted with two or more lock-up safety-valves of a construction approved by the Board of Steamboat Inspection, or by the Chairman, if the Board is not then in session; the aggregate area of said lock-up safety-valves shall not be less than that given in the following tables opposite the boiler pressure intended, the safety-valves should be upon the boiler, or as near the boiler as practicable without pipes, cocks, valves, or other possible obstructions between the safety-valves and the boiler.

Every Inspector, when inspecting, visiting or examining the boiler or machinery of any steamboat, shall satisfy himself that the safety-valves attached thereto are of suitable dimensions, sufficient in number, well managed and in good working order, and only loaded so as to open at or below the certified working pressure; and he may, if he thinks proper, order and cause two or more of such safety-valves which together shall be of sufficient dimensions to discharge all the steam the boiler can generate, and of such construction as he approves, to be locked up and taken wholly away from the control of the engineer when the steam is up; but the engineer shall have access to the safety-valves when the steam is not up, and shall see that they are kept in working order, and the master of the steamboat shall see that the engineer has access to them for that purpose, and keeps them in proper working order:

The cocks and valves attached to the boiler shall be substantially made, and in no case shall they be attached to the boilers by screwing into the plate, unless, as an additional security, bolted flanges are used in addition to such attachment:

No valve, under any circumstances, shall at any time, be so loaded or so managed in any way, as to subject a boiler to a greater pressure than that allowed by the Inspector at the then last inspection thereof:

Every safety-valve made or placed on board of a steamboat and attached to a boiler shall have a lift equal to at least one-fourth of its diameter; the openings for the passage of steam to and from the valves shall each have an area not less than the area of the valve, as shall also the waste steam pipe, and the valve box shall have a waste water pipe; if the lever of a lever safety valve is not bushed with brass the pin shall be of brass,—iron and iron working together shall not be allowed; every such safety-valve shall be fitted with a lifting gear so that it can be worked by hand, either from the engine room or the fire hold, or by the master or person in charge on deck.

(*b.*) Safety-valves should not be passed of a diameter less than two inches, except in the case of small boilers where the area of grate surface is less than fifteen square feet, when safety-valves of less diameter may be used, but in no case shall their diameter be less than one inch, and provided they are of approved construction, and the proportion of area of safety-valve to area of grate be complied with as given by the tables of safety-valve areas.

(*c.*) The grate area shall be ascertained by measuring the length of the grate from the inner edge of the dead plate to the front of the bridge and the width from side to side of the furnace on top of the bars at the middle of their length.

(*d.*) The safety-valve should be tested (by the Inspector) on new boilers, or on other boilers if he wishes to test their efficiency, under full steam and full fires, for at least 15 minutes with the feed water shut off and stop valve closed: if the accumulation of pressure exceed 10 per cent of the loaded pressure, he should not issue a certificate without reporting to the Chairman full particulars of the test, and the strength pressure of the boiler with sketch of safety-valve, and in no case is an Inspector to give a certificate for safety-valves unless he has examined them and is acquainted with the details of their construction.

Sec. **111** (*a.*) Inspectors are instructed that in all new boilers and whenever alterations can be easily made, the valve chest should be placed directly on the boiler, and the neck or part between the chest and the flange which bolts on to the boiler should be as short as possible.

(*b.*) In any case in which an Inspector is of opinion that it is positively dangerous to have a length of pipe between the boilers and the safety-valve chest, he shall at once insist on the requisite alterations being made before granting a certificate.

(*d.*) If lever safety-valves are used, the distance between the centre of the valve and the centre of the fulcrum, should not be less than the diameter of the valve.

(*e.*) Safety-valves must be placed in convenient and accessible places, that their adjustment and examination may be readily and efficiently made. The Inspector in his examination of the boilers and machinery is particularly to direct his attention to the safety-valves, and whenever he considers it necessary, he is to satisfy himself as to the pressure on the boiler by actual trial. The Inspector is to examine the safety-valves, weights, and springs at every inspection.

(*f.*) The valve seats should be secured so that they cannot lift with the valve.

(*g.*) The spindle should be so attached to the valve, that when the spindle is lifted, the valve will also lift.

(*h.*) The size of the steel of which the spring is made in spring safety-valves is found by the following formula taken from the Imperial Board of Trade Rules :—

$$\sqrt{\frac{S \times D}{c}} = d.$$

$c = 8{,}000$ for round steel.
$c = 11{,}000$ for square steel.
$S =$ The load on the springs in pounds.
$D =$ The diameter of the spring (from centre to centre of the wire in inches).
($d =$ diameter, or side of square, of the wire in inches.)

The spring should be protected from the steam and impurities issuing from the boiler, and in case of the spring breaking means be provided to keep it in position on the valve.

(*i.*) A standard spring if made of the best square cast steel, contains ·25 of a square inch, the inside diameter is two inches, and the outside diameter is three inches, it has thirteen complete coils with the ends and is 11½ inches long. The working load is assumed at 600 pounds, one-sixth of its breaking load when hardened to a temper, just sufficient to break it, at which load it should deflect just one inch.

(*j.*) To find the sectional area of any other spring the pressure or weight on the valve being given :—

600 : 700 : ·25 : : ·29 = sectional area of spring at 700 pounds load. The other dimensions of the spring would be in like proportion, the number of coils thirteen being constant.

$$\frac{37{\cdot}5}{\text{Gross pressure}} = \text{Square inch of safety valve per square foot of grate.}$$

PART V.

Duties and Liabilities of Engineers.

Sec. **112**. (*a.*) Engineers are required in all cases upon stopping of the engine to open the safety-valves, so as to keep the steam in the boiler below the limit allowed by the Inspector's certificate as prescribed by law, to open the doors or close the dampers, and when from accident or other cause, the water in the boiler has fallen below the point of safety, to put out the fires immediately.

(*b.*) Engineers shall keep the fire pump and hose and their connections in perfect condition ready for immediate use, and when found unfit for use from age or other cause, shall report their condition to the Inspector of Hulls by whom the steamer was last inspected.

(*c.*) Engineers when laying up a steamer in the fall, or when finally leaving her, are required to report to the owner and also to the Inspector of the nearest district any defects of, or injury to, the boilers and machinery by which the safety of the same may be endangered. They shall also report to the Inspector of the district at which the steamer next arrives, any accident happening to the boilers

or machinery during the trip, and in case of omission to make such report, the license of the engineer so omitting shall be revoked.

(*d.*) The Chief Engineer of a steamer is held accountable by the Department of Marine for the proper care and management of the boilers and machinery under his charge. He is, therefore, in no case to absent himself from the vessel while on her regular trips, unless a competent substitute be provided to fill his place during his absence.

(*e.*) Engineers on first taking charge of a steamer, and at least once a year thereafter, shall satisfy themselves by close examination that the braces, stays and pins of the boiler are in good order, and sufficient for the strain to which they may be subjected; they shall also satisfy themselves that the safety-valves are in good working order and sufficient for the requirements of sections 65 and 110 of these regulations.

(*f.*) Engineers are to exhibit their certificates in the engine room along with a copy of these regulations when required to do so.

Management of Boilers.

Sec. **113**. (*a.*) Getting up steam.—Warm the boiler gradually. Steam should not be raised from cold water in less than four hours. If practicable light the fires over night. By getting up steam too quickly, the boiler will soon be destroyed.

(*b.*) Firing.—Fire regularly. Keep the sides up, and use the slice gently and as seldom as possible.

(*c.*) Feed water.—Let the feed be regular and constant.

(*d.*) Glass gauge and try cocks.—Keep the glass free and try the gauge cocks every fifteen minutes.

(*e.*) Safety-valves.—Lift each safety-valve at least once a day, and always before getting up steam.

(*f.*) Low water.—Put out the fires by drawing them or throwing ashes on them. Never use water. Low water should never occur.

(*g.*) Blowing off the boiler.—Do not blow off by steam pressure; let the water run off if possible. See that the fires are all out and hot ashes removed.

(*h.*) Boiler Purgers.—Never use any compositions to keep down incrustation, or oil or other impurities to remove it without the approval of the Chairman.

(*i.*) General Rules.—Keep the boiler clean inside and outside and free from leak. Never throw water in the furnace. Under high pressure, raise the safety-valve gently. Lower the fires, or, if necessary stop the engine (if in the master's opinion it can be done with safety to the vessel), when foaming, to find a water level.

PART VI.

Regulations Relating to the Examination of Engineers.

Fourth Class Engineers.

1. No person shall be entitled to a fourth class engineer's certificate unless he has the following qualifications, that is to say:

(*a.*) He shall be over twenty-one years of age.

(*b.*) He shall have served an apprenticeship of not less than thirty-six months in a steam engine shop, and been employed on the making and repairing of steam engines—or if he has not served such apprenticeship, he shall have been employed for not less than thirty-six months as a journeyman mechanic in some workshop, on the making and repairing of steam engines;—or

(*c.*) He shall have served at least thirty-six months in an engine room of a steamboat as engineer on the watch;—or

(*d.*) He shall have served not less than thirty-six months as oiler on the watch in the engine room of a steamer of not less than thirty nominal horse power;—or

(*e.*) He shall have served not less than forty-eight months as fireman on the watch in the firehold of a steamboat of not less than thirty nominal horse power;—

(*f.*) And in any of the above mentioned cases of service, twelve (12) months' service in a boiler shop on the making and repairing of steam boilers may be accepted in lieu of twelve months of the service named.

(*g.*) Service in the dual capacity of engineer and fireman, or oiler and fireman, will only be accepted as fireman service for fourth and not for any other class of engineer, if such service has been on engines of not less than three nominal horse power.

(*h.*) He shall be able to read, and write a legible hand.

(*i.*) He shall understand the construction and operation of the feed-water pump, water gauges and safety-valves; he shall know when a boiler is foaming, and how to stop the foaming, and also the dangers resulting from neglect to keep a boiler clean, and the usual methods of cleaning it.

Third Class Engineers.

2. No person shall be entitled to a third class engineer's certificate unless he has the following qualifications, that is to say:—

(*a.*) He shall be over twenty-one (21) years of age.

(*b.*) He shall have served an apprenticeship of at least thirty-six months in a steam engine shop employed in the making and repairing of steam engines,—or if he has not served such apprenticeship, he shall have been employed at least thirty-six months as a journeyman mechanic in some workshop, in the making and repairing of steam engines, and in either case shall also have served twelve months in the engine room of a steamboat, as engineer on the watch;—or

(*c.*) He shall have served forty-eight months at least in the engine room of a steamboat as an engineer on the watch;—

(*d.*) He shall be able to give a description of boilers and the methods of staying them, and shall know the means of repairing them, the method of lining the engine, setting the eccentrics and adjusting the valves, the cause of any derangement and the means of remedying it;—

(*e.*) He shall be able to read and shall write a legible hand, and understand the first five rules of arithmetic.

Second Class Engineers.

3. A second class engineer shall have qualifications as follows, that is to say:—

(*a.*) He shall be over twenty-one years of age.

(*b.*) He must have served an apprenticeship of not less than thirty-six months in a steam engine shop, and have been employed on the making and repairing of steam engines;—or if he has not served such an apprenticeship he must prove that for not less than thirty-six months he has been employed as a journeyman mechanic, in some workshop, on the making or repairing of steam engines,* in either case he must also have served at least twelve months in the engine room of a steamboat of not less than thirty nominal horse power, as an engineer on the watch;—or

(*c.*) He must have served at least forty-eight months in the engine room of a steamboat as engineer on the watch, at least twenty-four months of which shall have been on on a steamboat of not less than thirty nominal horse power.

(*d.*) He must be able to give a description of boilers, and the methods of staying them, together with the use and management of the different cocks, valves, pipes and connections.

(*e.*) He must understand how to correct defects from accident, decay, etc., and the means of repairing such defects.

(*f.*) He must understand the use of the barometer, thermometer, salinometer, and the principles on which they are constructed.

(*g.*) He must state the causes, effects and usual remedies for incrustation and corrosion.

(*h.*) He must be able to state how a temporary or permanent repair could be effected in case of derangement of a part of the machinery.

(*i.*) He must write a legible hand, and understand the first five rules of arithmetic, and decimals, and their application to questions about consumption of stores, and full capacity of tanks and bunkers, the duty of pumps, and the direct strains in engines and boilers.

(*j.*) He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use; as to the details of the various working parts, external and internal, and the use of each part.

First Class Engineers.

4. A candidate for first class engineer's certificate must be at least twenty-two years of age.

(*a.*) In addition to the qualifications required for a second class engineer, he must have at least twelve months' service in a grade not lower than second engineer on watch in the engine room, in a steamboat or in steamboats of one hundred nominal horse power or over, during which time he must have held a second class engineer's certificate of competency.

(*b.*) He shall be competent to calculate the thickness of plates for a boiler of given dimensions to carry a fixed pressure of steam per square inch, also the pressure a boiler may be allowed as a working pressure, its dimensions, stays and other parts, method of construction and thickness of plates being given.

(*c.*) He shall be able to calculate the direct strain, the twisting strain, and the bending strain in rectangular bars, and in round bars with given loads. The required capacity of the feed pump, and the area of the safety-valves for a boiler of given dimensions, and the power of the engine from an indicator diagram of its work.

---

*No period of service in a drawing office of over six months can be allowed to count for workshop service.

(*d.*) He shall know the relative volumes of steam at different temperatures and pressures, the chemical constituents of coal, and the quantity of air required for its combustion.

(*e.*) He must have a knowledge of surface condensation, superheating and the working of steam expansively.

(*f.*) He must be able to explain the operations of the engine, and to make a working drawing of any of its parts.

(*g.*) His knowledge of arithmetic must include the extraction of the square root, and the mensuration of superficies and solids.

Applications for examination are to be made to the Board of Steamboat Inspection, or to the Inspector of the division where the candidate resides, the application to be made on forms furnished for that purpose by the Inspector, and to be accompanied with proofs of service, and testimonia's as to sobriety, experience and ability, and to character, and to general good conduct for at least the twelve months immediately preceding the date of application to be examined. If the service has been on shore the testimonials must be signed by an employer; if at sea by the master and chief engineer; if not so signed satisfactory reasons must be given the examiner, who will not accept proofs of service or testimonials which are not entirely satisfactory.

Engineers who from any cause have had their certificates cancelled will be re-examined before they are again allowed to hold a certificate of the same grade. Upon their passing the examination a new certificate will be issued to them. The Minister of Marine may, however, in special cases, upon report of the Board of Steamboat Inspection, if the circumstances warrant it, dispense with the re-examination.

Any engineer who held an engineer's certificate previous to the year 1886, of the second or third class, may receive a certificate from the Minister of the same grade, on passing an examination similar to his first examination before the Board of Steamboat Inspection, if the said Board, or the Chairman thereof, is satisfied that his character, habits of life, knowledge and experience in the duties of an engineer, are such as to qualify him to be such engineer, and provided that the said Board, or the Chairman thereof, so reports to the Minister, specifying the grade of certificate he is to receive, and for such certificate he shall pay a fee of $5.

SERVICE REQUIRED FOR SECOND OR FIRST CLASS ENGINEERS' CERTIFICATES VALID IN THE UNITED KINGDOM.

Engineers possessing first and second class Canadian certificates, who passed examinations equal to the examinations at present in force in the United Kingdom, and who are desirous of exchanging their certificates for the same grade certificate valid in the United Kingdom, may apply to the Chairman or an Inspector for examination in regard to sea service, sobriety, character, colour tests, ability and hearing. If successful in passing the examination, a certificate valid in the United Kingdom may be issued free of charge.

Candidates for second or first class Canadian (Engineers') certificates valid in the United Kingdom, will be required to pass examinations equal to the examinations in the United Kingdom.

The service required, proof of which the examination papers of the applicant must exhibit, is as follows:—

Second Class Engineers' Certificates Valid in the United Kingdom.

1. 36 months' workshop service making and repairing steam engines, together with
   12 months' service as engineer on the watch in the foreign trade,—or
2. 36 months' workshop service making and repairing steam engines, together with
   18 months' service as engineer on the watch in the coasting trade,—or
3. 36 months' workshop service making and repairing steam engines, together with
   18 months' service as engineer on the watch in the lake or river trade, and
   3 months' service as engineer on the watch in actual sea service,—or
4. 48 months' service as engineer on the watch in the foreign trade,—or
5. 72 months' service as engineer on the watch in the coasting trade,—or
6. 90 months' service as engineer on the watch in the lake or river trade, with
   3 months' service as engineer on the watch in actual sea service

First Class Engineers' Certificates Valid in the United Kingdom.

1. In addition to the qualifications required for a second class engineer, the candidate must have had at least 12 months' sea service as engineer on the watch in the engine room of a steamship of not less than 100 nominal horse power, during which time he must have been in possession of a second class engineer's certificate of competency;—
2. Or he must have served at least 18 months as engineer on the watch in a steamship engaged in the coasting trade of not less than 100 nominal horse power, and have been possessed of a second class engineer's certificate of competency during that time;—
3. Or he must have served 12 months as first, or only engineer on a lake or river steamer having an aggregate piston area of not less than 2,000 circular inches, in addition to which he must have had at least 6 months' actual service at sea as engineer on the watch, during all of which time he must have been in possession of a second class engineer's certificate of competency.

Interpretation.

"Lake or river service" refers to service on the inland waters which must have been performed in a capacity not lower than 3rd engineer on a steamer having an aggregate piston area of not less than 2,000 circular inches, 2 months of such service being considered only as equivalent to one month's actual sea service.

"Coasting trade" refers to service in steamships plying between any port or place in Canada and any other port or place in Canada, not being a port or place on the inland waters. Service in the coasting trade must amount to half as much again as service in the foreign trade.

"Workshop service" refers to an apprenticeship to an engineer, or as a journeyman mechanic employed in a factory, or workshop, making and repairing steam engines.

"Engineer on the watch" refers to the actual charge of the propelling engines, responsible for the bells, and in a capacity which affords opportunity of obtaining practical experience as an engineer. Service in the capacity of greaser or fireman will not be accepted.

"Sea service" or "foreign trade" refers to service in steamships engaged in the foreign sea trade, and plying between some port or place in the Dominion and some port or place outside the Dominion, not being a port or place on any of the inland waters.

PART VII.

Inspection of Hulls and Equipment of Steamboats Carrying Passengers.

Sec. **1**. Inspectors of Hulls, before granting a passenger certificate, must be satisfied that the following particulars have been complied with, in accordance with the requirements of the Act relating to steamboat inspection:—

(*a.*) That the hull of the vessel is sufficient for the service intended, and in good condition.

(*b.*) That the boats, life-preservers, buoys, lights, signals and compasses are in good condition, and the certificates of the master and mate, or mates, are such as are required by the said Act.

(*c.*) The time (if less than 12 months) for which the said hull will be deemed sufficient.

(*d.*) The limits (if any) beyond which, as regards the hull and equipments, the vessel is, in the Inspector's judgment, not fit to ply.

(*e.*) The number of passengers, besides the crew, the vessel is allowed to carry, distinguishing, if necessary, between the respective numbers to be carried on the main deck and upper deck.

Sec. **2**. (*a.*) Inspectors shall make their inspections when the owner, or master, and engineer of the vessel are present, if possible. Repairs can then be required, and defects can be pointed out to the proper persons without incurring delay. If these persons are not present, the Inspectors will make their inspection without them.

(*b.*) In order to prevent any mistakes as to the nature and extent of repairs required by the Inspectors, whenever they can not give a certificate until the repairs are effected or alterations made, a written statement of the defects to be be remedied or alterations required, shall in all cases, be handed to the owner or master of the vessel, whether such statement is applied for by him or not, a copy of which should be always taken and transferred to the office press letter book.

(*c.*) If any difference of opinion arises between the Inspector and the owner or master, the facts should at once be submitted to the Chairman of the Board of Steamboat Inspection for consideration, and for reference to the Minister of Marine and Fisheries, when necessary.

Sec. **3**. If a vessel usually plying in one district, is taken to another district to be inspected, the Inspector

in the latter district shall not give a certificate without first communicating with the Inspector for the former district; nor, if there is any difference of opinion, without referring the question to the Chairman aforesaid for decision.

Sec. 4. It is the duty of the Inspector of Hulls to satisfy himself personally upon every detail of the inspection of a vessel, and not to trust to any certificate, or other document given by any person not responsible to his Department, who will hold him responsible to the fullest extent for the performance of the duty entrusted to him, and will support him in any reasonable step he may think necessary, in order to the fullest performance of his duty.

Sec. 5. In case the Inspector has reason to believe that the hull or equipment is not fit for so long a time as twelve months, he is to grant his certificate for such shorter period as he may deem proper, informing the owners of his reasons for so doing.

Sec. 6. It is most desirable that an Inspector should complete the inspection of a vessel in every detail when he has commenced it; and, if possible, arrangements should always be made with the owners to secure this. Delays and inconveniencies may be prevented, if notice is given by owners when the vessel is ready for inspection, and her equipment in place on board. An Inspector should not sign a certificate for any detail which he has not inspected, and for which he is not prepared to hold himself personally responsible.

Sec. 7. Every person who knowingly and wilfully makes or assists in making, or procures to be made, a false or fraudulent certificate with respect to any steamboat, or who forges or assists in forging, or procures to be forged, fraudulently alters or assists in fraudulently altering any certificate required by the Steamboat Inspection Act, or any words or figures in any such certificate or any such certificate or any signatures thereto, is guilty of a misdemeanour.

Sec. 8. A certificate for twelve months shall not be granted, whenever the Inspector has any doubts whatever, as to the efficiency of any part of the vessel or equipment for such period.

Sec. 9. Inspectors shall determine whether hulls of passenger steamers are in good condition and fit for the service for which they are intended; and shall examine the hulls outside and inside, once a year if possible, or oftener, and at such a time as is most convenient to the owner.

Sec. 10. New steamboats should be inspected before painting or completion, but any such inspection is not to interfere with the complete inspection of hull and equipment, after completion, the object being to form an opinion of the workmanship, material and construction.

Sec. 11. When a steamboat which has been inspected for a passenger certificate, is not in every respect in good condition, although the defects may not be sufficient to warrant the withholding the certificate, and although the vessel may be practically fit for the service intended, the Inspector should, when he grants the certificate, forward to the Chairman aforesaid a report showing the nature of the defects in question.

Sec. 12. For examining the internal parts of a passenger steamboat, the Inspector shall, if he considers it necessary, have parts of the ceiling removed, in order that he may ascertain the condition of the hull, frames, floors, &c., particularly in the engine room and boiler space, and also in the coal bunkers, they being empty.

Sec. 13. The date of the last inspection shall be entered in an office inspection book with particulars of the condition of the hull at that time, with approximate sketches of the midship section, showing the form, build, and dimensions of the vessel, and parts, sufficiently to judge of her shape and strength. Any question or doubt as to the strength of the vessel for the route on which she is placed, should be referred to the Chairman aforesaid.

Sec. 14. The height of the coamings around all openings in main deck, and the means provided for securely protecting or fastening down all skylights, bunker openings, &c., are important items to be noticed by the Inspector in steamboats subject to heavy seas. All gangways and openings, on, or below weather deck, should be fitted with covers in such a manner that they can be quickly and efficiently secured. Hatch covers should be provided with means for effectually securing them down. Grating and hatch covers must be kept and secured in a suitable place, at all times accessible, and near to the openings for which they are intended.

Sec. 15. All boats should be hung on the davits and kept ready for service at any moment. Inspectors should see that in all boats the full complement of oars is provided, that each boat has two plugs to each plug hole, attached with lanyards or chains, and one set and a half of thole pins or crutches attached to the boat by sound lanyards, a bailer, a rudder and tiller or yoke and yoke lines; a painter of sufficient length and a boat hook. The rudder and bailer shall be attached to the boats by sufficient long lanyards and ready for use; means for speedily detaching the boats from the lower blocks of the davit tackles should be insisted upon. An ordinary fixed hook in the lower block shipped into fixed eye in the boat should not be allowed.

Sec. 16. Inspectors should see that the davits are strong enough, that they are so spaced that the boat can be swung out without unnecessary labour; that the boat chocks can be expeditiously removed, and that the boats will not foul the ship's sides when lowering, when the ship has no list. The whole of the tackling, including the davits, equipment and crew falls, blocks, eye-bolts and rings, &c., shall be of sufficient strength to lower the boat with its full equipment and crew on board. The davit tackle falls must be long enough to lower the boat into the water, when the vessel is light. Life lines should be fitted to the davits long enough to reach the water when the vessel is light, and allowance made for the extreme roll of the vessel.

Sec. 17. Inspectors will refuse a certificate in cases in which these instructions are not carried out, but it is to be left to the owners of passenger steamboats to furnish such methods as they please for lowering boats so long as the intention of the Act is complied with. Any unusual or doubtful method of lowering boats must be submitted to the Board of Steamboat Inspection for its consideration and approval before it is passed. All boats should be lowered into the water at every inspection.

Sec. 18. Life-buoys with lines attached should be secured by a toggle or becket, or any other similar method, so that they may be quickly released. They must not be lashed or seized to the rail or any other part of the vessel, but must be kept so as to be ready for use at a moment's notice in case of emergency. Life-buoys and jackets shall be carefully examined when inspecting the vessel to see that the materials of which they are composed have not become sodden and that the lines attached to them are of sufficient length, serviceable and in good order.

Masts and Sails and Gangboards.

Sec. 19. Section 54 of "The Steamboat Inspection Act" empowers the Minister of Marine and Fisheries to require steamships above sixty tons registered tonnage, carrying passengers on the sea-coasts of the Dominion or on any, or on all the waters of the Dominion, with certain exceptions, to be provided with a mast or masts and sail or sails, suitable for such steamboat; and to prescribe the dimensions of such mast or masts, and sail or sails respectively.

Sec. 20. Inspectors of hulls when inspecting passenger steamboats employed on the sea-coast, or on the great lakes of the Dominion, are to see that they are fitted with sufficient sail power to enable them to steer in the event of their machinery becoming disabled All such sails must be examined by the Inspector, who must be assured of their efficiency, as also with that of the standing and running gear at every inspection, and in any case of doubt to apply to the Chairman.

Sec. 21. Inspectors shall see that suitable and safe gangboards are provided with means for securing them safely at both ends.

Sec. 22. In the first inspection of a steamboat employed on the sea coast or on the great lakes of the Dominion, whether built of iron or wood, the Inspector shall require the compasses to be properly adjusted, or verified by a competent person, selected by the owner, whereupon such competent person shall grant a certificate to the owner to the effect that the compasses of the ship are properly adjusted, and a table of errors shall be furnished and handed by the owners to the Inspector before he gives the certificate of inspection.

Sec. 23. Inspectors of hulls shall see that the deck pumps, whether worked by hand or steam, are properly placed, sufficient in number, and that provision is made to get at the end of the suction pipes in case of fouling. No deck pump shall be passed which requires charging by hand before taking suction. When such is found to be the case, the Inspector shall insist upon proper provision being made to make the pump efficient at all times. Fire hose should be stretched to their length and thorougly examined and tried under pressure from the pumps at least once a year, and at any other time the Inspector may deem necessary. The hose should be connected with the pumps for immediate use.

Sec. 24. A spare tiller shall be provided, with relieving tackles, to be kept near the after-steering gear, ready for immediate use on sea-going steamers and steamers on the great lakes. The steering gear shall be inspected and thoroughly examined at least once a year.

Sec. 25. Inspectors of hulls must be careful to see that every sea-going steamer, subject to the Act, and every steamer employed on the great lakes, is provided with suitable chain cables, anchors and ground tackle, in good condition sufficient for the service in which the vessel is employed, and that the cable is removed from the lockers at least once in a year and cleaned, if necessary, and the pins knocked out of the shackles.

Sec. 26. (*a*.) Inspectors of hulls shall keep an office register book for new steamers in which they shall enter particulars of their registration, official number, name, port of registry, dimensions, tonnage, ownership, and names of

masters; also a general description of build, showing a sketch of the midship section, giving sizes of frames, planking, deck beams, clamps, knees, covering boards and fastenings, as the case may be, sufficient to judge of the vessel and the fitness for the route on which it is to be placed. A description of the upper works on passenger steamers shall also be given stating how the same are secured to the hull, and what provision is made against rolling in a heavy sea.

(*b.*) The trim of the vessel, light and loaded, shall be shown on the sketch of the midship section.

(*c.*) The fitness of the boats and other equipments for saving life, whether sufficient for the number of passengers the steamer is allowed to carry, together with the crew on the route she is to be placed, shall also be given in the said particulars. A copy of these particulars in full made out neatly on foolscap paper shall be sent to the Chairman of the Board of Steamboat Inspection and shall be filed for reference in the office for the information of the Department of Marine.

Sec. **27.** (*a*). Each Inspector of hulls will also keep an office docking book, in which he shall enter the date of last docking of each steamer inspected by him, with particulars of repairs made upon her; also memoranda of her last inspection, as made by him; the condition in which he then found the hull and equipment; with copy of any correspondence between the owner and master, relating to any repairs, fittings, equipment, or other things which may require proof, in the event of their not having been complied with.

(*b.*) Inspectors of hulls shall not consider their duty as finished, in respect to a steamboat for which they have granted a certificate for a year or any shorter period, but are expected by the Department to have supervision over all steamboats subject to the Act, within, or coming within their district. Should any infractions of the law on the part of an owner or master of steamboats come to the knowledge of an Inspector, whereby the safety of life or property is endangered, it will be his duty at once to cause steps to prevent such occurrence by reporting the case to the Department of Marine, with the grounds of the complaint.

Passengers.

Sec. **28.** (*a*) The number of passengers allowed on passenger steamers may be found, by multiplying the length, by the breadth of the vessel at the water line, and dividing the product by a factor of safety, according to the class of vessel, thus:—

For ocean steamers the factor shall be.....	10
For ocean coasting steamers....................	10
For steamers navigating in the great lakes.	9
For lake coasting, harbour, river ferry and excursion steamers...	6

(*b*) No deviation shall be made from this regulation unless with the consent of the Chairman of the Board of Steamboat Inspection and with the approval of the Minister of Marine and Fisheries.

(*c.*) In excursion steamers carrying passengers within the hold of the vessel, the limit shall be at the discretion of the Inspector, but in no case shall exceed as many as can find accommodation.

(*d.*) These factors may be increased to a further limit, if from age or unfitness, the vessel is not considered safe for the carriage of so many passengers

Sec. **29.** The carrying capacity in the number of persons of yawl boats shall be determined as follows, viz.:—

By multiplying the length of the keel by the breadth and by the depth from top of keel to gunwale in feet, and then dividing the product by 10, the quotient will be the number of persons allowed to each boat.

Life-boats and their Equipments.

Sec. **30.** (*a.*) Life-boats shall be built whale-boat fashion; they should have a shear of about ¾ inch to a foot, rising equally from amidship to the stem and stern, and to have sufficient strong serviceable air-tight compartments so constructed, fitted and arranged that water can not find its way into them.

(*b.*) The life-boat must be substantially constructed of galvanized iron of not less than No. 18 wire gauge in thickness.

(*c.*) Zinc shall not be used in the construction of a life-boat or in her air-casings.

(*d.*) The air-tight compartments must be so distributed as to give the boat good buoyancy and stability. Whether a part of the air-case should be under the thwarts, or whether they should be in the ends and along the sides, will be, so long as an efficient life-boat is obtained, left to the option of the owner.

(*e.*) Spaces filled with or containing any material are not to be deemed air spaces.

(*f.*) A square stern boat is not to be passed as a life-boat.

(*g.*) Life-lines shall be suitably attached to the gunwale of the life-boat.

(*h.*) The life-boat must be provided with the full complement of oars properly secured; two plugs for each plug hole, attached with lanyards or chains, a bailer, rudder and tiller, also attached to the boat by lanyards; a hatchet, attached with a lanyard, shall be kept in each end of the boat, and a painter and a boathook.

(*i.*) Means for detaching speedily the life-boat from the lower blocks of the davit tackles must be provided. An ordinary fixed hook in the lower block should not be allowed. The boat's davits must be strong enough and so spaced that the boat can be swung out without unnecessary labour, so that the boat chocks can be expeditiously removed, and the boat will not foul the ship's sides in lowering when the ship has no list; and that the whole of the tackling davits, falls, blocks, eye-bolts, and rings, &c., are of sufficient strength to lower the boat with its full complement on board.

Rate or Duty.

Sec. **31.** The following rate or duty shall be paid by the owner or master of every steamboat in Canada, under the provisions of the 46th section of chapter 78 of the Revised Statutes of Canada:

The rate of duty to be paid yearly by owners or masters of steamboats, shall be eight cents for every ton gross each steamboat measures.*

* Note.—This rate was established on the 1st October, 1889.

RULES AND REGULATIONS

RESPECTING THE INSPECTION OF BOATS, LIFE-PRESERVERS AND OTHER LIFE-SAVING APPLIANCES, TO BE CARRIED ON STEAMBOATS OR OTHER VESSELS, UNDER THE AUTHORITY OF THE STEAMBOAT INSPECTION ACT AND AMENDMENTS THERETO.

Boats.

Sec. 1. The following provisions shall be observed with respect to boats to be carried on steamboats:—

(*a.*) No steamboat with passengers on board shall proceed to sea from any port or place in Canada, or depart from any port or place, or ply on any of the Lakes St. John, Memphremagog, Ontario, Erie, Huron or Georgian Bay, Simcoe, or Superior, or on the River St. Lawrence, or on the Rivers Ottawa or St. John, or any lake or river in Manitoba, British Columbia, or the North-west Territories, or the District of Keewatin, which is at any point on the route of such steamboat, more than one mile broad;—

(*b.*) Unless there are on board thereof, or attached to such steamboat, good, suitable, sufficient and properly equipped boats in good condition, each having not less than seventeen feet length of keel, and at least six oars and other necessary tackle, and sufficient capacity to carry not less than twelve adult persons, exclusive of the crew of such boat;

Which boats shall be in the following proportion to the registered tonnage of such steamboat, that is to say:—

At least one boat for every steamboat of less than fifty tons;

At least two boats for every steamboat of fifty tons and upwards, but less than (300) three hundred tons;

At least three boats for every steamboat of three hundred tons and upwards; and

(*c.*) If such steamboat is of the registered tonnage of one hundred tons or upwards to (300) three hundred tons, unless, in addition to the boats hereinbefore required, there is on board thereof or attached thereto,—

One good and sufficient life-boat capable of sustaining inside thirty persons, which life-boat may be considered of sufficient capacity if made of the following dimensions: Length of keel, twenty-two feet; breadth of beam outside, five feet six inches; depth from top of keel to top of gunwale at bottom rowlock, two feet nine inches; or

Two good and sufficient life-boats, each capable of sustaining inside twenty persons, which life-boats may be considered of sufficient capacity if made of the following dimensions: Length of keel, eighteen feet; breadth outside, five feet two inches; depth from top of keel to top of gunwale, two feet two inches.

(*d.*) If such steamboat is of the registered tonnage of (300) three hundred tons or upwards to six hundred tons or upwards (when the life-boats may be increased to the satisfaction of the Inspector), unless in addition to the boats hereinbefore required there is on board or attached thereto,—

Two good and sufficient life-boats, capable of each sustaining inside thirty persons, or four good and sufficient life-boats capable of each sustaining inside twenty persons, each to be at least of the dimensions described in (*c*).

Sec. 2. Every life-boat shall be made of suitable metal, in thickness not less than No. 18 wire gauge, or of wood, and built whaleboat fashion, with a shear of about ¾ inch

to 1 foot length from midships, rising equally to the stem and stern, with sufficient air-tight compartments in the ends and sides made of suitable metal or of wood, and so constructed as to be air-tight and serviceable, the air-tight compartments to have a capacity in cubic feet of one-tenth the capacity of the life-boat, which is found by multiplying the length and breadth outside and the depth inside from bottom of rowlocks or top of gunwale in feet, and by ·6, the result equals the cubic feet required in the inside and outside compartments, about one-half of which should be on the outside; and dividing by 10, gives the number of persons the life-boat shall be deemed fit to carry. Solid cork may be used instead of air-tight compartments on the outside, 1·25 cubic feet of cork being considered equal to 1 cubic foot of air case.

(*a.*) Zinc shall not be used in the construction of a life-boat or of her air-tight compartments, which must be of a metal approved by the Board of Steamboat Inspection, or by the Chairman.

(*b.*) The air-tight compartments must be so distributed as to give the boat good buoyancy and stability; whether a part of the air-tight buoyancy apparatus should be under the thwarts, or whether it should be in the ends and along the sides, will be so long as an efficient life-boat is obtained, left to the option of the maker or owner, but the Inspector must be satisfied that the life-boat is efficient.

(*c.*) Spaces filled with or containing any material are not to be deemed air spaces.

(*d.*) A square stern boat is not to be passed as a life-boat.

(*e.*) Suitable life-lines with sustaining buoys shall be securely attached to the sides or gunwales of the life-boats.

Sec. **3**. The life-boats must be provided with the full complement of oars, one for each rowlock, and two spare oars, all securely lashed inside ready for use.

(*a.*) With two plugs for each plug hole, attached with lanyards or chains, and one and one-half sets of thole pins or crutches attached to the boat by lanyards and ready to slip in place.

(*b.*) With a sea anchor, a rudder and tiller, or yoke and yoke lines, a painter of sufficient length to reach from the davits to the boat in the water and to tow her, a bailer, a hatchet in each end of boat, and a boat hook, each attached to the boat with a good sound lanyard.

(*c.*) If the steamboat is plying at sea (on salt water) a vessel must be kept in each boat filled with fresh water, (and at least one life-boat must be fitted with a mast or masts, and sail or sails and proper gear for each), and an efficient compass and one gallon of vegetable or animal oil, and a vessel or apparatus of approved pattern for distributing it on the water in rough weather, and with a lantern trimmed with oil in its receiver sufficient to burn eight hours.

(*d.*) Means for detaching quickly the life-boat from the lower blocks of the davits must be provided, an ordinary fixed hook in the lower block should not be allowed, the boat's davits must be strong enough and so spaced that the boat can be swung out readily, so that the boat's chocks can be readily removed, and that the boat will not foul the ship's sides in lowering when the ship has no list, and that the whole of the tackling, davits, falls, blocks, eye-bolts, and apparatus are of sufficient strength to lower the boat with its full complement of crew and apparatus on board.

Sec. **4**. Every boat shall be kept in good condition, water-tight and ready for immediate use; when wood is used as fuel for heating the boilers of high-pressure (non-condensing) steamboats, the covers of such boats shall be made of wood covered with zinc; and every boat shall have the name of the steamboat to which it belongs, and the name of her port of registry, legibly painted on her bows and stern.

Sec. **5**. Every such steamboat shall be provided with sufficient means for lowering from on board safely and expeditiously the boats hereinbefore required to be on board of or attached to such steamboat; and masters of steamboats shall detail their crews and exercise them in lowering and handling the said boats, and life-boats at least once a week, alternately.

Sec. **6**. Every such boat shall be hung in separate davits, with lowering apparatus complete and ready for instant lowering; provided, that in any case where any such steamboat carries two lifeboats, one of the other boats may be carried on the hurricane deck without davits.

Sec. **7**. No steamboat employed chiefly in the carriage of freight, when carrying not more than twenty-five passengers, shall be required to have on board or attached to such steamboat more than two boats in addition to a life-boat.

Sec. **8**. The Minister of Marine and Fisheries may authorize the use in individual, specified cases, of a greater or less number of boats, or of different dimensions from those hereinbefore specified, and upon such authorization being granted, it shall be sufficient for any such steamboat to carry and be provided with boats of the dimensions specified in such authorization.

Sec. **9**. Steamboats confined to the navigation of the River St. John above Fredericton, the waters in the district of Muskoka, the County of Victoria, and the County of Peterborough, in the Province of Ontario, and the waters of the Ottawa River and its tributaries above the City of Ottawa, or of lakes or rivers not exceeding one mile in width at any point on the route of such steamboat, and which are employed in the carriage of passengers, shall carry at least one good boat provided with four oars, and of sufficient capacity to carry not less than twelve persons besides the crew.

Sec. **10**. Every steamboat employed in the carriage of passengers, and used only in the navigation of rivers or inland waters, other than the rivers and inland waters hereinbefore provided for, shall, if such steamboat exceeds one hundred and fifty tons registered tonnage, carry at least two good boats provided with four oars each, and of sufficient capacity to carry with safety at least twelve persons besides the crew; and if such steamboat does not exceed one hundred and fifty tons and is not less than fifty tons registered tonnage, she shall not be required to carry more than one such boat; and if such steamboat is less than fifty tons registered tonnage, she shall carry one good boat of the size and description, and provided in the manner approved of in each case by the Inspector.

Sec. **11**. Every steamboat not employed in the carriage of passengers, and every steamboat to which the foregoing provisions of this section do not apply, shall at all times, when the crew thereof is on board, be provided with and have on board or attached to such steamboat in some convenient place a good, suitable and sufficient boat, or good, suitable and sufficient boats, in good condition and properly equipped, and provided with oars in sufficient number and other necessary tackle, and of sufficient capacity to carry all the crew of such steamboat, and with sufficient means for lowering such boat or boats from on board safely and expeditiously.

Sec. **12**. The carrying capacity in the number of persons of boats shall be determined by multiplying the length of keel by the breadth outside, and by the depth from top of keel to bottom of rowlock in feet, and divide by 10, the quotient being the number of persons allowed to each boat.

Life-Rafts and Life-Buoys.

Sec. **13**. Life-rafts must be approved by the Board of Steamboat Inspection before the number of persons they may be allowed to carry can be determined, provided that not less than three cubic feet of strong serviceable inclosed air-tight compartments, constructed so that water cannot find its way into them, shall be the amount of air space to each person carried on the raft.

Sec. **14**. Approved buoyant apparatus must not require to be inflated before use, shall be of approved construction and marked in such a way as to plainly indicate the number of adult persons it can carry.

The buoyancy of such apparatus for the number of persons to be carried may be ascertained by dividing the number of pounds of iron it is capable of supporting in fresh water by 32.

Sec. **15**. An approved life-buoy may be built of solid cork capable of floating in the water for at least 24 hours with 32 pounds of iron suspended from it; or—

(*a.*) A strong life-buoy of any other approved pattern and material, provided that it is capable of floating in the water for at least 24 hours with 32 pounds of iron suspended from it, and provided that it is not stuffed with rushes, cork shavings or other shavings, or loose granulated cork or other loose material, and does not require inflation before use. There must not be a less number than two life-buoys on each passenger steamboat carrying by law two boats, with good line of suitable length attached to each buoy and kept at all times ready for instant use.

(*b.*) The air cases for life-rafts are not to exceed the length approved by the Board (four feet), with hooked, hammered and soldered joints, or riveted, and if made of iron to be galvanized, to be substantially inclosed with wood to be close jointed.

The covering of the air cases in boats should be fastened with brass screws so they can be readily taken off to examine the air cases.

Collapsible boats may be used if approved by an Inspector, with the consent of the Chairman.

Sec. **16**. No new pattern of or material in life-boats, life-rafts or life-buoys is to be passed unless approved by the Board of Steamboat Inspection.

Life-Preservers.

Sec. **17**. No steamboat carrying passengers shall proceed to sea from any port or place in Canada, or depart from any port or place, or ply on any of the Lakes St. John, Memphremagog, Ontario, Erie, Huron, Georgian Bay, Simcoe, or Superior, or on the River St. Lawrence, or on the Rivers Ottawa or St. John, or on any lake or river in Manitoba, British Columbia or the North-west Territories, or the District of Keewatin, which is at any point on the route of such steamer more than one mile broad, or shall navigate any bay or arm of the sea in Canada, unless she is provided with and carries on board thereof on every such voyage,—

(*a.*) Two hundred life-preservers (life-belts), if such steamboat is of the registered tonnage of two hundred

tons and upwards; or one hundred life-preservers, if of the registered tonnage of one hundred tons and upwards to two hundred tons; and if less than one hundred tons, such steamboat shall be provided with and shall carry on board thereof on every voyage fifty life-preservers.

Sec. **18**. Every steamboat carrying passengers on rivers or inland waters other than the lakes and rivers provided for in the next preceding section, if of the registered tonnage of two hundred tons and upwards, shall be provided with and shall carry on board thereof on every voyage, not less than one hundred life-preservers, and if of less than two hundred tons registered tonnage, such steamboat shall be provided with and shall carry on board thereof on every voyage fifty life-preservers.

Sec. **19**. Provided always, that no steamboat shall be required to carry life-preservers in excess of the number of passengers she is licensed to carry, and the maximum number of such life-preservers required on any steamboat shall not exceed two hundred; but in any steamboat, as to which the boat capacity and the number of life-preservers together, fall short of the number of passengers she is allowed to carry by her certificate of inspection, such deficiency shall be supplied by a number of wooden floats, each equal in buoyancy to one cubic foot of seasoned white pine, equal to the number of passengers and crew, not provided for in the boats, together with the life-preservers.

Sec. **20**. No steamboat employed chiefly in the carriage of freight, when carrying not more than sixty passengers, shall be required to be provided with or carry on board on any voyage, more than one life-preserver for each passenger, and one life-preserver for each of the crew then on board of such steamboat.

Sec. **21**. Every steamboat not employed in the carriage of passengers, and every steamboat to which the preceding sections 17, 18, 19 and 20, do not apply, shall, at all times when the crew thereof is on board, be provided with a life-preserver for each one of the crew.

Sec. **22**. Each of such life-preservers (life-belts) shall be capable of floating in fresh water for 24 hours with 15 pounds of iron suspended from it. It should be cut out 2 inches under the arm pits, and fitted and secured so as to remain securely in its place when put on, with shoulder straps and waist belt, or by other means approved by the Inspector. When any other material than solid cork is used for buoyancy it must first be specially approved by the Board of Steamboat Inspection, and the life-preservers (life-belts) shall at all times be kept in convenient and accessible places in the state rooms or on the deck of such steamboat, under cover and in readiness for immediate use.

Sec. **23**. A cork jacket with shoulder straps and waist lines for fastening the same around the body, or such other description of life-preservers as the Governor in Council may approve, shall be the form of life-preserver to be used on passenger steamboats.

Passenger Barges, Towed.

Sec. **24**. Any barge, boat, bateau, scow, or undecked vessel having passengers on board, towed by a tug, before being granted a certificate of inspection, must be equipped with a boat or boats, life-preservers, life-buoys, and life-rafts, or any or all of the equipment named herein in addition to the equipment named in section 9 of the Act of The Parliament of Canada, intituled: *An Act further to amend the Steamboat Inspection Act*, and assented to on 10th May, 1892, to the satisfaction of the Steamboat Inspector who inspects her, who shall require her to be equipped with suitable life-saving equipment for the waters on which she is to ply, as well as suitable private conveniences or closets for the use of the passengers.

(*a*.) The boats and boat equipment required must not be less than specified in section 1 (*b*) of these rules, and in order to have the capacity required to carry twelve adult persons with the crew, or seventeen persons in all, on 17 feet length of keel must be 5 feet beam, by 2 feet depth, the capacity being found by multiplying length, breadth and depth, and dividing by 10.

E. ADAMS,
Chairman Board of Steamboat Inspection

RULES RELATING TO THE INSPECTION OF STEAMBOAT SHAFTS.

Shafts.

4. Main, tunnel, propeller and paddle shafts should not be passed if less in diameter than that found by the following formulæ, without previously submitting the case to the Chairman of the Board of Steamboat Inspection.

For compound condensing engines with two or more cylinders, when the cranks are not overhung:—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{f\left(2 + \frac{D^2}{d^2}\right)}}$$

$$P = \frac{f \times S^3}{C \times D^2}\left(2 + \frac{D^2}{d^2}\right)$$

Where S = diameter of shaft in inches.

Where d^2 = square of diameter of high pressure cylinder in inches or sum of squares of diameters, when there are two or more high pressure cylinders.

Where D^2 = square of diameter of low pressure cylinder in inches or sum of squares of diameters, when there are two or more low pressure cylinders.

Where P = absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.

Where C = length of crank in inches.

Where f = constant from following table.

NOTE.—Intermediate pressure cylinders do not appear in the formulæ.

For ordinary condensing engines, with one, two, or more cylinders, when the cranks are not overhung:—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{3 \times f}}$$

$$P = \frac{3 \times f \times S^3}{C \times D^2}$$

Where S = Diameter of shaft in inches.
D^2 = Square of diameter of cylinder in inches, or sum of squares of diameters when there are two or more cylinders.
P = Absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.
C = Length of crank in inches.
f = Constant from following table:—

TABLE.

For two Cranks. Angle between Cranks.	For Crank and Propeller Shafts f		For Tunnel Shafts. f
90°	For paddle engines of ordinary type multiply constant in this column suitable for angle of cranks by 1·4.	1,047	1,221
100°		996	1,128
110°		904	1,055
120°		855	997
130°		817	953
140°		788	919
150°		766	894
160°		751	877
170°		743	867
180°		740	864
For three Cranks 120°.		1,110	1,295

NOTE.—When there is only one crank the constants applicable are those in the table opposite 180°.

RULES RELATING TO THE TESTING OF NEW ENGINES ON PASSENGER STEAMBOATS.

In the case of new engines on passenger steamboats, Inspectors should see them tested while under way, with full steam, in order to assure as far as possible that no flaws in the several parts of the engine have escaped the examination made by the Inspector, as provided by Section 15 of the Act 49 Vic., chap 78.

[1207]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 1st day of April, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of The Steamboat Inspection Act, chapter 78 of the Revised Statutes, and amendments thereof, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that notwithstanding anything to the contrary contained in the existing rules and regulations for the inspection of steamboats and

examination of steamboat engineers established by the Order in Council of the 1st April, 1896,—the Order in Council of the 20th February, 1892, which permits boilers constructed before the 1st of June, 1891, to be inspected according to the rules and regulations in force at the time such boiler was completed, shall be, and the same is hereby declared to be, confirmed and continued in force.

JOHN J. McGEE,
44-4 Clerk of the Privy Council.

[1358]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 21st day of April, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in accordance with the provisions of The Harbour Masters Act, chapter 86 of the Revised Statutes, is pleased to appoint Mr. Michel Billodeau, to be Harbour Master for the Port of Cocagne, in the County of Kent, Province of New Brunswick, *vice* Mr. John Brooks, who has left the locality.

JOHN J. McGEE,
44-4 Clerk of the Privy Council.

[1420]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 23rd day of April, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the 21st section of chapter 72 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to grant permission to change the name of the schooner "Shelby," of Victoria, British Columbia, official number 100,802 to "Selma."

JOHN J. McGEE,
44-4 Clerk of the Privy Council.

[1347]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 23rd day of April, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of The Pilotage Act, and by and with the advice of the Queen's Privy Council for Canada, is pleased to appoint Captain David Rudderham, of North Sydney, to be a member of the Pilotage Authority for the District of Sydney, in the room of David Mullins, resigned.

JOHN J. McGEE,
44-4 Clerk of the Privy Council.

[1396]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 21st day of April, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in accordance with the provisions of The Harbour Masters Act, chapter 86 of the Revised Statutes, is pleased to appoint Mr. Beecham Ritcey, to be Harbour Master for Ritcey's Cove, Lunenburg, Nova Scotia, *vice* Mr. Joseph Ritcey, deceased.

JOHN J. McGEE,
44-4 Clerk of the Privy Council.

[1392]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 28th day of April, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of chapter 97 of the Revised Statutes of Canada, intituled "An Act respecting Ferries," and the Act 51 Victoria, chapter 23 amending the same, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Order in Council of the 2nd April, 1896, establishing regulations for the governance of a ferry across the Saint Mary's River between Sault Ste. Marie, in the Province of Ontario, and Sault Ste. Marie, in the State of Michigan, one of the United States of America, be and the same is hereby cancelled, and that the following regulations be established in lieu thereof:—

REGULATIONS.

1. *Limits.*—The limits of the ferry shall be coterminous with the limits of the Town of Sault Ste. Marie, Ontario, to a point in the Town of Sault Ste. Marie, Michigan, to be fixed by the municipal authorities of that place.

2. *Landing Stages and Wharves.*—Suitable landing wharves or docks shall be secured and at all times maintained by the lessee at some central point in the said Town of Sault Ste. Marie, Ontario, which must be safe and available at all states of the river, and subject to the approval of the Controller of Inland Revenue.

3. *Vessels.*—The vessels to be used shall be substantial and seaworthy and capable of carrying safely and commodiously all the traffic that offers between the two towns. They must be provided with engines of sufficient effective horse-power and be high-pressure, and the vessels and engines shall be subject to the approval of the Dominion Inspector of Steamboats.

4. *Conveyance of Contraband Goods.*—The lessee shall not at any time carry or convey or permit or suffer to be carried or conveyed over the said ferry, any contraband articles whatsoever.

5. *Observance of Custom and Revenue Laws.*—The lessee shall observe all Customs and Revenue laws of the Dominion of Canada and of the United States of America.

6. *Hours of Running.*—During the period commencing on the 1st of June and ending the 30th September in each and every year, the ferry shall commence running at 7 o'clock a.m., and shall continue to cross every 30 minutes thereafter until 9 o'clock p.m., by central standard time (Sundays excepted), except in the case of unforeseen marine casualties, fog or unavoidable circumstances, and from the 1st of November until the close of navigation, until 8 o'clock p.m., central standard time.

7. *Tariff of Fares.*—The charges for fares and tolls to be made on the said ferry shall not at any time exceed the following, that is to say,—

	cts.
For foot passengers, each way, adults	10
do do do children	5
For horse and rider, each way	25
For horse, each way	25
For one horse and vehicle and driver, each way	35
For each additional horse and passenger	10
For each head of horned cattle, each way	25
For each sheep or hog, each way	5
For each 100 lbs. of baggage or other article, each way	10

8. *Posting Notice of Tariff.*—Notice of the rates of fares and tolls on the said ferry, shall be put up and kept up, and exhibited at all times in a conspicuous place on or near the said docks or wharves, and also on the steamers employed from time to time on the said ferry.

9. *Modification of Tariff.*—The Governor in Council shall be at liberty to alter and modify the tariff of charges and tolls hereinbefore contained, should it be

deemed expedient in the public interests, and after notification to the lessee, he or his employees shall not take or receive any other or larger fares or tolls than those which shall be imposed in such modified tariff during the subsistence thereof.

10. *Failure to carry out Regulations.*—The Governor in Council shall be at liberty, at any time at which it may be shown that the lessee has failed to perform, fulfil and keep any or other of the said provisos, restrictions and conditions hereinbefore contained and expressed, to declare the lease forfeited and void, whereupon the same shall become and be void to all intents and purposes, as if the same had never been granted, without indemnification to the lessee.

11. *Observance of United States Laws.*—The said lessee shall not at any time during the existence of the lease, wilfully or knowingly infringe any of the laws or by-laws or of the regulations of the United States of America, or of the State of Michigan, or of the Town of Sault Ste. Marie, U.S., in reference to ferriage which may be applicable to the said ferry or such portion thereof as may be within the jurisdiction of any of them, the United States of America, State of Michigan, or the Town of Sault Ste. Marie, or permit or suffer the same to be infringed by any officer, servant or employee of the said lessee.

12. *Provision against indemnity.*—Provided always that if the United States of America, or the State of Michigan, or the Town of Sault Ste. Marie, U.S., shall in the exercise of any authority in any of them existing at any time during the existence of the said lease, prevent or hinder ferriage at or upon the said ferry, or such portion thereof as may be within the jurisdiction of such one of them, or put the lessee to any loss, expense, charge or damage in respect to the same, no claim or demand for compensation or any right or title thereto shall be made upon or against the Dominion of Canada.

13. *When boats shall be placed on route.*—The ferry-boats shall be placed on the route immediately on the opening of navigation in the spring of 1896.

14. *Term of lease.*—The lease will be granted for a period of ten (10) years from the 1st May, 1896. The lessee will be required to give two sureties, satisfactory to the Controller of Inland Revenue, who shall be bound jointly and severally with the principal in the sum of five thousand ($5,000) dollars, for the full compliance by the said lessee with the terms of the lease.

JOHN J. McGEE,
Clerk of the Privy Council.

45-4

[1430]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 28th day of April, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of chapter 97 of the Revised Statutes, intituled "An Act respecting Ferries," and the Act 51 Victoria, chapter 23 amending the same, and by and with the advice of the Queen's Privy Council for Canada, is pleased to make the following Regulations for the governance of the ferry across the Detroit River between Windsor, Ontario, and Detroit, in the State of Michigan, U.S., and known as the "Ouelette Street Ferry."

REGULATIONS.

1. The limits of the ferry shall extend from the easterly to the westerly boundary of the Town of Windsor, as produced to the River Detroit, and a point in the City of Detroit to be fixed by the Municipal authorities of that place.

2. Suitable landing wharves or docks shall be secured and at all times maintained at some point in the said Town of Windsor, within the said limits, which must be safe and available at all states of the river, and subject to the approval of the Department of Inland Revenue.

3. The vessels used shall be substantial seaworthy steamers of not less than 85 feet keel and 28 feet beam, and having projecting guards, so as to afford sufficient spaces for horses and carriages, and of a speed not less than 10 miles per hour.

4. The engines shall be of not less than 100 horse power, high or low pressure, and shall be, as well as the vessels generally, subject to the inspection and approval of the Dominion Inspector of Steamboats. The vessels shall be supplied with life-preservers and be in all respects fully equipped, having a respectable and efficient commander, and the Controller of Inland Revenue shall be at liberty to reject any steamer which may at any time be placed upon the said ferry or the commander thereof, or the said docks or wharves, should he consider them or any of them respectively unsuitable to the service, or unsafe or inadequate to meet the wants of the public.

5. That the lessee shall not at any time carry or convey, or permit or suffer to be carried or conveyed over the said ferry any contraband articles whatsoever.

6. That the lessee shall observe all Customs and Revenue laws of the Dominion of Canada and of the United States of America.

7. That during the period commencing on the 1st day of January and ending on the 31st day of December, in each and every year, the said ferry shall commence to ply at the hour of 6 o'clock in the morning, true Meridian time of Windsor, (Sundays excepted), and shall continue to cross from each side at intervals of fifteen minutes successively thereafter until the hour of 7 o'clock in the morning, and at intervals of ten minutes successively thereafter until the hour of 8 o'clock at night, and at intervals of 20 minutes successively thereafter until the hour of 11.40 o'clock p.m. On Sundays the said ferry shall continue to cross from each side commencing at the hour of 7 o'clock in the morning at intervals of 15 minutes successively thereafter until the hour of 10 o'clock p.m., and at intervals of 20 minutes successively thereafter until 11.20 o'clock p.m., unless such crossing is rendered impossible by the dangers of navigation.

8. That the charges for fares and tolls to be made on the said ferry shall not at any time exceed the following, that is to say :—

Foot passengers	$0.05
Pleasure riding, morning, afternoon and evening.	0.10
Children under twelve years of age	Free.
Horse, vehicle and driver	$0.10
Two-horse vehicle and driver	0.20
Horse with rider or attendant	0.10
Cattle on foot, each	0.15
Sheep, pigs or calves on foot, each	0.05
Freight not carried in a vehicle, every 100 lbs. or under	0.03
Loads of hay, straw, furniture or usually bulky or heavy material	0.50
Loads as above with single horse	0.25
Foot passengers, 10 tickets	0.25
Single-horse vehicle, driver and one other person, 10 tickets	1.00
Two-horse vehicle, driver and one other person, 5 tickets	1.00

9. Notices of the rates of fares and rates of tolls on the said ferry shall be put and kept up and exhibited at all times, in a conspicuous place on or near the said dock or wharf, and also on the steamers employed from time to time on the said ferry.

10. That the Governor in Council shall be at liberty to alter and modify the tariff of charges and tolls hereinbefore contained, should it be deemed expedient in the public interests, and after such notification as aforesaid, the lessee shall not take or receive any other or larger fares or tolls than those which shall be imposed in such modified tariff during the subsistence thereof.

11. That the Governor in Council shall be at liberty at any time at which it may be shewn that the lessee has failed to observe, perform, fulfil, and keep any or either of the said provisoes, restrictions or conditions hereinbefore contained and expressed, to declare the lease forfeited and void, whereupon the same shall become and be void to all intents and pur-

poses as if the same had never been granted, without indemnification to the lessee.

12. That the said lessee shall not at any time during the existence of the lease, wilfully or knowingly infringe any of the laws or by-laws or the regulations of the United States of America, or the State of Michigan, or the City of Detroit in reference to ferriage which may be applicable to the said ferry or such portion thereof as may be within the jurisdiction of any of them, the United States of America, or the State of Michigan, or the City of Detroit, or permit or suffer the same to be infringed by any officer, servant or employee of the said lessee.

13. Provided always that if the United States of America, or the State of Michigan, or the City of Detroit, shall in the exercise of any authority in any of them existing at any time during the existence of said lease, prevent or hinder ferriage at or upon the said ferry or such portion thereof as may be within the jurisdiction of such one of them, or put the lessee to any loss, expense, charge or damage, in respect to same, no claim or demand for compensation, or any right or title thereto, shall be made upon or against the Dominion of Canada.

14. The lease will be granted for a period of ten (10) years.

15. The lease shall not be sub-let or assigned.

JOHN J. McGEE,
45–4 Clerk of the Privy Council.

[1580]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 28th day of April, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in accordance with the provisions of the Act relating to Government Piers, Harbours and Breakwaters, chapter 84 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to appoint Mr. John Smith, of Webster's Corners, Province of Prince Edward Island, to be Wharfinger for Hickey's Pier, Queen's County, Prince Edward Island, *vice* Robert Webster, resigned.

JOHN J. McGEE,
45–4 Clerk of the Privy Council.

Children born after the Census day, but before the Enumerator's visit are not to be taken.

Persons dying after the day fixed for taking the Census but before the Enumerator's visit are to be taken.

The Commissioners appointed are :—

Alexander McMicken	Winnipeg,
William Cranston	Lisgar,
William Ferguson	Marquette,
Robert Adamson	Brandon,
Wright Garland	Macdonald,
Joseph Baril	Provencher,
Norman Matheson	Selkirk.

By order of the Minister of Agriculture,

W. B. SCARTH,
47–2 Deputy-Minister of Agriculture.

DEPARTMENT OF THE SECRETARY OF STATE.

PUBLIC Notice is hereby given that the Government of His Majesty the King of Sweden and Norway purposes sending, in the summer of this current year, a balloon expedition to the North Pole for exploration in the interests of science. The balloon will convey a party of three Swedish scientists, namely, Mr. Salomon August Andrée, aged 42; Dr. Nils Gustaf Ekholm, aged 48; and Mr. Nils Strinberg, aged 24. It is understood that the expedition will start from Spitzbergen in the early summer.

The Swedish and Norwegian Minister at the Court of St. James having, in the name of his Government, invoked the assistance of Her Majesty's Government with a view to making it generally known in the British possessions adjacent to the Polar Basin that the expedition in question will be attempted, and the Swedish Government being anxious also that the project should be made known to the authorities in other parts of Canada and to the general public in the Dominion through the medium of the press, Her Majesty's Principal Secretary of State for the Colonies has requested His Excellency's Government to do all in their power to meet the wishes of the Government of His Swedish and Norwegian Majesty in this matter.

Accordingly, Her Majesty's loyal subjects throughout this Dominion are hereby notified in the premises and are requested to give the explorers, should an opportunity present itself, all the help in their power. If the balloon be seen only and no communication be had with the exploring party, it is requested that the following particulars may be noted and communicated either to a local newspaper or to some learned body, namely, the day and the hour in which the balloon was seen, the direction of the balloon, and the direction of the wind.

Should any accident befall the explorers and should they arrive in any locality having lost the balloon, the inhabitants are asked to give them all possible assistance.

Dated at the office of the Secretary of State of Canada, this 16th day of May, 1896.

JOSEPH POPE,
47–3 Under Secretary of State.

Office of the Superintendent of Insurance,
Ottawa, 18th May, 1896.

NOTICE is hereby given that The Canadian Sick Benefit Society has this day received a license No. 150 to transact in Canada the business of insurance against sickness and disability, on the assessment plan.

Charles Egan is the Chief Agent of the society, and its head-office is established at the Town of Petrolia, Ontario.

W. FITZGERALD,
47–4 Superintendent of Insurance.

Office of the Superintendent of Insurance,
Ottawa, 1st May, 1896.

NOTICE is hereby given that the Supreme Court of the Independent Order of Foresters has this day received a license No. 149 to undertake with its members in Canada, the contract or contracts of life, disability and sickness insurance on the assessment plan to the extent specified in an Act of the Parliament of Canada, assented to on the 23rd day of April, 1896, entitled "An Act to amend the Act incorporating the Supreme Court of the Independent Order of Foresters." Oronhyatekha is the chief agent, and the head office is established at the City of Toronto.

W. FITZGERALD,
40–4 Superintendent of Insurance.

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 6th day of May, 1896, incorporating Robert Mitchell, manufacturer, Richard R. Mitchell, manufacturer, Norman Mitchell, student, Ewing Smith, superintendent, and William Stanhouse, foreman, all of the City and District of Montreal, in the Province of Quebec, for the following purposes, viz.:—(*a.*) To acquire, take over and continue as a going concern in all its branches the business now carried on by Robert Mitchell under the firm name of Robert Mitchell & Co.; (*b.*) To carry on the business of manufacturing, buying, selling, trading, dealing in and installing all kinds of metals, including the work of brass finishing in all its branches, gas and electric fitting and electric wiring, brass founding, tin and coppersmithing, plating, plumbing and steam-fitting of all kinds, including the manufacture of gas, water and electric meters and all work connected therewith, with the right to enter into contracts for the manufacture, supply and sale of all such materials and the installation of any work connected therewith, by the name of "The Robert Mitchell Company," (Limited), with a total capital stock of two hundred thousand dollars divided into two thousand shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this 15th day of May, 1896.

CHARLES TUPPER,
46–3 Secretary of State.

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 6th day of May, 1896, incorporating Matthew Kennedy, foundryman; William Kennedy, civil and hydraulic engineer; Alexander Kennedy, foundryman; David John Kennedy, machinist; Matthew Kennedy, the younger, machinist; Isaac Markle Kennedy, machinist; all of the Town of Owen Sound, in the Province of Ontario, for the following purposes, viz.:—

(*a*) The carrying on of a general foundry business including the manufacture, purchase and sale of steel castings, brass casting, malleable and other iron castings and castings of other kinds and classes of metals.

(*b*) To manufacture, purchase, sell and deal in all kinds of machinery.

(*c*) To obtain, hold and operate and to purchase, lease or license patents and patent rights, designs and trade-marks in any way applicable to the business mentioned in clauses (*a*) (*b*) and (*d*), and to sell, lease and otherwise dispose of the same.

(*d*) To manufacture, supply, purchase and sell all kinds and descriptions of patterns and forms for machines and mechanical devices.

(*e*) To make such inspections, plans, descriptions and specifications, for the development of water powers and to superintend and engage in such hydraulic and civil engineering as may be necessary or incidental to the carrying on of the business of the company provided for in clauses (*a*) (*b*) and (*d*).

(*f*) To acquire and hold shares in the capital stock of any similar company as the consideration for goods, wares or merchandise sold to said similar company in the ordinary course of business.

(*g*) To acquire the lands, buildings, machinery, plant, stock-in-trade, and other assets of the business of William Kennedy and Sons, now carried on by them at the Town of Owen Sound, in the Province of Ontario, under their own name,—by the name of "The William Kennedy and Sons" (Limited), with a total capital stock of ninety-five thousand dollars divided into nine hundred and fifty shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this 15th day of May, 1896.

CHARLES TUPPER,
46–3 Secretary of State.

NOTICE TO MARINERS.

No. 16 of 1896.

I. GOVERNMENT RIFLE RANGE, McNAB'S ISLAND, HALIFAX HARBOUR, NOVA SCOTIA.

The following notice has been issued by the Chief Staff Officer of the Imperial Troops in garrison at

Halifax, Nova Scotia, with reference to the annual target practice of the troops, on McNab's Island, commencing on the 11th instant.

"Owing to the extreme range of the Lee-Metford or Magazine Rifles, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

"This area has been marked by four spar buoys placed at intervals between Thrum Cap Shoal and the Eastern Passage, at a distance of 3,000 yards from the stop butts. The buoys mark the extreme limits of the Danger Zone. The spars are painted red and are surmounted by cross heads painted red and white.

"Notice is therefore hereby given that any ship or boat passing inside these buoys during the hours of practice incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab's Island is left flying."

This notice will have effect from the 11th May, 1896.

II. BALLAST GROUND BUOY AT TIDNISH, N.S.

The black cask buoy marking the position of the ballast ground off Tidnish, in Bay Verte, between the Counties of Cumberland, N.S., and Westmoreland, N.B., has been moored this Spring in a new position, ½ mile N.W. from the entrance channel to the Ship Railway dock, and any vessels discharging ballast in Tidnish Harbour must discharge it between the buoy described and Tidnish Head. No ballast is on any account to be discharged to the eastward of the buoy.

This notice affects Admiralty chart No. 2034.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 6th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 47-3

NOTICE TO MARINERS.

No. 17 of 1896.

I. IMPROVEMENT IN ARNPRIOR ISLAND LIGHT.

The mast from which a light was shown on an islet opposite the Town of Arnprior, Chats Lake, Upper Ottawa River, has been replaced by a new mast 10 feet higher than the old one, and the pressed lens lantern has been replaced by a 7th order dioptric lantern.

The colour of the light has also been changed from white to red. The light in future will be fixed *red*, elevated 40 feet above the ordinary level of the water, and should be visible 8 miles from all points of approach by water.

The white shed at the base of the mass remains as heretofore.

This notice affects Admiralty chart No. 797 and Canadian List of Lights No. 823.

II. CHANGE IN KINGSTON HARBOUR BUOYS.

On the opening of navigation this year the three platform buoys heretofore maintained on Penitentiary shoal, Myles shoal and Bolivia shoal respectively, in Kingston Harbour, Lake Ontario, were not moored in position but were replaced by wooden spar buoys surmounted by slat work globes or spheres.

The buoys are painted as heretofore, viz., in red and black bands, and are moored as near the middle of the shoals as possible, in 12 to 14 feet water. Vessels should give the buoys a good berth as the shoals extend some distance.

This notice affects Admiralty charts Nos. 259 B., 797 and 1152.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 6th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 47-3

NOTICE TO MARINERS.

No. 18 of 1896.

I. RE-ESTABLISHMENT OF LIGHT ON SOURIS EAST BREAKWATER.

On the 4th instant a temporary mast light was put in operation on the outer end of Souris East breakwater, on the east coast of Prince Edward Island, to take the place of the light carried away by storm in the autumn of 1895, as described in Part II of Notice to Mariners, No. 63 of 1895.

The light is fixed red, elevated 21 feet above high water mark, and should be visible 6 miles from all points seaward. The lens lantern is hoisted on a mast.

This light shows the end of the breakwater, and will be used, similarly to the old light carried away, until a proposed new block is added to the outer end of the breakwater, when a more permanent structure will be built.

This notice affects Admiralty charts Nos. 2034 and 2666, and Canadian List of Lights and Fog Signals, No. 350.

II. ST. JOHNS LEDGE BELL BUOY REPLACED.

The bell buoy marking St. Johns Ledge, near Pubnico, in the Bay of Fundy, which went adrift from or sank at its moorings, as advertised in Notice to Mariners No. 8 of 1896, was replaced by a new buoy on the 2nd instant.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 11th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 47-3

NOTICE TO MARINERS.

No. 12 of 1896.

CHANGE IN SHEDIAC HARBOUR RANGE LIGHTS.

It is intended, on the 1st June next, to remove the front range light mast and shed in Shediac Harbour from its position on the extremity of Point du Chêne North Railway Wharf to a new site on the north-west corner of the Government Breakwater, a distance of 358 feet N.E. ⅜ N. from its former position, and at the same time to move the back range light mast and shed on the extremity of the South Railway Wharf 23½ feet S.E. ⅝ E., or at right angles to the line of range, from its former position.

New position of outer light:—

Lat. N. 46° 14' 39"
Long. W. 64° 31' 41"

The two lights in their new positions will be 631 feet apart and will lead in S.W. ⅝ S. (S. 15° 20' W. true) from the intersection with the Shediac Island range alignment through the middle of the channel. This new alignment of the Harbour lights cuts the alignment of the Island lights 78 feet farther west than the old alignment. In other respects the lights and buildings are not altered.

Dredging operations on the new alignment are now in progress and an improved channel will result. No further notice of this change will be given unless events should arise to prevent its accomplishment.

This notice affects Admiralty charts Nos. 1843 and 2034, and Canadian List of Lights and Fog Signals Nos. 419 and 420.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 29th April, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 46–3

NOTICE TO MARINERS.

No. 13 of 1896.

CHANGE IN POSITION OF RAINS WHARF RANGE LIGHTS.

Prior to the opening of navigation this year the masts from which the range lights at Rains Wharf, in the River St. Mary, Ont., are exhibited, were moved to an alignment about 80 feet northward of the old alignment, so that the range lights are now in the same alignment as the American range lights at Point of Woods, and mark, as nearly as may be, the axis of the improved channel.

The front range light now stands on the shore north of Rains Wharf. The lantern is elevated 21 feet above water.

The rear light mast stands 436 feet S.E. ¼ E. from the front light. The lantern is elevated 26 feet above water.

In other respects the range is unchanged, and the two lights in one guide through Dark Hole Passage as before.

This notice affects Admiralty charts Nos. 325, 326, 519 and 678, and Canadian List of Lights and Fog Signals Nos. 1088 and 1089.

JOHN HARDIE,
Acting Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 30th April, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 46–3

NOTICE TO MARINERS.

No. 14 of 1896.

BRIER ISLAND FOG WHISTLE AGAIN IN OPERATION.

The fog whistle machinery at the north-west point of Brier Island, on the Bay of Fundy coast of Nova Scotia, has been refitted in a temporary building, and the fog alarm was again put in operation this day.

The whistle sounds as before, three blasts of four seconds' duration, with intervals of four seconds between them, in each minute.

A permanent fog alarm building will be erected later.

This notice affects Admiralty charts Nos. 352, 1651, 2538, 2656 and 2670, and Canadian List of Lights and Fog Signals No. 115.

JOHN HARDIE,
Acting Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 1st May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 46–3

NOTICE TO MARINERS.

GOVERNMENT RIFLE RANGES, MCNAB'S ISLAND.

Owing to the extreme range of the Lee-Metford or Magazine Rifle, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

This area has been marked by four spar buoys, placed at intervals between the Thrum Cap Shoal and the Eastern Passage, at a distance of 3000 yards from the stop butts. The buoys mark the extreme limits of the danger zone. The spars are painted red, and are surmounted by cross heads painted red and white.

Notice is therefore hereby given that any ship or boat passing inside these buoys, during the hours of practice, incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab's Island is left flying.

This notice will have effect from the 11th May, 1896.

By order,

DUDLEY NORTH,
Colonel, A.A.G., Chief Staff Officer.
Halifax, N.S., 28th April, 1896. 45–3

NOTICE TO MARINERS.

No. 15 of 1896.

CABOT HEAD LIGHT AND FOG ALARM.

A light and fog alarm station, established by the Government of Canada at Cabot Head, on the west shore of Georgian Bay, in the North Riding of Bruce, Ontario, will be put in operation on the 18th May instant.

Lat. N. 45° 14' 45"
Long. W. 81° 17' 25"

The lighthouse stands on top of the cliff, about ⅓ mile eastward from the entrance to Wingfield Basin, at the point of Cabot Head which projets farthest north, on the ordinary course of vessels.

The site is level and elevated 35 feet above water. The light building consists of a tower and dwelling house combined, built of wood, painted white. The square tower rises from the east corner of the building, and is surmounted by an iron lantern painted red. The height of the building from the ground to the vane on the lantern is 54 feet.

The light will be a group revolving white light, showing three bright flashes with intervals of twenty seconds between their points of greatest brilliancy, followed by an interval of forty seconds during the greater part of which the light will be obscured, the light completing a revolution in 80 seconds. It is elevated 80 feet above the level of the bay and should be visible 14 miles from all points of approach by water. The illuminating apparatus is catoptric.

The fog alarm building is located on the beach, about 200 feet eastwardly from the lighthouse. It is a square wooden building, painted white, with duplicate horns projecting from a gable in the north-easterly front of the building. These horns are elevated 20 feet above the water.

The fog alarm will consist of blasts of a horn operated by steam and compressed air of 8 seconds' duration with intervals of 40 seconds between them.

The boiler and machinery are in duplicate, so that in case of an accident happening to one part it may be promptly replaced by its duplicate part.

This notice affects Admiralty charts Nos. 327, 519, 678, 906 and 1214, and the substance of it should be entered in the Canadian List of Lights and Fog Signals, between Nos. 1011 and 1012.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 4th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 46-3

NOTICE TO MARINERS.

No. 8 of 1896.

ST. JOHN'S LEDGE BELL BUOY MISSING.

It is reported that the bell buoy is missing from St. John's Ledge, near Pubnico, in the Bay of Fundy. Steps will be taken to replace it as soon as possible, and notice will be given when it is again in position.

JOHN HARDIE,
Acting Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 17th April, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 45-3

NOTICE TO MARINERS.

No. 9 of 1896.

I. BUOYAGE OF COLBURNE PASSAGE.

Two wooden platform buoys have been established by the Government of Canada, in Colburne Passage, off the south-east coast of Vancouver Island, British Columbia, one on either side of the fairway between Piers Island and Saanish Peninsula on the route to Cowitchan Harbour.

One of the platforms is surmounted by a square pyramid topped by a drum, the whole made of lattice work and painted black with the number 1 in white. It is moored on the east extremity of the south reef, at the narrowest part of the channel, in 2½ fathoms water.

Lat. N. 48° 42' 00"
Long. W. 123° 26' 00"

The other buoy carries the number 2 and is surmounted by a square pyramid topped by a ball, made of lattice work, the whole painted red. It is moored in 3 fathoms on the south extremity of the north reef, and is distant a little more than a cable N. ½ E. from the black buoy.

Cape Kappel in one with Cowitchan Head, bearing W. ¼ S., southerly, (N. 70° W. true) leads through Colburne Passage in 8 to 10 fathoms water between the two buoys and clear of all dangers.

Captain J. T. Walbran, master of the Dominion steamer "Quadra," reports that when setting the buoys he found the passage with its reefs, Piers Island, and their surroundings, incorrectly shown on Admiralty chart No. 2840.

This notice affects Admiralty charts Nos. 1917 and 2840, and British Columbia Pilot, 1888, page 68.

II. CHANGES IN YOKOHAMA HARBOUR LIGHTS, JAPAN.

Notice is given by the Government of Japan, that on 1st April, instant, the Red and Green Lightships moored to mark the North and East Breakwater-heads of Yokohama Harbour would be withdrawn, and that on and after the same date, the lights as specified below would be established by the Yokohama Harbour Works Bureau on both of the Breakwater-heads.

The lighthouse on the East Breakwater-head is constructed of iron, hexagonal in shape and is painted white. It is 40 feet in height from the base to the centre of the lantern.

The light is a fixed white light and illuminates the whole horizon. It is elevated 41 feet above the sea, being visible in clear weather from a distance of 6 nautical miles.

The light on the North Breakwater-head is a fixed red light, exhibited temporarily, pending the completion of the permanent lighthouse now in course of construction.

The light is shown on the scaffolding erected for constructing the permanent lighthouse, at an elevation of 41 feet above the sea. It illuminates the whole horizon, being visible in clear weather from a distance of 6 nautical miles.

JOHN HARDIE,
Acting Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 20th April, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 45-3

NOTICE TO MARINERS.

No. 10 of 1896.

I. FOG BELL AT PORT DALHOUSIE.

A bell has been attached to the platform of the range light tower near the outer end of the East Pier at Port Dalhousie, Lake Ontario, and will be rung by hand, as a fog signal, in reply to fog signals from vessels desiring to make the canal.

This notice affects Canadian List of Lights and Fog Signals No. 931.

II. SANDUSKY BAY STRAIGHT CHANNEL RANGE LIGHTS.

Sandusky Bay Range Light (*front*).—Notice is given by the United States Lighthouse Board, that, on or about 1st April, 1896, a fixed white light of the sixth order will be established in the structure recently erected on the northerly prolongation of the axis of the Straight Channel in Sandusky Bay, in 5½ feet of water, about ¼ mile N.N.W. ⅞ W. from Cedar Point Lighthouse, and about 500 feet northerly from the 18-foot contour on the northerly side of "Deep Hole" off Cedar Point. The light is shown from an octagonal lantern, with copper roof, surmounting a square tower projecting slightly from the southerly side of a square one-story dwelling, with sharp roof and dormers, standing on a square red crib. The house and tower are of wood, painted yellowish drab.

The focal plane of the light is 33½ feet above mean lake level.

The approximate geographical position of the light, is :—

Lat. N. 41° 29' 31"
Long. W. 82° 41' 49"

Sandusky Bay Range Light (rear).—On the same date a fixed white light of the sixth order was to be established in the structure recently erected on the northerly prolongation of the axis of the Straight Channel in Sandusky Bay, in 8½ feet of water, and about 1,500 feet N. by E. ½ E. (N. 17° 04' E. true), in rear of the front light. The light is shown from an octagonal lantern, with copper roof, surmounting a square pyramidal, yellowish drab wooden tower, on a square red crib.

The focal plane of the light is 50 feet above mean lake level and the light should be visible 12 miles.

Each light will illuminate 270° of the horizon from S.S.E. ½ E. (S. 27° 56' E. true) through eastward and southward to N.E. by E. ½ E. (N. 62° 04' E. true) or 45° to the westward of the range line, and the remainder of the illuminating arc to the eastward of the range line, and showing in the lake.

The lights mark a range line for running the Straight Channel in Sandusky Bay, from Cedar Point to the docks of Sandusky, coinciding with the axis of the channel.

III. SANDUSKY BAY, NORTH AND WEST RANGE LIGHTS DISCONTINUED.

On the establishment of the Sandusky Bay (Straight Channel) Range Lights, the lights of these two ranges, in the northerly part of Sandusky Bay, about 1¼ miles W. of Cedar Point and heretofore marking the axis of the old dredged channels in the bay, will no longer be required as aids to navigation and will be discontinued.

IV. GRASSY ISLAND SOUTH CHANNEL RANGE FRONT LIGHT.

Notice is also given that, at the same time, a fixed white lens-lantern light would be established in the structure recently erected on the W. side of the main channel of the Detroit River, on Grassy Island Fishery, about 1,300 feet due S. from the present Grassy Island Light.

The focal plane of the light is 25 feet above the mean level of the river. The light will illuminate 90° of the horizon lying between N.W. by W. ½ W. (N. 62° 30' W. true), and N.N.E. ½ E. (N. 27° 30' E. true), or 62° 30' to the eastward and 27° 30' to the westward of the range line.

The light will be shown from an octagonal lantern. with white roof, surmounting a white, square, pyramidal tower, on a low foundation.

With Grassy Island Light as a rear light, this light will mark a range line for running the main channel of the Detroit River from the Grosse Isle North Channel Range line to the Mamajuda Range line. The point of intersection with the Grosse Isle North Channel Range line is east of Mamajuda Range Rear Light and about 350 feet to the eastward of the 18-foot contour on the west side of the channel. The point of intersection with the Mamajuda Range line is a little more than ¾ mile to northward of the Mamajuda Range Front Light.

V. WHITEFISH POINT LIGHT.

Notice is further given that, on the opening of navigation 1896, the characteristic of the light at the light station on Whitefish Point, west side of the entrance from Whitefish Bay into Lake Superior, would be changed to show a brilliant white flash every 5 seconds.

JOHN HARDIE,
Acting Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 21st April, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 45-3

NOTICE TO MARINERS.

No. 11 of 1896.

CITROUILLE POINT LIGHTHOUSE CARRIED AWAY.

Information has been received that the lighthouse at Citrouille Point, on the River St. Lawrence, above Quebec, has been carried away by ice. Until the tower can be rebuilt a temporary light will be shown from a lantern on a pole.

This notice affects Canadian List of Lights and Fog Signals No. 702.

JOHN HARDIE,
Acting Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 22nd April, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested, are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 45-3

TO ADVERTISERS IN THE *GAZETTE.*

PARTIES sending advertisements to be inserted in the *Canada Gazette* will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."

2nd. Indicate the number of insertions required.

3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are 10 cents for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cents each, and when more than one are required by advertisers, must be remitted for likewise.

S. E. DAWSON,
Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

CONDENSED RULES *in re* NOTICES FOR PRIVATE BILLS.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of The British North America Act, 1867, for granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application ; such notice except in the case of existing corporations) shall be signed by, or on behalf of the applicants, and be published as follows, viz :

In the Provinces of Quebec and Manitoba.

In the *Canada Gazette,* in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

In the *Canada Gazette,* and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices shall be continued in each case, for a period of at least two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. Marked copies of all the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House, endorsed "Application for a Private Bill."

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioners shall also, at the same time and in the same manner, give notice of the proposed rates of toll, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and, if a drawbridge, the dimensions of the same.

Any person seeking to obtain a Private Bill shall, at least eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the Bill is to originate, a copy of such Bill in the English or French language, with a sum sufficient to pay for translating and printing the same. The applicant shall also, after the second reading, and before the consideration of the Bill by any Committee, pay the Clerk of the Senate, or the Accountant of the House of Commons (as the case may be) a fee of $200, and a sum sufficient to pay the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred.

The fee of $200 payable on any Private Bill is paid only in the House in which such Bill originates ; but the charges for reprinting and translation consequent thereon are paid in the House in which such charges are incurred.

No Petition for a Private Bill is received by the Senate or by the House of Commons after the first three weeks of the Session.

No Private Bill may be presented to the Senate or to the House of Commons after the first four weeks of the Session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.
JOHN GEORGE BOURINOT,
Clerk of the Commons.

SPECIAL RULE OF THE SENATE.

49. (*c.*) When a Bill is to operate in more than one Province, Territory or District, the notices shall be published in the *Canada Gazette* and in a leading newspaper published in each Province, Territory or District in which the Bill is to operate.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

ADDITIONAL RULES OF THE HOUSE OF COMMONS RESPECTING PRIVATE BILLS.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bill ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule,* shall be recast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses.*

51*a.* All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill, copies of which may be obtained from the Clerk of the House.

(*a.*) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and Bills which are not in accordance with this Rule shall be returned to the promoters to be recast before being revised and printed ;

(*b.*) Any sections of existing Acts which are proposed to be amended shall be reprinted in full with the amendments inserted in their proper places and between brackets ;

(*c.*) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b.* No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a.*) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or autho-

rized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map or plan shall be signed by the Engineer or other person making the same ;

(*b*.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Special Order of the House of Commons.

Resolved, That the Clerk of the House do have a copy of the new Rule 49 sent to those persons giving notice in the *Canada Gazette* of their intention to apply to Parliament for the passing of a Private Bill, together with a notification that the said Rule will be strictly adhered to for the future :—

49. Petitions for Private Bills shall only be received by the House within the first *three weeks* of the session, and Private Bills may only be presented to the House within the first *four weeks* of the session, and it shall be the duty of any Committee to which any Private Bill may be referred to consider and report the same to the House with all convenient speed.

2. That it be an instruction to all Committees on Private Bills, in the event of promoters not being ready to proceed with their measures when the same have been twice called *on two separate occasions* for consideration by the Committee, that such measures shall be reported back to the House forthwith, together with a statement of the facts and with the recommendation that such Bills be withdrawn.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Substance of Rules of the Senate relating to Notices and Applications for Bills of Divorce.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the *Canada Gazette* and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-west Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under The Canada Evidence Act, 1893.

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next ensuing session, to pass an Act amending the Acts incorporating the Quebec Steamship Company (Limited), and granting power to the said company to purchase, build, equip, run or lease, or acquire an interest in hotels and hotel property, and for other purposes.

CARON, PENTLAND & STUART,
Solicitors for applicant.
Quebec, 15th May, 1896. 47-9

NOTICE is hereby given that application will be made by The Lake Manitoba Railway and Canal Company to the Parliament of Canada, at its next session, for an Act to confirm certain agreements with the Manitoba Government and The Manitoba and North-western Railway Company, and also to confirm certain transfers of its Government subsidies, and to confirm certain mortgages made by the company and the bond issue thereof, and to empower the company to issue land grant and second mortgage bonds and preference stock, and for other purposes.

KINGSMILL, SAUNDERS & TORRANCE,
Solicitors for the company.
Toronto, 21st May, 1896. 47-9

PUBLIC Notice is hereby given that The Georgian Bay Ship Canal and Power Aqueduct Company will apply to the Parliament of Canada, at its next session, for a special Act confirming, extending and augmenting the powers of the company ; such Act to specially provide :—

1. For the construction, regulation, and control of harbours and navigation at the terminals of a ship canal, which the company is authorized to construct and operate from some point on Lake Ontario, within the County of York, to some point on the Georgian Bay ;

2. That the company may divert and use the waters of any spring, creek, river, lake, or any other source or sources of water supply, for the purposes of the company, and regulate the levels of such waters ;

3. That the company may regulate the traffic of the said canal or other navigable waters under the control of the company ;

4. For the extension of the borrowing powers of the company, and to define the denomination and character of the notes, bonds, debentures, securities to be issued by the company ;

5. For the construction and improvement by the company of other canals or waterways in Canada for the purpose of augmenting or increasing the traffic of the canal first mentioned ;

6. The remission and exemption from all customs duties and charges on all plant, machinery and materials to be imported and used in the construction and equipment of the company's works.

J. A. MACDONALD,
Managing director of The Georgian Bay
Ship Canal and Power Aqueduct Co.
46-9

THE HUDSON'S BAY AND PACIFIC RAILWAY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a railway to be operated by steam and electricity from Port Churchill on Hudson's Bay through North-west and Keewatin

Territories, to Fond du Lac, on Lake Athabaska, and from Port Churchill aforesaid, on Hudson's Bay, through the Territory of Keewatin, south of Churchill River and north of Nelson River, to a point at or near Sea Falls, on said river; thence north of Lake Winnipeg through the Territory of Saskatchewan to Prince Albert, in said Territory; thence continuing through the said Territory and the Territory of Alberta, in a direct line to Calgary, in the said last mentioned Territory, with power to construct a branch line from a point near Manitou Lake, in the Territory of Saskatchewan, to Edmonton, in the Territory of Alberta. Also, with power to build, purchase, charter, maintain and navigate steam and other vessels to ply between Fort Churchill and other countries, to carry and convey passengers and freight, and carry on a general transportation service in connection with said railway; to construct, operate and maintain such bridges, docks, wharves, elevators, etc., as may be necessary and advantageous for the purposes of the said undertaking. Also to construct and operate telegraph and telephone lines along the whole length of the proposed railway and said branch, for the transmission of messages for the public as well as for the purposes of said railway; also to acquire such water powers as may be deemed requisite for the generation of electricity for the purposes of said railway and said branch, and the purchase, erection and maintenance of all such electrical plant as may be necessary in connection with said railway and branch, its bridges, elevators, wharves and docks; and with all such other powers and rights as may be advantageous and necessary to the success of said undertaking, including such as may be granted and prescribed, with the consent of the Parliament of Canada, by the Parliament of Great Britain and Ireland.

JOSEPH NELSON.
Ottawa, 12th May, 1896. 46-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct a railway, and to work the same either by steam or by electric power or both, from the Town of Portage la Prairie in the Province of Manitoba, to a crossing of the Saskatchewan River, at or near Grand Rapids, thence by the most practicable route to deep water navigation on Hudson Bay, with a branch line from a point at or near the International Boundary between Ranges eleven and fifteen, west of the first principal Meridian, in the said Province of Manitoba, running in a northerly or north-westerly direction to its intersection with the main line; also a branch line from a point on the main line near Grand Rapids to Edmonton *viâ* Prince Albert and Battleford in the North-west Territories, with power to construct and operate telegraph and telephone lines along the said railway and branches for all purposes, also to acquire, build, purchase, charter, own and operate steam and other vessels on lakes, rivers and other navigable waters for the purpose of facilitating the traffic in connection with said railway; to acquire, build, purchase, and own elevators, warehouses, wharves, docks and dockyards in connection with the said railway, with all the proper or usual powers, rights, and privileges given or granted to companies incorporated for any of the purposes aforesaid.

GEO. ELDON KIDD,
Solicitor for applicants.
Dated at Ottawa, this 14th day of May, A.D. 1896.
46-9

YUKON RAILWAY AND NAVIGATION COMPANY.

NOTICE.—Application will be made to the Parliament of Canada, at the next session thereof, to incorporate the "Yukon Railway and Navigation Company," from a point at Taku River and Telegraph Creek or Dease River to Teslin Lake in British Columbia and the North-west Territories.

GEMMILL & MAY,
Solicitors for applicants.
Ottawa, 15th May, 1896. 46-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, by The Chignecto Marine Transport Railway Company (Limited), for an Act to extend the time for the completion of its works and to reduce the number of its directors, and for other purposes.

H. KENDRICK,
Secretary.
By A. FERGUSON,
Solicitor for the applicants.
Dated 7th May, 1896. 45-9

HUDSON'S BAY CANAL AND NAVIGATION COMPANY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next ensuing session, to pass an Act to incorporate a company to construct a canal from a point on the east branch of the Nelson River to Hudson's Bay; and to improve the navigation of rivers and waterways emptying into Lake Winnipeg so as to secure continuous navigation; and to collect tolls thereon; and to construct, equip and operate canal boats and other vessels, and tramways for transportation of freight and passengers; and to construct and operate elevators, mills, wharves, docks and warehouses, and telegraph and telephone lines, hydraulic and electric plants, and to supply motive power in connection with the same, and for other uses, and generally to have and exercise such powers as are given to railway corporations under The Railway Act, and as may be applicable to canals and inland navigation.

N. F. HAGEL,
Solicitor for applicants.
Winnipeg, 2nd May, 1896. 44-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a bridge across the Niagara River at or near the Village of Fort Erie, in the County of Welland, for the passage of pedestrians and vehicles and for the passage of cars propelled by any power, and for the acquisition of all terminal facilities and for power to lease to or otherwise give running powers thereover to any railway company; and to carry gas pipes, wires or cables or other appliances for the transmission of gas and electricity and other power; and with power to lay tracks on said bridge and approaches thereto for the passage of cars, and to operate the same or to enter into any contract or agreement with any individual corporation or corporations with reference to operating the same and to connect the same with any line or lines of railway and to amalgamate with any other company incorporated or to be incorporated by the Legislature of the State of New York or the Congress of the United States of America for the same purpose; and also for power to construct, maintain and operate water wheels under said bridge for the generation of electricity and for all powers necessary for that purpose and for the transmission abroad of such electric force. The height of the arches of said bridge shall not be less than sixty feet and the interval between the abutments or piers shall be two hundred feet, and said bridge shall be constructed with a draw of two hundred feet across the channel of said river for the passage of rafts and all vessels. The rates of toll for the use of said bridge shall not exceed twenty-five cents for each carriage or vehicle (including the driver) drawn by two horses, twenty cents for a single horse, carriage and driver, and fifteen cents for each other person.

HARCOURT, COWPER & MACOOMB,
Solicitors for applicants.
Dated at Welland, 13th April, 1896. 43-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, for an Act to incorporate a company to carry on the business of guaranteeing:—

1. Corporations, partnerships and individuals against lost occasioned by fraud practised upon paper representing or used as security for money;

2. Employees in positions of trust;
3. Titles to real estate and the validity of wills;
4. The repayment of loans and investments of money in manufacturing businesses, mining enterprises and in real estate;
5. The payment of rent, interest, dividends, mortgages, debentures and all other obligations of indebtedness, and
6. The payment of life, accident, fire and marine policies of insurance.

And for such other powers as may be incidental to such business.

GEMMILL & MAY,

3. The chief place of business of the said company will be in the City of Toronto, in the County of York.

4. The operations of the company are to be carried on at the said City of Toronto, and elsewhere throughout the Dominion of Canada.

5. The proposed amount of capital stock is $25,000.

6. The number of shares shall be five hundred of the par value of $50 each.

7. The names in full, and the address and calling of each of the applicants are as follow :—Harrie Poyntz Davies, merchant, of the City of Toronto, in the County of York; Charles Percy Miller, merchant, of the said City of Toronto; Charles Sparks, of the City of Ottawa, in the County of Carleton, Esquire; Emilie Louisa Davies, spinster, of the said City of Toronto; Hawdon Brumell, traveller, of the said City of Toronto; the first three of whom are to be the provisional directors of the said company.

MACRAE & RYKERT,
Solicitors for the applicants.

Toronto, 22nd April, 1896. 43-6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such other persons as may become shareholders in the proposed company, a body corporate and politic under the name and for the purposes hereinafter mentioned :—

1. That the name of the company is to be "The MacGregor-Gourlay Company" (Limited).

2. That the object for which incorporation is sought is,—(*a.*) To carry on in all its branches the manufacture and sale of woodworking machinery, iron-working and other machinery, castings, looms and pins; (*b.*) And for the said purpose to acquire or dispose of the necessary real and personal property.

3. That the operations of the said company are to be carried on at the Town of Galt, in the County of Waterloo, and Province of Ontario, and elsewhere in the Province of Ontario.

4. That the chief place of business of the said company is to be at the said Town of Galt.

5. That the amount of the capital stock of the said company is to be three hundred thousand dollars.

6. That the number of shares is to be three thousand, and the amount of each share one hundred dollars.

7. That the names in full, and the address and calling of each of the applicants are as follow :—Robert MacGregor, of the Town of Galt, in the County of Waterloo, manufacturer; Alexander Graham Gourlay, of the said Town of Galt, manufacturer; Robert Boyd MacGregor, of the said Town of Galt, manufacturer; Robert Morton Hamilton, also of the said Town of Galt, manufacturer; and James Ferguson MacGregor, of the same place, accountant.

8. That the said Robert MacGregor, Alexander Graham Gourlay, Robert Boyd MacGregor, Robert Morton Hamilton and James Ferguson MacGregor, are to be the first directors for the said company.

TURNBULL & BARRIE,
Solicitors for applicants.

Galt, Ont., 18th April, 1896. 42-6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such other persons as may become shareholders in the proposed company a body corporate and politic under the name and for the purposes hereinafter mentioned :—

1. The proposed corporate name of the company is "The Anglo-Canadian Mining Exchange" (Limited).

2. The purposes for which incorporation is sought are :—

(*a.*) To carry on business as general agents and dealers in mines, mining locations and mining lands in the Dominion of Canada;

(*b.*) To buy or take on lease, and then to sell, exchange, grant leases or deal in any way whatsoever with any mines, mining lands and mining properties, or to obtain options thereon for the same purposes. But no purchase of any mining property shall be made without a two-thirds vote of the whole board of directors;

(*c.*) To examine, inspect and investigate all such properties for the better placing of the same upon the market;

(*d.*) To develop mining properties which, on examination, give sufficient evidence of value to such an extent as the directors shall consider necessary to make the same marketable;

(*e.*) To purchase or obtain options on timber or other lands which by reason of their proximity to mining properties handled by the company may be deemed desirable;

(*f.*) To prospect for mining locations and acquire from the various Provincial Governments mining and other rights in same;

(*g.*) To act as promoters or agents in the formation of joint stock companies or syndicates for the sale and disposal of mining properties;

(*h.*) To act as agents for the sale or purchase of mining stocks or shares;

(*i.*) To act as a bureau of information on all subjects connected with mining in Canada;

(*j.*) To do all such things as may be necessary for the attainment of the above objects and the business incidental thereto;

(*k.*) To have the right to take paid-up unassessable stock in any joint stock company to whom this company shall have sold mines or mining properties in payment or part payment of the purchase money;

(*l.*) To have the right to issue paid-up and unassessable stock of the company in payment for mines and mining locations or mining rights and interests.

3. The chief place of business of the proposed company is to be the City of Toronto.

4. The proposed amount of the capital stock is $50,000.

5. The number of shares is to be 5,000, of a par value of $10 each.

6. The names in full, and the address and calling of each of the applicants are as follow :—John Juchereau Kingsmill, president of the Mining Institute of Ontario, Ewen Mackenzie, Esquire, Henry O'Brien, barrister, James Gunn, Esquire, George Plunkett Magann, merchant, Alexander Fraser, merchant, George Gurd, accountant, and Jacob Dolmage, miner, all of the City of Toronto, in the Province of Ontario; and John Geale Dickson, of Shirley, Southampton, England, Esquire; of whom the said John Juchereau Kingsmill, Ewen Mackenzie, Henry O'Brien, George Plunkett Magann and George Gurd, are to be the first or provisional directors of the said company.

ROBINSON, O'BRIEN & GIBSON,
Solicitors for the applicants.

MISCELLANEOUS.

THE ONTARIO BANK.

THE annual general meeting of the shareholders will be held at the banking-house, in this city, on Tuesday, the sixteenth day of June next.

At this meeting the shareholders will amongst other matters be asked to pass a by-law providing that the capital shall be reduced from $1,500,000 to $1,000,000. The chair will be taken at 12 o'clock noon.

By order of the Board,
CHARLES McGILL,
General manager.
Toronto, 15th May, 1896. 47–4

PUBLIC Notice is hereby given that a meeting of the shareholders of The Montreal and Province Line Railway Company will be held at the office, number 136 St. James Street, in the City of Montreal, at the hour of twelve of the clock noon, on the twenty-fifth day of June next, for the purposes of,—

First—Allotting the stock as provided under the charter.

Second—Taking over the property of the line of railway formerly known as The Montreal, Portland and Boston Railway Company, and

Generally to organize the said company, elect its officers and do such other business as may be necessary.

By order of the Provisional Board of Directors.
47–4

IN pursuance of Revised Statutes of Canada, chap. 92, and a certain Order in Council dated 12th June, 1893, notice is hereby given that Elias Rogers and Ferral Carlton Dinniny will after the expiration of one month from the date hereof, apply to His Excellency the Governor General in Council for approval of the construction of certain work in Toronto Bay, which may be described as the filling in of that part of the water lot lying immediately to the south of and adjacent to the water lot firstly described in a certain patent from the Crown to the Corporation of the City of Toronto, dated 21st February, 1840, bounded on the north by the line between the points near the site of the late French Fort and Gooderham's Windmill as described in said patent; on the east and west respectively by the production southerly of the western and eastern boundaries of the water lot owned by John Small and Alexander Legge as set out in said patent, and on the south by the Windmill line as fixed by said Order in Council of 12th June, 1893.

And notice is further given that the said applicants, in accordance with the provisions of said Statute, have deposited plans and a description of the proposed site with the Minister of Public Works, and a duplicate of each in the Office of the Registrar of the Eastern Division of the City of Toronto.

MACLAREN, MACDONALD, MERRITT
& SHEPLEY,
Solicitors for applicants,
28–30 Toronto St., Toronto.
Dated at Toronto, this 23rd May, 1896. 47–5

ONTARIO PACIFIC RAILWAY COMPANY.

THE annual general meeting of the shareholders of said company will be held at the office of Flack Bros., in the Town of Cornwall, on Saturday, the 30th day of May instant, at two o'clock p.m.

By order,
D. A. FLACK,
Secretary.
Cornwall, 14th May, A.D. 1896. 47–2

NOTICE.—A special meeting of the shareholders of The St. Lawrence and Adirondack Railway Company will be held at the office of the company, at Montreal, on the 13th day of June, 1896, at 10.30 o'clock a.m., to consider a proposition to retire and cancel the present outstanding first mortgage bonds, and to issue in place thereof new 5 per cent gold bonds to the amount of $800,000, to be secured by a first mortgage; and to consider a further proposition to issue 6 per cent gold bonds of the company to an amount not exceeding $400,000, which are to be secured by a second mortgage; and to consider such further business as may properly come before said meeting.

FRANK G. SMITH,
Secretary.
Montreal, 19th May, 1896. 46–5

NOTICE.—Lam Tung, of the City of New Westminster in the Province of British Columbia, has deposited with the Honourable the Minister of Public Works, at Ottawa, and also with the Registrar of Deeds for the District of New Westminster in the said province, a plan showing certain works or buildings constructed by him upon the Fraser River within the said district, and a description of the site in which such works have been placed.

The said Lam Tung will apply to the Governor General in Council immediately after one month from the first publication of this notice for his approval of such plan and site and of the construction of the said works.

LAM TUNG.
Dated this 1st day of May, 1896. 46–5

NOTICE is hereby given, in accordance with the provisions of section 15 of The North-west Irrigation Act, as amended, that the application of the Springbank Irrigation District for the right to divert sufficient water from the Elbow River, on the S.E. ¼ of Section 4, Township 24, Range 4 west of the 5th Meridian, to irrigate some 21,200 acres as shown by the plans filed by the district, and to construct the necessary works to enable the water so diverted to be used for irrigation purposes, has received the approval of the Governor in Council to the extent that the district has been granted the right to divert the water applied for at high water stage of the stream, and further has been granted five years from the 18th February, 1895, within which to complete the construction of their works, no changes or alterations in these proposed works having been ordered by the Governor in Council.

The memorial of the district, accompanied by the necessary plans, profiles and specifications was filed with the Minister of the Interior, on the fourteenth of November, 1894, and with the Agent, on the 5th day of November, 1894.

The particulars as to the district and the proposed works are as follows:—

The district was created under the provisions of The Irrigation District Ordinance passed by the Legislative Assembly of the North-west Territories in September, 1894, and which was subsequently confirmed by the Act of Parliament 58–59 Vict., chap. 33.

The district is authorized by the provisions of The Irrigation District Ordinance to pledge the lands within the district as security for debentures sold to raise the amounts necessary to construct the above mentioned works, the amount so raised being limited to a sum equal to six dollars per acre upon the lands which can be actually irrigated from the proposed works, with an assessment limited to one dollar per acre per annum upon the lands irrigated, to pay for interest, management, maintenance and sinking fund.

The present Trustees of the district, who under the provisions of The Irrigation District Ordinance are the Board of Management, are, Joseph McPherson, William A. Gibson and W. W. Stuart.

The probable number of consumers of the water diverted is stated by the memorial filed to be one hundred. The lands to be irrigated in their present condition with improvements, are stated to be worth about $8 per acre, which lands are stated to be at present used for ranching purposes, and to be unsuitable for agriculture except by the application of water through irrigation.

The rates to be charged by the district for water supplied for irrigation purposes is the rate to be hereafter fixed under the provisions of The Irrigation District Ordinance above referred to. 45-5

CALGARY AND EDMONTON RAILWAY COMPANY.

NOTICE is hereby given that a special general meeting of the shareholders of this company will be held on the tenth day of June, 1896, at the hour of eleven o'clock in the forenoon, in the Windsor Hotel, in the City of Montreal, for the purpose of consenting to an agreement or arrangement made by the directors of this company with the Canadian Pacific Railway Company for the regulation and interchange of traffic, and the working of traffic over the railways of both companies, and for the division and apportionment of tolls, rates and charges in respect to such traffic.

R. A. SMITH,
Secretary, C. and E. Ry. Co.

Dated this 28th day of April, A.D. 1896. 44–4

A Notre Hôtel du Gouvernement, en Notre CITÉ d'OTTAWA, ce QUINZIÈME jour de MAI, dans l'année de Notre-Seigneur, mil huit cent quatre-vingt-seize, et de Notre Règne la cinquante-neuvième.

Par ordre,

JOSEPH POPE,
Sous-Secrétaire d'Etat.

DÉPÊCHES.

À OSBORNE HOUSE, ILE DE WIGHT,

Le 8e jour de février 1896.

PRÉSENTE :

Sa Très Excellente Majesté la Reine.

CONSIDÉRANT que par un arrêté en conseil rendu en conformité de l'Acte modifiant l'Acte de la marine marchande, 1862, et daté le onzième jour d'août mil huit cent quatre-vingt-quatre, Sa Majesté, sur la recommandation conjointe de l'Amirauté et de la Chambre de Commerce a bien voulu ordonner que dès et après le premier jour de septembre 1884, les règlements contenus dans l'annexe du dit arrêté soient, en ce qui concerne les navires et bateaux britanniques, substitués aux règlements contenus dans la première annexe d'un arrêté en conseil rendu comme susdit, et daté le quatorzième jour d'août 1879 ;

Et considérant que par deux arrêtés en conseil rendus en conformité du dit acte, et sur la recommandation conjointe susdite, et datés respectivement le trentième jour de décembre 1884, et le vingt-quatrième jour de juin 1885, certaines modifications et additions ont été faites aux dits règlements contenus dans l'annexe du dit arrêté en conseil du onzième jour d'août 1884, au sujet des vaisseaux et bateaux de pêche britanniques ;

Et considérant que par un autre arrêté en conseil rendu en conformité du dit acte, et sur la recommandation conjointe susdite, et daté le 18e jour d'août 1892, certaines modifications et additions ont été apportées aux dits règlements contenus dans l'annexe du dit arrêté en conseil du 11e jour d'août 1884, au sujet des bateaux-pilotes à vapeur ;

Et considérant que par les dits règlements contenus dans l'annexe du dit arrêté en conseil du onzième jour d'août 1884, il est entre autres choses décrété comme suit, savoir :—

Article 3.—Les navires à vapeur de long cours, lorsqu'ils sont en marche, doivent porter les feux suivants :—

(*a.*) En tête ou en avant du mât de misaine, à une hauteur de pas moins de vingt pieds au-dessus du plat-bord, et si le navire a plus de vingt pieds de largeur, alors à une hauteur au-dessus du plat-bord au moins égale à cette largeur, un feu blanc placé de manière à fournir un rayonnement uniforme et non interrompu dans tout le parcours d'un arc horizontal de vingt quarts du compas,—établi de façon à projeter la lumière de dix quarts de chaque côté du navire, c'est-à-dire depuis l'avant jusqu'à deux quarts en arrière du travers de chaque bord, et d'une portée telle qu'il puisse être visible à cinq milles au moins de distance, par une nuit sombre, mais sans brume ;

(*b.*) A tribord, un feu vert, établi de façon à projeter une lumière uniforme et non interrompue sur un arc horizontal de dix quarts du compas,—placé de manière à projeter la lumière depuis l'avant jusqu'à deux quarts sur l'arrière du travers à tribord, et d'une portée telle qu'il puisse être visible à deux milles au moins de distance, par une nuit sombre, mais sans brume ;

(*c.*) A bâbord, un feu rouge établi de façon à projeter une lumière uniforme et non interrompue sur un arc horizontal de dix quarts du compas,—placé de manière à projeter la lumière depuis l'avant jusqu'à deux points sur l'arrière du travers à bâbord, et d'une portée telle qu'il puisse être visible à deux milles au moins de distance, par une nuit sombre, mais sans brume ;

(*d.*) Ces feux de côté vert et rouge doivent être munis, en dedans du bord, d'écrans dirigés de l'arrière à l'avant et s'étendant à trois pieds au moins en avant de la lumière, afin que le feu vert ne puisse pas être aperçu de bâbord avant, et le feu rouge de tribord avant.

Et considérant que par un autre arrêté en conseil, rendu en conformité du dit acte, et sur telle recommandation susdite, et daté le 30e jour de janvier 1893, les dits règlements contenus dans l'annexe du dit arrêté en conseil du 11e jour d'août 1884, ont été de plus modifiés par l'addition au dit article 3 précité, des dispositions contenues dans l'annexe au dit arrêté en conseil présentement cité et énoncé dans l'annexe ci-jointe ;

Et considérant que l'Amirauté et la Chambre de Commerce ont conjointement recommandé à Sa Majesté que le dit arrêté en conseil précité du 30e jour de janvier 1893, soit rescindé à l'effet que les modifications et additions apportées au dit article 3 précité, et énoncées dans l'annexe ci-jointe, cesseront d'être en vigueur ;

Et considérant qu'il a plu à Sa Majesté, par et avec l'avis de Son Conseil privé, le 12e jour de décembre 1895, par un arrêté provisoire dans le sens de l'Acte de publication des règlements, 1893, de rescinder le dit arrêté en conseil du 30 de janvier 1893 ;

Et considérant que les dispositions de l'article 1 de l'Acte des règles de publication 1893, ont été remplies :

Sachez donc qu'il plaît à Sa Majesté, en vertu des pouvoirs qui lui sont conférés par l'Acte de la marine marchande, 1894, et par et avec l'avis de Son Conseil privé, de rescinder le dit arrêté en conseil précité du 30e jour de janvier 1893, et d'ordonner qu'à compter de la date du présent arrêté les dispositions contenues dans l'annexe de l'arrêté en dernier lieu mentionné et du présent arrêté, cesseront d'être en vigueur, et le dit article 3 des dits règlements contenus dans le dit arrêté en conseil du 11e jour d'août 1884, aura le même effet que si le dit arrêté en conseil du 30e jour de janvier 1893, n'avait jamais été passé.

45-3 C. L. PEEL.

AU CHATEAU DE WINDSOR,

22 février 1896.

PRÉSENTE :

Sa Très Excellente Majesté la Reine en conseil.

CONSIDÉRANT que par un arrêté daté le 23 de juillet 1889, rendu par Sa Majesté dans l'exercice des pouvoirs qui lui sont conférés par l'*Acte modifiant l'Acte de la marine marchande*, 1862, il a plu à Sa Majesté par et avec l'avis de Son Conseil privé d'ordonner ce qui suit :—

1. En ce qui concerne les navires à voiles : Que les navires marchands à voiles de l'Empire d'Allemagne dont le mesurage, le et après le 5e jour de janvier 1873, a été déterminé et inscrit dans les registres et autres documents nationaux du bord, attestés par leurs dates, seront censés être du tonnage inscrit dans ces registres et autres documents nationaux, de la même manière, au même degré et pour toutes les fins pour lesquelles le tonnage inscrit sur le certificat d'enregistrement des navires à voiles britanniques est censé être le tonnage de ces navires ;
2. En ce qui concerne les navires à vapeur : Que les navires marchands appartenant à l'Empire d'Allemagne, et mûs par la vapeur ou autre force motrice, exigeant une chambre des machines, et dont le mesurage, le et après le 1er jour de janvier 1873, a été déterminé et inscrit dans les registres et autres documents nationaux du bord, attestés par leurs dates, seront censés être du tonnage inscrit dans ces registres ou autres documents nationaux, de la même manière, au même degré, et pour toutes les fins pour lesquelles le tonnage inscrit sur le certificat d'enregistrement des navires britanniques est censé être le tonnage de ces navires ; pourvu, toutefois, que si le propriétaire ou capitaine d'un navire à vapeur allemand désire que la déduction pour la chambre des machines dans son navire soit évaluée suivant les règlements concernant le mesurage de la chambre des machines et la déduction applicables aux vapeurs britanniques, plutôt que d'après les règlements allemands, la chambre des machines sera mesurée et la déduction sera calculée suivant les règlements britanniques, et que dans le cas où ce vapeur possèderait un certificat de tonnage ou autre document national délivré comme susdit le ou après le 20e jour de juin 1888, indiquant le tonnage de registre net de ce navire selon les règlements britanniques, le navire sera censé être du tonnage ainsi indiqué.

Et considérant que par l'article 84 de l'*Acte de la marine marchande* 1894, il est statué que lorsqu'il appert à Sa Majesté la Reine en conseil que les règlements de tonnage du dit acte ont été adoptés par un pays étranger, et y sont en force, Sa Majesté en conseil pourra ordonner que les navires du dit pays, seront, sans être remesurés dans les possessions de Sa Majesté, censés être du tonnage indiqué dans leurs certificats d'enregistrement ou autres papiers nationaux, de la même manière, au même degré et pour les mêmes fins que le tonnage indiqué dans le certificat d'enregistrement d'un navire britannique est censé être le tonnage de ce navire.

Et considérant qu'il a été démontré à Sa Majesté en conseil que les règlements de tonnage de l'*Acte de la marine marchande*, 1894, ont été adoptés par le gouvernement de Sa Majesté l'Empereur d'Allemagne, et que ces règlements y sont en vigueur, étant devenus exécutoires le 1er jour de juillet 1895 ;

Et considérant qu'il existe ou peut encore exister des navires appartenant à l'Empire d'Allemagne auxquels l'arrêté précité du 23 juillet 1889 peut s'appliquer, et qu'il n'est pas à propos de révoquer cet arrêté, mais de le laisser en vigueur aussi longtemps qu'il restera des navires auxquels cet arrêté peut s'appliquer ;

Et considérant que les dispositions du premier article de l'*Acte de publication des règlements*, 1893, ont été remplies :

Sachez donc qu'il plaît à Sa Majesté, en vertu des pouvoirs ci-dessus mentionnés, et par et avec l'avis de Son Conseil privé, d'ordonner que les navires marchands de l'Empire d'Allemagne, dont le mesurage le 1er jour de juillet 1895, a été déterminé et inscrit dans les registres et autres documents nationaux du bord, attestés par leurs dates, seront censés être du tonnage inscrit dans ces registres ou autres documents nationaux, de la même manière, au même degré, et pour toutes les fins pour lesquelles le tonnage inscrit sur le certificat d'enregistrement d'un navire britannique est censé être le tonnage de ce navire.

44-4 C. L. PEEL.

ARRÊTÉS EN CONSEIL.

RÈGLEMENTS DE QUARANTAINE.

Par arrêté en conseil daté le 4 de mai 1896, en vertu du chapitre 68, Statuts revisés, intitulé : "Acte concernant la quarantaine."

Tout le service quarantenaire du Canada est sous le contrôle du Ministre de l'Agriculture.

Il y a un officier médical comme Surintendant général de la Quarantaine Canadienne.

Sur la côte du Pacifique il y a un Surintendant Médical des quarantaines pour la Colombie-Britannique.

Chaque station de quarantaine est sous la charge immédiate d'un officier médical de quarantaine spécialement nommé.

A chaque station de quarantaine maritime non organisée ou station de quarantaine de l'intérieur, le percepteur des douanes de l'endroit est l'officier de quarantaine pour les fins des présents règlements.

Stations de quarantaine.

Les stations de quarantaine du Canada, sont :—

1. Sur la côte de l'Atlantique,—

(*a*.) Grosse-Ile, dans le fleuve Saint-Laurent, avec Rimouski, la levée Louise et le quai du Grand-Tronc à Lévis, comme stations auxiliaires, provinee de Québec ;

(*b*.) Halifax, le havre et l'île Lawlor, dans la province de la Nouvelle-Ecosse ;

(*c*.) Saint-Jean, le havre et l'île aux Perdrix, dans la province du Nouveau-Brunswick ;

(*d*.) Sydney, Cap-Breton, dans la province de la Nouvelle-Ecosse ;

(*e*.) Pictou, dans la province de la Nouvelle-Ecosse ;

(*f*.) Hawkesbury, dans la province de la Nouvelle-Ecosse ;

(*g*.) Chatham, dans la province du Nouveau-Brunswick ;

(*h*.) Charlottetown, dans la province de l'Ile du Prince-Edouard.

2. Sur la côte du Pacifique,—

(*a*.) William Head, y compris Albert Head, dans le détroit de Fuca, province de la Colombie-Britannique, et comprenant aussi le port de Victoria comme station auxiliaire ; et

(*b*.) Vancouver.

3. Tout autre port, sur les deux côtes, chaque tel port étant désigné comme Station de quarantaine maritime non organisée.

4. Et tout port douanier intérieur sur la frontière canadienne, entre les océans Pacifique et Atlantique, chaque tel port étant désigné comme Station de quarantaine intérieure non organisée.

5. Tout officier de quarantaine à une station de quarantaine en Canada, et tout percepteur des douanes en sa capacité d'officier de quarantaine, seront, pour les fins des présents règlements, juges de paix en vertu des dispositions de l'article 5 de l'*Acte concernant la quarantaine*, chap. 68 des Statuts revisés.

Dispositions générales.

6. Tout navire arrivant d'un port en dehors du Canada à une station de quarantaine organisée sera inspecté par un officier de quarantaine dûment nommé, à l'endroit dûment fixé pour cette inspection, et il ne lui sera pas permis de faire une déclaration à la douane à aucun port du Canada tant qu'il n'aura pas reçu une patente de santé.

(*a*.) Si un navire venant d'un port infecté et en destination d'un port en Canada qui est une station de quarantaine non organisée, a à passer une station de quarantaine organisée, il lui faudra arrêter à cette dernière station avant de continuer sa route.

7. Il ne sera permis à aucune personne de débarquer d'un navire tant que cette personne n'aura pas été déclarée par un officier de quarantaine exempte de maladie contagieuse, ni tant que cet officier ne sera pas satisfait que ce débarquement peut s'effectuer sans danger pour la salubrité publique.

8. Tout navire venant d'un port en dehors du Canada, et ayant besoin d'une inspection quarantenaire, devra, en arrivant à un port quelconque du Canada hisser un pavillon jaune à l'avant comme signal distinct de quarantaine, de façon à informer l'officier de quarantaine que ses services sont requis, et tout navire arrivant la nuit exhibera un feu rouge à l'avant comme tel signal.

9. Les caboteurs de Terreneuve et de ports des Etats-Unis contigus au Canada, et exempts de maladie contagieuse pourront, de temps à autre, être exemptés des présents règlements par ordre du Ministre de l'Agriculture.

10. Tout navire de guerre de Sa Majesté ou tout transport portant des troupes de Sa Majesté, accompagné d'un médecin, et n'ayant pas de maladie à bord, est exempt de l'inspection et de la détention quarantenaires.

Détention quarantenaire.

11. Chaque officier de quarantaine devra s'assurer de la présence ou de l'absence d'une maladie infectieuse par une inspection personnelle des personnes à bord, ou par la déclaration assermentée du capitaine ou du chirurgien, en la formule ci-jointe, ou par les deux.

12. Tout navire ayant de la maladie contagieuse à bord, ou venant d'un port ou pays infecté, sera sujet à être détenu à une station de quarantaine pour y être désinfecté, ainsi que ses passagers, son équipage et son pilote, et le bagage des passagers et la cargaison.

(*a*.) Un navire pourra être détenu à la quarantaine pour être désinfecté pendant tout le temps que la chose sera nécessaire ;

(*b*.) Le temps pendant lequel un navire pourra être détenu en quarantaine d'observation, est la période acceptée de l'incubation de la maladie contre laquelle l'on se garde à compter de la date constatée de la dernière exposition possible.

13. Tout navire ainsi détenu par ordre de l'officier de quarantaine sera sans délai ancré ou mouillé à l'endroit que fixera l'officier de quarantaine.

14. Et tant que ce navire est ainsi détenu, personne ne quittera le navire, ni n'aura de communication avec tel navire, sans la permission de l'officier de quarantaine.

15. L'officier de quarantaine qui détiendra un navire comme susdit, devra immédiatement avertir le Ministre de l'Agriculture, et donner la cause de cette détention.

16. D'après l'interprétation des présents règlements, un port ou pays infecté est un port ou pays où le choléra asiatique ou autre maladie épidémique a été communiqué à une ou plusieurs personnes par la voie d'une personne ou d'effets d'habillement infectés ou

autrement. Un port ou pays n'est pas considéré infecté lorsqu'il ne s'est déclaré qu'un simple cas ou un petit nombre de cas et que la maladie n'a pas été communiquée par ces cas.

Heures d'inspection—Retour en mer—Frais.

17. Tout navire pourra être inspecté en tout temps pendant les vingt-quatre heures.

(*a.*) Sauf que dans les temps d'épidémie le Ministre de l'Agriculture pourra ordonner que l'inspection ne se fasse que pendant les heures de jour ;

(*b.*) Toutes les inspections quarantenaires, à l'exception de celles faites en vertu de l'article 46 (*a*), seront faites sans frais contre le navire.

18. Tout navire aura le droit, avant de rompre son chargement, de retourner en mer au lieu de se mettre en quarantaine, tel que prévu par l'article 9 de l'acte intitulé *Acte concernant la quarantaine*, chap. 68, Statuts revisés.

19. Tous les frais encourus pour l'entretien des personnes en santé qui pourraient avoir été exposées à l'infection, et sont détenues en quarantaine d'observation, seront à la charge du navire.

(*a.*) Et le capitaine d'un navire pourra faire des arrangements avec l'officier de quarantaine pour débarquer les provisions nécessaires et les serviteurs ou économes pour les distribuer à l'endroit où les passagers sont débarqués ;

(*b.*) Les personnes actuellement malades seront traitées et soignées dans les hôpitaux de quarantaine, aux frais du gouvernement ;

(*c.*) S'il est permis à un navire de continuer sa route et de laisser ses passagers en quarantaine, le transport subséquent de tels passagers de la quarantaine au port de destination sera à la charge du navire ;

(*d.*) Les appareils, les matériaux et la main-d'œuvre pour désinfection sont fournis par le gouvernement sans frais contre le navire.

Maladies quarantenaires.

20. Les principales maladies quarantenaires sont : le choléra asiatique, la petite vérole, le typhus, la fièvre jaune et la peste. Les maladies secondaires, sont la fièvre scarlatine, les fièvres entériques (typhoïdes), la diphtérie, la rougeole et la varicelle (petite vérole volante).

(*a.*) En sus de ce qui précède il est du devoir de tout officier de quarantaine de s'assurer de la présence ou de l'absence de toute autre maladie contagieuse ou infectieuse ;

(*b.*) Et quant à la lèpre il est du devoir de chaque officier de quarantaine, surtout sur la côte du Pacifique, de bien s'assurer de la présence ou de l'absence de cette maladie parmi les passagers ; et advenant la découverte de quelque cas de cette maladie, la personne atteinte n'aura pas la permission de descendre à terre, mais elle devra être ramenée par le navire à l'endroit d'où elle vient.

Les pilotes fourniront les règlements.

21. Chaque pilote devra fournir au capitaine de tout navire arrivant à un port en Canada, un exemplaire des présents règlements sous peine de l'amende ci-après prescrite.

Vaccination.

22. Chaque passager sera tenu de prouver à la satisfaction de l'officier de quarantaine qu'il a été vacciné ou qu'il a déjà eu la petite vérole.

23. La production d'un certificat par le chirurgien du navire, appelé "Carte de protection," et sa déclaration sous serment à l'appui de la vérité de ce certificat, seront considérées par l'officier de quarantaine comme preuve de cette vaccination et de cette protection. Toutefois, l'officier de quarantaine pourra, de temps à autre, faire un examen personnel des porteurs de ces certificats, afin de s'assurer de la manière que ces certificats ont été émis.

24. Toute personne qui ne donnera pas une preuve satisfaisante d'avoir été vaccinée ou d'avoir eu la petite vérole, sera vaccinée par un officier de quarantaine, ou, dans le cas de refus, sera débarquée à la station de quarantaine, pour y subir une quarantaine d'observation ; et les frais d'entretien de cette personne pendant cette quarantaine d'observation seront une dette sur le navire.

(*a.*) Un navire qui arrive à une station de quarantaine en Canada sera moins sujet d'être détenu si la vaccination de tous les passagers d'entrepont qui n'offrent aucune preuve d'avoir été vaccinés dans les derniers sept ans, est exigée avant l'embarquement. Le chirurgien du navire devrait s'assurer du fait vis-à-vis de chaque passager au début de la traversée, ou au temps de l'embarquement si possible, afin d'être en état de répondre aux questions que lui posera l'officier de quarantaine.

26. Si la petite vérole s'est déclarée sur un navire, chaque passager à bord qui n'offre aucune preuve satisfaisante d'avoir été vacciné dans le cours des derniers sept ans, ou d'avoir eu la petite vérole durant cette période, sera vacciné par ou sous la surveillance de l'officier de quarantaine ; ou, dans le cas de refus, il sera débarqué à la station de quarantaine, sujet à la détention pour observation, et les frais d'entretien de cette personne ou de ces personnes pendant cette détention sera une dette sur le navire.

Examen.

26. L'officier de quarantaine examinera le chirurgien ou tout officier d'un navire, sous serment, touchant l'état de santé de ce navire et de chaque personne à bord, dans la forme de questions annexées aux présents règlements.

Isolement.

27. Tout navire muni d'un hôpital isolé pour les hommes, et un autre pour les femmes, sur le pont supérieur, ventilé d'en haut et non par la porte seulement, pourra, s'il est prouvé à la satisfaction de l'officier de quarantaine que cet hôpital a été promptement et intelligemment employé, continuer sa route après avoir mis à terre les malades, et après la désinfection de l'hôpital qui aura servi ; néanmoins, tout navire qui arrivera avec quelque maladie infectieuse, sans être muni de ces hôpitaux spéciaux isolés et ventilés, ou, étant muni de ces hôpitaux, sans preuve satisfaisante qu'ils ont été promptement ou intelligemment employés, sera sujet à être détenu pour être désinfecté à une station de quarantaine.

Malles à Rimouski.

28. Dans le cas d'un navire portant les malles de Sa Majesté et arrivant par la voie du Saint-Laurent, le certificat d'acquit sera accordé par un officier de quarantaine à Rimouski ou Grosse-Ile, et dans le cas de tout autre navire à la Grosse-Ile seulement.

(*a.*) Sauf que durant un temps de choléra ou autre épidémie, la permission accordée à un paquebot-poste venant d'un port ou pays infecté, de débarquer des passagers à Rimouski, pourra être suspendue par ordre du Ministre de l'Agriculture ;

(*b.*) Et dans ces conditions les malles seules seront débarquées à Rimouski, le navire continuant sa route à la Grosse-Ile pour inspection ;

(*c.*) Si le choléra s'était déclaré à bord de ce navire dans le cours de la traversée, les sacs extérieurs contenant les matières postales seront laissés à bord du vapeur pour être désinfectés à la Grosse-Ile.

Désinfection du bagage.

29. En temps de choléra ou autre épidémie, le bagage des immigrants ou passagers sur un navire arrivant à un port du Canada, que ce navire vienne ou non d'un port ou pays infecté, pourra, par ordre du Ministre de l'Agriculture, être désinfecté dans chaque cas.

(*a.*) Lorsque cette désinfection est faite à une station auxiliaire, subséquemment à l'inspection et acquit à la station principale, l'acquit accordé par l'officier quarantenaire portera comme condition que les immigrants et leur bagage seront débarqués pour être désinfectés.

(*b.*) L'officier surveillant cette désinfection comptera les immigrants à mesure qu'ils débarquent, et s'il trouve que le nombre s'accorde avec le nombre marqué sur l'acquit de l'officier de quarantaine, et a une preuve satisfaisante que tout leur bagage a été débarqué avec eux, il poinçonnera l'acquit à l'endroit marqué à cette fin, et cet acquit sera alors reçu à la douane.

Certificats de passage.

30. Chaque officier de quarantaine maritime poinçonnera le "Certificat de passage International" d'immigrants, quand ce certificat est en usage, de manière à faire connaître aux officiers de santé à l'intérieur le résultat de l'inspection quarantenaire, tel que prévu par cette carte ou certificat.

(*a.*) Chaque officier de quarantaine maritime poinçonnera la liste des immigrants par destination, province, (ou Etat s'ils sont en destination des Etats-Unis), quand de telles listes sont en usage, que fournira le chirurgien du navire sur des formules fournies par le gouvernement, et transmettra ces listes sans délai au secrétaire du bureau d'hygiène dans la province ou Etat où ces immigrants sont destinés.

Remorqueurs à vapeur.

31. Tout remorqueur ou autre navire à vapeur qui aura remorqué ou autrement communiqué avec un navire de la classe de ceux sujets à la quarantaine ou l'inspection quarantenaire, sera, par ce fait, soumis aux mêmes règlements et exigences qui s'appliquent au navire avec lequel il y aura eu communication.

(*a.*) Si la communication entre le navire et le remorqueur à vapeur se borne à l'amarrage d'un câble, qui est ensuite relâché, l'officier de quarantaine pourra décider d'exempter ce remorqueur de la détention quarantenaire.

Guenilles.

32. Les guenilles venant d'un port ou pays où sévit une maladie infectieuse, pourront être prohibées, et le nom de tout port ou pays ainsi infecté sera, de temps à autre, publié dans la *Gazette du Canada* ;

(*a.*) Les guenilles venant de ports prohibés à une station de quarantaine, seront sujettes à être brûlées ou autrement traitées sur l'ordre du Ministre de l'Agriculture basé sur un rapport de l'officier de quarantaine.

Nouvelles marchandises.

33. Les nouvelles marchandises en général pourront être acceptées sans question.

Périodes d'épidémie.

34. Pendant une période de maladie épidémique les passagers devraient être avertis par les agents de vapeurs de se dispenser, autant que possible, de bagage que l'eau pourrait gâter, dans le cas où il leur faudrait subir la désinfection—tels que les tissus dont les couleurs pourraient déteindre—vu que les propriétaires seront obligés de supporter tous les risques de dommages.

35. Durant une période de maladie épidémique les navires devraient se dispenser, autant que possible, des tentures, rideaux, tapis, etc., de laine, et y substituer des couvertures non absorbantes.

36. Chaque navire portant cargaison, et sujet à être désinfecté, devrait être muni d'un conduit en charpente uni, donnant un espace libre de 12 pouces partout à l'intérieur, placé dans la grande écoutille, pour un navire à voiles ; et un dans chaque écoutille d'un vapeur, divisé par des cloisons. La charpente de ce conduit serait posée avant le chargement, et s'étendrait de l'écoutille au fond de cale. Ce simple arrangement recevrait le tuyau de fumigation et éviterait de déranger la cargaison.

Passagers.

37. Pour les fins des présents règlements, les passagers sont divisés en deux classes : cabine et entrepont. Les passagers d'entrepont sont ceux qui occupent des compartiments autres que ceux de premières et de secondes.

Méthodes de désinfection.

38. Les méthodes de désinfection aux stations de quarantaine du Canada seront comme suit :—

(*a.*) Exposition à la vapeur pas moins que 30 minutes, température de la vapeur pas moindre que 100° centigrade (212° Fahrenheit) ni plus élevée que 115° centigrade (239° Fahrenheit) ;

(*b.*) Les articles susceptibles d'être détruits par la susdite méthode seront désinfectés en les mouillant parfaitement avec une solution de chlorure mercurique, dans la proportion d'une partie dans mille, ou disons un drachme dans un gallon, mesure de vin, ce qui peut se faire par le moyen d'une brosse, ou par l'arrosage ou le trempage ;

(*c.*) Si l'on emploie du dioxyde de soufre, on l'obtient en brûlant pas moins de 3 livres de soufre en canon par 1,000 pieds cubes d'espace, ou si on l'emploie sous forme liquide, de la même force proportionnée, et la période d'exposition sera d'au moins 6 heures.

39. La désinfection des navires en fer se fera comme suit, selon le cas :—

(*a.*) *Cales.*—Après le nettoyage mécanique, la cale sera parfaitement lavée avec une solution acidique de chlorure mercurique, 1 dans 800 (chlorure mercurique, 1 partie, acide hydrochlorique 2 parties, eau 800 parties), appliquée à toutes les surfaces au moyen d'un boyau. Si l'on redoute les effets dangereux du mercure déposé sur les surfaces, on pourra les laver plus tard avec de l'eau nette ;

(*b.*) *Entrepont.*—Le même traitement devrait être appliqué à l'entrepont qu'à la cale, mais quand le navire est muni d'un tuyau à vapeur pour chaque compartiment (en cas d'incendie), la désinfection à la vapeur de l'entrepont sera pratiquée. La température dans toutes les parties de chaque compartiment ne sera pas moindre que 100° C. (212° Fahr.) ;

(*c.*) *Gaillard d'avant ou département de l'équipage.*—Après le nettoyage mécanique, l'application du chlorure mercurique de la manière ci-dessus décrite, ou les fumées sulfureuses, ou la désinfection à la vapeur, si des facilités sont fournies à cette fin ;

(*d.*) *Quartiers des officiers, cabines, etc.*—Chaque compartiment recevra le même traitement, dans les mêmes conditions que ci-dessus, mais il faudra se rappeler que les décorations en métal dans les cabines, salons, etc., seraient gâtées par l'usage de la solution de chlorure mercurique, et en conséquence, il faudra employer d'autres formes de désinfection, selon que le décidera l'officier de quarantaine.

40. La désinfection des navires de bois se fera comme suit, selon le cas :—

(*a.*) Fumigation au moyen de dioxyde de soufre obtenu en brûlant pas moins que 3 livres de soufre en canon pour chaque 1,000 pieds cubes d'espace ; ou au moyen du dioxyde de soufre liquide dans la même proportion ; et la durée de l'exposition sera d'au moins 24 heures ;

(*b.*) Lavage ou arrosage avec une solution acidique de chlorure mercurique (1 dans 800). Cabines, gaillard d'avant et autres appartements seront parfaitement lavés avec une solution mercurique.

41. Dans toutes les catégories de navires, tous les vêtements, literie, rideaux, etc., seront exposés à la vapeur pendant 30 minutes, à une température de 100° C. (212° Fahr.) à 115° C. (239° Fahr.)

42. Dans toutes les classes de navires les fonds de cales seront d'abord remplis d'eau de mer ou de rivière, vidés par les pompes et ensuite traités d'une solution de chlorure mercurique en grande quantité, laissée en contact longtemps.

Stations de quarantaine maritime non organisées.

43. A tout port où il n'y aura pas de station de quarantaine régulière, le percepteur des douanes sera l'officier de quarantaine pour les fins des présents règlements ; et dans le cas de maladie, ce percepteur pourra, pour les fins des présents règlements, appeler un médecin, qui sera, tant qu'il sera ainsi employé, censé être un officier de quarantaine ; et chaque tel port sera désigné comme station de quarantaine maritime non organisée.

44. Tout navire arrivant d'un port infecté à une station de quarantaine maritime non organisée, ou à bord duquel serait survenu quelque décès d'une maladie infectieuse ou se serait déclarée quelque maladie infectieuse pendant la traversée, restera au large jusqu'à ce qu'il reçoive de l'officier de quarantaine la permission d'entrer.

45. Tous les règlements applicables aux stations de quarantaine maritime régulièrement organisées s'appliqueront aussi à chaque station de quarantaine maritime non organisée en tant que les circonstances le permettront, et surtout les dispositions touchant l'ins-

pection, l'ancrage et le mouillage, la désinfection, les acquits de douane, le retour en mer avant de rompre le chargement, les questions au chirurgien ou aux officiers du navire, et les amendes.

46. Tout percepteur ou sous-percepteur des douanes en sa capacité d'officier de quarantaine à une station de quarantaine maritime non organisée en Canada, qui apprend ou a raison de soupçonner la présence d'aucune des principales maladies quarantenaires citées à l'article 20 des présents règlements, ordonnera qu'il soit fait une inspection médicale du navire apportant cette maladie ;

(*a.*) Si un navire arrive à une station de quarantaine maritime non organisée avec de la maladie sujette à quarantaine à bord, le capitaine paiera un honoraire de $4 pour chaque inspection médicale ordonnée par l'officier de quarantaine, et cet honoraire devra être payé avant que l'acquit de douane ne soit accordé ;

(*b.*) S'il ne se trouve pas de maladie à bord d'un navire arrivant à une station de quarantaine maritime non organisée et que l'officier de quarantaine a ordonné d'inspecter, les frais de cette inspection ne seront pas une charge contre le navire, mais seront défrayés par le gouvernement.

(*c.*) Si la maladie trouvée à bord d'un navire, ou l'historique, les conditions, ou les circonstances d'un navire sont telles qu'il paraîtrait au percepteur ou sous-percepteur des douanes que les capacités d'isolation ou de désinfection existant à une station de quarantaine maritime non organisée, sont insuffisantes pour faire face à cette maladie, il en fera rapport immédiatement au Ministre de l'Agriculture, lequel pourra, à sa discrétion, ordonner que le navire se rende à une station de quarantaine organisée afin d'obtenir une patente de santé avant de pouvoir faire de déclaration en douane. Et dans ce cas les frais de transfert du navire à la station de quarantaine maritime organisée sera une dette sur le navire.

Stations de quarantaine non organisées de l'intérieur.

47. Chaque port de l'intérieur, sur la frontière du Canada, entre les océans Atlantique et Pacifique, où il se trouve un percepteur ou un sous-percepteur des douanes, sera, pour les fins des présents règlements, constitué en station de quarantaine non organisée de l'intérieur.

48. Chaque percepteur ou sous-percepteur de douanes à tout tel port de frontière, sera l'officier de quarantaine.

49. Tout percepteur ou sous-percepteur des douanes, en sa capacité d'officier de quarantaine à une station de quarantaine non organisée de l'intérieur en Canada, s'il est informé ou s'il a raison de soupçonner la présence d'une des principales maladies quarantenaires citées à l'article 20 des présents règlements, devra, en temps de choléra ou autre maladie épidémique, faire faire une inspection médicale du char, wagon, véhicule, bateau ou chose apportant cette maladie ;

(*a.*) Et cet officier de quarantaine est autorisé à détenir ce char, wagon, véhicule, bateau ou chose, jusqu'à ce que cette inspection médicale ait été faite à sa satisfaction ;

(*b.*) Tout médecin faisant cette inspection par ordre de l'officier de quarantaine, sera, tant qu'il sera ainsi engagé, le médecin de quarantaine.

50. L'honoraire payable à ce médecin de quarantaine pour chaque telle inspection n'excèdera pas la somme de $4, et dans le cas où il se découvrirait une maladie sujette à la quarantaine, cet honoraire sera payable par la compagnie ou propriétaire du char, wagon, véhicule, bateau ou chose apportant la maladie.

51. Le percepteur ou sous-percepteur des douanes, en sa capacité d'officier de quarantaine devra, sur le rapport du médecin de quarantaine, dans un temps de maladie épidémique, s'il découvrait quelqu'une des principales maladies quarantenaires, faire détenir le char, wagon, véhicule, bateau ou chose apportant une personne atteinte de cette maladie infectieuse, jusqu'à ce que les exigences des présents règlements aient été remplies à sa satisfaction ;

(*a.*) Toute telle personne malade ne pourra pas entrer au Canada tant que le médecin de quarantaine ne jugera pas sûr de le lui permettre ;

(*b.*) Tout char, wagon, véhicule, bateau ou chose apportant cette personne malade à la frontière pourra s'en retourner plutôt que de subir la détention quarantenaire ; ou

(*c.*) Le percepteur ou sous-percepteur des douanes, en sa capacité d'officier de quarantaine devra, à sa discrétion, sur le rapport du médecin de quarantaine, faire enlever et isoler cette personne malade dans un char ou bateau mis à part dans ce but, ou dans une bâtisse convenable, assez éloignée des autres bâtiments pour prévenir tout contact ou infection ;

(*d.*) Et cet officier de quarantaine pourra faire désinfecter le char, wagon, véhicule, bateau ou chose apportant cette personne malade, au moyen des fumées sulfureuses, ou tout autre mode de désinfection prescrite par les présents règlements adapté aux circonstances du cas.

52. Dans le cas où le choléra ou autre maladie épidémique sévirait dans une partie des Etats-Unis par où passe une voie ferrée qui traverse la frontière du Canada le Gouverneur en conseil pourra, par arrêté publié dans la *Gazette du Canada*, ou dans un extra de la *Gazette du Canada*, basé sur un rapport du Ministre de l'Agriculture, et dans le cas où il n'y aurait pas à ce point de la frontière d'arrangements et d'appareils propices pour enrayer la marche de cette maladie épidémique, ordonner la cessation complète du trafic des passagers à cet endroit ; ou y apporter telle restriction que les circonstances justifieront.

Les officiers de quarantaine donneront les ordres nécessaires —ne pourront recevoir d'honoraire ou de gratification.

53. Chaque officier de quarantaine est autorisé à donner tout ordre nécessaire, ou faire tout acte nécessaire pour l'exécution des présents règlements, et il est de son devoir de signaler toute infraction à ces règlements, immédiatement au Ministre de l'Agriculture ;

(*a.*) Aucun officier de quarantaine ni autre personne employée au service quarantenaire du Canada ne devra, directement ou indirectement, recevoir ou prendre d'honoraire ou de gratification ou récompense pour services rendus à toute compagnie, ou propriétaire, capitaine, ou équipage, passager ou autre personne détenue à une quarantaine, soit maritime soit de l'intérieur ;

(*b.*) Toute personne qui connaîtra de quelque infraction aux présents règlements devrait de suite en faire rapport au Ministre de l'Agriculture.

Amendes imposées aux officiers de douanes, pilotes, capitaines, chirurgiens et officiers de navires, etc.

54 Chaque pilote sera muni d'exemplaires imprimés des présents règlements, et il en donnera un au capitaine de tout navire venant d'un port en dehors du Canada, aussitôt en montant à bord, sous peine d'une amende de $50.

55. Chaque percepteur des douanes, ou officier des douanes, sera passible d'une amende de $400, et de l'emprisonnement pendant six mois, s'il permet la déclaration en douane d'un navire qui n'aura pas un acquit de quarantaine conformément aux prescriptions des présents règlements.

56. Chaque capitaine d'un navire sera passible d'une amende de $400 et d'un emprisonnement de six mois, s'il contrevient à aucun des susdits règlements. Le navire répondra de l'amende imposée au capitaine.

57. Tout chirurgien de navire ou autre officier qui manquera de répondre avec exacte vérité aux questions contenues dans la formule ci-jointe, sera passible d'une amende de $400, ou d'un emprisonnement de six mois.

58. Toute infraction au paragraphe *a* de l'article 53 des présents règlements sera considérée être un manquement de devoirs entraînant la démission, l'amende ou l'emprisonnement.

Questions posées sur les officiers de quarantaine, auxquelles les capitaines, chirurgiens ou officiers de navires devront répondre sous serment.

Date 189 .

1. Quel est le nom de votre navire et votre nom ?
2. De quel port est parti votre navire, et à quelle date ?
3. Quelle est votre cargaison, et quand l'avez-vous prise ?

4. Se trouve-t-il des guenilles parmi cette cargaison ?

5. Votre navire est-il arrêté à quelque endroit ou endroits durant la traversée ?

6. Savez-vous si cet endroit ou ces endroits, ou quelqu'un d'eux, étaient infectés du choléra, de la petite vérole, de la peste, ou autre fièvre ou maladie pestilentielle ?

7. Combien de personnes étaient a bord lorsque le navire a fait voile ?

Passagers de premières ; de secondes ; d'entrepont ; bouviers ; équipage . Total, .

8. Dites si quelque personne à bord a été, pendant la traversée, ou est actuellement malade de quelqu'une des maladies mentionnées ci-dessus, et si oui, combien ?

9. Est-il mort quelque personne durant la traversée, et si oui, donnez tous les détails ?

10. Chacun des passagers d'entrepont à bord a-t-il été vacciné ou a-t-il eu la petite vérole ?

11. La vaccination des passagers d'entrepont a-t-elle eu lieu en embarquant au avant d'embarquer ?

12. Combien de passagers avez-vous vaccinés pendant votre présente traversée ?

13. (*Question à être posée au chirurgien du navire, si un tel chirurgien est à bord, dans le cas où il y aurait eu de la petite vérole pendant la traversée.*)—Avez-vous, pendant la présente traversée, examiné personnellement chacun des passagers, afin de vous assurer qu'il avait été vacciné pendant les derniers sept ans, ou qu'il avait eu la petite vérole pendant cette période ?)

14. Avez-vous, ou quelqu'un de l'équipage ou des passagers, à votre connaissance, débarqué à quelque endroit ou endroits en Canada, durant la présente traversée ?

15. Y a-t-il à bord quelque aliéné, idiot, sourd et muet, aveugle ou infirme, et si oui, cette personne est-elle accompagnée de parents ou gardiens ?

16. Avez-vous un hôpital isolé pour les hommes et un autre pour les femmes, ventilé d'en haut et non du passage ?

17. Ces hôpitaux, ou l'un d'eux, ont-ils été immédiatement employés lorsque la maladie s'est déclarée ?

18. Existe-il d'autres choses que vous croyez devoir déclarer ?

(Signature) Capitaine.
(Signature) Chirurgien.

Je, Capitaine,
Chirurgien,
(*ici dites si vous êtes capitaine du navire ou si vous remplissez d'autres fonctions à bord*) jure solennellement et sincèrement que les réponses aux questions ci-dessus sont exactes et vraies. Ainsi, Dieu me soit en aide.

Capitaine.
Chirurgien.

Assermenté par-devant moi à ce jour de 189 .

Officier de quarantaine et juge de paix autorisé par arrêté du conseil en vertu du chap. 68 des Statuts revisés, intitulé "Acte concernant la quarantaine." 47–2

RÈGLEMENTS CONCERNANT L'INSPECTION ET L'EXPORTATION DES CHEVAUX.

(*Adoptés par un arrêté de Son Excellence le Gouverneur général en conseil le* 6 *de mai* 1896, *en vertu de* "*l'Acte concernant les épizooties,*" *et les actes qui le modifient*).

1. L'importation des chevaux de la Grande-Bretagne et du continent d'Europe est prohibée, sauf aux ports de Charlottetown, I.P.-E., Halifax, N.-E., Saint-Jean, N.-B., Québec, P.Q., et Montréal, P.Q., et à tels autres ports que désignera plus tard le Ministre de l'Agriculture.

2. Ces chevaux devront être accompagnés du certificat d'un vétérinaire compétent et des autorités de l'endroit lors de leur embarquement, qu'ils n'ont pas été amenés d'un endroit ou localité où existaient à la dite époque la morve, la maladie du coït, ou autre maladie infectieuse ou contagieuse. De semblables certificats d'exemption de maladie contagieuse au port d'expédition à la date de l'embarquement doivent aussi être fournis.

3. Tous les importateurs de chevaux sont obligés de déclarer sous serment que le certificat produit s'applique au cheval qu'il est censé décrire, et à nul autre, et que la localité nommée est véritablement celle d'où vient le cheval. Toute tentative d'éluder ou de fausser la vérité rendra le cheval passible de saisie et de détention en attendant la décision du Ministre de l'Agriculture.

4. Tous chevaux entrant en Canada à aucun des susdits ports y seront assujétis à l'inspection des officiers nommés à cette fin.

L'inspection aura lieu à bord du navire au port d'arrivée. Si un inspecteur découvre quelque maladie contagieuse, il ordonnera que les chevaux soient débarqués ainsi que tout fourrage, litière, auges, seaux, couvertures et autres articles qui auraient pu servir aux dits animaux infectés à bord du navire. Il surveillera ce débarquement, et verra à ce que les chevaux et les susdits articles soient transportés à la quarantaine, pour y subir le traitement que le Ministre de l'Agriculture ou son représentant ordonnera.

S'il n'est pas découvert de maladie, les chevaux et les susdits articles pourront se rendre à leur destination.

5. Tous chevaux importés de la Grande-Bretagne ou du continent d'Europe, en destination de Montréal, doivent être inspectés au port de Québec, durant la navigation d'été.

6. Les chevaux des Etats-Unis peuvent entrer au Canada en entrepôt aux ports de Sarnia, Windsor, Amherstburg, Sault Ste. Marie, Rouse's Point, St. Armand Station, Island Pond, le Pont Suspendu (Chutes Niagara), le Pont International (Fort Erié), Prescott, Lacolle, Potton, Abercorn, Newport, Beechers Falls, Agnès, et Mégantic, pour transit par le Canada jusqu'à Montréal, Trois-Rivières, Québec, Saint-Jean, N.-B., Halifax, et tels autres ports que le Ministre de l'Agriculture pourra ci-après indiquer, pour exportation à la Grande-Bretagne, ou ailleurs.

(*a.*) Les chevaux pourront aussi entrer, en entrepôt, pour les expositions, les courses, l'élevage, les cirques ou autres expositions, sujet aux dispositions des clauses 7, 13 et 14 des présents règlements.

7. Les chevaux des Etats-Unis entrant au Canada doivent être accompagnés d'un certificat signé par un vétérinaire compétent, que la localité d'où viennent les chevaux est exempte de la morve, maladie du coït, ou autres maladies contagieuses des chevaux. Un certificat signé d'un vétérinaire autorisé doit aussi accompagner chaque consignation depuis l'endroit d'expédition en entrepôt, donnant le nom du propriétaire, le sexe, la classe et le nombre des chevaux, déclarant que les dits chevaux ont été inspectés par lui et sont exempts de maladies contagieuses.

8. Ces chevaux seront assujétis à l'inspection au port d'exportation pour l'Europe ou ailleurs, par des officiers qui seront de temps à autre nommés à cette fin.

9. Il ne sera pas permis que des chevaux soient mis à bord d'un vapeur ou autre vaisseau pour exportation d'un port canadien, avant qu'il n'aient été inspectés par un inspecteur vétérinaire dûment autorisé au dit port, et déclarés par lui exempts de maladie contagieuse ; cette inspection sera faite sous vingt-quatre heures avant l'embarquement.

10. Tous chevaux destinés à l'exportation doivent atteindre le port d'exportation trente-six heures avant d'être expédiés, pour repos et inspection ; et afin de permettre à l'inspecteur de faire un soigeux examen individuel, les propriétaires de ces animaux doivent l'avertir au moins vingt-quatre heures avant l'embarquement. Ces avis seront par écrit et envoyés au bureau de l'inspecteur.

11. Les inspecteurs marqueront chaque cheval inspecté par eux des lettres V. R. sur le poitrail, avec de la peinture. Il ne sera pas embarqué de chevaux sans cette marque et un certificat d'inspection énonçant le nom du propriétaire, le nombre, le sexe et la classe des chevaux, et leur exemption de maladie contagieuse.

12. Les inspections ne seront faites que durant le jour.

13. Les chevaux entrant au Canada des Etats-Unis pour des fins d'élevage ou autres, non en entrepôt, doivent être accompagnés des certificats prescrits par la clause 7 des présents règlements, et doivent aussi être inspectés par un inspecteur vétérinaire dûment autorisé au port d'entrée, et s'ils sont trouvés exempts de maladie contagieuse, ils pourront entrer. S'il se découvre quelque maladie contagieuse, l'entrée sera défendue.

14. Dans le but de défrayer les frais d'inspection en vertu de la clause précédente, le propriétaire ou l'importateur paiera les honoraires suivants, d'après l'échelle ci-dessous :—

Pour 1 cheval	$ 1 00
Pour 5 chevaux jusqu'à 10	7 50
Pour plus de 10 jusqu'à 20	12 50
Pour plus de 20 jusqu'à 30	15 00
Pour plus de 30 jusqu'à 50	20 00

Pour tout nombre au-dessus de 50, 25 centins chacun, mais l'honoraire ne sera pas moindre que $20.

Ces honoraires seront payés à l'inspecteur avant qu'il délivre le certificat.

15. Si la maladie de la morve ou autre maladie contagieuse des chevaux est découverte à bord d'un vapeur, wagon de chemin de fer écurie, hangar ou autre endroit, l'inspecteur devra, après l'enlèvement de tout animal infecté, veiller tout de suite à la parfaite désinfection de ce vapeur, wagon, écurie, hangar ou autre endroit, en la manière prescrite par les règlements généraux concernant la désinfection des lieux.

16. Les inspecteurs enverront au Ministre de l'Agriculture des rapports mensuels de chaque inspection faite par eux, y compris un état des honoraires reçus.

Mardi, le 28e jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que par l'arrêté en conseil du 15 de septembre 1888, chapitre 30 des Arrêtés en conseil refondus du Canada, et l'arrêté en conseil du 6e jour de juillet 1893, passé en vertu de l'article 54 de "l'Acte des Sauvages," des règlements ont été établis concernant la vente du bois sur les terres des Sauvages en Ontario et Québec, et dans la Colombie-Britannique, et par l'arrêté en conseil du 1er de janvier 1875, les règlements du gouvernement du Nouveau-Brunswick relatifs au bois sur les terres de la Couronne furent adoptés au sujet du bois sur les terres des Sauvages dans la dite province.

Et considérant qu'il est à propos que des règlements soient établis en vertu de l'article 54 de "l'Acte des Sauvages," pour la vente du bois sur les terres des Sauvages dans tout le Dominion, et que les règlements pour la vente du bois sur les terres des Sauvages en Ontario et Québec, tels qu'énoncés dans le dit chapitre 30 des Arrêtés en conseil refondus du Canada, et ses modifications, conviennent à toutes les parties du Dominion, à l'exception de la Colombie-Britannique pour laquelle des règlements sont établis par l'arrêté en conseil du 6 de juillet 1893.

Il plaît à Son Excellence, en vertu du dit article 54 de "l'Acte des Sauvages," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements concernant la vente du bois sur les terres des Sauvages en Ontario et Québec, établis par le dit arrêté en conseil du 15 de septembre 1888, chapitre 30 des Arrêtés en conseil refondus, et les modifications à iceux, soient rendus applicables, et ils sont par le présent déclarés applicables à toute la Puissance du Canada, à l'exception de la province de la Colombie-Britannique.

JOHN J. McGEE,
Greffier du Conseil privé.

[795]

HOTEL DU GOUVERNEMENT À OTTAWA.

Mercredi, le 1er jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions de "l'Acte d'inspection des bateaux à vapeur," chapitre 78 des Statuts Revisés, et des actes qui le modifient, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que la refonte ci-jointe des règles et règlements concernant l'inspection des bateaux à vapeur et l'examen des mécaniciens de bateaux à vapeur, sera et elle est par le présent établie comme les Règles et Règlements pour l'inspection des bateaux à vapeur et l'examen des candidats pour des certificats de mécaniciens.

JOHN J. McGEE,
Greffier du Conseil privé.

RÈGLEMENTS POUR L'INSPECTION DES BATEAUX A VAPEUR ET POUR L'EXAMEN DES MÉCANICIENS DE BATEAUX A VAPEUR.

PARTIE I.

Mode d'inspection.

Art. 1. Tout inspecteur pourra chaque fois qu'il le jugera nécessaire, et un inspecteur devra, au moins une fois chaque année, éprouver la chaudière de tout bateau à vapeur par une pression hydrostatique dans la proportion de cent cinquante à cent livres permises comme pression effective, et la température de l'eau dont il sera fait usage dans l'épreuve n'excèdera pas soixante degrés Fahrenheit, et il devra s'assurer, par un examen personnel et des épreuves expérimentales, que cette chaudière est bien faite et que ses matériaux sont sains et sans défauts. Le propriétaire du bateau à vapeur fournira la pompe à bras et les appareils nécessaires pour faire l'épreuve, et l'équipage du navire les fera fonctionner; et nul inspecteur de chaudières et machines ne fera ni ne donnera aucun certifi at au propriétaire ou au capitaine d'un bateau à vapeur à moins qu'il n'ait préalablement soumis la chaudière ou les chaudières du bateau à cette épreuve hydrostatique et à cet examen tel que prescrit par le présent.

Art. 2. Avant qu'une chaudière ne soit soumise à l'épreuve par la pression hydrostatique, elle sera ouverte pour la visite de l'inspecteur; les portes du trou d'homme et les plaques de la vidange seront enlevées, l'extérieur et l'intérieur de la chaudière seront nettoyés, les grilles enlevées et le fourneau déchargé et balayé, afin qu'il puisse en faire une inspection satisfaisante et complète; lorsque les cloisons seront placées de manière à empêcher une inspection minutieuse de la tôle de la chaudière, elles seront enlevées; et le propriétaire ou capitaine du bateau veillera à ce que toutes ces dispositions soient prises avant de demander une inspection.

Art. 3. Chaque fois que l'épreuve n'aura pas été satisfaisante, les défauts seront réparés et la chaudière sera soumise à une seconde épreuve, qui devra être satisfaisante avant qu'un certificat ne soit délivré.

Art. 4. L'inspecteur doit fixer la pression effective des chaudières au moyen d'une série de calculs de résistance de leurs diverses parties et en raison de la nature de la main-d'œuvre et des matériaux qui les composent.

Art. 5. Avant d'éprouver une chaudière, les inspecteurs devront l'examiner, faire les mesurages et calculs nécessaires pour s'assurer que la pression effective est conforme aux présents règlements; ces instructions s'appliquent aux surchauffeurs, récipients à vapeur et chemises à eau aussi bien qu'aux chaudières.

Art. 6. Si une chaudière est trop chaude pour qu'un inspecteur puisse l'examiner efficacement avec sûreté et facilité, il devra refuser de l'examiner, et refuser absolument d'accorder un certificat jusqu'à ce qu'il en ait fait un examen satisfaisant.

Art. 7. Pour s'assurer de la force et de l'état d'une chaudière, à l'intérieur, l'inspecteur pourra, s'il le juge nécessaire, y faire percer des trous, et pourra aussi demander qu'on lui fournisse au moyen des dessins et des devis des différentes parties de la chaudière, des renseignements suffisants sur sa construction pour lui permettre au moyen de calculs et d'un examen de déterminer leur force de résistance.

Art. 8. Pendant la confection de toute chaudière faite en Canada, le fabricant devra notifier l'inspecteur du district dans lequel elle sera faite qu'il peut la venir inspecter, et il devra, en tout temps pendant cette confection, donner à l'inspecteur libre accès à la chaudière.

Art. 9. Afin d'empêcher qu'il ne s'élève de différends après qu'une chaudière aura été commencée, le fabricant ou l'entrepreneur, devra fournir à l'inspecteur, pour son approbation, les détails relatifs à sa construction, au moyen de dessins et de devis; l'inspecteur, lorsqu'il aura reçu ces plans ou devis et les aura approuvés veillera à ce qu'ils soient suivis dans la construction, ou, qu'il y soit fait des déductions comme le veut l'article 25. Le présent règlement s'appliquera aussi aux chaudières subissant des changements.

Art. 10. Aucune chaudière ne devra être faite de tôle à chaudière, soit en fer soit en acier, qui n'aura pas été estampée du nom ou de la marque du fabricant, et nul certificat ne sera délivré pour une chaudière faite en entier ou en partie de tôle ne portant pas une pareille marque; et avant qu'un certificat puisse être délivré pour une chaudière, le fabricant devra fournir à l'inspecteur une déclaration, attestée sous serment, du nom du fabricant de la tôle employée, de la qualité de celle-ci et de la qualité de tous les matériaux employés dans la confection de la chaudière; ce serment pourra être prêté devant un juge de paix en Canada, ou devant un notaire public, et attesté sous son sceau officiel, s'il est prêté en dehors du Canada; pourvu toujours que, dans les cas où cette déclaration sous serment, par le fabricant de la chaudière, ne pourrait être obtenu par suite de son décès, ou pour quelque autre cause jugée suffisante par l'inspecteur, l'affidavit de deux fabricants de chaudières pratiques qui auront examiné la chaudière et fait rapport sur la qualité des matériaux qui y ont été employés, celle de l'ouvrage et la force de la chaudière, sera, s'il est trouvé satisfaisant par l'inspecteur, considéré comme suffisant et tiendra lieu de la déclaration requise du fabricant de la chaudière.

Art. 11. Aucune chaudière, ni aucun tuyau s'y rattachant, ne sera approuvé s'il est fait en entier ou en partie de mauvais matériaux, ou si l'ouvrage est défectueux ou s'il est dangereux à cause de sa forme, de sa vétusté, de sa détérioration par l'usage, ou pour toute autre cause.

Art. 12. Les inspecteurs veilleront à ce que toutes les chaudières neuves et les chaudières qui auront été sorties d'un navire pour être réparées, soient éprouvées au moyen de la pression hydraulique dans la proportion d'au moins un et demi de la pression effective qui sera permise, avant que les chaudières ne soient placées dans le navire, et éprouver l'ouvrage, etc., mais la pression effective sera établie par la force des armatures, l'épaisseur de la plaque, la force des rivets, etc., et non pas par l'épreuve hydraulique.

Art. 13. L'épreuve hydraulique ne devra, dans aucun cas, excéder la proportion d'un et demi la pression effective permise, et ne doit jamais être appliquée avant que la chaudière n'ait été ouverte pour l'examen, ni avant que la force de toutes les parties de la chaudière n'ait été calculée d'après les mesurages nécessaires pris sur la chaudière même.

Art. 14. Lorsqu'une chaudière est partiellement inspectée par un inspecteur, et que l'inspection est complétée et le certificat accordé par un autre, si l'inspecteur qui était présent à l'épreuve de la chaudière par la pression hydrostatique a l'occasion de l'examiner à l'intérieur et à l'extérieur après l'épreuve, cet inspecteur fixera la pression qui sera permise sur la chaudière, en ayant soin d'informer les propriétaires, fabricants ou agents, et l'inspecteur qui doit plus tard accorder le certificat, de la pression qu'il croit devoir être permise sur cette chaudière, et l'inspecteur qui a partiellement inspecté la chaudière devra informer l'inspecteur qui complète l'inspection de tous les détails de son inspection de la chaudière.

Art. 15. Les armatures en fonte ne doivent pas être employées dans les chaudières; les inspecteurs devront condamner l'usage de cales et assiettes en fonte pour les chaudières. On doit porter une attention toute spéciale à coincer et assujétir les chaudières dans les navires pour les empêcher de se déplacer et de se détacher.

Art. 16. La pression permise sur la chaudière ne doit jamais, dans aucune circonstance, être augmentée, à moins que l'inspecteur n'ait préalablement écrit au président du bureau d'inspection des bateaux à vapeur, pour en obtenir la permission. Dans les cas où un inspecteur croira qu'une plus forte pression peut avec sûreté être permise, il devra en informer l'inspecteur qui aura inspecté la chaudière en dernier lieu; et si, en apprenant pourquoi la pression actuelle avait autrefois été permise, l'inspecteur est encore d'opinion qu'elle peut être augmentée, il devra communiquer tous les faits au président, mais comme il est dit plus haut, la pression ne devra, dans aucun cas, être augmentée tant que la question n'aura pas été décidée par le président.

Art. 17. Dans le cas d'une nouveauté quelconque dans la construction d'une chaudière, ou si l'on s'est départi du mode d'entretoisement et de renforcement prescrit dans les présentes règles, l'inspecteur fera rapport de toutes les circonstances au président avant de fixer la pression effective.

Art. 18 Un inspecteur ne déclarera pas qu'une chaudière est sûre à moins qu'il n'en connaisse tout à fait la construction, les matériaux et la main-d'œuvre. Il devra par conséquent prendre des précautions avant de s'aventurer à sanctionner une chaudière qu'il n'aura pas été appelé à inspecter, avant qu'elle ait été terminée et mise en place.

Art 19. Dans le cas de chaudières neuves, les inspecteurs autoriseront une tension n'excédant pas 7,000 livres par pouce carré de la section nette des tirants en fer plein filetés supportant des surfaces planes; mais la tension ne devra pas dépasser 6,000 livres si les tirants ont été soudés ou travaillés au feu.

Art. 20. (*a*.) La pression sur les plaques formant des surfaces planes est déterminée par la formule suivante :—

$$\frac{C \times (T+1)^2}{S-6} = \text{la pression effective.}$$

T = l'épaisseur de la tôle en seizièmes de pouces.
S = la surface supportée en pouces carrés.*

---

* Lorsque la proportion est plus forte que 4 à 5, le plus grand carré sera pris.

C = la constante déterminée suivant les circonstances suivantes :

C = 100 lorsque les tôles ne sont pas exposées au choc de la flamme ou des gaz chauds, et que les tirants sont munis d'écrous et de rondelles, ces dernières ayant au moins trois fois le diamètre du tirant et les deux tiers de l'épaisseur de la tôle qu'elles recouvrent.

C = 90, lorsque les tôles ne sont pas exposées au choc de la flamme ou des gaz chauds et que les tirants sont seulement munis d'écrous.

C = 60, lorsque les tôles sont exposées au choc de la flamme ou des gaz chauds, la vapeur étant en contact avec elles, et que les tirants sont munis d'écrous et de rondelles, celles-ci ayant au moins trois fois le diamètre du tirant et deux tiers de l'épaisseur de la tôle qu'elles recouvrent.

C = 54, lorsque les tôles sont exposées au choc de la flamme ou des gaz chauds, la vapeur étant en contact avec elles, et que les tirants sont seulement munis d'écrous.

(*b.*) Si le diamètre des rondelles rivées est au moins les deux tiers de l'écartement des tirants, et si leur épaisseur n'est pas inférieure à celle des tôles qu'elles recouvrent, la constante peut être portée à 150.

(*c.*) Si l'on emploie des bandes formant doublure, de la même épaisseur que la tôle qu'elles recouvrent, et d'une largeur au moins égale aux deux tiers de l'écartement des tirants, la constante peut être portée à 160.

(*d.*) Si les tôles de doublure couvrent la totalité de la surface plane, la constante peut être portée à 200.

C = 80, lorsque les tôles sont exposées au choc de la flamme ou des gaz chauds, l'eau étant en contact avec elles, et que les tirants sont vissés dans la tôle et pourvus d'écrous.

C = 60, lorsque les tôles sont exposées au choc de la flamme ou des gaz chauds, l'eau étant en contact avec elles, et que les tirants sont vissés dans la tôle, leurs extrémités étant rivées en forme d'une tête résistante.

C = 36, lorsque les tôles sont exposées au choc de la flamme ou des gaz chauds, la vapeur étant en contact avec elles, et que les tirants sont vissés dans la tôle, avec leurs extrémités rivées en forme de tête résistante.

(*e.*) Dans le cas où les tôles sont renforcées par des fers à cornières ou à T, et où l'on demande l'adoption d'une pression supérieure à celle autorisée d'après l'emploi des constantes ci-dessus, le cas sera soumis à l'appréciation du président.

(*f.*) Lorsque les extrémités vissées sont très corrodées ou que les écrous sont brûlés, les constantes doivent être réduites, mais l'inspecteur doit se guider sur les circonstances constatées lors de l'inspection ; et dans le cas où il est reconnu que les têtes rivées des tirants vissés dans les chambres de combustion et dans les foyers sont dans cet état, il sera souvent nécessaire de réduire la constante de 60 à 36.

(*g.*) Les plaques d'acier plates, qui ne sont d'aucune façon exposées à l'action de la flamme ou des gaz chauds, et assujéties par des tirants munis d'écrous et de rondelles dont le diamètre est d'au moins un tiers de l'écartement des tirants, et de la moitié de l'épaisseur de la plaque, la pression effective permise sera trouvée par la formule suivante :—

$$48000 \times \frac{T^2}{P^2} = W.\,P.$$

T = l'épaisseur de la plaque en pouces.

P = le plus grand écartement des boulons en pouces.

Art 21. Les inspecteurs ne doivent en aucun cas autoriser un effort de compression sur les plaques à tubes de plus de 7,500 livres, c'est-à-dire plus grand que celui qui est donné par la formule suivante :—

$$\frac{(D-d)\ T \times 15{,}000}{W \times D} = \text{la pression effective.}$$

D = la plus petite distance horizontale entre les centres des tubes, en pouces.

d = le diamètre intérieur des tubes ordinaires, en pouces.

T = l'épaisseur de la plaque à tubes, en pouces.

W = la largeur extrême, en pouces, de la chambre de combustion, de la face de la plaque à tubes, jusqu'à l'arrière de la boîte à feu, ou distance entre les plaques à tubes de la chambre de combustion si la chaudière est à double face et si cette chambre est commune aux foyers des deux extrémités.

Art. 22. Lorsque les tirants empêchent l'inspecteur d'entrer dans une chaudière, il doit ordonner leur enlèvement ; il doit aussi s'assurer qu'ils ont été convenablement replacés avant de délivrer son certificat.

Art. 23. Dans le cas de rivure en zigzag, la force à travers la tôle diagonalement entre les rivets est égale à la force horizontale entre les rivets, lorsque l'écartement diagonal égale six dixièmes de l'écartement horizontal *plus* quatre-dixièmes du diamètre du rivet.

Art. 24. Lorsque l'extérieur du fond d'une chaudière ne pourra pas être parfaitement inspecté sans cela, la chaudière devra être soulevée au moins une fois tous les quatre ans

Construction des chaudières.

Art. 25. (*a.*) Lorsque des chaudières cylindriques ou la partie cylindrique de chaudières sont faites des meilleurs matériaux, avec tous les trous des rivets forés en place et toutes les sutures assujéties au moyen de doubles bandes bout-à-bout, chacune d'au moins cinq-huitièmes de l'épaisseur des plaques qu'elles couvrent, et toutes les sutures étant au moins à deux rangs de rivets de pas plus de 75 pour 100 au-dessus de la simple tension, et pourvu que les chaudières aient été ouvertes à l'inspection,—alors on pourra prendre 4·5 comme "facteur de sûreté." La force de tension des matériaux sera calculée comme égale à 47,000 liv. au pouce carré dans le sens du grain, et 40,000 liv. en travers du grain. Lorsque toutes les conditions ci-dessus ne se rencontrent pas, il faut faire au facteur les additions d'après l'échelle ci-dessous, suivant les circonstances de chaque cas :—

A·15—sera ajouté lorsque tous les trous sont justes et bons dans les sutures longitudinales, mais forés hors de place après le cintrage.

B·3 sera ajouté lorsque tous les trous sont justes et bons dans les sutures longitudinales, mais forés hors de place avant le cintrage.

C·3—sera ajouté lorsque tous les trous sont justes et bons dans les sutures longitudinales, mais percés à l'emporte-pièce après le cintrage au lieu d'être forés.

D·5—sera ajouté lorsque tous les trous sont justes et bons dans les sutures longitudinales, mais percés avant le cintrage.

E*·75—sera ajouté lorsque tous les trous ne sont pas justes et bons dans les sutures longitudinales.

F·1– sera ajouté si tous les trous sont justes et bons dans les sutures circonférentielles, mais forés hors de place après le cintrage.

G·15 sera ajouté si tous les trous sont justes et bons dans les sutures circonférentielles, mais forés avant le cintrage.

H·15—sera ajouté si tous les trous sont justes et bons dans les sutures circonférentielles, mais percés après le cintrage.

I·2—sera ajouté si tous les trous sont justes et bons dans les sutures circonférentielles, mais percés avant le cintrage.

J*·2—sera ajouté si tous les trous ne sont pas justes et bons dans les sutures circonférentielles.

K·2—sera ajouté si de doubles bandes bout-à-bout ne sont pas assujéties aux sutures longitudinales, et si ces sutures sont rabattues et à deux rangs de rivets.

L·1—sera ajouté si de doubles bandes bout-à-bout ne sont pas assujéties aux sutures longitudinales, et si ces sutures sont rabattues et à trois rangs de rivets.

M·3—sera ajouté si seulement de simples bandes bout-à-bout sont assujéties aux sutures longitudinales, et si ces sutures sont à deux rangs de rivets.

N·15—sera ajouté si seulement de simples bandes bout-à-bout sont assujéties aux sutures longitudinales, et si ces sutures sont à trois rangs de rivets.

O 1—sera ajouté lorsqu'une espèce quelconque de joint dans les sutures longitudinales est à un seul rang de rivets.

P‡·1—sera ajouté lorsque les sutures circonférentielles sont assujéties avec de simples bandes bout-à-bout et sont à deux rangs de rivets.

Q‡·2—sera ajouté si les sutures circonférentielles sont assujéties par de simples bandes bout-à-bout et sont à un seul rang de rivets.

R‡·1—sera ajouté si les sutures circonférentielles sont assujéties par de doubles bandes bout-à-bout et sont à un seul rang de rivets.

S‡ 1—sera ajouté si les sutures circonférentielles sont à joints rabattus et sont à deux rangs de rivets

T·2—sera ajouté si les sutures circonférentielles sont à joints rabattus et sont à un seul rang de rivets.

U·25—sera ajouté lorsque les sutures circonférentielles sont rabattues et que les rebords des plaques ne sont pas complètement en dessous ou en dessus.

V·3—sera ajouté lorsque la chaudière est d'une telle longueur qu'elle nécessite un foyer à chaque bout, ou lorsqu'elle est d'une longueur inaccoutumée, comme les chaudières à carneaux, et que les sutures circonférentielles sont assujéties tel que décrit vis-à-vis P, R et S ; mais naturellement lorsque les sutures circonférentielle sont telles que décrites vis-à-vis Q et T, V·3 deviendra V 4.

W*4—sera ajouté si les sutures ne sont pas convenablement croisées.

X*·4—sera ajouté lorsque le fer est sous quelque rapport d'une qualité douteuse et que l'inspecteur n'est pas convaincu qu'il est de la meilleure qualité.

Y†·1·65—sera ajouté si la chaudière n'est pas ouverte à l'inspection pendant tout le temps de sa construction.

(*b.*) La force des joints sera établie d'après la méthode suivante :—

$$\frac{(\text{Ecartement de la rivure—Diamètre des rivets}) \times 100}{\text{Ecartement de la rivure.}} = \text{la proportion de la force de la plaque au joint, comparativement à la plaque solide,}^{**}$$

$$\frac{(\text{Aires des rivets} \times \text{nombre de rangs de rivets}) \times 100}{\text{Ecartement de la rivure} \times \text{épaisseur de la plaque.}} = \text{la proportion de la force du rivet comparativement à la plaque solide.}^{\dagger\dagger}$$

(*c.*) Là où on rencontre cette marque * en pourra allouer une plus forte pression si l'ouvrage ou les matériaux sont très douteux ou ne donnent pas satisfaction.

** L'écartement maximum de la rivure des rivets ne devra pas excéder $8\frac{1}{2}$ pouces, et si dans aucun cas l'inspecteur trouve qu'il excède cela, il devra en faire rapport au président.

†† Si les rivets sont exposés à une double tension, multipliez la proportion donnée par 1·75.

† Lorsqu'il s'agit d'examiner des chaudières qui n'auront pas été ouvertes à l'inspection pendant le temps de leur construction, le cas devra être soumis au président quant aux facteurs à employer.

‡ P‡·1, Q‡·2, R‡·1, S‡·1, ne s'appliqueront pas aux sutures extrêmes ou circonférentielles, si ces sutures sont suffisamment renforcées par des boulons de part en part; ni aux sutures entre la partie carrée et la partie ronde de l'enveloppe des chaudières cylindriques avec fourneaux carrés, lorsque ces sutures sont à deux rangs de rivets.

(*d.*) Ensuite prenez le fer comme ayant une force de tension égale à 47,000 livres au pouce carré, et employez la plus petite des deux proportions comme force du joint, et adoptez le facteur de sûreté tel que prouvée d'après l'échelle ci-dessus.

$$\frac{(47{,}000 \times \text{proportion de force du joint}) \times \text{deux fois l'épaisseur de la plaque en pouces.}}{\text{Diamètre intérieur de la chaudière en pouces} \times \text{le facteur de sûreté.}}$$
$$=\text{la pression permise par pouce carré sur les soupapes de sûreté.}$$

(*e.*) Les plaques qui sont forées en place doivent être séparées et les bavures ébarbées, et les trous légèrement fraisés à l'extérieur.

(*f.*) Les bandes bout-à-bout doivent être coupées à même des plaques et non pas des barres, et doivent être d'aussi bonne qualité que les plaques de l'enveloppe, et pour les sutures longitudinales elles doivent être coupées en travers du grain.

(*g.*) Les trous de rivets peuvent être soit percés à l'emporte-pièce, soit forés, lorsque les plaques sont percées ou forées hors de place; mais lorsqu'elles le sont en place, elles doivent être séparées et les bavures ébarbées et les trous légèrement fraisés à l'extérieur.

(*h.*) Lorsque de simples bandes bout-à-bout sont employées et que les trous de rivets y sont percés à l'emporte-pièce, elles doivent être d'un huitième plus épaisses que les plaques qu'elles couvrent.

(*i.*) Le diamètre des rivets ne doit pas être moindre que l'épaisseur des plaques dont est faite l'enveloppe, mais on s'apercevra, là où les plaques sont minces, ou lorsque des joints rabattus ou de simples bandes bout à bout sont adoptées, que le diamètre des rivets doit excéder l'épaisseur des plaques.

(*j.*) La distance entre les trous des rivets et les bouts ou bords des plaques ne devra pas être moindre que le diamètre du rivet.

(*k.*) Les calottes bombées qui ne sont pas complètement hémisphériques doivent être renforcées par des armatures suffisantes; si elles ne sont pas théoriquement égales en force à la pression voulue, elles doivent être renforcées comme faces planes, mais si elles sont théoriquement égales en force à la pression voulue, les armatures pourront avoir une tension de 10,000 par pouce carré effectif d'aire de profil.

(*l.*) Les inspecteurs doivent se rappeler que la force d'une sphère pour résister à la pression intérieure est deux fois celle d'un cylindre de même diamètre et de même épaisseur.

Art. 26 (*a.*) Les parties neutres des enveloppes de chaudières sous les dômes de prise de vapeur doivent être consolidées et renforcées par des armatures suffisantes.

(*b.*) Les côtés des chaudières ayant des fourneaux carrés et des ciels semi-circulaires doivent être liés par des tirants d'un côté à l'autre de l'enveloppe, au-dessus du fourneau, une ou deux rangées de ces tirants devant être placées plus haut que le centre de la partie cylindrique.

(*c.*) Pour les surfaces planes, les tirants taraudés ne doivent être employés qu'à un angle droit à la surface supportée, leur diamètre devant être mesuré en dedans du fil.

(*d.*) Les sutures longitudinales dans l'enveloppe cylindrique des chaudières devront être aussi éloignées que possible du fond.

(*e.*) Le diamètre intérieur de la ceinture extérieure de l'enveloppe cylindrique d'une chaudière sera pris comme mesure de son diamètre.

Art. 27 (*a.*) Dans les surchauffeurs cylindriques la force des joints et le facteur de sûreté se trouvent de la même manière que pour les chaudière cylindriques et les récipients à vapeur, mais au lieu de prendre 47,000 livres comme force de tension du fer, on prend 24,000 liv. à moins que la chaleur ou la flamme ne frappe la plaque à angle droit ou à peu près; dans ce dernier cas on y substituera 18,000.

(*b.*) Dans tous les cas, les tubes à vapeur intérieurs doivent être ajustés de façon à ce que la vapeur qui s'y rend passe sur toutes les plaques exposées au choc de la chaleur ou de la flamme.

(*c.*) Les surchauffeurs ou chemises à eau doivent être considérés par les inspecteurs comme la partie la plus essentielle des chaudières et doivent être inspectés à l'intérieur et à l'extérieur; ceux que leurs dimensions ne permettent pas qu'on y entre doivent avoir un nombre suffisant de portes au moyen desquelles une inspection complète de l'intérieur puisse être faite.

(*d.*) On doit porter une attention toute spéciale à l'inspection des surchauffeurs, vu qu'avec une haute pression les plaques peuvent devenir dangeureusement faibles et ne rendre aucun son qui indiquerait leur état lorsqu'on les éprouve avec un marteau; en conséquence, les plaques devraient être forées de temps à autre. Des tuyaux d'écoulement doivent, dans tous les cas, être ajoutés aux surchauffeurs au fond desquels l'eau pourrait s'accumuler.

(*e.*) Les surchauffeurs qui peuvent être isolés des chaudières principales doivent être munis de la soupape de sûreté réglementaire, fermée à clef, de grandeur suffisante, mais la plus petite dimension permise ne doit pas avoir moins de deux pouces de diamètre.

Art. 28. L'air des armatures diagonales est établie comme suit:—

Trouvez l'aire d'une armature directe nécessaire pour supporter la surface, multipliez cette aire par la longueur de l'armature diagonale, et divisez le produit par la longueur d'une ligne tirée à angle droit avec la surface supportée jusqu'à l'extrémité de l'armature diagonale, le quotient sera l'aire de l'armature diagonale voulue.

Art. 29. (*a.*) Lorsque le ciel des chambres de combustion ou autres parties d'une chaudière sont supportées par de solides traverses rectangulaires, la formule suivante, employée par le Conseil du Commerce Impérial, sera utile pour trouver la pression effective permise sur les traverses, en supposant qu'elles ne seront pas soumises à une plus haute température que la chaleur ordinaire de la vapeur, et que les extrémités sont ajustées aux rebords de la plaque de tubulure et à la plaque du fond de la chambre de combustion.

$$\frac{C \times d^2 \times T}{(W-P)\,D \times L} = \text{la pression effective.}$$

W = la largeur en pouces de la chambre de combustion
P = l'écartement des boulons d'appui, en pouces.
D = la distance entre les traverses, d'axe en axe, en pouces.
L = la longueur de traverse en pieds.
d = la hauteur de la traverse en pouces.
T = l'épaisseur de la traverse en pouces.
C = 500 lorsque la traverse est assujétie par un seul boulon d'appui.
C = 750 lorsque la traverse est assujétie par deux ou trois boulons d'appui.
C = 850 lorsque la traverse est assujétie par quatre boulons d'appui.

(*b.*) La pression effective pour les boulons d'appui et pour la plaque entre eux, sera établie au moyen de la règle prescrite pour les armatures ordinaires.

Art. 30 Les bouts plats de toutes chaudières, jusqu'où la vapeur s'étend, et les extrémités des surchauffeurs, seront munis d'écrans ou plaques de protection, lorsqu'ils sont exposés au gaz échauffés dans la culotte du courant de flammes, vu que toutes plaques exposées au choc direct de la chaleur ou de la flamme sont sujettes à être endommagées à moins d'être couvertes par l'eau.

Lorsqu'un surchauffeur est muni d'un tube soumis à une pression extérieure, on devra constater la pression effective au moyen des règles données pour les fourneaux circulaires en fer, mais les constantes devraient être réduites comme trente est à quarante-sept.

Si l'on se propose d'employer de l'acier dans des surchauffeurs, les détails devraient être soumis au Bureau d'inspection des bateaux à vapeur, ou au président, si le Bureau ne siège pas, pour sa considération; mais on ne doit jamais encourager une telle chose; ceci s'applique aux courants de flammes non munis d'écrans de toutes les chaudières, y compris les petites chaudières alimentaires verticales ordinaires.

Art. 31. Les petites chaudières alimentaires attachées ou reliées d'une manière quelconque à de grandes chaudières, ou à des machines employées pour faire marcher un navire, doivent être inspectés et garnies de la même manière que les grandes chaudières, et avoir un indicateur d'eau et un manomètre et tous autres accessoires complets, et sont, quant aux soupapes de sûreté, sujettes aux mêmes règlements que les grandes chaudières; et aucune soupape de sûreté de moins de deux pouces de diamètre ne sera permise, sauf tel que prescrit par les règlements concernant l'inspection des soupapes de sûreté.

Art. 32. (*a.*) Aucune chaudière ou fourneau à vapeur ne sera construit, ajusté ou arrangé de façon à ce que l'échappement de la vapeur par la soupape de sûreté puisse être complètement ou partiellement intercepté par l'action d'aucune autre soupape.

(*b.*) Une soupape d'arrêt doit toujours être placée entre la chaudière et le tuyau à vapeur, et (lorsque deux chaudières ou plus sont reliées par un récipient à vapeur ou surchauffeur) entre chaque chaudière et le surchauffeur ou récipient à vapeur. Le but de ceci est évident, savoir: éviter que toutes les chaudières soient affectées par le défaut d'une seule d'entre elles. Le col des soupapes d'arrêt sera aussi court que possible.

Art. 33. (*a.*) Chaque chaudière sera munie d'un indicateur d'eau en verre, de deux robinets d'essai au moins, et d'un manomètre, c'est-à-dire, chaque chaudière doit être munie de tous les accessoires au complet, de même que s'il n'y avait qu'une seule chaudière.

(*b.*) Les chaudières avec fourneaux aux deux extrémités, et celles d'une largeur plus qu'ordinaire, doivent avoir des indicateurs d'eau et des robinets d'essai à chaque extrémité ou côté, selon le cas. Quant un navire à vapeur a plus d'une chaudière, et que ces chaudières sont munies de soupapes d'arrêt, chaque chaudière sera traitée comme chaudière distincte et aura tous les accessoires nécessaires

Art. 34. Les inspecteurs auront grand soin de ne donner aucune sanction officielle à aucun nouvel arrangement ou construction de chaudières à vapeur, dites "de marine," sans avoir d'abord obtenu la permission par écrit du président ; ils ne devront pas non plus donner aucune approbation par écrit en faveur d'aucune invention ou arrangement, à moins d'y être autorisé par le président ; et chaque fois qu'ils apprendront qu'une invention ou arrangement nouveau doit être appliqué à un navire qui doit porter un certificat pour transporter des passagers, ils devront aussitôt que possible s'en procurer des plans et des devis et les soumettre au président.

Art. 35. Lorsque les sutures longitudinales des fourneaux cylindriques ne sont pas soudés ou faits sous bandes bout-à-bout, les quantités constantes suivantes seront substituées à 90,000 :—

(*a.*) Fourneaux avec joints bout-à-bout et trous de rivet forés.	90,000, lorsque les sutures longitudinales sont à deux rangs de rivets et assujéties par de simples bandes bout-à-bout ; 80,000 lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de simples bandes bout-à-bout ; 90,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de doubles bandes bout-à-bout.
(*b.*) Fourneaux avec joints bout-à-bout et trous de rivets percés à l'emporte-pièce.	85,000, lorsque les sutures longitudinales sont à deux rangs de rivets et assujéties par de simples bandes bout-à-bout ; 75,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de simples bandes bout-à-bout ; 85,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de doubles bandes bout-à-bout.
(*c.*) Fourneaux avec joints rabattus et trous de rivets forés.	80,000, lorsque les sutures longitudinales sont à deux rangs de rivets et en biseau ; 75,000, lorsque les sutures longitudinales sont à deux rangs de rivets et non en biseau ; 70,000, lorsque les sutures longitudinales sont à un rang de rivets et en biseau ; 65,000, lorsque les sutures longitudinales sont à un rang de rivets et non en biseau.
d. Fourneaux avec joints rabattus et trous de rivets percés à l'emporte-pièce.	75,000, lorsque les sutures longitudinales sont à deux rangs de rivets et en biseau ; 70,000, lorsque les sutures longitudinales sont à deux rangs de rivets et non en biseau ; 65,000, lorsque les sutures longitudinales sont à deux rangs de rivets et en biseau ; 60,000, lorsque les sutures longitudinales sont à un rang de rivets et non en biseau.

Chaudières en acier.

Art. 36. (*a.*) Les règles suivantes devront servir de guide aux inspecteurs lorsque la qualité générale de l'acier aura été jugée convenable pour les chaudières marines.

(*b.*) Les fabricants d'acier ou les constructeurs de chaudières doivent essayer la résistance à la traction et à l'allongement d'une ou plusieurs bandes découpées dans chaque tôle ou barre, et marquer au poinçon ce double résultat sur chaque tôle. Lorsqu'il est possible cette marque devrait être appliquée de façon à être bien apparente après la construction de la chaudière.

(*c.*) L'inspecteur n'est pas obligé d'être témoin de ces essais, mais il doit tenir la main à ce que toutes les tôles et barres soient marquées comme elles doivent l'être.

(*d.*) Parmi les tôles et barres, dont on prétend que l'essai a été fait par le fabricant d'acier, mais que l'inspecteur n'a pas vu essayer, l'inspecteur peut, s'il le juge à propos, choisir toute tôle ou barre, une fois rendue dans l'atelier de fabrication de chaudières, et en faire découper et essayer des échantillons. Si les résultats de l'essai ne sont pas satisfaisants, toutes les tôles, à l'exception de celles qui auront été essayées et trouvées satisfaisantes par l'inspecteur, seront sujettes à être rejetées.

(*e.*) Vingt-cinq pour cent de barres à rivets doivent subir les essais de traction et d'allongement ; la résistance à la traction doit être de 26 à 30 tonneaux bruts, ou de 58,000 à 67,000 livres par pouce carré, et l'allongement, pris sur une longueur de dix pouces, doit être au moins de 25 pour 100.

(*f.*) L'inspecteur peut ne pas toujours voir essayer tous les rivets, mais il doit de temps à autre en choisir quelques-uns, et après les avoir fait préparer, en voir faire l'essai. La résistance à l'essai doit être de 27 à 32 tonneaux bruts, ou de 62,000 à 72,000 livres, par pouce carré, avec une contraction de la section de 60 pour 100. L'allongement doit, lorsque la chose est possible, être pris sur une longueur égale à deux fois et demi du diamètre de la partie préparée.

(*g.*) Vingt-cinq pour 100 des barres pour tirants de chaque dimension doivent subir l'essai. L'inspecteur peut autoriser une tension de 9,000 livres par pouce carré de la section nette des tirants filetés en acier plein, qui n'ont été ni soudés ni travaillés au feu, pourvu que leur résistance à la traction soit comprise entre 27 à 32 tonneaux bruts, ou de 62,000 à 72,000 livres, par pouce carré, et que leur allongement, pris sur une longueur de dix pouces, soit d'environ 25 pour 100 ou au moins 20 pour 100.

(*h.*) L'expérience a prouvé que les tirants d'acier qui ont été soudés ou travaillés au feu ne peuvent inspirer confiance, et conséquemment on ne doit pas les admettre.

(*i.*) Si la grosseur primitive des barres pour rivets ou pour tirants doit être réduite avant l'essai, cette modification doit être faite au tour ou à la machine ; les morceaux à essayer, quels qu'ils soient, ne doivent pas être préparés au feu ou étirés.

(*j.*) Si pour les tôles parmi lesquelles l'inspecteur a fait un choix dans la proportion ci-dessus, on désire admettre un effort plus grand que celui qui est autorisé pour le fer, l'inspecteur doit faire des essais de tension et d'allongement, ainsi que quelques essais de courbure, et celles pour lesquelles on ne demande aucune réduction d'épaisseur peuvent être essayées à la flexion seulement si on le préfère. Dans ce dernier cas, la résistance à la tension et l'allongement poinçonnés sur chaque tôle doivent être communiqués par l'inspecteur au président, en même temps que le résultat des essais à la flexion.

(*k.*) La largeur des barrettes d'essais pour la résistance à la traction doit être d'environ deux pouces, et l'allongement, pris sur une longueur de dix pouces, doit être d'environ 25 pour 100 et au moins 20 pour 100. Les barrettes d'essais doivent être soigneusement préparées et mesurées et doivent être découpées dans la tôle à la machine à raboter. L'écorce des morceaux d'essais ne doit pas être enlevée au rabot ou autrement, les rebords seulement sont à raboter ou façonner, et jamais les barrettes d'essais ne doivent être préparées ou diminués de grosseur au marteau ni sur l'enclume ; on ne doit jamais les recuire avant de les essayer ; on ne doit pas non plus recuire les tôles ou les barres avant que les bandes ou barrettes d'essais en soient séparées.

(*l.*) Les essais de flexion pour les tôles non exposées à la flamme doivent être faits avec des barrettes dans leur condition normale ; ils doivent aussi être accompagnés quelquefois de l'essai du trempage. Les barrettes découpées dans des foyers, chambres de combustion, etc., seront chauffées au rouge cerise, puis plongées dans de l'eau à environ 80 degrés dans laquelle elles resteront jusqu'à ce qu'elles en aient pris la température et elles seront alors ployées. Les barrettes à ployer et à tremper ne doivent pas avoir moins de deux pouces de large et dix pouces de long, et elles doivent être ployées jusqu'à rupture ou jusqu'à ce que les deux parties soient parallèles et à une distance l'une de l'autre d'au plus 3 fois l'épaisseur de la tôle.

(*m.*) Lorsqu'on demande qu'il soit tenu compte de tout l'avantage de l'acier sur le fer, la résistance à la traction des tôles qui ne sont pas exposées à la flamme doit être au moins de 27 tonneaux bruts, ou 62,000 livres, et ne pas excéder 32 tonneaux bruts ou 72,000 livres par pouce carré de section, et 29 tonneaux bruts, ou 6 ,000 livres sera la résistance adoptée pour le calcul des enveloppes cylindriques si les tôles remplissent toutes les conditions indiquées ici ; mais lorsque la résistance minimum à la traction de la tôle du corps de la chaudière n'est pas au dessous de 28 tonneaux bruts ou de 63,000 livres, et qu'on demande qu'il soit tenu compte de l'excédent, le cas sera spécialement soumis à l'appréciation du président, qui décidera si la résistance peut être augmentée pour le calcul à 30 tonneaux bruts ou à 67,000 livres. La résistance à la traction des foyers, collerettes, tôles des chambres de combustion doit être comprise entre 26 tonneaux bruts, ou 58,000 livres, et 30 tonneaux bruts, ou 67,000 livres, par pouce carré.

(*n.*) Toutes les tôles qui sont poinçonnées, embouties ou pliées, ou chauffées partiellement, doivent être soigneusement recuites après avoir subi ce traitement.

(*o.*) Les trous de rivets dans les foyers et les sutures longitudinales des enveloppes cylindriques doivent être forés, mais si l'on désire les poinçonner et ensuite les aléser ou recuire les tôles dans un four convenable, les détails du poinçonnage, de l'alésage ou du recuit doivent, avant exécution, être soumis à l'appréciation du président, mais tous les trous poinçonnés doivent être faits après le cintrage.

(*p.*) Dans tous les cas où le président aura donné son assentiment à ce que les tôles soient poinçonnées après cintrage puis recuites, les constructeurs marqueront à l'estampe sur les tôles les mots : "poinçonnées après cintrage puis recuites," et dans tous les cas où il a été donné assentiment à ce que les tôles soient poinçonnées puis alésées, les mots : "poinçonnées, puis alésées," doivent être étampées sur les tôles.

(*q.*) Si les tôles à bords rabattus, et celles exposées au feu remplissent les conditions ci-dessus, les constantes données par les présentes règles, pour les chaudières en fer, peuvent être augmentées comme suit :

1. Constantes pour les surfaces planes, supportées par des tirants vissés dans la tôle et rivés, 10 pour 100.

2. Constantes pour les surfaces planes, supportées par des tirants vissés dans la tôle et munis d'écrous placés dans la chambre à vapeur, 25 pour 100. Cette augmentation est aussi applicable aux constantes pour les surfaces planes renforcées par des rondelles rivées ou des bandes formant doublure, et supportées par de tirants munis d'écrous.

3. Constantes pour armature des chambres de combustion, 10 pour 100.

(*r.*) Lorsque les foyers sont neufs, ondulés, faits à la machine et pratiquement circulaires, la pression effective est trouvée par la formule suivante, à la condition que les parties planes aux extrémités n'aient pas plus de 6 pouces en longueur et que les tôles n'aient pas moins de $\frac{5}{16}$ de pouce d'épaisseur.

$$\frac{14{,}000 \times T}{D} = \text{la pression effective.}$$

T = l'épaisseur en pouces.
D = le diamètre moyen en pouces.

(Si le foyer est rivé en deux ou plusieurs longueurs, le cas est soumis à l'appréciation du président.)

(*s.*) Il ne sera pas admis d'effort de compression sur les plaques à tubes de plus de 10,000 livres au pouce carré, c'est-à-dire supérieur à celui déterminé par la formule suivante :—

$$\frac{(D-d) \times T \times 20{,}000}{W \times D} = \text{la pression effective.}$$

D = la plus petite distance horizontale entre les centres des tubes, en pouces.
d = le diamètre intérieur des tubes ordinaires, en pouces.
T = l'épaisseur de la plaque à tubes en pouces.
W = la largeur extrême, en pouces, de la chambre de combustion de la face de la plaque à tubes à l'arrière de la boîte à feu, ou distance entre les plaques à tubes de la chambre de combustion, si la chaudière est à double face et si cette chambre est commune au foyer des deux extrémités.

(*t.*) Dans les sutures longitudinales des enveloppes cylindriques, faites à recouvrement et munies d'un double rang de rivets, la section des rivets, lorsque ceux-ci sont en fer, ne doit pas être moindre des $\frac{13}{8}$ de la section nette de la tôle ; mais si l'on emploie des rivets en acier, leur section doit être au moins les $\frac{28}{23}$ de la section nette de la tôle, pourvu que la résistauce à la traction de ces rivets ne soit pas au-dessous de 27 tonneaux bruts ou de 62,000 livres ni au-dessus de 32 tonneaux bruts ou de 72,000 livres par pouce carré. Par conséquent, dans le calcul de la pression effective, la résistance proportionnelle des rivets doit être déterminée de la manière ordinaire par les règles, mais dans le cas des rivets de fer, les proportions trouvées doivent être divisées par $\frac{13}{8}$, et dans le cas de rivets en acier, par $\frac{28}{23}$, les résultats étant les proportions cherchées. Si le calcul donne pour la résistance proportionnelle des rivets une valeur moindre que pour la résistance proportionnelle de la tôle, il faut calculer la pression effective à l'aide des deux résultats. En employant la résistance proportionnelle de la tôle, on prendra le facteur de sûreté correspondant au système de construction, tel qu'il ressort des règles pour les chaudières en fer; mais en employant la résistance proportionnelle des rivets on prendra 4·5 pour facteur de sûreté. La plus faible des deux pressions ainsi trouvées est la pression effective à admettre pour la portion cylindrique de l'enveloppe de chaudière, ou autrement en conformité des formules qui se trouvent à l'annexe.

(*u.*) On doit éviter de chauffer les tôles localement, car beaucoup de tôles sont devenues défectueuses pour avoir été ainsi traitées.

(*v.*) Les tôles d'acier qui ont été soudées ne peuvent pas être admises si elles sont soumises à un effort de traction; les tôles soudées soumises à un effort de compression devront être convenablement recuites. Sous les autres rapports, les chaudières doivent satisfaire aux règles établies pour les chaudières en fer.

Art. 37. Dans aucun cas un certificat ne sera donné pour une chaudière lorsque les plaques en auront été forcées par des fiches rabattues pour ramener les unes sur les autres les trous des plaques.

Art. 38. Les trous d'hommes seront renforcés au moyen de plaques ou d'anneaux compensateurs au moins de la même aire de profil effective que la plaque coupée, et dans aucun cas ces plaques ou anneaux ne seront d'une épaisseur moindre que les plaques auxquelles ils seront attachés, et l'attache ne sera pas d'une force moindre que la plaque ou l'anneau. Les axes les plus courts de toutes les ouvertures dans les enveloppes de chaudières devront être placés longitudinalement, et s'ils ne sont pas ainsi placés, ils devront avoir des plaques ou anneaux compensateurs, et des attaches, égaux à deux fois l'aire de profil effective de la plaque coupée.

Lorsque des cadres en fonte sont assujétis autour des trous d'homme dans les chaudières de bateaux à vapeur, il faudra en outre fournir un anneau compensateur.

On ne devra pas faire de trous de nettoyage dans les enveloppes des chaudières, d'un plus grand diamètre intérieur que cinq pouces, à moins d'être munis de plaques de renfort, et s'ils sont pratiqués dans l'enveloppe cylindrique d'une chaudière, leur diamètre intérieur devra être en ligne avec l'axe de l'enveloppe.

Art. 39. Toute chaudière construite après que les présentes règles seront devenues exécutoires, porteront estampées les initiales du nom de l'inspecteur qui l'aura inspectée et éprouvée, l'année de sa construction, et la pression à laquelle elle a été soumise lors de l'épreuve, ainsi que la pression effective qui lui a été assignée.

Fourneaux et tuyaux.

Art. 40. (*a.*) La pression effective extérieure qui sera permise sur les fourneaux et tuyaux en acier, planes ou circulaires, lorsque soumis à cette pression, quand les joints longitudinaux sont soudés ou faits sous bande bout-à tout, sera déterminée au moyen de la formule suivante :—

(*b.*) Le produit de 90,000 multiplié par le carré de l'épaisseur de la tôle en pouces, divisé par la longueur du tuyau, ou du fourneau, en pieds, plus multiplié par le diamètre en pouces, sera la pression effective permise par pouce carré en livres ajoutant dix pour cent au résultat de la formule ; pourvu qu'elle ne dépasse pas celle trouvée au moyen de la formule suivante :—

$$\frac{90{,}000 \times T^2}{(L + I) \times D} = \text{la presssion effective lorsque}$$

T = l'épaisseur de la tôle en pouces.
D = le diamètre extérieur du carneau en pouces.
L = la longueur du carneau ou du fourneau en pieds, ou la longueur entre les anneaux en pieds, s'il est renforcé par des anneaux propices ou des joints Adamson.

(*c.*) Le produit de 10,000 multiplié par l'épaisseur de la tôle en pouces, divisé par le diamètre (extérieur) du tuyau ou fourneau, en pouces, sera la pression effective permise par pouce carré en livres.

Fourneaux et tuyaux en acier ridé.

Art. 41. (*a.*) Pour le fourneaux à tubes en acier, lorsque neufs, ridés et faits à la machine, et pratiquement ronds la pression effective est trouvée au moyen de la formule suivante, pourvu que les parties planes aux extrémités n'excèdent pas six pouces de longueur, et que les plaques n'aient pas moins de $\frac{5}{16}$ de pouce d'épaisseur :

$$\frac{14{,}000 \times \text{épaisseur en pouces}}{\text{Moyenne du diamètre en pcs.}} = \left\{ \begin{array}{l} \text{la pression effective au} \\ \text{pouce carré.} \end{array} \right.$$

(*b.*) Quand les fourneaux sont rivés en deux longueurs ou plus, le cas devrait être soumis au président pour être considéré, vu qu'il pourrait être nécessaire de faire une réduction.

Fourneaux en fer ridé.

Art. 42. La pression effective pour les fourneaux en fer ridé, pratiquement circulaires et faits à la machine, pourvu que les parties planes aux extrémités n'excèdent pas six pouces de longueur et que les plaques n'aient pas moins de $\frac{5}{16}$ de pouce d'épaisseur, ne devrait pas excéder celle trouvée par la formule suivante :—

$$\frac{10{,}000 \times \text{l'épaisseur en pouces}}{\text{Moyenne du diamètre en pcs.}} = \text{la pression effective.}$$

Enveloppes de chaudières cylindriques.

ANNEXE.

JOINT A TROUS FORÉS.

Art. 43. Formules pour les joints à rivetage vis-à-vis ordinaire et les joints à rivetage en zig-zag ordinaire, et pour les joints de cette nature lorsque, dans le rang extérieur ou dans le rang extérieur et le rang intérieur, les rivets sont de deux en deux.

E = la distance entre le bord de la tôle et le centre du rivet, en pouces.
V = la distance entre les rangs de rivets, en pouces.
V_1 = la distance entre le rang intérieur et le rang intermédiaire de rivets en pouces pour le joint J.
B = la pression de la chaudière en livres par pouce carré.
C = 1 pour joints à recouvrement ou simple couvre-joint.
= 1·75 pour joints à double couvre-joint.
d = le diamètre des rivets, en pouces.
D = le diamètre intérieur de la chaudière, en pouces.
F = le facteur de sûreté pour les tôles de l'enveloppe, selon l'article 25 des présentes règles.

n = le nombre des rivets d'un écartement.

p_D = l'écartement diagonal, en pouces.

P_D = l'écartement diagonal, en pouces, entre les rangs intérieurs et les rangs intermédiaires de rivets pour le joint J.

p = le plus grand écartement entre les rivets, en pouces.

r = la proportion de la tôle laissée entre les trous dans le plus grand écartement.

R = la proportion de la section des rivets.

R_1 = la proportion collective des sections de la tôle et des rivets.

S = la résistance à la traction en livres par pouce carré de section.

T = l'épaisseur de la tôle en pouces.

T_1 = l'épaisseur de chaque couvre-joint, en pouces.

$^0/_0$ = la plus faible des proportions r, R, ou R_1, suivant le cas, divisée par 100.

Lorsqu'on emploie dans la construction d'une chaudière des joints autres que ceux que l'on voit dans les dessins ci-joints, ou lorsque quelques-uns des rivets sont à un écartement de moins du double de leur diamètre, les détails doivent être soumis à l'appréciation du bureau.

JOINTS À RIVETAGE VIS-À-VIS ET EN ZIG-ZAG ORDINAIRES.

Tôles en fer et rivets en fer ou tôles en acier et rivets en acier :—

$$\frac{100(p-d)}{p}=r.$$

Tôles en fer et rivets en fer :—

$$\frac{100\times d^2\times{\cdot}7854\times n\times C}{p\times T}=R.$$

Tôles en acier et rivets en acier :—

$$\frac{100\times 23\times d^2\times{\cdot}7854\times n\times C\times F}{4.5\times 28\times p\times T}=R.$$

ÉTANT DONNÉS C, d, F, n, T, TROUVER p, DE SORTE QUE r ET R SONT ÉGAUX.

Tôles en fer et rivets en fer :—

$$\frac{d^2\times{\cdot}7854\times n\times C}{T}+d=p.$$

Tôles en acier et rivets en acier :—

$$\frac{23\times d^2\times{\cdot}7854\times n\times C\times F}{4.5\times 28\times T}+d=p.$$

ÉTANT DONNÉS C, F, n, T, r, TROUVER p ET d.

Tôles en fer et rivets en fer :—

$$\frac{r\times T}{(100-r)\times{\cdot}7854\times n\times C}=d.$$

$$\frac{100\times r\times T}{(100-r)^2\times{\cdot}7854\times n\times C}=p.$$

Tôles en acier et rivets en acier :—

$$\frac{4.5\times 28\times r\times T}{23\times(100-r)\times{\cdot}7854\times n\times C\times F}=d.$$

$$\frac{100\times 4.5\times 28\times r\times T}{23\times(100-r)^2\times{\cdot}7854\times n\times C\times F}=p.$$

Tôles en fer et rivets en fer ou tôles en acier et rivets en acier, lorsque d est trouvé le premier, alors :—

$$\frac{100\ d}{100-r}=p$$

Tôles en fer et couvre-joints en fer ou tôles en acier et couvre-joints en acier :—

Couvre-joints doubles :—

$$\frac{5\times T}{8}=T_1.$$

Couvre-joints simples :—

$$\frac{9\times T}{8}=T_1.$$

POUR LA DISTANCE ENTRE LES RANGS DE RIVETS, ETC.

Fer et acier :—

$$\frac{3\times d}{2}=E.$$

Joints à rivetage vis-à-vis d'au moins :—

$$2\times d=V.$$

(*Voir (a) ci-dessous.*)

Joints à rivetage en zig-zag :—

$$\sqrt{\frac{(11p+4d)(p+4d)}{10}}=V.$$

Ecartement diagonal :—

$$\frac{6p+4d}{10}=p_D.$$

POUR DÉTERMINER LA PRESSION EFFECTIVE.

$$\frac{S\times {}^0/_0\times 2\ T}{F\times D}=B.$$

JOINTS À RIVETAGE VIS-À-VIS ET EN ZIG-ZAG DANS LESQUELS LES RIVETS SONT DE DEUX EN DEUX DANS LE RANG EXTÉRIEUR, OU DANS LE RANG EXTÉRIEUR ET LE RANG INTÉRIEUR, COMME DANS LES DESSINS CI-JOINTS.

Tôles en fer et rivets en fer ou tôles en acier et rivets en acier :—

$$\frac{100\ (p-d)}{p}=r.$$

Tôles en fer et rivets en fer :—

$$\frac{100\times d^2\times{\cdot}7854\times n\times C}{p\times T}=R.$$

Tôles en acier et rivets en acier :—

$$\frac{100\times 23\times d^2\times{\cdot}7854\times n\times C\times F}{4.5\times 28\times p\times T}=R.$$

Tôles en fer et rivets en fer ou tôles en acier ou rivets en acier :—

$$\frac{100\ (p-2d)}{p}+\frac{R}{n}=R_1.$$

Pour les joints à recouvrement en fer de cette catégorie le diamètre du rivet ne doit pas être inférieur à celui déterminé par la formule suivante :—

$$\frac{T}{{\cdot}7854}=d.$$

Pour les joints à recouvrement en acier de cette catégorie le diamètre du rivet ne doit pas être inférieur à celui déterminé par la formule suivante :—

$$\frac{T\times 28\times 4{\cdot}5}{{\cdot}7854\times 23\times F}=d.$$

JOINTS MUNIS DE COUVRE-JOINTS SIMPLES OU DOUBLES.

Lorsque le nombre des rivets du rang intérieur est double de celui qu'offre le rang extérieur.

Tôles en fer et couvre-joints en fer ou tôles en acier et couvre-joints en acier.

Doubles couvre-joints :—

$$\frac{5\times T\ (p-d)}{8\times(p-2d)}=T_1.$$

Couvre-joints simples :—

$$\frac{9\times T\ (p-d)}{8\times(p-2d)}=T_1.$$

Lorsque le nombre des rivets du rang intérieur est le même que dans le rang extérieur.

Doubles couvre-joints :—

$$\frac{5\times T}{8}=T_1.$$

Couvre-joints simples :—

$$\frac{9\times T}{8}=T_1.$$

POUR LA DISTANCE ENTRE LES RANGS DE RIVETS, ETC.

Fer et acier :—

$$\frac{3\times d}{2}=E.$$

Joints à rivetage vis-à-vis :—

$$\left.\begin{array}{l}\sqrt{\dfrac{(11p+4d)\ (p+4d)}{10}}=V\\ \text{ou}\\ \quad 2\times d\quad V\end{array}\right\}$$

Employer la plus grande des deux valeurs de V, (*voir la* NOTE (*a*), *ci-dessous.*)

Pour le joint K :—

$$2\times d=V_1.$$

(*Voir la* NOTE (*a*), *ci-dessous.*)

Joints à rivetage en zig-zag :—

$$\sqrt{(\tfrac{11}{20}p+d)\ (\tfrac{1}{20}p+d)}=V.$$

Ecartement diagonal :—

$$\tfrac{3}{10}\,p+d=p_D.$$

Pour le joint J :—

$$\sqrt{\frac{(11p+8d)\ (p+8d)}{20}}=V_1$$

Ecartement diagonal :

$$\frac{3p+4d}{10}=P_D.$$

POUR DÉTERMINER LA PRESSION EFFECTIVE.

$$\frac{S \times {}^0\!/_0 \times 2T}{F \times D} = B.$$

NOTE (*a*).—La valeur minimum de V ou V_1 pour les joints à rivetage vis-à-vis, est donnée par $2d$, mais l'emploi de la formule $\frac{4d + 1}{2}$, est plus à désirer.

PARTIE II.

RÈGLEMENTS APPLICABLES À L'INSPECTION ET À L'ÉPREUVE DES CHAUDIÈRES MAINTENANT EN EXISTENCE OU DE CELLES QUI SONT OU QUI POURRONT À L'AVENIR ÊTRE FABRIQUÉES EN CANADA, POUR L'USAGE DES BATEAUX À VAPEUR, CHAQUE FOIS QUE DANS L'OPINION DE L'INSPECTEUR, LES RÈGLEMENTS CONTENUS DANS LA PREMIÈRE PARTIE DE CET ARRÊTÉ, NE POURRONT PAS SOIT À CAUSE DE LA CONSTRUCTION DE CES CHAUDIÈRES, SOIT POUR TOUTE AUTRE CAUSE, S'APPLIQUER À LEUR ÉPREUVE; POURVU QUE DANS TEL CAS, L'INSPECTEUR DONNE UN CERTIFICAT ETABLISSANT QUE SON INSPECTION A ÉTÉ FAITE CONFORMÉMENT À LA SECONDE PARTIE DU PRÉSENT ORDRE.

Mode d'inspection.

Art. 44. Tout inspecteur pourra, chaque fois qu'il le jugera nécessaire, et un inspecteur devra, au moins une fois chaque année, éprouver la chaudière de tout bateau à vapeur par une pression hydrostatique, et s'assurer par un examen personnel et des épreuves expérimentales, que cette chaudière est bien faite et que ses matériaux sont sains et sans défauts; le maximum de cette pression sera dans la proportion de cent cinquante livres à cent livres permises comme pression effective; le propriétaire du bateau à vapeur fournira la pompe à bras et les appareils nécessaires pour faire l'épreuve, et l'équipage du bateau à vapeur les fera fonctionner; et aucun inspecteur ne fera ni ne donnera aucun certificat au propriétaire ou au capitaine d'un bateau à vapeur à moins qu'il n'ait préalablement soumis la chaudière du bateau à cette épreuve hydrostatique.

Art. 45. Avant qu'une chaudière ne soit soumise à l'épreuve par la pression hydrostatique, elle sera ouverte pour la visite de l'inspecteur; les portes ou trous d'homme et les plaques de la vidange seront enlevées, l'extérieur et l'intérieur seront nettoyés, les grilles enlevées et le fourneau déchargé et balayé, afin qu'il puisse en faire une inspection satisfaisante et complète; lorsque des cloisons seront placées de manière à empêcher une inspection minutieuse de la tôle de la chaudière, elles seront enlevées; et le propriétaire ou le capitaine du bateau veillera à ce que toutes ces dispositions soient prises avant de demander une inspection.

Art. 46. Chaque fois que l'épreuve n'aura pas été satisfaisante, les défauts seront réparés et la chaudière sera soumise à une seconde épreuve, qui devra être satisfaisante avant qu'un certificat ne soit délivré.

Art. 47. Lorsque l'extérieur du fond d'une chaudière ne pourra pas être parfaitement inspecté sans cela, la chaudière devra être soulevée pour être inspectée au moins une fois tous les quatre ans.

Art. 48. En soumettant les chaudières faites en tôle de fer à l'épreuve hydrostatique susdite, l'inspecteur prendra la pression de cent livres par pouce carré pour maximum de la pression permise comme force effective pour une chaudière neuve de quarante-deux pouces de diamètre, faite du meilleur fer affiné, d'au moins un quart de pouce d'épaisseur, de la meilleure manière et de la qualité requise par le présent; et il établira la pression effective de toutes les chaudières en fer, qu'elles soient d'un moindre ou d'un plus grand diamètre, d'après leur force comparativement à cette règle; et dans tous les cas, l'épreuve excèdera la pression effective permise dans la proportion de cent cinquante à cent livres, et la température de l'eau dont il sera fait usage dans les épreuves n'excèdera pas soixante degrés Fahrenheit.

Art. 49. En soumettant les chaudières faites en tôle d'acier à l'épreuve hydrostatique susdite, l'inspecteur prendra la pression de cent vingt-cinq livres par pouce carré pour maximum de la pression permise comme force effective pour une chaudière neuve de quarante-deux pouces de diamètre, faite de la meilleure manière, avec la meilleure qualité de tôle d'acier, d'au moins un quart de pouce d'épaisseur, les trous des rivets devant être percés en place, les plaques étant ensuite séparées et les bavures ébarbées, les sutures longitudinales de la chemise étant assujéties au moyen de bandes d'acier bout-à-bout coupées en travers du grain de la tôle, et chacune d'au moins cinq-huitièmes ou plus de l'épaisseur des plaques qu'elles couvrent, et toutes les sutures des plaques étant au moins à doubles rangs de rivets et ayant pour le moins soixante-dix pour cent de la force de la tôle solide, et toutes les surfaces planes devant être étayées de la meilleure manière et toutes les sutures à doubles rangs de rivets; et il établira le pression de toutes les chaudières en acier ainsi faites, qu'elles soient d'un moindre ou d'un plus grand diamètre, d'après leur force comparativement à cette règle; et dans tous les cas l'épreuve excèdera la pression effective permise pour ces chaudières dans la proportion de cent quatre-vingt-sept livres et demie à cent vingt-cinq livres, et la température de l'eau dont il sera fait usage dans les épreuves n'excèdera pas soixante degrés Fahrenheit.

Art. 50. Si un inspecteur est d'opinion qu'une chaudière, qu'elle soit en tôle de fer ou d'acier, ne peut supporter avec sûreté, à cause de sa construction ou des matériaux dont elle est faite une press on effective aussi élevée que celle ci-dessus spécifiée pour chaque espèce de chaudière respectivement, il pourra, pour les raisons qu'il devra spécialement énoncer dans son certificat, fixer la pression effective de la chaudière à moins des deux tiers de la pression d'épreuve.

Art. 51. Les règles qui précèdent seront suivies dans tous les cas, à moins que les proportions des chaudières par rapport aux cylindres, ou quelqu'autre chose, ne fassent voir manifestement que l'application en serait injuste, auquel cas l'inspecteur pourra déroger à ces règles, s'il le peut faire avec sûreté; mais en aucun cas la pression effective permise n'excédera la proportion ci-dessus, calculée d'après l'épreuve hydrostatique.

Art. 52. (*a.*) La pression effective externe qui pourra être permise sur les fourneaux cylindriques et les carneaux en fer lisse soumis à cette pression, lorsque les joints longitudinaux sont soudés ou faits sous bandes bout-à-bout, sera déterminée d'après la formule suivante :—

(*b.*) Le produit de 90,000 multiplié par le carré de l'épaisseur de la tôle en pouces,—divisé par la longueur du carneau ou du fourneau en pieds plus 1, multipliés par le diamètre en pouces,—sera la pression effective permise par pouce carré en livres,—pourvu qu'elle ne dépasse pas celle donnée par la formule suivante :—

(*c.*) Le produit de 8,000 multiplié par l'épaisseur de la tôle en pouces, divisé par le diamètre du fourneau ou du carneau en pouces, sera la pression effective permise par pouce carré en livres;

(*d.*) La longueur du fourneau que l'on prendra pour la première formule sera la distance comprise entre les anneaux, si le fourneau est fait avec des anneaux; et celle des deux formules qui donnera la pression la plus basse sera celle par laquelle l'inspecteur devra se guider.

Art. 53. Sur les surfaces planes, la pression effective ne dépassera pas six mille livres pour chaque pouce carré effectif de l'aire de profil des entretoises qui les supportent. La pression qui sera autorisée sur les plaques formant des surfaces planes sera celles déterminée par la formule suivante :—

$$\frac{C \times (T + 1)^2}{S - 6} = \text{la pression effective en livres par pouce carré, dans laquelle :—}$$

T = l'épaisseur de la tôle en seizièmes de pouce;
S = la surface supportée en pouces carrés; lorsque la proportion excède 4 à 5 le plus grand carré sera pris;
C = 100; mais lorsque les plaques sont exposées au choc de la chaleur ou de la flamme, et que la vapeur seule est en contact avec les plaques du côté opposé, C sera réduit à 50.

(*a.*) Lorsque les tôles ne sont pas exposées au choc de la flamme ou des gaz chauds, et que les tirants sont munis d'écrous et de rondelles vissées.

Si le diamètre des rondelles vissées est au moins les deux tiers de l'écartement des tirants, et si leur épaisseur n'est pas inférieure à celle des tôles qu'elles recouvrent, la constante peut être portée à 150.

(*b.*) Si l'on emploie des bandes formant doublure, de la même épaisseur que la tôle qu'elles recouvrent, et d'une largeur au moins égale aux deux tiers de l'écartement des tirants, la constante peut être portée à 160.

(*c.*) Si les tôles de doublure couvrent la totalité de la surface plane, la constante peut être portée à 200.

Art. 54. Pour s'assurer de la force et de l'état d'une chaudière, l'inspecteur pourra, s'il le juge nécessaire, y faire percer des trous, et pourra aussi demander qu'on lui fournisse les renseignements relatifs à sa construction intérieure qui lui permettent de juger exactement de sa force de résistance.

Art. 55. Dans aucun cas un certificat ne sera donné pour une chaudière lorsque les plaques en auront été forcées par des fiches rabattues pour ramener les uns sur les autres les trous des plaques.

Art. 56. Les trous d'hommes seront renforcés au moyen de plaques ou d'anneaux compensateurs au moins de la même aire de profil effective que la plaque coupée, et dans aucun cas ces plaques ou anneaux ne seront d'une épaisseur moindre que les plaques auxquelles ils seront attachés, et l'attache ne sera pas d'une force moindre que la plaque ou l'anneau. Les axes les plus courts de toutes les ouvertures dans les enveloppes de chaudières devront être placés longitudinalement, et s'ils ne sont pas ainsi placés, ils devront avoir des plaques ou anneaux compensateurs, et des attaches égaux à deux fois l'aire de profil effective de la plaque coupée.

Lorsque des cadres en fonte sont assujétis autour des trous d'hommes dans les chaudières de bateaux à vapeur, il faudra en outre fournir un anneau compensateur.

On ne devra pas faire de trous de nettoyage dans les enveloppes des chaudières, d'un plus grand diamètre intérieur que cinq pouces, à moins d'être munis de plaques de renfort, et s'ils sont pratiqués dans l'enveloppe cylindrique d'une chaudière, leur diamètre intérieur devra être en ligne avec l'axe de l'enveloppe.

Art. 57. Quand des barres ou des cornières de fer seront employées pour soutenir le ciel du fourneau d'une chaudière, les trois cinquièmes de la pression effective admissible sur le ciel seront soutenus par des tirants partant de l'enveloppe de la chaudière et fixés au plafond.

Art. 58. Les petites chaudières alimentaires sur les bateaux à vapeur seront munies de deux soupapes de sûreté, qui pourront être fermées à clef.

Art. 59. Les chaudières dans lesquelles les sutures longitudinales de l'enveloppe cylindrique, ne sont qu'à simple rang de rivets, au lieu d'être à double rangs, seront sujettes à une réduction sur la pression effective admissible pour une chaudière de la meilleure construction (telle que prescrite dans les articles 48 et 49 des présents règlements), et le maximum de pression ne devra pas excéder dans les chaudières construites de cette manière, quatre-vingts livres par pouce carré, au lieu de cent livres ou de cent vingt-cinq livres, comme il est dit dans les dits articles.

Art. 60. Aucune chaudière, construite et posée à bord d'un bateau à vapeur, ne devra être faite de tôle à chaudière, soit en fer, soit en acier, qui n'aura pas été étampée de la marque ou du nom du fabricant, et aucun certificat ne sera délivré pour une chaudière faite en entier ou en partie de tôle ne portant pas une pareille marque ; et avant qu'un certificat puisse être délivré pour une chaudière, le fabricant devra fournir à l'inspecteur une déclaration, attestée sous serment, du nom du fabricant de la tôle employée, de la qualité de celle-ci et de la qualité de tous les matériaux employés dans la confection de la chaudière ; ce serment pourra être prêté devant un juge de paix en Canada, ou devant un notaire public, et attesté sous son sceau officiel, s'il est prêté en dehors du Canada ; pourvu toujours que, dans les cas où cette déclaration sous serment, par le fabricant de la chaudière ne pourrait être obtenue par suite de son décès, ou pour quelque autre cause jugée suffisante par l'inspecteur, l'affidavit de deux fabricants de chaudières pratiques qui auront examiné la chaudière et fait rapport sur la qualité des matériaux qui y ont été employés, celle de l'ouvrage et la force de la chaudière, sera, s'il est trouvé satisfaisant par l'inspecteur, considéré comme suffisant et tiendra lieu de la déclaration requise du fabricant de la chaudière.

Art. 61. Pendant la confection de toute chaudière faite en Canada, le fabricant devra notifier l'inspecteur du district dans lequel elle sera faite qu'il peut la venir inspecter, et il devra en tout temps pendant cette confection, donner à l'inspecteur accès à la chaudière.

Art. 62. Aucune chaudière ni aucun tuyau ne seront approuvés s'ils sont faits en entier ou en partie de mauvais matériaux, ou s'ils sont dangereux à cause de leur forme, des défectuosités de l'ouvrage, de leur détérioration par l'usage, de leur vétusté ou pour toute autre cause.

Construction des chaudières.

Art. 63. (*a.*) Lorsque des chaudières cylindriques ou la partie cylindrique de chaudières sont faites des meilleurs matériaux avec tous les trous des rivets forés en place et toutes les sutures assujéties au moyen de doubles bandes bout-à-bout, chacune d'au moins $\frac{5}{8}$ de l'épaisseur des plaques qu'elles recouvrent, et toutes les sutures étant au moins à deux rangs de rivets de pas plus de 75 pour 100 au-dessus de la simple tension, et pourvu que les chaudières aient été ouvertes à l'inspection pendant tout le temps de leur construction,—alors on pourra prendre 4 comme facteur de sûreté. La force de tension des matériaux sera calculée comme égale à 48,000 lbs au pouce carré dans le sens du grain, et 42,000 en travers du grain. Lorsque toutes les conditions ci dessus ne se rencontrent pas, il faut faire au facteur les additions d'après l'échelle ci-dessous, suivant les circonstances de chaque cas :—

A·15—sera ajouté lorsque tous les trous sont justes et bons dans les sutures longitudinales, mais forés hors de place après le cintrage.

B·3—sera ajouté lorsque tous les trous sont justes et bons dans les sutures longitudinales, mais forés hors de place avant le cintrage.

C·3—sera ajouté lorsque tous les trous sont justes et bons dans les sutures longitudinales, mais percés (à l'emporte-pièce) après le cintrage au lieu d'être forés.

D·5—sera ajouté lorsque tous les trous sont justes et bons dans les sutures longitudinales, mais percés avant le cintrage.

E*·75—sera ajouté lorsque tous les trous ne sont pas justes et bons dans les sutures longitudinales.

F·1—sera ajouté si tous les trous sont justes et bons dans les sutures circonférentielles, mais forés hors de place après le cintrage.

G·15—sera ajouté si tous les trous sont justes et bons dans les sutures circonférentielles, mais forés avant le cintrage.

H·15—sera ajouté si tous les trous sont justes et bons dans les sutures circonférentielles, mais percés après le cintrage.

I·2—sera ajouté si tous les trous sont justes et bons dans les sutures circonférentielles, mais percés avant le cintrage.

J*·2—sera ajouté si tous les trous ne sont pas justes et bons dans les sutures circonférentielles.

K·2—sera ajouté si de doubles bandes bout-à-bout ne sont pas assujéties aux sutures longitudinales, et si ces sutures sont rabattues et à deux rangs de rivets.

L·1—sera ajouté si de doubles bandes bout-à-bout ne sont pas assujéties aux sutures longitudinales, et si ces sutures sont rabattues et à trois rangs de rivets.

M·3—sera ajouté si seulement de simples bandes bout-à-bout sont assujéties aux sutures longitudinales et si ces sutures sont à deux rangs de rivets.

N·15—sera ajouté si simplement de simples bandes bout-à-bout sont assujéties aux sutures longitudinales, et si ces sutures sont à trois rangs de rivets.

O·1—sera ajouté lorsqu'une espèce quelconque de joint dans les sutures longitudinales est à un seul rang de rivets.

P‡·1—sera ajouté lorsque les sutures circonférentielles sont assujéties avec de simples bandes bout-à-bout et sont à deux rangs de rivets.

Q‡·2—sera ajouté si les sutures circonférentielles sont assujéties par de simples bandes bout-à-bout et sont à un seul rang de rivets.

R‡·1—sera ajouté si les sutures circonférentielles sont assujéties par de doubles bandes bout-à-bout et sont à un seul rang de rivets.

S‡·1—sera ajouté si les sutures circonférentielles sont à joints rabattus et sont à deux rangs de rivets.

T·2—sera ajouté si les sutures circonférentielles sont à joints rabattus et sont à un seul rang de rivets.

U·25—sera ajouté lorsque les sutures circonférentielles sont rabattues et que les rebords des plaques ne sont pas complètement en dessous ou en dessus

V·3—sera ajouté lorsque la chaudière est d'une telle longueur qu'elle nécessite un foyer à chaque bout, ou lorsqu'elle est d'une longueur inaccoutumée, comme les chaudières à carneaux, et que les sutures circonférentielles sont assujéties tel que décrit vis-à-vis P, R et S ; mais naturellement lorsque les sutures circonférentielles sont telles que décrites vis-à-vis Q et T, V·3 deviendra V·4.

W*·4—sera ajouté si les sutures ne sont pas convenablement croisées.

X*·4—sera ajouté lorsque le fer est sous quelque rapport d'une qualité douteuse, et que l'inspecteur n'est pas convaincu qu'il est de la meilleure qualité.

Y†·1—sera ajouté si la chaudière n'est pas ouverte à l'inspection pendant tout le temps de sa construction.

(*b*) La force des joints sera établie d'après la méthode suivante :—

$$\frac{(\text{Ecartement de la rivure}-\text{Diamètre des trous des rivets})\times 100}{\text{Ecartement de la rivure.}}=\text{la proportion de la force de la plaque au joint, comparée avec la plaque solide.}$$

$$\frac{(\text{Aire des rivets}\times\text{nombre de rangs de rivets})\times 100}{\text{Ecartement}\times\text{l'épaisseur de la plaque.}}=\text{la proportion de la force du rivet comparée à la plaque solide. }\dagger\dagger$$

(*c.*) Là où l'on rencontre cette marque* on pourra allouer une plus forte pression si l'ouvrage ou les matériaux sont très douteux ou ne donnent pas satisfaction.

†† Si les rivets sont exposés à une double tension, multipliez la proportion donnée par 1·75.

† Lorsqu'il s'agit d'examiner des chaudières qui n'auront pas été ouvertes à l'inspection pendant le temps de leur construction le cas devra être soumis au président quant aux facteurs à employer.

P‡·1, Q‡·2, R‡·1, S‡·1 ne s'appliqueront pas aux sutures extrêmes ou circonférentielles, si ces sutures sont suffisamment renforcées par des boulons de part en part ; ni aux sutures entre la partie carrée et la partie ronde de l'enveloppe des chaudières cylindriques avec fourneaux carrés, lorsque ces sutures sont à deux rangs de rivets.

(*d.*) Ensuite prenez le fer comme ayant une force de tension égale à 48,000 livres au pouce carré, et employez la plus petite des deux proportions comme force du joint, et adoptez le facteur de sûreté tel que prouvé d'après l'échelle ci-dessus :—

$$\frac{(48{,}000\times\text{la proportion de force du joint})\times 2\text{ fois l'épaisseur de la plaque en pouces}}{\text{Diamètre inférieur de la chaudière en pouces}\times\text{le facteur de sûreté.}}$$
$$=\text{la pression permise par pouce carré sur les soupapes de sûreté.}$$

(*e.*) Pour les plaques d'acier de la meilleure qualité la force de tension pourra être calculée comme égale à 60,000 livres au pouce carré, employant le même facteur de sûreté.

(*f.*) Les plaques qui sont forées en place doivent être séparées et les bavures ébarbées, et les trous légèrement fraisés de l'extérieur.

(*g.*) Les bandes bout-à-bout doivent être coupées à même des plaques et non pas des barres, et doivent être d'aussi bonne qualité que les plaques de l'enveloppe, et pour les sutures longitudinales elles doivent être coupées en travers du grain.

(*h.*) Les trous de rivets peuvent être soit percés à l'emporte-pièce, soit forés, lorsque les plaques sont percées ou forées hors de place ; mais lorsqu'elles le sont en place, elles doivent être séparées et les bavures ébarbées et les trous légèrement fraisés de l'extérieur.

(*i.*) Lorsque de simples bandes bout-à-bout sont employées et que les trous de rivets y sont percés à l'emporte-pièce, elles doivent être d'un huitième plus épaisses que les plaques qu'elles recouvrent.

(*j.*) Le diamètre des rivets ne doit pas être moindre que l'épaisseur des plaques dont est faite l'enveloppe, mais on s'apercevra, là où les plaques sont minces, ou lorsque des joints rabattus de simples bandes bout-à-bout sont adoptées, que le diamètre des rivets doit excéder l'épaisseur des plaques.

(*k.*) La distance entre les trous des rivets et les bouts ou bords des plaques ne devra pas être moindre que le diamètre du rivet.

(*l.*) Les calottes bombées qui ne sont pas parfaitement hémisphériques doivent être renforcées par des armatures suffisantes ; si elles ne sont pas théoriquement égales en force à la pression voulue, elles doivent être renforcées comme surfaces planes, mais si elles sont théoriquement égales en force à la pression voulue, les armatures pourront avoir une tension de 10,000 liv. par pouce carré effectif d'aire de profil. Les calottes bombées d'un diamètre moindre que deux pieds, peuvent être acceptées sans tirants, si elles sont théoriquement doubles de la force voulue.

(*m.*) Les inspecteurs doivent se rappeler que la force d'une sphère pour résister à la pression intérieure est deux fois celle d'un cylindre de même diamètre et de même épaisseur.

Art. 64. (*a.*) Les parties neutres des enveloppes de chaudières sous les dômes de prise de valeur doivent être consolidées et renforcées par des armatures suffisantes.

(*b.*) Les côtés des chaudières ayant des fourneaux carrés et des ciels semi-circulaires doivent être liés par des tirants d'un côté à l'autre de l'enveloppe, au-dessus du fourneau, une ou deux rangés de ces tirants devant être placées plus haut que le centre de la partie cylindrique.

(*c.*) Pour les surfaces planes les tirants taraudés ne doivent être employés qu'à un angle droit à la surface supportée, leur diamètre devant être mesuré en dedans du fil

(*d.*) Les sutures longitudinales dans l'enveloppe cylindrique des chaudières devront être aussi éloignées que possible du fond.

(*e.*) Le diamètre intérieur de la ceinture extérieure de l'enveloppe cylindrique d'une chaudière sera pris comme mesure de son diamètre.

Art. 65. (*a.*) Dans les surchauffeurs cylindriques la force des joints et le facteur de sûreté se trouvent de la même manière que pour les chaudières cylindriques et les récipients à vapeur, mais au lieu de prendre 48,000 livres comme force de tension du fer, on prend 24,000 livres, à moins que la chaleur ou la flamme ne frappe la plaque à angle droit ou à peu près ; dans ce dernier cas on y substituera 18,000 livres.

(*b.*) Dans tous les cas, les tubes à vapeur intérieurs doivent être ajustés de façon à ce que la vapeur qui s'y rend passe sur toutes les plaques exposées au choc de la chaleur ou de la flamme.

(*c.*) Les surchauffeurs ou chemises à eau doivent être considérés par les inspecteurs comme la partie la plus essentielle des chaudières, et doivent être inspectés à l'intérieur et à l'extérieur ; ceux que leurs dimensions ne permettent pas qu'on y entre doivent avoir un nombre suffisant de portes au moyen desquelles une inspection complète de l'intérieur puisse être faite.

(*d.*) On doit porter une attention toute spéciale à l'inspection des surchauffeurs, vu qu'avec une haute pression les plaques peuvent devenir dangereusement faibles et ne rendre aucun son qui indiquerait leur état lorsqu'on les éprouve avec un marteau ; en conséquence les plaques devraient être forées de temps à autre. Des tuyaux d'écoulement doivent, dans tous les cas, être ajoutés aux surchauffeurs au fond desquels l'eau pourrait s'accumuler.

(*e.*) Les surchauffeurs qui peuvent être isolés des chaudières principales doivent être munis de la soupape de sûreté réglementaire, fermée à clef, de grandeur suffisante, mais la plus petite dimension permise ne doit pas avoir moins de 2 pouces de diamètre.

Art. 66. L'aire des armatures diagonales est établie comme suit :—

Trouvez l'aire d'une armature directe nécessaire pour supporter la surface, multipliez cette aire par la longueur de l'armature diagonale et divisez le produit par la longueur d'une ligne tirée à angle droit avec la surface supportée jusqu'à l'extrémité de l'armature diagonale, le quotient sera l'aire de l'armature diagonale voulue.

Art. 67. (*a.*) Lorsque le ciel des chambres de combustion ou autres parties d'une chaudière sont supportées par de solides traverses rectangulaires, la formule suivante, employée par le Bureau de Commerce Impérial, sera utile pour trouver la pression effective permise sur les traverses, en supposant qu'elles ne seront pas soumises à une plus haute température que la chaleur ordinaire de la vapeur, et dans le cas de fournaises, que les extrémités sont ajustées aux rebords de la plaque de tubulure et à la plaque du fond de la chambre de combustion.

$$\frac{C \times d^2 \times T}{(W-P) \; D \times L} = \text{la pression effective.}$$

W = la largeur en pouces de la chambre de combustion.
P = l'écartement des boulons d'appui en pouces.
D = la distance entre les traverses, d'axe en axe, en pouces.
L = La longueur de la traverse en pieds.
d = la hauteur de la traverse en pouces.
T = l'épaisseur de la traverse en pouces.
C = 500 lorsque la traverse est assujétie par un seul boulon d'appui.
C = 750 lorsque la traverse est assujétie par deux ou trois boulons d'appui.
C = 850 lorsque la traverse est assujétie par quatre boulons d'appui.

(*b.*) La pression effective pour les boulons d'appui et pour la plaque entre eux, sera établie au moyen de la règle prescrite pour les armatures ordinaires.

Art. 68. Les bouts plats de toutes chaudières, jusqu'où la vapeur s'étend, et les extrémités des surchauffeurs, seront munis d'écrans ou plaques de protection, lorsqu'ils sont exposés au gaz échauffés dans la culotte du courant de flammes, vu que toutes plaques exposées au choc direct de la chaleur ou de la flamme sont sujettes à être endommagées à moins d'être couvertes par l'eau.

Lorsqu'un surchauffeur est muni d'un tube soumis à une pression extérieure, on devra constater la pression effective au moyen des règlements donnés pour les fourneaux circulaires en fer, mais les constantes devraient être réduites comme trente est à quarante-sept.

Si l'on se propose d'employer de l'acier dans des surchauffeurs, les détails devraient être soumis au Bureau d'inspection des bateaux à vapeur, ou au président, si le Bureau ne siège pas, pour sa considération ; mais on ne doit jamais encourager une telle chose ; ceci s'applique aux courants de flammes non munis d'écrans de toutes les chaudières, y compris les petites chaudières alimentaires verticales ordinaires.

Art. 69. Les petites chaudières alimentaires attachées ou reliées d'une manière quelconque à de grandes chaudières, ou à des machines employées pour faire marcher un navire, doivent être inspectées et garnies de la même manière que les grandes chaudières, et avoir un indicateur d'eau et un manomètre et tous autres accessoires complets, et sont, quant aux soupapes de sûreté, sujettes aux mêmes règlements que les grandes chaudières, et aucune soupape de sûreté de moins de deux pouces de diamètre ne sera permise, sauf tel que ci-après prescrit dans les règlements concernant l'inspection des soupapes de sûreté.

Art. 70. (*a.*) Aucune chaudière ou fourneau à vapeur ne sera construit, ajusté ou arrangé de façon à ce que l'échappement de la vapeur par la soupape de sûreté puisse être complètement ou partiellement intercepté par l'action d'aucune autre soupape.

(*b.*) Une soupape d'arrêt doit toujours être placée entre la chaudière et le tuyau à vapeur ; et, lorsque deux chaudières ou plus sont reliées par un récipient à vapeur ou surchauffeur, entre chaque chaudière et le surchauffeur ou récipient, à vapeur. Le but de ceci est évident, savoir, éviter que toutes les chaudières soient affectées par le défaut d'une seule d'entre elles. Le col des soupapes d'arrêt sera aussi court que possible.

(*c.*) Des tuyaux de raccordement en fer vissés peuvent être employés sur les bateaux à vapeur, d'un diamètre n'excédant pas quatre pouces ; et si ces tuyaux dépassent deux pouces de diamètre, ils devront être raccordés par des brides et boulons convenables, à la satisfaction de l'inspecteur qui les aura inspectés.

Art. 71. (*a.*) Chaque chaudière sera munie d'un indicateur d'eau en verre, de deux robinets d'essai au moins, et d'un manomètre, c'est-à-dire, chaque chaudière doit être munie de tous les accessoires au complet, de même que s'il n'y avait qu'une seule chaudière.

(*b.*) Les chaudières avec fourneaux aux deux extrémités, et celles d'une largeur plus qu'ordinaire, doivent avoir des indicateurs d'eau et des robinets d'essai à chaque extrémité ou côté, selon le cas. Quant un navire à vapeur a plus d'une chaudière, et que ces chaudières sont munies de soupapes d'arrêt chaque chaudière sera traitée comme chaudière distincte et aura tous les accessoires nécessaires.

Art. 72. Les inspecteurs auront grand soin de ne donner aucune sanction officielle à aucun nouvel arrangement ou construction de chaudière à vapeur, dites de "marine," sans avoir d'abord obtenu la permission par écrit du président ; il ne leur est pas permis non plus de donner aucune approbation par écrit en faveur d'aucune invention ou arrangement, à moins d'y être autorisés par le bureau ; et chaque fois qu'ils apprendront qu'une invention ou un arrangement nouveau doit être appliqué à un navire qui doit porter un certificat pour transporter des passagers, ils devront aussitôt que possible s'en procurer des plans et les soumettre au président.

Art. 73. Lorsque les sutures longitudinales de fourneaux cylindriques ne sont pas soudées ou faites sous bandes bout-à-bout, tel que prescrit par l'article 56 des présents règlements, les quantités constantes suivantes seront substituées à 90,000 :—

(*a.*) Fourneaux avec joints bout-à-bout et trous de rivets forés.	90,000, lorsque les sutures longitudinales sont à deux rangs de rivets et assujéties par de simples bandes bout-à-bout; 80,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de simples bandes bout-à-bout; 90,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de doubles bandes bout-à-bout.
(*b.*) Fourneaux avec joints bout-à-bout et trous de rivets percés à l'emporte-pièce.	85,000 lorsque les sutures longitudinales sont à deux rangs de rivets et assujéties par de simples bandes bout-à-bout; 75,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de simples bandes bout-à-bout; 85,000, lorsque les sutures longitudinales sont à un rang de rivets et assujéties par de doubles bandes bout-à-bout.
(*c.*) Fourneaux avec joints rabattus et trous de rivets forés.	80,000, lorsque les sutures longitudinales sont à deux rangs de rivets et en biseau; 75,000, lorsque les sutures longitudinales sont à deux rangs de rivets et non en biseau; 70,000, lorsque les sutures longitudinales sont à un rang de rivets et en biseau; 65,000, lorsque les sutures longitudinales sont à un rang de rivets et non en biseau.
(*d.*) Fourneaux avec joints rabattus et trous de rivets percés à l'emporte-pièce.	75,000, lorsque les sutures longitudinales sont à deux rangs de rivets et en biseau. 70,000, lorsque les sutures longitudinales sont à deux rangs de rivets et non en biseau. 65,000, lorsque les sutures longitudinales sont à deux rangs de rivets et en biseau. 60,000, lorsque les sutures longitudinales sont à un rang de rivets et non en biseau.

Fourneaux et tuyaux.

Art. 74. (*a.*) La pression effective extérieure qui sera permise sur les fourneaux et tuyaux en acier, planes circulaires, lorsque soumis à cette pression, quand les joints longitudinaux sont soudés ou faits sous bandes bout-à-bout, sera déterminée au moyen de la formule suivante :—

(*b.*) Le produit de 90,000 multiplié par le carré de l'épaisseur de la tôle en pouces, divisé par la longueur du tuyau, ou fourneau, en pieds, plus 1 multiplié par le diamètre en pouces, sera la pression effective permise par pouce carré en livres, ajoutant dix pour cent au résultat de la formule, pourvu qu'elle ne dépasse par celle trouvée au moyen de la formule suivante :—

$$\frac{90,000 \times T^2}{(L + 1) \times D} = \text{la pression effective lorsque}$$

T = l'épaisseur de la tôle en pouces.

D = le diamètre extérieur du carneau en pouces.

L = la longueur du carneau ou du fourneau en pieds, ou la longueur entre les anneaux en pieds, s'il est renforcé par des anneaux propices ou des joints Adamson

(*c.*) Le produit de 10,000 multiplié par l'épaisseur de la tôle en pouces, divisé par le diamètre (extérieur) du tuyau ou fourneau, en pouces, sera la pression effective permise par pouce carré en livres.

Fourneaux et tuyaux en acier ridé.

Art. 75. (*a.*) Pour les fourneaux à tubes en acier, lorsque neufs, ridés et faits à la machine, et pratiquement ronds, la pression effective est trouvée au moyen de la formule suivante, pourvu que les parties planes aux extrémités n'excèdent pas six pouces de longueur, et que les plaques n'aient pas moins de $\frac{5}{16}$ de pouce d'épaisseur :—

$$\frac{14,000 \times \text{l'épaisseur en pouces}}{\text{Moyenne du diamètre en pcs.}} = \left\{ \begin{array}{l} \text{la pression effective} \\ \text{au pouce carré.} \end{array} \right.$$

(*b.*) Quand les fourneaux sont rivés, en deux longueurs ou plus, le cas devrait être soumis au président pour être considéré, vu qu'il pourrait être nécessaire de faire une réduction.

Fourneaux en fer ridé.

Art. 76. La pression effective pour les fourneaux en fer ridé, pratiquement circulaires, et faits à la machine, pourvu que les parties planes aux extrémités n'excèdent pas six pouces de longueur et que les plaques n'aient pas moins de $\frac{5}{16}$ de pouce d'épaisseur, ne devrait pas excéder celle trouvée par la formule suivante :

$$\frac{10,000 \times \text{l'épaisseur en pouces}}{\text{Moyenne du diamètre en pcs.}} = \left\{ \begin{array}{l} \text{la pression effective} \\ \text{au pouce careé.} \end{array} \right.$$

Devoirs des inspecteurs.

Art. 77. Les inspecteurs fixeront la pression effective des chaudières a moyen d'une série de calculs de la force des diverses parties, et suivant l'ouvrage et les matériaux.

Art. 78. Avant d'éprouver une chaudière, l'inspecteur devra l'examiner, faire les mesurages et calculs nécessaires pour s'assurer que la pression effective est conforme aux présents règlements; si l'épreuve n'est pas satisfaisante, les défauts seront corrigés et la chaudière éprouvée de nouveau. Cette instruction s'applique aux surchauffeurs, récipients à vapeur et chemises à eau aussi bien qu'aux chaudières.

Art. 79. Si la chaudière est trop chaude pour que l'inspecteur puisse l'examiner efficacement avec sûreté et facilité, il devra refuser de l'examiner, et refuser absolument d'accorder un certificat jusqu'à ce qu'il en ait fait un examen suffisant.

Art. 80. Les inspecteurs veilleront à ce que toutes les chaudières neuves et les chaudières qui auront été sorties d'un navire pour être réparées, soient éprouvées au moyen del a pression hydrostatique, dans la proportion d'au moins un et demi de la presssion effective qui sera permise, avant que les chaudières ne soient placées dans les navires pour éprouver l'ouvrage, etc.; mais la pression effective sera établie par la force des armatures, l'épaisseur des plaques et la force des rivets, etc., et non pas par l'épreuve hydrostatique.

Art. 81. L'épreuve hydrostatique ne devra, dans aucun cas excéder celle prescrite par l'article 44 des présents règlements, et ne doit jamais être appliquée avant que la chaudière n'ait été ouverte pour l'examen ni avant que la force n'ait été calculée d'après les mesurages nécessaires pris sur la chaudière même.

Art. 82. Lorsqu'une chaudière est partiellement inspectée par un inspecteur, et que l'inspection est complétée et le certificat accordé par un autre, si l'inspecteur qui était présent à l'épreuve des chaudières par la pression hydrostatique a l'occasion de les examiner à l'intérieur et à l'extérieur après l'épreuve, cet inspecteur fixera la pression qui sera permise sur les chaudières en question, en ayant soin d'informer les propriétaires, fabricants ou agents, et l'inspecteur qui doit plus tard accorder le certificat, de la pression qu'il croit devoir être permise sur ces chaudières, et l'inspecteur qui a partiellement inspecté la chaudière informera l'inspecteur qui complète l'inspection de tous les détails de son inspection de la chaudière.

Art. 83. Les armatures en fonte ne doivent pas être employées, et les inspecteurs devront condamner l'usage de cales et assiettes en fonte pour les chaudières. On doit porter une attention toute spéciale à coincer et assujétir les chaudières dans les navires.

Art. 84. La pression permise sur la chaudière d'un bateau à passagers ne doit jamais, dans aucune circonstance, être augmentée, à moins que l'inspecteur n'ait préalablement écrit au président pour en obtenir la permission. Dans les cas où un inspecteur croira qu'une plus forte pression peut avec sûreté être permise, il devra en informer l'inspecteur qui aura inspecté la chaudière en dernier lieu; et si, en apprenant pourquoi la pression actuelle avait autrefois été permise, l'inspecteur est encore d'opinion qu'elle peut être augmentée, il devra communiquer tous les faits au président; mais comme il est dit plus haut, la pression ne devra, dans aucun cas, être augmentée tant que la question n'aura pas été décidée par le président.

Art. 85. En établissant le maximum de la pression effective sur les chaudières de bateaux à vapeur, les inspecteurs prendront la pression permise comme force motrice pour une chaudière neuve de quarante-deux pouces de diamètre faite de la meilleure qualité de tôle d'acier, d'au moins un quart de pouce d'épaisseur, les trous des rivets devant être percés en place, les plaques étant ensuite séparées et les bavures ébarbées, les sutures longitudinales de la chemise étant assujéties au moyen le bandes d'acier bout-à-bout coupées en travers du grain de la tôle, et chacune de cinq-huitièmes d'épaisseur des plaques qu'elles recouvrent, et toutes les sutures des plaques étant au moins à double rang de rivets et ayant pour le moins soixante-dix pour cent de la force de la tôle solide, toutes les surfaces planes devant être étayées de la meilleure manière et toutes les sutures à doubles rangs de rivets; et ils établiront la pression effective de toutes les chaudières en acier ainsi faites, qu'elles soient d'un moindre ou d'un plus grand diamètre, d'après cette règle; et dans tous ces cas l'épreuve excèdera la pression effective permise pour ces chaudières dans la proportion de cent cinquante à cent livres, et la température de l'eau dont il sera fait usage dans les épreuves n'excèdera pas soixante degrés Fahrenheit; et toutes les proportions ajoutées au facteur de sûreté pour ouvrage mal fait ou matériaux inférieurs devront être déduites de cette pression.

Art. 86. En établissant le maximum de la pression effective sur les chaudières de bateaux à vapeur, les inspecteurs prendront la pression de cent livres par pouce carré pour maximum de pression permise comme force motrice pour une chaudière neuve de quarante-deux pouces de diamètre, faite du meilleur fer affiné, d'au moins un quart de pouce d'épaisseur, de la meilleure manière et de la qualité requise par le présent règlement ; et il établira la pression effcetive de toutes les chaudières en fer, qu'elles soient d'un moindre ou d'un plus grand diamètre, d'après cette règle ; et dans tous ces cas, l'épreuve excédera la pression effective permise dans la proportion de cent cinquante à cent livres, et la température de l'eau dont il sera fait usage dans les épreuves n'excédera pas soixante degrés Fahrenheit; toutes les proportions ajoutées au facteur de sûreté pour ouvrage mal fait ou matériaux inférieurs, devront être déduites de cette pression.

Art. 87. Dans le cas de rivure en zig-zag, la force à travers la tôle diagonalement entre les rivets est égale à la force horizontale entre les rivets, lorsque l'écartement diagonal $= \frac{6}{10}$ de l'écartement horizontal $+ \frac{4}{10}$ le diamètre du trou du rivet.

PARTIE III.

Règlement pour l'inspection des chaudières à tubes à eau.

MODE D'INSPECTION DU GENRE DE CHAUDIÈRE À TUBES À EAU APPELÉE "ROBERTS' SAFETY WATER TUBE BOILER," OU AUTRE CHAUDIÈRE SEMBLABLE.

Art. 88. Tout inspecteur pourra, chaque fois qu'il le jugera nécessaire, et un inspecteur devra, au moins une fois chaque année, éprouver la chaudière à tubes à eau de tout bateau à vapeur par une pression hydrostatique dans la proportion de deux cents livres par pouce carré, à cent cinquante livres permises comme pression effective, et la température de l'eau dont il sera fait usage dans l'épreuve n'excédera pas soixante degrés Fahrenheit, et il devra s'assurer, par un examen personnel et des épreuves expérimentales, par vapeur et par eau, que cette chaudière est bien faite et que ces matériaux sont sains et sans défauts. Le propriétaire du bateau à vapeur fournira la pompe à bras et les appareils et le combustible et autres choses nécessaire pour faire l'épreuve, et l'équipage du navire les fera fonctionner; et aucun inspecteur de chaudières et machines ne fera ni ne donnera aucun certificat au propriétaire ou au capitaine d'un bateau à vapeur muni d'une chaudière ou de chaudières à tubes à eau à moins qu'il n'ait préalablement soumis la chaudière ou les chaudières du bateau à cette épreuve hydrostatique, et en marche sous vapeur, afin d'éprouver les chaudières et le fonctionnement des pompes d'alimentation en mouvement, et à l'examen prescrit par le présent, la durée de l'épreuve en marche sous vapeur sera d'au moins une heure, mais pourra être prolongée plus longtemps au choix de l'inspecteur.

Art. 89. Avant qu'une chaudière à tubes à eau ne soit soumise à l'épreuve par la pression hydrostatique, elle sera ouverte pour la visite de l'inspecteur, l'enveloppe extérieure sera enlevée, l'extérieur et l'intérieur de la chaudière seront nettoyés, les grilles enlevées et le fourneau déchargé et balayé, afin qu'il puisse en faire une inspection satisfaisante et complète; lorsque des cloisons seront placées de manière à empêcher une inspection minutieuse de la tôle et des tubes de la chaudière elles seront enlevées ; et le propriétaire ou capitaine du bateau veillera à ce que toutes les dispositions susdites soient prises avant de demander une inspection.

Art. 90. Chaque fois que l'épreuve n'aura pas été satisfaisante, les défauts seront réparés et la chaudière sera soumise à une seconde épreuve, qui devra être satisfaisante avant qu'un certificat ne soit délivré.

Art. 91. L'inspecteur doit fixer la pression effective des chaudières à tubes à eau au moyen d'une série de calculs de résistance des diverses parties tel que ci-dessous spécifié, et en raison de la nature de la main-d'œuvre et des matériaux.

Art. 92. Si une chaudière est trop chaude pour qu'un inspecteur puisse l'examiner efficacement avec sûreté et facilité, il devra refuser de l'examiner, et refuser absolument d'accorder un certificat jusqu'à ce qu'il en ait fait un examen satisfaisant.

Art. 93. Pour s'assurer de la force et de l'état d'une chaudière à tubes à eau, à l'intérieur, l'inspecteur pourra, s'il le juge nécessaire, y faire percer des trous, en faire enlever certaines sections et détacher des tuyaux, et pourra aussi demander qu'on lui fournisse au moyen des dessins et des devis des différentes parties de la chaudière, des renseignements suffisants sur sa construction pour lui permettre au moyen de calculs et d'un examen de déterminer leur force de résistance.

Art. 94. Pendant la confection de toute chaudière à tubes à eau faite en Canada, le fabricant devra notifier l'inspecteur du district dans lequel elle sera faite qu'il peut la venir inspecter, et il devra en tout temps pendant cette confection, donner à l'inspecteur libre accès à la chaudière.

Art. 95. Aucune chaudière à tubes à eau ne devra être faite de tôle à chaudière, soit en fer soit en acier, qui n'aura pas été étampée du nom ou de la marque du fabricant, et nul certificat ne sera délivré pour une chaudière à tubes à eau faite en entier ou en partie de tôle ne portant pas une pareille marque ; et avant qu'un certificat puisse être délivré pour une chaudière à tubes à eau, le fabricant devra fournir à l'inspecteur une déclaration, attestée sous serment, du nom du fabricant, de la tôle employée, de la qualité de celle-ci et de la qualité de tous les tuyaux et matériaux employés dans la confection de la chaudière ainsi que la qualité de la main-d'œuvre ; ce serment pourra être prêté devant un juge de paix en Canada, ou devant un notaire public, et attesté sous son sceau officiel, s'il est prêté en dehors du Canada ; pourvu toujours que, dans les cas où cette déclaration sous serment, par le fabricant de la chaudière, ne pourrait être obtenu pour quelque cause jugée suffisante par l'inspecteur, l'affidavit de deux fabricants pratiques de chaudières à tubes à eau qui auront examiné la chaudière et fait rapport sur la qualité des matériaux qui y ont été employés, celle de l'ouvrage et la force de la chaudière, sera, s'il est trouvé satisfaisant par l'inspecteur, considéré comme suffisant et tiendra lieu de la déclaration requise du fabricant de la chaudière.

Art. 96. Afin d'empêcher qu'il ne s'élève de différends après qu'une chaudière à tubes à eau aura été commencée, le fabricant ou l'entrepreneur devra fournir à l'inspecteur, pour son approbation, les détails relatifs à sa construction, au moyen de dessins et de devis ; l'inspecteur, lorsqu'il aura reçu ces plans ou devis et les aura approuvés veillera à ce qu'ils soient suivis dans la construction, et il devra réduire la pression effective si ces plans n'ont pas été suivis. Le présent règlement s'appliquera aussi aux chaudières subissant des changements.

Art. 97. Aucune chaudière à tubes à eau, ni aucun tuyau s'y rattachant, ne seta approuvé s'il est fait en entier ou en partie de mauvais matériaux, ou si l'ouvrage est défectueux, ou s'il est dangereux à cause de sa forme, de sa vétusté, de sa détérioration par l'usage, ou pour toute autre cause.

Art. 98. Les inspecteurs veilleront à ce que toutes les chaudières à tubes à eau neuves et les chaudières à tubes à eau qui auront été sorties d'un navire pour être réparées, soient éprouvées au moyen de la pression hydraulique dans la proportion d'au moins deux fois la pression effective qui sera permise, avant que les chaudières ne soient placées dans le navire, et éprouver l'ouvrage et les matériaux, mais la pression effective sera établie par la force des armatures, l'épaisseur de la plaque et des tuyaux, la force des rivets, etc., et non pas par l'épreuve hydraulique seulement.

Art. 99. L'épreuve hydraulique ne devra pas excéder la proportion de deux fois la pression effective permise, et ne doit jamais être appliquée avant que la chaudière n'ait été ouverte pour l'examen, ni avant que la force de toutes les parties de la chaudière n'ait été calculée d'après les mesurages nécessaires pris sur la chaudière même.

Art. 100. Lorsqu'une chaudière à tubes à eau est partiellement inspectée par un inspecteur, et que l'inspection est complétée et le certificat accordé par un autre si l'inspecteur qui était présent à l'épreuve de la chaudière par la pression hydraulique, et en marche sous vapeur, a l'occasion de l'examiner à l'intérieur et à l'extérieur après l'épreuve, cet inspecteur fixera la pression effective qui sera permise sur la chaudière, en ayant soin d'informer les propriétaires ou le fabricant ou le capitaine ou l'agent, et l'inspecteur qui l'a partiellement inspectée, de la pression effective qu'il croit devoir être permise sur cette chaudière, et l inspecteur qui a partiellement inspecté la chaudière devra informer l'inspecteur qui complète l'inspection de tous les détails de son inspection de la chaudière.

Art 101. Les armatures, tuyaux et coudes en fonte ne doivent pas être employés dans les chaudières à tubes à eau ; les inspecteurs devront condamner l'usage de cales et assiettes en fonte pour les chaudières. On doit porter une attention toute spéciale à coincer et assujétir les chaudières dans les navires pour les empêcher de se déplacer et de se détacher, et tous les tuyaux devront être de la meilleure qualité de métal, à joints superposés, ou faits tout d'une pièce.

Art. 102. La pression permise sur la chaudière à tubes à eau ne doit jamais, dans aucune circonstance, être augmentée, à moins que l'inspecteur n'ait préalablement écrit au président du bureau d'inspection des bateaux à vapeur, pour en obtenir la permission. Dans les cas où un inspecteur croira qu'une plus forte pression peut avec sûreté être permise, il devra en informer l'inspecteur qui aura inspecté la chaudière en dernier lieu ; et si, en apprenant pourquoi la pression actuelle avait autrefois été permise, l'inspecteur est encore d'opinion qu'elle peut être augmentée, il devra communiquer tous les faits au président, mais comme il est dit plus haut, la pression ne devra, dans aucun cas, être augmentée tant que la question n'aura pas été décidé par le président.

Art. 103. Dans le cas d'une nouveauté quelconque dans la construction d'une chaudière à tubes à eau, ou si l'on s'est départi du mode d'entretoisement et de renforcement prescrit dans les présentes règles, l'inspecteur fera rapport de toutes les circonstances au président avant de fixer la pression effective.

Art. 104. Un inspecteur ne déclarera pas qu'une chaudière à tubes à eau est sûre à moins qu'il n'en connaisse tout à fait la construction, les matériaux et la main-d'œuvre. Il devra par conséquent prendre des précautions avant de s'aventurer à sanctionner une chaudière qu'il n'aura pas été appelé à inspecter avant qu'elle ait été terminée et mise en place.

Art. 105. Dans le cas de chaudières à tubes à eau neuves, les inspecteurs autoriseront une tension n'excédant pas 5,000 livres par pouce carré de la section nette des tirants en fer plein filetés supportant des surfaces planes; mais la tension ne devra pas dépasser 4,000 livres si les tirants ont été soudés. Lorsque la tête du tambour est assujétie au moyen d'un tirant au centre, l'aire à supporter sera d'un quart de toute l'aire de la tête, mesurée à l'intérieur du tambour. Pour les tirants dans les chaudières à tubes à eau, il pourra être permis 6,000 livres par pouce carré d'aire de profil, si d'ailleurs elles sont conformes aux chaudières auxquelles s'appliquent les règles I et II.

Art. 106. La pression sur les plaques formant des surfaces planes est déterminée par la formule suivante :—

$$\frac{C \times (T-1)^2}{S-6} = \text{pression effective par pouce carré.}$$

Lorsque la tête du tambour est supportée par un tirant au centre, l'aire de la surface plane supportée et la pression effective se trouvent par la formule suivante :—

$$\frac{C \times (T+1)^2}{\left(\frac{d}{2}-1\right)^2-6} = \text{la pression effective.}$$

d = le diamètre intérieur de la tôle du tambour en pouces.

T = l'épaisseur de la tôle en seizièmes de pouces.

S = la surface supportée en pouces carrés.

C = la constante déterminée suivant les circonstances suivantes :—

(*a*.) C = 80 lorsque les tôles sont exposées au choc de la chaleur, flamme ou gaz chauds, l'eau et la vapeur étant en contact avec elles comme dans la chaudière dite Roberts Safety Water Pipe Boiler), et que les tirants sont vissés dans les tôles, munis d'écrous ; ou bien rivés avec une bonne tête.

(*b*.) Lorsque les extrémités vissées des tirants sont très corrodées ou brûlées, les constantes doivent être réduites, mais l'inspecteur doit se guider sur les circonstances constatées lors de l'inspection ; et dans le cas où il est reconnu que les extrémités vissées des tirants sont dans cet état, la constante pourra être réduite de 80 à 36. Dans les cas douteux l'inspecteur pourra soumettre le cas au président.

Art. 107. Par rapport à l'inspection en général de la Roberts Safety Water Tube Boiler, ou de chaudières de forme semblable—

La chaudière sera ouverte à l'inspection pendant sa construction, l'inspecteur s'assurera que dans toutes les chaudières de ce genre faites après le premier jour de février 1891, la qualité de la tôle ou matière dont est fait le tambour est de la "meilleure qualité," et porte le nom ou l'étampe du fabricant, et, s'il est d'acier, que la force de tension est entre 57,000 et 64,000 livres, et supporte au moins 25 pour 100 d'allongement, et que les épreuves des tôles (applicables lorsque le tambour est rivé longitudinalement) et des tirants sont identiques aux épreuves prescrites par l'article 36 des susdits "Règlements pour l'inspection des chaudières des bateaux à vapeur."

(*a*.) La constante qui sert à calculer la pression effective permise sur un tambour de tôle de fer ou d'acier sera de 30,000 livres par pouce carré d'aire de profil, tenant compte du percentage des sutures si elles sont rivées, et du percentage de tôle laissé par la ligne de trous là où les tubes à eau sont attachés, employant un facteur d'au moins 5, avec additions tel que prescrit dans les susdits "Règlements pour l'inspection des chaudières de bateaux à vapeur."

Art. 108. L'épaisseur de la tôle dans les tambours de chaudières à tubes à eau de moins de dix pouces de diamètre devra avoir au moins trois-huitièmes de pouce, et pour les tubes de dix pouces de diamètre jusqu'à quatorze pouces elle sera d'au moins un demi-pouce, et les têtes de tambour n'auront jamais moins d'un demi-pouce d'épaisseur, et après avoir été bridées si elles sont de tôle d'acier, elles seront trempées.

Les têtes de tambour des chaudières à tubes à eau pourront être soudées au tambour au lieu d'être rivées ou boulonnées au tambour, lorsque le tambour et les tôles sont en fer, et n'excèdent pas neuf pouces de diamètre.

Art. 109. Les soupapes de sûreté seront placées une sur le tuyau à vapeur près du tambour, et une sur le tambour, le nombre et les dimensions des soupapes de sûreté seront tel que prescrit dans les "Règlements concernant l'inspection des soupapes de sûreté."

(*a*.) L'aire collective de soupape de sûreté requise sur chaque chaudière à tubes à eau jumelle (reliées par des soupapes ou des robinets) au delà de la même aire de grille, peut être divisée en quatre soupapes de sûreté ; deux sur chaque partie de la chaudière.

PARTIE IV.

RÈGLEMENTS CONCERNANT L'INSPECTION DES SOUPAPES DE SURETÉ, EN VERTU DU 1ER ARTICLE DE L'ACTE 53 VICTORIA, CHAPITRE 17, INTITULÉ "ACTE MODIFIANT DE NOUVEAU L'ACTE D'INSPECTION DES BATEAUX À VAPEUR, CHAPITRE 78 DES STATUTS REVISÉS."

Art. 110. (*a*.) Après que les règlements seront devenus exécutoires, chaque chaudière faite ou placée à bord d'un bateau à vapeur sera munie de deux soupapes de sûreté, ou plus, fermées à clef, dont la construction sera approuvée par le bureau d'inspecteurs de bateaux à vapeur, ou par le président, si le bureau n'est pas alors en session ; l'aire collective des dites soupapes de sûreté ne sera pas inférieure à celle spécifiée dans la table ci-jointe vis-à-vis la pression attribuée à la chaudière ; les soupapes de sûreté devraient être posées sur la chaudière, ou aussi près que possible de la chaudière, sans tuyaux, robinets, soupapes et autres obstacles possibles entre les soupapes de sûreté et la chaudière.

Chaque inspecteur, lorsqu'il inspecte, visite ou examine la chaudière ou les machines d'un bateau à vapeur, devra s'assurer que les soupapes de sûreté y attachées sont de dimensions convenables, en nombre suffisant, bien disposées et fonctionnent bien, et ne portent que le poids nécessaire pour leur permettre de s'ouvrir à la pression ou au-dessous de la pression effective certifiée ; et, s'il le juge à propos, il pourra ordonner que deux de ces soupapes de sûreté ou plus (lesquelles seront ensemble de dimensions suffisantes à laisser échapper toute la vapeur que la chaudière peut produire, et dont il approuvera la construction) soient fermées à clé et soustraite au contrôle du mécanicien lorsque la vapeur est levée ; mais le mécanicien aura accès aux soupapes de sûreté lorsque la vapeur n'est pas levée, et veillera à ce qu'elles soient tenues en bon état de fonctionnement, et le capitaine du bateau à vapeur verra à ce que le mécanicien y ait accès à cette fin, et les tienne en bon état de fonctionnement.

Les robinets et soupapes attachés aux chaudières seront solidement faits, et jamais fixés aux chaudières au moyen de vis dans la tôle, à moins que pour plus grande sûreté, des brides boulonnées ne soient ajoutées en sus de ses attaches.

Aucune soupape ne devra, dans aucun cas, porter un poids, ou être arrangée de manière à assujétir la chaudière à une plus grande pression que celle permise par l'inspecteur lors de sa dernière inspection.

Chaque soupape de sûreté faite ou placée à bord d'un bateau à vapeur et attachée à une chaudière devra avoir un jeu au moins égal à un quart de son diamètre, les orifices pour le passage de la vapeur en entrant et sortant, auront chacune une aire égale à l'aire de la soupape, de même que le tuyau de renvoi d'eau, et la boîte de la soupape aura un tuyau de renvoi d'eau ; si le levier d'une soupape de sûreté n'est pas emboîté dans du cuivre, la cheville sera de cuivre,—le fer en contact avec le fer ne sera pas permis ; chaque soupape de sûreté sera munie d'un appareil de levage de manière à pouvoir le faire fonctionner avec la main, soit de la chambre de la machine soit de la cale des feux, ou par le capitaine ou personne en charge sur le pont ;

(*b*.) On ne doit pas admettre de soupape de sûreté qui n'ont pas au moins deux pouces de diamètre, sauf dans le cas de petites chaudières dont la surface de grille a moins de quinze pieds carrés, cas où l'on peut tolérer des soupapes de sûreté d'un moindre diamètre ; mais en aucun cas ce diamètre ne doit avoir moins d'un pouce, et pourvu qu'elles soient d'une construction approuvée, et que l'aire de la soupape de sûreté soit relativement à l'aire de grille dans le rapport indiqué dans les tables d'aires de soupapes de sûreté.

(*c*.) L'aire de la grille sera constatée en mesurant la longueur de la grille depuis le bord intérieur de la plaque fixe jusqu'au devant de l'arche, et la largeur d'un côté à l'autre du fourneau au-dessus des barres à leur centre.

(*d*.) L'inspecteur éprouvera les soupapes de sûreté sur les nouvelles chaudières, ou sur d'autres chaudières s'il désire les prouver, sous pleine vapeur et feux ardents pendant au moins 15 minutes, tenant le tuyau d'alimentation arrêté, et la soupape d'arrêt fermée. Si l'accumulation de la pression excède 10 pour 100 de la pression voulue, il n'accordera pas de certificat sans faire rapport au président de tous les détails de l'épreuve, et de la pression dans la chaudière ainsi qu'un dessin de la soupape de sûreté ; et un inspecteur ne devra jamais donner un certificat pour des soupapes de sûreté sans les avoir examinées, et s'être mis au fait des détails de leur construction.

Art. 111. (*a*.) Instruction est donnée aux inspecteurs que dans toutes les nouvelles chaudières, et chaque fois que des changements peuvent facilement être faits, la boîte de soupape doit être placée directement sur la chaudière ; et le col, ou la partie de la boîte et la bride qui est attachée à la chaudière, doivent être aussi courts que possible.

(*b*.) Chaque fois qu'un inspecteur croit qu'il est positivement dangereux d'avoir une longueur de tuyaux entre les chaudières et la boîte de la soupape de sûreté, il devra de suite insister pour que les changements nécessaires soient faits avant d'accorder un certificat.

(*d.*) Lorsque des soupapes à levier sont employées la distance entre le centre de la soupape et le centre du point d'appui ne doit pas être moindre que le diamètre de la soupape.

(*e.*) Les soupapes de sûreté doivent être placées dans des endroits convenables et d'accès facile, afin que leur ajustement et examen puissent être faits aisément et efficacement. Dans l'examen des chaudières et des machines, l'inspecteur doit surtout porter son attention aux soupapes, et chaque fois qu'il le juge nécessaire il doit s'assurer de la pression sur la chaudière en en faisant l'épreuve. L'inspecteur doit examiner les soupapes de sûreté, les poids et les ressorts à chaque inspection.

(*f.*) Les sièges des soupapes doivent être fixés de manière à ne pas lever avec la soupape.

(*g.*) L'arbre du tiroir doit être attaché à la soupape de façon à lever en même temps que la soupape.

(*h.*) La dimension de l'acier dont est fait le ressort pour les soupapes de sûreté à ressort, se trouve au moyen de la formule suivante prise des règlements du Conseil du Commerce Impérial :—

$$\sqrt[3]{\frac{S \times D}{c}} = d$$

c = 8,000 pour acier rond.
c = 11,000 pour acier carré.
S = le poids en livres sur le ressort.
D = le diamètre du ressort (d'axe en axe du fil métallique en pouces.)
d = le diamètre ou côté du fil métallique, en pouces.

Le ressort doit être protégé contre la vapeur et les impuretés sortant de la chaudière, et des mesures doivent être prises pour maintenir le ressort en position sur la soupape dans le cas où il se briserait.

(*i.*) Un ressort règlementaire fait du meilleur acier carré, contient ·25 d'un pouce carré, le diamètre intérieur est de deux pouces, et le diamètre extérieur est de trois pouces ; il a treize tours complets avec les bouts, et a 11½ pouces de long. Le poids effectif est placé à 600 livres, un sixième de son poids de rupture lorsqu'il est trempé à un degré justement suffisant pour le casser ; avec ce poids il doit fléchir exactement d'un pouce.

(*j.*) Pour trouver l'aire de profil pour tout autre ressort, la pression ou poids sur la soupape étant donnée :—

600 : 700 : : ·25 : ·29 = aire de profil ou ressort à une charge de 700 liv. Les autres dimensions du ressort sont dans la même proportion, le nombre de tours, treize, étant constant.

$\frac{37·5}{\text{pression brute}}$ = un pouce carré de la soupape de sûreté par pouce de grille.

PARTIE V.

Devoirs et responsabilité des mécaniciens.

Art. 112 (*a.*) Dans tous les cas, les mécaniciens, en arrêtant la machine, devront ouvrir la soupage de sûreté de façon à maintenir la vapeur dans la chaudière au-dessous de la limite fixée par le certificat de l'inspecteur, comme le prescrit la loi, ouvrir le fourneau et fermer les registres, et quand, à la suite d'un accident ou pour toute autre cause, l'eau de la chaudière est descendue au-dessous du point de sûreté, éteindre les feux immédiatement.

(*b.*) Les mécaniciens devront entretenir en parfait état les pompes, les boyaux et leurs jonctions, afin qu'ils soient toujours prêts en cas de besoin ; et lorsque ces appareils ne pourront plus servir par suite de leur usage ou pour d'autre cause, les mécaniciens devront faire rapport de l'état dans lequel sont les dits appareils à l'inspecteur des coques qui a inspecté le vapeur en dernier lieu.

(*c.*) Les mécaniciens lorsqu'un vapeur est conduit à ses quartiers d'hiver, ou quand il les quitte définitivement, devront faire rapport au propriétaire et à l'inspecteur de la division la plus voisine, de tous défauts qui existent dans la chaudière ou la machine, ou des dommages qu'elles ont subis et qui pourraient compromettre la sûreté des passagers. Ils feront aussi rapport à l'inspecteur de la division dans laquelle le vapeur a abordé, de tout accident qui aura pu arriver à la chaudière ou machine, et dans le cas d'omission à faire ce rapport, la licence du mécanicien coupable de cette omission sera révoquée.

(*d.*) Le mécanicien en chef d'un vapeur est tenu responsable par le département de la Marine du soin et du bon entretien des chaudières et machines dont il a la charge. Dans aucun cas il ne devra donc s'absenter du vapeur quand il fait ses voyages réguliers, à moins qu'il ne se fasse remplacer durant son absence par une personne compétente.

(*e.*) Les mécaniciens à leur entrée en charge sur un vapeur, et au moins une fois par année ensuite, devront s'assurer par un examen minutieux que les tirants, armatures et fiches de la chaudière sout en bon état et capables de soutenir la tension à laquelle ils peuvent être exposés ; ils devront aussi s'assurer que les soupapes de sûreté sont en bon état et peuvent suffire dans les cas mentionnés dans les articles 65 et 110 de ces règlements.

(*f.*) Les mécaniciens afficheront leurs certificats dans la chambre des machines, ainsi qu'une copie de ces règlements lorsqu'ils en seront requis.

Soin des chaudières.

Art. 113 (*a.*) Lever la vapeur.—Chauffez la chaudière graduellement. On ne doit pas produire de vapeur avec de l'eau froide en moins de quatre heures. Si c'est possible, allumez les feux la veille au soir. En produisant de la vapeur trop vite, la chaudière sera détruite en peu de temps.

(*b.*) Chauffer.—Chauffez régulièrement. Tenez les côtés pleins et employez le tisonnier légèrement et le moins souvent possible.

(*c.*) Eau d'alimentation.—Que la provision d'eau soit régulière et constante.

(*d.*) Manomètre en verre et robinets d'essai.—Tenez le verre libre et essayez les robinets tous les quarts d'heure.

(*e.*) Soupapes de sûreté.—Soulevez chaque soupape de sûreté au moins une fois par jour, et toujours avant de lever la vapeur.

(*f.*) Eau basse.—Eteignez les feux en les retirant ou en les recouvrant de cendres. N'y jetez jamais d'eau. On ne doit jamais laisser baisser l'eau.

(*g.*) Vider la chaudière.—Ne videz pas au moyen de la pression de vapeur ; laissez écouler l'eau si c'est possible. Veillez à ce que les feux soient éteints et les cendres chaudes enlevées.

(*h.*) Nettoyeurs de chaudières.—N'employez jamais de compositions pour empêcher les encroûtements, ni d'huile ou autres impuretés pour les enlever, sans l'approbation du président.

(*i.*) Règles générales.—Tenez la chaudière nette à l'intérieur et à l'extérieur et exempte de fuites d'eau. Ne jetez jamais d'eau dans la fournaise. Sous une haute pression, soulevez doucement la soupape de sûreté. Amortissez les feux, ou, si c'est nécessaire, arrêtez la machine (si le patron croit que la chose peut se faire avec sûreté), lorsque l'eau écume, pour trouver son niveau.

PARTIE VI.

Règlement concernant l'examen des mécaniciens.

Mécaniciens de quatrième classe.

1. Nul n'aura droit d'obtenir un certificat de mécanicien de quatrième classe à moins qu'il ne remplisse les conditions suivantes, savoir :—

(*a.*) Il devra être âgé de plus de vingt et un ans.

(*b.*) Il devra avoir fait un apprentissage de pas moins de trente-six mois dans un atelier de machines à vapeur et avoir été employé à la confection et réparation de machines à vapeur ; ou, s'il n'a pas fait cet apprentissage, il devra avoir été employé pendant trente-six mois au moins comme compagnon dans quelque atelier à la confection et réparation de machines à vapeur ; ou—

(*c.*) Il devra avoir servi pendant trente-six mois au moins dans la chambre de la machine d'un bateau à vapeur comme mécanicien de quart ; ou—

(*d.*) Il devra avoir servi pendant trente-six mois au moins dans la chambre de la machine d'un bateau à vapeur d'une force nominale de trente chevaux au moins, comme graisseur de quart ; ou—

(*e.*) Il devra avoir servi pendant quarante-huit mois au moins dans la cale des feux d'un bateau à vapeur d'une force nominale de trente chevaux au moins, comme chauffeur de quart ;

(*f.*) Et dans chacun des cas ci-dessus mentionnés, il pourra avoir servi pendant douze (12) mois du temps prescrit dans un atelier de chaudières à la confection et réparation des chaudières à vapeur.

(*g.*) Service dans la double capacité de mécanicien et chauffeur, ou de graisseur et chauffeur, ne sera accepté que comme service de chauffeur, pour mécanicien de quatrième classe, et nulle autre, si ce service a été sur des machines d'une force nominale d'au moins trois chevaux.

(*h.*) Il devra savoir lire et avoir une écriture lisible.

(*i.*) Il devra comprendre l'agencement et le fonctionnement de la pompe alimentaire, des indicateurs d'eau et des soupapes de sûreté ; il devra savoir quand une chaudière gonfle et comment arrêter le gonflement ; il devra aussi comprendre le danger résultant de la négligenee à entretenir une chaudière proprement, et savoir comment la nettoyer.

Mécaniciens de troisième classe.

2. Nul n'aura droit à un certificat de mécanicien de troisième classe à moins qu'il ne remplisse les conditions suivantes, savoir :—

(*a.*) Il devra être âgé de plus de vingt et un (21) ans ;

(*b.*) Il devra avoir fait un apprentissage de trente-six mois ou moins dans un atelier de machines à vapeur, et avoir été employé à la confection et la réparation de ces machines ;—ou, s'il n'a pas fait cet apprentissage, il devra avoir été employé pendant trente-six mois au moins comme compagnon dans quelque atelier à la confection et réparation de ces machines ; et, dans l'un ou l'autre cas, il devra avoir servi pendant douze mois dans la chambre de la machine d'un bateau à vapeur comme mécanicien de quart ; ou—

(*c.*) Il devra avoir servi pendant quarante-huit mois au moins dans la chambre de la machine d'un bateau à vapeur comme mécanicien de quart ;

(*d.*) Il devra pouvoir faire une description des chaudières, de la manière de les étayer, et savoir comment les réparer, comment doubler une machine, poser ses excentriques et ajuster les tiroirs ou soupapes, et connaître la cause de tout dérangement et les moyens d'y remédier.

(*e.*) Il devra savoir lire et avoir une bonne écriture et comprendre les cinq premières règles de l'arithmétique.

Mécaniciens de seconde classe.

3. Un mécanicien de seconde classe devra remplir les conditions suivantes, savoir :—

(*a.*) Il devra être âgé de plus de vingt et un ans ;

(*b.*) Il devra avoir fait un apprentissage, de pas moins de trente-six mois dans un atelier de machines à vapeur, et avoir été employé à la confection et réparation des machines à vapeur ;—ou, s'il n'a pas fait cet apprentissage il devra prouver qu'il a été employé pendant pas moins de trente-six mois comme compagnon dans quelque atelier, à la confection et à la réparation des machines à vapeur, * et dans l'un et l'autre cas il devra aussi avoir servi pendant douze mois au moins dans la chambre de la machine d'un bateau à vapeur d'une force nominale de trente chevaux au moins, comme mécanicien de quart ; ou—

(*c.*) Il devra avoir servi pendant quarante-huit mois au moins dans la chambre de la machine d'un bateau à vapeur comme mécanicien de quart, dont vingt-quatre mois au moins l'auront été sur un bateau à vapeur d'une force nominale de pas moins de trente chevaux ;

(*d.*) Il devra être capable de faire la description des chaudières et de la manière de les étayer, ainsi que l'emploi et le fonctionnement des divers robinets, soupapes, tuyaux et raccordements ;

(*e.*) Il devra savoir comment remédier aux défectuosités provenant d'accidents, usure, etc., et comment réparer ces défectuosités ;

(*f.*) Il devra comprendre l'emploi du baromètre, du thermomètre, du salinomètre, et les principes d'après lesquels ils sont construits ;

(*g.*) Il devra indiquer les causes et les effets des incrustations et de la corrosion, et les remèdes à y apporter ;

(*h.*) Il devra pouvoir expliquer comment faire une réparation temporaire ou permanente, dans le cas où une partie du mécanisme se dérangerait ;

(*i.*) Il doit pouvoir lire lisiblement, et comprendre les cinq premières règles de l'arithmétique, et les décimales, et leur application aux questions relatives à la consommation des provisions, et la capacité des réservoirs et soutes, le fonctionnement des pompes, et la tension directe dans les machines et les chaudières.

(*j.*) Il devra pouvoir passer un examen honorable sur les diverses constructions de machines à aubes et à hélice d'un usage général, sur les détails des diverses pièces de fonctionnement, extérieures et intérieures, et l'utilité de chaque pièce.

Mécaniciens de première classe.

4. L'aspirant à un certificat de mécanicien de première classe devra être âgé de vingt-deux ans.

(*a.*) En sus des capacités et connaissances d'un mécanicien de seconde classe, il devra avoir servi au moins douze mois dans un grade qui ne sera pas inférieur à celui de mécanicien de seconde classe de quart dans la chambre de la machine d'un bateau ou de bateaux à vapeur de la force nominale de cent chevaux ou plus, pendant lequel temps il devra avoir été porteur d'un certificat de capacité comme mécanicien de seconde classe.

---

* Nulle période de service excédant six mois dans un atelier de dessin ne peut être admise à compter comme service dans un atelier.

(*b.*) Il devra pouvoir calculer l'épaisseur de la tôle nécessaire pour une chaudière de dimensions données pour supporter une pression fixe de vapeur par pouce carré, et anssi la pression que l'on peut faire porter à la chaudière, ses dimensions, étais et autres parties, son genre de construction et l'épaisseur de la tôle étant donnés.

(*c.*) Il devra pouvoir calculer la tension directe, la force de torsion et la force de courbure des barres rectangulaires et rondes soumises à certaines charges. La capacité voulue de la pompe d'alimentation, et l'aire des soupapes de sûreté d'une chaudière de dimensions données, et la force d'une machine d'après le diagramme de son fonctionnement.

(*d.*) Il devra connaître les volumes relatifs de la vapeur à diverses températures et pressions, les parties constituantes chimiques de la houille et la quantité d'air nécessaire pour sa combustion.

(*e.*) Il devra connaître la conpensation de surface, le surchauffage et le travail de la vapeur par dilatation.

(*f.*) Il devra pouvoir expliquer le fonctionnement de la machine, et faire une épure de n'importe quelle partie de la machine.

(*g.* Ses connaissances en fait d'arithmétique devront s'étendre à l'extraction des racines carrées, et le mesurage des superficies et des solides.

Les demandes d'examen doivent être adressées au bureau d'inspecteur des bateaux à vapeur, ou à l'inspecteur de la division où réside le candidat; elles seront faites sur des formules fournies à cette fin par l'inspecteur, et seront accompagnées des preuves de service et de certificats de sobriété, d'expérience et d'habileté, de bonnes mœurs et de bonne conduite en général pendant au moins les douze mois précédant immédiatement la date de la demande d'examen. Si le service s'est fait à terre, les certificats devront être signés par un patron, s'il s'est fait en mer, par le capitaine et mécanicien-chef, s'ils ne sont pas ainsi signés, de bonnes raisons devront être données à l'examinateur, car ce dernier n'acceptera aucune preuve de service ni aucuns certificats qui ne seront pas complètement satisfaisants.

Les mécaniciens qui pour une cause quelconque ont eu leurs certificats révoqués subiront un second examen avant de pouvoir encore porter un certificat du même grade. S'ils passent l'examen un nouveau certificat leur sera accordé. Toutefois, le ministre de la Marine pourra, dans certains cas spéciaux, sur le rapport du bureau d'inspecteurs de bateaux à vapeur, et si les circonstances le permettent, dispenser de ce nouvel examen.

Tout mécanicien qui, antérieurement à l'année 1886, était porteur d'un certificat de mécanicien de première, deuxième ou troisième classe, pourra recevoir du ministre un certificat du même grade, en subissant un examen semblable à son premier examen devant le bureau d'inspecteurs des bateaux à vapeur, si le dit bureau ou le président du bureau est convaincu que ses mœurs, connaissance et expérience des devoirs d'un mécanicien justifient ce certificat, et pourvu que le dit bureau ou le président fasse rapport au ministre dans ce sens, et spécifie le grade de certificat qu'il doit recevoir; et pour ce certificat il aura à payer un honoraire de $5.

SERVICE EXIGÉ POUR OBTENIR DES CERTIFICATS DE MÉCANICIENS DE SECONDE OU DE PREMIÈRE CLASSE VALABLES DANS LE ROYAUME-UNI.

Les mécaniciens porteurs de certificats canadiens de première et seconde classe, qui ont passé des examens de même degré que les examens actuellement en vigueur dans le Royaume-Uni, et qui désirent échanger leurs certificats pour des certificats du même grade valables dans le Royaume-Uni, pourront s'adresser au président ou à un inspecteur pour être examinés quant au service en mer, la sobriété, la moralité, les couleurs, l'habileté et l'ouïe. S'ils passent cet examen, un certificat valable dans le Royaume-Uni pourra leur être accordé gratis.

Les aspirants aux certificats canadiens de mécaniciens de seconde ou de première classe valables dans le Royaume-Uni seront obligés de passer des examens du même degré que les examens dans le Royaume-Uni.

Le service que les papiers d'examen du candidat devront établir, est le suivant :—

Certificats de mécaniciens de seconde classe valables dans le Royaume-Uni.

1. 36 mois de service dans un atelier, employé à la confection et réparation de machines à vapeur, ainsi que—
12 mois de service comme mécanicien de quart sur les navires de long cours, ou

2. 36 mois de service dans un atelier employé à la confection et réparation de machines à vapeur, ainsi que—
18 mois de service comme mécanicien de quart dans le cabotage, ou—

3. 36 mois de service dans un atelier, employé à la confection et réparation des machines à vapeur, ainsi que—
18 mois de service comme mécanicien de quart sur les lacs ou rivières, et—
3 mois de service comme mécanicien de quart en mer, ou—

4. 48 mois de service comme mécanicien de quart sur navires de long cours, ou

5. 72 mois de service comme mécanicien de quart dans le cabotage, ou

6. 90 mois de service comme mécanicien de quart sur les lacs et rivières, ainsi que—
3 mois de service comme mécanicien de quart en mer.

Certificats de mécaniciens de première classe valab'es dans le Royaume-Uni.

1. En outre des qualités requises d'un mécanicien de seconde classe, le candidat devra avoir servi au moins 12 mois en mer comme mécanicien de quart dans la chambre de la machine d'un navire à vapeur d'une force nominale de pas moins de 100 chevaux, durant lesquels il devra avoir été porteur d'un certificat de capacité comme mécanicien de seconde classe;
2. Ou il devra avoir servi au moins 18 mois comme mécanicien de quart sur un navire à vapeur engagé dans le cabotage, d'une force nominale de pas moins de 100 chevaux, et avoir été porteur d'un certificat de capacité comme mécanicien de seconde classe pendant ce temps;
3. Ou il devra avoir servi pendant 12 mois comme mécanicien-chef ou seul mécanicien sur un vapeur des lacs ou rivières ayant une aire collective de piston de pas moins de 2,000 pouces circulaires; de plus, il devra avoir servi en mer pendant au moins 6 mois comme mécanicien de quart, et pendant tout ce temps il devra avoir été porteur d'un certificat de capacité comme mécanicien de seconde classe.

Définition.

" Service des lacs et rivières " signifie service sur les eaux intérieures, lequel aura dû être fait dans une capacité non inférieure à celle de 3e mécanicien sur un vapeur ayant une aire collective de piston de pas moins de 2,000 pouces circulaires, 2 mois de tel service n'étant considérés que l'équivalent d'un mois de service en mer.

" Cabotage " signifie service sur les navires à vapeur naviguant entre un port ou endroit en Canada, et tout autre port ou endroit en Canada, n'étant pas un port ou endroit dans les eaux de l'intérieur. Service dans le cabotage doit être double du service sur les navires de long cours.

" Service d'atelier " signifie l'apprentissage avec un mécanicien, ou un compagnon employé dans une usine, ou atelier, employé à la confection et la réparation des machines à vapeur.

" Mécanicien de quart " signifie la charge réelle des machines de propulsion, responsable des clochettes, et dans une capacité qui lui donne l'occation d'obtenir une expérience pratique comme mécanicien. Service comme graisseur ou chauffeur ne sera pas accepté.

" Service en mer " ou " long cours " signifie service à bord de navires à vapeur engagés dans le commerce étranger, et naviguant entre quelque port ou endroit dans la Puissance du Canada et quelque port ou endroit en dehors de la Puissance, n'étant pas un port ou endroit dans aucunes des eaux de l'intérieur.

PARTIE VII.

Inspection des coques et équipement des bateaux à vapeur portant des passagers.

Art. 1. Avant d'accorder un certificat pour transporter des passagers, les inspecteurs de coques devront s'assurer que les prescriptions de l'acte concernant l'inspection des bateaux à vapeur ont été observées.

(*a.*) Que la coque du bateau est suffisante pour le service auquel il est destiné, et est en bon état.

(*b.*) Que les canots, ceintures de sauvetage, bouées, feux, signaux, et boussoles sont en bon état, et que les certificats du capitaine et du second ou des seconds, du mécanicien ou des mécaniciens, sont en conformité du dit acte.

(*c.*) La durée (si pour moins de 12 mois) pour laquelle la dite coque sera jugée suffisante.

(*d.*) Les limites (si aucune) que, dans l'opinion de l'inspecteur, le navire ne doit pas dépasser, vu l'état de la coque et des équipements.

(*e*.) Le nombre de passagers, à part l'équipage, que le navire peut porter, faisant une distinction, si c'est nécessaire, entre les nombres respectifs à transporter sur le premier pont et le second pont.

Art. 2. (*a*.) Les inspecteurs devraient faire leur inspection en présence du propriétaire, du capitaine et du mécanicien du navire, si c'est possible. Les réparations nécessaires peuvent alors être indiquées aux personnes intéressées, sans perte de temps. Si ces personnes ne sont pas présentes, les inspecteurs feront leur inspection sans elle.

(*b*.) Afin d'empêcher toute erreur quant à la nature et à l'étendue des réparations exigées par les inspecteurs, chaque fois qu'ils ne peuvent donner un certificat avant que les réparations ne soient effectuées ou les changements faits, un état par écrit des défaut à corriger ou des changements requis devrait, dans tous les cas, être donné au propriétaire ou capitaine du navire, que cet état soit ou non demandé par lui; et copie de cet état devrait toujours être prise et transférée au registre des lettres du bureau.

(*c*.) S'il s'élève quelque différend entre l'inspecteur et le propriétaire ou capitaine, les faits devraient être immédiatement soumis au président d'inspection des bateaux à vapeur pour sa considération, et pour être référés au ministre de la Marine et des Pêcheries, si c'est nécessaire.

Art. 3. Si un navire qui fait ordinairement le service dans une circonscription est conduit dans une autre circonscription pour être inspecté, l'inspecteur de cette dernière circonscription ne doit pas donner de certificat sans avoir d'abord communiqué avec l'inspecteur de la première circonscription; et, dans le cas de différence d'opinion, il devra renvoyer la question au président susdit, pour être décidée.

Art. 4. C'est le devoir de l'inspecteur de coques de veiller par lui-même à chaque détail de l'inspection d'un navire, et de ne pas se fier à aucun certificat ou autre document, donné par une personne non autorisée par son département, lequel département le tiendra responsable en touts points de l'exécution du devoir qui lui est confié, et le supportera dans toute démarche raisonnable qu'il jugera nécessaire de prendre pour accomplir son devoir.

Art. 5. Chaque fois que l'inspecteur a raison de croire que la coque ou l'équipement ne peut durer aussi longtemps que douze mois il donnera son certificat pour telle période plus courte qu'il jugera à propos, en donnant aux propriétaires les raisons qui l'ont porté à agir ainsi.

Art. 6. Il est très à désirer qu'un inspecteur complète l'inspection d'un navire dans tous ces détals, une fois commencée; et, si c'est possible, des arrangements devraient être faits avec le propriétaire à cette fin. On éviterait des délais et des inconvénients si les propriétaires notifiaient l'inspecteur que le navire est prêt à être inspecté et que son équipement est à bord. Un inspecteur ne devrait pas donner de certificat pour aucun détail qu'il n'a pas inspecté et pour lequel il n'est pas prêt à se tenir responsable.

Art. 7. Quiconque sciemment ou volontairement fait ou aide à faire ou fait faire un certificat au sujet d'un bateau à vapeur, ou qui contrefait ou aide à contrefaire ou fait contrefaire, change frauduleusement un certificat exigé par l'*Acte d'inspection des bateaux à vapeur*, ou quelques mots ou chiffres dans un certificat, ou quelque signature y apposée, est coupable de délit.

Art. 8. Il ne doit pas être accordé de certificat pour douze mois, chaque fois que l'inspecteur a quelques doutes quant à l'efficacité d'une partie quelconque du navire ou de l'équipement pour une telle période,

Art. 9. Les inspecteurs décideront si les coques des vapeurs à passagers sont en bon état et capables de faire le service auquel ils sont destinés; et ils devront examiner les coques à l'extérieur et à l'intérieur une fois par année, si possible, ou plus souvent, et en tel temps qui conviendra le mieux aux propriétaires.

Art. 10. Les vapeurs neuf devraient être inspectes avant d'être peinturés ou finis, mais cette inspection ne doit pas empêcher l'inspection complète de la coque et de l'équipement après parachèvement, l'objet étant de se former une idée de l'ouvrage, des matériaux et de la construction.

Art. 11. Lorsqu'un vapeur qui a été inspecté pour un certificat de passagers n'est pas sous tous rapports en bon état, bien que les défauts ne soient pas suffisants pour justifier le refus du certificat, et bien que le navire soit pratiquement propre au service projeté, l'inspecteur devrait, lorsqu'il accorde le certificat, transmettre au président un rapport sur la nature des défauts en question.

Art. 12. En examinant les parties internes d'un vapeur à passagers, l'inspecteur devra, s'il le juge nécessaire, faire enlever certaines parties du plafond, afin de pouvoir s'assurer de l'état de la coque, de la charpente, des planchers, etc., particulièrement dans les chambres de la machine et de la chaudière; et aussi les soutes au charbon à l'état vide.

Art. 13. La date de la dernière inspection sera inscrite dans le livre d'inspection du bureau, accompagnée des détails sur l'état de la coque dans le temps, avec dessins approximatifs de la section du milieu, indiquant la forme, la construction et les dimensions du navire, et de ses parties assez détaillés pour donner une idée de sa coupe et de sa force. Toute question de doute quant à la force du navire pour la route qu'il doit suivre devrait être soumise au président.

Art. 14. La hauteur des surbaux autour des ouvertures dans le pont supérieur et les moyens pris pour protéger et fermer sûrement les abat-jour, ouvertures, etc., sont des choses importantes que l'inspecteur doit noter dans les vapeurs exposés aux grosses vagues. Toutes les passerelles et ouvertures sur ou au-dessous du tillac devraient être munies de couvercles de façon à ce qu'elles puissent être promptement et efficacement fermées. Les écoutilles devraient être munies d'appareils pour les fermer solidement. Des panneaux de grille et d'écoutilles doivent être gardés et assujétis à un endroit convenable et d'un accès facile, et près des ouvertures auxquelles ils sont destinés.

Art. 15. Tous les canots doivent être suspendus à des daviers et tenus prêts à servir à un moment donné. Les inspecteurs devront veiller à ce que tous les canots soient munis d'un assortiment complet de rames; que chaque canot ait deux tampons pour chaque trou, attachés avec des aiguillettes ou chaînes, et un assortiment et demi de tolets attachés au canot par de bonnes aiguillettes; une écope, un gouvernail et une corde ou des cordes de timon; une amarre de bonne longueur, et une gaffe. Le gouvernail et l'amarre seront attachés aux canots par d'assez longues aiguillettes, et prêts pour le service. On devra prendre des moyens pour détacher instantanément les canots des dernières poulies du davier. On ne tolèrera pas de crochet ordinaire dans la dernière poulie passé dans un œillet fixe dans le canot.

Art. 16. Les inspecteurs devront veiller à ce que les daviers du bateau soient assez forts et assez espacés pour pouvoir lancer le canot sans travail inutile; que les cales du canot puissent être enlevées facilement, et que le canot ne frappe pas le flanc du navire en descendant lorsque le navire n'a pas de bande, et que tous les agrès, daviers, palans, poulies, boulons à œillet et anneaux, etc., soient d'une force suffisante pour pouvoir descendre le canot avec son équipement et son équipage au complet. Les palans des daviers devront être assez longs pour descendre les canots à l'eau lorsque le navire est lège. Des amarres de sauvetage seront assujéties aux daviers, d'une longueur suffisante pour atteindre l'eau lorsque le navire est lège, et il faudra allouer pour l'extrême roulis du navire.

Art. 17. Les inspecteurs refuseront un certificat chaque fois que ces instructions ne seront pas suivies, mais les propriétaires de bateaux auront le choix de fournir le moyens qui leur plairont pour lancer les chaloupes à l'eau pourvu qu'ils se conforment à l'intention de l'acte. Toute méthode inusitée ou douteuse de mettre les chaloupes à l'eau devra être soumise au bureau d'inspection des bateaux à vapeur, pour considération et approbation avant d'être adoptée. Tous les canots devraient être mis à l'eau lors de chaque inspection.

Art. 18. Des bouées de sauvetage munies d'amarres seront fixées au moyen d'un taquet ou autre méthode semblable, de façon à ce qu'elles puissent être facilement décrochées. Elles ne doivent pas être amarrées ni attachées au garde-corps ou aucune partie du navire, mais être tenues prêtes à servir à un moment d'avis en cas d'urgence. Les bouées et gilets de sauvetage doivent être soigneusement examinés lors de l'inspection du navire, afin de s'assurer si les matières dont ils sont composées ne sont pas détériorées et si les cordes qui y sont attachées sont de longueur suffisante et en bon état de service.

Mâts et voiles, et passerelles.

Art. 19. L'article 54 de l'*Acte d'inspection des bateaux à vapeur* autorise le ministre de la Marine et des Pêcheries à exiger que les navires à vapeur jaugeant plus de soixante tonneaux de registre portant des passagers—sur les côtes maritimes du Canada, ou sur aucune ou toutes les eaux canadiennes, sauf certaines exceptions, soient munis d'un mât ou de mâts avec une voile ou des voiles, convenables à tel bateau à vapeur, et à fixer la dimension de ces mâts et voiles respectivement.

Art. 20. Les inspecteurs de coques, en faisant l'inspection des vapeurs à passagers sur la côte maritime ou sur les grands lacs du Canada. doivent voir à ce qu'ils soient gréés de voilure suffisante pour leur permettre de marcher dans le cas où leurs machines se dérangeraient. Toutes ces voiles doivent être examinées par l'inspecteur, qui devra s'assurer de leur efficacité, ainsi que de tous les agrès à chaque inspection, et dans tous les cas de doute, il devra demander des instructions au président du bureau.

Art. 21. Les inspecteurs devront voir à ce que de bonnes passerelles sûres soient fournies, avec moyens de les attacher sûrement aux deux bouts.

Art. 22. Lors de la première inspection d'un vapeur employé sur les côtes maritimes ou sur les grands lacs du Canada, qu'il soit en fer ou en bois, l'inspecteur devra exiger que les boussoles soient convenablement ajustées ou vérifiées par une personne compétente choisie par le propriétaire, sur le rapport de laquelle cette personne compétente accordera un certificat au propriétaire à l'effet que les boussoles du navire sont convenablement ajustées, et lui fournira une table d'erreurs, lequel certificat sera présenté par le propriétaire à l'inspecteur avant que celui-ci ne donne son certificat d'inspection.

Art. 23. Les inspecteurs de coques veilleront à ce que des pompes sur le pont, mues à bras ou par la vapeur, soient convenablement placées, en nombre suffisant, et que des moyens soient pris pour atteindre les boyaux d'aspiration en cas d'engorgement. Aucune pompe nécessitant le chargement à la main avant de pouvoir fonctionner ne sera acceptée. Quand la chose se rencontre, l'inspecteur doit insister pour que des dispositions soient prises pour rendre la pompe effective en tout temps. Les boyaux à incendie devraient être tendus sur toute la longueur et parfaitement examinés et éprouvés sous la pression des pompes, au moins une fois par année, et en tout autre temps que l'inspecteur jugera nécessaire. Le boyau devrait se relier aux pompes pour usage immédiat.

Art. 24. Un timon de rechange sera fourni, avec agrès, et sera gardé près du gouvernail, prêt à servir immédiatement, sur tous les vapeurs transatlantiques et les vapeurs des grands lacs. L'appareil de timonerie devra être inspecté et complètement examiné au moins une fois par année.

Art. 25. Les inspecteurs de coques auront soin de s'assurer que chaque vapeur transatlantique sujet aux dispositions de l'acte, et chaque vapeur employé sur les grands lacs soient munis de tous les câbles-chaînes, ancres et agrès nécessaires, à leur service, et en bon état; que le câble soit sorti des coffres au moins une fois par année, nettoyé si c'est nécessaire, et les goupilles sorties des manilles.

Art. 26. (*a.*) Les inspecteurs de coques tiendront un registre pour les navires neufs, dans lequel ils devront inscrire les détails de leur enregistrement, leur numéro officiel, leur nom, leur port d'enregistrement, leurs dimensions, leur tonnage, à qui ils appartiennent, et les noms des capitaines; aussi une description générale de leur construction, indiquant un tracé de la section du milieu, donnant les dimensions de la charpente, du bordage, des barrots de ponts, emboîtures, courbes, panneaux et attaches, selon le cas, de façon à donner une idée du navire et de sa capacité pour la route sur laquelle il est placé. Une description des œuvres vives sur les vapeurs à passagers devra aussi être donnée; indiquant comment elles sont assujéties à la coque, et quelle disposition est prise contre le roulis dans les gros temps.

(*b.*) L'assiette du navire lège et chargé devra être indiquée sur le tracé de la section du milieu.

(*c.*) La capacité des canots et autres équipements pour le sauvetage, s'ils sont suffisants pour le nombre de passagers que le vapeur doit porter, avec l'équipage, sur la route qu'il doit suivre, sera aussi donnée dans ces détails. Copie de ces détails au long, transcrite proprement sur du papier-ministre, sera envoyée au président du bureau des inspecteurs de bateaux à vapeur, pour être déposée dans le bureau pour l'information du département de la Marine et des Pêcheries.

Art. 27 (*a.*) Chaque inspecteur de coques tiendra aussi un registre de carénage, dans lequel il inscrira la date de la dernière entrée dans le bassin de chaque vapeur inspecté par lui, avec les détails des réparations qui y ont été faites; aussi un mémoire de sa dernière inspection, telle que faite par lui; l'état dans lequel il avait alors trouvé la coque et l'équipement; avec copie de toute correspondance entre lui et le propriétaire et capitaine, concernant les réparations, agrès, équipement ou autres choses qu'il faudra prouver dans le cas où elles n'auraient pas été faites.

(*b.*) Les inspecteurs de coques ne doivent pas se croire déchargés de leur devoir au sujet d'un vapeur auquel ils ont accordé un certificat pour une année ou toute période plus courte, mais le département s'attend qu'ils surveilleront tous les vapeurs sujets aux dispositions de l'acte dans leur circonscription ou qui y viendront. Si quelque infraction de la loi commise par un propriétaire ou capitaine de vapeurs mettant en danger la vie ou la propriété, vient à la connaissance de l'inspecteur, il sera du devoir de ce dernier d'en faire rapport sans délai, afin que le département prenne des mesures pour prévenir ce danger.

Passagers.

Art. 28. (*a.*) On peut trouver le nombre de passagers qu'un vapeur peut porter en multipliant la longueur par la largeur du navire à la ligne de flottaison, et divisant le produit par un facteur de sûreté, selon la classe de navire, ainsi :—

Pour les vapeurs transatlantiques le facteur sera	10
Pour les cabotiers maritimes....................	10
Pour les vapeurs des grands lacs..............	9
Pour les vapeurs naviguant sur les côtes des lacs et dans les ports, sur les rivières, les bateaux passeurs et bateaux d'excursion..	6

(*b.*) On ne devra pas s'écarter de cette règle sans le consentement du président du bureau d'inspection des bateaux à vapeur et l'approbation du ministre de la Marine et des Pêcheries.

(*c.*) Pour les vapeurs d'excursion portant des passagers dans la cale, la limite sera laissée à la discrétion de l'inspecteur, mais ne devra, dans aucun cas, excéder le nombre qui pourra facilement y prendre place.

(*d.*) Ces facteurs pourront être augmentés si, à raison de l'âge ou autre cause, le bateau n'est pas jugé propre à porter autant de passagers.

Art. 29. Le nombre de personnes qu'une chaloupe peut porter sera déterminé comme suit, savoir :—

En multipliant la longueur de la quille par la largeur et la profondeur depuis le dessus de la quille jusqu'au platbord, en pieds, et ensuite divisant le produit par 10, le quotient sera le nombre de personnes que chaque chaloupe peut porter.

Canots de sauvetage et leur équipement.

Art. 30. (*a.*) Des canots de sauvetage seront construits sur le modèle des baleinières, avec un ensellement d'environ $\frac{3}{4}$ de pouce par pied, s'élevant également depuis le milieu du canot jusqu'à l'avant et l'arrière, et auront de bons et forts compartiments imperméables à l'air, construits et ajustés de façon que l'eau n'y puisse pénétrer.

(*b.*) Le canot de sauvetage sera solidement construit en fer galvanisé, égal en épaisseur au fil métallique n° 18.

(*c.*) On n'emploiera pas de zinc dans la construction d'un canot de sauvetage, ni de ses compartiments à l'air.

(*d.*) Les compartiments imperméables à l'air seront distribués de manière à donner au canot la légèreté et la solidité convenables. Il sera laissé au choix du propriétaire de placer les compartiments à air, soit sous les bancs, soit dans les bouts ou le long des côtés, pourvu qu'un canot de sauvetage efficace soit fourni.

(*e.*) Les espaces remplis ou contenant quelques matières ne seront pas censés être des espaces à air.

(*f.*) Un bateau à poupe carrée ne sera pas considéré être un canot de sauvetage.

(*g.*) Des cordes de sauvetage seront convenablement attachées aux plats-bords du canot de sauvetage.

(*h.*) Le canot de sauvetage doit être muni d'un assortiment complet de rames bien assujéties, deux tampons pour chaque trou, attachées avec des aiguillettes ou chaînes, une écope, un gouvernail et un timon aussi attachés au canot par des aiguillettes; une petite hache aussi attachée par une aiguillette devra être gardée à chaque bout du canot, ainsi qu'une amarre et une gaffe.

(*i.*) On devra prendre des moyens pour détacher instantanément le canot de sauvetage des dernières poulies du davier. On ne tolèrera pas de crochet ordinaire dans la dernière poulie. Les daviers du bateau devront être assez forts et assez espacés pour pouvoir lancer le canot sans travail inutile, que les cales du canot puissent être enlevées facilement, et que le canot ne frappe pas le flanc du navire en descendant lorsque le navire n'a pas de bande, et que tous les agrès, daviers, palans, poulies, boulons à œillet et anneaux, etc., sont d'une force suffisante pour pouvoir descendre le canot avec son équipage au complet.

Droit de tonnage.

Art. 31. Le droit de tonnage suivant sera payé par le propriétaire ou le capitaine d'un bateau à vapeur, en Canada en vertu des dispositions de l'article 46 du chapitre 78 des Statuts Revisés du Canada :

Le droit de tonnage que paieront tous les ans les propriétaires ou les capitaines de bateaux à vapeur, sera de huit centins par chaque tonneau du jaugeage brut de chaque bateau à vapeur.*

RÈGLES ET RÈGLEMENTS

CONCERNANT L'INSPECTION DES CANOTS, BOUÉES ET AUTRES APPAREILS DE SAUVETAGE QUE DEVRONT PORTER LES BATEAUX À VAPEUR OU AUTRES VAISSEAUX SOUS L'EMPIRE DE L'ACTE D'INSPECTION DES BATEAUX À VAPEUR, ET SES AMENDEMENTS.

Canots.

Art. 1. On observera les dispositions ci-jointes au sujet des canots que devront porter les bateaux à vapeur :—

(*a.*) Nul bateau à vapeur ayant des passagers à bord ne prendra la mer d'un port ou endroit en Canada, ou ne partira d'un port ou endroit, ou ne naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe, ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur;

(*b.*) Sans avoir à bord, ou attachés à ce bateau à vapeur, des canots solides bien équipés et en bonne condition, d'au moins dix-sept pieds de quille chacun, et munis de six rames et autres agrès nécessaires, et pouvant soutenir chacun au moins douze personnes adultes à part l'équipage du canot.

Ces canots seront dans la proportion suivante quant au tonnage de registre de ce bateau, savoir :—

---

* NOTE.—Ce tarif a été établi le 1er octobre 1889.

Au moins un canot pour chaque bateau à vapeur de moins de cinquante tonneaux,—

Au moins deux canots pour chaque bateau à vapeur de cinquante tonneaux et plus, mais de moins de (300) trois cents tonneaux :

Au moins trois canots pour chaque bateau à vapeur de trois cents tonneaux et plus ; et

(*c*.) Si ce bateau à vapeur est du tonnage de registre de cent tonneaux ou plus de (300) trois cents tonneaux, sans qu'il ait à bord ou y attachés en sus des canots ci-dessus exigés,—

Un bon et solide canot de sauvetage capable de soutenir à l'intérieur trente personnes. Ce canot de sauvetage sera censé être d'une capacité suffisante s'il a les dimensions suivantes : Longueur de quille, vingt-deux pieds ; largeur du bau en dehors, cinq pieds six pouces ; profondeur depuis le dessus de la quille jusqu'au dessus du plat-bord, en bas des toletières, deux pieds neuf pouces ; ou

Deux bons et solides canots de sauvetage, chacun capable de soutenir à l'intérieur vingt personnes. Ces canots de sauvetage seront censés d'une capacité suffisante s'ils ont les dimensions suivantes : Longueur de quille, dix-huit pieds, largeur à l'extérieur, cinq pieds deux pouces ; profondeur depuis le dessus de la quille jusqu'au-dessus du plat-bord, deux pieds deux pouces ;

(*d*.) Si ce bateau à vapeur a un tonnage de registre de (300) trois cents tonneaux ou plus jusqu'à six cents tonneaux ou plus (alors que le nombre des canots de sauvetage pourra être augmenté à la satisfaction de l'inspecteur), sans qu'il y ait à bord ou y attachés, en sus des canots exigés,—

Deux bons et solides canots de sauvetage capables de soutenir à l'intérieur trente personnes, ou quatre bons et solides canots de sauvetage chacun capable de soutenir à l'intérieur vingt personnes, et chacun de la grandeur décrite à (*c*) au moins.

Art. 2. Chaque canot de sauvetage sera fait de métal convenable d'une épaisseur égale au fil métallique n° 18, ou de bois sur le modèle des baleinières, avec une tonture d'environ ¾ de pouce par pied, s'élevant également depuis le milieu du canot jusqu'à l'avant et derrière. Il aura de bons compartiments imperméables à l'air aux bouts et aux côtés, faits de bois ou de métal ; ces compartiments auront une capacité en pieds cubes de un dixième de la capacité du canot. Cette capacité se trouve en multipliant la longueur et la largeur à l'extérieur, et la profondeur en dedans depuis le dessous des toletières ou dessus du plat-bord en pieds, et par ·6, le résultat égale les pieds cubes voulus dans les compartiments intérieurs et extérieurs, dont environ la moitié doit être à l'extérieur ; et en divisant par 10, donnera le nombre de personnes que le canot de sauvetage sera censé pouvoir porter. A l'extérieur on pourra employer du liége solide au lieu de compartiments imperméables à l'air ; 1·25 pieds cube de liége étant considéré égal à 1 pied cube de compartiment à air ;

(*a*.) On ne doit pas employer de zinc dans la construction d'un canot de sauvetage ou de ses compartiments à air, lesquels doivent être d'un métal approuvé par le bureau d'inspection des bateaux à vapeur, ou par le président.

(*b*.) Les compartiments imperméables à l'air seront distribués de manière à donner au canot la légèreté et la solidité convenables. Il sera laissé au choix du propriétaire de placer les compartiments à air, soit sous les bancs, soit dans les bouts ou le long des côtés, pourvu qu'un canot de sauvetage efficace soit fourni à la satisfaction de l'inspecteur ;

(*c*.) Les espaces remplis ou contenant quelques matières ne seront pas censés être des espaces à air ;

(*d*.) Un bateau à poupe carrée ne sera pas considéré être un canot de sauvetage ;

(*e*.) Des cordes de sauvetage avec bouées seront convenablement attachées aux côtés ou plats-bords du canot de sauvetage.

Art. 3. Les canots de sauvetage seront munis d'un assortiment complet de rames, une pour chaque toletière, et deux rames de rechange, bien assujéties et prêtes à servir ;

(*a*.) Avec deux tampons pour chaque trou, attachés avec des aiguillettes ou des chaînes, et un jeu et demi de tolets attachés au canot par des aiguillettes et prêts à mettre en place ;

(*b*.) Avec une ancre du large, un gouvernail et un timon, et des cordes de gouvernail, une amarre assez longue pour atteindre des daviers au canot lorsqu'il est à l'eau, et le remorquer, une écope, une petite hache à chaque bout du canot, et une gaffe, aussi attachés au canot par une bonne aiguillette ;

(*c*.) Si le bateau à vapeur navigue en mer (sur l'eau salée) on devra garder à bord de chaque canot un vaisseau rempli d'eau douce (et un canot de sauvetage au moins doit être gréé d'un mât ou de mâts, et d'une voile ou de voiles et agrès), et d'une bonne boussole et un gallon d'huile animale ou végétale, et un vaisseau ou appareil d'un modèle approuvé pour la répandre sur l'eau dans le mauvais temps, et d'un fanal rempli d'huile capable de durer huit heures ;

(*d*.) On devra prendre des moyens pour détacher instantanément le canot de sauvetage des dernières poulies du davier. On ne tolèrera pas de crochet ordinaire dans la dernière poulie. Les daviers du bateau devront être assez forts et assez espacés pour pouvoir lancer le canot sans travail inutile, que les cales du canot puissent être enlevées facilement, et que le canot ne frappe pas le flanc du navire en descendant lorsque le navire n'a pas de bande, et que tous les agrès, daviers, palans, poulies, boulons à œillet et anneaux, etc., soient d'une force suffisante pour pouvoir descendre le canot avec son équipage au complet.

Art. 4. Chaque canot sera entretenu en bonne condition, étanche et prêt à servir immédiatement ; quand on se sert de bois pour chauffer les chaudières des bateaux à haute pression (non condenseurs) les abris de ces canots seront faits de bois recouvert de zinc ; et chaque canot aura le nom du bateau à vapeur auquel il appartient, ainsi que le nom de son port d'enregistrement peinturé à l'avant et à l'arrière.

Art. 5. Chaque tel bateau à vapeur sera muni de moyens suffisants pour descendre à l'eau sûrement et promptement les canots qui sont ci-dessus requis d'être à bord ou attachés à ce bateau à vapeur ; et les capitaines de bateaux à vapeur diviseront leurs équipages par escouades et les dresseront à descendre et manœuvrer les dits canots et canots de sauvetage au moins une fois par semaine, alternativement.

Art. 6 Chaque tel canot sera pendu à des daviers distincts, avec des agrès complets et prêts à le descendre sans délai ; pourvu que dans le cas où un tel bateau à vapeur porte deux canots de sauvetage, un des autres canots pourra être porté sur le pont supérieur sans daviers.

Art. 7. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il ne porte pas plus que vingt-cinq passagers ne sera obligé d'avoir à bord ou attaché à ce bateau à vapeur que deux canots en sus d'un canot de sauvetage.

Art. 8. Le ministre de la Marine et des Pêcheries pourra autoriser l'usage dans certains cas particuliers, d'un nombre plus ou moins grand de canots, ou de dimensions différentes de ceux ci-dessus spécifiés ; et avec cette autorisation il suffira que tout tel bateau à vapeur porte et soit muni de canots des dimensions spécifiées dans telle autorisation.

Art. 9. Les bateaux à vapeur restreints à la navigation de la rivière Saint-Jean en amont de Frédéricton, les eaux du district de Muskoka, le comté de Victoria, et le comté de Peterborough dans la province d'Ontario, et les eaux de la rivière Ottawa et ses tributaires en amont de la cité d'Ottawa, ou des lacs ou rivières dont la largeur n'excèdera pas un mille à un point quelconque sur la route de ce bateau à vapeur, et qui sont employés au transport des passagers, portera au moins un bon canot muni de quatre rames, et assez grand pour pouvoir contenir au moins douze personnes, à part l'équipage.

Art. 10. Chaque bateau à vapeur employé au transport de passagers, et ne naviguant que sur des rivières ou eaux intérieures, autres que les rivières et eaux intérieures ci-dessus spécifiées, devra, si ce bateau à vapeur dépasse cent cinquante tonneaux de registre, porter au moins deux bons canots munis de quatre rames chacun, et d'une capacité suffisante pour pouvoir porter avec sûreté au moins douze personnes à part l'équipage ; et si ce bateau à vapeur ne dépasse pas cent cinquante tonneaux de registre et n'a pas moins que cinquante tonneaux de registre, il ne sera pas tenu de porter plus qu'un tel canot ; et si ce bateau à vapeur a moins que cinquante tonneaux de registre, il portera un bon canot, des grandeur et description, et gréé selon que l'approuvera l'inspecteur dans chaque cas.

Art. 11. Chaque bateau à vapeur non employé au transport des passagers, et chaque bateau à vapeur auquel les dispositions précédentes du présent article ne s'appliquent pas, devra en tout temps, lorsque son équipage est à bord, avoir à bord ou attaché à ce bateau à vapeur, dans quelque endroit propice, un bon canot solide, ou de bons canots solides, en bonne condition et convenablement équipés et munis de rames en nombre suffisant et autres agrès nécessaires, et d'une capacité suffisante pour pouvoir porter tout l'équipage de ce bateau à vapeur, avec des moyens suffisants pour descendre ce canot ou ces canots sûrement et promptement.

Art. 12. Le nombre de personnes que ces canots pourront porter sera déterminé en multipliant la longueur de la quille par la largeur à l'extérieur, et par la profondeur depuis le dessus de la quille jusqu'au dessous des toletières en pieds, et divisant par 10, le quotient donnera le nombre de personnes que chaque canot pourra porter.

Radeaux et bouées de sauvetage.

Art. 13. Les radeaux de sauvetage doivent être approuvés par le bureau d'inspection des bateaux à vapeur avant de déterminer le nombre de personnes qu'ils pourront porter ; pourvu que trois pieds cubes au moins de forts et bons compartiments à air construits de façon que l'eau n'y puisse pénétrer seront le montant d'espace d'air alloué à chaque personne portée sur le radeau.

Art. 14. Pour qu'un appareil flottant soit approuvé il ne faut pas qu'il soit nécessaire de le gonfler avant de s'en servir; il devra être de construction approuvée, et marqué de façon à indiquer distinctement le nombre de personnes adultes qu'il peut porter.

La légèreté de cet appareil, en proportion du nombre de personnes à porter, peut être déterminée en divisant par 32 le nombre de livres de fer qu'il peut supporter dans l'eau douce.

Art. 15. Une bouée de sauvetage approuvée sera faite de liège solide capable de flotter sur l'eau au moins 24 heures avec 32 livres de fer y attachées; ou—

(*a*.) Une forte bouée de sauvetage de tout autre modèle et de matériaux approuvés, pourvu qu'il soit capable de flotter sur l'eau pendant au moins 24 heures avec 32 livres de fer y attachées, et pourvu qu'elle ne soit pas bourrée d'ajoncs, de râpures de liège ou autre planures, ou de liège granulé ou autre matière libre, et n'ait pas besoin d'être gonflée avant de servir. Chaque bateau à passagers que la loi oblige à porter deux canots, devra avoir au moins deux bouées de sauvetage, avec une bonne corde de longueur suffisante attachée à chaque bouée, et tenues toujours prêtes à servir à tout instant.

(*b*.) Les boîtes à air pour les radeaux de sauvetage ne doivent pas excéder la longueur approuvée par le bureau (quatre pieds), avec joints agrafés, martelés et soudés, ou rivés, et si elles sont en fer ce fer sera galvanisé; elles seront solidement entourées de bois à joints bien clos.

La couverture des boîtes à air dans les canots doivent être assujéties au moyen de vis de cuivre, de façon à pouvoir être facilement enlevée pour examiner les boîtes à air.

Des canots qui s'emboîtent pourront être employés s'ils sont approuvés par un inspecteur, avec le consentement du président.

Art. 16. Nul nouveau modèle ou matière pour les canots, radeaux ou bouées de sauvetage ne sera passé avant d'être approuvé par le bureau d'inspection des bateaux à vapeur.

Ceintures de sauvetage.

Art. 17. Nul bateau à vapeur transportant des passagers ne prendra la mer d'un port ou endroit en Canada, ou ne partira d'un port ou endroit, ou naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur; ni ne naviguera dans une baie ou bras de mer en Canada sans avoir à bord à chaque voyage,—

(*a*.) Deux cents ceintures de sauvetage si ce bateau est de deux cents tonneaux et plus de registre; ou cent ceintures de sauvetage, s'il est de cent tonneaux et plus de deux cents tonneaux de registre; et s'il est de moins de cent tonneaux, ce bateau pourra être muni et porter à bord à chaque voyage cinquante ceintures de sauvetage.

Art. 18. Chaque bateau à vapeur transportant des passagers sur des rivières et eaux intérieures autres que les lacs et rivières spécifiés dans l'article immédiatement précédent, s'il a deux cents tonneaux et plus de registre, devra avoir à bord à chaque voyage, pas moins que cent ceintures de sauvetage, et s'il y a moins que deux cents tonneaux de registre, ce bateau portera à bord à chaque voyage cinquante ceintures de sauvetage.

Art. 19. Pourvu qu'un bateau ne sera pas tenu de porter plus de ceintures de sauvetage que le nombre de passagers qu'il est autorisé à porter, et le nombre maximum de ces ceintures de sauvetage que chaque bateau à vapeur est tenu d'avoir à bord, n'excédera pas deux cents; mais si un bateau n'a pas le nombre de canots et de ceintures de sauvetage proportionné au nombre de passagers que son certificat d'inspection lui permet de porter, on suppléera à ce déficit au moyen de flotteurs en bois, équivalant chacun en légèreté à un pied cube de pin blanc séché, égal au nombre de passagers et de l'équipage pour lesquels il n'y a pas de canots ni de ceintures de sauvetage.

Art. 20. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il transportera pas plus que soixante passagers, ne sera tenu d'avoir à bord, dans un voyage, plus d'une ceinture de sauvetage pour chaque passager, et une ceinture de sauvetage pour chacun de l'équipage alors à bord de tel bateau.

Art. 21. Chaque bateau à vapeur non employé au transport de passagers, et chaque bateau à vapeur auquel les articles 17, 18, 19 et 20 ne s'appliquent pas, devra avoir, en tout temps lorsque l'équipage est à bord, une ceinture de sauvetage pour chacun de l'équipage.

Art. [illegible]2. Chacune de ces ceintures de sauvetage sera capable de flotter dans l'eau douce pendant 24 heures, avec 15 livres de fer y attachées. Elles seront échancrées de 2 pouces sous les aisselles, et ajustées et assujéties de façon à ne pas se déranger une fois mises, avec bretelles et ceinturon, ou autres moyens approuvés par l'inspecteur. Si d'autre matière que du liège solide est employée pour faire flotter, elle sera d'abord approuvée spécialement par le bureau d'inspection des bateaux à vapeur, et les ceintures de sauvetage seront en tout temps gardées dans un endroit accessible et à la main dans les cabines ou sur le pont du bateau, bien abritées et prêtes à servir à tout instant.

Art. 23. Un gilet de liège avec bretelles et ceinturons pour le fixer autour du corps, ou toute autre espèce de ceinture de sauvetage que le Gouverneur général en conseil pourra approuver, sera la forme de ceinture de sauvetage à employer sur les bateaux à passagers.

Barges à passagers à la remorque.

Art. 24. Avant qu'une barge, chaloupe, bateau, chalan ou vaisseau non ponté ayant des passagers à bord, toué par un remorqueur, reçoive un certificat d'inspection, il devra être muni d'un canot ou de canots, de ceintures, bouées et radeaux de sauvetage, ou de tous et chacun des équipements mentionnés au présent, en sus de l'équipement mentionné à l'article 9 de l'acte du parlement du Canada, intitulé "Acte modifiant de nouveau l'acte d'inspection des bateaux à vapeur," et sanctionné le 10e jour de mai 1892, à la satisfaction de l'inspecteur des bateaux à vapeur qui l'inspecte, qui exigera qu'il soit équipé d'un appareil convenable pour sauver la vie pour les eaux sur lesquelles il navigue, ainsi que les commodités convenables pour l'usage des passagers;

(*a*.) Les canots et équipements exigés devront être tel que spécifié dans l'article 1 (*b*) des présents règlements, et afin qu'ils aient la capacité voulue pour porter douze personnes adultes avec l'équipage, ou dix-sept personnes en tout, ils devront avoir 17 pieds de quille et 5 pieds de bau sur 2 pieds de profondeur, cette capacité étant déterminée en multipliant longueur, largeur et profondeur, et divisant par 10.

E. ADAMS,

Président du Bureau d'inspection des bateaux à vapeur.

RÈGLEMENTS CONCERNANT L'INSPECTION DES ARBRES MOTEURS DE BATEAUX À VAPEUR.

Arbres moteurs.

4. Aucun arbre moteur, arbre de couche, arbre droit ou arbre des roues ayant un moindre diamètre que celui trouvé par la formule suivante, ne devrait être accepté sans avoir d'abord soumis le cas au président du Bureau d'inspection des bateaux à vapeur.

Pour les machines mixtes à condenser avec deux cylindres ou plus, lorsque les axes coudés ne sont pas suspendus:

$$S=\sqrt[3]{\frac{C \times P \times D^2}{f\left(2+\frac{D^2}{d^2}\right)}}$$

$$P=\frac{f \times S^3}{C \times D^2}\left(2+\frac{D^2}{d^2}\right)$$

Lorsque $S =$ le diamètre de l'arbre en pouces.

Lorsque $d^2 =$ le carré du diamètre du cylindre à haute pression en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres à haute pression ou plus.

Lorsque $D^2 =$ le carré du diamètre d'un cylindre à basse pression en pouces, ou la somme des carrés des diamètres dans les cas où il y a deux cylindres à basse pression ou plus.

Lorsque $P =$ la pression absolue en livres par pouce carré, c'est-à-dire la pression de chaudière *plus* 15 livres.

Lorsque $C =$ la longueur de l'axe coudé en pouces.

Lorsque $f =$ la constante d'après la table suivante.

NOTE.—Les cylindres à pression intermédiaire ne paraissent pas dans la formule.

Pour les machines à condenser ordinaires, avec un ou deux cylindres et plus, alors que les axes coudés ne sont pas suspendus:—

$$S=\sqrt[3]{\frac{C \times P \times D^2}{3 \times f}}$$

$$P=\frac{3 \times f \times S^3}{C \times D^2}$$

Lorsque $S =$ le diamètre en pouces.
$D^2 =$ le carré du diamètre du cylindre en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres ou plus.
$P =$ la pression absolue en livres par pouce carré, c'est-à-dire la pression de la chaudière *plus* 15 livres.
$C =$ la longueur de l'axe coudé en pouces.
$f =$ la constante d'après la table suivante:

TABLE.

Pour deux axes coudés. Angles entre les axes.	Pour arbres moteurs et de manivelle.		Pour arbres droits.
		f.	f.
90°	Pour les machines à roues d'un modèle ordinaire, multipliez la constante dans cette colonne pour l'angle des axes coudées par 1·4.	1,047	1,221
100°		996	1,128
110°		904	1,055
120°		855	997
130°		817	953
140°		788	919
150°		766	894
160°		751	877
170°		743	867
180°		740	864
Pour trois axes coudés 120°.		1,110	1,295

NOTE.—Lorsqu'il n'y a qu'un axe coudé, les constantes applicables sont celles dans la table vis-à-vis 180°.

RÈGLEMENTS CONCERNANT L'ÉPREUVE DE NOUVELLES MACHINES À BORD DE VAPEURS À PASSAGERS.

Dans le cas de nouvelles machines à bord de vapeurs à passagers les inspecteurs devront les voir éprouver lorsque les bateaux sont en marche à pleine vapeur, afin de s'assurer autant que possible qu'il n'existe pas de défauts dans les diverses parties de la machine qui auraient échappé à l'examen de l'inspecteur, tel que prescrit par l'article 15 de l'acte 49 Victoria, chapitre 78.

[1207]

HOTEL DU GOUVERNEMENT À OTTAWA.

Mercredi, le 1er jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions de "l'Acte d'inspection des bateaux à vapeur," chapitre 78 des Statuts Revisés, et ses amendements, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner, que nonobstant toute chose au contraire de contenue dans les présents règlements pour l'inspection des bateaux à vapeur et l'examen des mécaniciens de bateaux à vapeur établis par l'arrêté en conseil du 1er d'avril 1896,—l'arrêté en conseil du 20 de février 1892, qui permet que des chaudières construites avant le 1er de juin 1891 soient inspectées d'après les règles et règlements en force à l'époque de la construction de ces chaudières,—soit et il est par le présent déclaré confirmé et continué en vigueur.

JOHN J. McGEE,
Greffier du Conseil privé.

46-2

[1400]

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 28e jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du 5e article de l'acte 54-55 Victoria, chapitre 36, intitulé "Acte concernant l'expédition du bétail," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'arrêté en conseil du 10 de juin 1893, fixant un honoraire de 3 centins sur chaque bœuf, et l'arrêté en conseil du 13 de mai 1893, fixant un honoraire de un centin sur chaque mouton, ainsi que tous autres arrêtés en conseil existant, fixant les honoraires à prélever sur le bétail expédié du Canada à des ports en Europe, seront et ils sont par le présent rescindés et annulés, et qu'un honoraire de un centin et demi par tête sera prélevé sur chaque tête de bétail ainsi expédiée, et un honoraire d'un demi-centin sur chaque mouton ainsi expédié, en vertu des dispositions du dit "Acte concernant l'expédition du bétail."

JOHN J. McGEE,
Greffier du Conseil privé.

[1392]

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 28e jour de mars 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 97 des Statuts Revisés du Canada, intitulé "Acte concernant les passages d'eau," et l'acte 51 Victoria, chapitre 23 qui le modifie, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'arrêté en conseil du 2 d'avril 1896, établissant des règlements pour la gouverne d'un passage d'eau sur la rivière Sainte-Marie, entre le Sault Ste. Marie, dans la province d'Ontario, et le Sault Ste. Marie, dans l'Etat du Michigan, un des Etats-Unis d'Amérique, soit et il est par le présent cancellé, et que les règlements suivants soient établis en remplacement :—

RÈGLEMENTS.

1. *Limites.*—Les limites du passage d'eau seront les mêmes que celles de la ville du Sault Ste. Marie, Ontario, jusqu'à un point dans la ville du Sault Ste. Marie, Michigan, qui sera fixé par les autorités municipales de cet endroit.

2. *Débarcadères.*—Des quais et débarcadères seront en tous temps fournis et entretenus par l'adjudicataire à quelque point central dans la dite ville du Sault Ste. Marie, et devront pouvoir servir en tout état de la rivière, et seront assujétis à l'approbation du Contrôleur du Revenu de l'intérieur.

3. *Bateaux.* — Les bateaux qui seront employés seront solides et navigables et capables de porter sûrement et facilement tout le trafic qui se fait entre les deux villes. Ils devront être munis de machines d'une force suffisante et à haute pression, et les bateaux et les machines seront soumis à l'approbation de l'Inspecteur fédéral des bateaux à vapeur.

4. *Transport d'effets de contrebande.*—L'adjudicataire ne transportera, ni ne permettra, ni ne tolèrera en aucun temps pendant la durée de son bail qu'il soit transporté sur le dit bac, aucun article ou effet de contrebande.

5. *Observation des lois douanières.*—L'adjudicataire observera toutes les lois de douane et du revenu du Canada et des Etats-Unis d'Amérique.

6. *Heures des traversées.*—A partir du 1er de juin jusqu'au 30 de septembre de toute et chaque année, le bateau commencera ses traversées à 7 heures a.m., et continuera à traverser toutes les 30 minutes ensuite jusqu'à 9 heures p.m., d'après le *central standard time* (à l'exception des dimanches), sauf dans le cas d'accidents maritimes imprévus, de brume ou de circonstances inévitables, et depuis le 1er de novembre jusqu'à la fin de la navigation jusqu'à 8 heures p.m., *central standard time.*

7. *Tarif des péages.*—Le tarif des péages et prix de passage sur le dit bac ne sera jamais plus élevé que le suivant, savoir :—

	centins.
Pour les piétons, en chaque sens, adultes	10
" " enfants	5
Pour un cheval et son cavalier, en chaque sens	25
Pour un cheval, en chaque sens	25
Pour un cheval et voiture, et conducteur, en chaque sens	35
Pour chaque cheval et passager en sus	10
Pour chaque bête à cornes, en chaque sens	25
Pour chaque mouton ou cochon, en chaque sens	5
Pour chaque 100 livres de bagage ou autre article, en chaque sens	10

8. *Affichage du tarif.*—Une pancarte contenant le prix de passage et le tarif des péages sera affichée et maintenue en tout temps dans un endroit bien en vue sur ou près le quai ou l'embarcadère, ainsi que sur les bacs ou vapeurs faisant le service.

9. *Modification du tarif.*—Le Gouverneur en conseil aura le droit de changer et modifier le tarif et les prix ci-dessus établis, s'il le juge à propos dans l'intérêt du public ; et après que le tarif aura été ainsi modifié, l'adjudicataire ne pourra demander ou recevoir aucuns péages ou prix plus élevés que ceux prescrits par le tarif ainsi modifié, tant qu'il restera en existence.

10. *Négligence de remplir les conditions.*—Le Gouverneur en conseil aura toujours le droit, lorsqu'il lui sera prouvé que l'adjudicataire ne remplit pas les conditions ci-dessus ou celles stipulées dans son bail, de déclarer le bail résilié et nul, et alors ce dernier deviendra nul et non avenu à toutes fins et intentions, comme s'il n'eût jamais été consenti, sans indemnité pour l'adjudicataire.

11. *Observations des lois des Etats-Unis.*—L'adjudicataire ne devra en aucun temps pendant l'existence du bail, sciemment ou volontairement enfreindre aucune des lois ou aucun des statuts ou règlements des Etats-Unis d'Amérique, ou de l'Etat du Michigan, ou de la ville du Sault-Sainte-Marie, E.-U., au sujet du service du bac, qui peuvent s'appliquer au passage d'eau ou à quelque partie de ce passage qui peut se trouver sous la juridiction des Etats-Unis d'Amérique, soit de l'Etat du Michigan, ou de la ville du Sault-Sainte-Marie, E.-U., ni ne permettra ou ne souffrira que ses employés ou serviteurs les enfreignent.

12. *Disposition contre les indemnités.*—Pourvu toujours que si les Etats-Unis d'Amérique, ou l'Etat du Michigan, ou la ville du Sault-Sainte-Marie, E.-U., dans l'exercice de quelque pouvoir leur appartenant en aucun temps pendant la durée du bail, empêchaient ou entravaient le service du bac sur le passage d'eau, ou sur quelque partie de ce passage qui peut être sous leur juridiction, ou s'ils causaient à l'adjudicataire quelque perte, dépense, frais ou dommage à ce sujet, celui-ci n'aura droit à aucune indemnité ou compensation de la part du Canada.

13. *Commencement du service.*—Les bacs seront placés sur la route immédiatement à l'ouverture de la navigation du printemps de 1896.

14. *Durée du bail.*—Le bail sera accordé pour une période de dix (10) ans à compter du 1er de mai 1896. L'adjudicataire sera tenu de fournir deux cautions, approuvées par le Contrôleur du Revenu de l'intérieur, lesquelles seront obligées conjointement et individuellement avec le principal en la somme de cinq mille ($5,000) piastres, pour le fidèle accomplissement par l'adjudicataire des conditions du bail.

JOHN J. McGEE,
Greffier du Conseil privé.

45-4

[1430]

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 28e jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 97 des Statuts Revisés du Canada, intitulé "Acte concernant les passages d'eau," et l'acte 51 Victoria, chapitre 23, qui le modifie, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants pour la gouverne d'un passage d'eau sur la rivière Détroit, entre Windsor, Ontario, et Détroit dans l'Etat du Michigan, un des Etats-Unis d'Amérique, et désigné sous le nom de "Passage d'eau de la rue Ouelette."

RÈGLEMENTS.

1. *Limites.*—Les limites du passage d'eau s'étendront de la limite est à la limite ouest de la ville de Windsor, telle que produite jusqu'à la rivière Détroit, et un point dans la cité de Détroit, qui sera fixé par les autorités municipales de cet endroit.

2. *Débarcadères.*—Des quais et débarcadères seront en tous temps fournis et entretenus par l'adjudicataire à quelque point dans la dite ville de Windsor, dans les dites limites, et devront pouvoir servir en tout état de la rivière, et seront assujétis à l'approbation du Ministère du Revenu de l'intérieur.

3. *Bateaux.*—Les bateaux seront solides et navigables, d'au moins 85 pieds de quille et 28 pieds de bau, et seront munis de gardes de façon à donner toute l'espace nécessaire pour les chevaux et voitures, et auront une vitesse d'au moins dix milles à l'heure.

4. Les machines auront une force d'au moins 100 chevaux-vapeur, à haute ou basse pression, et seront, de même que les bateaux généralement, soumis à l'inspection et approbation de l'inspecteur fédéral des bateaux à vapeur. Le bateau devra être muni d'appareils de sauvetage et parfaitement équipé et commandé par un homme capable et respectable ; et le contrôleur du Revenu de l'Intérieur se réserve le droit de refuser tout bateau qui pourra en aucun temps être placé sur cette voie pour faire le service, ou son capitaine, ou le quai ou débarcadère, s'il les jugeait impropres au service, ou dangereux, ou insuffisants pour répondre aux besoins du public.

5. L'adjudicataire ne transportera, ni ne permettra, ni ne tolèrera en aucun temps pendant la durée de son bail qu'il soit transporté sur le dit bac, aucun article ou effet de contrebande.

6. L'adjudicataire observera toutes les lois de douane et du revenu du Canada et des Etats-Unis d'Amérique.

7. Durant la période commençant le 1er de janvier et finissant le 31 de décembre, de toute et chaque année, le dit bac commencera à traverser à 6 heures du matin, vrai temps méridien de Windsor (sauf les dimanches), et continuera de traverser d'un côté à l'autre à des intervalles de quinze minutes successivement ensuite jusqu'à 7 heures du matin, et à des intervalles de dix minutes successivement ensuite jusqu'à 8 heures du soir, et à des intervalles de 20 minutes successivement ensuite jusqu'à 11.40 p.m.

Le dimanche le dit bac continuera à traverser d'un côté à l'autre commençant à 7 heures du matin à des intervalles de 15 minutes successivement ensuite jusqu'à 10 heures p.m., et à des intervalles de 20 minutes successivement ensuite jusqu'à 11.20 p.m., à moins que cette traversée ne soit pas rendue impossible par les dangers de la navigation.

8, Le tarif des péages et prix de passage sur le dit bac ne sera jamais plus élevé que le suivant, savoir :—

Piétons, chacun	$0.05
Promenade à cheval, matin, après-midi et soir.	0.10
Enfants au-dessous de 12 ans	Gratis.
Cheval, voiture et conducteur	$0.10
Voiture à deux chevaux et conducteur	0.20
Cheval et son cavalier ou domestique	0.10
Bétail, à pied, chacun	0.15
Moutons, cochons, ou veaux, à pied, chacun....	0.05
Fret non transporté dans une voiture, pour chaque 100 livres, ou moins	0.03
Charges de foin, paille, meubles, ou effets encombrants ou lourds	0.50
Charges comme ci-dessus traînées par un cheval.	0.25
Piétons, 10 billets	0.25
Voiture à un cheval, conducteur et une autre personne, 10 billets	1.00
Voiture à deux chevaux, conducteur et une autre personne, 5 billets	1.00

9. Une pancarte contenant le prix de passage et le tarif des péages sera affichée et maintenue en tout temps dans un endroit bien en vue sur ou près le quai ou l'embarcadère, ainsi que sur les bacs ou vapeurs faisant le service.

10. Le Gouverneur en conseil aura le droit de changer et modifier le tarif et les prix ci-dessus établis, s'il le juge à propos dans l'intérêt du public ; et après que le tarif aura été ainsi modifié, l'adjudicataire ne pourra demander ou recevoir aucuns péages ou prix plus élevés que ceux prescrits par le tarif ainsi modifié, tant qu'il restera en existence.

11. Le Gouverneur en conseil aura toujours le droit, lorsqu'il lui sera prouvé que l'adjudicataire ne remplit pas les conditions ci-dessus ou celles stipulées dans son bail, de déclarer le bail résilié et nul, et alors ce dernier deviendra nul et non avenu à toutes fins et intentions, comme s'il n'eût jamais été consenti, sans indemnité pour l'adjudicataire.

12. L'adjudicataire ne devra en aucun temps pendant l'existence du bail, sciemment ou volontairement enfreindre aucune des lois ou aucun des statuts ou règlements des Etats-Unis d'Amérique, ou de l'Etat du Michigan, ou de la cité de Détroit, au sujet du service du bac, qui peuvent s'appliquer au passage d'eau ou à quelque partie de ce passage qui peut se trouver sous la juridiction des Etats-Unis d'Amérique, soit de l'Etat du Michigan, ou la cité de Détroit, ni ne permettra ou ne souffrira que ses employés ou serviteurs les enfreignent.

13. Pourvu toujours que si les Etats-Unis d'Amérique, ou l'Etat du Michigan, ou la cité de Détroit dans l'exercice de quelque pouvoir leur appartenant en aucun temps pendant la durée du bail, empêchaient ou entravaient le service du bac sur le passage d'eau, ou sur quelque partie de ce passage qui peut être sous leur juridiction, ou s'ils causaient à l'adjudicataire quelque perte, dépense, frais ou dommage à ce sujet, celui-ci n'aura droit à aucune indemnité ou compensation de la part du Canada.

14. Le bail sera accordé pour une période de dix (10) ans.

15. Le bail ne sera ni sous-loué ni cédé.

JOHN J. McGEE,
Greffier du Conseil privé.

45–4

AVIS DU GOUVERNEMENT.

RECENSEMENT DU MANITOBA.

Le Ministre de l'Agriculture, ayant été autorisé par arrêté de Son Excellence le Gouverneur Général en conseil, en date du 13 de mai courant, de faire un recensement quinquennal du Manitoba, a prescrit qu'un recensement de la population de la province du Manitoba soit pris relativement au 25 de mai courant.

Les renseignements seront recueillis suivant la formule ci-dessous :—

Recensement du Manitoba, 1896.

Fait en vertu de l'Acte du recensement, chapitre 58 des Statuts Revisés du Canada, et conformément aux dispositions du chapitre 46, art. 5, par. *b*, S.R.C.

Instructions à l'énumérateur.

Chaque page (du livre de l'énumérateur) devra contenir les noms des personnes habitant la maison visitée par l'énumérateur.

Les visiteurs passagers ne seront pas comptés.

Les Sauvages ne seront pas comptés.

Les enfants nés après le jour du recensement, mais avant la visite de l'énumérateur ne seront pas comptés.

Les personnes qui décèderont après le jour fixé pour faire le recensement, mais avant la visite de l'énumérateur, seront comptées.

Les commissaires nommés sont :—

Alexander McMicken	Winnipeg.
William Cranston	Lisgar.
William Ferguson	Marquette.
Robert Adamson	Brandon.
Wright Garland	Macdonald.
Joseph Baril	Provencher.
Norman Matheson	Selkirk.

Par ordre du Ministre de l'Agriculture,

W. B. SCARTH,
Sous-Ministre de l'Agriculture.

47–2

SECRÉTARIAT D'ÉTAT.

Avis public est donné par les présentes que le gouvernement de Sa Majesté le Roi de Suède et Norvège se propose d'envoyer, dans le cours de l'été prochain, une expédition en ballon au Pôle Nord, pour faire des explorations dans l'intérêt de la science. Ce ballon transportera trois savants Suédois, savoir : M. Auguste Salomon Andrée, âgé de 42 ans ; M. Nils Gustaf Ekholm, âgé de 48 ans et M. Nils Strinberg, âgé de 24 ans.

Il est entendu que l'expédition partira de Spitzberg au commencement de l'été. Le Ministre de Suède et Norvège à la Cour de St. James, au nom de son gouvernement, a prié le gouvernement de Sa Majesté la Reine de l'aider à faire connaître, dans les possessions britanniques adjacentes au Pôle, le fait qu'une telle expédition sera tentée ; et vu que le gouvernement de la Suède désire que ce projet soit porté à la connaissance des autorités canadiennes et du public canadien en général, par la voie de la presse, le Très Honorable Secrétaire d'Etat pour les Colonies a demandé au gouvernement de Son Excellence de faire tout en son pouvoir pour rencontrer à ce sujet les vues du gouvernement de Sa Majesté le Roi de Suède et Norvège.

En conséquence, tous les loyaux sujets de Sa Majesté résidant dans le Dominion sont par les présentes informés que l'expédition en question aura lieu, et sont priés, si l'occasion se présente, d'aider les explorateurs autant qu'il sera en leur pouvoir de le faire. Si le ballon était aperçu sans pouvoir communiquer avec les explorateurs, on demande que les particularités suivantes soient prises en notes et communiquées à un papier-nouvelles local ou à une institution scientifique, savoir : le jour, l'heure où le ballon aura été vu, la direction de sa course et la direction du vent.

Si les explorateurs victimes d'un accident arrivaient à un endroit après avoir perdu leur ballon, les habitants du lieu sont priés de leur porter secours par tous les moyens possibles.

Daté au bureau du Secrétariat d'Etat le 16 mai 1896.

JOSEPH POPE,
Sous-secrétaire d'Etat.

47-3

Avis est donné au public qu'en vertu de "l'Acte des compagnies" il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 6e jour de mai 1896, constituant en corporation Robert Mitchell, manufacturier, Richard R. Mitchell, manufacturier, Norman Mitchell, étudiant, Ewing Smith, surintendant, et William Stanhouse, contremaître, tous des cité et district de Montréal, dans la province de Québec, pour les fins suivantes :—(*a.*) Acquérir, prendre à son nom et continuer dans toutes ses branches l'industrie aujourd'hui conduite par Robert Mitchell sous les nom et raison de Robert Mitchell et Cie ; (*b.*) Manufacturer, acheter, vendre, et faire le commerce de toutes sortes de métaux, y compris les ouvrages en cuivre de tous genres, poser des appareils à gaz et électriques, et des fils électriques, fondre le cuivre, travailler le cuivre rouge et le ferblanc, faire l'électro-placage, la plomberie et le posage des tuyaux à vapeur de toutes sortes, y compris la manufacture des compteurs à gaz, à eau et à électricité, et tout ouvrage s'y rattachant ; avec le droit aussi de passer des contrats pour la manufacture et la vente de tous ces matériaux et l'installation de tout ouvrage s'y rattachant,—sous le nom de "La Compagnie Robert Mitchell" (à resp. limitée), avec un capital-actions total de deux cent mille piastres, divisé en deux mille actions de cent piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 15e jour de mai 1896.

CHARLES TUPPER,
Secrétaire d'Etat.

46-3

Avis est donné au public qu'en vertu de "l'Acte des compagnies" il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 6e jour de mai 1896, constituant en corporation Matthew Kennedy, fondeur, William Kennedy, ingénieur civil et hydraulique, Alexander Kennedy, fondeur, David John Kennedy, machiniste, Matthew Kennedy, jeune, machiniste, Isaac Markle Kennedy, machiniste, tous de la ville d'Owen Sound, dans la province d'Ontario, pour les fins suivantes, savoir :—

(*a.*) Faire le commerce général de fonderie, y compris la manufacture, l'achat et la vente de fontes d'acier, de cuivre, et autres fontes malléables et de fer et de toutes autres espèces et catégories de métaux ;

(*b.*) Manufacturer, acheter, vendre et disposer de toutes sortes de machineries ;

(*c.*) Obtenir, tenir et exploiter, et acheter ou louer des brevets d'invention et droits brevetés, dessins et marques de commerce applicables de quelque manière à l'industrie mentionnée aux clauses (*a*) (*b*) (*d*), et les vendre, louer et autrement en disposer ;

(*d*.) Manufacturer, fournir, acheter et vendre toutes sortes de patrons et de formes pour machines et inventions mécaniques ;

(*e*.) Faire les inspections, plans, descriptions et spécifications pour le développement des pouvoirs hydrauliques, et surveiller et s'engager dans les travaux de génie et hydrauliques qui seront nécessaires ou se rattacheront à l'industrie de la compagnie mentionnée aux clauses (*a*) (*b*) (*d*) ;

(*f*) Acquérir et tenir des parts dans le capital-actions de toute compagnie du même genre, comme prix des effets, articles ou marchandises vendus à telle semblable compagnie dans le cours ordinaire des affaires ;

(*g*) Acquérir des terrains, bâtiments, machines, outillage, fonds de commerce, et autre actif du commerce de William Kennedy et Fils, qu'ils conduisent aujourd'hui en la ville d'Owen Sound, dans la province d'Ontario, sous leur propre nom,—sous le nom de "The William Kennedy and Sons" (à resp. limitée), avec un capital-actions total de quatre-vingt-quinze mille piastres, divisé en neuf cent cinquante actions de cent piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 15e jour de mai 1896.

CHARLES TUPPER,
Secrétaire d'Etat.

AVIS AUX MARINS.

No. 11 de 1896.

PHARE DE LA POINTE AUX CITROUILLES EMPORTÉ.

On a été informé que le phare de la Pointe aux Citrouilles, sur le fleuve Saint-Laurent, en amont de Québec, a été emporté par la glace. Jusqu'à ce que la tour soit reconstruite, un feu temporaire sera exhibé sur un poteau.

Cet avis affecte la Liste canadienne des phares et signaux de brume No. 702.

JOHN HARDIE,
Sous-ministre suppléant de la Marine et des Pêcheries.

Ministère de la Marine et des Pêcheries,
Ottawa, Canada, 22 avril 1896.

☞Tous les relèvements, à moins d'avis contraire, sont magnétiques et sont donnés venant de la mer, les milles sont des milles marins, les hauteurs sont au-dessus des hautes eaux, et toutes les profondeurs sont à l'eau basse moyenne.

Les pilotes, capitaines et autres intéressés sont instamment priés d'envoyer tous renseignements quant aux dangers, changements aux aides à la navigation, avis de nouvelles battures ou de nouveaux chenaux, erreurs dans les publications, ou autres faits touchant la navigation dans les eaux canadiennes, au "Sous-ministre de la Marine et des Pêcheries, Ottawa, Canada." 45-3

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre voulu d'insertions.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée. Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministère de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurances—13 insertions.

Les avis de demandes ordinaires au parlement—9 nsertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill prive ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

RÈGLE SPÉCIALE DU SÉNAT.

Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a*.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b*.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

Ordre spécial de la Chambre des Communes.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

Substance des règles et formes de procéder du Sénat concernant les bills de divorce.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage a 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, par la Compagnie de chemin de fer et de canal du Lac Manitoba, afin d'obtenir un acte confirmant certains arrangements avec le Gouvernement du Manitoba et la Compagnie de chemin de fer Manitoba et Nord-Ouest, et aussi pour confirmer certains transferts de sa subvention du gouvernement, et pour confirmer certaines hypothèques créées par la compagnie et l'émission de ses obligations, et pour autoriser la compagnie à émettre des octrois de terres et des obligations portant deuxièmes hypothèques et des actions privilégiées, et pour d'autres fins.

KINGSMILL, SAUNDERS ET TORRANCE,
Solliciteurs de la compagnie.

Toronto, 21 mai 1896. 47-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte modifiant les actes constitutifs de la Compagnie des Steamships de Québec (à resp. limitée), et conférant à la dite compagnie le pouvoir d'acheter, construire, équipper, conduire ou louer, ou acquérir un intérêt dans des hôtels et propriété d'hôtel, et pour d'autres fins.

CARON, PENTLAND ET STUART,
Solliciteurs de la requérante.

Québec, 15 mai 1896 47-9

CHEMIN DE FER BAIE D'HUDSON ET PACIFIQUE.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire, exploiter et entretenir un chemin de fer mû par la vapeur et l'électricité partant de Port Churchill sur la Baie d'Hudson, traversant les territoires du Nord-Ouest et de Kéwatin jusqu'à Fond du Lac sur le lac Athabasca, et depuis Port Churchill susdit sur la Baie d'Hudson, traversant le territoire de Kéwatin au sud de la rivière Churchill et au nord de la rivière Nelson, jusqu'à un point à ou près de Sea Falls, sur la dite rivière ; de là, au nord du lac Winnipeg traversant le territoire de Saskatchewan jusqu'à Prince-Albert, dans le dit territoire ; de là, continuant sur le dit territoire et le territoire d'Alberta, en ligne droite jusqu'à Calgary, dans le dit territoire en dernier lieu mentionné, avec pouvoir de construire un embranchement depuis un point près du lac Manitou, dans le territoire de Saskatchewan, jusqu'à Edmonton, dans le territoire d'Alberta. Aussi, avec pouvoir de construire, acheter, noliser, entretenir et naviguer des vaisseaux à vapeur et autres pour faire le service entre Fort Churchill et d'autres contrées, porter et transporter des passagers et du fret, et faire un service général de transport en rapport avec le dit chemin de fer; construire, exploiter, et entretenir les ponts, docks, quais, élévateurs, etc., qui seront nécessaires et avantageux pour les fins de la dite entreprise. Aussi, construire et exploiter des lignes de télégraphe et de téléphone tout le long du chemin de fer projeté et du dit embranchement, pour la transmission de messages pour le public ainsi que pour les fins du dit chemin de fer ; aussi, acquérir les pouvoirs hydrauliques qui seront jugés nécessaires pour la génération de l'électricité pour les fins du chemin de fer et du dit embranchement, et l'achat, construction et entretien de tout outillage électrique qui sera trouvé nécessaire en rapport avec le dit chemin de fer et son embranchement, ses ponts, élévateurs, quais et docks ; et avec tous autres pouvoirs et droits qui pourront être avantageux et nécessaires au succès de la dite entreprise, y compris tels pouvoirs et droits qui pourront être accordés et prescrits, avec le consentement du parlement du Canada, par le parlement de la Grande-Bretagne et l'Irlande.

JOSEPH NELSON.

Ottawa, 12 mai 1896. 46-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire un chemin de fer, mû par la vapeur ou par l'électricité, ou les deux, partant de la ville de Portage la Prairie, dans la province du Manitoba, et allant jusqu'à un gué de la rivière Saskatchewan, aux ou près des Grands Rapides ; de là, par la route la plus praticable, jusqu'à la navigation en eau profonde sur la Baie d'Hudson, avec un embranchement depuis un point à ou près de la frontière internationale entre les rangs onze et quinze, à l'ouest du premier médidien principal, dans la dite province du Manitoba, courant dans une direction nord ou nord-ouest jusqu'à son intersection avec la ligne mère ; aussi une ligne d'embranchement depuis un point sur la ligne mère près des Grands Rapides jusqu'à Edmonton *via* Prince-Albert et Battleford, dans les Territoires du Nord-Ouest ; avec pouvoir de construire et exploiter des lignes de télégraphe et de téléphone le long du dit chemin de fer et ses embranchements pour toutes fins que ce soit ; aussi acquérir, construire, acheter, noliser, posséder et naviguer des vaisseaux à vapeur et autres sur les lacs, rivières et autres eaux navigables, dans le but de faciliter le trafic en rapport avec le dit chemin de fer ; acquérir, construire, acheter et posséder des élévateurs, entrepôts, quais, docks et chantiers en rapport avec le dit chemin fer ; avec tous les pouvoirs et privilèges nécessaires ou ordinaires donnés ou conférés aux compagnies constituées pour aucune des fins susdites.

GEO. ELDON KIDD,
Solliciteur des requérants.

Ottawa, 14 mai 1896. 46-9

COMPAGNIE DE CANAL ET NAVIGATION DE LA BAIE D'HUDSON.

AVIS est donné par le présent que demande sera faite au parlement du Canada, à sa prochaine session, à l'effet de passer un acte constituant une compagnie pour construire un canal depuis un point sur le bras est de la rivière Nelson jusqu'à la Baie d'Hudson ; et d'améliorer la navigation des rivières et cours d'eau se déversant dans le lac Winnipeg de façon à établir une navigation continue, et de prélever des péages ; et de construire, équiper et utiliser des barges et autres vaisseaux, et des tramways pour le transport du fret et des passagers ; et de construire et exploiter des élévateurs, moulins, quais, docks et entrepôts, et des lignes de télégraphe et de téléphone, des outillages hydrauliques et électriques, et fournir la force motrice s'y rattachant, et pour d'autres usages, et généralement avoir et exercer tels pouvoirs qui sont conférés aux corporations de chemins de fer par "l'Acte des chemins de fer," et qui seront applicables à la navigation des canaux et eaux intérieures.

N. F. HAGEL,
Solliciteurs des requérants.

Winnipeg, 2 mai 1896. 44-9

DEMANDES POUR CHARTE PAR LETTRES PATENTES.

AVIS DIVERS.

AVIS public est donné par le présent qu'une assemblée des actionnaires de la Compagnie de chemin de fer Montréal à la Ligne Provinciale aura lieu au bureau, numéro 136 rue Saint-Jacques, en la cité de Montréal, à midi, le vingt-cinquième jour de juin prochain, dans le but—

Premièrement—De répartir le capital social tel que prescrit par la charte,

Deuxièmement—Prendre à sa charge la propriété de la ligne de chemin de fer ci-devant appelée Compagnie de chemin de fer Montréal, Portland et Boston ; et

Généralement, organiser la dite compagnie, élire ses officiers et transiger telles autres affaires qui seront nécessaires.

Par ordre du conseil de directeurs provisoires.

47-4

AVIS.—Une assemblée spéciale des actionnaires de la Compagnie de chemin de fer Saint-Laurent et Adirondack aura lieu au bureau de la compagnie, à Montréal le 13e jour de juin 1896, à 10.30 a.m., dans le but d'étudier une proposition de retirer et canceller les présentes obligations portant premières hypothèques en circulation, et d'émettre en leur lieu et place de nouvelles obligations 5 pour cent en or jusqu'au montant de $800,000, garanties par une première hypothèque ; et d'étudier une autre proposition d'émettre des obligations 6 pour cent en or de la compagnie jusqu'à un montant n'excédant pas $400,000, garanties par une deuxième hypothèque ; et prendre en considération telles autres affaires de la compétence de la dite assemblée.

FRANK G. SMITH,
Secrétaire.
Montréal, 9 mai 1896. 46-5

BANQUE DE QUÉBEC.

AVIS est donné par le présent qu'un dividende de trois pour cent sur le capital payé de cette institution a été déclaré pour le semestre courant, et sera payable à la banque, en cette cité, et à ses succursales, dès et après lundi, le 1er jour de juin prochain.

Les livres de transferts seront fermés du 16 au 31 de mai prochain, ces deux jours inclusivement.

L'assemblée générale annuelle des actionnaires aura lieu au bureau de la banque, lundi, le 1er jour de juin prochain, à 3 heures p.m.

Par ordre du conseil de direction,
THOMAS McDOUGALL,
Gérant général.
Québec, 21 avril 1896. 43-5

CHEMIN DE FER MANITOBA ET NORD-OUEST.

AVIS est donné par le présent qu'une assemblée spéciale des actionnaires de la Compagnie de chemin de fer Manitoba et Nord-Ouest du Canada aura lieu au bureau de messieurs H. et A. Allan, Montréal, mercredi, le vingt-quatrième jour de juin A.D. 1896, à onze heures a.m., dans le but d'examiner, et si elle est approuvée, de sanctionner l'exécution d'un arrangement à l'effet d'affermer à la Compagnie de chemin de fer et du canal du Lac Manitoba, l'usage des lisses ou droit de parcours sur les lisses de la Compagnie de chemin de fer Manitoba et Nord-Ouest entre un point à ou près de la ville de Gladstone, dans la province du Manitoba, et la ville de Portage-la-Prairie, dans la province du Manitoba, ainsi que le droit conjoint avec la Compagnie de chemin de fer Manitoba et Nord-Ouest de se servir des propriété et facilités de tête de ligne à la ville au Portage-la-Prairie, et pourvoyant de plus à la division des recettes des deux compagnies sur et en rapport avec la dite partie des lisses de la Compagnie de chemin de fer Manitoba et Nord-Ouest.

Par ordre du conseil de direction,
E. W. RILEY,
Secrétaire.
Daté ce 20e jour de mai 1896. 46-4

CHEMIN DE FER CALGARY ET EDMONTON.

AVIS est donné par le présent qu'une assemblée générale spéciale des actionnaires de cette compagnie aura lieu le dixième jour de juin 1896, à onze heures du matin, à l'hôtel Windsor, en la cité de Montréal, dans le but de consentir à une convention ou arrangement fait par les directeurs de cette compagnie avec la Compagnie de chemin de fer Canadien du Pacifique pour le règlement et l'échange du trafic, et le passage du trafic sur les chemins de fer des deux compagnies, et pour la division et la répartition des péages, taux et charges concernant ce trafic.

[L.S.]

CANADA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c., &c.

To Our Beloved and Faithful the Senators of the Dominion of Canada, and the Members elected to serve in the House of Commons of Our said Dominion, and to all whom it may concern—Greeting :

WHEREAS We have thought fit, by and with the advice and consent of Our Privy Council for Canada, to DISSOLVE the present Parliament of Canada, which stands prorogued to the SECOND day of JUNE next ;

Now Know Ye, that We do for that end publish this Our Royal Proclamation, and do hereby DISSOLVE the said Parliament of Canada accordingly ; and the Senators and the Members of the House of Commons are discharged from their meeting and attendance on the said SECOND day of JUNE next.

In Testimony Whereof, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed. Witness, Our Right Trusty and Right Well-Beloved Cousin and Councillor the Right Honourable Sir John Campbell Hamilton-Gordon, Earl of Aberdeen ; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland ; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom ; Baronet of Nova Scotia, Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George, etc., etc., Governor General of Canada.

At Our Government House, in Our City of OTTAWA, this TWENTY-FOURTH day of APRIL, in the year of Our Lord one thousand eight hundred and ninety-six, and in the Fifty-ninth year of Our Reign.

By Command,

SAML. E. ST. O. CHAPLEAU,
Clerk of the Crown in Chancery,

DESPATCHES.

[1450J]

OFFICE OF THE HIGH COMMISSIONER FOR CANADA,
VICTORIA CHAMBERS, 17 VICTORIA STREET,
LONDON, S.W., 11th April, 1896.

SIR,—I have the honour to transmit to you under separate cover, some prospectuses of an International Exhibition of motor carriages, cycle motors, &c., &c., which it is proposed to hold at the Imperial Institute this summer and autumn.

I may mention that copies have been forwarded by the Motor Car Club at my suggestion, to the Governments of the different provinces, through their representatives on the governing body of the Imperial Institute and to the principal newspapers in the Dominion.

I have the honour to be, Sir,
Your obedient servant,
(Sgd.) J. G. COLMER.

The Honourable
The President of the Privy Council,
Ottawa, Canada.

IMPERIAL INSTITUTE OF THE UNITED KINGDOM, THE COLONIES AND INDIA.

*Nominated by His Royal Highness the President.

United Kingdom and Colonial and Indian Sections.

INTERNATIONAL EXHIBITION OF MOTORS AND CONGRESS OF MOTOR INDUSTRIES.

Organised by the Motor Car Club Syndicate (Limited), under the direction of the Motor Car Club.

International Exhibition of motors and their applications (horseless carriages and cars, self-propelled and other vehicles and cycles, stationary motors, appliances and inventions), 1896.

The Motor Car Club Administrative Committee:—H. J. Lawson, Esq., Chairman; M. D. Rucker, Esq.; H. A. Mace, Esq.; Frederick R. Simms, Esq.; Bertram B. Van Praach, Esq.; C. Harrington Moore, Esq., Hon. Secretary.

AN International Exhibition of Motors and their applications (horseless carriages and cars, self-propelled, and other vehicles and cycles, stationary motors, appliances and inventions, and Congress of Motor Industries of 1896), will be held at the Imperial Institute during the months of May. June, July and August next, in the North Gallery and South-East Quadrangle. Daily practical demonstrations will take place in the Gardens and in the South-West Quadrangle. The Exhibition will be opened on 9th May, 1896.

Advantage will be taken of this special opportunity, to enable British, Colonial and Foreign Manufacturers and Patentees of motor carriages, vehicles, cycles, and motors whether propelled by oil, steam, electricity, compressed air, or otherwise, to display their productions and inventions for the inspection of the general public, with a view of giving, by means of examples and the daily practical demonstration of steering power and speed tests, an interesting illustration more especially of the capabilities of the new motor car industry.

The special aim of the Exhibition will be the display of the recent developments in self-propelled traffic. The Exhibition will include examples which may be received from the United Kingdom, the Colonies, and India, or from Foreign Countries.

The gentlemen whose names are given in the first page of this Prospectus have consented to serve and have been appointed an Administrative Committee by the Motor Car Club in connection with the Exhibition.

One gold and three silver medals, and diplomas, will be awarded by competent Jurors or Experts to such exhibitors in each department or section as may be deemed entitled thereto. The Jurors or Experts will be empowered to award medals, in addition to the diplomas, should they deem the exhibit of sufficient merit.

Special attention is directed to the fact that where medals are offered as prizes and are awarded by the Jurors or Experts, they will be presented to the exhibitor without any payment.

The Judging will take place as soon as possible after the opening of the Exhibition, so that successful exhibitors may receive the full benefit of their awards.

Suitable buildings (see accompanying plans) will be provided in the grounds of the Imperial Institute for the purposes of this Exhibition. The cost of these buildings, including the provision of lighting, general control, and care for the four months named would be equivalent to an outlay of 5*s.* per square foot.

The Exhibition will be open to the public during the months named, in conjunction with the Collections of Colonial and Indian National Products of the Imperial Institute, and the superb collection, made by H.R.H. The Duc d'Orleans, of specimens of natural history, dresses, arms, and fabrics, principally from various dependencies of the British Crown. The public will be admitted to the Institute galleries and grounds and the Exhibitions, on Mondays, Tuesdays, Thursdays, Fridays, and Saturdays, from mid-day to 11 p.m., at one shilling each person; on Wednesdays the buildings and grounds will be reserved for Fellows of the Institute, and for friends specially introduced by them in accordance with the regulations, from mid-day to 11.30 p.m.

During the season, the famous Monte Carlo Orchestra, in its full strength, will play (by special arrangement with the authorities of the Casino at Monte Carlo) daily in the Institute and Grounds, under the personal direction of Mons. Léon Jéhin, Chief Director of the Orchestra.

H.R.H. The Prince of Wales has consented to visit and inspect the Exhibition after the opening.

Scope.—The Exhibition is intended to include the display of appliances and inventions under the following sections:—

Section 1.—Motor pleasure carriages propelled by—

1. Steam.
2. Oil.
3. Electricity.
4. Compressed air.
5. Springs.

Section 2.—Self-propelled vehicles employed on roads for trade purposes and for transport of goods. The motive power being any of the means above indicated.

Section 3.—Self-propelled ploughs and other Agricultural Implements.

Section 4.—Self-propelled cycles, the motive power being any of the means above indicated.

Section 5.—Wheels, tyres, axles, springs, seats, cushions, and the various parts used in the construction of the above three classes or of the machinery connected therewith.

Section 6.—Apparatus for aerial navigation, through the agency of motors.

Section 7.—Examples of carriages and vehicles not self-propelled.

Section 8.—Cycles, not self-propelled, which embody some novel principle of construction.

Section 9.—Road maps, hotel and railway guides, and books of views for the use of tourists.

Section 10.—Knapsacks, portmanteaus, cooking appliances, tents, picnic baskets, and other tourists conveniences.

Section 11.—Launches, yachts, and boats propelled by—

1. Steam.
2. Oil.
3. Electricity.
4. Compressed air.

Section 12.—Lamps and approach signals as applied to carriages and other road vehicles, and to launches, yachts, and boats.

Section 13.—Watches, clocks, compasses, pedometers, and other travellers' requisites.

Section 14.—Stationary engines, dynamos, and motors.

Section 15.—Models of inventions, working and otherwise, in connection with the foregoing.

Exhibition Space.—The floor area of the special buildings will be allotted at a charge of 5*s.* per square foot. The wall at the sides and ends of the buildings provide for exhibiting space of 9 ft. above the floor. This wall area will also be allotted at a charge of 5*s.* per square foot.

Liability of Exhibitors.—Exhibitors will incur no liability for expenses in connection with the general administration of the Exhibition, beyond the agreed charges for space.

Latest date for reception of exhibits.—All Exhibits, cases, fittings, &c., must arrive at the Imperial Institute not later than noon on Monday, 27th April. They may be sent in from Monday, the 29th April. The exhibits, whether in cases or uncovered, must be installed and arranged, not later than noon on Monday, 8th May.

They should bear the distinctive mark and should be addressed—

Imperial Institute,
(Prince Consort Road entrance)
London, S.W.

GENERAL REGULATIONS.

Right to reject exhibits.

1. The Motor Car Club Syndicate, Limited, (hereafter called the Syndicate) reserves the right of refusing to admit to the Institute premises any cases, fittings,

or exhibits arriving after noon on 27th of April; and to remove from the Exhibition Gallery, at the cost of the exhibitor, any exhibits, cases, or fittings, the arrangement of which may not be completed to the satisfaction of the Administrative Committee by noon on the 8th of May. In such cases the syndicate reserves the right to dispose of the available space at their absolute discretion.

Acceptance of regulations by exhibitors.

2. The acceptance by a manufacturer (firms, companies, or individuals) of the invitation to exhibit, and the allotment of space to him, will be taken as consent on his part to allow all his exhibits, cases and fittings to remain undisturbed in the Exhibition Galleries until the close of the exhibition (approximately some time towards the end of August), and further, as an agreement to abide by the regulation here set out.

Not responsible for loss.

3. The Executive Council of the Institute and the Syndicate, while undertaking to supply adequate general control, watching and care, accept no responsibility or liability as regards the exhibits in respect of damage or loss by fire, accidents, or otherwise; and exhibitors must effect their own assurances against loss or damage by fire.

Soliciting orders.

4. Exhibitors will be required to keep their stands and exhibits properly cleaned and in good order, and displayed for exhibition, during the whole period of the exhibition when open to the public.

No sales of exhibits will be allowed in the Exhibition building, but exhibitors will be permitted to have their own attendants, to take orders for articles, and to distribute their circulars or trade cards, but so that orders shall not be solicited to the annoyance of the public, and subject to copies of the circulars being previously deposited for the approval of the Administrative Committee. Notices, handbills, and circulars of every description will be subject to the approval of the Administrative Committee.

Erection of stands.

5. Screens, cases, or other erection must not exceed eight feet in height except special permission is accorded for increasing this altitude.

Cases must be unpacked as fast as possible, and the empty cases taken away by the exhibitors or their agents. The syndicate decline to accept any responsibility with reference to empty cases and litter, which must be at once removed from the building at the expense of exhibitors.

The passage-ways indicated on the plans must be preserved throughout the buildings.

No exhibitor will be allowed to transfer any allotment or portion thereof, or to allow any other than his own duly admitted exhibits to be placed thereon, except by permission of the Administrative Committee, and all such exhibits must be in the name of the person whose name appears on the application form.

Right of photographing.

6. No articles exhibited may be photographed, drawn, copied, or reproduced in any manner whatsoever without the special sanction of the exhibitor and of the Administrative Committee.

Catalogues.

7. The Syndicate reserve to themselves the sole right of compiling a Catalogue of the exhibits.

Passes to exhibitors.

8. Passes to the Exhibition will be granted to exhibitors and to a reasonable number of attendants. If these passes are used by any but those to whom they are issued, they will be immediately cancelled.

Applications for space.

9. Applications must be sent in on the form enclosed not later than 31st March. This form should indicate the actual minimum space which the exhibitor would accept, and also the maximum space he would desire to have allotted, in the event of the Syndicate being able to meet his application in full.

A cheque, equivalent to the charge for the floor or wall area (respectively at the rate of 5s. per square foot), must accompany each application, and be made payable to C. Harrington Moore, Esq., Secretary, The Motor Car Club Syndicate (Limited). The Syndicate reserve absolute right to forfeit any sum paid for space, in the event of any applicant failing to exhibit in accordance with his application and these regulations.

Allotment of space.

10. If no allotment is made, the amount of the cheque will be returned in full.

If only the minimum space desired should be allotted, then the difference in value of the cheque between the minimum and the maximum space applied for will also be returned.

Power is reserved to refuse all applications, in which case the whole of the amounts transmitted on account of the required space will be returned in full.

The Syndicate reserve the right, in the event of the space applied for considerably exceeding the accommodation available, or for other causes, to allot space only to certain of the applicants.

Damage by exhibitors.

11. Each exhibitor respectively shall at all times indemnify the Syndicate, their contractors and others, from and against all liability, loss, or damage whatsoever, caused by or through the acts, negligence, or misconduct of himself, or any person or persons employed by or for him, or acting under his directions. Each exhibitor respectively shall also at all times reimburse and indemnify the Syndicate, their contractors and others, against any action, suit, claim, costs, charges or expenses for or in respect of any damage or injury caused or occasioned, or alleged to have been caused or occasioned, during the Exhibition by any exhibit, machine, conveyance, ladder, tool, or other appliance belonging to or used by him or on his behalf, or by any person or persons employed by or for him, and shall in all respects conform to the requirements of the said Syndicate in dealing with such or any claims.

Duration of Exhibition.

12. The Exhibition will extend from 9th May to 8th August, and will be open between the hours of mid-day and 11 p.m., or such other days and hours as the Executive Council of the Institute may at any time or for special days determine.

Exhibits subject to a lien for charges.

13. All exhibits shall be subject to a lien for any amount which may be due to the Syndicate.

14. All questions or disputes, either with reference to these regulations or otherwise, shall be decided by the Administrative Committee.

Patents, Designs, and Trade Marks Act, 1883.

Section 39.—The exhibition of an invention at an industrial or international exhibition, certified as such by the Board of Trade, or the publication of any description of the invention during the period of the holding of the exhibition, or the use of the invention for the purpose of the exhibition in the place where the exhibition is held, or the use of the invention during the period of the holding of the exhibition by any person elsewhere, without the privity or consent of the inventor, shall not prejudice the right of the inventor or his legal personal representative to apply for and obtain provisional protection and a patent in respect of the invention or the validity of any patent granted on the application, provided that both the following conditions are complied with, viz. :—

(*a.*) The exhibitor must, before exhibiting the invention, give the Comptroller the prescribed notice of his intention to do so, and

(*b.*) The application for a patent must be made before or within six months from the date of the opening of the exhibition.

Section 57.—The exhibition at an industrial or international exhibition, certified as such by the Board of Trade, or the exhibition elsewhere during the period of the holding of the exhibition, without the privity or consent of the proprietor of a design, or of any article to which a design is applied, or the publication, during the holding of any such exhibition, of a description of a design shall not prevent the design from being registered, or invalidate the registration thereof, provided that both the following conditions are complied with, viz. :—

(*a.*) The exhibitor must, before exhibiting the design or article, or publishing a description of the design, give the Comptroller the prescribed notice of his intention to do so ; and

(*b.*) The application for registration must be made before or within six months from the date of the opening of the exhibition. 48–2

Downing Street,
16th December, 1895.

Canada.
No. 326.

Sir,—I have the honour to transmit to you a copy of the document noted in the subjoined schedule, received from the Foreign Office, respecting sanitary regulations as to vessels arriving at Italian Ports.

I have the the honour to be, sir,
Your most obedient humble servant,
R. H. MEADE,
For the Secretary of State.

The Officer administering
the Government of Canada.

Date.	Description of Document.
1895. 23rd November..	Translation of an Italian Ordinance.

Translation of a decree of the Italian Ministry of the Interior relating to Maritime Sanitary precautions.

No. 9.

Considering the convenience, generally speaking, of exempting ships on arrival at Italian ports, under ordinary circumstances, from presenting their Bill of Health (patente di sanita) when the sanitary information is marked on the ship's papers (carte di bordo) ; and in virtue of the power conferred by the Maritime Sanitary Regulations of determining (in concert with the Minister of Marine) what measures are to be taken in such matters ; the Minister of the Interior hereby decrees :—

That every vessel arriving at Italian ports from the other European ports, with the exception of Turkish ports, are exempted from the presentation of the Bill of Health (*patente di sanita*) ; and this exemption applies equally to ships from the Atlantic ports of North America and Canada ; but, in any case, ships arriving from ports which have been either declared infected by the local authorities, or have been proclaimed as such by the Italian Ministry of the Interior, are not included, and will have to be furnished with bills of health.

And every ship included in the terms of the present Decree shall have marked on its list of the crew, or on its certificate, information respecting the sanitary conditions of the place of departure, the hygienic conditions of the ship itself and of its cargo, and the state of health of the crew and of the passengers both at the moment of starting and at each port touched at.

The Prefects of the Maritime Provinces and the Harbour authorities are charged with the execution of the present Decree.

Dated Rome, 23rd November, 1895.

(Signed) CRISPI,
Minister of the Interior.

ORDERS IN COUNCIL.

[78]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 7th day of January, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, in virtue of the provisions of The Weights and Measures Act, chapter 104 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Order in Council of the 2nd December, 1895, amending section 19 of the Regulations respecting Weights and Measures, established by the Order in Council of the 9th January, 1889, being chapter 42 of the Consolidated Orders in Council of Canada, shall be and the same is hereby cancelled inasmuch as an error of one point of decimal was made therein in the grain weights, and that the following corrected regulations be and the same are hereby established in lieu thereof :—

The form of all measures of capacity must be cylindrical or conical : when of the latter form, they shall not be verified unless they are capable of containing, when filled to the narrowest parts of the neck, the respective weights of distilled water as set forth below :—

For every gallon	10 lbs. av.
For every ½ gallon	5 lbs. av.
For every quart	2½ lbs. av.
For every ½ pint	4375 grains troy.
For every gill	2187 grains troy.
For every ½ gill	1093 grains troy.

to be weighed in air against brass weights at a temperature of 62° F., and with the barometer at 30°.

JOHN J. McGEE,
Clerk of the Privy Council.

[1392]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 28th day of April, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of chapter 97 of the Revised Statutes of Canada, intituled "An Act respecting Ferries," and the Act 51 Victoria, chapter 23 amending the same, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Order in Council of the 2nd April, 1896, establishing regulations for the governance of a ferry across the Saint Mary's River between Sault Ste. Marie, in the Province of Ontario, and Sault Ste. Marie, in the State of Michigan, one of the United States of America, be and the same is hereby cancelled, and that the following regulations be established in lieu thereof :—

REGULATIONS.

1. *Limits.*—The limits of the ferry shall be coterminous with the limits of the Town of Sault Ste. Marie, Ontario, to a point in the Town of Sault Ste. Marie, Michigan, to be fixed by the municipal authorities of that place.

2. *Landing Stages and Wharves.*—Suitable landing wharves or docks shall be secured and at all times maintained by the lessee at some central point in the said Town of Sault Ste. Marie, Ontario, which must be safe and available at all states of the river, and subject to the approval of the Controller of Inland Revenue.

3. *Vessels.*—The vessels to be used shall be substantial and seaworthy and capable of carrying safely and commodiously all the traffic that offers between the two towns. They must be provided with engines of sufficient effective horse-power and be high-pressure, and the vessels and engines shall be subject to the approval of the Dominion Inspector of Steamboats.

4. *Conveyance of Contraband Goods.*—The lessee shall not at any time carry or convey or permit or suffer to be carried or conveyed over the said ferry, any contraband articles whatsoever.

5. *Observance of Custom and Revenue Laws.*—The lessee shall observe all Customs and Revenue laws of the Dominion of Canada and of the United States of America.

6. *Hours of Running.*—During the period commencing on the 1st of June and ending the 30th September in each and every year, the ferry shall commence running at 7 o'clock a.m., and shall continue to cross every 30 minutes thereafter until 9 o'clock p.m., by central standard time (Sundays excepted), except in the case of unforeseen marine casualties, fog or unavoidable circumstances, and from the 1st of November until the close of navigation, until 8 o'clock p.m., central standard time.

7. *Tariff of Fares.*—The charges for fares and tolls to be made on the said ferry shall not at any time exceed the following, that is to say,—

	cts.
For foot passengers, each way, adults	10
do do do children	5
For horse and rider, each way	25
For horse, each way	25
For one horse and vehicle and driver, each way	35
For each additional horse and passenger	10
For each head of horned cattle, each way	25
For each sheep or hog, each way	5
For each 100 lbs. of baggage or other article, each way	10

8. *Posting Notice of Tariff.*—Notice of the rates of fares and tolls on the said ferry, shall be put up and kept up, and exhibited at all times in a conspicuous place on or near the said docks or wharves, and also on the steamers employed from time to time on the said ferry.

9. *Modification of Tariff.*—The Governor in Council shall be at liberty to alter and modify the tariff of charges and tolls hereinbefore contained, should it be deemed expedient in the public interests, and after notification to the lessee, he or his employees shall not take or receive any other or larger fares or tolls than those which shall be imposed in such modified tariff during the subsistence thereof.

10. *Failure to carry out Regulations.*—The Governor in Council shall be at liberty, at any time at which it may be shown that the lessee has failed to perform, fulfil and keep any or other of the said provisos, restrictions and conditions hereinbefore contained and expressed, to declare the lease forfeited and void, whereupon the same shall become and be void to all intents and purposes, as if the same had never been granted, without indemnification to the lessee.

11. *Observance of United States Laws.*—The said lessee shall not at any time during the existence of the lease, wilfully or knowingly infringe any of the laws or bylaws or of the regulations of the United States of America, or of the State of Michigan, or of the Town of Sault Ste. Marie, U.S., in reference to ferriage which may be applicable to the said ferry or such portion thereof as may be within the jurisdiction of any of them, the United States of America, State of Michigan, or the Town of Sault Ste. Marie, or permit or suffer the same to be infringed by any officer, servant or employee of the said lessee.

12. *Provision against indemnity.*—Provided always that if the United States of America, or the State of Michigan, or the Town of Sault Ste. Marie, U.S., shall in the exercise of any authority in any of them existing at any time during the existence of the said lease, prevent or hinder ferriage at or upon the said ferry, or such portion thereof as may be within the jurisdiction of such one of them, or put the lessee to any loss, expense, charge or damage in respect to the same, no claim or demand for compensation or any right or title thereto shall be made upon or against the Dominion of Canada.

13. *When boats shall be placed on route.*—The ferryboats shall be placed on the route immediately on the opening of navigation in the spring of 1896.

14. *Term of lease.*—The lease will be granted for a period of ten (10) years from the 1st May, 1896. The lessee will be required to give two sureties, satisfactory to the Controller of Inland Revenue, who shall be bound jointly and severally with the principal in the sum of five thousand ($5,000) dollars, for the full compliance by the said lessee with the terms of the lease.

JOHN J. McGEE,
Clerk of the Privy Council.

45–4

[1430]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 28th day of April, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of chapter 97 of the Revised Statutes, intituled "An Act respecting Ferries," and the Act 51 Victoria, chapter 23 amending the same, and by and with the advice of the Queen's Privy Council for Canada, is pleased to make the following Regulations for the governance of the ferry across the Detroit River between Windsor, Ontario, and Detroit, in the State of Michigan, U.S., and known as the "Ouelette Street Ferry."

REGULATIONS.

1. The limits of the ferry shall extend from the easterly to the westerly boundary of the Town of Windsor, as produced to the River Detroit, and a point in the City of Detroit to be fixed by the Municipal authorities of that place.

2. Suitable landing wharves or docks shall be secured and at all times maintained at some point in the said Town of Windsor, within the said limits, which must be safe and available at all states of the river, and subject to the approval of the Department of Inland Revenue.

3. The vessels used shall be substantial seaworthy steamers of not less than 85 feet keel and 28 feet beam, and having projecting guards, so as to afford sufficient spaces for horses and carriages, and of a speed not less than 10 miles per hour.

4. The engines shall be of not less than 100 horse power, high or low pressure, and shall be, as well as the vessels generally, subject to the inspection and approval of the Dominion Inspector of Steamboats. The vessels shall be supplied with life-preservers and be in all respects fully equipped, having a respectable and efficient commander, and the Controller of Inland Revenue shall be at liberty to reject any steamer which may at any time be placed upon the said ferry or the commander thereof, or the said docks or wharves, should he consider them or any of them respectively unsuitable to the service, or unsafe or inadequate to meet the wants of the public.

5. That the lessee shall not at any time carry or convey, or permit or suffer to be carried or conveyed over the said ferry any contraband articles whatsoever.

6. That the lessee shall observe all Customs and Revenue laws of the Dominion of Canada and of the United States of America.

7. That during the period commencing on the 1st day of January and ending on the 31st day of December, in each and every year, the said ferry shall commence to ply at the hour of 6 o'clock in the morning, true Meridian time of Windsor, (Sundays excepted), and shall continue to cross from each side at intervals of fifteen minutes successively thereafter until the hour of 7 o'clock in the morning, and at intervals of ten minutes successively thereafter until the hour of 8 o'clock at night, and at intervals of 20 minutes successively thereafter until the hour of 11.40 o'clock p.m. On Sundays the said ferry shall continue to cross from each side commencing at the hour of 7 o'clock in the morning at intervals of 15 minutes successively thereafter until the hour of 10 o'clock p.m., and at intervals of 20 minutes successively thereafter until 11.20 o'clock p.m., unless such crossing is rendered impossible by the dangers of navigation.

8. That the charges for fares and tolls to be made on the said ferry shall not at any time exceed the following, that is to say :—

Foot passengers	$0.05
Pleasure riding, morning, afternoon and evening.	0.10
Children under twelve years of age	Free.
Horse, vehicle and driver	$0.10
Two-horse vehicle and driver	0.20
Horse with rider or attendant	0.10
Cattle on foot, each	0.15
Sheep, pigs or calves on foot, each	0.05
Freight not carried in a vehicle, every 100 lbs. or under	0.03
Loads of hay, straw, furniture or usually bulky or heavy material	0.50
Loads as above with single horse	0.25
Foot passengers, 10 tickets	0.25
Single-horse vehicle, driver and one other person, 10 tickets	1.00
Two-horse vehicle, driver and one other person, 5 tickets	1.00

9. Notices of the rates of fares and rates of tolls on the said ferry shall be put and kept up and exhibited at all times, in a conspicuous place on or near the said dock or wharf, and also on the steamers employed from time to time on the said ferry.

10. That the Governor in Council shall be at liberty to alter and modify the tariff of charges and tolls hereinbefore contained, should it be deemed expedient in the public interests, and after such notification as aforesaid, the lessee shall not take or receive any other or larger fares or tolls than those which shall be imposed in such modified tariff during the subsistence thereof.

11. That the Governor in Council shall be at liberty at any time at which it may be shewn that the lessee has failed to observe, perform, fulfil, and keep any or either of the said provisoes, restrictions or conditions hereinbefore contained and expressed, to declare the lease forfeited and void, whereupon the same shall become and be void to all intents and purposes as if the same had never been granted, without indemnification to the lessee.

12. That the said lessee shall not at any time during the existence of the lease, wilfully or knowingly infringe any of the laws or by-laws or the regulations of the United States of America, or the State of Michigan, or the City of Detroit in reference to ferriage which may be applicable to the said ferry or such portion thereof as may be within the jurisdiction of any of them, the United States of America, or the State of Michigan, or the City of Detroit, or permit or suffer the same to be infringed by any officer, servant or employee of the said lessee.

13. Provided always that if the United States of America, or the State of Michigan, or the City of Detroit, shall in the exercise of any authority in any of them existing at any time during the existence of said lease, prevent or hinder ferriage at or upon the said ferry or such portion thereof as may be within the jurisdiction of such one of them, or put the lessee to any loss, expense, charge or damage, in respect to same, no claim or demand for compensation, or any right or title thereto, shall be made upon or against the Dominion of Canada.

14. The lease will be granted for a period of ten (10) years.

15. The lease shall not be sub-let or assigned.

W. B. SCARTH,
48-1 Deputy of the Minister of Agriculture.

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 20th day of May, 1896, incorporating Edward Kirk Greene, jr., merchant, John Leckie Galletti, merchant, Charles Cushing, notary, John Edgar, merchant, Eben McAdam, clerk, all of the City and District of Montreal, in the Province of Quebec, for the following purposes, viz.:—The carrying on in all its branches of the business of manufacturing and dealing in bags of every description; the manufacture of, calendering and dealing in jute, cotton, cloths, twines and all products thereof; the printing, stamping, and otherwise completing the same.; the acquiring and disposing of any and all patent rights in connection therewith,—by the name of "The Beaver Bag Company" (Limited), with a total capital stock of one hundred thousand dollars, divided into one thousand shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this 29th day of May, 1896.

CHARLES TUPPER,
48-3 Secretary of State.

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 20th day of May, 1896, incorporating Robert Bickerdike, trader, Guillaume N. Ducharme, banker, Francis J. Freese, manager, The Honourable Alexander Walker Ogilvie, Senator, James G. Ross, accountant, William P. O'Brien, manufacturer, Patrick Francis Doody, manager, all of the City of Montreal, in the Province of Quebec, for the following purposes, viz.:—

(*a*) To manufacture gas and to construct gas plants and lay gas pipes for use in cities, towns and villages of the Dominion of Canada;

(*b*) To acquire, construct, operate and maintain any system or systems for the supply of gas and the plant and appliances necessary for the maintenance and working of the same in cities, towns and villages, parishes and elsewhere in the Dominion of Canada; and to sell, deal in and dispose of the same to any corporation or person;

(*c*.) To acquire any system or process of increasing the illuminating and heating power and effecting a saving in the consumption of coal gas in cities and large towns and also for manufacturing and supplying a new carburetted air gas for use in towns and villages, factories, country houses and other places in the Dominion of Canada, for cooking, manufacturing, illuminating and other purposes and to operate and deal in the same;

(*d*.) To acquire, deal in and dispose of all patent rights of invention relating to said matters and more particularly to acquire, use, and sell all rights and privileges granted under letters patent of the Dominion of Canada, number 44943 known as the "Lawrence Gas Mixing and Atomizing Process";

(*e*.) To purchase or acquire and operate any other system or systems of producing gas for heating, illuminating, cooking, manufacturing or other purposes, together with the plant, machinery, materials and all appurtenances necessary and adherent thereto, by the name of "The Economic Gas Company" (Limited), with a total capital stock of one hundred thousand dollars divided into ten thousand shares of ten dollars.

Dated at the office of the Secretary of State of Canada, this 29th day of May, 1896.

CHARLES TUPPER,
48-3 Secretary of State.

DEPARTMENT OF THE SECRETARY OF STATE.

PUBLIC Notice is hereby given that the Government of His Majesty the King of Sweden and Norway purposes sending, in the summer of this current year, a balloon expedition to the North Pole for exploration in the interests of science. The balloon will convey a party of three Swedish scientists, namely, Mr. Salomon August Andrée, aged 42; Dr. Nils Gustaf Ekholm, aged 48; and Mr. Nils Strinberg, aged 24. It is understood that the expedition will start from Spitzbergen in the early summer.

The Swedish and Norwegian Minister at the Court of St. James having, in the name of his Government, invoked the assistance of Her Majesty's Government with a view to making it generally known in the British possessions adjacent to the Polar Basin that the expedition in question will be attempted, and the Swedish Government being anxious also that the project should be made known to the authorities in other parts of Canada and to the general public in the Dominion through the medium of the press, Her Majesty's Principal Secretary of State for the Colonies has requested His Excellency's Government to do all in their power to meet the wishes of the Government of His Swedish and Norwegian Majesty in this matter.

Accordingly, Her Majesty's loyal subjects throughout this Dominion are hereby notified in the premises and are requested to give the explorers, should an opportunity present itself, all the help in their power. If the balloon be seen only and no communication be had with the exploring party, it is requested that the following particulars may be noted and communicated either to a local newspaper or to some learned body, namely, the day and the hour in which the balloon was seen, the direction of the balloon, and the direction of the wind.

Should any accident befall the explorers and should they arrive in any locality having lost the balloon, the inhabitants are asked to give them all possible assistance.

Dated at the office of the Secretary of State of Canada, this 16th day of May, 1896.

JOSEPH POPE,
47-3 Under Secretary of State.

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 6th day of May, 1896, incorporating Robert Mitchell, manufacturer, Richard R. Mitchell, manufacturer, Norman Mitchell, student, Ewing Smith, superintendent, and William Stanhouse, foreman, all of the City and District of Montreal, in the Province of Quebec, for the following purposes, viz.:—(*a*.) To acquire, take over and continue as a going concern in all its branches the business now carried on by Robert Mitchell under the firm name of Robert Mitchell & Co.; (*b*.) To carry on the business of manufacturing, buying, selling, trading, dealing in and installing all kinds of metals, including the work of brass finishing in all its branches, gas and electric fitting and electric wiring, brass founding, tin and coppersmithing, plating, plumbing and steam-fitting of all kinds, including the manufacture of gas, water and electric meters and all work connected therewith, with the right to enter into contracts for the manufacture, supply and sale of all such materials and the installation of any work connected therewith, by the name of "The Robert Mitchell Company," (Limited), with a total capital stock of two hundred thousand dollars divided into two thousand shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this 15th day of May, 1896.

CHARLES TUPPER,
46-3 Secretary of State.

OFFICE OF THE SUPERINTENDENT OF INSURANCE,
OTTAWA, 1st May, 1896.

NOTICE is hereby given that the Supreme Court of the Independent Order of Foresters has this day received a license No. 149 to undertake with its members in Canada, the contract or contracts of life, disability and sickness insurance on the assessment plan to the extent specified in an Act of the Parliament of Canada, assented to on the 23rd day of April, 1896, entitled "An Act to amend the Act incorporating the Supreme Court of the Independent Order of Foresters." Oronhyatekha is the chief agent, and the head office is established at the City of Toronto.

W. FITZGERALD,
46-4 Superintendent of Insurance.

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 6th day of May, 1896, incorporating Matthew Kennedy, foundryman; William Kennedy, civil and hydraulic engineer; Alexander Kennedy, foundryman; David John Kennedy, machinist; Matthew Kennedy, the younger, machinist; Isaac Markle Kennedy, machinist; all of the Town of Owen Sound, in the Province of Ontario, for the following purposes, viz.:—

(*a*) The carrying on of a general foundry business including the manufacture, purchase and sale of steel castings, brass casting, malleable and other iron castings and castings of other kinds and classes of metals.

(*b*) To manufacture, purchase, sell and deal in all kinds of machinery.

(*c*) To obtain, hold and operate and to purchase, lease or license patents and patent rights, designs and trade-marks in any way applicable to the business mentioned in clauses (*a*) (*b*) and (*d*), and to sell, lease and otherwise dispose of the same.

(*d*) To manufacture, supply, purchase and sell all kinds and descriptions of patterns and forms for machines and mechanical devices.

(*e*) To make such inspections, plans, descriptions and specifications, for the development of water powers and to superintend and engage in such hydraulic and civil engineering as may be necessary or incidental to the carrying on of the business of the company provided for in clauses (*a*) (*b*) and (*d*).

(*f*) To acquire and hold shares in the capital stock of any similar company as the consideration for goods, wares or merchandise sold to said similar company in the ordinary course of business.

(*g*) To acquire the lands, buildings, machinery, plant, stock-in-trade, and other assets of the business of William Kennedy and Sons, now carried on by them at the Town of Owen Sound, in the Province of Ontario, under their own name,—by the name of "The William Kennedy and Sons" (Limited), with a total capital stock of ninety-five thousand dollars divided into nine hundred and fifty shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this 15th day of May, 1896.

CHARLES TUPPER,
Secretary of State.

46-3

OFFICE OF THE SUPERINTENDENT OF INSURANCE,
OTTAWA, 18th May, 1896.

NOTICE is hereby given that The Canadian Sick Benefit Society has this day received a license No. 150 to transact in Canada the business of insurance against sickness and disability, on the assessment plan.

Charles Egan is the Chief Agent of the society, and its head-office is established at the Town of Petrolia, Ontario.

W. FITZGERALD,
Superintendent of Insurance.

47-4

MANITOBA CENSUS.

THE Minister of Agriculture, having been authorized by Order of His Excellency the Governor General in Council, under date May the 13th instant, to take a quinquennial census of Manitoba, has directed that a census of the population of the Province of Manitoba be taken with reference to the 25th day of May instant.

The information to be taken in accordance with the following formula:—

Census of Manitoba, 1896.

Taken under authority of the Census Act, chap. 58, Revised Statutes of Canada, and in accordance with the requirement of chap. 46, sec. 5, sub-sec. *b*, R.S.C.

Directions to the Enumerator.

Transient visitors are not to be taken.

Indians are not to be taken.

Children born after the Census day, but before the Enumerator's visit are not to be taken.

Persons dying after the day fixed for taking the Census but before the Enumerator's visit are to be taken.

The Commissioners appointed are:—

Alexander McMicken	Winnipeg,
William Cranston	Lisgar,
William Ferguson	Marquette,
Robert Adamson	Brandon,
Wright Garland	Macdonald,
Joseph Baril	Provencher,
Norman Matheson	Selkirk.

By order of the Minister of Agriculture,

W. B. SCARTH,
Deputy-Minister of Agriculture.

47-2

NOTICE TO MARINERS.

No. 16 of 1896.

I. GOVERNMENT RIFLE RANGE, McNAB'S ISLAND, HALIFAX HARBOUR, NOVA SCOTIA.

The following notice has been issued by the Chief Staff Officer of the Imperial Troops in garrison at Halifax, Nova Scotia, with reference to the annual target practice of the troops, on McNab's Island, commencing on the 11th instant.

"Owing to the extreme range of the Lee-Metford or Magazine Rifles, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

"This area has been marked by four spar buoys placed at intervals between Thrum Cap Shoal and the Eastern Passage, at a distance of 3,000 yards from the stop butts. The buoys mark the extreme limits of the Danger Zone. The spars are painted red and are surmounted by cross heads painted red and white.

"Notice is therefore hereby given that any ship or boat passing inside these buoys during the hours of practice incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab's Island is left flying."

This notice will have effect from the 11th May, 1896.

II. BALLAST GROUND BUOY AT TIDNISH, N.S.

The black cask buoy marking the position of the ballast ground off Tidnish, in Bay Verte, between the Counties of Cumberland, N.S., and Westmoreland, N.B., has been moored this Spring in a new position, ½ mile N.W. from the entrance channel to the Ship Railway dock, and any vessels discharging ballast in Tidnish Harbour must discharge it between the buoy described and Tidnish Head. No ballast is on any account to be discharged to the eastward of the buoy.

This notice affects Admiralty chart No. 2034.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 6th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 47-3

NOTICE TO MARINERS.

No. 17 of 1896.

I. IMPROVEMENT IN ARNPRIOR ISLAND LIGHT.

The mast from which a light was shown on an islet opposite the Town of Arnprior, Chats Lake, Upper Ottawa River, has been replaced by a new mast 10 feet higher than the old one, and the pressed lens lantern has been replaced by a 7th order dioptric lantern.

The colour of the light has also been changed from white to red. The light in future will be fixed *red*, elevated 40 feet above the ordinary level of the water, and should be visible 8 miles from all points of approach by water.

The white shed at the base of the mass remains as heretofore.

This notice affects Admiralty chart No. 797 and Canadian List of Lights No. 823.

II. CHANGE IN KINGSTON HARBOUR BUOYS.

On the opening of navigation this year the three platform buoys heretofore maintained on Penitentiary shoal, Myles shoal and Bolivia shoal respectively, in Kingston Harbour, Lake Ontario, were not moored in position but were replaced by wooden spar buoys surmounted by slat work globes or spheres.

The buoys are painted as heretofore, viz., in red and black bands, and are moored as near the middle of the shoals as possible, in 12 to 14 feet water. Vessels should give the buoys a good berth as the shoals extend some distance.

This notice affects Admiralty charts Nos. 259 B., 797 and 1152.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 6th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 47-3

NOTICE TO MARINERS.

No. 14 of 1896.

BRIER ISLAND FOG WHISTLE AGAIN IN OPERATION.

The fog whistle machinery at the north-west point of Brier Island, on the Bay of Fundy coast of Nova Scotia, has been refitted in a temporary building, and the fog alarm was again put in operation this day.

The whistle sounds as before, three blasts of four seconds' duration, with intervals of four seconds between them, in each minute.

A permanent fog alarm building will be erected later.

This notice affects Admiralty charts Nos. 352, 1651, 2538, 2656 and 2670, and Canadian List of Lights and Fog Signals No. 115.

JOHN HARDIE,
Acting Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 1st May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 46-3

NOTICE TO MARINERS.

No. 18 of 1896.

I. RE-ESTABLISHMENT OF LIGHT ON SOURIS EAST BREAKWATER.

On the 4th instant a temporary mast light was put in operation on the outer end of Souris East breakwater, on the east coast of Prince Edward Island, to take the place of the light carried away by storm in the autumn of 1895, as described in Part II of Notice to Mariners, No. 63 of 1895.

The light is fixed red, elevated 21 feet above high water mark, and should be visible 6 miles from all points seaward. The lens lantern is hoisted on a mast.

This light shows the end of the breakwater, and will be used, similarly to the old light carried away, until a proposed new block is added to the outer end of the breakwater, when a more permanent structure will be built.

This notice affects Admiralty charts Nos. 2034 and 2666, and Canadian List of Lights and Fog Signals, No. 350.

II. ST. JOHNS LEDGE BELL BUOY REPLACED.

The bell buoy marking St. Johns Ledge, near Pubnico, in the Bay of Fundy, which went adrift from or sank at its moorings, as advertised in Notice to Mariners No. 8 of 1896, was replaced by a new buoy on the 2nd instant.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 11th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 47-3

NOTICE TO MARINERS.

No. 15 of 1896.

CABOT HEAD LIGHT AND FOG ALARM.

A light and fog alarm station, established by the Government of Canada at Cabot Head, on the west shore of Georgian Bay, in the North Riding of Bruce, Ontario, will be put in operation on the 18th May instant.

Lat.	N.	45°	14'	45"
Long.	W.	81°	17'	25"

The lighthouse stands on top of the cliff, about $\frac{1}{3}$ mile eastward from the entrance to Wingfield Basin, at the point of Cabot Head which projets farthest north, on the ordinary course of vessels.

The site is level and elevated 35 feet above water. The light building consists of a tower and dwelling house combined, built of wood, painted white. The square tower rises from the east corner of the building, and is surmounted by an iron lantern painted red. The height of the building from the ground to the vane on the lantern is 54 feet.

The light will be a group revolving white light, showing three bright flashes with intervals of twenty seconds between their points of greatest brilliancy, followed by an interval of forty seconds during the greater part of which the light will be obscured, the light completing a revolution in 80 seconds. It is elevated 80 feet above the level of the bay and should be visible 14 miles from all points of approach by water. The illuminating apparatus is catoptric.

The fog alarm building is located on the beach, about 200 feet eastwardly from the lighthouse. It is a square wooden building, painted white, with duplicate horns projecting from a gable in the north-easterly front of the building. These horns are elevated 20 feet above the water.

The fog alarm will consist of blasts of a horn operated by steam and compressed air of 8 seconds' duration with intervals of 40 seconds between them.

The boiler and machinery are in duplicate, so that in case of an accident happening to one part it may be promptly replaced by its duplicate part.

This notice affects Admiralty charts Nos. 327, 519, 678, 906 and 1214, and the substance of it should be entered in the Canadian List of Lights and Fog Signals, between Nos. 1011 and 1012.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 4th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 46–3

NOTICE TO MARINERS.

No. 12 of 1896.

CHANGE IN SHEDIAC HARBOUR RANGE LIGHTS.

It is intended, on the 1st June next, to remove the front range light mast and shed in Shediac Harbour from its position on the extremity of Point du Chêne North Railway Wharf to a new site on the north-west corner of the Government Breakwater, a distance of 358 feet N.E. $\frac{3}{8}$ N. from its former position, and at the same time to move the back range light mast and shed on the extremity of the South Railway Wharf 23½ feet S.E. $\frac{5}{8}$ E., or at right angles to the line of range, from its former position.

New position of outer light :—

Lat. N. 46° 14' 39"
Long. W. 64° 31' 41"

The two lights in their new positions will be 631 feet apart and will lead in S.W. $\frac{5}{8}$ S. (S. 15° 20' W. true) from the intersection with the Shediac Island range alignment through the middle of the channel. This new alignment of the Harbour lights cuts the alignment of the Island lights 78 feet farther west than the old alignment. In other respects the lights and buildings are not altered.

Dredging operations on the new alignment are now in progress and an improved channel will result. No further notice of this change will be given unless events should arise to prevent its accomplishment.

This notice affects Admiralty charts Nos. 1843 and 2034, and Canadian List of Lights and Fog Signals Nos. 419 and 420.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 29th April, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 46–3

NOTICE TO MARINERS.

No. 13 of 1896.

CHANGE IN POSITION OF RAINS WHARF RANGE LIGHTS.

Prior to the opening of navigation this year the masts from which the range lights at Rains Wharf, in the River St. Mary, Ont., are exhibited, were moved to an alignment about 80 feet northward of the old alignment, so that the range lights are now in the same alignment as the American range lights at Point of Woods, and mark, as nearly as may be, the axis of the improved channel.

The front range light now stands on the shore north of Rains Wharf. The lantern is elevated 21 feet above water.

The rear light mast stands 436 feet S.E $\frac{1}{4}$ E. from the front light. The lantern is elevated 26 feet above water.

In other respects the range is unchanged, and the two lights in one guide through Dark Hole Passage as before.

This notice affects Admiralty charts Nos. 325, 326, 519 and 678, and Canadian List of Lights and Fog Signals Nos. 1088 and 1089.

JOHN HARDIE,
Acting Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 30th April, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 46–3

TO ADVERTISERS IN THE *GAZETTE.*

PARTIES sending advertisements to be inserted in the *Canada Gazette* will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."

2nd. Indicate the number of insertions required.

3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are 10 cents for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cents each, and when more than one are required by advertisers, must be remitted for likewise.

S. E. DAWSON,
Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

CONDENSED RULES *in re* NOTICES FOR PRIVATE BILLS.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of The British North America Act, 1867, for granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application ; such notice except in the case of existing corporations) shall be signed by, or on behalf of the applicants, and be published as follows, viz :

In the Provinces of Quebec and Manitoba.

In the *Canada Gazette,* in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

In the *Canada Gazette,* and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices shall be continued in each case, for a period of at least two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. Marked copies of all the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House, endorsed "Application for a Private Bill."

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioners shall also, at the same time and in the same manner, give notice of the proposed rates of toll, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and, if a drawbridge, the dimensions of the same.

Any person seeking to obtain a Private Bill shall, at least eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the Bill is to originate, a copy of such Bill in the English or French language, with a sum sufficient to pay for translating and printing the same. The applicant shall also, after the second reading, and before the consideration of the Bill by any Committee, pay the Clerk of the Senate, or the Accountant of the House of Commons (as the case may be) a fee of $200, and a sum sufficient to pay the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred.

The fee of $200 payable on any Private Bill is paid only in the House in which such Bill originates ; but the charges for reprinting and translation consequent thereon are paid in the House in which such charges are incurred.

No Petition for a Private Bill is received by the Senate or by the House of Commons after the first three weeks of the Session.

No Private Bill may be presented to the Senate or to the House of Commons after the first four weeks of the Session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.
JOHN GEORGE BOURINOT,
Clerk of the Commons.

SPECIAL RULE OF THE SENATE.

49. (*c.*) When a Bill is to operate in more than one Province, Territory or District, the notices shall be published in the *Canada Gazette* and in a leading newspaper published in each Province, Territory or District in which the Bill is to operate.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

ADDITIONAL RULES OF THE HOUSE OF COMMONS RESPECTING PRIVATE BILLS.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bill ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule,* shall be recast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses.*

51*a.* All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill, copies of which may be obtained from the Clerk of the House.

(*a.*) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and Bills which are not in accordance with this Rule shall be returned to the promoters to be recast before being revised and printed ;

(*b.*) Any sections of existing Acts which are proposed to be amended shall be reprinted in full with the amendments inserted in their proper places and between brackets ;

(*c.*) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b.* No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a.*) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or autho-

rized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map or plan shall be signed by the Engineer or other person making the same ;

(*b*.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SPECIAL ORDER OF THE HOUSE OF COMMONS.

Resolved, That the Clerk of the House do have a copy of the new Rule 49 sent to those persons giving notice in the *Canada Gazette* of their intention to apply to Parliament for the passing of a Private Bill, together with a notification that the said Rule will be strictly adhered to for the future :--

49. Petitions for Private Bills shall only be received by the House within the first *three weeks* of the session, and Private Bills may only be presented to the House within the first *four weeks* of the session, and it shall be the duty of any Committee to which any Private Bill may be referred to consider and report the same to the House with all convenient speed.

2. That it be an instruction to all Committees on Private Bills, in the event of promoters not being ready to proceed with their measures when the same have been twice called *on two separate occasions* for consideration by the Committee, that such measures shall be reported back to the House forthwith, together with a statement of the facts and with the recommendation that such Bills be withdrawn.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the *Canada Gazette* and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-west Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under The Canada Evidence Act, 1893.

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

PUBLIC Notice is hereby given that the Hamilton Powder Company will apply to the Parliament of Canada, at its next session, for a special Act to enable it to—

1. Change the head office of the company to Montreal ;
2. To increase the capital stock of the company ;
3. To increase the number of directors of the company ;
4. To increase the amount for which the company can presently issue bonds and debentures.

ROBERTSON, FLEET & FALCONER,
Attorneys for applicants.
Montreal, 26th May, 1896. 48-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next ensuing session, to pass an Act amending the Acts incorporating the Quebec Steamship Company (Limited), and granting power to the said company to purchase, build, equip, run or lease, or acquire an interest in hotels and hotel property, and for other purposes.

CARON, PENTLAND & STUART,
Solicitors for applicant.
Quebec, 15th May, 1896. 47-9

PUBLIC Notice is hereby given that The Georgian Bay Ship Canal and Power Aqueduct Company will apply to the Parliament of Canada, at its next session, for a special Act confirming, extending and augmenting the powers of the company ; such Act to specially provide :—

1. For the construction, regulation, and control of harbours and navigation at the terminals of a ship canal, which the company is authorized to construct and operate from some point on Lake Ontario, within the County of York, to some point on the Georgian Bay ;
2. That the company may divert and use the waters of any spring, creek, river, lake, or any other source or sources of water supply, for the purposes of the company, and regulate the levels of such waters ;
3. That the company may regulate the traffic of the said canal or other navigable waters under the control of the company ;
4. For the extension of the borrowing powers of the company, and to define the denomination and character of the notes, bonds, debentures, securities to be issued by the company ;
5. For the construction and improvement by the company of other canals or waterways in Canada for the purpose of augmenting or increasing the traffic of the canal first mentioned ;
6. The remission and exemption from all customs duties and charges on all plant, machinery and materials to be imported and used in the construction and equipment of the company's works.

J. A. MACDONALD,
Managing director of The Georgian Bay
46-9 Ship Canal and Power Aqueduct Co.

THE HUDSON'S BAY AND PACIFIC RAILWAY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a railway to be operated by steam and electricity from Port Churchill on Hudson's Bay through North-west and Keewatin

Territories, to Fond du Lac, on Lake Athabaska, and from Port Churchill aforesaid, on Hudson's Bay, through the Territory of Keewatin, south of Churchill River and north of Nelson River, to a point at or near Sea Falls, on said river; thence north of Lake Winnipeg through the Territory of Saskatchewan to Prince Albert, in said Territory; thence continuing through the said Territory and the Territory of Alberta, in a direct line to Calgary, in the said last mentioned Territory, with power to construct a branch line from a point near Manitou Lake, in the Territory of Saskatchewan, to Edmonton, in the Territory of Alberta. Also, with power to build, purchase, charter, maintain and navigate steam and other vessels to ply between Fort Churchill and other countries, to carry and convey passengers and freight, and carry on a general transportation service in connection with said railway; to construct, operate and maintain such bridges, docks, wharves, elevators, etc., as may be necessary and advantageous for the purposes of the said undertaking. Also to construct and operate telegraph and telephone lines along the whole length of the proposed railway and said branch, for the transmission of messages for the public as well as for the purposes of said railway; also to acquire such water powers as may be deemed requisite for the generation of electricity for the purposes of said railway and said branch, and the purchase, erection and maintenance of all such electrical plant as may be necessary in connection with said railway and branch, its bridges, elevators, wharves and docks; and with all such other powers and rights as may be advantageous and necessary to the success of said undertaking, including such as may be granted and prescribed, with the consent of the Parliament of Canada, by the Parliament of Great Britain and Ireland.

JOSEPH NELSON.

Ottawa, 12th May, 1896. 46-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct a railway, and to work the same either by steam or by electric power or both, from the Town of Portage la Prairie in the Province of Manitoba, to a crossing of the Saskatchewan River, at or near Grand Rapids, thence by the most practicable route to deep water navigation on Hudson Bay, with a branch line from a point at or near the International Boundary between Ranges eleven and fifteen, west of the first principal Meridian, in the said Province of Manitoba, running in a northerly or north-westerly direction to its intersection with the main line; also a branch line from a point on the main line near Grand Rapids to Edmonton *vià* Prince Albert and Battleford in the North-west Territories, with power to construct and operate telegraph and telephone lines along the said railway and branches for all purposes, also to acquire, build, purchase, charter, own and operate steam and other vessels on lakes, rivers and other navigable waters for the purpose of facilitating the traffic in connection with said railway; to acquire, build, purchase, and own elevators, warehouses, wharves, docks and dockyards in connection with the said railway, with all the proper or usual powers, rights, and privileges given or granted to companies incorporated for any of the purposes aforesaid.

GEO. ELDON KIDD,
Solicitor for applicants.

Dated at Ottawa, this 14th day of May, A.D. 1896.
46-9

YUKON RAILWAY AND NAVIGATION COMPANY.

NOTICE.—Application will be made to the Parliament of Canada, at the next session thereof, to incorporate the "Yukon Railway and Navigation Company," from a point at Taku River and Telegraph Creek or Dease River to Teslin Lake in British Columbia and the North-west Territories.

GEMMILL & MAY,
Solicitors for applicants.

Ottawa, 15th May, 1896. 46-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, by The Chignecto Marine Transport Railway Company (Limited), for an Act to extend the time for the completion of its works and to reduce the number of its directors, and for other purposes.

H. KENDRICK,
Secretary.
By A. FERGUSON,
Solicitor for the applicants.

Dated 7th May, 1896. 45-9

HUDSON'S BAY CANAL AND NAVIGATION COMPANY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next ensuing session, to pass an Act to incorporate a company to construct a canal from a point on the east branch of the Nelson River to Hudson's Bay; and to improve the navigation of rivers and waterways emptying into Lake Winnipeg so as to secure continuous navigation; and to collect tolls thereon; and to construct, equip and operate canal boats and other vessels, and tramways for transportation of freight and passengers; and to construct and operate elevators, mills, wharves, docks and warehouses, and telegraph and telephone lines, hydraulic and electric plants, and to supply motive power in connection with the same, and for other uses, and generally to have and exercise such powers as are given to railway corporations under The Railway Act, and as may be applicable to canals and inland navigation.

N. F. HAGEL,
Solicitor for applicants.

Winnipeg, 2nd May, 1896. 44-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a bridge across the Niagara River at or near the Village of Fort Erie, in the County of Welland, for the passage of pedestrians and vehicles and for the passage of cars propelled by any power, and for the acquisition of all terminal facilities and for power to lease to or otherwise give running powers thereover to any railway company; and to carry gas pipes, wires or cables or other appliances for the transmission of gas and electricity and other power; and with power to lay tracks on said bridge and approaches thereto for the passage of cars, and to operate the same or to enter into any contract or agreement with any individual corporation or corporations with reference to operating the same and to connect the same with any line or lines of railway and to amalgamate with any other company incorporated or to be incorporated by the Legislature of the State of New York or the Congress of the United States of America for the same purpose; and also for power to construct, maintain and operate water wheels under said bridge for the generation of electricity and for all powers necessary for that purpose and for the transmission abroad of such electric force. The height of the arches of said bridge shall not be less than sixty feet and the interval between the abutments or piers shall be two hundred feet, and said bridge shall be constructed with a draw of two hundred feet across the channel of said river for the passage of rafts and all vessels. The rates of toll for the use of said bridge shall not exceed twenty-five cents for each carriage or vehicle (including the driver) drawn by two horses, twenty cents for a single horse, carriage and driver, and fifteen cents for each other person.

HARCOURT, COWPER & MACOOMB,
Solicitors for applicants.

Dated at Welland, 13th April, 1896. 43-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, for an Act to incorporate a company to carry on the business of guaranteeing:—

1. Corporations, partnerships and individuals against lost occasioned by fraud practised upon paper representing or used as security for money;

2. Employees in positions of trust ;
3. Titles to real estate and the validity of wills ;
4. The repayment of loans and investments of money in manufacturing businesses, mining enterprises and in real estate ;
5. The payment of rent, interest, dividends, mortgages, debentures and all other obligations of indebtedness, and
6. The payment of life, accident, fire and marine policies of insurance.

And for such other powers as may be incidental to such business.

GEMMILL & MAY,
Solicitors for applicants.
Ottawa, 13th May, 1896. 46-9

NOTICE is hereby given that application will be made by The Lake Manitoba Railway and Canal Company to the Parliament of Canada, at its next session, for an Act to confirm certain agreements with the Manitoba Government and The Manitoba and North-western Railway Company, and also to confirm certain transfers of its Government subsidies, and to confirm certain mortgages made by the company and the bond issue thereof, and to empower the company to issue land grant and second mortgage bonds and preference stock, and for other purposes.

KINGSMILL, SAUNDERS & TORRANCE,
Solicitors for the company.
Toronto, 21st May, 1896. 47-9

GEMMILL & MAY,
Solicitors for applicant.
Dated at Ottawa, this 10th January, 1896. 28-27

APPLICATIONS FOR CHARTER BY LETTERS PATENT.

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, constituting the applicants and such other persons as may become shareholders in the proposed company, a body politic and corporate under the name and for the purposes hereinafter mentioned :—

1. That the name of the proposed company is to be "The Ottawa Truss and Surgical Manufacturing Company" (Limited).

2. That the object for which incorporation is sought is to manufacture and sell throughout the Dominion of Canada, trusses, suspensory bandages, elastic stockings, artificial limbs, and generally surgical appliances of all kinds.

3. That the operations of the said company are to be carried on in the City of Ottawa, which is also to be its chief place of business, and at such other places within the Dominion of Canada, as may be decided upon.

4. That the amount of capital stock of the company is to be thirty thousand dollars.

5. That the number of shares is to be three hundred, and the amount of each share one hundred dollars.

6. That the names in full, and the address and calling of each of the applicants are as follow :—Albert Hudson, agent, Frederick Bindon, agent, R. Preston Robinson, physician, and Alexander Bannerman, conductor, all of the City of Ottawa, in the County of Carleton, and Province of Ontario ; John M. Cullis, manufacturer, and Norman A. Goodwin, physician, both of the City of Buffalo, in the State of New York, one of the United States of America ; and Robert H. Preston, of Newboro, in the Province of Ontario, physician.

7. That the above named are to be the first or provisional directors.

TAYLOR McVEITY,
Solicitor for the applicants.
Dated 16th May, 1896. 47-6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such others as may become shareholders in the proposed company, a body corporate and politic under the name and for the purposes hereinafter mentioned :—

1. The proposed corporate name of the company is "The Windsor Salt Company" (Limited).

2. The purposes within the purview of the Act for which incorporation is sought are the mining, manufacture, purchase, and sale of salt in its various forms in the Provinces and Territories of the Dominion of Canada ; the acquisition of patents and properties necessary or desirable for any of such purposes ; and the transaction of all matters or business incidental thereto or connected therewith.

3. The chief place of business of the said company is to be the Town of Windsor, in the Province of Ontario.

4. The intended amount of the capital stock is two hundred thousand dollars.

5. The number of shares is to be two thousand, and the amount of each share is to be of the value of one hundred dollars.

6. The names in full, and the address and calling of each of the applicants are as follow :—Sir William C. Van Horne, K.C.M.G., Montreal, railway president ; Ernest G. Henderson, Windsor, Ontario, engineer ; Robert F. Sutherland, Windsor, Ontario, barrister-at-law ; John Morrow, Montreal, agent ; and James Sutherland, Montreal, agent ; the first three of whom are to be the first or provisional directors of the said company.

ROBERT F. SUTHERLAND,
Solicitor for the applicants.
Dated at Windsor, this 16th day of May, A.D. 1896.
47-6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council, for a charter of incorporation by letters patent under The Companies

Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such other persons as may become shareholders in the proposed company, a body corporate and politic, under the name and for the purposes hereinafter mentioned :—

1. The proposed corporate name of the company is the "Montreal Lithographing Company," (Limited).

2. The purposes within the purview of the Act for which incorporation is sought are : to carry on the business of lithographers, engravers, printers, publishers, importers of and dealers in advertising novelties, and any business incidental thereto.

3. The chief place of business of the said company is to be the City of Montreal, in the Province of Quebec.

4. The intended amount of the capital stock is one hundred thousand dollars.

5. The number of shares is to be two thousand, and the amount of each share is to be of the value of fifty dollars.

6. The names in full, and the address and calling of each of the applicants are as follow :—David Morrice, merchant, Richard White, publisher, and Smeaton White, publisher, all of Montreal aforesaid, and Frederick William Heath, lithographer, William Stone, lithographer, William Crowley Jephcott, lithographer, and John Irving, artists, all of the City of Toronto, in the Province of Ontario, all of whom are to be the first or provisional directors of the said company.

WHITE, O'HALLORAN & BUCHANAN,
Solicitors for applicants.

47–6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council, for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such others as may become shareholders in the proposed company, a body corporate and politic under the name and for the purposes hereinafter mentioned :—

1. The corporate name of the proposed company is "Montreal Construction Company" (Limited).

2. The purposes for which incorporation is sought, are the construction of railways, bridges, dams, culverts, and generally the construction of all works for the development of, or in, in connection with the use of motive power of any kind whatsoever.

3. The chief place of business of the said company is to be in the City of Montreal, in the Province of Quebec.

4. The proposed amount of the capital stock is five hundred thousand dollars ($500,000).

5. The number of shares is to be five thousand, of one hundred dollars ($100) each.

6. The names in full and address and calling of each of the applicants are as follow :—Herbert S. Holt, contractor, Alfred A. Thibaudeau, merchant, William Strachan, manufacturer, Alfred Brunet, gentleman, and Frederick L. Béique, barrister, all of the City and District of Montreal, in the Province of Quebec, and who will be the first or provisional directors of the company.

BÉIQUE, LAFONTAINE, TURGEON
& ROBERTSON,
Solicitors for the applicants.
Montreal, 14th May, 1896. 46–6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council, for a charter of incorporation by letters patent under The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such other persons as may become shareholders in the proposed company, a body corporate and politic, under the name and for the purposes hereinafter mentioned :—

1. The name of the company is to be "The Port Hope Preserving and Canning Company," (Limited).

2. The object for which incorporation is sought is the buying and selling, preserving and canning of vegetables, fruits, meats, fish and other articles of diet, and the manufacture of cans for the same.

3. The chief place of business of the said company is to be at the Town of Port Hope, in the County of Durham in the Province of Ontario.

4. The amount of capital stock of the said company is to be twenty thousand dollars.

5. The number of shares is to be two hundred, and the amount of each share one hundred dollars ($100).

6. The names in full, and the address and calling of each of the applicants, are as follow : William M. Miller, of the Town of Newark, in Wayne County in the State of New York, U.S.A., canner ; John Hume, seedsman ; William Craig, tanner ; Stanley Paterson, anker ; and Hugh Cameron Paterson, clerk, the last four of the Town of Port Hope, in the County of Durham and Province of Ontario.

7. The said William M. Miller, John Hume, William Craig, Stanley Paterson and Hugh Cameron Paterson are to be the first or provisional directors of the company.

CHISHOLM & CHISHOLM,
Solicitors for the applicants.
Port Hope, May, 1896. 46–6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, constituting the applicants and such other persons as may become shareholders in the proposed company, a body politic and corporate under the name and for the purposes hereinafter mentioned :—

1. The corporate name of the proposed company is "Masterman Sulphite Pulp Company" (Limited).

2. The purposes for which incorporation is sought, are :—

(*a.*) To do a general trading business, and make, manufacture, buy or sell and deal in wood pulp of all descriptions ;

(*b.*) To buy, lease and sell any timber, sawed and unsawed, with a right to manufacture timber, cut wood, and make wooden articles of every description and ship and sell the same for manufacturing and other purposes ;

(*c.*) To buy, purchase, acquire, lease and sell any timber lands and limits and any other real estate requisite for the carrying on of its business, and to be vested generally with all the powers, privileges and rights requisite and proper to carry on the various kinds of business enumerated and to give effect to the intentions and objects of its incorporation.

3. The chief place of business of the said company is to be in the City and District of Montreal, in the Province of Quebec.

4. The proposed amount of the capital stock is three hundred thousand dollars ($300,000).

5. The number of shares is to be three thousand, of one hundred dollars each.

6. The names in full, and address and calling of each of the applicants are as follow :—William Masterman, manufacturer, John A. Bauden, gentleman, Arthur S. Masterman, manufacturer, Frederick Masterman, manufacturer, et William H. Masterman, manufacturer, all of the City and District of Montreal, in the Province of Quebec ; all of whom are to be the first or provisional directors.

FOSTER, MARTIN & GIROUARD,
Attorneys for applicants.
Montreal, 29th April, 1896. 44–6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, 1886, chapter 119, incorporating the applicants and such others as may become shareholders in the proposed company, a body corporate and politic, under the name and for the purposes hereinafter mentioned :—

1. That the name of the company is to be "The Imperial Mail Marking Machine Company" (Limited).

2. That the objects for which incorporation is sought are to acquire by purchase, grant, assignment, lease, license or otherwise, inventions in mail marking or stamping machines or other machines for in any way handling or treating mail matter, and patents already granted or hereafter to be granted, on such inventions for the Dominion of Canada, and for the United Kingdom of Great Britain and Ireland, especially the patents for said countries heretofore granted to Charles F. Brown on inventions of M. V. B. Ethridge and Henry E. Waite, together with all privileges of every nature and kind granted or conferred by virtue of such patents, and to manufacture or otherwise acquire and sell, lease or otherwise dispose of the machines covered by such patents, or any improvements thereon, together with power to sell or otherwise dispose of by lease, license or otherwise, the rights and privileges conferred under such patents in England, Ireland, Scotland, Wales or Canada, or in any of said countries, or part or parts thereof, and to acquire or obtain new patents for the benefit of the company for any improvements of such machines, and to do all and whatsoever may be necessary or incidental to the carrying on of the business of said company.

3. That the chief place of business of said company is to be at the City of Montreal, in the Province of Quebec.

4. That the amount of capital stock of the said company is to be five hundred thousand dollars ($500,000.)

5. That the number of shares is to be ten thousand (10,000), and the amount of each share fifty dollars ($50).

6. That the names in full, and the address and calling of each of the applicants are as follows :—Herbert S. Holt, gentleman, David Burke, insurance manager, James P. Dawes, brewer, and John Brooks Young, merchant, all of the City and District of Montreal, and Joaquin K. Souther, merchant, and Frank B. Dole, merchant, both of the City of Boston, in the State of Massachusetts, all of whom are to be the first or provisional directors of the said company, and the majority of whom are residents of Canada.

47-4

IN pursuance of Revised Statutes of Canada, chap. 92, and a certain Order in Council dated 12th June, 1893, notice is hereby given that Elias Rogers and Ferral Carlton Dinniny will after the expiration of one month from the date hereof, apply to His Excellency the Governor General in Council for approval of the construction of certain work in Toronto Bay, which may be described as the filling in of that part of the water lot lying immediately to the south of and adjacent to the water lot firstly described in a certain patent from the Crown to the Corporation of the City of Toronto, dated 21st February, 1840, bounded on the north by the line between the points near the site of the late French Fort and Gooderham's Windmill as described in said patent; on the east and west respectively by the production southerly of the western and eastern boundaries of the water lot owned by John Small and Alexander Legge as set out in said patent, and on the south by the Windmill line as fixed by said Order in Council of 12th June, 1893.

And notice is further given that the said applicants, in accordance with the provisions of said Statute, have deposited plans and a description of the proposed site with the Minister of Public Works, and a duplicate of each in the Office of the Registrar of the Eastern Division of the City of Toronto.

MACLAREN, MACDONALD, MERRITT
& SHEPLEY,
Solicitors for applicants,
28-30 Toronto St., Toronto.

Dated at Toronto, this 23rd May, 1896. 47-5

ONTARIO PACIFIC RAILWAY COMPANY.

THE annual general meeting of the shareholders of said company will be held at the office of Flack Bros., in the Town of Cornwall, on Saturday, the 30th day of May instant, at two o'clock p.m.

By order,

D. A. FLACK,
Secretary.

Cornwall, 14th May, A.D. 1896. 47-2

NOTICE.—A special meeting of the shareholders of The St. Lawrence and Adirondack Railway Company will be held at the office of the company, at Montreal, on the 13th day of June, 1896, at 10.30 o'clock a.m., to consider a proposition to retire and cancel the present outstanding first mortgage bonds, and to issue in place thereof new 5 per cent gold bonds to the amount of $800,000, to be secured by a first mortgage; and to consider a further proposition to issue 6 per cent gold bonds of the company to an amount not exceeding $400,000, which are to be secured by a second mortgage; and to consider such further business as may properly come before said meeting.

FRANK G. SMITH,
Secretary.

Montreal, 19th May, 1896. 46-5

NOTICE.—Lam Tung, of the City of New Westminster in the Province of British Columbia, has deposited with the Honourable the Minister of Public Works, at Ottawa, and also with the Registrar of Deeds for the District of New Westminster in the said province, a plan showing certain works or buildings constructed by him upon the Fraser River within the said district, and a description of the site in which such works have been placed.

The said Lam Tung will apply to the Governor General in Council immediately after one month from the first publication of this notice for his approval of such plan and site and of the construction of the said works.

LAM TUNG.

Dated this 1st day of May, 1896. 46-5

NOTICE is hereby given, in accordance with the provisions of section 15 of The North-west Irrigation Act, as amended, that the application of the Springbank Irrigation District for the right to divert sufficient water from the Elbow River, on the S.E. ¼ of Section 4, Township 24, Range 4 west of the 5th Meridian, to irrigate some 21,200 acres as shown by the plans filed by the district, and to construct the necessary works to enable the water so diverted to be used for irrigation purposes, has received the approval of the Governor in Council to the extent that the district has been granted the right to divert the water applied for at high water stage of the stream, and further has been granted five years from the 18th February, 1895, within which to complete the construction of their works, no changes or alterations in these proposed works having been ordered by the Governor in Council.

The memorial of the district, accompanied by the necessary plans, profiles and specifications was filed with the Minister of the Interior, on the fourteenth of November, 1894, and with the Agent, on the 5th day of November, 1894.

The particulars as to the district and the proposed works are as follows:—

The district was created under the provisions of The Irrigation District Ordinance passed by the Legislative Assembly of the North-west Territories in September, 1894, and which was subsequently confirmed by the Act of Parliament 58-59 Vict., chap. 33.

The district is authorized by the provisions of The Irrigation District Ordinance to pledge the lands within the district as security for debentures sold to raise the amounts necessary to construct the above mentioned works, the amount so raised being limited to a sum equal to six dollars per acre upon the lands which can be actually irrigated from the proposed works, with an assessment limited to one dollar per acre per annum upon the lands irrigated, to pay for interest, management, maintenance and sinking fund.

The present Trustees of the district, who under the provisions of The Irrigation District Ordinance are the Board of Management, are, Joseph McPherson, William A. Gibson and W. W. Stuart.

The probable number of consumers of the water diverted is stated by the memorial filed to be one hundred. The lands to be irrigated in their present condition with improvements, are stated to be worth about $8 per acre, which lands are stated to be at present used for ranching purposes, and to be unsuitable for agriculture except by the application of water through irrigation.

The rates to be charged by the district for water supplied for irrigation purposes is the rate to be hereafter fixed under the provisions of The Irrigation District Ordinance above referred to. 45-5

ABERDEEN.
[L.S.]

CANADA.

VICTORIA, par la Grâce de Dieu, Reine du Royaume-Uni de la Grande-Bretagne et d'Irlande, défenseur de la foi, etc., etc., etc.

A Nos Très-Aimés et Fidèles les Sénateurs de la Puissance du Canada et aux membres élus pour servir dans la Chambre des Communes de Notre dite Puissance, et à tous et chacun de vous,—SALUT :

SACHEZ que, désirant et ayant résolu, aussitôt que faire se pourra, de rencontrer Notre Peuple de Notre Puissance du Canada, et d'avoir son avis en Parlement, Nous, par et de l'avis de Notre Conseil Privé du Canada, par ces présentes convoquons la Chambre des Communes dans et pour Notre dite Puissance, et la sommons de se réunir en Notre cité d'Ottawa, en notre dite Puissance, JEUDI le SEIZIÈME jour de JUILLET prochain, vous commandant et par ces présentes, vous enjoignant, et à chacun de vous et tous autres y intéressés, de vous trouver personnellement en Notre dite CITÉ d'OTTAWA, JEUDI, le SEIZIÈME jour du mois de JUILLET prochain, pour l'EXPÉDITION DES AFFAIRES, et y traiter, agir, et conclure sur les matières qui, par la faveur de Dieu, en Notre dit Parlement du Canada, pourront, par le Conseil Commun de Notre dite Puissance, être ordonnés.

EN FOI DE QUOI, Nous avons fait émettre Nos présentes Lettres Patentes et à icelles fait apposer le Grand Sceau du Canada. TÉMOIN, Notre Très-fidèle et Bien-aimé Cousin et Conseiller le Très-honorable Sir JOHN CAMPBELL HAMILTON-GORDON, Comte d'Aberdeen ; Vicomte Formartine, Baron Haddo, Methlic, Tarves et Kellie, dans la pairie d'Ecosse ; Vicomte Gordon d'Aberdeen, comté d'Aberdeen, dans la pairie du Royaume-Uni, Baronnet de la Nouvelle-Ecosse, Chevalier Grand-croix de Notre Ordre Très-distingué de Saint-Michel et Saint-George, etc., etc., Gouverneur Général du Canada.

A Notre Hôtel du Gouvernement, en Notre CITÉ d'OTTAWA, ce VINGT-QUATRIÈME jour d'AVRIL, dans l'année de Notre-Seigneur, mil huit cent quatre-vingt-seize, et de Notre Règne la cinquante-neuvième.

Par ordre,

SAML. E. ST. O. CHAPLEAU,
Greffier de la Couronne en Chancellerie
du Canada.

DÉPÊCHES.

[1237 J.]

DOWNING STREET,
16 décembre 1895.

Canada.
N° 326.

MONSIEUR,—J'ai l'honneur de vous transmettre copie du document cité dans l'annexe ci-jointe, reçu du Bureau des affaires étrangères, concernant les règlements sanitaires établis au sujet de navires arrivant à des ports italiens.

J'ai l'honneur d'être, monsieur,
Votre très obéissant serviteur,
R. H. MEADE,
Pour le Secrétaire d'Etat.

L'administrateur du
Gouvernement du Canada.

Date.	Description du document.
1895. 23 novembre..	Traduction d'un décret italien.

TRADUCTION d'un décret du ministère italien de l'Intérieur, concernant les précautions sanitaires maritimes.

N° 9.

Considérant l'avantage, généralement parlant, d'exempter les navires arrivant à des ports italiens, dans les circonstances ordinaires, de présenter leur patente de santé lorsque le renseignement sanitaire est marqué sur les papiers du bord ; et en vertu du pouvoir conféré par les règlements sanitaires maritimes de déterminer (de concert avec le ministre de la Marine) quelles mesures doivent être prises en ces matières,—le ministre de l'Intérieur décrète ce qui suit :—

Que tout vaisseau arrivant à des ports italiens d'autres ports européens, est exempté de présenter sa patente de santé ; et cette exemption s'applique également aux navires des ports atlantiques de l'Amérique du Nord et du Canada ; mais, dans tous les cas, les navires arrivant de ports qui ont été soit déclarés infectés par les autorités locales, ou ont été proclamés tels par le ministère italien de l'Intérieur ne sont pas compris, et devront être munis de patentes de santé.

Et chaque navire compris dans les termes du présent décret, portera marqué sur sa liste de l'équipage, ou sur son certificat, le renseignement concernant les conditions sanitaires du lieu de départ, les conditions hygiéniques du navire même et de sa cargaison, et l'état de santé de l'équipage et des passagers, et au moment du départ et au port d'arrivée.

Les préfets des provinces maritimes et les autorités des havres sont chargés de l'exécution du présent décret.

Daté à Rome, le 23 novembre 1895.

(Signé) CRISPI,
Ministre de l'Intérieur.

ARRÊTÉS EN CONSEIL.

[78]

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 7e jour de janvier 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence, en vertu des dispositions de "l'Acte des poids et mesures," chapitre 104 des Statuts Revisés, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'arrêté en conseil du 2 de décembre 1895, modifiant l'article 19 des règlements concernant les poids et mesures établis par arrêté en conseil du 9e jour de janvier 1889, chapitre 42 des Arrêtés en Conseil refondus du Canada, soit et il est par le présent annulé en tant qu'une erreur d'un point décimal y a été commise dans les poids en grains, et que les règlements corrigés ci-dessous soient et ils sont par le présent établis en leur lieu et place :—

La forme de toutes les mesures de capacité devra être cylindrique ou conique ; dans cette dernière forme elles ne seront vérifiées que si elles sont capables de contenir, lorsque pleines jusqu'à la partie la plus étroite du goulot, les poids respectifs d'eau distillée, spécifiés plus bas :—

Pour chaque gallon	10 liv. av.
Pour chaque ½ gallon	5 liv. av.
Pour chaque pinte	2½ liv. av.
Pour chaque ½ chopine	4375 grains troy.
Pour chaque roquille	2187 grains troy.
Pour chaque ½ roquille	1093 grains troy.

pesé à l'air contre des poids en cuivre à une température de 62° F., et avec le baromètre à 30°.

JOHN J. McGEE,
Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 16e jour de mai 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence, en vertu des dispositions du chapitre 97 des Statuts Revisés, intitulé "Acte concernant les passages d'eau," et ses modifications, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'article 8 des règlements établis par l'arrêté en conseil du 5 de février 1889, et continués en vigueur par l'arrêté en conseil du 21 de septembre 1893, pour la régie du passage d'eau sur le fleuve Saint-Laurent entre Prescott dans la province d'Ontario et Puissance du Canada, et Ogdensburgh dans l'Etat de New-York, un des Etats-Unis d'Amérique, soit et il est par le présent modifié en tant qu'il s'agit des heures de traversée, à l'effet que le bac commencera à traverser chaque jour à 8 heures du matin, sauf les dimanches, et continuera de traverser d'un côté à l'autre a des intervalles d'une heure, successivement ensuite, jusqu'à 6 heures du soir, au lieu de 7 a.m. à 7 p.m. comme autrefois.

JOHN J. McGEE,
Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 16e jour de mai 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'arrêté en conseil du 12 de juillet 1895, établissant que sujet aux règlements et restrictions contenus dans l'arrêté en conseil du 6 de juin 1892, concernant les approvisonnements de navires, le tabac pourrait, jusqu'à la fin de la session alors suivante du parlement, être sorti de l'entrepôt en franchise, pour servir sur les vapeurs et vaisseaux engagés dans la chasse aux phoques sur les hautes mers, et sur les vapeurs et vaisseaux quittant un port canadien pour un port de mer étranger, soit et il est par le présent modifié en prolongeant ses dispositions jusqu'à la fin de la prochaine session du parlement.

JOHN J. McGEE,
Greffier du Conseil privé.

48-4

RÈGLEMENTS DE QUARANTAINE.

Par arrêté en conseil daté le 4 de mai 1896, en vertu du chapitre 68, Statuts revisés, intitulé : "Acte concernant la quarantaine."

Tout le service quarantenaire du Canada est sous le contrôle du Ministre de l'Agriculture.

Il y a un officier médical comme Surintendant général de la Quarantaine Canadienne.

Sur la côte du Pacifique il y a un Surintendant Médical des quarantaines pour la Colombie-Britannique.

Chaque station de quarantaine est sous la charge immédiate d'un officier médical de quarantaine spécialement nommé.

A chaque station de quarantaine maritime non organisée ou station de quarantaine de l'intérieur, le percepteur des douanes de l'endroit est l'officier de quarantaine pour les fins des présents règlements.

Stations de quarantaine.

Les stations de quarantaine du Canada, sont :—

1. Sur la côte de l'Atlantique,—

(*a.*) Grosse-Ile, dans le fleuve Saint-Laurent, avec Rimouski, la levée Louise et le quai du Grand-Tronc à Lévis, comme stations auxiliaires, provinee de Québec ;

(*b.*) Halifax, le havre et l'île Lawlor, dans la province de la Nouvelle-Ecosse ;

(*c.*) Saint-Jean, le havre et l'île aux Perdrix, dans la province du Nouveau-Brunswick ;

(*d.*) Sydney, Cap-Breton, dans la province de la Nouvelle-Ecosse ;

(*e.*) Pictou, dans la province de la Nouvelle-Ecosse ;

(*f.*) Hawkesbury, dans la province de la Nouvelle-Ecosse ;

(*g.*) Chatham, dans la province du Nouveau-Brunswick ;

(*h.*) Charlottetown, dans la province de l'Ile du Prince-Edouard.

2. Sur la côte du Pacifique,—

(*a.*) William Head, y compris Albert Head, dans le détroit de Fuca, province de la Colombie-Britannique, et comprenant aussi le port de Victoria comme station auxiliaire ; et

(*b.*) Vancouver.

3. Tout autre port, sur les deux côtes, chaque tel port étant désigné comme Station de quarantaine maritime non organisée.

4. Et tout port douanier intérieur sur la frontière canadienne, entre les océans Pacifique et Atlantique, chaque tel port étant désigné comme Station de quarantaine intérieure non organisée.

5. Tout officier de quarantaine à une station de quarantaine en Canada, et tout percepteur des douanes

en sa capacité d'officier de quarantaine, seront, pour les fins des présents règlements, juges de paix en vertu des dispositions de l'article 5 de l'*Acte concernant la quarantaine*, chap. 68 des Statuts revisés.

Dispositions générales.

6. Tout navire arrivant d'un port en dehors du Canada à une station de quarantaine organisée sera inspecté par un officier de quarantaine dûment nommé, à l'endroit dûment fixé pour cette inspection, et il ne lui sera pas permis de faire une déclaration à la douane à aucun port du Canada tant qu'il n'aura pas reçu une patente de santé.

(*a.*) Si un navire venant d'un port infecté et en destination d'un port en Canada qui est une station de quarantaine non organisée, a à passer une station de quarantaine organisée, il lui faudra arrêter à cette dernière station avant de continuer sa route.

7. Il ne sera permis à aucune personne de débarquer d'un navire tant que cette personne n'aura pas été déclarée par un officier de quarantaine exempte de maladie contagieuse, ni tant que cet officier ne sera pas satisfait que ce débarquement peut s'effectuer sans danger pour la salubrité publique.

8. Tout navire venant d'un port en dehors du Canada, et ayant besoin d'une inspection quarantenaire, devra, en arrivant à un port quelconque du Canada hisser un pavillon jaune à l'avant comme signal distinct de quarantaine, de façon à informer l'officier de quarantaine que ses services sont requis, et tout navire arrivant la nuit exhibera un feu rouge à l'avant comme tel signal.

9. Les caboteurs de Terreneuve et de ports des Etats-Unis contigus au Canada, et exempts de maladie contagieuse pourront, de temps à autre, être exemptés des présents règlements par ordre du Ministre de l'Agriculture.

10. Tout navire de guerre de Sa Majesté ou tout transport portant des troupes de Sa Majesté, accompagné d'un médecin, et n'ayant pas de maladie à bord, est exempt de l'inspection et de la détention quarantenaires.

Détention quarantenaire.

11. Chaque officier de quarantaine devra s'assurer de la présence ou de l'absence d'une maladie infectieuse par une inspection personnelle des personnes à bord, ou par la déclaration assermentée du capitaine ou du chirurgien, en la formule ci-jointe, ou par les deux.

12. Tout navire ayant de la maladie contagieuse à bord, ou venant d'un port ou pays infecté, sera sujet à être détenu à une station de quarantaine pour y être désinfecté, ainsi que ses passagers, son équipage et son pilote, et le bagage des passagers et la cargaison.

(*a.*) Un navire pourra être détenu à la quarantaine pour être désinfecté pendant tout le temps que la chose sera nécessaire ;

(*b.*) Le temps pendant lequel un navire pourra être détenu en quarantaine d'observation, est la période acceptée de l'incubation de la maladie contre laquelle l'on se garde à compter de la date constatée de la dernière exposition possible.

13. Tout navire ainsi détenu par ordre de l'officier de quarantaine sera sans délai ancré ou mouillé à l'endroit que fixera l'officier de quarantaine.

14. Et tant que ce navire est ainsi détenu, personne ne quittera le navire, ni n'aura de communication avec tel navire, sans la permission de l'officier de quarantaine.

15. L'officier de quarantaine qui détiendra un navire comme susdit, devra immédiatement avertir le Ministre de l'Agriculture, et donner la cause de cette détention.

16. D'après l'interprétation des présents règlements, un port ou pays infecté est un port ou pays où le choléra asiatique ou autre maladie épidémique a été communiqué à une ou plusieurs personnes par la voie d'une personne ou d'effets d'habillement infectés ou autrement. Un port ou pays n'est pas considéré infecté lorsqu'il ne s'est déclaré qu'un simple cas ou un petit nombre de cas et que la maladie n'a pas été communiquée par ces cas.

Heures d'inspection—Retour en mer—Frais.

17. Tout navire pourra être inspecté en tout temps pendant les vingt-quatre heures.

(*a.*) Sauf que dans les temps d'épidémie le Ministre de l'Agriculture pourra ordonner que l'inspection ne se fasse que pendant les heures de jour ;

(*b.*) Toutes les inspections quarantenaires, à l'exception de celles faites en vertu de l'article 46 (*a*), seront faites sans frais contre le navire.

18. Tout navire aura le droit, avant de rompre son chargement, de retourner en mer au lieu de se mettre en quarantaine, tel que prévu par l'article 9 de l'acte intitulé *Acte concernant la quarantaine*, chap. 68, Statuts revisés.

19. Tous les frais encourus pour l'entretien des personnes en santé qui pourraient avoir été exposées à l'infection, et sont détenues en quarantaine d'observation, seront à la charge du navire.

(*a.*) Et le capitaine d'un navire pourra faire des arrangements avec l'officier de quarantaine pour débarquer les provisions nécessaires et les serviteurs ou économes pour les distribuer à l'endroit où les passagers sont débarqués ;

(*b.*) Les personnes actuellement malades seront traitées et soignées dans les hôpitaux de quarantaine, aux frais du gouvernement ;

(*c.*) S'il est permis à un navire de continuer sa route et de laisser ses passagers en quarantaine, le transport subséquent de tels passagers de la quarantaine au port de destination sera à la charge du navire ;

(*d.*) Les appareils, les matériaux et la main-d'œuvre pour désinfection sont fournis par le gouvernement sans frais contre le navire.

Maladies quarantenaires.

20. Les principales maladies quarantenaires sont : le choléra asiatique, la petite vérole, le typhus, la fièvre jaune et la peste. Les maladies secondaires, sont la fièvre scarlatine, les fièvres entériques (typhoïdes), la diphtérie, la rougeole et la varicelle (petite vérole volante).

(*a.*) En sus de ce qui précède il est du devoir de tout officier de quarantaine de s'assurer de la présence ou de l'absence de toute autre maladie contagieuse ou infectieuse ;

(*b.*) Et quant à la lèpre il est du devoir de chaque officier de quarantaine, surtout sur la côte du Pacifique, de bien s'assurer de la présence ou de l'absence de cette maladie parmi les passagers ; et advenant la découverte de quelque cas de cette maladie, la personne atteinte n'aura pas la permission de descendre à terre, mais elle devra être ramenée par le navire à l'endroit d'où elle vient.

Les pilotes fourniront les règlements.

21. Chaque pilote devra fournir au capitaine de tout navire arrivant à un port en Canada, un exemplaire des présents règlements sous peine de l'amende ci-après prescrite.

Vaccination.

22. Chaque passager sera tenu de prouver à la satisfaction de l'officier de quarantaine qu'il a été vacciné ou qu'il a déjà eu la petite vérole.

23. La production d'un certificat par le chirurgien du navire, appelé "Carte de protection," et sa déclaration sous serment à l'appui de la vérité de ce certificat, seront considérées par l'officier de quarantaine comme preuve de cette vaccination et de cette protection. Toutefois, l'officier de quarantaine pourra, de temps à autre, faire un examen personnel des porteurs de ces certificats, afin de s'assurer de la manière que ces certificats ont été émis.

24. Toute personne qui ne donnera pas une preuve satisfaisante d'avoir été vaccinée ou d'avoir eu la petite vérole, sera vaccinée par un officier de quarantaine, ou, dans le cas de refus, sera débarquée à la station de quarantaine, pour y subir une quarantaine

d'observation ; et les frais d'entretien de cette personne pendant cette quarantaine d'observation seront une dette sur le navire.

(*a.*) Un navire qui arrive à une station de quarantaine en Canada sera moins sujet d'être détenu si la vaccination de tous les passagers d'entrepont qui n'offrent aucune preuve d'avoir été vaccinés dans les derniers sept ans, est exigée avant l'embarquement. Le chirurgien du navire devrait s'assurer du fait vis-à-vis de chaque passager au début de la traversée, ou au temps de l'embarquement si possible, afin d'être en état de répondre aux questions que lui posera l'officier de quarantaine.

26. Si la petite vérole s'est déclarée sur un navire, chaque passager à bord qui n'offre aucune preuve satisfaisante d'avoir été vacciné dans le cours des derniers sept ans, ou d'avoir eu la petite vérole durant cette période, sera vacciné par ou sous la surveillance de l'officier de quarantaine ; ou, dans le cas de refus, il sera débarqué à la station de quarantaine, sujet à la détention pour observation, et les frais d'entretien de cette personne ou de ces personnes pendant cette détention sera une dette sur le navire.

Examen.

26. L'officier de quarantaine examinera le chirurgien ou tout officier d'un navire, sous serment, touchant l'état de santé de ce navire et de chaque personne à bord, dans la forme de questions annexées aux présents règlements.

Isolement.

27. Tout navire muni d'un hôpital isolé pour les hommes, et un autre pour les femmes, sur le pont supérieur, ventilé d'en haut et non par la porte seulement, pourra, s'il est prouvé à la satisfaction de l'officier de quarantaine que cet hôpital a été promptement et intelligemment employé, continuer sa route après avoir mis à terre les malades, et après la désinfection de l'hôpital qui aura servi ; néanmoins, tout navire qui arrivera avec quelque maladie infectieuse, sans être muni de ces hôpitaux spéciaux isolés et ventilés, ou, étant muni de ces hôpitaux, sans preuve satisfaisante qu'ils ont été promptement ou intelligemment employés, sera sujet à être détenu pour être désinfecté à une station de quarantaine.

Malles à Rimouski.

28. Dans le cas d'un navire portant les malles de Sa Majesté et arrivant par la voie du Saint-Laurent, le certificat d'acquit sera accordé par un officier de quarantaine à Rimouski ou Grosse-Ile, et dans le cas de tout autre navire à la Grosse-Ile seulement.

(*a.*) Sauf que durant un temps de choléra ou autre épidémie, la permission accordée à un paquebot-poste venant d'un port ou pays infecté, de débarquer des passagers à Rimouski, pourra être suspendue par ordre du Ministre de l'Agriculture ;

(*b.*) Et dans ces conditions les malles seules seront débarquées à Rimouski, le navire continuant sa route à la Grosse-Ile pour inspection ;

(*c.*) Si le choléra s'était déclaré à bord de ce navire dans le cours de la traversée, les sacs extérieurs contenant les matières postales seront laissés à bord du vapeur pour être désinfectés à la Grosse-Ile.

Désinfection du bagage.

29. En temps de choléra ou autre épidémie, le bagage des immigrants ou passagers sur un navire arrivant à un port du Canada, que ce navire vienne ou non d'un port ou pays infecté, pourra, par ordre du Ministre de l'Agriculture, être désinfecté dans chaque cas.

(*a.*) Lorsque cette désinfection est faite à une station auxiliaire, subséquemment à l'inspection et acquit à la station principale, l'acquit accordé par l'officier quarantenaire portera comme condition que les immigrants et leur bagage seront débarqués pour être désinfectés.

(*b.*) L'officier surveillant cette désinfection comptera les immigrants à mesure qu'ils débarquent, et s'il trouve que le nombre s'accorde avec le nombre marqué sur l'acquit de l'officier de quarantaine, et a une preuve satisfaisante que tout leur bagage a été débarqué avec eux, il poinçonnera l'acquit à l'endroit marqué à cette fin, et cet acquit sera alors reçu à la douane.

Certificats de passage.

30. Chaque officier de quarantaine maritime poinçonnera le "Certificat de passage International" d'immigrants, quand ce certificat est en usage, de manière à faire connaître aux officiers de santé à l'intérieur le résultat de l'inspection quarantenaire, tel que prévu par cette carte ou certificat.

(*a.*) Chaque officier de quarantaine maritime poinçonnera la liste des immigrants par destination, province, (ou Etat s'ils sont en destination des Etats-Unis), quand de telles listes sont en usage, que fournira le chirurgien du navire sur des formules fournies par le gouvernement, et transmettra ces listes sans délai au secrétaire du bureau d'hygiène dans la province ou Etat où ces immigrants sont destinés.

Remorqueurs à vapeur.

31. Tout remorqueur ou autre navire à vapeur qui aura remorqué ou autrement communiqué avec un navire de la classe de ceux sujets à la quarantaine ou l'inspection quarantenaire, sera, par ce fait, soumis aux mêmes règlements et exigences qui s'appliquent au navire avec lequel il y aura eu communication.

(*a.*) Si la communication entre le navire et le remorqueur à vapeur se borne à l'amarrage d'un câble, qui est ensuite relâché, l'officier de quarantaine pourra décider d'exempter ce remorqueur de la détention quarantenaire.

Guenilles.

32. Les guenilles venant d'un port ou pays où sévit une maladie infectieuse, pourront être prohibées, et le nom de tout port ou pays ainsi infecté sera, de temps à autre, publié dans la *Gazette du Canada* ;

(*a.*) Les guenilles venant de ports prohibés à une station de quarantaine, seront sujettes à être brûlées ou autrement traitées sur l'ordre du Ministre de l'Agriculture basé sur un rapport de l'officier de quarantaine.

Nouvelles marchandises.

33. Les nouvelles marchandises en général pourront être acceptées sans question.

Périodes d'épidémie.

34. Pendant une période de maladie épidémique les passagers devraient être avertis par les agents de vapeurs de se dispenser, autant que possible, de bagage que l'eau pourrait gâter, dans le cas où il leur faudrait subir la désinfection—tels que les tissus dont les couleurs pourraient déteindre—vu que les propriétaires seront obligés de supporter tous les risques de dommages.

35. Durant une période de maladie épidémique les navires devraient se dispenser, autant que possible, des tentures, rideaux, tapis, etc., de laine, et y substituer des couvertures non absorbantes.

36. Chaque navire portant cargaison, et sujet à être désinfecté, devrait être muni d'un conduit en charpente uni, donnant un espace libre de 12 pouces partout à l'intérieur, placé dans la grande écoutille, pour un navire à voiles ; et un dans chaque écoutille d'un vapeur, divisé par des cloisons. La charpente de ce conduit serait posée avant le chargement, et s'étendrait de l'écoutille au fond de cale. Ce simple arrangement recevrait le tuyau de fumigation et éviterait de déranger la cargaison.

Passagers.

37. Pour les fins des présents règlements, les passagers sont divisés en deux classes : cabine et entrepont. Les passagers d'entrepont sont ceux qui occupent des compartiments autres que ceux de premières et de secondes.

Méthodes de désinfection.

38. Les méthodes de désinfection aux stations de quarantaine du Canada seront comme suit :—

(*a.*) Exposition à la vapeur pas moins que 30 minutes, température de la vapeur pas moindre que 100° centigrade (212° Fahrenheit) ni plus élevée que 115° centigrade (239° Fahrenheit) ;

(*b.*) Les articles susceptibles d'être détruits par la susdite méthode seront désinfectés en les mouillant parfaitement avec une solution de chlorure mercurique, dans la proportion d'une partie dans mille, ou disons un drachme dans un gallon, mesure de vin, ce qui peut se faire par le moyen d'une brosse, ou par l'arrosage ou le trempage ;

(*c.*) Si l'on emploie du dioxyde de soufre, on l'obtient en brûlant pas moins de 3 livres de soufre en canon par 1,000 pieds cubes d'espace, ou si on l'emploie sous forme liquide, de la même force proportionnée, et la période d'exposition sera d'au moins 6 heures.

39. La désinfection des navires en fer se fera comme suit, selon le cas :—

(*a.*) *Cales.*—Après le nettoyage mécanique, la cale sera parfaitement lavée avec une solution acidique de chlorure mercurique, 1 dans 800 (chlorure mercurique, 1 partie, acide hydrochlorique 2 parties, eau 800 parties), appliquée à toutes les surfaces au moyen d'un boyau. Si l'on redoute les effets dangereux du mercure déposé sur les surfaces, on pourra les laver plus tard avec de l'eau nette ;

(*b.*) *Entrepont.*—Le même traitement devrait être appliqué à l'entrepont qu'à la cale, mais quand le navire est muni d'un tuyau à vapeur pour chaque compartiment (en cas d'incendie), la désinfection à la vapeur de l'entrepont sera pratiquée. La température dans toutes les parties de chaque compartiment ne sera pas moindre que 100° C. (212° Fahr.) ;

(*c.*) *Gaillard d'avant ou département de l'équipage.*—Après le nettoyage mécanique, l'application du chlorure mercurique de la manière ci-dessus décrite, ou les fumées sulfureuses, ou la désinfection à la vapeur, si des facilités sont fournies à cette fin ;

(*d.*) *Quartiers des officiers, cabines, etc.*—Chaque compartiment recevra le même traitement, dans les mêmes conditions que ci-dessus, mais il faudra se rappeler que les décorations en métal dans les cabines, salons, etc., seraient gâtées par l'usage de la solution de chlorure mercurique, et en conséquence, il faudra employer d'autres formes de désinfection, selon que le décidera l'officier de quarantaine.

40. La désinfection des navires de bois se fera comme suit, selon le cas :—

(*a.*) Fumigation au moyen de dioxyde de soufre obtenu en brûlant pas moins que 3 livres de soufre en canon pour chaque 1,000 pieds cubes d'espace ; ou au moyen du dioxyde de soufre liquide dans la même proportion ; et la durée de l'exposition sera d'au moins 24 heures ;

(*b.*) Lavage ou arrosage avec une solution acidique de chlorure mercurique (1 dans 800). Cabines, gaillard d'avant et autres appartements seront parfaitement lavés avec une solution mercurique.

41. Dans toutes les catégories de navires, tous les vêtements, literie, rideaux, etc., seront exposés à la vapeur pendant 30 minutes, à une température de 100° C. (212° Fahr.) à 115° C. (239° Fahr.)

42. Dans toutes les classes de navires les fonds de cales seront d'abord remplis d'eau de mer ou de rivière, vidés par les pompes et ensuite traités d'une solution de chlorure mercurique en grande quantité, laissée en contact longtemps.

Stations de quarantaine maritime non organisées.

43. A tout port où il n'y aura pas de station de quarantaine régulière, le percepteur des douanes sera l'officier de quarantaine pour les fins des présents règlements ; et dans le cas de maladie, ce percepteur pourra, pour les fins des présents règlements, appeler un médecin, qui sera, tant qu'il sera ainsi employé, censé être un officier de quarantaine ; et chaque tel port sera désigné comme station de quarantaine maritime non organisée.

44. Tout navire arrivant d'un port infecté à une station de quarantaine maritime non organisée, ou à bord duquel serait survenu quelque décès d'une maladie infectieuse ou se serait déclarée quelque maladie infectieuse pendant la traversée, restera au large jusqu'à ce qu'il reçoive de l'officier de quarantaine la permission d'entrer.

45. Tous les règlements applicables aux stations de quarantaine maritime régulièrement organisées s'appliqueront aussi à chaque station de quarantaine maritime non organisée en tant que les circonstances le permettront, et surtout les dispositions touchant l'inspection, l'ancrage et le mouillage, la désinfection, les acquits de douane, le retour en mer avant de rompre le chargement, les questions au chirurgien ou aux officiers du navire, et les amendes.

46. Tout percepteur ou sous-percepteur des douanes en sa capacité d'officier de quarantaine à une station de quarantaine maritime non organisée en Canada, qui apprend ou a raison de soupçonner la présence d'aucune des principales maladies quarantenaires citées à l'article 20 des présents règlements, ordonnera qu'il soit fait une inspection médicale du navire apportant cette maladie ;

(*a.*) Si un navire arrive à une station de quarantaine maritime non organisée avec de la maladie sujette à quarantaine à bord, le capitaine paiera un honoraire de $4 pour chaque inspection médicale ordonnée par l'officier de quarantaine, et cet honoraire devra être payé avant que l'acquit de douane ne soit accordé ;

(*b.*) S'il ne se trouve pas de maladie à bord d'un navire arrivant à une station de quarantaine maritime non organisée et que l'officier de quarantaine a ordonné d'inspecter, les frais de cette inspection ne seront pas une charge contre le navire, mais seront défrayés par le gouvernement.

(*c.*) Si la maladie trouvée à bord d'un navire, ou l'historique, les conditions, ou les circonstances d'un navire sont telles qu'il paraîtrait au percepteur ou sous-percepteur des douanes que les capacités d'isolation ou de désinfection existant à une station de quarantaine maritime non organisée, sont insuffisantes pour faire face à cette maladie, il en fera rapport immédiatement au Ministre de l'Agriculture, lequel pourra, à sa discrétion, ordonner que le navire se rende à une station de quarantaine organisée afin d'obtenir une patente de santé avant de pouvoir faire de déclaration en douane. Et dans ce cas les frais de transfert du navire à la station de quarantaine maritime organisée sera une dette sur le navire.

Stations de quarantaine non organisées de l'intérieur.

47. Chaque port de l'intérieur, sur la frontière du Canada, entre les océans Atlantique et Pacifique, où il se trouve un percepteur ou un sous-percepteur des douanes, sera, pour les fins des présents règlements, constitué en station de quarantaine non organisée de l'intérieur.

48. Chaque percepteur ou sous-percepteur de douanes à tout tel port de frontière, sera l'officier de quarantaine.

49. Tout percepteur ou sous-percepteur des douanes en sa capacité d'officier de quarantaine à une station de quarantaine non organisée de l'intérieur en Canada, s'il est informé ou s'il a raison de soupçonner la présence d'une des principales maladies quarantenaires citées à l'article 20 des présents règlements, devra, en temps de choléra ou autre maladie épidémique, faire faire une inspection médicale du char, wagon, véhicule, bateau ou chose apportant cette maladie ;

(*a.*) Et cet officier de quarantaine est autorisé à détenir ce char, wagon, véhicule, bateau ou chose, jusqu'à ce que cette inspection médicale ait été faite à sa satisfaction ;

(*b.*) Tout médecin faisant cette inspection par ordre de l'officier de quarantaine, sera, tant qu'il sera ainsi engagé, le médecin de quarantaine.

50. L'honoraire payable à ce médecin de quarantaine pour chaque telle inspection n'excèdera pas la somme de $4, et dans le cas où il se découvrirait une maladie sujette à la quarantaine, cet honoraire sera payable par la compagnie ou propriétaire du char, wagon, véhicule, bateau ou chose apportant la maladie.

51. Le percepteur ou sous-percepteur des douanes, en sa capacité d'officier de quarantaine devra, sur le rapport du médecin de quarantaine, dans un temps de maladie épidémique, s'il découvrait quelqu'une des principales maladies quarantenaires, faire détenir le char, wagon, véhicule, bateau ou chose apportant une personne atteinte de cette maladie infectieuse, jusqu'à ce que les exigences des présents règlements aient été remplies à sa satisfaction ;

(*a.*) Toute telle personne malade ne pourra pas entrer au Canada tant que le médecin de quarantaine ne jugera pas sûr de le lui permettre ;

(*b.*) Tout char, wagon, véhicule, bateau ou chose apportant cette personne malade à la frontière pourra s'en retourner plutôt que de subir la détention quarantenaire ; ou

(*c.*) Le percepteur ou sous-percepteur des douanes, en sa capacité d'officier de quarantaine devra, à sa discrétion, sur le rapport du médecin de quarantaine, faire enlever et isoler cette personne malade dans un char ou bateau mis à part dans ce but, ou dans une bâtisse convenable, assez éloignée des autres bâtiments pour prévenir tout contact ou infection ;

(*d.*) Et cet officier de quarantaine pourra faire désinfecter le char, wagon, véhicule, bateau ou chose apportant cette personne malade, au moyen des fumées sulfureuses, ou tout autre mode de désinfection prescrite par les présents règlements adapté aux circonstances du cas.

52. Dans le cas où le choléra ou autre maladie épidémique sévirait dans une partie des Etats-Unis par où passe une voie ferrée qui traverse la frontière du Canada le Gouverneur en conseil pourra, par arrêté publié dans la *Gazette du Canada*, ou dans un extra de la *Gazette du Canada*, basé sur un rapport du Ministre de l'Agriculture, et dans le cas où il n'y aurait pas à ce point de la frontière d'arrangements et d'appareils propices pour enrayer la marche de cette maladie épidémique, ordonner la cessation complète du trafic des passagers à cet endroit ; ou y apporter telle restriction que les circonstances justifieront.

Les officiers de quarantaine donneront les ordres nécessaires —ne pourront recevoir d'honoraire ou de gratification.

53. Chaque officier de quarantaine est autorisé à donner tout ordre nécessaire, ou faire tout acte nécessaire pour l'exécution des présents règlements, et il est de son devoir de signaler toute infraction à ces règlements, immédiatement au Ministre de l'Agriculture ;

(*a.*) Aucun officier de quarantaine ni autre personne employée au service quarantenaire du Canada ne devra, directement ou indirectement, recevoir ou prendre d'honoraire ou de gratification ou récompense pour services rendus à toute compagnie, ou propriétaire, capitaine, ou équipage, passager ou autre personne détenue à une quarantaine, soit maritime soit de l'intérieur ;

(*b.*) Toute personne qui connaîtra de quelque infraction aux présents règlements devrait de suite en faire rapport au Ministre de l'Agriculture.

Amendes imposées aux officiers de douanes, pilotes, capitaines, chirurgiens et officiers de navires, etc.

54 Chaque pilote sera muni d'exemplaires imprimés des présents règlements, et il en donnera un au capitaine de tout navire venant d'un port en dehors du Canada, aussitôt en montant à bord, sous peine d'une amende de $50.

55. Chaque percepteur des douanes, ou officier des douanes, sera passible d'une amende de $400, et de l'emprisonnement pendant six mois, s'il permet la déclaration en douane d'un navire qui n'aura pas un acquit de quarantaine conformément aux prescriptions des présents règlements.

56. Chaque capitaine d'un navire sera passible d'une amende de $400 et d'un emprisonnement de six mois, s'il contrevient à aucun des susdits règlements. Le navire répondra de l'amende imposée au capitaine.

57. Tout chirurgien de navire ou autre officier qui manquera de répondre avec exacte vérité aux questions contenues dans la formule ci-jointe, sera passible d'une amende de $400, ou d'un emprisonnement de six mois.

58. Toute infraction au paragraphe *a* de l'article 53 des présents règlements sera considérée être un manquement de devoirs entraînant la démission, l'amende ou l'emprisonnement.

Questions posées sur les officiers de quarantaine, auxquelles les capitaines, chirurgiens ou officiers de navires devront répondre sous serment.

Date 189 .

1. Quel est le nom de votre navire et votre nom ?

2. De quel port est parti votre navire, et à quelle date ?

3. Quelle est votre cargaison, et quand l'avez-vous prise ?

4. Se trouve-t-il des guenilles parmi cette cargaison ?

5. Votre navire est-il arrêté à quelque endroit ou endroits durant la traversée ?

6. Savez-vous si cet endroit ou ces endroits, ou quelqu'un d'eux, étaient infectés du choléra, de la petite vérole, de la peste, ou autre fièvre ou maladie pestilentielle ?

7. Combien de personnes étaient a bord lorsque le navire a fait voile ?

Passagers de premières ; de secondes ; d'entrepont ; bouviers ; équipage . Total, .

8. Dites si quelque personne à bord a été, pendant la traversée, ou est actuellement malade de quelqu'une des maladies mentionnées ci-dessus, et si oui, combien ?

9. Est-il mort quelque personne durant la traversée, et si oui, donnez tous les détails ?

10. Chacun des passagers d'entrepont à bord a-t-il été vacciné ou a-t-il eu la petite vérole ?

11. La vaccination des passagers d'entrepont a-t-elle eu lieu en embarquant au avant d'embarquer ?

12. Combien de passagers avez-vous vaccinés pendant votre présente traversée ?

13. (*Question à être posée au chirurgien du navire, si un tel chirurgien est à bord, dans le cas où il y aurait eu de la petite vérole pendant la traversée.*)—Avez-vous, pendant la présente traversée, examiné personnellement chacun des passagers, afin de vous assurer qu'il avait été vacciné pendant les derniers sept ans, ou qu'il avait eu la petite vérole pendant cette période ?)

14. Avez-vous, ou quelqu'un de l'équipage ou des passagers, à votre connaissance, débarqué à quelque endroit ou endroits en Canada, durant la présente traversée ?

15. Y a-t-il à bord quelque aliéné, idiot, sourd et muet, aveugle ou infirme, et si oui, cette personne est-elle accompagnée de parents ou gardiens ?

16. Avez-vous un hôpital isolé pour les hommes et un autre pour les femmes, ventilé d'en haut et non du passage ?

17. Ces hôpitaux, ou l'un d'eux, ont-ils été immédiatement employés lorsque la maladie s'est déclarée ?

18. Existe-il d'autres choses que vous croyez devoir déclarer ?

(Signature) Capitaine.
(Signature) Chirurgien.

Je, Capitaine, Chirurgien, (*ici dites si vous êtes capitaine du navire ou si vous remplissez d'autres fonctions à bord*) jure solennellement et sincèrement que les réponses aux questions ci-dessus sont exactes et vraies. Ainsi, Dieu me soit en aide.

Capitaine.
Chirurgien.

Assermenté par-devant moi à ce jour de 189 .

Officier de quarantaine et juge de paix autorisé par arrêté du conseil en vertu du chap. 68 des Statuts revisés, intitulé "Acte concernant la quarantaine." 47–2

RÈGLEMENTS CONCERNANT L'INSPECTION ET L'EXPORTATION DES CHEVAUX.

(*Adoptés par un arrêté de Son Excellence le Gouverneur général en conseil le* 6 *de mai* 1896, *en vertu de "l'Acte concernant les épizooties," et les actes qui le modifient*).

1. L'importation des chevaux de la Grande-Bretagne et du continent d'Europe est prohibée, sauf aux ports de Charlottetown, I.P.-E., Halifax, N.-E., Saint-Jean, N.-B., Québec, P.Q., et Montréal, P.Q., et à tels autres ports que désignera plus tard le Ministre de l'Agriculture.

2. Ces chevaux devront être accompagnés du certificat d'un vétérinaire compétent et des autorités de l'endroit lors de leur embarquement, qu'ils n'ont pas été amenés d'un endroit ou localité où existaient à la dite époque la morve, la maladie du coït, ou autre

maladie infectieuse ou contagieuse. De semblables certificats d'exemption de maladie contagieuse au port d'expédition à la date de l'embarquement doivent aussi être fournis.

3. Tous les importateurs de chevaux sont obligés de déclarer sous serment que le certificat produit s'applique au cheval qu'il est censé décrire, et à nul autre, et que la localité nommée est véritablement celle d'où vient le cheval. Toute tentative d'éluder ou de fausser la vérité rendra le cheval passible de saisie et de détention en attendant la décision du Ministre de l'Agriculture.

4. Tous chevaux entrant en Canada à aucun des susdits ports y seront assujétis à l'inspection des officiers nommés à cette fin.

L'inspection aura lieu à bord du navire au port d'arrivée. Si un inspecteur découvre quelque maladie contagieuse, il ordonnera que les chevaux soient débarqués ainsi que tout fourrage, litière, auges, seaux, couvertures et autres articles qui auraient pu servir aux dits animaux infectés à bord du navire. Il surveillera ce débarquement, et verra à ce que les chevaux et les susdits articles soient transportés à la quarantaine, pour y subir le traitement que le Ministre de l'Agriculture ou son représentant ordonnera.

S'il n'est pas découvert de maladie, les chevaux et les susdits articles pourront se rendre à leur destination.

5. Tous chevaux importés de la Grande-Bretagne ou du continent d'Europe, en destination de Montréal, doivent être inspectés au port de Québec, durant la navigation d'été.

6. Les chevaux des Etats-Unis peuvent entrer au Canada en entrepôt aux ports de Sarnia, Windsor, Amherstburg, Sault Ste. Marie, Rouse's Point, St. Armand Station, Island Pond, le Pont Suspendu (Chutes Niagara), le Pont International (Fort Erié), Prescott, Lacolle, Potton, Abercorn, Newport, Beechers Falls, Agnès, et Mégantic, pour transit par le Canada jusqu'à Montréal, Trois-Rivières, Québec, Saint-Jean, N.-B., Halifax, et tels autres ports que le Ministre de l'Agriculture pourra ci-après indiquer, pour exportation à la Grande-Bretagne, ou ailleurs.

(*a*.) Les chevaux pourront aussi entrer, en entrepôt, pour les expositions, les courses, l'élevage, les cirques ou autres expositions, sujet aux dispositions des clauses 7, 13 et 14 des présents règlements.

7. Les chevaux des Etats-Unis entrant au Canada doivent être accompagnés d'un certificat signé par un vétérinaire compétent, que la localité d'où viennent les chevaux est exempte de la morve, maladie du coït, ou autres maladies contagieuses des chevaux. Un certificat signé d'un vétérinaire autorisé doit aussi accompagner chaque consignation depuis l'endroit d'expédition en entrepôt, donnant le nom du propriétaire, le sexe, la classe et le nombre des chevaux, déclarant que les dits chevaux ont été inspectés par lui et sont exempts de maladies contagieuses.

8. Ces chevaux seront assujétis à l'inspection au port d'exportation pour l'Europe ou ailleurs, par des officiers qui seront de temps à autre nommés à cette fin.

9. Il ne sera pas permis que des chevaux soient mis à bord d'un vapeur ou autre vaisseau pour exportation d'un port canadien, avant qu'il n'aient été inspectés par un inspecteur vétérinaire dûment autorisé au dit port, et déclarés par lui exempts de maladie contagieuse ; cette inspection sera faite sous vingt-quatre heures avant l'embarquement.

10. Tous chevaux destinés à l'exportation doivent atteindre le port d'exportation trente-six heures avant d'être expédiés, pour repos et inspection ; et afin de permettre à l'inspecteur de faire un soigneux examen individuel, les propriétaires de ces animaux doivent l'avertir au moins vingt-quatre heures avant l'embarquement. Ces avis seront par écrit et envoyés au bureau de l'inspecteur.

11. Les inspecteurs marqueront chaque cheval inspecté par eux des lettres V. R. sur le poitrail, avec de la peinture. Il ne sera pas embarqué de chevaux sans cette marque et un certificat d'inspection énonçant le nom du propriétaire, le nombre, le sexe et la classe des chevaux, et leur exemption de maladie contagieuse.

12. Les inspections ne seront faites que durant le jour.

13. Les chevaux entrant au Canada des Etats-Unis pour des fins d'élevage ou autres, non en entrepôt, doivent être accompagnés des certificats prescrits par la clause 7 des présents règlements, et doivent aussi être inspectés par un inspecteur vétérinaire dûment autorisé au port d'entrée, et s'ils sont trouvés exempts de maladie contagieuse, ils pourront entrer. S'il se découvre quelque maladie contagieuse, l'entrée sera défendue.

14. Dans le but de défrayer les frais d'inspection en vertu de la clause précédente, le propriétaire ou l'importateur paiera les honoraires suivants, d'après l'échelle ci-dessous :—

Pour 1 cheval..........................	$ 1 00
Pour 5 chevaux jusqu'à 10.........	7 50
Pour plus de 10 jusqu'à 20.........	12 50
Pour plus de 20 jusqu'à 30.........	15 00
Pour plus de 30 jusqu'à 50.........	20 00

Pour tout nombre au-dessus de 50, 25 centins chacun, mais l'honoraire ne sera pas moindre que $20.

Ces honoraires seront payés à l'inspecteur avant qu'il délivre le certificat.

15. Si la maladie de la morve ou autre maladie contagieuse des chevaux est découverte à bord d'un vapeur, wagon de chemin de fer écurie, hangar ou autre endroit, l'inspecteur devra, après l'enlèvement de tout animal infecté, veiller tout de suite à la parfaite désinfection de ce vapeur, wagon, écurie, hangar ou autre endroit, en la manière prescrite par les règlements généraux concernant la désinfection des lieux.

16. Les inspecteurs enverront au Ministre de l'Agriculture des rapports mensuels de chaque inspection faite par eux, y compris un état des honoraires reçus.

Mardi, le 28e jour de mars 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 97 des Statuts Revisés du Canada, intitulé "Acte concernant les passages d'eau," et l'acte 51 Victoria, chapitre 23 qui le modifie, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'arrêté en conseil du 2 d'avril 1896, établissant des règlements pour la gouverne d'un passage d'eau sur la rivière Sainte-Marie, entre le Sault Ste. Marie, dans la province d'Ontario, et le Sault Ste. Marie, dans l'Etat du Michigan, un des Etats-Unis d'Amérique, soit et il est par le présent cancellé, et que les règlements suivants soient établis en remplacement :—

RÈGLEMENTS.

1. *Limites.*—Les limites du passage d'eau seront les mêmes que celles de la ville du Sault Ste. Marie, Ontario, jusqu'à un point dans la ville du Sault Ste. Marie, Michigan, qui sera fixé par les autorités municipales de cet endroit.

2. *Débarcadères.*—Des quais et débarcadères seront en tous temps fournis et entretenus par l'adjudicataire à quelque point central dans la dite ville du Sault Ste. Marie, et devront pouvoir servir en tout état de la rivière, et seront assujétis à l'approbation du Contrôleur du Revenu de l'intérieur.

3. *Bateaux.* — Les bateaux qui seront employés seront solides et navigables et capables de porter sûrement et facilement tout le trafic qui se fait entre les deux villes. Ils devront être munis de machines d'une force suffisante et à haute pression, et les bateaux et les machines seront soumis à l'approbation de l'Inspecteur fédéral des bateaux à vapeur.

4. *Transport d'effets de contrebande.*—L'adjudicataire ne transportera, ni ne permettra, ni ne tolèrera en aucun temps pendant la durée de son bail qu'il soit transporté sur le dit bac, aucun article ou effet de contrebande.

5. *Observation des lois douanières.*—L'adjudicataire observera toutes les lois de douane et du revenu du Canada et des Etats-Unis d'Amérique.

6. *Heures des traversées.*—A partir du 1er de juin jusqu'au 30 de septembre de toute et chaque année, le bateau commencera ses traversées à 7 heures a.m., et continuera à traverser toutes les 30 minutes ensuite jusqu'à 9 heures p.m., d'après le *central standard time* (à l'exception des dimanches), sauf dans le cas d'accidents maritimes imprévus, de brume ou de circonstances inévitables, et depuis le 1er de novembre jusqu'à la fin de la navigation jusqu'à 8 heures p.m., *central standard time.*

7. *Tarif des péages.*—Le tarif des péages et prix de passage sur le dit bac ne sera jamais plus élevé que le suivant, savoir :—

	centins.
Pour les piétons, en chaque sens, adultes	10
" " enfants	5
Pour un cheval et son cavalier, en chaque sens	25
Pour un cheval, en chaque sens	25
Pour un cheval et voiture, et conducteur, en chaque sens	35
Pour chaque cheval et passager en sus	10
Pour chaque bête à cornes, en chaque sens	25
Pour chaque mouton ou cochon, en chaque sens	5
Pour chaque 100 livres de bagage ou autre article, en chaque sens	10

8. *Affichage du tarif.*—Une pancarte contenant le prix de passage et le tarif des péages sera affichée et maintenue en tout temps dans un endroit bien en vue sur ou près le quai ou l'embarcadère, ainsi que sur les bacs ou vapeurs faisant le service.

9. *Modification du tarif.*—Le Gouverneur en conseil aura le droit de changer et modifier le tarif et les prix ci-dessus établis, s'il le juge à propos dans l'intérêt du public ; et après que le tarif aura été ainsi modifié, l'adjudicataire ne pourra demander ou recevoir aucuns péages ou prix plus élevés que ceux prescrits par le tarif ainsi modifié, tant qu'il restera en existence.

10. *Négligence de remplir les conditions.*—Le Gouverneur en conseil aura toujours le droit, lorsqu'il lui sera prouvé que l'adjudicataire ne remplit pas les conditions ci-dessus ou celles stipulées dans son bail, de déclarer le bail résilié et nul, et alors ce dernier deviendra nul et non avenu à toutes fins et intentions, comme s'il n'eût jamais été consenti, sans indemnité pour l'adjudicataire.

11. *Observations des lois des Etats-Unis.*—L'adjudicataire ne devra en aucun temps pendant l'existence du bail, sciemment ou volontairement enfreindre aucune des lois ou aucun des statuts ou règlements des Etats-Unis d'Amérique, ou de l'Etat du Michigan, ou de la ville du Sault-Sainte-Marie, E.-U., au sujet du service du bac, qui peuvent s'appliquer au passage d'eau ou à quelque partie de ce passage qui peut se trouver sous la juridiction des Etats-Unis d'Amérique, soit de l'Etat du Michigan, ou de la ville du Sault-Sainte-Marie, E.-U., ni ne permettra ou ne souffrira que ses employés ou serviteurs les enfreignent.

12. *Disposition contre les indemnités.*—Pourvu toujours que si les Etats-Unis d'Amérique, ou l'Etat du Michigan, ou la ville du Sault-Sainte-Marie, E.-U., dans l'exercice de quelque pouvoir leur appartenant en aucun temps pendant la durée du bail, empêchaient ou entravaient le service du bac sur le passage d'eau, ou sur quelque partie de ce passage qui peut être sous leur juridiction, ou s'ils causaient à l'adjudicataire quelque perte, dépense, frais ou dommage à ce sujet, celui-ci n'aura droit à aucune indemnité ou compensation de la part du Canada.

13. *Commencement du service.*—Les bacs seront placés sur la route immédiatement à l'ouverture de la navigation du printemps de 1896.

14. *Durée du bail.*—Le bail sera accordé pour une période de dix (10) ans à compter du 1er de mai 1896. L'adjudicataire sera tenu de fournir deux cautions, approuvées par le Contrôleur du Revenu de l'intérieur, lesquelles seront obligées conjointement et individuellement avec le principal en la somme de cinq mille ($5,000) piastres, pour le fidèle accomplissement par l'adjudicataire des conditions du bail.

JOHN J. McGEE,
Greffier du Conseil privé.

45-4

[1430]

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 28e jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 97 des Statuts Revisés du Canada, intitulé "Acte concernant les passages d'eau," et l'acte 51 Victoria, chapitre 23, qui le modifie, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants pour la gouverne d'un passage d'eau sur la rivière Détroit, entre Windsor, Ontario, et Détroit dans l'Etat du Michigan, un des Etats-Unis d'Amérique, et désigné sous le nom de "Passage d'eau de la rue Ouelette."

RÈGLEMENTS.

1. *Limites.*—Les limites du passage d'eau s'étendront de la limite est à la limite ouest de la ville de Windsor, telle que produite jusqu'à la rivière Détroit, et un point dans la cité de Détroit, qui sera fixé par les autorités municipales de cet endroit.

2. *Débarcadères.*—Des quais et débarcadères seront en tous temps fournis et entretenus par l'adjudi-

cataire à quelque point dans la dite ville de Windsor, dans les dites limites, et devront pouvoir servir en tout état de la rivière, et seront assujétis à l'approbation du Ministère du Revenu de l'intérieur.

3. *Bateaux.*—Les bateaux seront solides et navigables, d'au moins 85 pieds de quille et 28 pieds de bau, et seront munis de gardes de façon à donner toute l'espace nécessaire pour les chevaux et voitures, et auront une vitesse d'au moins dix milles à l'heure.

4. Les machines auront une force d'au moins 100 chevaux-vapeur, à haute ou basse pression, et seront, de même que les bateaux généralement, soumis à l'inspection et approbation de l'inspecteur fédéral des bateaux à vapeur. Le bateau devra être muni d'appareils de sauvetage et parfaitement équipé et commandé par un homme capable et respectable ; et le contrôleur du Revenu de l'Intérieur se réserve le droit de refuser tout bateau qui pourra en aucun temps être placé sur cette voie pour faire le service, ou son capitaine, ou le quai ou débarcadère, s'il les jugeait impropres au service, ou dangereux, ou insuffisants pour répondre aux besoins du public.

5. L'adjudicataire ne transportera, ni ne permettra, ni ne tolèrera en aucun temps pendant la durée de son bail qu'il soit transporté sur le dit bac, aucun article ou effet de contrebande.

6. L'adjudicataire observera toutes les lois de douane et du revenu du Canada et des Etats-Unis d'Amérique.

7. Durant la période commençant le 1er de janvier et finissant le 31 de décembre, de toute et chaque année, le dit bac commencera à traverser à 6 heures du matin, vrai temps méridien de Windsor (sauf les dimanches), et continuera de traverser d'un côté à l'autre à des intervalles de quinze minutes successivement ensuite jusqu'à 7 heures du matin, et à des intervalles de dix minutes successivement ensuite jusqu'à 8 heures du soir, et à des intervalles de 20 minutes successivement ensuite jusqu'à 11.40 p.m.

Le dimanche le dit bac continuera à traverser d'un côté à l'autre commençant à 7 heures du matin à des intervalles de 15 minutes successivement ensuite jusqu'à 10 heures p.m., et à des intervalles de 20 minutes successivement ensuite jusqu'à 11.20 p.m., à moins que cette traversée ne soit pas rendue impossible par les dangers de la navigation.

8, Le tarif des péages et prix de passage sur le dit bac ne sera jamais plus élevé que le suivant, savoir :—

Piétons, chacun	$0.05
Promenade à cheval, matin, après-midi et soir.	0.10
Enfants au-dessous de 12 ans	Gratis.
Cheval, voiture et conducteur	$0.10
Voiture à deux chevaux et conducteur	0.20
Cheval et son cavalier ou domestique	0.10
Bétail, à pied, chacun	0.15
Moutons, cochons, ou veaux, à pied, chacun	0.05
Fret non transporté dans une voiture, pour chaque 100 livres, ou moins	0.03
Charges de foin, paille, meubles, ou effets encombrants ou lourds	0.50
Charges comme ci-dessus traînées par un cheval.	0.25
Piétons, 10 billets	0.25
Voiture à un cheval, conducteur et une autre personne, 10 billets	1.00
Voiture à deux chevaux, conducteur et une autre personne, 5 billets	1.00

9. Une pancarte contenant le prix de passage et le tarif des péages sera affichée et maintenue en tout temps dans un endroit bien en vue sur ou près le quai ou l'embarcadère, ainsi que sur les bacs ou vapeurs faisant le service.

10. Le Gouverneur en conseil aura le droit de changer et modifier le tarif et les prix ci-dessus établis, s'il le juge à propos dans l'intérêt du public ; et après que le tarif aura été ainsi modifié, l'adjudicataire ne pourra demander ou recevoir aucuns péages ou prix plus élevés que ceux prescrits par le tarif ainsi modifié, tant qu'il restera en existence.

11. Le Gouverneur en conseil aura toujours le droit, lorsqu'il lui sera prouvé que l'adjudicataire ne remplit pas les conditions ci-dessus ou celles stipulées dans son bail, de déclarer le bail résilié et nul, et alors ce dernier deviendra nul et non avenu à toutes fins et intentions, comme s'il n'eût jamais été consenti, sans indemnité pour l'adjudicataire.

12. L'adjudicataire ne devra en aucun temps pendant l'existence du bail, sciemment ou volontairement enfreindre aucune des lois ou aucun des statuts ou règlements des Etats-Unis d'Amérique, ou de l'Etat du Michigan, ou de la cité de Détroit, au sujet du service du bac, qui peuvent s'appliquer au passage d'eau ou à quelque partie de ce passage qui peut se trouver sous la juridiction des Etats-Unis d'Amérique, soit de l'Etat du Michigan, ou la cité de Détroit, ni ne permettra ou ne souffrira que ses employés ou serviteurs les enfreignent.

13. Pourvu toujours que si les Etats-Unis d'Amérique, ou l'Etat du Michigan, ou la cité de Détroit dans l'exercice de quelque pouvoir leur appartenant en aucun temps pendant la durée du bail, empêchaient ou entravaient le service du bac sur le passage d'eau, ou sur quelque partie de ce passage qui peut être sous leur juridiction, ou s'ils causaient à l'adjudicataire quelque perte, dépense, frais ou dommage à ce sujet, celui-ci n'aura droit à aucune indemnité ou compensation de la part du Canada.

14. Le bail sera accordé pour une période de dix (10) ans.

15. Le bail ne sera ni sous-loué ni cédé.

JOHN J. McGEE,
Greffier du Conseil privé.

[1457

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 28e jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Considérant que par l'arrêté en conseil du 15 de septembre 1888, chapitre 30 des Arrêtés en conseil refondus du Canada, et l'arrêté en conseil du 6e jour de juillet 1893, passé en vertu de l'article 54 de "l'Acte des Sauvages," des règlements ont été établis concernant la vente du bois sur les terres des Sauvages en Ontario et Québec, et dans la Colombie-Britannique, et par l'arrêté en conseil du 1er de janvier 1875, les règlements du gouvernement du Nouveau-Brunswick relatifs au bois sur les terres de la Couronne furent adoptés au sujet du bois sur les terres des Sauvages dans la dite province.

Et considérant qu'il est à propos que des règlements soient établis en vertu de l'article 54 de "l'Acte des Sauvages," pour la vente du bois sur les terres des Sauvages dans tout le Dominion, et que les règlements pour la vente du bois sur les terres des Sauvages en Ontario et Québec, tels qu'énoncés dans le dit chapitre 30 des Arrêtés en conseil refondus du Canada, et ses modifications, conviennent à toutes les parties du Dominion, à l'exception de la Colombie-Britannique pour laquelle des règlements sont établis par l'arrêté en conseil du 6 de juillet 1893.

Il plaît à Son Excellence, en vertu du dit article 54 de "l'Acte des Sauvages," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements concernant la vente du bois sur les terres des Sauvages en Ontario et Québec, établis par le dit arrêté en conseil du 15 de septembre 1888, chapitre 30 des Arrêtés en conseil refondus, et les modifications à iceux, soient rendus applicables, et ils sont par le présent déclarés applicables à toute la Puissance du Canada, à l'exception de la province de la Colombie-Britannique.

JOHN J. McGEE,
46-4 Greffier du Conseil privé.

[1128]

HOTEL DU GOUVERNEMENT A OTTAWA.

Vendredi, le 27e jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions de "l'Acte d'inspection générale," chapitre 99 des Statuts Revisés, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'arrêté en conseil du 25 de septembre 1895, concernant la réduction des honoraires pour l'inspection du grain, et les règlements établis pour la gouverne des inspecteurs dans la reddition de leurs comptes, soit et il est par le présent cancellé.

JOHN J. McGEE,
45-4 Greffier du Conseil privé.

Daté du bureau du Secrétaire d'Etat du Canada, ce 29e jour de mai 1896.

CHARLES TUPPER,
48-3 Secrétaire d'Etat.

AVIS est donné au public qu'en vertu de "l'Acte des compagnies," il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 20e jour de mai 1896, constituant en corporation Robert Bickerdike, commerçant, Guillaume N. Ducharme, banquier, Francis J. Freese, gérant, l'honorable Alexander Walker Ogilvie, sénateur, James G. Ross, comptable, William P. O'Brien, manufacturier, Patrick François Doody, gérant, tous de la cité de Montréal, dans la province de Québec, pour les fins suivantes :—

(*a.*) Manufacturer du gaz et construire des appareils à gaz et poser des tuyaux à gaz pour servir dans les cités, villes et villages du Canada ;

(*b.*) Acquérir, construire, exploiter et entretenir un système ou des systèmes pour fournir le gaz et l'outillage et les appareils nécessaires pour leur entretien et fonctionnement dans les cités, villes, villages, paroisses et ailleurs en Canada, et les vendre et en disposer à toute corporation ou personne ;

(*c.*) Acquérir tout système ou procédé pour accroître le pouvoir éclairant et calorique et effectuer une économie dans la consommation du gaz de houille dans les cités et grandes villes, et aussi pour manufacturer et fournir un nouveau gaz à air carburé pour servir dans les villes et villages, fabriques, maisons de campagne et autres endroits en Canada, pour la cuisine, la manufacture, l'éclairage et autres fins, et les exploiter et en disposer ;

(*d.*) Acquérir, vendre et disposer tous droits brevetés d'invention concernant les dites matières, et plus particulièrement acquérir, utiliser, et vendre tous droits et privilèges accordés en vertu de lettres patentes du Canada, numéro 44943, sous le titre de "Lawrence Gas Mixing and Atomizing Process" ;

(*e.*) Acheter ou acquérir et exploiter tout autre système ou systèmes de produire du gaz pour chauffage, éclairage, la cuisine, la manufacture ou autres fins, ainsi que l'outillage, les machines, les matériaux et tous accessoires nécessaires et s'y rattachant,—sous le nom de "The Economic Gas Company" (à resp. limitée), avec un capital-actions total de cent mille piastres divisé en dix mille actions de dix piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 29e jour de mai 1896.

CHARLES TUPPER,
48-3 Secrétaire d'Etat.

RECENSEMENT DU MANITOBA.

LE Ministre de l'Agriculture, ayant été autorisé par arrêté de Son Excellence le Gouverneur Général en conseil, en date du 13 de mai courant, de faire un recensement quinquennal du Manitoba, a prescrit qu'un recensement de la population de la province du Manitoba soit pris relativement au 25 de mai courant.

Les renseignements seront recueillis suivant la formule ci-dessous :—

Recensement du Manitoba, 1896.

Fait en vertu de l'Acte du recensement, chapitre 58 des Statuts Revisés du Canada, et conformément aux dispositions du chapitre 46, art. 5, par. *b*, S.R.C.

Instructions à l'énumérateur.

Chaque page (du livre de l'énumérateur) devra contenir les noms des personnes habitant la maison visitée par l'énumérateur.

Les visiteurs passagers ne seront pas comptés.

Les Sauvages ne seront pas comptés.

Les enfants nés après le jour du recensement, mais avant la visite de l'énumérateur ne seront pas comptés.

Les personnes qui décèderont après le jour fixé pour faire le recensement, mais avant la visite de l'énumérateur, seront comptées.

Les commissaires nommés sont :—

Alexander McMicken	Winnipeg.
William Cranston	Lisgar.
William Ferguson	Marquette.
Robert Adamson	Brandon.
Wright Garland	Macdonald.
Joseph Baril	Provencher.
Norman Matheson	Selkirk.

Par ordre du Ministre de l'Agriculture,

W. B. SCARTH,
47-2 Sous-Ministre de l'Agriculture.

SECRÉTARIAT D'ÉTAT.

AVIS public est donné par les présentes que le gouvernement de Sa Majesté le Roi de Suède et Norvège se propose d'envoyer, dans le cours de l'été prochain, une expédition en ballon au Pôle Nord, pour faire des explorations dans l'intérêt de la science. Ce ballon transportera trois savants Suédois, savoir : M. Auguste Salomon Andrée, âgé de 42 ans ; M. Nils Gustaf Ekholm, âgé de 48 ans et M. Nils Strinberg, âgé de 24 ans.

Il est entendu que l'expédition partira de Spitzberg au commencement de l'été. Le Ministre de Suède et Norvège à la Cour de St. James, au nom de son gouvernement, a prié le gouvernement de Sa Majesté la Reine de l'aider à faire connaître, dans les possessions britanniques adjacentes au Pôle, le fait qu'une telle expédition sera tentée ; et vu que le gouvernement de la Suède désire que ce projet soit porté à la connaissance des autorités canadiennes et du public canadien en général, par la voie de la presse, le Très Honorable Secrétaire d'Etat pour les Colonies a demandé au gouvernement de Son Excellence de faire tout en son pouvoir pour rencontrer à ce sujet les vues du gouvernement de Sa Majesté le Roi de Suède et Norvège.

En conséquence, tous les loyaux sujets de Sa Majesté résidant dans le Dominion sont par les présentes informés que l'expédition en question aura lieu, et sont priés, si l'occasion se présente, d'aider les explorateurs autant qu'il sera en leur pouvoir de le faire. Si le ballon était aperçu sans pouvoir communiquer avec les explorateurs, on demande que les particularités suivantes soient prises en notes et communiquées à un papier-nouvelles local ou à une institution scientifique, savoir : le jour, l'heure où le ballon aura été vu, la direction de sa course et la direction du vent.

Si les explorateurs victimes d'un accident arrivaient à un endroit après avoir perdu leur ballon, les habitants du lieu sont priés de leur porter secours par tous les moyens possibles.

Daté au bureau du Secrétariat d'Etat le 16 mai 1896.

JOSEPH POPE,
Sous-secrétaire d'Etat.

47-3

AVIS est donné au public qu'en vertu de "l'Acte des compagnies" il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 6e jour de mai 1896, constituant en corporation Robert Mitchell, manufacturier, Richard R. Mitchell, manufacturier, Norman Mitchell, étudiant, Ewing Smith, surintendant, et William Stanhouse, contremaître, tous des cité et district de Montréal, dans la province de Québec, pour les fins suivantes :—(*a.*) Acquérir, prendre à son nom et continuer dans toutes ses branches l'industrie aujourd'hui conduite par Robert Mitchell sous les nom et raison de Robert Mitchell et Cie ; (*b.*) Manufacturer, acheter, vendre, et faire le commerce de toutes sortes de métaux, y compris les ouvrages en cuivre de tous genres, poser des appareils à gaz et électriques, et des fils électriques, fondre le cuivre, travailler le cuivre rouge et le ferblanc, faire l'électro-placage, la plomberie et le posage des tuyaux à vapeur de toutes sortes, y compris la manufacture des compteurs à gaz, à eau et à électricité, et tout ouvrage s'y rattachant ; avec le droit aussi de passer des contrats pour la manufacture et la vente de tous ces matériaux et l'installation de tout ouvrage s'y rattachant,—sous le nom de "La Compagnie Robert Mitchell" (à resp. limitée), avec un capital-actions total de deux cent mille piastres, divisé en deux mille actions de cent piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 15e jour de mai 1896.

CHARLES TUPPER,
Secrétaire d'Etat.

46-3

AVIS est donné au public qu'en vertu de "l'Acte des compagnies" il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 6e jour de mai 1896, constituant en corporation Matthew Kennedy, fondeur, William Kennedy, ingénieur civil et hydraulique, Alexander Kennedy, fondeur, David John Kennedy, machiniste, Matthew Kennedy, jeune, machiniste, Isaac Markle Kennedy, machiniste, tous de la ville d'Owen Sound, dans la province d'Ontario, pour les fins suivantes, savoir :—

(*a.*) Faire le commerce général de fonderie, y compris la manufacture, l'achat et la vente de fontes d'acier, de cuivre, et autres fontes malléables et de fer et de toutes autres espèces et catégories de métaux ;

(*b.*) Manufacturer, acheter, vendre et disposer de toutes sortes de machineries ;

(*c.*) Obtenir, tenir et exploiter, et acheter ou louer des brevets d'invention et droits brevetés, dessins et marques de commerce applicables de quelque manière à l'industrie mentionnée aux clauses (*a*) (*b*) (*d*), et les vendre, louer et autrement en disposer ;

(*d.*) Manufacturer, fournir, acheter et vendre toutes sortes de patrons et de formes pour machines et inventions mécaniques ;

(*e.*) Faire les inspections, plans, descriptions et spécifications pour le développement des pouvoirs hydrauliques, et surveiller et s'engager dans les travaux de génie et hydrauliques qui seront nécessaires ou se rattacheront à l'industrie de la compagnie mentionnée aux clauses (*a*) (*b*) (*d*) ;

(*f*) Acquérir et tenir des parts dans le capital-actions de toute compagnie du même genre, comme prix des effets, articles ou marchandises vendus à telle semblable compagnie dans le cours ordinaire des affaires ;

(*g*) Acquérir des terrains, bâtiments, machines, outillage, fonds de commerce, et autre actif du commerce de William Kennedy et Fils, qu'ils conduisent aujourd'hui en la ville d'Owen Sound, dans la province d'Ontario, sous leur propre nom,—sous le nom de "The William Kennedy and Sons" (à resp. limitée), avec un capital-actions total de quatre-vingt-quinze mille piastres, divisé en neuf cent cinquante actions de cent piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 15e jour de mai 1896.

CHARLES TUPPER,
Secrétaire d'Etat.

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada*, voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre voulu d'insertions.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée.

Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministère de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurances—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

et de la Papeterie publiques,
Ottawa, novembre 1891.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill prive ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

RÈGLE SPÉCIALE DU SÉNAT.

Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a*.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b*.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage a 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

AVIS public est donné par le présent que la Compagnie de poudre de Hamilton s'adressera au parlement du Canada, à sa prochaine session, afin d'obtenir un acte spécial lui permettant—

1. De changer le siège d'affaires de la compagnie à Montréal ;
2. D'augmenter le capital-actions de la compagnie ;
3. D'augmenter le nombre de directeurs de la compagnie ;
4. D'augmenter le montant pour lequel la compagnie peut actuellement émettre des obligations et débentures.

ROBERTSON, FLEET ET FALCONER,
Procureurs des requérants.

Montréal, 26 mai 1896. 48–9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte modifiant les actes constitutifs de la Compagnie des Steamships de Québec (à resp. limitée), et conférant à la dite compagnie le pouvoir d'acheter, construire, équipper, conduire ou louer, ou acquérir un intérêt dans des hôtels et propriété d'hôtel, et pour d'autres fins.

CARON, PENTLAND ET STUART,
Solliciteurs de la requérante.

Québec, 15 mai 1896. 47–9

CHEMIN DE FER BAIE D'HUDSON ET PACIFIQUE.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire, exploiter et entretenir un chemin de fer mû par la vapeur et l'électricité partant de Port Churchill sur la Baie d'Hudson, traversant les territoires du Nord-Ouest et de Kéwatin jusqu'à Fond du Lac sur le lac Athabasca, et depuis Port Churchill susdit sur la Baie d'Hudson, traversant le territoire de Kéwatin au sud de la rivière Churchill et au nord de la rivière Nelson, jusqu'à un point à ou près de Sea Falls, sur la dite rivière ; de là, au nord du lac Winnipeg traversant le territoire de Saskatchewan jusqu'à Prince-Albert, dans le dit territoire ; de là, continuant sur le dit territoire et le territoire d'Alberta, en ligne droite jusqu'à Calgary, dans le dit territoire en dernier lieu mentionné, avec pouvoir de construire un embranchement depuis un point près du lac Manitou, dans le territoire de Saskatchewan, jusqu'à Edmonton, dans le territoire d'Alberta. Aussi, avec pouvoir de construire, acheter, noliser, entretenir et naviguer des vaisseaux à vapeur et autres pour faire le service entre Fort Churchill et d'autres contrées, porter et transporter des passagers et du fret, et faire un service général de transport en rapport avec le dit chemin de fer ; construire, exploiter, et entretenir les ponts, docks, quais, élévateurs, etc., qui seront nécessaires et avantageux pour les fins de la dite entreprise. Aussi, construire et exploiter des lignes de télégraphe et de téléphone tout le long du chemin de fer projeté et du dit embranchement, pour la transmission de messages pour le public ainsi que pour les fins du dit chemin de fer ; aussi, acquérir les pouvoirs hydrauliques qui seront jugés nécessaires pour la génération de l'électricité pour les fins du chemin de fer et du dit embranchement, et l'achat, construction et entretien de tout outillage électrique qui sera trouvé nécessaire en rapport avec le dit chemin de fer et son embranchement, ses ponts, élévateurs, quais et docks ; et avec tous autres pouvoirs et droits qui pourront être avantageux et nécessaires au succès de la dite entreprise, y compris tels pouvoirs et droits qui pourront être accordés et prescrits, avec le consentement du parlement du Canada, par le parlement de la Grande-Bretagne et l'Irlande.

JOSEPH NELSON.

Ottawa, 12 mai 1896. 46-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire un chemin de fer, mû par la vapeur ou par l'électricité, ou les deux, partant de la ville de Portage la Prairie, dans la province du Manitoba, et allant jusqu'à un gué de la rivière Saskatchewan, aux ou près des Grands Rapides ; de là, par la route la plus praticable, jusqu'à la navigation en eau profonde sur la Baie d'Hudson, avec un embranchement depuis un point à ou près de la frontière internationale entre les rangs onze et quinze, à l'ouest du premier médidien principal, dans la dite province du Manitoba, courant dans une direction nord ou nord-ouest jusqu'à son intersection avec la ligne mère ; aussi une ligne d'embranchement depuis un point sur la ligne mère près des Grands Rapides jusqu'à Edmonton *via* Prince-Albert et Battleford, dans les Territoires du Nord-Ouest ; avec pouvoir de construire et exploiter des lignes de télégraphe et de téléphone le long du dit chemin de fer et ses embranchements pour toutes fins que ce soit ; aussi acquérir, construire, acheter, noliser, posséder et naviguer des vaisseaux à vapeur et autres sur les lacs, rivières et autres eaux navigables, dans le but de faciliter le trafic en rapport avec le dit chemin de fer ; acquérir, construire, acheter et posséder des élévateurs, entrepôts, quais, docks et chantiers en rapport avec le dit chemin fer ; avec tous les pouvoirs et privilèges nécessaires ou ordinaires donnés ou conférés aux compagnies constituées pour aucune des fins susdites.

GEO. ELDON KIDD,
Solliciteur des requérants.

Ottawa, 14 mai 1896. 46-9

COMPAGNIE DE CANAL ET NAVIGATION DE LA BAIE D'HUDSON.

AVIS est donné par le présent que demande sera faite au parlement du Canada, à sa prochaine session, à l'effet de passer un acte constituant une compagnie pour construire un canal depuis un point sur le bras est de la rivière Nelson jusqu'à la Baie d'Hudson ; et d'améliorer la navigation des rivières et cours d'eau se déversant dans le lac Winnipeg de façon à établir une navigation continue, et de prélever des péages ; et de construire, équiper et utiliser des barges et autres vaisseaux, et des tramways pour le transport du fret et des passagers ; et de construire et exploiter des élévateurs, moulins, quais, docks et entrepôts, et des lignes de télégraphe et de téléphone, des outillages hydrauliques et électriques, et fournir la force motrice s'y rattachant, et pour d'autres usages, et généralement avoir et exercer tels pouvoirs qui sont conférés aux corporations de chemins de fer par "l'Acte des chemins de fer," et qui seront applicables à la navigation des canaux et eaux intérieures.

N. F. HAGEL,
Solliciteurs des requérants.

Winnipeg, 2 mai 1896. 44-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, par la Compagnie de chemin de fer et de canal du Lac Manitoba, afin d'obtenir un acte confirmant certains arrangements avec le Gouvernement du Manitoba et la Compagnie de chemin de fer Manitoba et Nord-Ouest, et aussi pour confirmer certains transferts de sa subvention du gouvernement, et pour confirmer certaines hypothèques créées par la compagnie et l'émission de ses obligations, et pour autoriser la compagnie à émettre des octrois de terres et des obligations portant deuxièmes hypothèques et des actions privilégiées, et pour d'autres fins.

KINGSMILL, SAUNDERS ET TORRANCE,
Solliciteurs de la compagnie.

Toronto, 21 mai 1896. 47-9

AVIS DIVERS.

COMPAGNIE DU CHEMIN DE FER DE CEINTURE DE L'ILE DE MONTRÉAL.

AVIS est par les présentes donné qu'une assemblée spéciale des actionnaires de la Compagnie du chemin de fer de ceinture de l'Ile de Montréal sera tenue au bureau de la compagnie, No. 1608 rue Notre-Dame, dans la ville de Montréal, le 29e jour de juin prochain, 1896, à trois heures de l'après-midi, pour l'élection des directeurs et pour transiger les autres affaires tant générales que spéciales qui peuvent être soumises à l'assemblée.

J. P. MULLARKEY,
Secrétaire *pro tem.*

Montréal, 27 mai 1896. 48-4

AVIS public est donné par le présent qu'une assemblée des actionnaires de la Compagnie de chemin de fer Montréal à la Ligne Provinciale aura lieu au bureau, numéro 136 rue Saint-Jacques, en la cité de Montréal, à midi, le vingt-cinquième jour de juin prochain, dans le but—

Premièrement—De répartir le capital social tel que prescrit par la charte,

Deuxièmement—Prendre à sa charge la propriété de la ligne de chemin de fer ci-devant appelée Compagnie de chemin de fer Montréal, Portland et Boston ; et

Généralement, organiser la dite compagnie, élire ses officiers et transiger telles autres affaires qui seront nécessaires.

Par ordre du conseil de directeurs provisoires.

47-4

AVIS.—Une assemblée spéciale des actionnaires de la Compagnie de chemin de fer Saint-Laurent et Adirondack aura lieu au bureau de la compagnie, à Montréal le 13e jour de juin 1896, à 10.30 a.m., dans le but d'étudier une proposition de retirer et canceller les présentes obligations portant premières hypothèques en circulation, et d'émettre en leur lieu et place de nouvelles obligations 5 pour cent en or jusqu'au montant de $800,000, garanties par une première hypothèque ; et d'étudier une autre proposition d'émettre des obligations 6 pour cent en or de la compagnie jusqu'à un montant n'excédant pas $400,000, garanties par une deuxième hypothèque ; et prendre en considération telles autres affaires de la compétence de la dite assemblée.

FRANK G. SMITH,
Secrétaire.

Montréal, 9 mai 1896. 46-5

CHEMIN DE FER MANITOBA ET NORD-OUEST.

AVIS est donné par le présent qu'une assemblée spéciale des actionnaires de la Compagnie de chemin de fer Manitoba et Nord-Ouest du Canada aura lieu au bureau de messieurs H. et A. Allan, Montréal, mercredi, le vingt-quatrième jour de juin A.D. 1896, à onze heures a.m., dans le but d'examiner, et si elle est approuvée, de sanctionner l'exécution d'un arrangement à l'effet d'affermer à la Compagnie de chemin de fer et du canal du Lac Manitoba, l'usage des lisses ou droit de parcours sur les lisses de la Compagnie de chemin de fer Manitoba et Nord-Ouest entre un point à ou près de la ville de Gladstone, dans la province du Manitoba, et la ville de Portage-la-Prairie, dans la province du Manitoba, ainsi que le droit conjoint avec la Compagnie de chemin de fer Manitoba et Nord-Ouest de se servir des propriété et facilités de tête de ligne à la ville au Portage-la-Prairie, et pourvoyant de plus à la division des recettes des deux compagnies sur et en rapport avec la dite partie des lisses de la Compagnie de chemin de fer Manitoba et Nord-Ouest.

Par ordre du conseil de direction,

E. W. RILEY,
Secrétaire.

DOMINION OF CANADA.

APPOINTMENTS.

DEPARTMENT OF THE SECRETARY OF STATE OF CANADA.

HIS EXCELLENCY THE GOVERNOR GENERAL has been pleased to make the following appointment, viz. :—

OTTAWA, 1st May, 1896.

ARTHUR BOYLE, of the Village of Dunnville, in the Province of Ontario, Esquire: to be a Collector in Her Majesty's Customs, *vice* Peter Flynn, Esquire, deceased.

PROCLAMATIONS.

ABERDEEN.
[L.S.]

CANADA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To Our Beloved and Faithful the Senators of the Dominion of Canada, and the Members elected to serve in the House of Commons of Our said Dominion, and to all whom it may concern—GREETING:

WHEREAS We have thought fit, by and with the advice and consent of Our Privy Council for Canada, to DISSOLVE the present Parliament of Canada, which stands prorogued to the SECOND day of JUNE next;

Now KNOW YE, that We do for that end publish this Our Royal Proclamation, and do hereby DISSOLVE the said Parliament of Canada accordingly; and the Senators and the Members of the House of Commons are discharged from their meeting and attendance on the said SECOND day of JUNE next.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed. WITNESS, Our Right Trusty and Right Well-Beloved Cousin and Councillor the Right Honourable Sir JOHN CAMPBELL HAMILTON-GORDON, Earl of Aberdeen; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia, Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George, etc., etc., Governor General of Canada.

At Our Government House, in Our City of OTTAWA, this TWENTY-FOURTH day of APRIL, in the year of Our Lord one thousand eight hundred and ninety-six, and in the Fifty-ninth year of Our Reign.

By Command,

SAML. E. ST. O. CHAPLEAU,
Clerk of the Crown in Chancery,
Canada.

CANADA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To all to whom these presents shall come.—GREETING:

WHEREAS We are desirous and resolved, as soon as may be, to meet Our People of Our Dominion of Canada, and to have their advice in Parliament; We do make known Our Royal Will and Pleasure to call a Parliament, and to further declare that by the advice of Our Privy Council for Canada, We have, this day, given Orders for issuing Our Writs in due form, for calling a Parliament in Our said Dominion, which Writs are to bear date on the TWENTY-FOURTH day of APRIL instant, to be returnable on the THIRTEENTH day of JULY next.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed. WITNESS, Our Right Trusty and Right Well-beloved Cousin and Councillor the Right Honourable Sir JOHN CAMPBELL HAMILTON-GORDON, Earl of Aberdeen; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia, Knight Grand Cross of Our Most Distinguished Order of St. Michael and St. George, etc., etc., Governor General of Canada.

At Our Government House, in Our City of OTTAWA, this TWENTY-FOURTH day of APRIL, in the year of Our Lord one thousand eight hundred and ninety-six, and in the Fifty-ninth year of Our Reign.

By Command,

CANADA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To Our Beloved and Faithful the Senators of the Dominion of Canada, and the Members elected to serve in the House of Commons of Our said Dominion, and to each and every of you,—GREETING:

KNOW YE, that We, being desirous and resolved, as soon as may be, to meet Our People of Our Dominion of Canada, and to have their advice in Parliament, do hereby, by and with the advice of Our Privy Council for Canada, summon and call together the House of Commons in and for Our said Dominion, to meet at Our City of Ottawa in Our said Dominion, on THURSDAY, the SIXTEENTH day of JULY next, commanding, and by the tenor of these presents, enjoining you, and each of you, and all others in this behalf interested, that on THURSDAY, the SIXTEENTH day of the month of JULY next, at Our City of OTTAWA aforesaid, personally you be and appear, for the DESPATCH OF BUSINESS, to treat, do, act and conclude upon those things which in Our said Parliament of Canada, by the Common Council of Our said Dominion, may, by the favour of God, be ordained.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed. WITNESS, Our Right Trusty and Right Well-beloved Cousin and Councillor the Right Honourable Sir JOHN CAMPBELL HAMILTON-GORDON, Earl of Aberdeen; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia; Knight Grand Cross of Our Most Distinguished Order of St. Michael and St. George, etc., etc., Governor General of Canada.

At Our Government House, in Our City of OTTAWA, this TWENTY-FOURTH day of APRIL, in the year of Our Lord one thousand eight hundred and ninety-six, and in the Fifty-ninth year of Our Reign.

By Command,

SAML. E. ST. O. CHAPLEAU,
Clerk of the Crown in Chancery,
Canada.

*Nominated by His Royal Highness the President.

United Kingdom and Colonial and Indian Sections.

INTERNATIONAL EXHIBITION OF MOTORS AND CONGRESS OF MOTOR INDUSTRIES.

ORGANISED BY THE MOTOR CAR CLUB SYNDICATE (LIMITED), UNDER THE DIRECTION OF THE MOTOR CAR CLUB.

International Exhibition of motors and their applications (horseless carriages and cars, self-propelled and other vehicles and cycles, stationary motors, appliances and inventions), 1896.

The Motor Car Club Administrative Committee:—H. J. Lawson, Esq., Chairman; M. D. Rucker, Esq.; H. A. Mace, Esq.; Frederick R. Simms, Esq.; Bertram B. Van Praach, Esq.; C. Harrington Moore, Esq., Hon. Secretary.

AN International Exhibition of Motors and their applications (horseless carriages and cars, self-propelled, and other vehicles and cycles, stationary motors, appliances and inventions, and Congress of Motor Industries of 1896), will be held at the Imperial

Institute during the months of May, June, July and August next, in the North Gallery and South-East Quadrangle. Daily practical demonstrations will take place in the Gardens and in the South-West Quadrangle. The Exhibition will be opened on 9th May, 1896.

Advantage will be taken of this special opportunity, to enable British, Colonial and Foreign Manufacturers and Patentees of motor carriages, vehicles, cycles, and motors whether propelled by oil, steam, electricity, compressed air, or otherwise, to display their productions and inventions for the inspection of the general public, with a view of giving, by means of examples and the daily practical demonstration of steering power and speed tests, an interesting illustration more especially of the capabilities of the new motor car industry.

The special aim of the Exhibition will be the display of the recent developments in self-propelled traffic. The Exhibition will include examples which may be received from the United Kingdom, the Colonies, and India, or from Foreign Countries.

The gentlemen whose names are given in the first page of this Prospectus have consented to serve and have been appointed an Administrative Committee by the Motor Car Club in connection with the Exhibition.

One gold and three silver medals, and diplomas, will be awarded by competent Jurors or Experts to such exhibitors in each department or section as may be deemed entitled thereto. The Jurors or Experts will be empowered to award medals, in addition to the diplomas, should they deem the exhibit of sufficient merit.

Special attention is directed to the fact that where medals are offered as prizes and are awarded by the Jurors or Experts, they will be presented to the exhibitor without any payment.

The Judging will take place as soon as possible after the opening of the Exhibition, so that successful exhibitors may receive the full benefit of their awards.

Suitable buildings (see accompanying plans) will be provided in the grounds of the Imperial Institute for the purposes of this Exhibition. The cost of these buildings, including the provision of lighting, general control, and care for the four months named would be equivalent to an outlay of 5*s.* per square foot.

The Exhibition will be open to the public during the months named, in conjunction with the Collections of Colonial and Indian National Products of the Imperial Institute, and the superb collection, made by H.R.H. The Duc d'Orleans, of specimens of natural history, dresses, arms, and fabrics, principally from various dependencies of the British Crown. The public will be admitted to the Institute galleries and grounds and the Exhibitions, on Mondays, Tuesdays, Thursdays, Fridays, and Saturdays, from mid-day to 11 p.m., at one shilling each person ; on Wednesdays the buildings and grounds will be reserved for Fellows of the Institute, and for friends specially introduced by them in accordance with the regulations, from mid-day to 11.30 p.m.

During the season, the famous Monte Carlo Orchestra, in its full strength, will play (by special arrangement with the authorities of the Casino at Monte Carlo) daily in the Institute and Grounds, under the personal direction of Mons. Léon Jébin, Chief Director of the Orchestra.

H.R.H. The Prince of Wales has consented to visit and inspect the Exhibition after the opening.

Scope.—The Exhibition is intended to include the display of appliances and inventions under the following sections :—

Section 1.—Motor pleasure carriages propelled by—

1. Steam.
2. Oil.
3. Electricity.
4. Compressed air.
5. Springs.

Section 2.—Self-propelled vehicles employed on roads for trade purposes and for transport of goods. The motive power being any of the means above indicated.

Section 3.—Self-propelled ploughs and other Agricultural Implements.

Section 4.—Self-propelled cycles, the motive power being any of the means above indicated.

Section 5.—Wheels, tyres, axles, springs, seats, cushions, and the various parts used in the construction of the above three classes or of the machinery connected therewith.

Section 6.—Apparatus for aerial navigation, through the agency of motors.

Section 7.—Examples of carriages and vehicles not self-propelled.

Section 8.—Cycles, not self-propelled, which embody some novel principle of construction.

Section 9.—Road maps, hotel and railway guides, and books of views for the use of tourists.

Section 10.—Knapsacks, portmanteaus, cooking appliances, tents, picnic baskets, and other tourists conveniences.

Section 11.—Launches, yachts, and boats propelled by—

1. Steam.
2. Oil.
3. Electricity.
4. Compressed air.

Section 12.—Lamps and approach signals as applied to carriages and other road vehicles, and to launches, yachts, and boats.

Section 13.—Watches, clocks, compasses, pedometers, and other travellers' requisites.

Section 14.—Stationary engines, dynamos, and motors.

Section 15.—Models of inventions, working and otherwise, in connection with the foregoing.

Exhibition Space.—The floor area of the special buildings will be allotted at a charge of 5*s.* per square foot. The wall at the sides and ends of the buildings provide for exhibiting space of 9 ft. above the floor. This wall area will also be allotted at a charge of 5*s.* per square foot.

Liability of Exhibitors.—Exhibitors will incur no liability for expenses in connection with the general administration of the Exhibition, beyond the agreed charges for space.

Latest date for reception of exhibits.—All Exhibits, cases, fittings, &c., must arrive at the Imperial Institute not later than noon on Monday, 27th April. They may be sent in from Monday, the 29th April. The exhibits, whether in cases or uncovered, must be installed and arranged, not later than noon on Monday, 8th May.

They should bear the distinctive mark and should be addressed—

IMPERIAL INSTITUTE,
(Prince Consort Road entrance)
LONDON, S.W.

GENERAL REGULATIONS.

Right to reject exhibits.

1. The Motor Car Club Syndicate, Limited, (hereafter called the Syndicate) reserves the right of refusing to admit to the Institute premises any cases, fittings, or exhibits arriving after noon on 27th of April ; and to remove from the Exhibition Gallery, at the cost of the exhibitor, any exhibits, cases, or fittings, the arrangement of which may not be completed to the satisfaction of the Administrative Committee by noon on the 8th of May. In such cases the syndicate reserves the right to dispose of the available space at their absolute discretion.

Acceptance of regulations by exhibitors.

2. The acceptance by a manufacturer (firms, companies, or individuals) of the invitation to exhibit, and the allotment of space to him, will be taken as consent on his part to allow all his exhibits, cases and fittings to remain undisturbed in the Exhibition Galleries until the close of the exhibition (approximately some time towards the end of August), and further, as an agreement to abide by the regulation here set out.

Not responsible for loss.

3. The Executive Council of the Institute and the Syndicate, while undertaking to supply adequate general control, watching and care, accept no responsibility or liability as regards the exhibits in respect of damage

or loss by fire, accidents, or otherwise; and exhibitors must effect their own assurances against loss or damage by fire.

Soliciting orders.

4. Exhibitors will be required to keep their stands and exhibits properly cleaned and in good order, and displayed for exhibition, during the whole period of the exhibition when open to the public.

No sales of exhibits will be allowed in the Exhibition building, but exhibitors will be permitted to have their own attendants, to take orders for articles, and to distribute their circulars or trade cards, but so that orders shall not be solicited to the annoyance of the public, and subject to copies of the circulars being previously deposited for the approval of the Administrative Committee. Notices, handbills, and circulars of every description will be subject to the approval of the Administrative Committee.

Erection of stands.

5. Screens, cases, or other erection must not exceed eight feet in height except special permission is accorded for increasing this altitude.

Cases must be unpacked as fast as possible, and the empty cases taken away by the exhibitors or their agents. The syndicate decline to accept any responsibility with reference to empty cases and litter, which must be at once removed from the building at the expense of exhibitors.

The passage-ways indicated on the plans must be preserved throughout the buildings.

No exhibitor will be allowed to transfer any allotment or portion thereof, or to allow any other than his own duly admitted exhibits to be placed thereon, except by permission of the Administrative Committee, and all such exhibits must be in the name of the person whose name appears on the application form.

Right of photographing.

6. No articles exhibited may be photographed, drawn, copied, or reproduced in any manner whatsoever without the special sanction of the exhibitor and of the Administrative Committee.

Catalogues.

7. The Syndicate reserve to themselves the sole right of compiling a Catalogue of the exhibits.

Passes to exhibitors.

8. Passes to the Exhibition will be granted to exhibitors and to a reasonable number of attendants. If these passes are used by any but those to whom they are issued, they will be immediately cancelled.

Applications for space.

9. Applications must be sent in on the form enclosed not later than 31st March. This form should indicate the actual minimum space which the exhibitor would accept, and also the maximum space he would desire to have allotted, in the event of the Syndicate being able to meet his application in full.

A cheque, equivalent to the charge for the floor or wall area (respectively at the rate of 5s. per square foot), must accompany each application, and be made payable to C. Harrington Moore, Esq., Secretary, The Motor Car Club Syndicate (Limited). The Syndicate reserve absolute right to forfeit any sum paid for space, in the event of any applicant failing to exhibit in accordance with his application and these regulations.

Allotment of space.

10. If no allotment is made, the amount of the cheque will be returned in full.

If only the minimum space desired should be allotted, then the difference in value of the cheque between the minimum and the maximum space applied for will also be returned.

Power is reserved to refuse all applications, in which case the whole of the amounts transmitted on account of the required space will be returned in full.

The Syndicate reserve the right, in the event of the space applied for considerably exceeding the accommodation available, or for other causes, to allot space only to certain of the applicants.

Damage by exhibitors.

11. Each exhibitor respectively shall at all times indemnify the Syndicate, their contractors and others, from and against all liability, loss, or damage whatsoever, caused by or through the acts, negligence, or misconduct of himself, or any person or persons employed by or for him, or acting under his directions. Each exhibitor respectively shall also at all times reimburse and indemnify the Syndicate, their contractors and others, against any action, suit, claim, costs, charges or expenses for or in respect of any damage or injury caused or occasioned, or alleged to have been caused or occasioned, during the Exhibition by any exhibit, machine, conveyance, ladder, tool, or other appliance belonging to or used by him or on his behalf, or by any person or persons employed by or for him, and shall in all respects conform to the requirements of the said Syndicate in dealing with such or any claims.

Duration of Exhibition.

12. The Exhibition will extend from 9th May to 8th August, and will be open between the hours of mid-day and 11 p.m., or such other days and hours as the Executive Council of the Institute may at any time or for special days determine.

Exhibits subject to a lien for charges.

13. All exhibits shall be subject to a lien for any amount which may be due to the Syndicate.

14. All questions or disputes, either with reference to these regulations or otherwise, shall be decided by the Administrative Committee.

(Copy.)

Patents, Designs, and Trade Marks Act, 1883.

Section 39.—The exhibition of an invention at an industrial or international exhibition, certified as such by the Board of Trade, or the publication of any description of the invention during the period of the holding of the exhibition, or the use of the invention for the purpose of the exhibition in the place where the exhibition is held, or the use of the invention during the period of the holding of the exhibition by any person elsewhere, without the privity or consent of the inventor, shall not prejudice the right of the inventor or his legal personal representative to apply for and obtain provisional protection and a patent in respect of the invention or the validity of any patent granted on the application, provided that both the following conditions are complied with, viz. :—

(*a*.) The exhibitor must, before exhibiting the invention, give the Comptroller the prescribed notice of his intention to do so, and

(*b*.) The application for a patent must be made before or within six months from the date of the opening of the exhibition.

Section 57.—The exhibition at an industrial or international exhibition, certified as such by the Board of Trade, or the exhibition elsewhere during the period of the holding of the exhibition, without the privity or consent of the proprietor of a design, or of any article to which a design is applied, or the publication, during the holding of any such exhibition, of a description of a design shall not prevent the design from being registered, or invalidate the registration thereof, provided that both the following conditions are complied with, viz. :—

(*a.*) The exhibitor must, before exhibiting the design or article, or publishing a description of the design, give the Comptroller the prescribed notice of his intention to do so ; and

(*b.*) The application for registration must be made before or within six months from the date of the opening of the exhibition. 48–2

Downing Street,
Canada. 16th December, 1895.
No. 326.

Sir,—I have the honour to transmit to you a copy of the document noted in the subjoined schedule, received from the Foreign Office, respecting sanitary regulations as to vessels arriving at Italian Ports.

I have the the honour to be, sir,
Your most obedient humble servant,
R. H. MEADE,
For the Secretary of State.

The Officer administering
the Government of Canada.

Date.	Description of Document.
1895. 23rd November..	Translation of an Italian Ordinance.

Translation of a decree of the Italian Ministry of the Interior relating to Maritime Sanitary precautions.

No. 9.

Considering the convenience, generally speaking, of exempting ships on arrival at Italian ports, under ordinary circumstances, from presenting their Bill of Health (patente di sanita) when the sanitary information is marked on the ship's papers (carte di bordo) ; and in virtue of the power conferred by the Maritime Sanitary Regulations of determining (in concert with the Minister of Marine) what measures are to be taken in such matters ; the Minister of the Interior hereby decrees :—

That every vessel arriving at Italian ports from the other European ports, with the exception of Turkish ports, are exempted from the presentation of the Bill of Health (*patente di sanita*) ; and this exemption applies equally to ships from the Atlantic ports of North America and Canada ; but, in any case, ships arriving from ports which have been either declared infected by the local authorities, or have been proclaimed as such by the Italian Ministry of the Interior, are not included, and will have to be furnished with bills of health.

And every ship included in the terms of the present Decree shall have marked on its list of the crew, or on its certificate, information respecting the sanitary conditions of the place of departure, the hygienic conditions of the ship itself and of its cargo, and the state of health of the crew and of the passengers both at the moment of starting and at each port touched at.

The Prefects of the Maritime Provinces and the Harbour authorities are charged with the execution of the present Decree.

Dated Rome, 23rd November, 1895.

(Signed) CRISPI,
Minister of the Interior.

ORDERS IN COUNCIL.

[78]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 7th day of January, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, in virtue of the provisions of The Weights and Measures Act, chapter 104 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Order in Council of the 2nd December, 1895, amending section 19 of the Regulations respecting Weights and Measures, established by the Order in Council of the 9th January, 1889, being chapter 42 of the Consolidated Orders in Council of Canada, shall be and the same is hereby cancelled inasmuch as an error of one point of decimal was made therein in the grain weights, and that the following corrected regulations be and the same are hereby established in lieu thereof :—

The form of all measures of capacity must be cylindrical or conical : when of the latter form, they shall not be verified unless they are capable of containing, when filled to the narrowest parts of the neck, the respective weights of distilled water as set forth below :—

For every gallon	10 lbs. av.
For every ½ gallon	5 lbs. av.
For every quart	2½ lbs. av.
For every ½ pint	4375 grains troy.
For every gill	2187 grains troy.
For every ½ gill	1093 grains troy.

to be weighed in air against brass weights at a temperature of 62° F., and with the barometer at 30°.

JOHN J. McGEE,
Clerk of the Privy Council.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the powers conferred upon him by The Dominion Lands Act, chapter 54 of the Revised Statutes of Canada, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Villa lots Nos. 37 and 38, at Revelstoke, British Columbia, which are shown coloured pink on the annexed plan, be, and the same are hereby reserved and set apart for cemetery purposes: And inasmuch as Revelstoke is an unincorporated community, the said lands shall be vested in Noble Coursier, merchant; John Abramson, hotel-keeper, and H. J. Bourne, hotel-keeper, as trustees therefor.

JOHN J. McGEE,
Clerk of the Privy Council.

48-4

[1457]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 28th day of April, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS by the Order in Council of the 15th day of September, 1888, chapter 30 of the Consolidated Orders in Council of Canada, and the Order in Council of the 6th day of July, 1893, passed under the authority of section 54 of The Indian Act, regulations have been made respecting the sale of timber on Indian lands in Ontario and Quebec, and in British Columbia, and by the Order in Council of the 1st January, 1875, the regulations of the Government of New Brunswick in reference to timber on Crown lands were adopted in respect to timber on Indian lands in that province.

And whereas it is desirable that there should be Regulations under section 54 of The Indian Act for the disposal of timber on Indian lands in the whole Dominion, and the Regulations for the sale of timber on Indian lands in Ontario and Quebec, as set forth in the said chapter 30 of the Consolidated Orders in Council, and amendments thereto, are suitable to all parts of the Dominion with the exception of British Columbia for which regulations are established by the Order in Council of the 6th July, 1893:—

His Excellency, in virtue of the said section 54 of The Indian Act, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the regulations for the sale of timber on Indian lands in Ontario and Quebec, established by the said Order in Council of the 15th September, 1888, chapter 30 of the Consolidated Orders in Council, and amendments thereof, shall be made applicable, and the same are hereby declared to be applicable to the whole of the Dominion of Canada, with the exception of the Province of British Columbia.

JOHN J. McGEE,
Clerk of the Privy Council.

46-4

[1769]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 16th day of May, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Order in Council of the 12th day of July, 1895, providing that subject to regulations and restrictions contained in the Order in Council of the 6th June, 1892, respecting ships stores, tobacco might, until the end of the next ensuing session of Parliament, be ex-warehoused free of excise duty, for use on steamers and vessels engaged in sealing on the high seas and on steamers and vessels clearing from a Canadian for a foreign sea-port,—shall be and the same is hereby amended by extending the provisions thereof until the end of the next Session of Parliament.

JOHN J. McGEE,
Clerk of the Privy Council.

48–4

[1690]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 15th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of Section 17 of the Consolidated Revenue and Audit Act, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Inland Revenue Division of Saint John's, P.Q., which comprises the following counties, viz. :—Brome, Iberville, Missisquoi, Napierville, Shefford and Saint John's, shall be and the same is hereby attached to the Inland Revenue Division of Sherbrooke, to be known and designated as the Inland Revenue Division of Sherbrooke.

JOHN J. McGEE,
Clerk of the Privy Council.

JOHN J. McGEE,
Clerk of the Privy Council.

G. O. 38.

REGULATIONS AND ORDERS.

RANK OF MEDICAL AND VETERINARY OFFICERS.

1. The rank of these Officers is Substantive or Honorary.

2. Relative Rank has been abolished.

3. Medical Officers heretofore ranking as Surgeons will rank as Substantive Surgeons-Major. Those heretofore ranking as Assistant-Surgeons will rank as Substantive Surgeon-Lieutenants.

4. Medical Officers who have been granted a step of rank, without pay, under the provisions of paragraph 91, Regulations and Orders for the Militia, 1887, or have been assigned Relative Rank under the provisions of paragraph 95, of those Regulations will hold Honorary Rank as follows :—

Former Rank without pay, or Relative Rank.	Honorary Rank.
Surgeon-Major..............	Surgeon-Lieutenant-Colonel.
Surgeon....................	Surgeon-Major.
Assistant Surgeon after five years service	Surgeon-Captain.

5. Veterinary Officers heretofore ranking as Veterinary-Surgeons will rank as Substantive Veterinary-Lieutenants. Those Veterinary-Surgeons heretofore assigned the Relative Rank of Captain under the provisions of paragraph 95, Regulations and Orders for the Militia, 1887, will hold the Honorary rank of Veterinary-Captain.

G. O. 39.

BREVET RANK.

Paragraphs 89, 90 and 91, Regulations and Orders for the Militia, 1887 are cancelled and the following substituted in lieu thereof :—

89. Promotion for distinguished service in the Field, or for useful service to the Country, will be specially provided for by the Governor in Council.

90. Duly qualified Officers recommended to Head-Quarters by Commanding Officers of Units, through Officers Commanding Districts, will be granted brevet rank as follows :—

Service Qualification.	Brevet Rank.
After 10 years as Major Commanding Field Battery of Artillery	Lieutenant-Colonel.
After 15 years as Major or Brevet Major of Cavalry, Garrison Artillery, Engineers and Infantry—10 years holding substantive rank of Major....................	Lieutenant-Colonel.
After 10 years with substantive rank of Captain in a Unit of the Active Militia.	Major.
After 7 years continuous service as a substantive Captain in a Unit of the Active Militia, and in possession of Diploma of Graduation from the Royal Military College of Canada..............	Major.
After 5 years continuous service as a Lieutenant in a Unit of the Active Militia, and in possession of Diploma of Graduation from the Royal Military College of Canada......................	Captain.

G. O. 40.

HONORARY RANK.

Paragraphs 94 and 95, Regulations and Orders for the Militia, 1887, are cancelled and the following substituted in lieu thereof :—

94. Officers recommended to Head-Quarters by Commanding Officers of Units, through Officers Commanding Districts, will be granted Honorary Rank as follows :—

Service Qualification.	Substantive Rank.	Honorary Rank.
On appointment. . ..	Paymaster ; Quartermaster.........	Captain.
On appointment	Riding-master	Lieutenant.
After 5 years Commissioned Service .	Surgeon-Lieutenant ; Veterinary Lieutenant ; Riding-master............	A step of rank.
After 10 years Commissioned Service .	Paymaster ; Quartermaster.	Major.
After 15 years Commissioned Service .	Surgeon-Lieutenant ; Veterinary Lieutenant............	Surgeon-Major ; Veterinary-Major.
After 20 years service with present substantive rank......	Surgeon-Major.....	Surgeon Lieutenant-Colonel.

95. The rank will be purely honorary and will not confer the right of any command other than that to which the holder may be entitled by virtue of his substantive commission.

(1.) The service qualification under which Officers are recommended for Honorary rank must be continuous.

(2.) Ante-dates will not be granted in the case of Honorary rank.

—

G. O. 41.

APPOINTMENT OF REGIMENTAL PAYMASTERS.

(1) His Excellency the Governor General in Council was, on the 28th April, 1896, pleased to order that the list of regimental establishments of the Active Militia for the current fiscal year, be amended by the addition of the following rider ;—

"Paymasters may be appointed to units when requisite, by being gazetted in General Orders in the usual way."

(2) General Order 33 of 1892 is cancelled. (A. G. O. 60556. M. & D. 14688.)

—

G. O. 42.

CAVALRY DRILL.

Revised Edition.

The Cavalry Drill, 1896, in two volumes, promulgated to the Imperial Service by Army Order 81 of 1896, has been approved for use in the Canadian Militia and will supersede the Cavalry Drill, 1885.

Copies will be issued to all concerned.

—

G. O. 43.

ROYAL MILITARY COLLEGE OF CANADA.

Dress of Graduates.

Gentlemen Cadets graduating from the Royal Military College of Canada will be allowed, on appointment to a Corps of Active Militia, three years in which to provide themselves with the uniform of the Corps to which they have been appointed. During this period they will be permitted to wear the uniform of the Royal Military College with the following alteration :—

Shoulder straps of blue cloth edged with a single line of Russia tracing case, and small button of the College pattern. Badges of rank in gold.

—

G. O. 44.

INSPECTORS OF CAVALRY AND INFANTRY.

Duties.

The Major General Commanding, recognizing the extreme importance of instituting and maintaining a uniform standard of efficiency in the Cavalry and Infantry of the Active Militia, as well as in the Artillery, has, with this end in view, and in consequence of his inability to personally inspect, each year, all Corps in the Dominion, approved of the appointment of an Inspector of Cavalry and Inspectors of Infantry.

The duties of these Officers will be as follows :—

Inspector of Cavalry.

(1.) The exact nature of the drill to be performed during Camps and Inspections ; Carbine Practice ; Books to be shewn, and system of Interior Economy, will be promulgated from time to time by the General Officer Commanding, and it will be the duty of the Inspector of Cavalry to report to him as to the manner in which the above have been carried out.

(2.) The annual Inspection of Cavalry Units as far as practicable in Military Districts Nos. 1, 2, 3, 4, 5, 6, 7, 8 and 9, whether in Camps of Instruction or at Local Head-Quarters. With this end in view Cavalry Units mobilised in Camps of Instruction will be placed under the supervision of the Inspector of Cavalry as regards the carrying out of the nature of drills, &c., thus promulgated.

(3.) The awarding of marks for general efficiency, as far as practicable, to Cavalry Units.

(4.) Officers Commanding Districts will notify the Inspector of Cavalry as to the dates on which Cavalry Units under their command will be ready for inspection, and will afford him every facility for making his inspection in the most thorough manner.

Inspectors of Infantry.

(1.) The supervision of the annual inspections made by the Deputy Adjutants General of all Infantry Units, either in Camp or at Local Head-Quarters, in their Districts, with a view to the adoption and carrying out of a uniform system of drill, discipline, and interior economy.

(2.) The exact nature of the drills to be performed during Camps and at Inspections ; Rifle Practice ; books to be shown ; and system of Interior Economy, will be promulgated from time to time by the Major General Commanding, and it will be the duty of the Inspecting Officers to report to him as to the manner in which the above have been carried out.

(3.) Officers Commanding Districts will notify the Inspector of Infantry of their Inspection Division as to the dates on which Corps under their command will be ready for inspection, and will afford him every facility for the carrying out of his inspection in the most thorough manner.

(4.) It is not to be understood that the already existing responsibility of the Deputy Adjutants General of Districts as to the carrying out of the details of the inspections, awarding of credits, etc., is to be in any way lessened by the presence of an Inspector of Infantry.

(5.) For the purposes of these inspections the Dominion will be divided into two divisions as follows :—

Eastern Infantry Inspection Division.

To comprise Military Districts Nos 5, 6, 7, 8, 9 and 12.

Western Infantry Inspection Division.

To comprise Military Districts Nos. 1, 2, 3, 4, and 10.

G. O. 45.

MILITIA TRAINING, 1895-96.

(*Issued as a Special General Order on the 5th May,* 1896.)

(1.) Adverting to paragraph 2 of General Order 42 of 1895, four days pay (in addition to the eight days therein authorized), will be issued to all Officers, N.C. Officers and Men of the Corps referred to in such General Order who have already performed 12 days drill; or, in the case of Field Batteries, who have not yet performed their annual training for the current fiscal year.

(2.) City Corps will be allowed until the 30th June, instant, in which to complete or perform the twelve days training for which pay is authorized.

(3.) Field Batteries which have already put in 8 days training in camp will be permitted to complete the 12 days training on the same basis as City Corps.

(4.) Officers commanding Units will be required to furnish supplementary pay-lists for four days pay through the usual channel. (A.G.O. 60643. M. and D. 10928.)

—

G. O. 46.

LOCALIZATION.

32ND "BRUCE" BATTALION OF INFANTRY.—No. 6 Company.—The Head-Quarters of this Company are changed from Arran, Ont., to Tara, Ont.

G. O. 47.

FIELD ARTILLERY PRACTICE.

Revised "Instructions for Practice, Field Artillery" have been approved and will be issued to all concerned.

—

G. O. 48.

ADDENDA AND CORRIGENDA.

General Order 21 of 1896 is amended by eliminating "Gloves Summer, 1" therein authorized to be issued to Infantry Units of Permanent Corps.

The following paragraph of the same General Order "An issue similar to that given on joining will be made anually to non-commissioned officers and men of the Permanent Corps on the anniversary of enlistment, or as soon afterwards as practicable" is amended by adding after the word annually "except as hereinafter provided."

The following two paragraphs are added immediately after the paragraph beginning with the words "Two serge jackets":—

"Only two (2) forage caps and one (1) field service "cap will be issued every 3 years. The second forage "cap will not be issued till the beginning of the third "year of service.

"Shoulder pads for serge jackets will be issued "every two years; shoulder pads for tunics are to "last three years."

OTTAWA, 5th June, 1896.

Notice *re* The Toronto, Hamilton and Buffalo Railway Company.

To all whom it may concern:—

WHEREAS by the Act of the Dominion of Canada, 58-59 Vic., ch. 66 (1895), certain additional powers were provisionally conferred on the Toronto, Hamilton and Buffalo Railway Company (which company, incorporated by the Provincial Act of Ontario, 47 Vic., ch 75, and receiving extensions of time and further powers by subsequent Provincial Acts, obtained in 1891, a Dominion Act, 54-55 Vic., ch. 86, confirming it in the rights and privileges so acquired).

And whereas by the said Act 58-59 Vic., ch. 66, a certain by-law of the City of Hamilton, granting a bonus to the company was ratified and confirmed, the time for completion was extended, and other provisions were made, it being, however, provided by section 10, that the Act should not come into force until the company satisfy the Minister of Railways and Canals that they have paid and discharged certain indebtedness incurred for railway construction on their line between Hamilton and Cainsville, and until the Minister "certifies by publication in the *Canada Gazette* that he is so satisfied."

And whereas by an amending Act, passed at the last session of Parliament, 59 Vict., ch. 39, it was made sufficient that the company should satisfy the Minister that they "have deposited with the Bank of Hamilton, at Hamilton, the sum of at least eighty-five thousand dollars, to be held by the said bank in trust to pay and discharge" the said indebtedness, and that upon such deposit "and the acceptance thereof by the said bank" the bank should become trustees of the same for the payment of the said debts, and that "the cashier of the said bank having certified that the said deposit has been so made, "the Minister of Railways and Canals shall declare the said Act in full force and effect."

And whereas, under date the 13th of May, 1896, the city clerk of Hamilton has forwarded a certificate of the cashier of the Bank of Hamilton, bearing the same date, showing that the said sum of $85,000 has been deposited with the bank by the company, and that the bank accepts the same and agrees to hold it in trust for the objects, uses, and purposes set forth in sections 10 and 11 of the Statutes of 1895, chapter 66, and in section 2 of the Statutes of 1896, chapter 39 aforesaid.

The undersigned, being satisfied that such deposit has been duly made and accepted by the several parties concerned, in accordance with the above mentioned statutory requirements, hereby, under the powers by the aforesaid Act 59 Vic., ch. 39, conferred on him, certifies that he is so satisfied, and declares the Act 58-59 Vic., ch. 66 of 1895, in full force and effect.

JOHN HAGGART,
Minister of Railways and Canals.

Ottawa, 3rd June, 1896. 49-3

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 20th day of May, 1896, incorporating Edward Kirk Greene, jr., merchant, John Leckie Galletti, merchant, Charles Cushing, notary, John Edgar, merchant, Eben McAdam, clerk, all of the City and District of Montreal, in the Province of Quebec, for the following purposes, viz.:—The carrying on in all its branches of the business of manufacturing and dealing in bags of every description; the manufacture of, calendering and dealing in jute, cotton, cloths, twines and all products thereof; the printing, stamping, and otherwise completing the same; the acquiring and disposing of any and all patent rights in connection therewith,—by the name of "The Beaver Bag Company" (Limited), with a total capital stock of one hundred thousand dollars, divided into one thousand shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this 29th day of May, 1896.

CHARLES TUPPER,
48-3 Secretary of State.

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 20th day of May, 1896, incorporating Robert Bickerdike, trader, Guillaume N. Ducharme, banker, Francis J. Freese, manager, The Honourable Alexander Walker Ogilvie, Senator, James G. Ross, accountant, William P. O'Brien, manufacturer, Patrick Francis Doody, manager, all of the City of Montreal, in the Province of Quebec, for the following purposes, viz.:—

(*a*) To manufacture gas and to construct gas plants and lay gas pipes for use in cities, towns and villages of the Dominion of Canada;

(*b*) To acquire, construct, operate and maintain any system or systems for the supply of gas and the plant and appliances necessary for the maintenance and working of the same in cities, towns and villages, parishes and elsewhere in the Dominion of Canada; and to sell, deal in and dispose of the same to any corporation or person;

(*c.*) To acquire any system or process of increasing the illuminating and heating power and effecting a saving in the consumption of coal gas in cities and large towns and also for manufacturing and supplying a new carburetted air gas for use in towns and villages, factories, country houses and other places in the Dominion of Canada, for cooking, manufacturing, illuminating and other purposes and to operate and deal in the same;

(*d.*) To acquire, deal in and dispose of all patent rights of invention relating to said matters and more particularly to acquire, use, and sell all rights and privileges granted under letters patent of the Dominion of Canada, number 44943 known as the "Lawrence Gas Mixing and Atomizing Process";

(*e.*) To purchase or acquire and operate any other system or systems of producing gas for heating, illuminating, cooking, manufacturing or other purposes, together with the plant, machinery, materials and all appurtenances necessary and adherent thereto, by the name of "The Economic Gas Company" (Limited), with a total capital stock of one hundred thousand dollars divided into ten thousand shares of ten dollars.

Dated at the office of the Secretary of State of Canada, this 29th day of May, 1896.

CHARLES TUPPER,
48-3 Secretary of State.

DEPARTMENT OF THE SECRETARY OF STATE.

PUBLIC Notice is hereby given that the Government of His Majesty the King of Sweden and Norway purposes sending, in the summer of this current year, a balloon expedition to the North Pole for exploration in the interests of science. The balloon will convey a party of three Swedish scientists, namely, Mr. Salomon August Andrée, aged 42; Dr. Nils Gustaf Ekholm, aged 48; and Mr. Nils Strinberg, aged 24. It is understood that the expedition will start from Spitzbergen in the early summer.

The Swedish and Norwegian Minister at the Court of St. James having, in the name of his Government, invoked the assistance of Her Majesty's Government with a view to making it generally known in the British possessions adjacent to the Polar Basin that the expedition in question will be attempted, and the Swedish Government being anxious also that the project should be made known to the authorities in other parts of Canada and to the general public in the Dominion through the medium of the press, Her Majesty's Principal Secretary of State for the Colonies has requested His Excellency's Government to do all in their power to meet the wishes of the Government of His Swedish and Norwegian Majesty in this matter.

Accordingly, Her Majesty's loyal subjects throughout this Dominion are hereby notified in the premises and are requested to give the explorers, should an opportunity present itself, all the help in their power. If the balloon be seen only and no communication be had with the exploring party, it is requested that the following particulars may be noted and communicated either to a local newspaper or to some learned body, namely, the day and the hour in which the balloon was seen, the direction of the balloon, and the direction of the wind.

Should any accident befall the explorers and should they arrive in any locality having lost the balloon, the inhabitants are asked to give them all possible assistance.

Dated at the office of the Secretary of State of Canada, this 16th day of May, 1896.

JOSEPH POPE,
47-3 Under Secretary of State.

OFFICE OF THE SUPERINTENDENT OF INSURANCE,
OTTAWA, 1st May, 1896.

NOTICE is hereby given that the Supreme Court of the Independent Order of Foresters has this day received a license No. 149 to undertake with its members in Canada, the contract or contracts of life, disability and sickness insurance on the assessment plan to the extent specified in an Act of the Parliament of Canada, assented to on the 23rd day of April, 1896, entitled "An Act to amend the Act incorporating the Supreme Court of the Independent Order of Foresters." Oronhyatekha is the chief agent, and the head office is established at the City of Toronto.

W. FITZGERALD,
40–4 Superintendent of Insurance.

Office of the Superintendent of Insurance,
Ottawa, 18th May, 1896.

NOTICE is hereby given that The Canadian Sick Benefit Society has this day received a license No. 150 to transact in Canada the business of insurance against sickness and disability, on the assessment plan.

Charles Egan is the Chief Agent of the society, and its head-office is established at the Town of Petrolia, Ontario.

W. FITZGERALD,
47-4 Superintendent of Insurance.

NOTICE TO MARINERS.

No. 19 of 1896.

I. POLLOCK SHOAL BUOY.

A red iron can buoy was on the 13th instant established by the Government of Canada on the south side of Pollock Shoal, lying south of Point Enragé, in the County of Lunenburg, on the southern coast of Nova Scotia.

Lat. N. 44° 14' 53"
Long. W. 64° 14' 35"

The buoy is moored in 7 fathoms water, about ¾ mile south of the extremity of Point Enragé and about 200 yards S.S.E. from a 2½ fathom patch not shown on Admiralty chart No. 342.

From the buoy Cross Island Light bears N.E. by E. ½ E. 5¼ miles.

From the buoy Rose Point bears N.E. by N. 2¾ miles.

From the buoy Moshers Island Light bears W. ¾ N. 3⅛ mile.

From the buoy West Ironbound Light bears W.S.W. 1⅝ mile.

This notice affects Admiralty charts Nos. 342 and 730.

II. SHOAL WATER NOT SHOWN OFF POINT ENRAGE.

The Superintendent of lights for Nova Scotia reports that while examining Pollock Shoal off Point Enragé, on the 13th instant, he found a boulder with an area of probably 50 to 60 feet covered with about 2½ fathoms water, at a place where the chart shows about 4½ fathoms. This shoal will be more accurately located and further information published.

This notice affects Admiralty charts Nos. 342 and 730.

III. HAND FOG ALARM AT CANSO HARBOUR LIGHT STATION.

A fog horn, to be worked by hand, has been placed at Canso Harbour Light Station, at the eastern extremity of the mainland of Nova Scotia, and will be operated by the keeper in answer to signals from vessels approaching the harbour.

This notice affects Canadian List of Lights and Fog Signals No. 236.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 21st May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 49-3

NOTICE TO MARINERS.

No. 16 of 1896.

I. GOVERNMENT RIFLE RANGE, McNAB'S ISLAND, HALIFAX HARBOUR, NOVA SCOTIA.

The following notice has been issued by the Chief Staff Officer of the Imperial Troops in garrison at Halifax, Nova Scotia, with reference to the annual target practice of the troops, on McNab's Island, commencing on the 11th instant.

"Owing to the extreme range of the Lee-Metford or Magazine Rifles, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

"This area has been marked by four spar buoys placed at intervals between Thrum Cap Shoal and the Eastern Passage, at a distance of 3,000 yards from the stop butts. The buoys mark the extreme limits of the Danger Zone. The spars are painted red and are surmounted by cross heads painted red and white.

"Notice is therefore hereby given that any ship or boat passing inside these buoys during the hours of practice incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab's Island is left flying."

This notice will have effect from the 11th May, 1896.

II. BALLAST GROUND BUOY AT TIDNISH, N.S.

The black cask buoy marking the position of the ballast ground off Tidnish, in Bay Verte, between the Counties of Cumberland, N.S., and Westmoreland, N.B., has been moored this Spring in a new position, ½ mile N.W. from the entrance channel to the Ship Railway dock, and any vessels discharging ballast in Tidnish Harbour must discharge it between the buoy described and Tidnish Head. No ballast is on any account to be discharged to the eastward of the buoy.

This notice affects Admiralty chart No. 2034.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 6th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 47-3

NOTICE TO MARINERS.

No. 17 of 1896.

I. IMPROVEMENT IN ARNPRIOR ISLAND LIGHT.

The mast from which a light was shown on an islet opposite the Town of Arnprior, Chats Lake, Upper Ottawa River, has been replaced by a new mast 10 feet higher than the old one, and the pressed lens lantern has been replaced by a 7th order dioptric lantern.

The colour of the light has also been changed from white to red. The light in future will be fixed *red*, elevated 40 feet above the ordinary level of the water, and should be visible 8 miles from all points of approach by water.

The white shed at the base of the mass remains as heretofore.

This notice affects Admiralty chart No. 797 and Canadian List of Lights No. 823.

II. CHANGE IN KINGSTON HARBOUR BUOYS.

On the opening of navigation this year the three platform buoys heretofore maintained on Penitentiary shoal, Myles shoal and Bolivia shoal respectively, in Kingston Harbour, Lake Ontario, were not moored in position but were replaced by wooden spar buoys surmounted by slat work globes or spheres.

The buoys are painted as heretofore, viz., in red and black bands, and are moored as near the middle of the shoals as possible, in 12 to 14 feet water. Vessels should give the buoys a good berth as the shoals extend some distance.

This notice affects Admiralty charts Nos. 259 B., 797 and 1152.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 6th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 47-3

NOTICE TO MARINERS.

No. 18 of 1896.

I. RE-ESTABLISHMENT OF LIGHT ON SOURIS EAST BREAKWATER.

On the 4th instant a temporary mast light was put in operation on the outer end of Souris East breakwater, on the east coast of Prince Edward Island, to take the place of the light carried away by storm in the autumn of 1895, as described in Part II of Notice to Mariners, No. 63 of 1895.

The light is fixed red, elevated 21 feet above high water mark, and should be visible 6 miles from all points seaward. The lens lantern is hoisted on a mast.

This light shows the end of the breakwater, and will be used, similarly to the old light carried away, until a proposed new block is added to the outer end of the breakwater, when a more permanent structure will be built.

This notice affects Admiralty charts Nos. 2034 and 2666, and Canadian List of Lights and Fog Signals, No. 350.

II. ST. JOHNS LEDGE BELL BUOY REPLACED.

The bell buoy marking St. Johns Ledge, near Pubnico, in the Bay of Fundy, which went adrift from or sank at its moorings, as advertised in Notice to Mariners No. 8 of 1896, was replaced by a new buoy on the 2nd instant.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 11th May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 47-3

TO ADVERTISERS IN THE *GAZETTE.*

PARTIES sending advertisements to be inserted in the *Canada Gazette* will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."

2nd. Indicate the number of insertions required.

3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are 10 cents for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cents each, and when more than one are required by advertisers, must be remitted for likewise.

S. E. DAWSON,
Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

CONDENSED RULES *in re* NOTICES FOR PRIVATE BILLS.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of The British North America Act, 1867, for granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application ; such notice except in the case of existing corporations) shall be signed by, or on behalf of the applicants, and be published as follows, viz :

In the Provinces of Quebec and Manitoba.

In the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

In the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices shall be continued in each case, for a period of at least two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. Marked copies of all the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House, endorsed "Application for a Private Bill."

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioners shall also, at the same time and in the same manner, give notice of the proposed rates of toll, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and, if a drawbridge, the dimensions of the same.

Any person seeking to obtain a Private Bill shall, at least eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the Bill is to originate, a copy of such Bill in the English or French language, with a sum sufficient to pay for translating and printing the same. The applicant shall also, after the second reading, and before the consideration of the Bill by any Committee, pay the Clerk of the Senate, or the Accountant of the House of Commons (as the case may be) a fee of $200, and a sum sufficient to pay the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred.

The fee of $200 payable on any Private Bill is paid only in the House in which such Bill originates ; but the charges for reprinting and translation consequent thereon are paid in the House in which such charges are incurred.

No Petition for a Private Bill is received by the Senate or by the House of Commons after the first three weeks of the Session.

No Private Bill may be presented to the Senate or to the House of Commons after the first four weeks of the Session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.
JOHN GEORGE BOURINOT,
Clerk of the Commons.

SPECIAL RULE OF THE SENATE.

49. (*c.*) When a Bill is to operate in more than one Province, Territory or District, the notices shall be published in the *Canada Gazette* and in a leading newspaper published in each Province, Territory or District in which the Bill is to operate.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

ADDITIONAL RULES OF THE HOUSE OF COMMONS RESPECTING PRIVATE BILLS.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bill ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule*, shall be recast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses.*

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill, copies of which may be obtained from the Clerk of the House.

(*a.*) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and Bills which are not in accordance with this Rule shall be returned to the promoters to be recast before being revised and printed ;

(*b.*) Any sections of existing Acts which are proposed to be amended shall be reprinted in full with the amendments inserted in their proper places and between brackets ;

(*c.*) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a.*) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or autho-

rized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map or plan shall be signed by the Engineer or other person making the same ;

(*b.*) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SPECIAL ORDER OF THE HOUSE OF COMMONS.

Resolved, That the Clerk of the House do have a copy of the new Rule 49 sent to those persons giving notice in the *Canada Gazette* of their intention to apply to Parliament for the passing of a Private Bill, together with a notification that the said Rule will be strictly adhered to for the future :—

49. Petitions for Private Bills shall only be received by the House within the first *three weeks* of the session, and Private Bills may only be presented to the House within the first *four weeks* of the session, and it shall be the duty of any Committee to which any Private Bill may be referred to consider and report the same to the House with all convenient speed.

2. That it be an instruction to all Committees on Private Bills, in the event of promoters not being ready to proceed with their measures when the same have been twice called *on two separate occasions* for consideration by the Committee, that such measures shall be reported back to the House forthwith, together with a statement of the facts and with the recommendation that such Bills be withdrawn.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the *Canada Gazette* and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-west Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under The Canada Evidence Act, 1893.

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a Religious Body to be called and known as "The Wesleyan Methodist Connection of Canada," and to authorize such corporation to meet and adopt, frame or repeal constitutions and make regulations for enforcing discipline in said Connection, and to empower said corporation to acquire, receive and take conveyances of such lands, moneys, mortgages, securities or other property as may be required for the purposes of a chapel or chapels, college or colleges, school or schools or other educational purposes connected with the said Connection, and for the purpose of a printing and publishing house or houses in connection with the said Connection, and for power to undertake and carry on such business of printing and publishing, and for authority and power to endow and support such chapels, colleges and schools, and such printing and publishing house or houses and a book depository or depositories in connection therewith, and to take and receive the benefit of any gift or devise by will or otherwise in its said corporate name or otherwise, and to give said Connection all necessary powers connected therewith.

BRADLEY & WYLD,
Solicitors for applicants.

Dated at Ottawa, this 1st day of June, A.D. 1896.
49–9

NOTICE is hereby given that The Wolseley and Fort Qu'Appelle Railway Company will make application to the Parliament of Canada, at its next session, to have their railway charter amended, so as to give an extension of time for the commencement and completion of their railway and for a reduction of the capital stock of the company, and in other respects.

LEVI THOMSON,
49–9 Solicitor for the applicants.

PUBLIC Notice is hereby given that at the next session of the Parliament of Canada, application shall be made for the incorporation of a company having for its object the construction of a bridge, for the general traffic and the passage of electric tramways on the St. Lawrence River, between some point on the south shore, and another point in the limits of the City of Montreal, on the north shore, in passing by Round Island and St. Helen Island, the channel to be traversed by a bridge with suspended carrier *Arnodin System*, and the construction and operation of electric tramways in the surrounding counties on the south shore.

J. U. EMARD,
Solicitor for applicants.

Montreal, 3rd June, 1896. 49–9

NOTICE is hereby given that an application will be made to the Parliament of Canada, at the ensuing session thereof, for an Act confirming the deed of amalgamation entered into between the Ottawa, Arnprior and Parry Sound Railway Company and the Parry Sound Colonization Railway Company, and to incorporate the said companies into one corporation under the name of the Ottawa, Arnprior and Parry Sound Railway Company, with powers as in the several Acts relating to the said companies respectively and in the said deed of amalgamation are contained, or to change the name of the said amalgamated company.

CHRISTIE, GREENE & GREENE,
Solicitors for applicants.

Dated at Ottawa, this 30th day of May, 1896. 49–9

THE HUDSON'S BAY AND PACIFIC RAILWAY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a railway to be operated by steam and electricity from Port Churchill on Hudson's Bay through North-west and Keewatin Territories, to Fond du Lac, on Lake Athabaska, and from Port Churchill aforesaid, on Hudson's Bay, through the Territory of Keewatin, south of Churchill River and north of Nelson River, to a point at or near Sea Falls, on said river; thence north of Lake Winnipeg through the Territory of Saskatchewan to Prince Albert, in said Territory; thence continuing through the said Territory and the Territory of Alberta, in a direct line to Calgary, in the said last mentioned Territory, with power to construct a branch line from a point near Manitou Lake, in the Territory of Saskatchewan, to Edmonton, in the Territory of Alberta. Also, with power to build, purchase, charter, maintain and navigate steam and other vessels to ply between Fort Churchill and other countries, to carry and convey passengers and freight, and carry on a general transportation service in connection with said railway; to construct, operate and maintain such bridges, docks, wharves, elevators, etc., as may be necessary and advantageous for the purposes of the said undertaking. Also to construct and operate telegraph and telephone lines along the whole length of the proposed railway and said branch, for the transmission of messages for the public as well as for the purposes of said railway; also to acquire such water powers as may be deemed requisite for the generation of electricity for the purposes of said railway and said branch, and the purchase, erection and maintenance of all such electrical plant as may be necessary in connection with said railway and branch, its bridges, elevators, wharves and docks; and with all such other powers and rights as may be advantageous and necessary to the success of said undertaking, including such as may be granted and prescribed, with the consent of the Parliament of Canada, by the Parliament of Great Britain and Ireland.

JOSEPH NELSON.

Ottawa, 12th May, 1896. 46–9

PUBLIC Notice is hereby given that The Georgian Bay Ship Canal and Power Aqueduct Company will apply to the Parliament of Canada, at its next session, for a special Act confirming, extending and augmenting the powers of the company; such Act to specially provide:—

1. For the construction, regulation, and control of harbours and navigation at the terminals of a ship canal, which the company is authorized to construct and operate from some point on Lake Ontario, within the County of York, to some point on the Georgian Bay;
2. That the company may divert and use the waters of any spring, creek, river, lake, or any other source or sources of water supply, for the purposes of the company, and regulate the levels of such waters;
3. That the company may regulate the traffic of the said canal or other navigable waters under the control of the company;
4. For the extension of the borrowing powers of the company, and to define the denomination and character of the notes, bonds, debentures, securities to be issued by the company;
5. For the construction and improvement by the company of other canals or waterways in Canada for the purpose of augmenting or increasing the traffic of the canal first mentioned;
6. The remission and exemption from all customs duties and charges on all plant, machinery and materials to be imported and used in the construction and equipment of the company's works.

J. A. MACDONALD,
Managing director of The Georgian Bay
Ship Canal and Power Aqueduct Co.

46–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, by The Chignecto Marine Transport Railway Company (Limited), for an Act to extend the time for the completion of its works and to reduce the number of its directors, and for other purposes.

H. KENDRICK,
Secretary.
By A. FERGUSON,
Solicitor for the applicants.

Dated 7th May, 1896. 45–9

HUDSON'S BAY CANAL AND NAVIGATION COMPANY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next ensuing session, to pass an Act to incorporate a company to construct a canal from a point on the east branch of the Nelson River to Hudson's Bay; and to improve the navigation of rivers and waterways emptying into Lake Winnipeg so as to secure continuous navigation; and to collect tolls thereon; and to construct, equip and operate canal boats and other vessels, and tramways for transportation of freight and passengers; and to construct and operate elevators, mills, wharves, docks and warehouses, and telegraph and telephone lines, hydraulic and electric plants, and to supply motive power in connection with the same, and for other uses, and generally to have and exercise such powers as are given to railway corporations under The Railway Act, and as may be applicable to canals and inland navigation.

N. F. HAGEL,
Solicitor for applicants.

Winnipeg, 2nd May, 1896. 44–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a bridge across the Niagara River at or near the Village of Fort Erie, in the County of Welland, for the passage of pedestrians and vehicles and for the passage of cars propelled by any power, and for the acquisition of all terminal facilities and for power to lease to or otherwise give running powers thereover to any railway company; and to carry gas pipes, wires or cables or other appliances for the transmission of gas and electricity and other power; and with power to lay tracks on said bridge and approaches thereto for the passage of cars, and to operate the same or to enter into any contract or agreement with any individual corporation or corporations with reference to operating the same and to connect the same with any line or lines of railway and to amalgamate with any other company incorporated or to be incorporated by the Legislature of the State of New York or the Congress of the United States of America for the same purpose; and also for power to construct, maintain and operate water wheels under said bridge for the generation of electricity and for all powers necessary for that purpose and for the transmission abroad of such electric force. The height of the arches of said bridge shall not be less than sixty feet and the interval between the abutments or piers shall be two hundred feet, and said bridge shall be constructed with a draw of two hundred feet across the channel of said river for the passage of rafts and all vessels. The rates of toll for the use of said bridge shall not exceed twenty-five cents for each carriage or vehicle (including the driver) drawn by two horses, twenty cents for a single horse, carriage and driver, and fifteen cents for each other person.

HARCOURT, COWPER & MACOOMB,
Solicitors for applicants.

Dated at Welland, 13th April, 1896. 43–9

J. P. MULLARKEY,
Secretary *pro tem.*

Montreal, 27th May, 1896. 48–4

CANADA ATLANTIC RAILWAY.

NOTICE is hereby given that the annual general meeting of the shareholders of the Canada Atlantic Railway Company will be held at the head office of the company, Central Chambers, Elgin Street, in the City of Ottawa, on Tuesday, the 26th day of May, 1896, at the hour of 3 o'clock in the afternoon, for the purpose of electing directors for the ensuing year, and for the transaction of such other business as may be brought before the meeting.

A. W. FLECK,
Secretary-treasurer.

Ottawa, 9th May 1896. 46–4

NOTICE is hereby given, in accordance with the provisions of section 15 of The North-west Irrigation Act, as amended, that the application of the Springbank Irrigation District for the right to divert sufficient water from the Elbow River, on the S.E. ¼ of Section 4, Township 24, Range 4 west of the 5th Meridian, to irrigate some 21,200 acres as shown by the plans filed by the district, and to construct the necessary works to enable the water so diverted to be used for irrigation purposes, has received the approval of the Governor in Council to the extent that the district has been granted the right to divert the water applied for at high water stage of the stream, and further has been granted five years from the 18th February, 1895, within which to complete the construction of their works, no changes or alterations in these proposed works having been ordered by the Governor in Council.

The memorial of the district, accompanied by the necessary plans, profiles and specifications was filed with the Minister of the Interior, on the fourteenth of November, 1894, and with the Agent, on the 5th day of November, 1894.

The particulars as to the district and the proposed works are as follows :—

The district was created under the provisions of The Irrigation District Ordinance passed by the Legislative Assembly of the North-west Territories in September, 1894, and which was subsequently confirmed by the Act of Parliament 58–59 Vict., chap. 33.

The district is authorized by the provisions of The Irrigation District Ordinance to pledge the lands within the district as security for debentures sold to raise the amounts necessary to construct the above mentioned works, the amount so raised being limited to a sum equal to six dollars per acre upon the lands which can be actually irrigated from the proposed works, with an assessment limited to one dollar per acre per annum upon the lands irrigated, to pay for interest, management, maintenance and sinking fund.

The present Trustees of the district, who under the provisions of The Irrigation District Ordinance are the Board of Management, are, Joseph McPherson, William A. Gibson and W. W. Stuart.

The probable number of consumers of the water diverted is stated by the memorial filed to be one hundred. The lands to be irrigated in their present condition with improvements, are stated to be worth about $8 per acre, which lands are stated to be at present used for ranching purposes, and to be unsuitable for agriculture except by the application of water through irrigation.

The rates to be charged by the district for water supplied for irrigation purposes is the rate to be hereafter fixed under the provisions of The Irrigation District Ordinance above referred to. 45-5

NOTICE.—A special meeting of the shareholders of The St. Lawrence and Adirondack Railway Company will be held at the office of the company, at Montreal, on the 13th day of June, 1896, at 10.30 o'clock a.m., to consider a proposition to retire and cancel the present outstanding first mortgage bonds, and to issue in place thereof new 5 per cent gold bonds to the amount of $800,000, to be secured by a first mortgage ; and to consider a further proposition to issue 6 per cent gold bonds of the company to an amount not exceeding $400,000, which are to be secured by a second mortgage ; and to consider such further business as may properly come before said meeting.

FRANK G. SMITH,
Secretary.

Montreal, 19th May, 1896. 46–5

NOTICE.—Lam Tung, of the City of New Westminster in the Province of British Columbia, has deposited with the Honourable the Minister of Public Works, at Ottawa, and also with the Registrar of Deeds for the District of New Westminster in the said province, a plan showing certain works or buildings constructed by him upon the Fraser River within the said

district, and a description of the site in which such works have been placed.

The said Lam Tung will apply to the Governor General in Council immediately after one month from the first publication of this notice for his approval of such plan and site and of the construction of the said works.

LAM TUNG.

Dated this 1st day of May, 1896. 46-5

IN pursuance of Revised Statutes of Canada, chap. 92, and a certain Order in Council dated 12th June, 1893, notice is hereby given that Elias Rogers and Ferral Carlton Dinniny will after the expiration of one month from the date hereof, apply to His Excellency the Governor General in Council for approval of the construction of certain work in Toronto Bay, which may be described as the filling in of that part of the water lot lying immediately to the south of and adjacent to the water lot firstly described in a certain patent from the Crown to the Corporation of the City of Toronto, dated 21st February, 1840, bounded on the north by the line between the points near the site of the late French Fort and Gooderham's Windmill as described in said patent; on the east and west respectively by the production southerly of the western and eastern boundaries of the water lot owned by John Small and Alexander Legge as set out in said patent, and on the south by the Windmill line as fixed by said Order in Council of 12th June, 1893.

And notice is further given that the said applicants, in accordance with the provisions of said Statute, have deposited plans and a description of the proposed site with the Minister of Public Works, and a duplicate of each in the Office of the Registrar of the Eastern Division of the City of Toronto.

MACLAREN, MACDONALD, MERRITT
& SHEPLEY,
Solicitors for applicants,
28-30 Toronto St., Toronto.

Dated at Toronto, this 23rd May, 1896. 47-5

SUMMERSIDE BANK.

NOTICE.—A dividend of three and one half per cent on the capital stock of the Summerside Bank, for the six months ending the 30th day of April, 1896, has been declared out of the profits of the Bank and will be paid to the stockholders thereof, at their banking-house, at Summerside, P.E.I., on and after the 4th day of June next.

ROBT. McC. STAVERT,
Cashier.

Summerside, P.E.I., 7th May, 1896. 45-4

DÉPÊCHES.

[1237 J.]
DOWNING STREET,
Canada. 16 décembre 1895.
N° 326.

MONSIEUR,—J'ai l'honneur de vous transmettre copie du document cité dans l'annexe ci-jointe, reçu du Bureau des affaires étrangères, concernant les règlements sanitaires établis au sujet de navires arrivant à des ports italiens.

J'ai l'honneur d'être, monsieur,
Votre très obéissant serviteur,
R. H. MEADE,
Pour le Secrétaire d'Etat.

L'administrateur du
Gouvernement du Canada.

Date.	Description du document.
1895. 23 novembre..	Traduction d'un décret italien.

TRADUCTION d'un décret du ministère italien de l'Intérieur, concernant les précautions sanitaires maritimes.

N° 9.

Considérant l'avantage, généralement parlant, d'exempter les navires arrivant à des ports italiens, dans les circonstances ordinaires, de présenter leur patente de santé lorsque le renseignement sanitaire est marqué sur les papiers du bord ; et en vertu du pouvoir conféré par les règlements sanitaires maritimes de déterminer (de concert avec le ministre de la Marine) quelles mesures doivent être prises en ces matières,—le ministre de l'Intérieur décrète ce qui suit :—

Que tout vaisseau arrivant à des ports italiens d'autres ports européens, est exempté de présenter sa patente de santé ; et cette exemption s'applique également aux navires des ports atlantiques de l'Amérique du Nord et du Canada ; mais, dans tous les cas, les navires arrivant de ports qui ont été soit déclarés infectés par les autorités locales, ou ont été proclamés tels par le ministère italien de l'Intérieur ne sont pas compris, et devront être munis de patentes de santé.

Et chaque navire compris dans les termes du présent décret, portera marqué sur sa liste de l'équipage, ou sur son certificat, le renseignement concernant les conditions sanitaires du lieu de départ, les conditions hygiéniques du navire même et de sa cargaison, et l'état de santé de l'équipage et des passagers, et au moment du départ et au port d'arrivée.

Les préfets des provinces maritimes et les autorités des havres sont chargés de l'exécution du présent décret.

Daté à Rome, le 23 novembre 1895.

(Signé) CRISPI,
48–2 Ministre de l'Intérieur.

ARRÊTÉS EN CONSEIL.

[1769]

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 16e jour de mai 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 97 des Statuts Revisés, intitulé "Acte concernant les passages d'eau," et ses modifications, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'article 8 des règlements établis par l'arrêté en conseil du 5 de février 1889, et continués en vigueur par l'arrêté en conseil du 21 de septembre 1893, pour la régie du passage d'eau sur le fleuve Saint-Laurent entre Prescott dans la province d'Ontario et Puissance du Canada, et Ogdensburgh dans l'Etat de New-York, un des Etats-Unis d'Amérique, soit et il est par le présent modifié en tant qu'il s'agit des heures de traversée, à l'effet que le bac commencera à traverser chaque jour à 8 heures du matin, sauf les dimanches, et continuera de traverser d'un côté à l'autre a des intervalles d'une heure, successivement ensuite, jusqu'à 6 heures du soir, au lieu de 7 a.m. à 7 p.m. comme autrefois.

JOHN J. McGEE,
48-4 Greffier du Conseil privé.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions de "l'Acte des poids et mesures," chapitre 104 des Statuts Revisés, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'arrêté en conseil du 2 de décembre 1895, modifiant l'article 19 des règlements concernant les poids et mesures établis par arrêté en conseil du 9e jour de janvier 1889, chapitre 42 des Arrêtés en Conseil refondus du Canada, soit et il est par le présent annulé en tant qu'une erreur d'un point décimal y a été commise dans les poids en grains, et que les règlements corrigés ci-dessous soient et ils sont par le présent établis en leur lieu et place :—

La forme de toutes les mesures de capacité devra être cylindrique ou conique ; dans cette dernière forme elles ne seront vérifiées que si elles sont capables de contenir, lorsque pleines jusqu'à la partie la plus étroite du goulot, les poids respectifs d'eau distillée, spécifiés plus bas :—

Pour chaque gallon	10 liv. av.
Pour chaque ½ gallon	5 liv. av.
Pour chaque pinte	2½ liv. av.
Pour chaque ½ chopine	4375 grains troy.
Pour chaque roquille	2187 grains troy.
Pour chaque ½ roquille	1093 grains troy.

pesé à l'air contre des poids en cuivre à une température de 62° F., et avec le baromètre à 30°.

Greffier du Conseil privé.

48–4

[1457]

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 28e jour d'avril 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que par l'arrêté en conseil du 15 de septembre 1888, chapitre 30 des Arrêtés en conseil refondus du Canada, et l'arrêté en conseil du 6e jour de juillet 1893, passé en vertu de l'article 54 de "l'Acte des Sauvages," des règlements ont été établis concernant la vente du bois sur les terres des Sauvages en Ontario et Québec, et dans la Colombie-Britannique, et par l'arrêté en conseil du 1er de janvier 1875, les règlements du gouvernement du Nouveau-Brunswick relatifs au bois sur les terres de la Couronne furent adoptés au sujet du bois sur les terres des Sauvages dans la dite province.

Et considérant qu'il est à propos que des règlements soient établis en vertu de l'article 54 de "l'Acte des Sauvages," pour la vente du bois sur les terres des Sauvages dans tout le Dominion, et que les règlements pour la vente du bois sur les terres des Sauvages en Ontario et Québec, tels qu'énoncés dans le dit chapitre 30 des Arrêtés en conseil refondus du Canada, et ses modifications, conviennent à toutes les parties du Dominion, à l'exception de la Colombie-Britannique pour laquelle des règlements sont établis par l'arrêté en conseil du 6 de juillet 1893.

Il plaît à Son Excellence, en vertu du dit article 54 de "l'Acte des Sauvages," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements concernant la vente du bois sur les terres des Sauvages en Ontario et Québec, établis par le dit arrêté en conseil du 15 de septembre 1888, chapitre 30 des Arrêtés en conseil refondus, et les modifications à iceux, soient rendus applicables, et ils sont par le présent déclarés applicables à toute la Puissance du Canada, à l'exception de la province de la Colombie-Britannique.

JOHN J. McGEE,
Greffier du Conseil privé.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions de l'article 17 de "l'Acte du revenu consolidé et de l'audition," et par et avec l'avis du Conseil privé de la Reine, pour le Canada, d'ordonner que la division du revenu de l'intérieur de Saint-Jean, P. Q., qui comprend les comtés suivants, savoir :—Brome, Iberville, Missisquoi, Napierville, Shefford et Saint-Jean, soit et elle est par le présent attachée à la division du revenu de l'intérieur de Sherbrooke, et sera désignée sous le nom de Division du revenu de l'intérieur de Sherbrooke.

JOHN J. McGEE,
Greffier du Conseil privé.

47–4

ORDRES GÉNÉRAUX DE MILICE

1896.

QUARTIERS GÉNÉRAUX,
1er juin 1896.

O. G. 37.

ARRÊTÉ EN CONSEIL.

HOTEL DU GOUVERNEMENT À OTTAWA.

Vendredi, le 8e jour de mai 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que le contrôle de l'effectif de Milice Active adopté par l'arrêté en conseil du 28 de décembre 1895 soit et il est par le présent modifié comme suit :

Infanterie et carabiniers, effectifs, 1895-96—43e bataillon,—

1 lieutenant-colonel.
2 majors.
6 capitaines.
6 lieutenants.

1 adjudant.

1	quartier-maître.
1	chirurgien.
1	aide-chirurgien.
1	payeur.
1	sergent-major de régiment.
1	sergent-fourrier de régiment.
1	chef de musique.
1	sergent-trompette.
1	sergent d'ordonnance.
1	sergent du payeur.
12	sergents.
18	caporaux.
18	trompettes.
24	musiciens.
186	soldats.
290	total de tous grades.

JOHN J. McGEE,
Greffier du Conseil privé.

O. G. 38.

RÈGLEMENTS ET ORDRES.

GRADE DES OFFICIERS MÉDECINS ET VÉTÉRINAIRES.

1. Le grade de ces officiers est substantif ou honoraire.

2. Le grade relatif a été aboli.

3. Les officiers médecins qui autrefois avaient le grade de chirurgiens auront à l'avenir le grade substantif de chirurgiens-majors. Ceux qui autrefois avaient le grade d'aides-chirurgiens auront le grade substantif de chirurgiens-lieutenants.

4. Les officiers médecins auxquels a été conféré un grade, sans solde, en vertu des dispositions du paragraphe 91 des Règlements et Ordres pour la Milice, 1887, ou qui ont obtenu un grade relatif en vertu des dispositions du paragraphe 95 des dits Règlements, auront un grade honoraire comme suit :—

Ancien grade sans solde, ou grade relatif.	Grade honoraire.
Chirurgien-major	Chirurgien-lieutenant-colonel.
Chirurgien	Chirurgien-major.
Aide-chirurgien après 5 ans de service................	Chirurgien-capitaine.

5. Les officiers vétérinaires qui autrefois avaient le grade de chirurgiens vétérinaires auront le grade substantif de vétérinaires-lieutenants. Les chirurgiens vétérinaires qui avaient le grade relatif de capitaine en vertu des dispositions du paragraphe 95 des Règlements et Ordres pour la Milice, 1887, auront le grade honoraire de vétérinaire-capitaine.

O. G. 39.

GRADE TITULAIRE.

Les paragraphes 89, 90 et 91 des Règlements et Ordres pour la Milice, 1887, sont cancellés et remplacés par le suivant :—

89. Le Gouverneur général s'occupera spécialement de la promotion pour service distingué en campagne, ou pour service utile au pays.

90. Les officiers capables recommandés aux quartiers-généraux par des officiers commandants d'unités, par l'entremise d'officiers commandant des districts, recevront le grade titulaire ci-dessous :—

Nature du service.	Grade titulaire.
Après 10 ans comme major commandant une batterie d'artillerie de campagne..................	Lieutenant-colonel.
Après 15 ans comme major ou major-titulaire de cavalerie, d'artillerie de place, du génie, et de l'infanterie—dont 10 avec le rang substantif de major...........	Lieutenant-colonel.
Après 10 ans avec le grade substantif de capitaine dans une unité de la Milice Active.. . . .	Major.
Après 7 ans de service continu comme capitaine substantif dans une unité de la Milice Active, et en possession d'un diplôme de gradué du Collège Militaire Royal du Canada........	Major.
Après 5 ans de service continu comme lieutenant dans une unité de la Milice Active, et en possession d'un diplôme de gradué du Collège Militaire Royal du Canada	Capitaine.

O. G. 40.

GRADE HONORAIRE.

Les paragraphes 94 et 95 des Règlements et Ordres pour la Milice, 1887, sont cancellés, et remplacés par les suivants :—

94. Les officiers recommandées aux quartiers généraux par des officiers commandants d'unités, par l'entremise d'officiers commandant des districts, recevront le grade honoraire ci-dessus ;—

Nature du service.	Grade substantif.	Grade honoraire.
Lors de la nomination............:.	Payeur ; Quartier-maître.......	Capitaine.
Lors de la nomination.............	Maître d'équitation.	Lieutenant.
Après 5 ans de service commissionné. ...	Chirurgien-lieutenant ; Vétérinaire-lieutenant ; Maître-d'équitation.....	Un degré de grade.
Après 10 ans de service commissionné.	Payeur ; Quartier-maître	Major.
Après 15 ans de service commissionné.	Chirurgien-lieutenant ; Vétérinaire-lieutenant	Chirurgien-major ; Vétérinaire-major.
Après 20 ans de service avec le grade substantif actuel..	Chirurgien-major....	Chirurgien-lieutenant-colonel.

95. Le grade sera tout simplement honoraire et ne confèrera pas le droit d'aucun commandement autre que celui auquel le porteur peut avoir droit en vertu de sa commission substantive.

1. Le service pour lequel les officiers sont recommandés pour grade honoraire doit avoir été continu.

2. Les antidates ne seront pas accordées dans le cas du grade honoraire.

O. G. 41.

INSTRUCTIONS, ETC.

NOMINATION DES PAYEURS DE RÉGIMENT.

1. Il a plu à Son Excellence le Gouverneur général en conseil, le 28 d'avril 1896, d'ordonner que le con-

trôle d'effectif régimentaire de la Milice Active, pour l'année fiscale courante, soit modifié en y faisant l'ajouté suivant :—

"Les payeurs peuvent être nommés à des unités, lorsque la chose est nécessaire, en étant publiés dans les Ordres Généraux, de la manière ordinaire."

2. L'Ordre Général 33 de 1892 est cancellé. (B.A.G. 60556. M. et D. 14688.)

O. G. 42.

EXERCICES DE CAVALERIE.

Edition revisée.

Les Exercices de Cavalerie, 1896, en deux volumes, promulgués au service impérial par l'Ordre de l'Armée 81 de 1896, ont été approuvés pour servir dans la Milice canadienne, et remplaceront les Exercices de Cavalerie, 1885.

Les exemplaires seront délivrés à tous les intéressés.

—

O. G. 43.

COLLÈGE MILITAIRE ROYAL DU CANADA.

Uniforme des gradués.

Messieurs les cadets qui ont été gradués au Collège Militaire Royal du Canada, en étant nommés à un corps de la Milice Active, auront trois ans pour se procurer l'uniforme du corps auquel ils auront été nommés. Durant cet intervalle ils auront la permission de porter l'uniforme du Collège Militaire Royal, avec les modifications suivantes :—

Epaulières de drap bleu bordé d'un simple rang de gallon de Russie, et petit bouton du modèle du collège. Insignes du grade en or.

—

O. G. 44.

INSPECTEURS DE CAVALERIE ET D'INFANTERIE.

Devoirs.

Le Major Général commandant, reconnaissant l'extrême importance d'instituer et de maintenir un type uniforme d'efficacité dans la cavalerie et l'infanterie de la Milice Active, aussi bien que dans l'artillerie, a, dans ce but, et en conséquence de l'impossibilité pour lui d'inspecter chaque année, tous les corps dans le Dominion, approuvé la nomination d'un inspecteur de cavalerie et d'inspecteurs d'infanterie.

Les devoirs de ces officiers seront comme suit :—

Inspecteur de cavalerie.

(1.) La nature exacte des exercices à exécuter durant les camps et les inspections ; la pratique de la carabine ; les livres à montrer, et le système d'économie interne, seront promulgués de temps à autre par l'officier général commandant, et l'inspecteur de cavalerie devra lui faire un rapport sur la manière dont ses services auront été remplis.

(2.) L'inspection annuelle des unités de cavalerie, autant que possible, dans les districts militaires Nos. 1, 2, 3, 4, 5, 6, 7, 8 et 9, soit en camps d'instruction ou aux dépôts.

A cet effet les unités de cavalerie mobilisée en camps d'instruction seront placées sous la surveillance de l'inspecteur de cavalerie, quant à l'exécution de la nature des exercices, etc., ainsi promulgués.

(3.) L'adjudication de points de mérite pour aptitude générale, autant que possible, à des unités de cavalerie.

(4.) Les officiers commandant des districts avertiront l'inspecteur de cavalerie quant aux dates auxquelles les unités de cavalerie sous leur commandement seront prêtes pour l'inspection, et lui fourniront toutes les facilités pour qu'il puisse faire une inspection aussi parfaite que possible.

Inspecteurs d'infanterie.

(1.) La surveillance des inspections annuelles faites par les sous-adjudants généraux de toutes les unités d'infanterie, soit en camp soit aux dépôts, dans leurs districts, en vue d'adopter et de mettre en pratique un système uniforme d'exercices, de discipline, et d'économie interne.

(2.) La nature exacte des exercices à exécuter dans les camps et aux inspections ; le tir à la carabine ; les livres à montrer, et le système d'économie interne, seront promulgués de temps à autre par le major-général commandant, et les officiers inspecteurs devront lui faire un rapport sur la manière dont ces services ont été remplis.

(3.) Les officiers commandant des districts feront part à l'inspecteur d'infanterie de leur division d'inspections des dates auxquelles les corps sous leur commandement seront prêts à être inspectés, et lui fourniront toutes les facilités pour qu'il puisse faire une inspection aussi parfaite que possible.

(4.) Il est bien entendu que la responsabilité actuelle des sous-adjudants généraux de districts quant à l'exécution des détails d'inspections, l'adjudication des points de mérite, etc., ne sera en aucune manière amoindrie par la présence d'un inspecteur d'infanterie.

(5.) Pour les fins de ces inspections le Dominion sera divisé en deux divisions, savoir :—

Division d'inspection d'infanterie de l'Est.

Comprendra les districts militaires Nos 5, 6, 7, 8, 9, et 12.

Division d'inspection d'infanterie de l'Ouest.

Comprendra les districts militaires Nos 1, 2, 3, 4 et 10.

—

O. G. 45.

EXERCICE DE LA MILICE 1895-96.

(*Publié comme Ordre Général spécial le* 5 *de mai* 1896.)

(1.) Vu le paragraphe 2 de l'Ordre Général 42 de 1895, quatre jours de solde (en sus des huit jours qui y sont autorisés), seront accordés à tous les officiers, sous-officiers et soldats des corps mentionnés dans le dit Ordre Général qui ont déjà fait 12 jours d'exercices ; ou, dans le cas de batteries de campagne, qui n'ont pas encore accompli leur exercice annuel pour l'année fiscale courante.

(2.) Les corps urbains auront jusqu'au 30 de juin courant, pour compléter ou accomplir les douze jours d'exercices pour lesquels la paie est autorisée.

(3.) Les batteries de campagne qui ont déjà fait 8 jours d'exercices en camp, pourront compléter les 12 jours d'exercices sur le même pied que les corps urbains.

(4.) Les officiers commandant des unités seront tenus de fournir des bordereaux supplémentaires pour quatre jours de paie, par le canal ordinaire. (B.A.G. 60643. M. et D. 10928.)

O. G. 46.

LOCALISATION.

32e bataillon d'infanterie "Bruce"—Compagnie No 6. Le dépôt de cette compagnie est changé de Arran, Ont., à Tara, Ont.

—

O. G. 47.

PRATIQUE DE L'ARTILLERIE DE CAMPAGNE.

Des "Instructions for Practice, Field Artillery" revisées ont été approuvées et seront distribuées à tous les intéressés.

—

O. G. 48.

ADDENDA ET CORRIGENDA.

L'Ordre Général 21 de 1896 est modifié en en retranchant "Gants d'été 1," qui y sont autorisés pour les unités d'infanterie des corps permanents.

Le paragraphe suivant du même Ordre Général "Une distribution semblable à celle faite lors de l'enrôlement aura lieu annuellement aux sous-officiers et hommes des corps permanents à l'anniversaire de l'enrôlement, ou aussitôt après que possible," est modifié en ajoutant après le mot annuellement "sauf tel que ci-après établi."

Les deux paragraphes suivants sont ajoutés immédiatement après le paragraphe commençant par les mots "Deux gilets en serge......"

"Que deux bonnets de police et un bonnet de service seront distribués tous les trois ans. Le deuxième bonnet de police ne sera distribué qu'au commencement de la troisième année de service.

"Des épaulières pour les gilets en serge seront distribuées tous les deux ans ; les épaulières pour les tuniques doivent durer trois ans."

AVIS DU GOUVERNEMENT.

AVIS est donné au public qu'en vertu de "l'Acte des compagnies," il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 20e jour de mai 1896, constituant en corporation Robert Bickerdike, commerçant, Guillaume N. Ducharme, banquier, Francis J. Freese, gérant, l'honorable Alexander Walker Ogilvie, sénateur, James G. Ross, comptable, William P. O'Brien, manufacturier, Patrick François Doody, gérant, tous de la cité de Montréal, dans la province de Québec, pour les fins suivantes :—

(*a.*) Manufacturer du gaz et construire des appareils à gaz et poser des tuyaux à gaz pour servir dans les cités, villes et villages du Canada ;

(*b.*) Acquérir, construire, exploiter et entretenir un système ou des systèmes pour fournir le gaz et l'outillage et les appareils nécessaires pour leur entretien et fonctionnement dans les cités, villes, villages, paroisses et ailleurs en Canada, et les vendre et en disposer à toute corporation ou personne ;

(*c.*) Acquérir tout système ou procédé pour accroître le pouvoir éclairant et calorique et effectuer une économie dans la consommation du gaz de houille dans les cités et grandes villes, et aussi pour manufacturer et fournir un nouveau gaz à air carburé pour servir dans les villes et villages, fabriques, maisons de campagne et autres endroits en Canada, pour la cuisine, la manufacture, l'éclairage et autres fins, et les exploiter et en disposer ;

(*d.*) Acquérir, vendre et disposer tous droits brevetés d'invention concernant les dites matières, et plus particulièrement acquérir, utiliser, et vendre tous droits et privilèges accordés en vertu de lettres patentes du Canada, numéro 44943, sous le titre de "Lawrence Gas Mixing and Atomizing Process" ;

(*e.*) Acheter ou acquérir et exploiter tout autre système ou systèmes de produire du gaz pour chauffage, éclairage, la cuisine, la manufacture ou autres fins, ainsi que l'outillage, les machines, les matériaux et tous accessoires nécessaires et s'y rattachant,—sous le nom de "The Economic Gas Company" (à resp. limitée), avec un capital-actions total de cent mille piastres divisé en dix mille actions de dix piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 29e jour de mai 1896.

CHARLES TUPPER,
Secrétaire d'Etat.

48-3

AVIS est donné au public qu'en vertu de "l'Acte des compagnies" il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 20e jour de mai 1896, constituant en corporation Edward Kirk Greene, jeune, marchand, John Leckie Galletti, marchand, Charles Cushing, notaire, John Edgar, marchand, et Eben McAdam, commis, tous des cité et district de Montréal, dans la province de Québec, pour les fins suivantes :—Manufacturer et faire le commerce de sacs de toutes sortes, fabriquer, calendrer et vendre du jute, du coton, des tissus et ficelles, et tous produits de ces articles ; les imprimer, étamper et autrement les compléter ; acquérir et disposer de tous et chacun des droits brevetés s'y rapportant, sous le nom de "Beaver Bag Company" (à resp. limitée), avec un capital-actions total de cent mille piastres, divisé en mille actions de cent piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 29e jour de mai 1896.

CHARLES TUPPER,
Secrétaire d'Etat.

48-3

SECRÉTARIAT D'ÉTAT.

AVIS public est donné par les présentes que le gouvernement de Sa Majesté le Roi de Suède et Norvège se propose d'envoyer, dans le cours de l'été prochain, une expédition en ballon au Pôle Nord, pour faire des explorations dans l'intérêt de la science. Ce ballon transportera trois savants Suédois, savoir : M. Auguste Salomon Andrée, âgé de 42 ans ; M. Nils Gustaf Ekholm, âgé de 48 ans et M. Nils Strinberg, âgé de 24 ans.

Il est entendu que l'expédition partira de Spitzberg au commencement de l'été. Le Ministre de Suède et Norvège à la Cour de St. James, au nom de son gouvernement, a prié le gouvernement de Sa Majesté la Reine de l'aider à faire connaître, dans les possessions britanniques adjacentes au Pôle, le fait qu'une telle expédition sera tentée ; et vu que le gouvernement de la Suède désire que ce projet soit porté à la connaissance des autorités canadiennes et du public canadien en général, par la voie de la presse, le Très Honorable Secrétaire d'Etat pour les Colonies a demandé au gouvernement de Son Excellence de faire tout en son pouvoir pour rencontrer à ce sujet les vues du gouvernement de Sa Majesté le Roi de Suède et Norvège.

En conséquence, tous les loyaux sujets de Sa Majesté résidant dans le Dominion sont par les présentes informés que l'expédition en question aura lieu, et sont priés, si l'occasion se présente, d'aider les explorateurs autant qu'il sera en leur pouvoir de le faire. Si le ballon était aperçu sans pouvoir communiquer avec les explorateurs, on demande que les particularités suivantes soient prises en notes et communiquées à un papier-nouvelles local ou à une institution scientifique, savoir : le jour, l'heure où le ballon aura été vu, la direction de sa course et la direction du vent.

Si les explorateurs victimes d'un accident arrivaient à un endroit après avoir perdu leur ballon, les habitants du lieu sont priés de leur porter secours par tous les moyens possibles.

Daté au bureau du Secrétariat d'Etat le 16 mai 1896.

JOSEPH POPE,
Sous-secrétaire d'Etat.

47-3

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada*, voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre voulu d'insertions.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée. Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministère de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurances—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

S. E. DAWSON,
Imprimeur de la Reine et Contrôleur
de la Papeterie.

Département des Impressions
et de la Papeterie publiques,
Ottawa, novembre 1891.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill prive ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

—

RÈGLE SPÉCIALE DU SÉNAT.

Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

—

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimees ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a*.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b*.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Ordre spécial de la Chambre des Communes.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Substance des règles et formes de procéder du Sénat concernant les bills de divorce.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage a 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

AVIS public est par le présent donné qu'à la prochaine session du parlement du Canada, application sera faite pour l'incorporation d'une compagnie ayant pour objet la construction d'un pont, pour le trafic général et le passage des tramways électriques sur le fleuve Saint-Laurent, entre quelque point sur la rive sud et quelque point dans les limites de la cité de Montréal sur la rive nord, en touchant à l'île Ronde et à l'île Sainte-Hélène, la partie du chenal devant être traversée par un pont à transbordeur, *système Arnodin*, et pour la construction et l'opération des tramways électriques dans les comtés environnants sur la rive sud.

J. U. EMARD,
Avocat des requérants.

Montréal, 3 juin 1896. 49–9

AVIS public est donné par le présent que la Compagnie de poudre de Hamilton s'adressera au parlement du Canada, à sa prochaine session, afin d'obtenir un acte spécial lui permettant—

1. De changer le siège d'affaires de la compagnie à Montréal ;
2. D'augmenter le capital-actions de la compagnie ;
3. D'augmenter le nombre de directeurs de la compagnie ;
4. D'augmenter le montant pour lequel la compagnie peut actuellement émettre des obligations et débentures.

ROBERTSON, FLEET ET FALCONER,
Procureurs des requérants.

Montréal, 26 mai 1896. 48–9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte modifiant les actes constitutifs de la Compagnie des Steamships de Québec (à resp. limitée), et conférant à la dite compagnie le pouvoir d'acheter, construire, équipper, conduire ou louer, ou acquérir un intérêt dans des hôtels et propriété d'hôtel, et pour d'autres fins.

CARON, PENTLAND ET STUART,
Solliciteurs de la requérante.

Québec, 15 mai 1896. 47–9

CHEMIN DE FER BAIE D'HUDSON ET PACIFIQUE.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire, exploiter et entretenir un chemin de fer mû par la vapeur et l'électricité partant de Port Churchill sur la Baie d'Hudson, traversant les territoires du Nord-Ouest et de Kéwatin jusqu'à Fond du Lac sur le lac Athabasca, et depuis Port Churchill susdit sur la Baie d'Hudson, traversant le territoire de Kéwatin au sud de la rivière Churchill et au nord de la rivière Nelson, jusqu'à un point à ou près de Sea Falls, sur la dite rivière ; de là, au nord du lac Winnipeg traversant le territoire de Saskatchewan jusqu'à

Prince-Albert, dans le dit territoire ; de là, continuant sur le dit territoire et le territoire d'Alberta, en ligne droite jusqu'à Calgary, dans le dit territoire en dernier lieu mentionné, avec pouvoir de construire un embranchement depuis un point près du lac Manitou, dans le territoire de Saskatchewan, jusqu'à Edmonton, dans le territoire d'Alberta. Aussi, avec pouvoir de construire, acheter, noliser, entretenir et naviguer des vaisseaux à vapeur et autres pour faire le service entre Fort Churchill et d'autres contrées, porter et transporter des passagers et du fret, et faire un service général de transport en rapport avec le dit chemin de fer ; construire, exploiter, et entretenir les ponts, docks, quais, élévateurs, etc., qui seront nécessaires et avantageux pour les fins de la dite entreprise. Aussi, construire et exploiter des lignes de télégraphe et de téléphone tout le long du chemin de fer projeté et du dit embranchement, pour la transmission de messages pour le public ainsi que pour les fins du dit chemin de fer ; aussi, acquérir les pouvoirs hydrauliques qui seront jugés nécessaires pour la génération de l'électricité pour les fins du chemin de fer et du dit embranchement, et l'achat, construction et entretien de tout outillage électrique qui sera trouvé nécessaire en rapport avec le dit chemin de fer et son embranchement, ses ponts, élévateurs, quais et docks ; et avec tous autres pouvoirs et droits qui pourront être avantageux et nécessaires au succès de la dite entreprise, y compris tels pouvoirs et droits qui pourront être accordés et prescrits, avec le consentement du parlement du Canada, par le parlement de la Grande-Bretagne et l'Irlande.

JOSEPH NELSON.

Ottawa, 12 mai 1896. 46-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire un chemin de fer, mû par la vapeur ou par l'électricité, ou les deux, partant de la ville de Portage la Prairie, dans la province du Manitoba, et allant jusqu'à un gué de la rivière Saskatchewan, aux ou près des Grands Rapides ; de là, par la route la plus praticable, jusqu'à la navigation en eau profonde sur la Baie d'Hudson, avec un embranchement depuis un point à ou près de la frontière internationale entre les rangs onze et quinze, à l'ouest du premier médidien principal, dans la dite province du Manitoba, courant dans une direction nord ou nord-ouest jusqu'à son intersection avec la ligne mère ; aussi une ligne d'embranchement depuis un point sur la ligne mère près des Grands Rapides jusqu'à Edmonton *via* Prince-Albert et Battleford, dans les Territoires du Nord-Ouest ; avec pouvoir de construire et exploiter des lignes de télégraphe et de téléphone le long du dit chemin de fer et ses embranchements pour toutes fins que ce soit ; aussi acquérir, construire, acheter, noliser, posséder et naviguer des vaisseaux à vapeur et autres sur les lacs, rivières et autres eaux navigables, dans le but de faciliter le trafic en rapport avec le dit chemin de fer ; acquérir, construire, acheter et posséder des élévateurs, entrepôts, quais, docks et chantiers en rapport avec le dit chemin fer ; avec tous les pouvoirs et privilèges nécessaires ou ordinaires donnés ou conférés aux compagnies constituées pour aucune des fins susdites.

GEO. ELDON KIDD,
Solliciteur des requérants.

Ottawa, 14 mai 1896. 46-9

COMPAGNIE DE CANAL ET NAVIGATION DE LA BAIE D'HUDSON.

AVIS est donné par le présent que demande sera faite au parlement du Canada, à sa prochaine session, à l'effet de passer un acte constituant une compagnie pour construire un canal depuis un point sur le bras est de la rivière Nelson jusqu'à la Baie d'Hudson ; et d'améliorer la navigation des rivières et cours d'eau se déversant dans le lac Winnipeg de façon à établir une navigation continue, et de prélever des péages ; et de construire, équiper et utiliser des barges et autres vaisseaux, et des tramways pour le transport du fret et des passagers ; et de construire et exploiter des élévateurs, moulins, quais, docks et entrepôts, et des lignes de télégraphe et de téléphone, des outillages hydrauliques et électriques, et fournir la force motrice s'y rattachant, et pour d'autres usages, et généralement avoir et exercer tels pouvoirs qui sont conférés aux corporations de chemins de fer par "l'Acte des chemins de fer," et qui seront applicables à la navigation des canaux et eaux intérieures.

N. F. HAGEL,
Solliciteurs des requérants.

Winnipeg, 2 mai 1896. 44-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, par la Compagnie de chemin de fer et de canal du Lac Manitoba, afin d'obtenir un acte confirmant certains arrangements avec le Gouvernement du Manitoba et la Compagnie de chemin de fer Manitoba et Nord-Ouest, et aussi pour confirmer certains transferts de sa subvention du gouvernement, et pour confirmer certaines hypothèques créées par la compagnie et l'émission de ses obligations, et pour autoriser la compagnie à émettre des octrois de terres et des obligations portant deuxièmes hypothèques et des actions privilégiées, et pour d'autres fins.

KINGSMILL, SAUNDERS ET TORRANCE,
Solliciteurs de la compagnie.

Toronto, 21 mai 1896. 47-9

OTTAWA, SATURDAY, JUNE 13, 1896.

DOMINION OF CANADA.

APPOINTMENTS.

DEPARTMENT OF THE SECRETARY OF STATE OF CANADA.

HIS EXCELLENCY THE GOVERNOR GENERAL has been pleased to make the following appointments, viz. :—

OTTAWA, 7th May, 1896.

THE HONOURABLE GEORGE WHEELOCK BURBIDGE, Judge of the Exchequer Court of Canada : to be a Commissioner for the purpose of making an inquiry into and to investigate and adjudicate upon the claims of Messrs. Bancroft, Connolly & Co., arising out of their contract for the construction of the Kingston Graving Dock.

—

28th May, 1896.

THE HONOURABLE GEORGE WHEELOCK BURBIDGE, Judge of the Exchequer Court of Canada : to be a Commissioner for the purpose of making an inquiry into and to investigate and adjudicate upon the claims of the Contractor Jabez Bunting Snowball, arising out of the construction of the Indiantown Branch of the Intercolonial Railway of Canada.

PROCLAMATIONS.

ABERDEEN.
[L.S.]
CANADA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To all to whom these presents shall come.—GREETING :

WHEREAS We are desirous and resolved, as soon as may be, to meet Our People of Our Dominion of Canada, and to have their advice in Parliament; We do make known Our Royal Will and Pleasure to call a Parliament, and to further declare that by the advice of Our Privy Council for Canada, We have, this day, given Orders for issuing Our Writs in due form, for calling a Parliament in Our said Dominion, which Writs are to bear date on the TWENTY-FOURTH day of APRIL instant, to be returnable on the THIRTEENTH day of JULY next.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed. WITNESS, Our Right Trusty and Right Well-beloved Cousin and Councillor the Right Honourable Sir JOHN CAMPBELL HAMILTON-GORDON, Earl of Aberdeen ; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland ; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom ; Baronet of Nova Scotia, Knight Grand Cross of Our Most Distinguished Order of St. Michael and St. George, etc., etc., Governor General of Canada.

At Our Government House, in Our City of OTTAWA, this TWENTY-FOURTH day of APRIL, in the year of Our Lord one thousand eight hundred and ninety-six, and in the Fifty-ninth year of Our Reign.

By Command,

SAML. E. ST. O. CHAPLEAU,
Clerk of the Crown in Chancery for Canada.

[1716]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 13th day of May, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of The Harbour Masters Act, chapter 86 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to appoint Mr. A. P. St. Laurent, to be Harbour Master of the Port of Rimouski, Province of Quebec, in the room of Mr. Joseph St. Laurent, deceased.

JOHN J. McGEE,
Clerk of the Privy Council.

47-4

[78]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 7th day of January, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of The Weights and Measures Act, chapter 104 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Order in Council of the 2nd December, 1895, amending section 19 of the Regulations respecting Weights and Measures, established by the Order in Council of the 9th January, 1889, being chapter 42 of the Consolidated Orders in Council of Canada, shall be and the same is hereby cancelled inasmuch as an error of one point of decimal was made therein in the grain weights, and that the following corrected regulations be and the same are hereby established in lieu thereof :—

The form of all measures of capacity must be cylindrical or conical : when of the latter form, they shall not be verified unless they are capable of containing, when filled to the narrowest parts of the neck, the respective weights of distilled water as set forth below :—

For every gallon	10 lbs. av.
For every ½ gallon	5 lbs. av.
For every quart	2½ lbs. av.
For every ½ pint	4375 grains troy.
For every gill	2187 grains troy.
For every ½ gill	1093 grains troy.

to be weighed in air against brass weights at a temperature of 62° F., and with the barometer at 30°.

JOHN J. McGEE,
Clerk of the Privy Council.

48–4

[1660]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 20th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the powers conferred upon him by The Dominion Lands Act, chapter 54 of the Revised Statutes of Canada, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Villa lots Nos. 37 and 38, at Revelstoke, British Columbia, which are shown coloured pink on the annexed plan, be, and the same are hereby reserved and set apart for cemetery purposes : And inasmuch as Revelstoke is an unincorporated community, the said lands shall be vested in Noble Coursier, merchant ; John Abramson, hotel-keeper, and H. J. Bourne, hotel-keeper, as trustees therefor.

JOHN J. McGEE,
Clerk of the Privy Council.

48–4

[1690]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 15th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of Section 17 of the Consolidated Revenue and Audit Act, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Inland Revenue Division of Saint John's, P.Q., which comprises the following counties, viz. :—Brome, Iberville, Missisquoi, Napierville, Shefford and Saint John's, shall be and the same is hereby attached to the Inland Revenue Division of Sherbrooke, to be known and designated as the Inland Revenue Division of Sherbrooke.

JOHN J. McGEE,
Clerk of the Privy Council.

CONFIRMATION OF RANK.

The undermentioned provisionally appointed Officers having qualified themselves for their appointments are confirmed in their rank from the dates set opposite their respective names:—

2nd Lieutenant A. R. Sweatman, 2nd Dragoons; from the 30th April, 1896.

Captain C. A. Worsnop, 5th Regiment Canadian Artillery; from the 11th April, 1896.

Captain C. C. Bennett, 5th Regiment Canadian Artillery; from the 11th April, 1896.

2nd Lieutenant L. R. Johnson, 5th Regiment Canadian Artillery; from the 11th April, 1896.

2nd Lieutenant C. G. John, 5th Regiment Canadian Artillery; from the 11th April, 1896.

2nd Lieutenant F. W. Boultbee, 5th Regiment Canadian Artillery; from the 11th April, 1896.

2nd Lieutenant J. R. Tite, 5th Regiment Canadian Artillery; from the 11th April, 1896.

2nd Lieutenant H. C. Akroyd, 5th Regiment Canadian Artillery; from the 11th April, 1896.

2nd Lieutenant H. H. Baker, 5th Regiment Canadian Artillery; from the 11th April, 1896.

Captain T. Somers, 53rd Battalion; from the 8th May, 1896.

2nd Lieutenant W. H. Davidson, 8th Battalion; from the 14th May, 1896.

2nd Lieutenant E. R. Hale, 8th Battalion; from the 14th May, 1896.

2nd Lieutenant J. J. Sharples, 8th Battalion, from the 14th May, 1896.

2nd Lieutenant J. A. Morin, 17th Battalion, from the 14th May, 1896.

2nd Lieutenant T. A. O'Farrell, 87th Battalion, from the 14th May, 1896.

2nd Lieutenant A. Panet, 87th Battalion, from the 14th May, 1896.

2nd Lieutenant A. Garant, 9th Battalion; from the 14th May, 1896.

2nd Lieutenant J. Livernois, 87th Battalion; from the 14th May, 1896.

2nd Lieutenant W. S. Champion, 8th Battalion; from the 14th May, 1896.

2nd Lieutenant G. A. Taschereau, 23rd Battalion; from the 14th May, 1896.

2nd Lieutenant A. B. A. Gagnon, 89th Battalion; from the 14th May, 1896.

2nd Lieutenant J. A. La Rue, 87th Battalion; from the 14th May, 1896.

2nd Lieutenant C. K. Fraser, 53rd Battalion; from the 14th May, 1896.

2nd Lieutenant J. P. Wells, 53rd Battalion; from the 14th May, 1896.

2nd Lieutenant L. E. M. Dastous, 53rd Battalion; from the 14th May, 1896.

2nd Lieutenant J. J. Penhale, 53rd Battalion; from the 14th May, 1896.

2nd Lieutenant O. Redman, 81st Battalion; from the 31st March, 1896.

2nd Lieutenant O. L. Pope, 58th Battalion; from the 31st March, 1896.

2nd Lieutenant W. H. Murray, 58th Battalion; from the 31st March, 1896.

2nd Lieutenant A. Lefebvre, 64th Battalion; from the 31st March, 1896.

2nd Lieutenant J. A. Hamel, 81st Battalion; from the 31st March, 1896.

By Command,

M. AYLMER, Lieut.-Colonel,
Assistant Adjutant General of Militia,
Canada.

IN THE EXCHEQUER COURT OF CANADA.

General Order.

THE Special sitting of the Exchequer Court of Canada, fixed by General Order of the 2nd day of April, 1896, to be holden at the City of Halifax, N.S., on the 6th day of July, 1896, is hereby rescinded; and it is hereby ordered that a special sitting of the said Court in lieu thereof be holden at the Court-house, in the said City of Halifax, on Tuesday, the 22nd day of September, 1896, commencing at the hour of 11 a.m.

Dated at Ottawa, this 8th day of June, A.D. 1896.

GEO. W. BURBIDGE,
50–3 J.E.C.

Ottawa, 5th June, 1896.

Notice *re* The Toronto, Hamilton and Buffalo Railway Company.

To all whom it may concern:—

WHEREAS by the Act of the Dominion of Canada, 58-59 Vic., ch. 66 (1895), certain additional powers were provisionally conferred on the Toronto, Hamilton and Buffalo Railway Company (which company, incorporated by the Provincial Act of Ontario, 47 Vic., ch 75, and receiving extensions of time and further powers by subsequent Provincial Acts, obtained in 1891, a Dominion Act, 54-55 Vic., ch. 86, confirming it in the rights and privileges so acquired).

And whereas by the said Act 58-59 Vic., ch. 66, a certain by-law of the City of Hamilton, granting a bonus to the company was ratified and confirmed, the time for completion was extended, and other provisions were made, it being, however, provided by section 10, that the Act should not come into force until the company satisfy the Minister of Railways and Canals that they have paid and discharged certain indebtedness incurred for railway construction on their line between Hamilton and Cainsville, and until the Minister "certifies by publication in the *Canada Gazette* that he is so satisfied."

And whereas by an amending Act, passed at the last session of Parliament, 59 Vict., ch. 39, it was made sufficient that the company should satisfy the Minister that they "have deposited with the Bank of Hamilton, at Hamilton, the sum of at least eighty-five thousand dollars, to be held by the said bank in trust to pay and discharge" the said indebtedness, and that upon such deposit "and the acceptance thereof by the said bank" the bank should become trustees of the same for the payment of the said debts, and that "the cashier of the said bank having certified that the said deposit has been so made, "the Minister of Railways and Canals shall declare the said Act in full force and effect."

And whereas, under date the 13th of May, 1896, the city clerk of Hamilton has forwarded a certificate of the cashier of the Bank of Hamilton, bearing the same date, showing that the said sum of $85,000 has been deposited with the bank by the company, and that the bank accepts the same and agrees to hold it in trust for the objects, uses, and purposes set forth in sections 10 and 11 of the Statutes of 1895, chapter 66, and in section 2 of the Statutes of 1896, chapter 39 aforesaid.

The undersigned, being satisfied that such deposit has been duly made and accepted by the several parties concerned, in accordance with the above mentioned statutory requirements, hereby, under the powers by the aforesaid Act 59 Vic., ch. 39, conferred on him, certifies that he is so satisfied, and declares the Act 58-59 Vic., ch. 66 of 1895, in full force and effect.

JOHN HAGGART,
Minister of Railways and Canals.
Ottawa, 3rd June, 1896. 49-3

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 20th day of May, 1896, incorporating Edward Kirk Greene, jr., merchant, John Leckie Galletti, merchant, Charles Cushing, notary, John Edgar, merchant, Eben McAdam, clerk, all of the City and District of Montreal, in the Province of Quebec, for the following purposes, viz.:—The carrying on in all its branches of the business of manufacturing and dealing in bags of every description; the manufacture of, calendering and dealing in jute, cotton, cloths, twines and all products thereof; the printing, stamping, and otherwise completing the same; the acquiring and disposing of any and all patent rights in connection therewith,—by the name of "The Beaver Bag Company" (Limited), with a total capital stock of one hundred thousand dollars, divided into one thousand shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this 29th day of May, 1896.

CHARLES TUPPER,
48-3 Secretary of State.

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 20th day of May, 1896, incorporating Robert Bickerdike, trader, Guillaume N. Ducharme, banker, Francis J. Freese, manager, The Honourable Alexander Walker Ogilvie, Senator, James G. Ross, accountant, William P. O'Brien, manufacturer, Patrick Francis Doody, manager, all of the City of Montreal, in the Province of Quebec, for the following purposes, viz.:—

(*a*) To manufacture gas and to construct gas plants and lay gas pipes for use in cities, towns and villages of the Dominion of Canada;

(*b*) To acquire, construct, operate and maintain any system or systems for the supply of gas and the plant and appliances necessary for the maintenance and working of the same in cities, towns and villages, parishes and elsewhere in the Dominion of Canada; and to sell, deal in and dispose of the same to any corporation or person;

(*c*.) To acquire any system or process of increasing the illuminating and heating power and effecting a saving in the consumption of coal gas in cities and large towns and also for manufacturing and supplying a new carburetted air gas for use in towns and villages, factories, country houses and other places in the Dominion of Canada, for cooking, manufacturing, illuminating and other purposes and to operate and deal in the same;

(*d*.) To acquire, deal in and dispose of all patent rights of invention relating to said matters and more particularly to acquire, use, and sell all rights and privileges granted under letters patent of the Dominion of Canada, number 44943 known as the "Lawrence Gas Mixing and Atomizing Process";

(*e*.) To purchase or acquire and operate any other system or systems of producing gas for heating, illuminating, cooking, manufacturing or other purposes, together with the plant, machinery, materials and all appurtenances necessary and adherent thereto, by the name of "The Economic Gas Company" (Limited), with a total capital stock of one hundred thousand dollars divided into ten thousand shares of ten dollars.

Dated at the office of the Secretary of State of Canada, this 29th day of May, 1896.

CHARLES TUPPER,
48-3 Secretary of State.

OFFICE OF THE SUPERINTENDENT OF INSURANCE,
OTTAWA, 18th May, 1896.

NOTICE is hereby given that The Canadian Sick Benefit Society has this day received a license No. 150 to transact in Canada the business of insurance against sickness and disability, on the assessment plan.

Charles Egan is the Chief Agent of the society, and its head-office is established at the Town of Petrolia, Ontario.

W. FITZGERALD,
47-4 Superintendent of Insurance.

NOTICE TO MARINERS.

No. 20 of 1896.

I. CHANGE IN BUOYS AT MOUTH OF RIVER DETROIT.

The Canadian buoys on the east side of the dredged channel at the mouth of River Detroit, Lake Erie, have this season been rearranged and increased in number. The channel has been dredged by the American Government to a width of 800 feet, its axis being a straight line joining Detroit River Lighthouse (American) and Bois Blanc Island Lighthouse (Canadian).

The Canadian buoys marking the east edge of this dredged cut are now seven red wooden spars. They are situated approximately 400 feet east of the centre line of the above dredged channel, and are respectively 4,462, 5,632, 6,927 (approximately), 8,221, 10,029, 11,365 and 13,525 feet above Detroit River Lighthouse. This last most northerly buoy is about 18,600 feet below Bois Blanc Lighthouse. The above distances are measured along the axis of the channel to points immediately opposite to the buoys.

This notice affects Admiralty charts Nos. 332, 490 and 678.

II. PILOT ISLAND RANGE LIGHTS.

Notice is given by the Lighthouse Board of the United States of America that, on or about the 4th June, 1896, the colour of each of the lights of this range, located on the south side of Mud Lake, River St. Mary, will be changed from red to white.

No other change will be made.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 2nd June, 1896. 50-3

NOTICE TO MARINERS.

No. 19 of 1896.

I. POLLOCK SHOAL BUOY.

A red iron can buoy was on the 13th instant established by the Government of Canada on the south side of Pollock Shoal, lying south of Point Enragé, in the County of Lunenburg, on the southern coast of Nova Scotia.

Lat.	N.	44°	14'	53"
Long.	W.	64°	14'	35"

The buoy is moored in 7 fathoms water, about $\frac{3}{4}$ mile south of the extremity of Point Enragé and about 200 yards S.S.E. from a $2\frac{1}{2}$ fathom patch not shown on Admiralty chart No. 342.

From the buoy Cross Island Light bears N.E. by E. $\frac{1}{2}$ E. $5\frac{1}{4}$ miles.

From the buoy Rose Point bears N.E. by N. $2\frac{3}{4}$ miles.

From the buoy Moshers Island Light bears W. $\frac{3}{4}$ N. $3\frac{1}{8}$ mile.

From the buoy West Ironbound Light bears W.S.W. $1\frac{5}{8}$ mile.

This notice affects Admiralty charts Nos. 342 and 730.

II. SHOAL WATER NOT SHOWN OFF POINT ENRAGE.

The Superintendent of lights for Nova Scotia reports that while examining Pollock Shoal off Point Enragé, on the 13th instant, he found a boulder with an area of probably 50 to 60 feet covered with about $2\frac{1}{2}$ fathoms water, at a place where the chart shows about $4\frac{1}{2}$ fathoms. This shoal will be more accurately located and further information published.

This notice affects Admiralty charts Nos. 342 and 730.

III. HAND FOG ALARM AT CANSO HARBOUR LIGHT STATION.

A fog horn, to be worked by hand, has been placed at Canso Harbour Light Station, at the eastern extremity of the mainland of Nova Scotia, and will be operated by the keeper in answer to signals from vessels approaching the harbour.

This notice affects Canadian List of Lights and Fog Signals No. 236.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 21st May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 49–3

TO ADVERTISERS IN THE *GAZETTE.*

PARTIES sending advertisements to be inserted in the *Canada Gazette* will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."

2nd. Indicate the number of insertions required.

3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are 10 cents for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cents each, and when more than one are required by advertisers, must be remitted for likewise.

S. E. DAWSON,
Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

CONDENSED RULES *in re* NOTICES FOR PRIVATE BILLS.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of The British North America Act, 1867, for granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application ; such notice except in the case of existing corporations) shall be signed by, or on behalf of the applicants, and be published as follows, viz :

In the Provinces of Quebec and Manitoba.

In the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

In the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices shall be continued in each case, for a period of at least two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. Marked copies of all the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House, endorsed "Application for a Private Bill."

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioners shall also, at the same time and in the same manner, give notice of the proposed rates of toll, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and, if a drawbridge, the dimensions of the same.

Any person seeking to obtain a Private Bill shall, at least eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the Bill is to originate, a copy of such Bill in the English or French language, with a sum sufficient to pay for translating and printing the same. The applicant shall also, after the second reading, and before the consideration of the Bill by any Committee, pay the Clerk of the Senate, or the Accountant of the House of Commons (as the case may be) a fee of $200, and a sum sufficient to pay the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred.

The fee of $200 payable on any Private Bill is paid only in the House in which such Bill originates ; but the charges for reprinting and translation consequent thereon are paid in the House in which such charges are incurred.

No Petition for a Private Bill is received by the Senate or by the House of Commons after the first three weeks of the Session.

No Private Bill may be presented to the Senate or to the House of Commons after the first four weeks of the Session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.
JOHN GEORGE BOURINOT,
Clerk of the Commons.

SPECIAL RULE OF THE SENATE.

49. (*c.*) When a Bill is to operate in more than one Province, Territory or District, the notices shall be published in the *Canada Gazette* and in a leading newspaper published in each Province, Territory or District in which the Bill is to operate.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

ADDITIONAL RULES OF THE HOUSE OF COMMONS RESPECTING PRIVATE BILLS.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bill ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule*, shall be recast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses.*

51*a.* All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill, copies of which may be obtained from the Clerk of the House.

(*a.*) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and Bills which are not in accordance with this Rule shall be returned to the promoters to be recast before being revised and printed ;

(*b.*) Any sections of existing Acts which are proposed to be amended shall be reprinted in full with the amendments inserted in their proper places and between brackets ;

(*c.*) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b.* No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a.*) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or autho-

rized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map or plan shall be signed by the Engineer or other person making the same ;

(*b*.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SPECIAL ORDER OF THE HOUSE OF COMMONS.

Resolved, That the Clerk of the House do have a copy of the new Rule 49 sent to those persons giving notice in the *Canada Gazette* of their intention to apply to Parliament for the passing of a Private Bill, together with a notification that the said Rule will be strictly adhered to for the future :--

49. Petitions for Private Bills shall only be received by the House within the first *three weeks* of the session, and Private Bills may only be presented to the House within the first *four weeks* of the session, and it shall be the duty of any Committee to which any Private Bill may be referred to consider and report the same to the House with all convenient speed.

2. That it be an instruction to all Committees on Private Bills, in the event of promoters not being ready to proceed with their measures when the same have been twice called *on two separate occasions* for consideration by the Committee, that such measures shall be reported back to the House forthwith, together with a statement of the facts and with the recommendation that such Bills be withdrawn.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the *Canada Gazette* and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-west Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under The Canada Evidence Act, 1893.

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a Religious Body to be called and known as "The Wesleyan Methodist Connection of Canada," and to authorize such corporation to meet and adopt, frame or repeal constitutions and make regulations for enforcing discipline in said Connection, and to empower said corporation to acquire, receive and take conveyances of such lands, moneys, mortgages, securities or other property as may be required for the purposes of a chapel or chapels, college or colleges, school or schools or other educational purposes connected with the said Connection, and for the purpose of a printing and publishing house or houses in connection with the said Connection, and for power to undertake and carry on such business of printing and publishing, and for authority and power to endow and support such chapels, colleges and schools, and such printing and publishing house or houses and a book depository or depositories in connection therewith, and to take and receive the benefit of any gift or devise by will or otherwise in its said corporate name or otherwise, and to give said Connection all necessary powers connected therewith.

BRADLEY & WYLD,
Solicitors for applicants.

Dated at Ottawa, this 1st day of June, A.D. 1896.
49-9

NOTICE is hereby given that The Wolseley and Fort Qu'Appelle Railway Company will make application to the Parliament of Canada, at its next session, to have their railway charter amended, so as to give an extension of time for the commencement and completion of their railway and for a reduction of the capital stock of the company, and in other respects.

LEVI THOMSON,
Solicitor for the applicants.
49-9

PUBLIC Notice is hereby given that at the next session of the Parliament of Canada, application shall be made for the incorporation of a company having for its object the construction of a bridge, for the general traffic and the passage of electric tramways on the St. Lawrence River, between some point on the south shore, and another point in the limits of the City of Montreal, on the north shore, in passing by Round Island and St. Helen Island, the channel to be traversed by a bridge with suspended carrier *Arnodin System*, and the construction and operation of electric tramways in the surrounding counties on the south shore.

J. U. EMARD,
Solicitor for applicants.

Montreal, 3rd June, 1896.
49-9

NOTICE is hereby given that an application will be made to the Parliament of Canada, at the ensuing session thereof, for an Act confirming the deed of amalgamation entered into between the Ottawa, Arnprior and Parry Sound Railway Company and the Parry Sound Colonization Railway Company, and to incorporate the said companies into one corporation under the name of the Ottawa, Arnprior and Parry Sound Railway Company, with powers as in the several Acts relating to the said companies respectively and in the said deed of amalgamation are contained, or to change the name of the said amalgamated company.

CHRISTIE, GREENE & GREENE,
Solicitors for applicants.

Dated at Ottawa, this 30th day of May, 1896.
49-9

THE HUDSON'S BAY AND PACIFIC RAILWAY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a railway to be operated by steam and electricity from Port Churchill on Hudson's Bay through North-west and Keewatin Territories, to Fond du Lac, on Lake Athabaska, and from Port Churchill aforesaid, on Hudson's Bay, through the Territory of Keewatin, south of Churchill River and north of Nelson River, to a point at or near Sea Falls, on said river; thence north of Lake Winnipeg through the Territory of Saskatchewan to Prince Albert, in said Territory; thence continuing through the said Territory and the Territory of Alberta, in a direct line to Calgary, in the said last mentioned Territory, with power to construct a branch line from a point near Manitou Lake, in the Territory of Saskatchewan, to Edmonton, in the Territory of Alberta. Also, with power to build, purchase, charter, maintain and navigate steam and other vessels to ply between Fort Churchill and other countries, to carry and convey passengers and freight, and carry on a general transportation service in connection with said railway; to construct, operate and maintain such bridges, docks, wharves, elevators, etc., as may be necessary and advantageous for the purposes of the said undertaking. Also to construct and operate telegraph and telephone lines along the whole length of the proposed railway and said branch, for the transmission of messages for the public as well as for the purposes of said railway; also to acquire such water powers as may be deemed requisite for the generation of electricity for the purposes of said railway and said branch, and the purchase, erection and maintenance of all such electrical plant as may be necessary in connection with said railway and branch, its bridges, elevators, wharves and docks; and with all such other powers and rights as may be advantageous and necessary to the success of said undertaking, including such as may be granted and prescribed, with the consent of the Parliament of Canada, by the Parliament of Great Britain and Ireland.

JOSEPH NELSON.

Ottawa, 12th May, 1896. 46–9

PUBLIC Notice is hereby given that The Georgian Bay Ship Canal and Power Aqueduct Company will apply to the Parliament of Canada, at its next session, for a special Act confirming, extending and augmenting the powers of the company; such Act to specially provide:—

1. For the construction, regulation, and control of harbours and navigation at the terminals of a ship canal, which the company is authorized to construct and operate from some point on Lake Ontario, within the County of York, to some point on the Georgian Bay;
2. That the company may divert and use the waters of any spring, creek, river, lake, or any other source or sources of water supply, for the purposes of the company, and regulate the levels of such waters;
3. That the company may regulate the traffic of the said canal or other navigable waters under the control of the company;
4. For the extension of the borrowing powers of the company, and to define the denomination and character of the notes, bonds, debentures, securities to be issued by the company;
5. For the construction and improvement by the company of other canals or waterways in Canada for the purpose of augmenting or increasing the traffic of the canal first mentioned;
6. The remission and exemption from all customs duties and charges on all plant, machinery and materials to be imported and used in the construction and equipment of the company's works.

J. A. MACDONALD,
Managing director of The Georgian Bay
Ship Canal and Power Aqueduct Co.

46–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, by The Chignecto Marine Transport Railway Company (Limited), for an Act to extend the time for the completion of its works and to reduce the number of its directors, and for other purposes.

H. KENDRICK,
Secretary.
By A. FERGUSON,
Solicitor for the applicants.

Dated 7th May, 1896. 45–9

HUDSON'S BAY CANAL AND NAVIGATION COMPANY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next ensuing session, to pass an Act to incorporate a company to construct a canal from a point on the east branch of the Nelson River to Hudson's Bay; and to improve the navigation of rivers and waterways emptying into Lake Winnipeg so as to secure continuous navigation; and to collect tolls thereon; and to construct, equip and operate canal boats and other vessels, and tramways for transportation of freight and passengers; and to construct and operate elevators, mills, wharves, docks and warehouses, and telegraph and telephone lines, hydraulic and electric plants, and to supply motive power in connection with the same, and for other uses, and generally to have and exercise such powers as are given to railway corporations under The Railway Act, and as may be applicable to canals and inland navigation.

N. F. HAGEL,
Solicitor for applicants.

Winnipeg, 2nd May, 1896. 44–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a bridge across the Niagara River at or near the Village of Fort Erie, in the County of Welland, for the passage of pedestrians and vehicles and for the passage of cars propelled by any power, and for the acquisition of all terminal facilities and for power to lease to or otherwise give running powers thereover to any railway company; and to carry gas pipes, wires or cables or other appliances for the transmission of gas and electricity and other power; and with power to lay tracks on said bridge and approaches thereto for the passage of cars, and to operate the same or to enter into any contract or agreement with any individual corporation or corporations with reference to operating the same and to connect the same with any line or lines of railway and to amalgamate with any other company incorporated or to be incorporated by the Legislature of the State of New York or the Congress of the United States of America for the same purpose; and also for power to construct, maintain and operate water wheels under said bridge for the generation of electricity and for all powers necessary for that purpose and for the transmission abroad of such electric force. The height of the arches of said bridge shall not be less than sixty feet and the interval between the abutments or piers shall be two hundred feet, and said bridge shall be constructed with a draw of two hundred feet across the channel of said river for the passage of rafts and all vessels. The rates of toll for the use of said bridge shall not exceed twenty-five cents for each carriage or vehicle (including the driver) drawn by two horses, twenty cents for a single horse, carriage and driver, and fifteen cents for each other person.

HARCOURT, COWPER & MACOOMB,
Solicitors for applicants.

Dated at Welland, 13th April, 1896. 43–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, for an Act to incorporate a company to carry on the business of guaranteeing:—

1. Corporations, partnerships and individuals against lost occasioned by fraud practised upon paper representing or used as security for money;

2. Employees in positions of trust;

3. Titles to real estate and the validity of wills;

4. The repayment of loans and investments of money in manufacturing businesses, mining enterprises and in real estate;

5. The payment of rent, interest, dividends, mortgages, debentures and all other obligations of indebtedness, and

6. The payment of life, accident, fire and marine policies of insurance.

And for such other powers as may be incidental to such business.

GEMMILL & MAY,
Solicitors for applicants.

Ottawa, 13th May, 1896. 46-9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct a railway, and to work the same either by steam or by electric power or both, from the Town of Portage la Prairie in the Province of Manitoba, to a crossing of the Saskatchewan River, at or near Grand Rapids, thence by the most practicable route to deep water navigation on Hudson Bay, with a branch line from a point at or near the International Boundary between Ranges eleven and fifteen, west of the first principal Meridian, in the said Province of Manitoba, running in a northerly or north-westerly direction to its intersection with the main line; also a branch line from a point on the main line near Grand Rapids to Edmonton *viâ* Prince Albert and Battleford in the North-west Territories, with power to construct and operate telegraph and telephone lines along the said railway and branches for all purposes, also to acquire, build, purchase, charter, own and operate steam and other vessels on lakes, rivers and other navigable waters for the purpose of facilitating the traffic in connection with said railway; to acquire, build, purchase, and own elevators, warehouses, wharves, docks and dockyards in connection with the said railway, with all the proper or usual powers, rights, and privileges given or granted to companies incorporated for any of the purposes aforesaid.

GEO. ELDON KIDD,
Solicitor for applicants.

Dated at Ottawa, this 14th day of May, A.D. 1896.
46-9

NOTICE is hereby given that application will be made by The Lake Manitoba Railway and Canal Company to the Parliament of Canada, at its next session, for an Act to confirm certain agreements with the Manitoba Government and The Manitoba and North-western Railway Company, and also to confirm certain transfers of its Government subsidies, and to confirm certain mortgages made by the company and the bond issue thereof, and to empower the company to issue land grant and second mortgage bonds and preference stock, and for other purposes.

KINGSMILL, SAUNDERS & TORRANCE,
Solicitors for the company.

Toronto, 21st May, 1896. 47-9

PUBLIC Notice is hereby given that the Hamilton Powder Company will apply to the Parliament of Canada, at its next session, for a special Act to enable it to—

1. Change the head office of the company to Montreal;

2. To increase the capital stock of the company;

3. To increase the number of directors of the company;

4. To increase the amount for which the company can presently issue bonds and debentures.

ROBERTSON, FLEET & FALCONER,
Attorneys for applicants.

Montreal, 26th May, 1896. 48-9

YUKON RAILWAY AND NAVIGATION COMPANY.

NOTICE.—Application will be made to the Parliament of Canada, at the next session thereof, to incorporate the "Yukon Railway and Navigation Company," from a point at Taku River and Telegraph Creek or Dease River to Teslin Lake in British Columbia and the North-west Territories.

APPLICATIONS FOR CHARTER BY LETTERS PATENT.

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants hereinafter described, and such other persons as may become shareholders in the proposed company, a body corporate and politic under the name and for the purposes hereinafter mentioned:—

1. The proposed corporate name of the company is "Kootenay Mine Exploration Company" (Limited).

2. The purposes for which incorporation is sought are:—

(*a.*) To search for, prospect, examine and explore mines and ground supposed to contain minerals or precious stones, and to search for and obtain information in regard to mines, mining districts and localities;

(*b.*) To purchase or otherwise acquire, and to sell, dispose of and deal with, mines and mining rights of all kinds, and undertakings connected therewith;

(*c.*) To work, exercise, develop and turn to account, mines and mining rights, and any undertaking connected therewith;

(*d.*) To buy, sell, concentrate, smelt, refine, manipulate and deal in minerals of all kinds, and, in particular, gold, silver, and other precious metal and precious stones;

(*e.*) To carry on any other businesses which may seem to the company capable of being conveniently carried on in connection with the above or calculated directly or indirectly to enhance the value of or render profitable any of the company's property or rights;

(*f.*) To acquire and undertake the whole or any part of the business, property, and liabilities of any person or company carrying on any business which this company is authorized to carry on, or possessed of property suitable for the purposes of this company;

(*g.*) To enter into partnership or into any arrangement for sharing profits, union of interests, co-operation, joint adventure, reciprocal concession, or otherwise, with any person or company carrying on, or engaged in or about to carry on or engage in, any business or transaction which this company is authorized to carry on or engage in, or any business or transaction capable of being conducted so as directly or indirectly to benefit this company. And to lend money to, guarantee the contracts of, or otherwise assist, any such person or company, and to take or otherwise acquire shares and securities of any such company, and to sell, hold, re-issue, with or without guarantee, or otherwise deal with the same;

(*h.*) To sell the undertaking of the company or any part thereof for such consideration as the company may think fit, and in particular for shares, debentures, or securities in or of any other company having objects altogether or in part similar to those of this company;

(*i.*) To promote any other company for the purpose of acquiring all or any of the property and liabilities of this company, or for any other purpose which may seem directly or indirectly calculated to benefit this company;

(*j.*) Generally to purchase, take on lease or in exchange, hire, or otherwise acquire any real and personal property, and any rights or privileges which the company may think necessary or convenient for the purposes of its business and in particular any land, buildings, easements, machinery, plant and stock in trade;

(*k.*) To remunerate any person or company for services rendered, in placing or assisting to place or guaranteeing the placing of any of the shares in the company's capital, or any debentures or other securities of the company, or in or about the promotion of the company or the conduct of its business;

(*l.*) To do all or any of the above things in any part of the world and as principals, agents, contractors, trustees, or otherwise, and by or through trustees, agents, or otherwise, and either alone or in conjunction with others;

(*m.*) To enter into any arrangements with any governments or authorities, supreme, municipal, local or otherwise, that may seem conducive to the company's objects, or any of them, and to obtain from any such government or authority, any rights, privileges and concessions which the company may think it desirable to obtain, and to carry out, exercise, and comply with any such arrangements, rights, privileges and concessions;

(*n.*) To take, or otherwise acquire, and hold shares in any other company having objects altogether or in part similar to those of this company, or carrying on any business capable of being conducted so as directly or indirectly to benefit this company;

(*o.*) To procure the company to be registered or recognized in any foreign country or place or in and elsewhere abroad;

(*p.*) To construct, improve, maintain, work, manage, carry out, or control any roads, ways, tramways, railways, branches or sidings, reservoirs, watercourses, wharves, manufactories, warehouses, electric works, shops, stores, and other works and conveniences which may seem calculated directly or indirectly to advance the company's interests, and contribute to, subsidise, or otherwise assist or take part in the construction, improvement, maintenance, working, management, carrying out, or control thereof;

(*q.*) To amalgamate with any other company having objects altogether or in part similar to those of this company;

(*r.*) To distribute any of the property of the company among the members in specie.

3. The chief place of business of the proposed company is to be the City of Toronto.

4. The proposed amount of the capital stock of the company is $200,000.

5. The number of shares is to be 40,000 of a par value of $5 each.

6. The names in full, and the address and calling of each of the applicants are as follow:—George Gooderham, of the City of Toronto, distiller; Rufus Henry Pope, of the Village of Cookshire, in the Province of Quebec, merchant; Thomas Gibbs Blackstock, of the City of Toronto, barrister; Joseph Walker Beatty, of the City of Toronto, accountant, and David Fasken, of the City of Toronto, barrister; all of whom are to be first or provisional directors of the said company.

BEATTY, BLACKSTOCK, NESBITT,
CHADWICK & RIDDELL,
Solicitors for the applicants.

Dated at Toronto, this 9th day of June, 1896. 50-6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such other persons as may become shareholders in the proposed company, a body politic and corporate under the name and for the purposes hereinafter mentioned:—

1. The corporate name of the company will be "La Compagnie de publications artistiques" (Limited).

2. The purposes for which incorporation is sought are the following:—

(*a.*) To acquire the necessary rights to print and publish literary, artistic and other works;

(*b.*) To buy, sell, manufacture and produce such artistic, literary and other works;

(*c.*) To obtain, use, sell, buy, lease or license the use of patents and patent rights, designs, copyrights, etc., and sell, lease and otherwise deal with the same;

(*d.*) To acquire and possess all the printing material, engraving on wood and metal, the plant connected with and necessary to said arts and industries, and also the real property necessary to the purposes of the company, and to sell or otherwise dispose thereof;

(*e.*) To acquire and hold shares in the capital stock of other companies, and to sell and otherwise dispose thereof.

3. The chief place of business of the company will be in the City of Montreal, Province of Quebec.

4. The amount of the capital stock of the company is fifty thousand dollars, divided into one thousand shares of fifty dollars each.

5. The names in full, address and occupation of each of the applicants are,—Guillaume Narcisse Ducharme, banker, of the City of St. Cunégonde of Montreal, Louis Joseph Odilon Beauchemin, stationer, Aphrodise Mathias Charbonneau, commission agent, Joseph Adam, advocate, and Ubalde Plourde, advocate; these last four, of the City and District of Montreal, will be the first or provisional directors of the company.

ADAM & PLOURDE,
Solicitors for applicants.

Montreal, 18th May, 1896. 50-6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, constituting the applicants and such other persons as may become shareholders in the proposed company, a body politic and corporate under the name and for the purposes hereinafter mentioned :—

1. That the name of the proposed company is to be "The Ottawa Truss and Surgical Manufacturing Company" (Limited).

2. That the object for which incorporation is sought is to manufacture and sell throughout the Dominion of Canada, trusses, suspensory bandages, elastic stockings, artificial limbs, and generally surgical appliances of all kinds.

3. That the operations of the said company are to be carried on in the City of Ottawa, which is also to be its chief place of business, and at such other places within the Dominion of Canada, as may be decided upon.

4. That the amount of capital stock of the company is to be thirty thousand dollars.

5. That the number of shares is to be three hundred, and the amount of each share one hundred dollars.

6. That the names in full, and the address and calling of each of the applicants are as follow :—Albert Hudson, agent, Frederick Bindon, agent, R. Cashier.

St. Jean, 6th May, 1896. 49–5

NOTICE is hereby given that application will be made by the Toronto, Hamilton and Buffalo Railway Company to His Excellency the Governor General in Council, at the Parliament Buildings, at the City of Ottawa, Ontario, on Tuesday, the 11th day of August, A.D. 1896, at the hour of 11 o'clock in the forenoon, or on the first day thereafter that the application may be heard at the same place and hour, for the approval by His Excellency the Governor in Council of, and for an order extending for a period of fifty years from the date thereof, the agreement bearing date the 9th day of July, A.D. 1895, made between the Toronto, Hamilton and Buffalo Railway Company, the Michigan Central Railroad Company, the Canada Southern Railway Company, the New York Central and Hudson River Railroad Company, and the Canadian Pacific Railway Company, for the division and apportionment of tolls, rates and charges in respect of traffic to be interchanged between the respective railways of the said companies, and for the regulation and interchange of traffic passing between the railways of the said companies respectively as provided for in the separate agreement between the same parties and the Dominion Construction Company and the American Loan and Trust Company, bearing even date therewith.

And notice is hereby further given that application will also be made by the said Toronto, Hamilton and Buffalo Railway Company to His Excellency the Governor in Council at the same place, date and hour, for the approval by His Excellency the Governor General in Council of the agreements bearing date respectively the 9th day of July, 1895, the 18th day of December, 1895, and the 21st day of April, 1896, between the Toronto, Hamilton and Buffalo Railway Company, the Michigan Central Railroad Company, the Canada Southern Railway Company, the New York Central and Hudson River Railroad Company, the Canadian Pacific Railway Company, the Dominion Construction Company, and the American Loan and Trust Company, for a lease or grant to the Canadian Pacific Railway Company of running powers over the extension of the track of the Toronto, Hamilton and Buffalo Railway Company, from a point near Garth Street, in the City of Hamilton, to a junction with the Grand Trunk Railway, near the Desjardins Canal, now in course of construction by this company, and also for a grant to the said Canadian Pacific Railway Company of the joint use with the Toronto, Hamilton and Buffalo Railway Company, of the yards and terminals within the City of Hamilton, of the Toronto, Hamilton and Buffalo Railway Company, as set out in said agreements.

And take notice that all persons interested may appear at the time and place aforesaid, and then and there be heard on such application.

E. D. CAHILL,
Secretary.
Toronto, Hamilton and Buffalo Railway Company.

Dated this 3rd day of June, A.D. 1896. 49–9

NOTICE is hereby given that The Steam Boiler and Plate Glass Insurance Company of Canada has ceased to transact business in Canada, and that pursuant to the provisions of The Insurance Act, application will be made to the Honourable the Minister of Finance on or after the 10th day of August next, by the said The Steam Boiler and Plate Glass Insurance Company of Canada, for the release of its securities, and all policy holders in Canada opposing such release are hereby required to file their opposition with the said the Honourable the Minister of Finance on or before the said 10th day of August next.

PARKE & PURDOM,
Solicitors for applicants.

Dated the 1st day of May, 1896. 45–14

THE ONTARIO BANK.

THE annual general meeting of the shareholders will be held at the banking-house, in this city, on Tuesday, the sixteenth day of June next.

At this meeting the shareholders will amongst other matters be asked to pass a by-law providing that the capital shall be reduced from $1,500,000 to $1,000,000. The chair will be taken at 12 o'clock noon.

By order of the Board,

CHARLES McGILL,
General manager.

Toronto, 15th May, 1896. 47–4

MONTREAL ISLAND BELT LINE RAILWAY.

NOTICE is hereby given that a special meeting of the shareholders of The Montreal Island Belt Line Railway Company will be held at the office of the company, No. 1608 Notre-Dame Street, on the twenty-ninth day of June next, 1896, at the hour of three o'clock in the afternoon, for the purpose of electing directors and transacting such other business, whether general or special, as may be submitted to the meeting.

J. P. MULLARKEY,
Secretary *pro tem.*

Montreal, 27th May, 1896. 48–4

PUBLIC Notice is hereby given that a meeting of the shareholders of The Montreal and Province Line Railway Company will be held at the office, number 136 St. James Street, in the City of Montreal, at the hour of twelve of the clock noon, on the twenty-fifth day of June next, for the purposes of,—

First—Allotting the stock as provided under the charter.

Second—Taking over the property of the line of railway formerly known as The Montreal, Portland and Boston Railway Company, and

Generally to organize the said company, elect its officers and do such other business as may be necessary.

By order of the Provisional Board of Directors.

47–4

NOTICE.—A special meeting of the shareholders of The St. Lawrence and Adirondack Railway Company will be held at the office of the company, at Montreal, on the 13th day of June, 1896, at 10.30 o'clock a.m., to consider a proposition to retire and cancel the present outstanding first mortgage bonds, and to issue in place thereof new 5 per cent gold bonds to the amount of $800,000, to be secured by a first mortgage; and to consider a further proposition to issue 6 per cent gold bonds of the company to an amount not exceeding $400,000, which are to be secured by a second mortgage; and to consider such further business as may properly come before said meeting.

FRANK G. SMITH,
Secretary.

Montreal, 19th May, 1896. 46–5

NOTICE.—Lam Tung, of the City of New Westminster in the Province of British Columbia, has deposited with the Honourable the Minister of Public Works, at Ottawa, and also with the Registrar of Deeds for the District of New Westminster in the said province, a plan showing certain works or buildings constructed by him upon the Fraser River within the said district, and a description of the site in which such works have been placed.

The said Lam Tung will apply to the Governor General in Council immediately after one month from the first publication of this notice for his approval of such plan and site and of the construction of the said works.

LAM TUNG.

Dated this 1st day of May, 1896. 46–10

IN pursuance of Revised Statutes of Canada, chap. 92, and a certain Order in Council dated 12th June, 1893, notice is hereby given that Elias Rogers and Ferral Carlton Dinniny will after the expiration of one month from the date hereof, apply to His Excellency the Governor General in Council for approval of the construction of certain work in Toronto Bay, which may be described as the filling in of that part of the water lot lying immediately to the south of and adjacent to the water lot firstly described in a certain patent from the Crown to the Corporation of the City of Toronto, dated 21st February, 1840, bounded on the north by the line between the points near the site of the late French Fort and Gooderham's Windmill as described in said patent; on the east and west respectively by the production southerly of the western and eastern boundaries of the water lot owned by John Small and Alexander Legge as set out in said patent, and on the south by the Windmill line as fixed by said Order in Council of 12th June, 1893.

And notice is further given that the said applicants, in accordance with the provisions of said Statute, have deposited plans and a description of the proposed site with the Minister of Public Works, and a duplicate of each in the Office of the Registrar of the Eastern Division of the City of Toronto.

MACLAREN, MACDONALD, MERRITT
& SHEPLEY,
Solicitors for applicants,
28–30 Toronto St., Toronto.

Dated at Toronto, this 23rd May, 1896. 47–5

AUX ANNONCEURS DANS LA *GAZETTE.*

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada*, voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre voulu d'insertions.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée.

Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministère de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurances—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

RÈGLE SPÉCIALE DU SÉNAT.

Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage a 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

AVIS public est par le présent donné qu'à la prochaine session du parlement du Canada, application sera faite pour l'incorporation d'une compagnie ayant pour objet la construction d'un pont, pour le trafic général et le passage des tramways électriques sur le fleuve Saint-Laurent, entre quelque point sur la rive sud et quelque point dans les limites de la cité de Montréal sur la rive nord, en touchant à l'île Ronde et à l'île Sainte-Hélène, la partie du chenal devant être traversée par un pont à transbordeur, *système Arnodin*, et pour la construction et l'opération des tramways électriques dans les comtés environnants sur la rive sud.

J. U. EMARD,
Avocat des requérants.

Montréal, 3 juin 1896. 49-9

AVIS public est donné par le présent que la Compagnie de poudre de Hamilton s'adressera au parlement du Canada, à sa prochaine session, afin d'obtenir un acte spécial lui permettant—

1. De changer le siège d'affaires de la compagnie à Montréal ;
2. D'augmenter le capital-actions de la compagnie ;
3. D'augmenter le nombre de directeurs de la compagnie ;
4. D'augmenter le montant pour lequel la compagnie peut actuellement émettre des obligations et débentures.

ROBERTSON, FLEET ET FALCONER,
Procureurs des requérants.

Montréal, 26 mai 1896. 48-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte modifiant les actes constitutifs de la Compagnie des Steamships de Québec (à resp. limitée), et conférant à la dite compagnie le pouvoir d'acheter, construire, équipper, conduire ou louer, ou acquérir un intérêt dans des hôtels et propriété d'hôtel, et pour d'autres fins.

CARON, PENTLAND ET STUART,
Solliciteurs de la requérante.

Québec, 15 mai 1896. 47-9

CHEMIN DE FER BAIE D'HUDSON ET PACIFIQUE.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire, exploiter et entretenir un chemin de fer mû par la vapeur et l'électricité partant de Port Churchill sur la Baie d'Hudson, traversant les territoires du Nord-Ouest et de Kéwatin jusqu'à Fond du Lac sur le lac Athabasca, et depuis Port Churchill susdit sur la Baie d'Hudson, traversant le territoire de Kéwatin au sud de la rivière Churchill et au nord de la rivière Nelson, jusqu'à un point à ou près de Sea Falls, sur la dite rivière ; de là, au nord du lac Winnipeg traversant le territoire de Saskatchewan jusqu'à

Prince-Albert, dans le dit territoire ; de là, continuant sur le dit territoire et le territoire d'Alberta, en ligne droite jusqu'à Calgary, dans le dit territoire en dernier lieu mentionné, avec pouvoir de construire un embranchement depuis un point près du lac Manitou, dans le territoire de Saskatchewan, jusqu'à Edmonton, dans le territoire d'Alberta. Aussi, avec pouvoir de construire, acheter, noliser, entretenir et naviguer des vaisseaux à vapeur et autres pour faire le service entre Fort Churchill et d'autres contrées, porter et transporter des passagers et du fret, et faire un service général de transport en rapport avec le dit chemin de fer; construire, exploiter, et entretenir les ponts, docks, quais, élévateurs, etc., qui seront nécessaires et avantageux pour les fins de la dite entreprise. Aussi, construire et exploiter des lignes de télégraphe et de téléphone tout le long du chemin de fer projeté et du dit embranchement, pour la transmission de messages pour le public ainsi que pour les fins du dit chemin de fer ; aussi, acquérir les pouvoirs hydrauliques qui seront jugés nécessaires pour la génération de l'électricité pour les fins du chemin de fer et du dit embranchement, et l'achat, construction et entretien de tout outillage électrique qui sera trouvé nécessaire en rapport avec le dit chemin de fer et son embranchement, ses ponts, élévateurs, quais et docks ; et avec tous autres pouvoirs et droits qui pourront être avantageux et nécessaires au succès de la dite entreprise, y compris tels pouvoirs et droits qui pourront être accordés et prescrits, avec le consentement du parlement du Canada, par le parlement de la Grande-Bretagne et l'Irlande.

JOSEPH NELSON.

Ottawa, 12 mai 1896. 46-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire un chemin de fer, mû par la vapeur ou par l'électricité, ou les deux, partant de la ville de Portage la Prairie, dans la province du Manitoba, et allant jusqu'à un gué de la rivière Saskatchewan, aux ou près des Grands Rapides ; de là, par la route la plus praticable, jusqu'à la navigation en eau profonde sur la Baie d'Hudson, avec un embranchement depuis un point à ou près de la frontière internationale entre les rangs onze et quinze, à l'ouest du premier médidien principal, dans la dite province du Manitoba, courant dans une direction nord ou nord-ouest jusqu'à son intersection avec la ligne mère ; aussi une ligne d'embranchement depuis un point sur la ligne mère près des Grands Rapides jusqu'à Edmonton *via* Prince-Albert et Battleford, dans les Territoires du Nord-Ouest ; avec pouvoir de construire et exploiter des lignes de télégraphe et de téléphone le long du dit chemin de fer et ses embranchements pour toutes fins que ce soit ; aussi acquérir, construire, acheter, noliser, posséder et naviguer des vaisseaux à vapeur et autres sur les lacs, rivières et autres eaux navigables, dans le but de faciliter le trafic en rapport avec le dit chemin de fer ; acquérir, construire, acheter et posséder des élévateurs, entrepôts, quais, docks et chantiers en rapport avec le dit chemin fer ; avec tous les pouvoirs et privilèges nécessaires ou ordinaires donnés ou conférés aux compagnies constituées pour aucune des fins susdites.

GEO. ELDON KIDD,
Solliciteur des requérants.

Ottawa, 14 mai 1896. 46-9

COMPAGNIE DE CANAL ET NAVIGATION DE LA BAIE D'HUDSON.

AVIS est donné par le présent que demande sera faite au parlement du Canada, à sa prochaine session, à l'effet de passer un acte constituant une compagnie pour construire un canal depuis un point sur le bras est de la rivière Nelson jusqu'à la Baie d'Hudson ; et d'améliorer la navigation des rivières et cours d'eau se déversant dans le lac Winnipeg de façon à établir une navigation continue, et de prélever des péages ; et de construire, équiper et utiliser des barges et autres vaisseaux, et des tramways pour le transport du fret et des passagers ; et de construire et exploiter des élévateurs, moulins, quais, docks et entrepôts, et des lignes de télégraphe et de téléphone, des outillages hydrauliques et électriques, et fournir la force motrice s'y rattachant, et pour d'autres usages, et généralement avoir et exercer tels pouvoirs qui sont conférés aux corporations de chemins de fer par "l'Acte des chemins de fer," et qui seront applicables à la navigation des canaux et eaux intérieures.

N. F. HAGEL,
Solliciteurs des requérants.

Winnipeg, 2 mai 1896. 44-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, par la Compagnie de chemin de fer et de canal du Lac Manitoba, afin d'obtenir un acte confirmant certains arrangements avec le Gouvernement du Manitoba et la Compagnie de chemin de fer Manitoba et Nord-Ouest, et aussi pour confirmer certains transferts de sa subvention du gouvernement, et pour confirmer certaines hypothèques créées par la compagnie et l'émission de ses obligations, et pour autoriser la compagnie à émettre des octrois de terres et des obligations portant deuxièmes hypothèques et des actions privilégiées, et pour d'autres fins.

KINGSMILL, SAUNDERS ET TORRANCE,
Solliciteurs de la compagnie.

Toronto, 21 mai 1896. 47-9

DEMANDES POUR CHARTE PAR LETTRES PATENTES.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c., &c.

To all to whom these presents shall come.—Greeting :

WHEREAS We are desirous and resolved, as soon as may be, to meet Our People of Our Dominion of Canada, and to have their advice in Parliament ; We do make known Our Royal Will and Pleasure to call a Parliament, and to further declare that by the advice of Our Privy Council for Canada, We have, this day, given Orders for issuing Our Writs in due form, for calling a Parliament in Our said Dominion, which Writs are to bear date on the TWENTY-FOURTH day of APRIL instant, to be returnable on the THIRTEENTH day of JULY next.

In Testimony Whereof, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed. Witness, Our Right Trusty and Right Well-beloved Cousin and Councillor the Right Honourable Sir John Campbell Hamilton-Gordon, Earl of Aberdeen ; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland ; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom ; Baronet of Nova Scotia, Knight Grand Cross of Our Most Distinguished Order of St. Michael and St. George, etc., etc., Governor General of Canada.

At Our Government House, in Our City of OTTAWA, this TWENTY-FOURTH day of APRIL, in the year of Our Lord one thousand eight hundred and ninety-six, and in the Fifty-ninth year of Our Reign.

By Command,
SAML. E. ST. O. CHAPLEAU,
Clerk of the Crown in Chancery for Canada.

ABERDEEN.
[L.S.]

CANADA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c., &c.

To Our Beloved and Faithful the Senators of the Dominion of Canada, and the Members elected to serve in the House of Commons of Our said Dominion, and to each and every of you,—Greeting :

KNOW YE, that We, being desirous and resolved, as soon as may be, to meet Our People of Our Dominion of Canada, and to have their advice in Parliament, do hereby, by and with the advice of Our Privy Council for Canada, summon and call together the House of Commons in and for Our said Dominion, to meet at Our City of Ottawa in Our said Dominion, on THURSDAY, the SIXTEENTH day of JULY next, commanding, and by the tenor of these presents, enjoining you, and each of you, and all others in this behalf interested, that on THURSDAY, the SIXTEENTH day of the month of JULY next, at Our City of OTTAWA aforesaid, personally you be and appear, for the DESPATCH OF BUSINESS, to treat, do, act and conclude upon those things which in Our said Parliament of Canada, by the Common Council of Our said Dominion, may, by the favour of God, be ordained.

In Testimony Whereof, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed.

WITNESS, Our Right Trusty and Right Well-beloved Cousin and Councillor the Right Honourable Sir JOHN CAMPBELL HAMILTON-GORDON, Earl of Aberdeen; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia; Knight Grand Cross of Our Most Distinguished Order of St. Michael and St. George, etc., etc., Governor General of Canada.

At Our Government House, in Our City of OTTAWA, this TWENTY-FOURTH day of APRIL, in the year of Our Lord one thousand eight hundred and ninety-six, and in the Fifty-ninth year of Our Reign.

By Command,

SAML. E. ST. O. CHAPLEAU,
Clerk of the Crown in Chancery,
Canada.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 11th day of June, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS it is advisable that the regulations respecting the shipping of live stock from Canada to Europe should be amended so as to give authority to deal with horses shipped from Canada to Europe as well as cattle,—

Therefore, His Excellency, on the recommendation of the Minister of Marine and Fisheries, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order and it is hereby ordered that the said regulations respecting the shipping of live stock be and the same are hereby amended by repealing the interpretation clause defining the expression "cattle" and substituting the following clause therefor:

Interpretation:—The expression "cattle" means bulls, oxen, cows and heifers one and two years old, and the expression "horses" includes mares.

His Excellency is pleased further to order that the following section be added to the existing regulations respecting the shipping of live stock from Canada:

No. 21. For the better protection of the health of the live stock no cattle or horses shall be taken on board except cattle or horses which have been inspected and passed as regards health by a duly appointed Government veterinary inspector.

JOHN J. McGEE,
Clerk of the Privy Council.

51-4

[2077]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 11th day of June, 1896.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada has this day been pleased to approve of the following By-law passed by the Harbour Commissioners of Montreal, on the 26th day of May, 1896, repealing By-law 130 and substituting the following By-law therefor :—

JOHN J. McGEE,
Clerk of the Privy Council.

—

At a meeting of the Harbour Commissioners of Montreal, duly called and held at Montreal, on the twenty-sixth day of May, eighteen hundred and ninety-six, were present :—Mr. Henry Bulmer, President : Mr. Victor Hudon, Mr. Richard White, Mr. W. W. Ogilvie, Mr. Hormisdas Laporte, Mr. Frank J. Hart, Mr. Hugh McLennan, Mr. L. E. Morin, Mr. Andrew Allan.

The draft of an amendment to By-law 130 was laid before the meeting, whereupon it was—

Resolved,— That By-law 130 be repealed and replaced by the following By-law 130 :—

" The following shall be the tariff of rates from the date of the coming into force of the present by-law :—

On coal, coke, grain and seeds of all kinds, 7½ cents per ton.

On ballast, cement, clay, earthen drain-pipes, fire-bricks, gypsum, lime, marble and all other stone, phosphates, salt, sand, scoriæ-blocks, slate, whiting, 10 cents per ton.

On apples, oranges, lemons and other green fruits, crates and their contents, flour and meal, fish, meat, pitch, potatoes, tar, horses, neat cattle, sheep, swine, hay, straw, wood-pulp, tobacco, lard, lard-oil, and oil-cake, 15 cents per ton.

On pig and scrap iron, pot and pearl ashes, 20 cents per ton.

On bricks, 10 cents per thousand ; on cordwood, 5 cents per cord ; on lumber and timber, 10 cents per thousand feet board measure.

On all goods, wares and merchandise, except bullion and specie, not elsewhere specified, 25 cents per ton.

On goods upon which, in the opinion of the Harbour Commissioners, it is not convenient to ascertain the rates according to the above provisions, it shall be lawful for the said Commissioners to levy a rate of one-fourth of one per cent on the value thereof.

No entry shall be less than five cents.

Only one rate shall be levied on property covered by the foregoing provisions when landed on the wharves for reshipment only.

The foregoing rates less twenty per cent shall be levied as hereinabove set forth on the said articles when landed or shipped in the harbour, or moved by rail on the harbour tracks or deposited within the harbour.

On all goods remaining on the wharves more than four clear working days after notice given for their removal by the Harbour Master in the case of goods imported, there shall be levied additional rates as follows :—

On cement, one cent per barrel per day.
On salt, one-half cent per bag per day.
On iron, one-half cent per hundredweight per day.
On bricks, ten cents per thousand per day.
On drain-pipes and all other non-enumerated articles, one-half cent per hundredweight per day.

For the purpose of this By-law a ton shall be calculated as being 2,000 pounds weight, or forty cubic feet measurement, according as the goods to which the same applies have been, or shall be, carried by water by ton weight or ton measurement.

The weight of the articles hereinafter described may be estimated as follows :

Ashes, pot or pearl, three barrels to one ton.
Apples, flour, meal, potatoes, nine barrels to one ton.
Fish, meat, pitch, tar, seven barrels to one ton.
Horses, two to one ton.
Neat cattle, three to one ton.
Sheep, fifteen to one ton.
Swine, ten to one ton."

Certified,

ALEXANDER ROBERTSON,
Secretary.
51–4 Harbour Commissioners of Montreal.

[1769]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 16th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Order in Council of the 12th day of July, 1895, providing that subject to regulations and restrictions contained in the Order in Council of the 6th June, 1892, respecting ships stores, tobacco might, until the end of the next ensuing session of Parliament, be ex-warehoused free of excise duty, for use on steamers and vessels engaged in sealing on the high seas and on steamers and vessels clearing from a Canadian for a foreign sea-port,—shall be and the same is hereby amended by extending the provisions thereof until the end of the next Session of Parliament.

JOHN J. McGEE,
48–4 Clerk of the Privy Council.

[1766]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 15th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the authority contained in the 21st section of chapter 72 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to grant permission to change the name of the schooner " Atalanta," registered at the Port of Halifax, N.S., official number 101,380, to " Tessie M. Crosby."

JOHN J. McGEE,
48–4 Clerk of the Privy Council.

---

[78]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 7th day of January, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of The Weights and Measures Act, chapter 104 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Order in Council of the 2nd December, 1895, amending section 19 of the Regulations respecting Weights and Measures, established by the Order in Council of the 9th January, 1889, being chapter 42 of the Consolidated Orders in Council of Canada, shall be and the same is hereby cancelled inasmuch as an error of one point of decimal was made therein in the grain weights, and that the following corrected regulations be and the same are hereby established in lieu thereof :—

The form of all measures of capacity must be cylindrical or conical : when of the latter form, they shall not be verified unless they are capable of containing, when filled to the narrowest parts of the neck, the respective weights of distilled water as set forth below :—

For every gallon	10 lbs. av.
For every ½ gallon	5 lbs. av.
For every quart	2½ lbs. av.
For every ½ pint	4375 grains troy.
For every gill	2187 grains troy.
For every ½ gill	1093 grains troy.

to be weighed in air against brass weights at a temperature of 62° F., and with the barometer at 30°.

JOHN J. McGEE,
48–4 Clerk of the Privy Council.

[1769]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 16th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of chapter 97 of the Revised Statutes, intituled "An Act respecting Ferries" and amendments thereof, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that Section 8 of the Regulations made by the Order in Council of the 5th February, 1889, and continued in force by the Order in Council of the 21st September, 1893, for the governance of the ferry across the Saint Lawrence River between Prescott, in the Province of Ontario, and Dominion of Canada, and Ogdensburgh, in the State of New York, one of the United States of America, shall be and the same is hereby amended in so far as the hours of running are concerned, so as to provide that the ferry shall commence to ply each day at the hour of 8 o'clock in the morning, Sundays excepted, and shall continue to cross from each side at intervals of one hour successively thereafter, until the hour of 6 o'clock in the evening, instead of as heretofore, from 7 a.m. to 7 p.m.

JOHN J. McGEE,
48-4 Clerk of the Privy Council.

[1660]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 20th day of May, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the powers conferred upon him by The Dominion Lands Act, chapter 54 of the Revised Statutes of Canada, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the Villa lots Nos. 37 and 38, at Revelstoke, British Columbia, which are shown coloured pink on the annexed plan, be, and the same are hereby reserved and set apart for cemetery purposes: And inasmuch as Revelstoke is an unincorporated community, the said lands shall be vested in Noble Coursier, merchant; John Abramson, hotel-keeper, and H. J. Bourne, hotel-keeper, as trustees therefor.

JOHN J. McGEE,
48-4 Clerk of the Privy Council.

Dated at the office of the Secretary of State of Canada, this 19th day of June, 1896.

JOSEPH POPE,
51-3 Under-Secretary of State.

PUBLIC Notice is hereby given that under The Companies Act, letters patent have been issued under the Great Seal of Canada, bearing date the 12th day of June, 1896, incorporating William Reid Gardner, manufacturer, William McLeod Gardner, manufacturer, both of the Town of Brockville, in the County of Leeds, and Province of Ontario; John Murphy, dry goods merchant, of the City of Montreal, in the Province of Quebec; John Adams Bangs, banker, of the Town of Carleton Place, in the County of Lanark, and Province of Ontario; Robert H. Crane, contractor, of the City of Ottawa, in the County of Carleton, and Province of Ontario, for the following purposes, viz.:—(*a*) To acquire and carry on the business now carried on by The W. R. Gardner Tool Company of Brockville, Ontario; and to manufacture, buy, sell and deal in edged tools, saws, hammers, and implements of all kinds for working in wood, iron, brass, and other metals and materials; and to acquire and hold by lease, purchase or otherwise, water power privileges for the development of the necessary power for the said manufacturing business, by the name of "The W. R. Gardner Tool Company" (Limited), with a total capital stock of one hundred thousand dollars, divided into one thousand shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this 19th day of June, 1896.

JOSEPH POPE,
51-3 Under-Secretary of State.

NOTICE TO MARINERS.

No. 21 of 1896.

COLOUR OF LURCHER SHOAL WHISTLING BUOY.

The automatic whistling buoy maintained by the Government of Canada on Lurcher Shoal, in the Bay of Fundy, off the coast of Yarmouth County, Nova Scotia, is incorrectly described in the Canadian List of Lights and Fog Signals. It is painted in red and black horizontal bands, with "Lurcher Shoal" in white letters. It is surmounted by a 10-inch whistle. The shoal lies N.W. by W. ½ W. 15 miles from Cape Fourchu Light.

This notice affects Admiralty charts Nos. 352, 2537, 2538 and 2670, and Canadian List of Lights and Fog Signals No. 124.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 3rd June, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 51–3

NOTICE TO MARINERS.

No. 22 of 1896.

SPECIAL FOG SIGNALS AT BRITISH COLUMBIA STATIONS.

I. CARMANAH.

On and after 1st July next, a steam whistle attached to the fog alarm boiler at Carmanah Station, will be used in addition to the horn, which will be operated as heretofore, for communicating in foggy weather with passing steamers. A private code has been arranged with several steamers. Strangers may communicate with the station by whistle sounds, using the "Morse" or "Continental" telegraphic codes.

This notice affects Canadian List of Lights and Fog Signals, No. 1163.

II. RACE ROCKS.

On and after 1st July next, in addition to the regular fog signal which consists of single blasts of five seconds' duration, with intervals of seventy-two seconds between them, a signal of four short blasts from the fog whistle at Race Rocks in answer to the fog signal of any steamer enveloped in fog in Juan de Fuca Strait will denote that the northern portion of the strait is free from fog. It often happens that when there is thick fog in the southern part of the strait the northern portion is perfectly clear. In such circumstances, the special signal now arranged will enable steamers to clear the fog readily.

This notice affects Canadian List of Lights and Fog Signals No. 1165.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 5th June, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 51–3

NOTICE TO MARINERS.

No. 20 of 1896.

I. CHANGE IN BUOYS AT MOUTH OF RIVER DETROIT.

The Canadian buoys on the east side of the dredged channel at the mouth of River Detroit, Lake Erie, have this season been rearranged and increased in number. The channel has been dredged by the American Government to a width of 800 feet, its axis being a straight line joining Detroit River Lighthouse (American) and Bois Blanc Island Lighthouse (Canadian).

The Canadian buoys marking the east edge of this dredged cut are now seven red wooden spars. They are situated approximately 400 feet east of the centre line of the above dredged channel, and are respectively 4,462, 5,632, 6,927 (approximately), 8,221, 10,029, 11,365 and 13,525 feet above Detroit River Lighthouse. This last most northerly buoy is about 18,600 feet below Bois Blanc Lighthouse. The above distances are measured along the axis of the channel to points immediately opposite to the buoys.

This notice affects Admiralty charts Nos. 332, 490 and 678.

II. PILOT ISLAND RANGE LIGHTS.

Notice is given by the Lighthouse Board of the United States of America that, on or about the 4th June, 1896, the colour of each of the lights of this range, located on the south side of Mud Lake, River St. Mary, will be changed from red to white.

No other change will be made.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 2nd June, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 50–3

NOTICE TO MARINERS.

No. 19 of 1896.

I. POLLOCK SHOAL BUOY.

A red iron can buoy was on the 13th instant established by the Government of Canada on the south side of Pollock Shoal, lying south of Point Enragé, in the County of Lunenburg, on the southern coast of Nova Scotia.

Lat. N. 44° 14' 53"
Long. W. 64° 14' 35"

The buoy is moored in 7 fathoms water, about ¾ mile south of the extremity of Point Enragé and about 200 yards S.S.E. from a 2½ fathom patch not shown on Admiralty chart No. 342.

From the buoy Cross Island Light bears N.E. by E. ½ E. 5¼ miles.

From the buoy Rose Point bears N.E. by N. 2¾ miles.

From the buoy Moshers Island Light bears W. ¾ N. 3⅛ mile.

From the buoy West Ironbound Light bears W.S.W. 1⅝ mile.

This notice affects Admiralty charts Nos. 342 and 730.

II. SHOAL WATER NOT SHOWN OFF POINT ENRAGÉ.

The Superintendent of lights for Nova Scotia reports that while examining Pollock Shoal off Point Enragé, on the 13th instant, he found a boulder with an area of probably 50 to 60 feet covered with about

2½ fathoms water, at a place where the chart shows about 4½ fathoms. This shoal will be more accurately located and further information published.

This notice affects Admiralty charts Nos. 342 and 730.

III. HAND FOG ALARM AT CANSO HARBOUR LIGHT STATION.

A fog horn, to be worked by hand, has been placed at Canso Harbour Light Station, at the eastern extremity of the mainland of Nova Scotia, and will be operated by the keeper in answer to signals from vessels approaching the harbour.

This notice affects Canadian List of Lights and Fog Signals No. 236.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 21st May, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 49-3

Ottawa, 5th June, 1896.

Notice *re* The Toronto, Hamilton and Buffalo Railway Company.

To all whom it may concern:—

WHEREAS by the Act of the Dominion of Canada, 58-59 Vic., ch. 66 (1895), certain additional powers were provisionally conferred on the Toronto, Hamilton and Buffalo Railway Company (which company, incorporated by the Provincial Act of Ontario, 47 Vic., ch 75, and receiving extensions of time and further powers by subsequent Provincial Acts, obtained in 1891, a Dominion Act, 54-55 Vic., ch. 86, confirming it in the rights and privileges so acquired).

And whereas by the said Act 58-59 Vic., ch. 66, a certain by-law of the City of Hamilton, granting a bonus to the company was ratified and confirmed, the time for completion was extended, and other provisions were made, it being, however, provided by section 10, that the Act should not come into force until the company satisfy the Minister of Railways and Canals that they have paid and discharged certain indebtedness incurred for railway construction on their line between Hamilton and Cainsville, and until the Minister "certifies by publication in the *Canada Gazette* that he is so satisfied."

And whereas by an amending Act, passed at the last session of Parliament, 59 Vict., ch. 39, it was made sufficient that the company should satisfy the Minister that they "have deposited with the Bank of Hamilton, at Hamilton, the sum of at least eighty-five thousand dollars, to be held by the said bank in trust to pay and discharge" the said indebtedness, and that upon such deposit "and the acceptance thereof by the said bank" the bank should become trustees of the same for the payment of the said debts, and that "the cashier of the said bank having certified that the said deposit has been so made, "the Minister of Railways and Canals shall declare the said Act in full force and effect."

And whereas, under date the 13th of May, 1896, the city clerk of Hamilton has forwarded a certificate of the cashier of the Bank of Hamilton, bearing the same date, showing that the said sum of $85,000 has been deposited with the bank by the company, and that the bank accepts the same and agrees to hold it in trust for the objects, uses, and purposes set forth in sections 10 and 11 of the Statutes of 1895, chapter 66, and in section 2 of the Statutes of 1896, chapter 39 aforesaid.

The undersigned, being satisfied that such deposit has been duly made and accepted by the several parties concerned, in accordance with the above mentioned statutory requirements, hereby, under the powers by the aforesaid Act 59 Vic., ch. 39, conferred on him, certifies that he is so satisfied, and declares the Act 58-59 Vic., ch. 66 of 1895, in full force and effect.

JOHN HAGGART,
Minister of Railways and Canals.
Ottawa, 3rd June, 1896. 49-3

IN THE EXCHEQUER COURT OF CANADA.

General Order.

THE Special sitting of the Exchequer Court of Canada, fixed by General Order of the 2nd day of April, 1896, to be holden at the City of Halifax, N.S., on the 6th day of July, 1896, is hereby rescinded; and it is hereby ordered that a special sitting of the said Court in lieu thereof be holden at the Court-house, in the said City of Halifax, on Tuesday, the 22nd day of September, 1896, commencing at the hour of 11 a.m.

Dated at Ottawa, this 8th day of June, A.D. 1896.

GEO. W. BURBIDGE,
J.E.C.

50-3

TO ADVERTISERS IN THE *GAZETTE*.

PARTIES sending advertisements to be inserted in the *Canada Gazette* will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."

2nd. Indicate the number of insertions required.

3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are 10 cents for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cents each, and when more than one are required by advertisers, must be remitted for likewise.

S. E. DAWSON,
Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

CONDENSED RULES *in re* NOTICES FOR PRIVATE BILLS.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of The British North America Act, 1867, for granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application ; such notice except in the case of existing corporations) shall be signed by, or on behalf of the applicants, and be published as follows, viz :

In the Provinces of Quebec and Manitoba.

In the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

In the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices shall be continued in each case, for a period of at least two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. Marked copies of all the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House, endorsed "Application for a Private Bill."

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioners shall also, at the same time and in the same manner, give notice of the proposed rates of toll, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and, if a drawbridge, the dimensions of the same.

Any person seeking to obtain a Private Bill shall, at least eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the Bill is to originate, a copy of such Bill in the English or French language, with a sum sufficient to pay for translating and printing the same. The applicant shall also, after the second reading, and before the consideration of the Bill by any Committee, pay the Clerk of the Senate, or the Accountant of the House of Commons (as the case may be) a fee of $200, and a sum sufficient to pay the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred.

The fee of $200 payable on any Private Bill is paid only in the House in which such Bill originates ; but the charges for reprinting and translation consequent thereon are paid in the House in which such charges are incurred.

No Petition for a Private Bill is received by the Senate or by the House of Commons after the first three weeks of the Session.

No Private Bill may be presented to the Senate or to the House of Commons after the first four weeks of the Session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.
JOHN GEORGE BOURINOT,
Clerk of the Commons.

SPECIAL RULE OF THE SENATE.

49. *(c.)* When a Bill is to operate in more than one Province, Territory or District, the notices shall be published in the *Canada Gazette* and in a leading newspaper published in each Province, Territory or District in which the Bill is to operate.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

ADDITIONAL RULES OF THE HOUSE OF COMMONS RESPECTING PRIVATE BILLS.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bill ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule*, shall be recast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses*.

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill, copies of which may be obtained from the Clerk of the House.

(*a*.) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and Bills which are not in accordance with this Rule shall be returned to the promoters to be recast before being revised and printed ;

(*b*.) Any sections of existing Acts which are proposed to be amended shall be reprinted in full with the amendments inserted in their proper places and between brackets ;

(*c*.) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a*.) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or autho-

rized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map or plan shall be signed by the Engineer or other person making the same ;

(*b*.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Special Order of the House of Commons.

Resolved, That the Clerk of the House do have a copy of the new Rule 49 sent to those persons giving notice in the *Canada Gazette* of their intention to apply to Parliament for the passing of a Private Bill, together with a notification that the said Rule will be strictly adhered to for the future :—

49. Petitions for Private Bills shall only be received by the House within the first *three weeks* of the session, and Private Bills may only be presented to the House within the first *four weeks* of the session, and it shall be the duty of any Committee to which any Private Bill may be referred to consider and report the same to the House with all convenient speed.

2. That it be an instruction to all Committees on Private Bills, in the event of promoters not being ready to proceed with their measures when the same have been twice called *on two separate occasions* for consideration by the Committee, that such measures shall be reported back to the House forthwith, together with a statement of the facts and with the recommendation that such Bills be withdrawn.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Substance of Rules of the Senate relating to Notices and Applications for Bills of Divorce.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the *Canada Gazette* and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-west Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under The Canada Evidence Act, 1893.

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

THE LAKE MANITOBA RAILWAY AND CANAL COMPANY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, for an Act empowering the company to extend its railway to the River Saskatchewan, and for other purposes.

KINGSMILL, SAUNDERS & TORRANCE,

Solicitor for applicants.
Dated at Rossland, B.C., this 2nd day of June, A.D. 1896. 51-9

NOTICE is hereby given that an application will be made to the Parliament of Canada, at the ensuing session thereof, for an Act confirming the deed of amalgamation entered into between the Ottawa, Arnprior and Parry Sound Railway Company and the Parry Sound Colonization Railway Company, and to incorporate the said companies into one corporation under the name of the Ottawa, Arnprior and Parry Sound Railway Company, with powers as in the several Acts relating to the said companies respectively and in the said deed of amalgamation are contained, or to change the name of the said amalgamated company, and to extend the time for completing said railway.

CHRISTIE, GREENE & GREENE,
Solicitors for applicants.
Dated at Ottawa, this 30th day of May, 1896. 49-11

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a Religious Body to be called and known as "The Wesleyan Methodist Connection of Canada," and to authorize such corporation to meet and adopt, frame or repeal constitutions and make regulations for enforcing discipline in said Connection, and to empower said corporation to acquire, receive and take conveyances of such lands, moneys, mortgages, securities or other property as may be required for the purposes of a chapel or chapels, college or colleges, school or schools or other educational purposes connected with the said Connection, and for the purpose of a printing and publishing house or houses in connection with the said Connection, and for power to undertake and carry on such business of printing and publishing, and for authority and power to endow and support such chapels, colleges and schools, and such printing and publishing house or houses and a book depository or depositories in connection therewith, and to take and receive the benefit of any gift or devise by will or otherwise in its said corporate name or otherwise, and to give said Connection all necessary powers connected therewith.

BRADLEY & WYLD,
Solicitors for applicants.
Dated at Ottawa, this 1st day of June, A.D. 1896.
49–9

PUBLIC Notice is hereby given that at the next session of the Parliament of Canada, application shall be made for the incorporation of a company having for its object the construction of a bridge, for the general traffic and the passage of electric tramways on the St. Lawrence River, between some point on the south shore, and another point in the limits of the City of Montreal, on the north shore, in passing by Round Island and St. Helen Island, the channel to be traversed by a bridge with suspended carrier *Arnodin System*, and the construction and operation of electric tramways in the surrounding counties on the south shore.

J. U. EMARD,
Solicitor for applicants.
Montreal, 3rd June, 1896. 49–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, by The Chignecto Marine Transport Railway Company (Limited), for an Act to extend the time for the completion of its works and to reduce the number of its directors, and for other purposes.

H. KENDRICK,
Secretary.
By A. FERGUSON,
Solicitor for the applicants.
Dated 7th May, 1896. 45–9

THE HUDSON'S BAY AND PACIFIC RAILWAY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a railway to be operated by steam and electricity from Port Churchill on Hudson's Bay through North-west and Keewatin Territories, to Fond du Lac, on Lake Athabaska, and from Port Churchill aforesaid, on Hudson's Bay, through the Territory of Keewatin, south of Churchill River and north of Nelson River, to a point at or near Sea Falls, on said river; thence north of Lake Winnipeg through the Territory of Saskatchewan to Prince Albert, in said Territory; thence continuing through the said Territory and the Territory of Alberta, in a direct line to Calgary, in the said last mentioned Territory, with power to construct a branch line from a point near Manitou Lake, in the Territory of Saskatchewan, to Edmonton, in the Territory of Alberta. Also, with power to build, purchase, charter, maintain and navigate steam and other vessels to ply between Fort Churchill and other countries, to carry and convey passengers and freight, and carry on a general transportation service in connection with said railway; to construct, operate and maintain such bridges, docks, wharves, elevators, etc., as may be necessary and advantageous for the purposes of the said undertaking. Also to construct and operate telegraph and telephone lines along the whole length of the proposed railway and said branch, for the transmission of messages for the public as well as for the purposes of said railway; also to acquire such water powers as may be deemed requisite for the generation of electricity for the purposes of said railway and said branch, and the purchase, erection and maintenance of all such electrical plant as may be necessary in connection with said railway and branch, its bridges, elevators, wharves and docks; and with all such other powers and rights as may be advantageous and necessary to the success of said undertaking, including such as may be granted and prescribed, with the consent of the Parliament of Canada, by the Parliament of Great Britain and Ireland.

JOSEPH NELSON.
Ottawa, 12th May, 1896. 46–9

PUBLIC Notice is hereby given that The Georgian Bay Ship Canal and Power Aqueduct Company will apply to the Parliament of Canada, at its next session, for a special Act confirming, extending and augmenting the powers of the company; such Act to specially provide:—

1. For the construction, regulation, and control of harbours and navigation at the terminals of a ship canal, which the company is authorized to construct and operate from some point on Lake Ontario, within the County of York, to some point on the Georgian Bay;
2. That the company may divert and use the waters of any spring, creek, river, lake, or any other source or sources of water supply, for the purposes of the company, and regulate the levels of such waters;
3. That the company may regulate the traffic of the said canal or other navigable waters under the control of the company;
4. For the extension of the borrowing powers of the company, and to define the denomination and character of the notes, bonds, debentures, securities to be issued by the company;
5. For the construction and improvement by the company of other canals or waterways in Canada for the purpose of augmenting or increasing the traffic of the canal first mentioned;
6. The remission and exemption from all customs duties and charges on all plant, machinery and materials to be imported and used in the construction and equipment of the company's works.

J. A. MACDONALD,
Managing director of The Georgian Bay
46–9 Ship Canal and Power Aqueduct Co.

HUDSON'S BAY CANAL AND NAVIGATION COMPANY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next ensuing session, to pass an Act to incorporate a company to construct a canal from a point on the east branch of the Nelson River to Hudson's Bay; and to improve the navigation of rivers and waterways emptying into Lake Winnipeg so as to secure continuous navigation; and to collect tolls thereon; and to construct, equip and operate canal boats and other vessels, and tramways for transportation of freight and passengers; and to construct and operate elevators, mills, wharves, docks and warehouses, and telegraph and telephone lines, hydraulic and electric plants, and to supply motive power in connection with the same, and for other uses, and generally to have and exercise such powers as are given to railway corporations under The Railway Act, and as may be applicable to canals and inland navigation.

N. F. HAGEL,
Solicitor for applicants.
Winnipeg, 2nd May, 1896. 44–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, for an Act to incorporate a company to carry on the business of guaranteeing:—

1. Corporations, partnerships and individuals against lost occasioned by fraud practised upon paper representing or used as security for money;

2. Employees in positions of trust;

3. Titles to real estate and the validity of wills;

4. The repayment of loans and investments of money in manufacturing businesses, mining enterprises and in real estate;

5. The payment of rent, interest, dividends, mortgages, debentures and all other obligations of indebtedness, and

6. The payment of life, accident, fire and marine policies of insurance.

And for such other powers as may be incidental to such business.

GEMMILL & MAY,
Solicitors for applicants.

Ottawa, 13th May, 1896. 46–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct a railway, and to work the same either by steam or by electric power or both, from the Town of Portage la Prairie in the Province of Manitoba, to a crossing of the Saskatchewan River, at or near Grand Rapids, thence by the most practicable route to deep water navigation on Hudson Bay, with a branch line from a point at or near the International Boundary between Ranges eleven and fifteen, west of the first principal Meridian, in the said Province of Manitoba, running in a northerly or north-westerly direction to its intersection with the main line; also a branch line from a point on the main line near Grand Rapids to Edmonton *viâ* Prince Albert and Battleford in the North-west Territories, with power to construct and operate telegraph and telephone lines along the said railway and branches for all purposes, also to acquire, build, purchase, charter, own and operate steam and other vessels on lakes, rivers and other navigable waters for the purpose of facilitating the traffic in connection with said railway; to acquire, build, purchase, and own elevators, warehouses, wharves, docks and dockyards in connection with the said railway, with all the proper or usual powers, rights, and privileges given or granted to companies incorporated for any of the purposes aforesaid.

GEO. ELDON KIDD,
Solicitor for applicants.

Dated at Ottawa, this 14th day of May, A.D. 1896.
46–9

NOTICE is hereby given that application will be made by The Lake Manitoba Railway and Canal Company to the Parliament of Canada, at its next session, for an Act to confirm certain agreements with the Manitoba Government and The Manitoba and North-western Railway Company, and also to confirm certain transfers of its Government subsidies, and to confirm certain mortgages made by the company and the bond issue thereof, and to empower the company to issue land grant and second mortgage bonds and preference stock, and for other purposes.

KINGSMILL, SAUNDERS & TORRANCE,
Solicitors for the company.

Toronto, 21st May, 1896. 47–9

PUBLIC Notice is hereby given that the Hamilton Powder Company will apply to the Parliament of Canada, at its next session, for a special Act to enable it to—

1. Change the head office of the company to Montreal;

2. To increase the capital stock of the company;

3. To increase the number of directors of the company;

4. To increase the amount for which the company can presently issue bonds and debentures.

ROBERTSON, FLEET & FALCONER,
Attorneys for applicants.

Montreal, 26th May, 1896. 48–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a bridge across the Niagara River at or near the Village of Fort Erie, in the County of Welland, for the passage of pedestrians and vehicles and for the passage of cars propelled by any power, and for the acquisition of all terminal facilities and for power to lease to or otherwise give running powers thereover to any railway company; and to carry gas pipes, wires or cables or other appliances for the transmission of gas and electricity and other power; and with power to lay tracks on said bridge and approaches thereto for the passage of cars, and to operate the same or to enter into any contract or agreement with any individual corporation or corporations with reference to operating the same and to connect the same with any line or lines of railway and to amalgamate with any other company incorporated or to be incorporated by the Legislature of the State of New York or the Congress of the United States of America for the same purpose; and also for power to construct, maintain and operate water wheels under said bridge for the generation of electricity and for all powers necessary for that purpose and for the transmission abroad of such electric force. The height of the arches of said bridge shall not be less than sixty feet and the interval between the abutments or piers shall be two hundred feet, and said bridge shall be constructed with a draw of two hundred feet across the channel of said river for the passage of rafts and all vessels. The rates of toll for the use of said bridge shall not exceed twenty-five cents for each carriage or vehicle (including the driver) drawn by two horses, twenty cents for a single horse, carriage and driver, and fifteen cents for each other person.

HARCOURT, COWPER & MACOOMB,

The objects for which incorporation is sought, are the purchasing or otherwise acquiring the goodwill, business and assets of the manufacturing firm doing business throughout the Dominion of Canada, under the name and style of The Wrought Iron Range Company, or such part of such assets as the company may desire to purchase, and generally the manufacture and sale of furnaces and ranges, and other wares generally made, sold or used in connection therewith.

3. The chief place of business of the said company is to be at Toronto, in the Province of Ontario.

4. The capital stock of the company is to be one hundred thousand dollars ($100,000), divided into one thousand shares of one hundred dollars ($100) each.

5. The names in full, and address of each of the applicants are as follow:—William Wallace Culver, of the City of St. Louis, in the State of Missouri, one of the United States of America, manufacturer; Henry Harrison Culver, of the same place, manufacturer; Henry Harrison Culver, junior, of the same place, manufacturer; Walter Llewellyn Culver, of the same place, manufacturer; Edwin Raymond Culver, of the same place, manufacturer; Lucius Llewellyn Purinton, of the City of Toronto, in the County of York, and Province of Ontario, manufacturer; and James Brashear, of the City of Montreal, in the Province of Quebec, manufacturer; of whom the said William Wallace Culver, Lucius Purinton and James Brashear are to be the first or provisional directors.

McCARTHY, OSLER, HOSKIN & CREELMAN,
Solicitors for the applicants.

Dated at Toronto, this 15th day of June, 1896. 51–6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such other persons as may become shareholders in the proposed company, a body corporate and politic under the name and for the purposes hereinafter mentioned:—

1. The proposed corporate name of the company is "The Talbot Brussels Carpet Company" (Limited).

2. The purposes within the purview of the Act for which incorporation is sought, are to manufacture carpets, spin yarns, and generally to carry on the business of carpet manufacturers, and any other business incidental thereto throughout the Dominion of Canada.

3. The chief place of business of the said company is to be the City of Montreal, in the Province of Quebec.

4. The intended amount of the capital stock is two hundred thousand dollars.

5. The number of shares is to be two thousand, and the amount of each share is to be of the value of one hundred dollars.

6. The names in full, and the address and calling of each of the applicants are as follow:—William Talbot, carpet manufacturer, and Emil Cockroft, spinner, both of Elora, in the Province of Ontario; Frederick Talbot, carpet manufacturer, Edward Hobson Barker, gentleman, and Arthur William Patrick Buchanan, advocate, all of the City and District of Montreal; all of whom are to be the first or provisional directors of the said company.

WHITE, O'HALLORAN & BUCHANAN,
Solicitors for the applicants.

Dated at the City of Montreal, this 15th day of June, A.D. 1896. 51–6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants hereinafter described, and such other persons as may become shareholders in the proposed company, a body corporate and politic under the name and for the purposes hereinafter mentioned:—

1. The proposed corporate name of the company is "Kootenay Mine Exploration Company" (Limited).

2. The purposes for which incorporation is sought are:—

(*a*.) To search for, prospect, examine and explore mines and ground supposed to contain minerals or precious stones, and to search for and obtain information in regard to mines, mining districts and localities;

(*b*.) To purchase or otherwise acquire, and to sell, dispose of and deal with, mines and mining rights of all kinds, and undertakings connected therewith;

(*c*.) To work, exercise, develop and turn to account, mines and mining rights, and any undertaking connected therewith;

(*d*.) To buy, sell, concentrate, smelt, refine, manipulate and deal in minerals of all kinds, and, in particular, gold, silver, and other precious metal and precious stones;

(*e*.) To carry on any other businesses which may seem to the company capable of being conveniently carried on in connection with the above or calculated directly or indirectly to enhance the value of or render profitable any of the company's property or rights;

(*f*.) To acquire and undertake the whole or any part of the business, property, and liabilities of any person or company carrying on any business which this company is authorized to carry on, or possessed of property suitable for the purposes of this company;

(*g*.) To enter into partnership or into any arrangement for sharing profits, union of interests, co-operation, joint adventure, reciprocal concession, or otherwise, with any person or company carrying on, or engaged in or about to carry on or engage in, any business or transaction which this company is authorized to carry on or engage in, or any business or transaction capable of being conducted so as directly or indirectly to benefit this company. And to lend money to, guarantee the contracts of, or otherwise assist, any such person or company, and to take or otherwise acquire shares and securities of any such company, and to sell, hold, re-issue, with or without guarantee, or otherwise deal with the same ;

(*h.*) To sell the undertaking of the company or any part thereof for such consideration as the company may think fit, and in particular for shares, debentures, or securities in or of any other company having objects altogether or in part similar to those of this company ;

(*i.*) To promote any other company for the purpose of acquiring all or any of the property and liabilities of this company, or for any other purpose which may seem directly or indirectly calculated to benefit this company ;

(*j.*) Generally to purchase, take on lease or in exchange, hire, or otherwise acquire any real and personal property, and any rights or privileges which the company may think necessary or convenient for the purposes of its business and in particular any land, buildings, easements, machinery, plant and stock in trade ;

(*k.*) To remunerate any person or company for services rendered, in placing or assisting to place or guaranteeing the placing of any of the shares in the company's capital, or any debentures or other securities of the company, or in or about the promotion of the company or the conduct of its business ;

(*l.*) To do all or any of the above things in any part of the world and as principals, agents, contractors, trustees, or otherwise, and by or through trustees, agents, or otherwise, and either alone or in conjunction with others ;

(*m.*) To enter into any arrangements with any governments or authorities, supreme, municipal, local or otherwise, that may seem conducive to the company's objects, or any of them, and to obtain from any such government or authority, any rights, privileges and concessions which the company may think it desirable to obtain, and to carry out, exercise, and comply with any such arrangements, rights, privileges and concessions ;

(*n.*) To take, or otherwise acquire, and hold shares in any other company having objects altogether or in part similar to those of this company, or carrying on any business capable of being conducted so as directly or indirectly to benefit this company ;

(*o.*) To procure the company to be registered or recognized in any foreign country or place or in and elsewhere abroad ;

(*p.*) To construct, improve, maintain, work, manage, carry out, or control any roads, ways, tramways, railways, branches or sidings, reservoirs, watercourses, wharves, manufactories, warehouses, electric works, shops, stores, and other works and conveniences which may seem calculated directly or indirectly to advance the company's interests, and contribute to, subsidise, or otherwise assist or take part in the construction, improvement, maintenance, working, management, carrying out, or control thereof ;

(*q.*) To amalgamate with any other company having objects altogether or in part similar to those of this company ;

(*r.*) To distribute any of the property of the company among the members in specie.

3. The chief place of business of the proposed company is to be the City of Toronto.

4. The proposed amount of the capital stock of the company is $200,000.

5. The number of shares is to be 40,000 of a par value of $5 each.

6. The names in full, and the address and calling of each of the applicants are as follow :—George Gooderham, of the City of Toronto, distiller ; Rufus Henry Pope, of the Village of Cookshire, in the Province of Quebec, merchant ; Thomas Gibbs Blackstock, of the City of Toronto, barrister ; Joseph Walker Beatty, of the City of Toronto, accountant, and David Fasken, of the City of Toronto, barrister ; all of whom are to be first or provisional directors of the said company.

BEATTY, BLACKSTOCK, NESBITT,

ARRÊTÉS EN CONSEIL.

[1769]

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 16e jour de mai 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence, en vertu des dispositions du chapitre 97 des Statuts Revisés, intitulé "Acte concernant les passages d'eau," et ses modifications, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'article 8 des règlements établis par l'arrêté en conseil du 5 de février 1889, et continués en vigueur par l'arrêté en conseil du 21 de septembre 1893, pour la régie du passage d'eau sur le fleuve Saint-Laurent entre Prescott dans la province d'Ontario et Puissance du Canada, et Ogdensburgh dans l'Etat de New-York, un des Etats-Unis d'Amérique, soit et il est par le présent modifié en tant qu'il s'agit des heures de traversée, à l'effet que le bac commencera à traverser chaque jour à 8 heures du matin, sauf les dimanches, et continuera de traverser d'un côté à l'autre a des intervalles d'une heure, successivement ensuite, jusqu'à 6 heures du soir, au lieu de 7 a.m. à 7 p.m. comme autrefois.

JOHN J. McGEE,
Greffier du Conseil privé.

[78]

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 7e jour de janvier 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence, en vertu des dispositions de "l'Acte des poids et mesures," chapitre 104 des Statuts Revisés, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que l'arrêté en conseil du 2 de décembre 1895, modifiant l'article 19 des règlements concernant les poids et mesures établis par arrêté en conseil du 9e jour de janvier 1889, chapitre 42 des Arrêtés en Conseil refondus du Canada, soit et il est par le présent annulé en tant qu'une erreur d'un point décimal y a été commise dans les poids en grains, et que les règlements corrigés ci-dessous soient et ils sont par le présent établis en leur lieu et place :—

La forme de toutes les mesures de capacité devra être cylindrique ou conique ; dans cette dernière forme elles ne seront vérifiées que si elles sont capables de contenir, lorsque pleines jusqu'à la partie la plus étroite du goulot, les poids respectifs d'eau distillée, spécifiés plus bas :—

Pour chaque gallon	10 liv. av.
Pour chaque ½ gallon	5 liv. av.
Pour chaque pinte	2½ liv. av.
Pour chaque ½ chopine	4375 grains troy.
Pour chaque roquille	2187 grains troy.
Pour chaque ½ roquille	1093 grains troy.

pesé à l'air contre des poids en cuivre à une température de 62° F., et avec le baromètre à 30°.

JOHN J. McGEE,
Greffier du Conseil privé.

Par ordre,

M. AYLMER, lieut.-colonel,
Aide-adjudant général de la Milice,
Canada.

AVIS DU GOUVERNEMENT.

AVIS est donné au public qu'en vertu de "l'Acte des compagnies," il a été délivré sous le grand sceau du Canada, des lettres patentes supplémentaires, en date du 12e jour de juin 1896, par lesquelles le nom de la "International Trading Co." (à resp. limitée), est changé en celui de "International Navigation and Trading Co." (à resp. limitée).

Daté du bureau du Secrétaire d'Etat du Canada, ce 20e jour de juin 1896.

JOSEPH POPE,
51–3 Sous-Secrétaire d'Etat.

AVIS est donné au public qu'en vertu de "l'Acte des compagnies," il a été délivré sous le grand sceau du Canada, des lettres patentes supplémentaires en date du 12e jour de juin 1896, par lesquelles le capital-actions de la "Sawyer and Massey Company" (à resp. limitée) est augmenté de cent mille piastres ($100,000) à cinq cent mille piastres ($500,000).

Daté du bureau du Secrétaire d'Etat du Canada, ce 19e jour de juin 1896.

JOSEPH POPE,
51–3 Sous-Secrétaire d'Etat.

AVIS est donné au public qu'en vertu de "l'Acte des compagnies" il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 12e jour de juin 1896, constituant en corporation Arthur William Lee, manufacturier, Herbert Blake Andrews, comptable, Charles Cecil Sheriff, manufacturier, James Russell Lovett Starr, avocat, et John Henderson Goodall, distributeur, tous de la cité de Toronto, dans le comté de York, et province d'Ontario, pour les fins suivantes, savoir :—(*a.*) La distribution et la livraison de papiers-nouvelles, publications périodiques, et autre matière à lire, ainsi que d'échantillons, colis et autres articles et marchandises de toutes sortes dans les cités, villes et autres parties du Canada ; (*b.*) Faire un service spécial de messageries, sous le nom de "Dominion Distributing Company" (à resp. limitée), avec un capital-actions total de cinq mille piastres, divisé en cent actions de cinquante piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce le 19 jour de juin 1896.

JOSEPH POPE,
51–3 Sous-Secrétaire d'Etat.

AVIS est donné au public qu'en vertu de "l'Acte des compagnies" il a été délivré sous le grand sceau du Canada, des lettres patentes en date du 12e jour de juin 1896, constituant en corporation William Reid Gardner, manufacturier, William McLeod Gardner, manufacturier, tous deux de la ville de Brockville, dans le comté de Leeds, et province d'Ontario ; John Murphy, marchand de nouveautés, de la cité de Montréal, dans la province de Québec ; John Adams Bangs, banquier, de la ville de Carleton Place, dans le comté de Lanark, et province d'Ontario ; Robert H. Crane, entrepreneur, de la cité d'Ottawa, dans le comté de Carleton, et province d'Ontario, pour les fins suivantes :—(*a.*) Acquérir et continuer l'industrie aujourd'hui exploitée par la W. R. Gardner Tool Co., de Brockville, Ontario ; et manufacturer, acheter, vendre et disposer d'outils tranchants, scies, marteaux et instruments de tous gens pour travailler le bois, le fer, le cuivre et autres métaux et matériaux ; et acquérir et tenir par bail, achat ou autrement des privilèges de chutes d'eau pour développer le pouvoir nécessaire à la dite industrie manufacturière,—sous le nom de "The W. R. Gardner Tool Company" (à resp. limitée), avec un capital-actions total de cent mille piastres, divisé en mille actions de cent piastres.

Daté du bureau du Secrétaire d'Etat du Canada, ce 19e jour de juin 1896.

JOSEPH POPE,
Sous-Secrétaire d'Etat.

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada*, voudront bien se conformer aux règles ci-dessous :

1. Adresser " Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre voulu d'insertions.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée. Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministère de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurances—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

et de la Papeterie publiques,
Ottawa, novembre 1891.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill prive ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

RÈGLE SPÉCIALE DU SÉNAT.

Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a*.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b*.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage a 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

CHEMIN DE FER ET CANAL DU LAC MANITOBA.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte autorisant la compagnie à prolonger son chemin de fer jusqu'à la rivière Saskatchewan, et pour d'autres fins.

KINGSMILL, SAUNDERS ET TORRANCE,
Solliciteurs des requérants.

Toronto, 15 juin 1896. 51-9

AVIS public est par le présent donné qu'à la prochaine session du parlement du Canada, application sera faite pour l'incorporation d'une compagnie ayant pour objet la construction d'un pont, pour le trafic général et le passage des tramways électriques sur le fleuve Saint-Laurent, entre quelque point sur la rive sud et quelque point dans les limites de la cité de Montréal sur la rive nord, en touchant à l'île Ronde et à l'île Sainte-Hélène, la partie du chenal devant être traversée par un pont à transbordeur, *système Arnodin*, et pour la construction et l'opération des tramways électriques dans les comtés environnants sur la rive sud.

J. U. EMARD,
Avocat des requérants.

Montréal, 3 juin 1896. 49-9

AVIS public est donné par le présent que la Compagnie de poudre de Hamilton s'adressera au parlement du Canada, à sa prochaine session, afin d'obtenir un acte spécial lui permettant—

1. De changer le siège d'affaires de la compagnie à Montréal ;
2. D'augmenter le capital-actions de la compagnie ;
3. D'augmenter le nombre de directeurs de la compagnie ;
4. D'augmenter le montant pour lequel la compagnie peut actuellement émettre des obligations et débentures.

ROBERTSON, FLEET ET FALCONER,
Procureurs des requérants.

Montréal, 26 mai 1896. 48-9

CHEMIN DE FER BAIE D'HUDSON ET PACIFIQUE.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire, exploiter et entretenir un chemin de fer mû par la vapeur et l'électricité partant de Port Churchill sur la Baie d'Hudson, traversant les territoires du Nord-Ouest et de Kéwatin jusqu'à Fond du Lac sur le lac Athabasca, et depuis Port Churchill susdit sur la Baie d'Hudson, traversant le territoire de Kéwatin au sud de la rivière Churchill et au nord de la rivière Nelson, jusqu'à un point à ou près de Sea Falls, sur la dite rivière ; de là, au nord du lac Winnipeg traversant le territoire de Saskatchewan jusqu'à

Prince-Albert, dans le dit territoire ; de là, continuant sur le dit territoire et le territoire d'Alberta, en ligne droite jusqu'à Calgary, dans le dit territoire en dernier lieu mentionné, avec pouvoir de construire un embranchement depuis un point près du lac Manitou, dans le territoire de Saskatchewan, jusqu'à Edmonton, dans le territoire d'Alberta. Aussi, avec pouvoir de construire, acheter, noliser, entretenir et naviguer des vaisseaux à vapeur et autres pour faire le service entre Fort Churchill et d'autres contrées, porter et transporter des passagers et du fret, et faire un service général de transport en rapport avec le dit chemin de fer ; construire, exploiter, et entretenir les ponts, docks, quais, élévateurs, etc., qui seront nécessaires et avantageux pour les fins de la dite entreprise. Aussi, construire et exploiter des lignes de télégraphe et de téléphone tout le long du chemin de fer projeté et du dit embranchement, pour la transmission de messages pour le public ainsi que pour les fins du dit chemin de fer ; aussi, acquérir les pouvoirs hydrauliques qui seront jugés nécessaires pour la génération de l'électricité pour les fins du chemin de fer et du dit embranchement, et l'achat, construction et entretien de tout outillage électrique qui sera trouvé nécessaire en rapport avec le dit chemin de fer et son embranchement, ses ponts, élévateurs, quais et docks ; et avec tous autres pouvoirs et droits qui pourront être avantageux et nécessaires au succès de la dite entreprise, y compris tels pouvoirs et droits qui pourront être accordés et prescrits, avec le consentement du parlement du Canada, par le parlement de la Grande-Bretagne et l'Irlande.

JOSEPH NELSON.

Ottawa, 12 mai 1896. 46-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire un chemin de fer, mû par la vapeur ou par l'électricité, ou les deux, partant de la ville de Portage la Prairie, dans la province du Manitoba, et allant jusqu'à un gué de la rivière Saskatchewan, aux ou près des Grands Rapides ; de là, par la route la plus praticable, jusqu'à la navigation en eau profonde sur la Baie d'Hudson, avec un embranchement depuis un point à ou près de la frontière internationale entre les rangs onze et quinze, à l'ouest du premier médidien principal, dans la dite province du Manitoba, courant dans une direction nord ou nord-ouest jusqu'à son intersection avec la ligne mère ; aussi une ligne d'embranchement depuis un point sur la ligne mère près des Grands Rapides jusqu'à Edmonton *via* Prince-Albert et Battleford, dans les Territoires du Nord-Ouest ; avec pouvoir de construire et exploiter des lignes de télégraphe et de téléphone le long du dit chemin de fer et ses embranchements pour toutes fins que ce soit ; aussi acquérir, construire, acheter, noliser, posséder et naviguer des vaisseaux à vapeur et autres sur les lacs, rivières et autres eaux navigables, dans le but de faciliter le trafic en rapport avec le dit chemin de fer ; acquérir, construire, acheter et posséder des élévateurs, entrepôts, quais, docks et chantiers en rapport avec le dit chemin fer ; avec tous les pouvoirs et privilèges nécessaires ou ordinaires donnés ou conférés aux compagnies constituées pour aucune des fins susdites.

GEO. ELDON KIDD,
Solliciteur des requérants.

Ottawa, 14 mai 1896. 46-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte modifiant les actes constitutifs de la Compagnie des Steamships de Québec (à resp. limitée), et conférant à la dite compagnie le pouvoir d'acheter, construire, équipper, conduire ou louer, ou acquérir un intérêt dans des hôtels et propriété d'hôtel, et pour d'autres fins.

CARON, PENTLAND ET STUART,
Solliciteurs de la requérante.

Québec, 15 mai 1896 47-9

COMPAGNIE DE CANAL ET NAVIGATION DE LA BAIE D'HUDSON.

AVIS est donné par le présent que demande sera faite au parlement du Canada, à sa prochaine session, à l'effet de passer un acte constituant une compagnie pour construire un canal depuis un point sur le bras est de la rivière Nelson jusqu'à la Baie d'Hudson ; et d'améliorer la navigation des rivières et cours d'eau se déversant dans le lac Winnipeg de façon à établir une navigation continue, et de prélever des péages ; et de construire, équiper et utiliser des barges et autres vaisseaux, et des tramways pour le transport du fret et des passagers ; et de construire et exploiter des élévateurs, moulins, quais, docks et entrepôts, et des lignes de télégraphe et de téléphone, des outillages hydrauliques et électriques, et fournir la force motrice s'y rattachant, et pour d'autres usages, et généralement avoir et exercer tels pouvoirs qui sont conférés aux corporations de chemins de fer par "l'Acte des chemins de fer," et qui seront applicables à la navigation des canaux et eaux intérieures.

N. F. HAGEL,
Solliciteurs des requérants.

Winnipeg, 2 mai 1896. 44-9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, par la Compagnie de chemin de fer et de canal du Lac Manitoba, afin d'obtenir un acte confirmant certains arrangements avec le Gouvernement du Manitoba et la Compagnie de chemin de fer Manitoba et Nord-Ouest, et aussi pour confirmer certains transferts de sa subvention du gouvernement, et pour confirmer certaines hypothèques créées par la compagnie et l'émission de ses obligations, et pour autoriser la compagnie à émettre des octrois de terres et des obligations portant deuxièmes hypothèques et des actions privilégiées, et pour d'autres fins.

KINGSMILL, SAUNDERS ET TORRANCE,
Solliciteurs de la compagnie.

Toronto, 21 mai 1896. 47-9

DEMANDES POUR CHARTE PAR LETTRES PATENTES.

AVIS est par le présent donné que dans le cours d'un mois à compter de la dernière publication de cet avis dans la *Gazette du Canada*, les personnes ci-après dénommées s'adresseront à Son Excellence le Gouverneur général en conseil pour obtenir des lettres patentes les constituant et telles personnes qui pourront plus tard devenir actionnaires de la dite compagnie, en corps politique et corporation, en vertu de "l'Acte des compagnies," Statuts Revisés du Canada, chap. 119, sous le nom et pour les fins ci-après mentionnés :—

1. Le nom corporatif de la compagnie sera la "Talbot Brussels Carpet Company" (à resp. limitée).

2. Les fins dans le sens de l'acte pour lesquelles une charte est demandée sont de fabriquer des tapis, filer l'estame, et généralement faire les opérations de fabricants de tapis, et toutes autres affaires s'y rattachant, par toute la Puissance du Canada.

3. Le principal bureau d'affaires de la dite compagnie sera en la cité de Montréal, province de Québec.

4. Le montant projeté du capital-actions est de deux cent mille piastres.

5. Le nombre des actions est de deux mille, et le montant de chaque action sera de la valeur de cent piastres.

6. Les noms au long, et les adresse et occupation de chacun des requérants sont :—William Talbot, fabricant de tapis, et Emil Cockroft, fileur, tous deux d'Elora, dans la province d'Ontario ; Frederick Talbot, fabricant de tapis, Edward Hobson Barker, bourgeois, et Arthur William Patrick Buchanan, avocat, tous des cité et district de Montréal ; lesquels seront les premiers directeurs ou directeurs provisoires de la dite compagnie.

WHITE, O'HALLORAN ET BUCHANAN,
Solliciteurs des requérants.

Montréal, 15 juin A.D. 1896. 51-6

AVIS est par le présent donné que dans le cours d'un mois à compter de la dernière publication de cet avis dans la *Gazette du Canada*, les personnes ci-après dénommées s'adresseront à Son Excellence le Gouverneur général en conseil pour obtenir des lettres patentes les constituant et telles autres personnes qui pourront plus tard devenir actionnaires de la dite compagnie, en corps politique et corporation, en vertu de "l'Acte des compagnies," Statuts Revisés du Canada, chap. 119, sous le nom et pour les fins ci-après mentionnés :—

1. Le nom corporatif de la compagnie sera la "Imperial Mail Marking Machine Company" (à resp. limitée).

2. Les fins pour lesquelles une charte est demandée sont d'acquérir par achat, octroi, cession, bail, licence ou autrement, des inventions dans les machines a marquer ou étamper les malles ou autres machines utilisées dans le maniement ou le traitement des matières postales, et les brevets déjà accordés ou qui seront ci-après accordés pour ces inventions pour la Puissance du Canada et pour le Royaume-Uni de la Grande-Bretagne et d'Irlande, surtout les brevets pour les dits pays ci-devant accordés à Charles F. Brown sur les inventions de M. V. B. Ethridge et Henry E. Waite, ainsi que tous les privilèges d'une nature quelconque accordés ou conférés en vertu de ces brevets, et de manufacturer ou autrement acquérir et vendre, louer ou autrement disposer des machines couvertes par ces brevets, ou tous perfectionnements à ces brevets, avec le pouvoir de vendre ou autrement disposer par bail, licence ou autrement, des droits et privilèges conférés par ces brevets en Angleterre, en Irlande, en Ecosse, dans le Pays de Galles et au Canada, ou dans aucun des dits pays, ou partie ou parties d'iceux, et d'acquérir ou obtenir de nouveaux brevets au bénéfice de la compagnie pour tous les perfectionnements de ces machines, et de faire tout ce qui sera nécessaire ou propre à atteindre le but que se propose la compagnie.

3. Le principal lieu d'affaires de la dite compagnie sera en la cité de Montréal, dans la province de Québec.

4. Le montant du capital-actions de la dite compagnie sera de cinq cent mille piastres ($500,000).

5. Le nombre des actions sera de dix mille (10,000), et le montant de chaque action de cinquante piastres ($50).

6. Les noms au long et les adresse et occupation de chacun des requérants sont les suivants :—Herbert S. Holt, bourgeois, David Burke, gérant d'assurance, James P. Dawes, brasseur, et John Brooks Young, marchand, tous des cité et district de Montréal, et Joaquin K. Souther, marchand, et Frank B. Dole, marchand, tous deux de la cité de Boston, dans l'Etat du Massachusetts ; lesquels seront les premiers directeurs ou directeurs provisoires de la dite compagnie, et dont la majorité seront résidents du Canada.

HALL, CROSS, BROWN ET SHARP,
Solliciteurs des requérants.

Montréal, 28 avril 1896. 44–10

AVIS est par le présent donné que dans le cours d'un mois à compter de la dernière publication de cet avis dans la *Gazette du Canada*, les personnes ci-après dénommées s'adresseront à Son Excellence le Gouverneur général en conseil pour obtenir des lettres patentes les constituant et telles autres personnes qui pourront plus tard devenir actionnaires de la dite compagnie, en corps politique et corporation, en vertu de "l'Acte des compagnies," Statuts Revisés du Canada, chap. 119, sous le nom et pour les fins ci-après mentionnés :—

1. Le nom corporatif de la dite compagnie sera "La Compagnie de Publications Artistiques" (à responsabilité limitée).

2. Les fins pour lesquelles une charte est demandée sont les suivantes :—

(*a.*) Acquérir les droits nécessaires pour l'impression et la publication d'ouvrages littéraires, artistiques et autres ;

(*b.*) Acheter, vendre, fabriquer et produire tels ouvrages artistiques, littéraires et autres ;

(*c.*) Obtenir, utiliser, vendre, acheter, louer ou permettre l'usage de brevets et des droits de brevets, dessins, droits d'auteurs, etc., et les vendre, louer et autrement en disposer ;

(*d.*) Acquérir et posséder tout matériel d'imprimerie, gravures sur bois et sur métaux, tout outillage se rapportant et nécessaire à ces arts et industries, et aussi les immeubles pour les fins de la compagnie, et de les vendre ou autrement en disposer ;

(*e.*) Acquérir et posséder des parts dans le capital-actions d'autres corporations et de les vendre ou autrement en disposer.

3. La principale place d'affaires de la compagnie sera en la cité de Montréal, dans la Province de Québec ;

4. Le montant du capital-actions de la future compagnie est de cinquante mille piastres, divisé en mille actions de la valeur chacune de cinquante piastres ;

5. Les noms, lieu, résidences et qualités des requérants sont comme suit : — Guillaume Narcisse Ducharme, banquier, de la cité de Sainte-Cunégonde de Montréal, Louis Joseph Odilon Beauchemin, libraire, Aphrodise Mathias Charbonneau, agent commissionnaire, Joseph Adam, avocat, et Ubalde Plourde, avocat ; ces quatre derniers, de la cité et du district de Montréal, seront les premiers directeurs provisoires de la compagnie.

ADAM ET PLOURDE,
Avocats des requérants.

Montréal, 18 mai 1896. 50–6

[2111]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 23rd day of June, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to approve of the following by-laws adopted by the Pilotage Commission for Bay Verte and Port Elgin, in the County of Westmoreland, Province of New Brunswick, on the 16th day of March, 1896.

JOHN J. McGEE,
Clerk of the Privy Council.

—

The Pilot Commissioners, being the Pilotage Authority for the Port of Bay Verte and Port Elgin in the County of Westmoreland and Province of New Brunswick, have adopted and ordered to be submitted to the Honourable the Minister of Marine, the following rules and regulations :—

All rules and regulations heretofore made by said Pilotage Authority are hereby repealed and the following adopted in lieu thereof :—

1. The limits of the Bay Verte and Port Elgin Pilotage District is understood to extend from the Province line on the east to Jourmain Island on the west including the Cape Tormentine Pier.

2. Any person of the full age of twenty-one years, of temperate habits, being a British subject, and having been examined and found competent may be granted a license as a pilot upon payment of a fee of five dollars.

3. A certificate may be granted a master or mate upon payment of a fee of six dollars, and four dollars for each annual renewal.

4. Every Bay Verte pilot shall, with his licence, be given a copy of these regulations, and he shall exhibit them to the master of any vessel of which he may take charge, if required so to do.

5. Licensed pilots shall be entitled to all fees earned by them individually, less five per cent as hereinafter provided.

6. Every licensed pilot shall without delay report to the Secretary of the Pilotage Authority, every vessel piloted by him to or from sea, giving the name, rig, tonnage, nationality, draught of water ; if inward where from and to whom consigned, if outward, name of shipper and where bound ; also all services that have been rendered, any accident to any vessel under his charge, and any matter of note which may have come under his observation affecting the safety of vessels.

7. If any licensed pilot shall offer his services to any inward bound vessel and be refused, no other licensed pilot being on board or having previously offered his services, to such vessel, such pilot so refused shall be entitled to the same rate of pilotage as if he had been actually employed to pilot such vessels.

8. Vessels of the following description shall be exempted from the compulsory payment of pilotage dues in addition to those exempted by Act of Parliament, 38 Vic., chap. 28, as amended by 40 Vic., chap. 20 : ships registered in Canada not exceeding one hundred and thirty tons registered tonnage ; all other vessels coming to any point between Jourmain Island and the head of the Bay Verte shall pay inward pilotage dues at the rate of one dollar per foot draught of water; and vessels from same point outwards shall pay outward pilotage dues at the rate of one dollar per foot draught of water.

9. Any licensed pilot having had charge of a vessel inwards, or having so offered his services to said vessel as to entitle him to full inward pilotage, shall have the privilege of piloting said vessel outward unless directed otherwise by the Pilotage Authority.

10. Any licensed pilot placed in charge of a vessel by the master, shall, in addition to full pilotage, be paid two dollars and fifty cents for each day said vessel may be detained by stress of weather or otherwise.

11. Any dispute arising between a Master of a vessel and a pilot respecting pilotage, shall be submitted to the Pilotage Authority whose decision shall be final and binding on all parties.

12. Any pilot may be deprived of license for repeated violation of these regulations, neglect of duty, drunkenness or incompetency from old age, or mental or bodily infirmities.

13. The master of each outward bound vessel shall give notice to the Secretary of the Pilotage Authority at least twenty-four hours before said vessel is ready for sea.

14. Edward C. Gooden, one of the Commissioners of Pilots for said District is hereby appointed secretary and treasurer, who shall collect and receive all fees and earnings under these regulations, for all of which his receipt shall be valid ; he shall keep a book in which he shall record the minutes, and all licenses, keep an account of all fees, pilotages dues, &c., received; and of all sums paid to pilots and otherwise ; and attend to all other matters belonging to the office of secretary and treasurer ; for which services he shall receive five per cent of the gross receipts.

Dated at Bay Verte, New Brunswick, this 16th day of March, A.D. 1896.

HAZEN COPP,
GODFREY SIDDALL,
EDWARD C. GOODEN,
JOSEPH D. LANE,
W. H. DOBSON,

Pilotage Commissioners for the Port of Bay Verte and Port Elgin. 52-4

[2081]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 11th day of June, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of the 21st section of chapter 72 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to grant permission to change the name of the barge " Glenora " of Montreal, official number 80,699, to " Hector."

JOHN J. McGEE,
Clerk of the Privy Council.

51–4

[2080]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 11th day of June, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS it is advisable that the regulations respecting the shipping of live stock from Canada to Europe should be amended so as to give authority to deal with horses shipped from Canada to Europe as well as cattle,—

Therefore, His Excellency, on the recommendation of the Minister of Marine and Fisheries, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order and it is hereby ordered that the said regulations respecting the shipping of live stock be and the same are hereby amended by repealing the interpretation clause defining the expression " cattle " and substituting the following clause therefor :

Interpretation :—The expression " cattle " means bulls, oxen, cows and heifers one and two years old, and the expression " horses " includes mares.

His Excellency is pleased further to order that the following section be added to the existing regulations respecting the shipping of live stock from Canada :

No. 21. For the better protection of the health of the live stock no cattle or horses shall be taken on board except cattle or horses which have been inspected and passed as regards health by a duly appointed Government veterinary inspector.

[2077]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 11th day of June, 1896.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada has this day been pleased to approve of the following By-law passed by the Harbour Commissioners of Montreal, on the 26th day of May, 1896, repealing By-law 130 and substituting the following By-law therefor :—

JOHN J. McGEE,
Clerk of the Privy Council.

—

At a meeting of the Harbour Commissioners of Montreal, duly called and held at Montreal, on the twenty-sixth day of May, eighteen hundred and ninety-six, were present :—Mr. Henry Bulmer, President : Mr. Victor Hudon, Mr. Richard White, Mr. W. W. Ogilvie, Mr. Hormisdas Laporte, Mr. Frank J. Hart, Mr. Hugh McLennan, Mr. L. E. Morin, Mr. Andrew Allan.

The draft of an amendment to By-law 130 was laid before the meeting, whereupon it was—

Resolved,—That By-law 130 be repealed and replaced by the following By-law 130 :—

" The following shall be the tariff of rates from the date of the coming into force of the present by-law :—

On coal, coke, grain and seeds of all kinds, 7½ cents per ton.

On ballast, cement, clay, earthen drain-pipes, fire-bricks, gypsum, lime, marble and all other stone, phosphates, salt, sand, scoriæ-blocks, slate, whiting, 10 cents per ton.

On apples, oranges, lemons and other green fruits, crates and their contents, flour and meal, fish, meat, pitch, potatoes, tar, horses, neat cattle, sheep, swine, hay, straw, wood-pulp, tobacco, lard, lard-oil, and oil-cake, 15 cents per ton.

On pig and scrap iron, pot and pearl ashes, 20 cents per ton.

On bricks, 10 cents per thousand ; on cordwood, 5 cents per cord ; on lumber and timber, 10 cents per thousand feet board measure.

On all goods, wares and merchandise, except bullion and specie, not elsewhere specified, 25 cents per ton.

On goods upon which, in the opinion of the Harbour Commissioners, it is not convenient to ascertain the rates according to the above provisions, it shall be lawful for the said Commissioners to levy a rate of one-fourth of one per cent on the value thereof.

No entry shall be less than five cents.

Only one rate shall be levied on property covered by the foregoing provisions when landed on the wharves for reshipment only.

The foregoing rates less twenty per cent shall be levied as hereinabove set forth on the said articles when landed or shipped in the harbour, or moved by rail on the harbour tracks or deposited within the harbour.

On all goods remaining on the wharves more than four clear working days after notice given for their removal by the Harbour Master in the case of goods imported, there shall be levied additional rates as follows :—

On cement, one cent per barrel per day.

On salt, one-half cent per bag per day.

On iron, one-half cent per hundredweight per day.

On bricks, ten cents per thousand per day.

On drain-pipes and all other non-enumerated articles, one-half cent per hundredweight per day.

For the purpose of this By-law a ton shall be calculated as being 2,000 pounds weight, or forty cubic feet measurement, according as the goods to which the same applies have been, or shall be, carried by water by ton weight or ton measurement.

The weight of the articles hereinafter described may be estimated as follows :

Ashes, pot or pearl, three barrels to one ton.

Apples, flour, meal, potatoes, nine barrels to one ton.

Fish, meat, pitch, tar, seven barrels to one ton.

Horses, two to one ton.

Neat cattle, three to one ton.

Sheep, fifteen to one ton.

Swine, ten to one ton."

Certified,
ALEXANDER ROBERTSON,
Secretary,
51-4 Harbour Commissioners of Montreal.

NOTICE TO MARINERS.

No. 23 of 1896.

PILE BEACONS IN BRITISH COLUMBIA.

Pile beacons have recently been established by the Government of Canada to mark shallow channels through sand banks at the mouth of Fraser River and in Mud Bay, off the mainland of British Columbia. The piles consist of single sticks, and in each case are painted as buoys for similar positions would be coloured. The channels marked are, as a rule, shallow, narrow and tortuous, and only suitable for navigation by small craft in charge of men with local knowledge. They should not be used except on a rising tide and near high water, and then only by vessels able to take the ground without damage. The following channels have been marked :—

I. NORTH FORK OF NORTH ARM, FRASER RIVER.

This is the most northerly mouth of the river, Shown dotted on Admiralty Chart No. 1922, and its approach is marked by nine beacons. Some of these were established in 1886 and renewed and extended from time to time since, but four which had been carried away were replaced this year. The outermost pile, a black one, is on Sturgeon Bank, in Lat. N. 49° 14' 0", Long. W. 123° 13' 50".

Outside of this pile the channel loses itself in the sands of Sturgeon Bank. Running in from the pile the channel runs approximately E.S.E. roughly parallel to the shore line from Grey Point.

The Middle Fork of the North Arm, immediately north of Sea Island, now dries at low water and is not used.

The South Fork of the North Arm divides into several branches and loses itself in the Sand Heads, without any channel as shown dotted on chart.

II. CANOE PASS.

This is the common name of the Arm marked "South Channel" on the charts. From it to deep water there is a channel through Roberts Bank, carrying from 4 to 8 feet, ending immediately south of the south cluster of piles on Roberts Bank. The best water through the Sand Heads is shown by eight piles, all black, the outermost one distinguished by four slats of wood nailed on crosswise. It stands approximately in Lat. N. 49° 3' 18", Long. W. 123° 12' 25".

These notices affect Admiralty charts Nos. 579, 1922 and 2689, and British Columbia Pilot, 1888, page 136.

III. MUD BAY.

This is the north-east extreme of Boundary Bay and is a mud flat, dry at low water, with three principal channels through it, known as the Big Slue, the Serpentine and Nicomeck'l River. These have a common outlet immediately west of the spit at the mouth of Nicomeck'l River, Blackie Spit.

To reach the outermost pile vessels should round Roberts Point at a distance of about 1½ miles and steer north until the white cliff on the east side of Roberts Point and four trees on Blackie Spit are in line ; then haul for the trees, keeping them ahead and the cliff right astern. This gives a depth of from 2¼ to 2½ fathoms at high water. Then run along the west side of Blackie Spit ½ cable from shore to the outermost black beacon, which is in Lat. N. 49° 3' 30", Long. W. 122° 53' 0".

The three channels are marked by thirty black, eight red and one black-and-red banded, piles, the last named marking the junction of the Big Slue and Serpentine.

Big Slue dries completely, the Serpentine varies in depth from 2 to 6 feet, and Nicomeck'l River from 1½ to 4 feet at low water spring tides.

This notice affects Admiralty charts Nos. 1917 and 2689, and British Columbia Pilot, 1889, page 126.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 6th June, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 52-3

NOTICE TO MARINERS.

No. 24 of 1896.

I. ST. JOHN'S LEDGE BELL BUOY REPLACED.

Referring to Notice to Mariners No. 8 of 1896, the bell buoy which went adrift from St. John's Ledge, near Pubnico, in the Bay of Fundy, or sank at its moorings, was replaced by another buoy on the 1st May last.

II. SURVEYING VESSEL ON THE BANKS OFF HALIFAX.

Commander G. E. Richards, R.N., of H. M. S. "Rambler," has issued the following notice :—

"To Masters of vessels, fishing boats, etc.—

"H. M. S. 'Rambler' being engaged in sounding the " banks and approaches to Halifax, Masters of vessels " and others are requested to keep clear of any gas " buoys and beacons she may lay down, and also as " far as possible of the ship herself both when under " weigh and at anchor on the bank."

As the work being done by the "Rambler" is for the benefit of all vessels, their cordial compliance with Commander Richards' request is expected.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 15th June, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 52-3

NOTICE TO MARINERS.

No. 25 of 1896.

LAKE ST. CLAIR TWENTY-FOOT CHANNEL.

Notice is given by the Lighthouse Board of the United States of America that on 10th May, 1896, a light was established on each of the 3 five-pile clusters recently erected by the Lake Carriers' Association on the south-easterly side of the completed portion of the new twenty-foot dredged channel in the S.W. part of Lake St. Clair, as follows :—

LOWER ENTRANCE BEACON.—A fixed white lantern light, $15\frac{3}{4}$ feet above lake level, on the cluster on the S.E. side of the channel at the lower entrance and about $\frac{7}{16}$ mile W. by S. from Grossepointe Beacon. Middle Beacon, N.E. $\frac{1}{4}$ E., $\frac{3}{4}$ mile ; Windmill Point Lighthouse, W.S.W. $\frac{1}{2}$ W., nearly $1\frac{7}{8}$ miles ; outer end of Fishers Dock, N. $\frac{5}{8}$ W., $1\frac{1}{4}$ miles.

MIDDLE BEACON.—A fixed white lens-lantern light, $15\frac{3}{4}$ feet above lake level, on the S.E. side of the channel about $\frac{7}{16}$ mile N. by E. $\frac{5}{8}$ E. from Grossepointe Beacon. Upper Beacon, N.E. $\frac{1}{4}$ E., about $1\frac{3}{16}$ miles ; Lower Entrance Beacon, S.W. $\frac{1}{4}$ W., $\frac{3}{4}$ mile ; Windmill Point Lighthouse, S.W. by W. $\frac{13}{16}$ W., $2\frac{9}{16}$ miles ; outer end of Fishers Dock, N.W. $\frac{3}{16}$ N., about 1 mile.

UPPER BEACON.—A fixed white lens-lantern light, $15\frac{3}{4}$ feet above the lake level, on the S.E. side of the channel, nearly $1\frac{3}{8}$ miles S.E. by E. $\frac{1}{2}$ E. from Grossepoint. Grossepointe Beacon, S.W. $\frac{1}{2}$ S., nearly $1\frac{5}{8}$ miles ; outer end of Fishers Dock, W. $\frac{1}{4}$ S., about $1\frac{9}{16}$ miles.

GROSSEPOINTE BEACON LIGHT.

On the same date the fixed red and fixed white lens-lantern lights heretofore shown at this station, in the south-westerly part of Lake St. Clair, were permanently discontinued.

GROSSEPOINTE LIGHT VESSEL No. 10.

And on the same date the station of this vessel was changed to a point about $1\frac{3}{16}$ miles N.N.E. $\frac{7}{16}$ E. from her former station and just above Buoy No. 16 on the S.E. side of the upper end of the completed portion of the dredged channel. The vessel lies approximately in line with the temporary beacon lights established on the same date and on the same side of the channel. Grossepointe Beacon, S.W. $\frac{1}{8}$ S. nearly $2\frac{9}{16}$ miles ; Windmill Point Lighthouse, S.W. by W. $\frac{1}{8}$ W., nearly $4\frac{11}{16}$ miles ; Grossepointe, W., nearly $1\frac{15}{16}$ miles ; Milk River Point, N. $\frac{15}{16}$ W., $4\frac{3}{16}$ miles.

Vessels are requested to keep on the north-westerly side of the new channel in order not to interfere with the sweeping of the opposite side.

This notice affects Admiralty charts Nos. 330, 332 and 678.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 15th June, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 52-3

NOTICE TO MARINERS.

No. 21 of 1896.

COLOUR OF LURCHER SHOAL WHISTLING BUOY.

The automatic whistling buoy maintained by the Government of Canada on Lurcher Shoal, in the Bay of Fundy, off the coast of Yarmouth County, Nova Scotia, is incorrectly described in the Canadian List of Lights and Fog Signals. It is painted in red and black horizontal bands, with "Lurcher Shoal" in white letters. It is surmounted by a 10-inch whistle. The shoal lies N.W. by W. $\frac{1}{2}$ W. 15 miles from Cape Fourchu Light.

This notice affects Admiralty charts Nos. 352, 2537, 2538 and 2670, and Canadian List of Lights and Fog Signals No. 124.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 3rd June, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 51-3

NOTICE TO MARINERS.

No. 22 of 1896.

SPECIAL FOG SIGNALS AT BRITISH COLUMBIA STATIONS.

I. CARMANAH.

On and after 1st July next, a steam whistle attached to the fog alarm boiler at Carmanah Station, will be used in addition to the horn, which will be operated as heretofore, for communicating in foggy weather with passing steamers. A private code has been arranged with several steamers. Strangers may communicate with the station by whistle sounds, using the "Morse" or "Continental" telegraphic codes.

This notice affects Canadian List of Lights and Fog Signals, No. 1163.

II. RACE ROCKS.

On and after 1st July next, in addition to the regular fog signal which consists of single blasts of five seconds' duration, with intervals of seventy-two seconds between them, a signal of four short blasts from the fog whistle at Race Rocks in answer to the fog signal of any steamer enveloped in fog in Juan de Fuca Strait will denote that the northern portion of the strait is free from fog. It often happens that when there is thick fog in the southern part of the strait the northern portion is perfectly clear. In such circumstances, the special signal now arranged will enable steamers to clear the fog readily.

This notice affects Canadian List of Lights and Fog Signals No. 1165.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 5th June, 1896.

☞All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 51-3

NOTICE TO MARINERS.

No. 20 of 1896.

I. CHANGE IN BUOYS AT MOUTH OF RIVER DETROIT.

The Canadian buoys on the east side of the dredged channel at the mouth of River Detroit, Lake Erie, have this season been rearranged and increased in number. The channel has been dredged by the American Government to a width of 800 feet, its axis being a straight line joining Detroit River Lighthouse (American) and Bois Blanc Island Lighthouse (Canadian).

The Canadian buoys marking the east edge of this dredged cut are now seven red wooden spars. They are situated approximately 400 feet east of the centre line of the above dredged channel, and are respectively 4,462, 5,632, 6,927 (approximately), 8,221, 10,029, 11,365 and 13,525 feet above Detroit River Lighthouse. This last most northerly buoy is about 18,600 feet below Bois Blanc Lighthouse. The above distances are measured along the axis of the channel to points immediately opposite to the buoys.

This notice affects Admiralty charts Nos. 332, 490 and 678.

II. PILOT ISLAND RANGE LIGHTS.

Notice is given by the Lighthouse Board of the United States of America that, on or about the 4th June, 1896, the colour of each of the lights of this range, located on the south side of Mud Lake, River St. Mary, will be changed from red to white.

No other change will be made.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 2nd June, 1896.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy-Minister of Marine and Fisheries, Ottawa, Canada. 50-3

PUBLIC Notice is hereby given that under The Companies Act letters patent have been issued under the Great Seal of Canada, bearing date the 12th day of June, 1896, incorporating Arthur William Lee, manufacturer, Herbert Blake Andrews, accountant, Charles Cecil Sheriff, manufacturer, James Russell Lovett Starr, barrister, and John Henderson, Goodall, distributor, all of the City of Toronto, in the County of York, and Province of Ontario, for the following purposes, viz.:—(*a*.) The distributing and delivery of newspapers, periodicals, and other reading matter, together with samples, parcels and other goods, wares and merchandise of all descriptions throughout the cities, towns and other parts of the Dominion of Canada; (*b*.) The carrying on of a special messenger service for the delivery of messages,—by the name of "The Dominion Distributing Company" (Limited), with a total capital stock of five thousand dollars, divided into one hundred shares of fifty dollars.

Dated at the office of the Secretary of State of Canada, this 19th day of June, 1896.

JOSEPH POPE,
51-3 Under-Secretary of State.

PUBLIC Notice is hereby given that under "The Companies Act" supplementary letters patent have been issued under the Great Seal of Canada, bearing date the 12th day of June, 1896, whereby the total capital stock of "The Sawyer and Massey Company" (Limited) is increased from one hundred thousand dollars ($100,000) to five hundred thousand dollars ($500,000).

Dated at the office of the Secretary of State of Canada, this 19th day of June, 1896.

JOSEPH POPE,
51-3 Under-Secretary of State.

PUBLIC Notice is hereby given that under "The Companies Act" supplementary letters patent have been issued under the Great Seal of Canada, bearing date the 12th day of June, 1896, whereby the name of "The International Trading Company" (Limited) is changed to that of "The International Navigation and Trading Company" (Limited).

Dated at the office of the Secretary of State of Canada, this 20th day of June, 1896.

JOSEPH POPE,
Under-Secretary of State.

PUBLIC Notice is hereby given that under The Companies Act, letters patent have been issued under the Great Seal of Canada, bearing date the 12th day of June, 1896, incorporating William Reid Gardner, manufacturer, William McLeod Gardner, manufacturer, both of the Town of Brockville, in the County of Leeds, and Province of Ontario; John Murphy, dry goods merchant, of the City of Montreal, in the Province of Quebec; John Adams Bangs, banker, of the Town of Carleton Place, in the County of Lanark, and Province of Ontario; Robert H. Crane, contractor, of the City of Ottawa, in the County of Carleton, and Province of Ontario, for the following purposes, viz.:—(*a*) To acquire and carry on the business now carried on by The W. R. Gardner Tool Company of Brockville, Ontario; and to manufacture, buy, sell and deal in edged tools, saws, hammers, and implements of all kinds for working in wood, iron, brass, and other metals and materials; and to acquire and hold by lease, purchase or otherwise, water power privileges for the development of the necessary power for the said manufacturing business, by the name of "The W. R. Gardner Tool Company" (Limited), with a total capital stock of one hundred thousand dollars, divided into one thousand shares of one hundred dollars.

Dated at the office of the Secretary of State of Canada, this 19th day of June, 1896.

JOSEPH POPE,
51-3 Under-Secretary of State.

IN THE EXCHEQUER COURT OF CANADA.

GENERAL ORDER.

THE Special sitting of the Exchequer Court of Canada, fixed by General Order of the 2nd day of April, 1896, to be holden at the City of Halifax, N.S., on the 6th day of July, 1896, is hereby rescinded; and it is hereby ordered that a special sitting of the said Court in lieu thereof be holden at the Court-house, in the said City of Halifax, on Tuesday, the 22nd day of September, 1896, commencing at the hour of 11 a.m.

Dated at Ottawa, this 8th day of June, A.D. 1896.

GEO. W. BURBIDGE,
50-3 J.E.C.

TO ADVERTISERS IN THE *GAZETTE.*

PARTIES sending advertisements to be inserted in the *Canada Gazette* will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."

2nd. Indicate the number of insertions required.

3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are 10 cents for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cents each, and when more than one are required by advertisers, must be remitted for likewise.

S. E. DAWSON,
Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

CONDENSED RULES *in re* NOTICES FOR PRIVATE BILLS.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of The British North America Act, 1867, for granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application ; such notice except in the case of existing corporations) shall be signed by, or on behalf of the applicants, and be published as follows, viz :

In the Provinces of Quebec and Manitoba.

In the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

In the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices shall be continued in each case, for a period of at least two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. Marked copies of all the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House, endorsed "Application for a Private Bill."

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioners shall also, at the same time and in the same manner, give notice of the proposed rates of toll, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and, if a drawbridge, the dimensions of the same.

Any person seeking to obtain a Private Bill shall, at least eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the Bill is to originate, a copy of such Bill in the English or French language, with a sum sufficient to pay for translating and printing the same. The applicant shall also, after the second reading, and before the consideration of the Bill by any Committee, pay the Clerk of the Senate, or the Accountant of the House of Commons (as the case may be) a fee of $200, and a sum sufficient to pay the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred.

The fee of $200 payable on any Private Bill is paid only in the House in which such Bill originates ; but the charges for reprinting and translation consequent thereon are paid in the House in which such charges are incurred.

No Petition for a Private Bill is received by the Senate or by the House of Commons after the first three weeks of the Session.

No Private Bill may be presented to the Senate or to the House of Commons after the first four weeks of the Session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.
JOHN GEORGE BOURINOT,
Clerk of the Commons.

SPECIAL RULE OF THE SENATE.

49. (*c.*) When a Bill is to operate in more than one Province, Territory or District, the notices shall be published in the *Canada Gazette* and in a leading newspaper published in each Province, Territory or District in which the Bill is to operate.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

ADDITIONAL RULES OF THE HOUSE OF COMMONS RESPECTING PRIVATE BILLS.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bill ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule*, shall be recast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses.*

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill, copies of which may be obtained from the Clerk of the House.

(*a.*) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and Bills which are not in accordance with this Rule shall be returned to the promoters to be recast before being revised and printed ;

(*b.*) Any sections of existing Acts which are proposed to be amended shall be reprinted in full with the amendments inserted in their proper places and between brackets ;

(*c.*) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a.*) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or autho-

rized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map or plan shall be signed by the Engineer or other person making the same ;

(*b*.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Special Order of the House of Commons.

Resolved, That the Clerk of the House do have a copy of the new Rule 49 sent to those persons giving notice in the *Canada Gazette* of their intention to apply to Parliament for the passing of a Private Bill, together with a notification that the said Rule will be strictly adhered to for the future :—

49. Petitions for Private Bills shall only be received by the House within the first *three weeks* of the session, and Private Bills may only be presented to the House within the first *four weeks* of the session, and it shall be the duty of any Committee to which any Private Bill may be referred to consider and report the same to the House with all convenient speed.

2. That it be an instruction to all Committees on Private Bills, in the event of promoters not being ready to proceed with their measures when the same have been twice called *on two separate occasions* for consideration by the Committee, that such measures shall be reported back to the House forthwith, together with a statement of the facts and with the recommendation that such Bills be withdrawn.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Substance of Rules of the Senate relating to Notices and Applications for Bills of Divorce.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the *Canada Gazette* and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-west Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under The Canada Evidence Act, 1893.

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, for an Act extending the time for which the Act to incorporate the Canadian Railway Fire Insurance Company (1894), shall be in force before license obtained.

A. FERGUSON,
Solicitor for provisional directors.
Dated this 18th day of June, A.D. 1896. 52–9

NOTICE is hereby given that an application will be made to the Parliament of Canada, at the next session thereof, for an Act to permit the Kingston and Pembroke Railway to be sold for the payment of the indebtedness of the company,

W. F. NICKLE,
52–9 Solicitor for applicant.

NOTICE.—The Canadian Pacific Railway Company will apply to the Parliament of Canada, at its next session, for an Act confirming and giving effect to an agreement between it and the Grand Trunk Railway Company of Canada, by which the latter company grants to the former for fifty years, running powers over the Grand Trunk Railway between Toronto and Hamilton, and authorizing the Canadian Pacific Railway Company to operate railway traffic between Toronto and Hamilton as contemplated by the said agreement ; the compensation for such running powers being a fixed yearly sum, together with other sums which are variable and are to be ascertained from time to time as provided for in the said agreement.

A. R. G. HEWARD,
Acting secretary.
Dated the 25th day of June, A.D. 1896. 52–9

THE HULL ELECTRIC COMPANY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, for an Act to change the name of the said company to "The Hull and Aylmer Railway Company," to have it declared that the railway and other works of the said company are for the general advantage of Canada, to confirm and ratify a lease of the Aylmer branch of the Canadian Pacific Railway to the said applicants for a term of thirty-five years, to extend the line of the said company to the Suspension Bridge between Hull and Ottawa, over the public works and bridges of the Dominion of Canada, and for other purposes.

HENRY AYLEN,
Solicitor for applicants.
Ottawa, 26th June, 1896. 52–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, for an Act to incorporate The Toronto Radial Railway Company, such Act to provide that the company may,—

1. Acquire all or any of the real and personal property, rights and franchises and privileges heretofore owned or enjoyed by The Toronto Belt Line Railway Company, or by any other company operating or having the right to operate an electric or other railway in the City of Toronto, or within fifty miles thereof.

2. Exercise all such rights, franchises or privileges and alter and improve The Toronto Belt Line Railway

or other railways when so acquired, and convert the same or any portion or portions thereof into an electric railway or system of railways with one or more tracks.

3. Make such extension or extensions of the said railway or railways within the City of Toronto or within a radius of fifty miles thereof as the company may deem necessary or expedient, and operate the same.

4. Make such agreements and exercise all such powers as may be necessary for the purposes aforesaid.

DEWART & RANEY,
Solicitors for the applicants.
52–9

PUBLIC Notice is hereby given that at the next session of the Parliament of Canada, application shall be made for the incorporation of a company having for its object the construction of a bridge, for the general traffic and the passage of electric tramways on the St. Lawrence River, between some point on the south shore, and another point in the limits of the City of Montreal, on the north shore, in passing by Round Island and St. Helen Island, the channel to be traversed by a bridge with suspended carrier *Arnodin System*, and the construction and operation of electric tramways in the surrounding counties on the south shore.

J. U. EMARD,
Solicitor for applicants.
Montreal, 3rd June, 1896. 49–9

NOTICE is hereby given that at the next session of the Parliament of Canada, an application will be made by the Eastern Trust Company, for an Act to amend the charter of the company by providing that the company may in addition to its present powers invest trust moneys in the Province of Nova Scotia in any securities in which other trustees now, or may hereafter, have power to invest trust funds by the laws of that Province; and also providing that the board of directors may appoint an executive committee and defining the powers and duties of such executive committee.

HARRIS, HENRY & CAHAN,
Solicitors for the Eastern Trust Company.
Dated Halifax, N.S., 12th June, 1896. 51–9

PUBLIC Notice is hereby given that at the next session of the Parliament of Canada, application will be made for the incorporation of a company having for its objects the construction and maintenance of telephone and telegraph lines from the Town of Trail, in the District of West Kootenay, in the Province of British Columbia, by Rossland, Grand Forks and other towns and camps, and to connect with the Spokane and Columbia Telephone and Telegraph Company on the International boundary line, with power to construct and operate branch lines and extensions to any point in the Districts of West Kootenay and Yale.

ANGUS McNISH,
Solicitor for applicants.
Dated at Rossland, B.C., this 2nd day of June, A.D. 1896. 51–9

NOTICE is hereby given that an application will be made to the Parliament of Canada, at the ensuing session thereof, for an Act confirming the deed of amalgamation entered into between the Ottawa, Arnprior and Parry Sound Railway Company and the Parry Sound Colonization Railway Company, and to incorporate the said companies into one corporation under the name of the Ottawa, Arnprior and Parry Sound Railway Company, with powers as in the several Acts relating to the said companies respectively and in the said deed of amalgamation are contained, or to change the name of the said amalgamated company, and to extend the time for completing said railway.

CHRISTIE, GREENE & GREENE,
Solicitors for applicants.
Dated at Ottawa, this 30th day of May, 1896. 49–11

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a Religious Body to be called and known as "The Wesleyan Methodist Connection of Canada," and to authorize such corporation to meet and adopt, frame or repeal constitutions and make regulations for enforcing discipline in said Connection, and to empower said corporation to acquire, receive and take conveyances of such lands, moneys, mortgages, securities or other property as may be required for the purposes of a chapel or chapels, college or colleges, school or schools or other educational purposes connected with the said Connection, and for the purpose of a printing and publishing house or houses in connection with the said Connection, and for power to undertake and carry on such business of printing and publishing, and for authority and power to endow and support such chapels, colleges and schools, and such printing and publishing house or houses and a book depository or depositories in connection therewith, and to take and receive the benefit of any gift or devise by will or otherwise in its said corporate name or otherwise, and to give said Connection all necessary powers connected therewith.

BRADLEY & WYLD,
Solicitors for applicants.

H. KENDRICK,
Secretary.
By A. FERGUSON,
Solicitor for the applicants.
Dated 7th May, 1896. 45–9

THE HUDSON'S BAY AND PACIFIC RAILWAY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct, operate and maintain a railway to be operated by steam and electricity from Port Churchill on Hudson's Bay through North-west and Keewatin Territories, to Fond du Lac, on Lake Athabaska, and from Port Churchill aforesaid, on Hudson's Bay, through the Territory of Keewatin, south of Churchill River and north of Nelson River, to a point at or near Sea Falls, on said river; thence north of Lake Winnipeg through the Territory of Saskatchewan to Prince Albert, in said Territory; thence continuing through the said Territory and the Territory of Alberta, in a direct line to Calgary, in the said last mentioned Territory, with power to construct a branch line from a point near Manitou Lake, in the Territory of Saskatchewan, to Edmonton, in the Territory of Alberta. Also, with power to build, purchase, charter, maintain and navigate steam and other vessels to ply between Fort Churchill and other countries, to carry and convey passengers and freight, and carry on a general transportation service in connection with said railway; to construct, operate and maintain such bridges, docks, wharves, elevators, etc., as may be necessary and advantageous for the purposes of the said undertaking. Also to construct and operate telegraph and telephone lines along the whole length of the proposed railway and said branch, for the transmission of messages for the public as well as for the purposes of said railway; also to acquire such water powers as may be deemed requisite for the generation of electricity for the purposes of said railway and said branch, and the purchase, erection and maintenance of all such electrical plant as may be necessary in connection with said railway and branch, its bridges, elevators, wharves and docks; and with all such other powers and rights as may be advantageous and necessary to the success of said undertaking, including such as may be granted and prescribed, with the consent of the Parliament of Canada, by the Parliament of Great Britain and Ireland.

JOSEPH NELSON.

Ottawa, 12th May, 1896. 46–9

PUBLIC Notice is hereby given that The Georgian Bay Ship Canal and Power Aqueduct Company will apply to the Parliament of Canada, at its next session, for a special Act confirming, extending and augmenting the powers of the company; such Act to specially provide:—

1. For the construction, regulation, and control of harbours and navigation at the terminals of a ship canal, which the company is authorized to construct and operate from some point on Lake Ontario, within the County of York, to some point on the Georgian Bay;
2. That the company may divert and use the waters of any spring, creek, river, lake, or any other source or sources of water supply, for the purposes of the company, and regulate the levels of such waters;
3. That the company may regulate the traffic of the said canal or other navigable waters under the control of the company;
4. For the extension of the borrowing powers of the company, and to define the denomination and character of the notes, bonds, debentures, securities to be issued by the company;
5. For the construction and improvement by the company of other canals or waterways in Canada for the purpose of augmenting or increasing the traffic of the canal first mentioned;
6. The remission and exemption from all customs duties and charges on all plant, machinery and materials to be imported and used in the construction and equipment of the company's works.

J. A. MACDONALD,
Managing director of The Georgian Bay
46–9 Ship Canal and Power Aqueduct Co.

HUDSON'S BAY CANAL AND NAVIGATION COMPANY.

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next ensuing session, to pass an Act to incorporate a company to construct a canal from a point on the east branch of the Nelson River to Hudson's Bay; and to improve the navigation of rivers and waterways emptying into Lake Winnipeg so as to secure continuous navigation; and to collect tolls thereon; and to construct, equip and operate canal boats and other vessels, and tramways for transportation of freight and passengers; and to construct and operate elevators, mills, wharves, docks and warehouses, and telegraph and telephone lines, hydraulic and electric plants, and to supply motive power in connection with the same, and for other uses, and generally to have and exercise such powers as are given to railway corporations under The Railway Act, and as may be applicable to canals and inland navigation.

N. F. HAGEL,
Solicitor for applicants.

Winnipeg, 2nd May, 1896. 44–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at its next session, for an Act to incorporate a company to carry on the business of guaranteeing:—

1. Corporations, partnerships and individuals against lost occasioned by fraud practised upon paper representing or used as security for money;
2. Employees in positions of trust;
3. Titles to real estate and the validity of wills;
4. The repayment of loans and investments of money in manufacturing businesses, mining enterprises and in real estate;
5. The payment of rent, interest, dividends, mortgages, debentures and all other obligations of indebtedness, and
6. The payment of life, accident, fire and marine policies of insurance.

And for such other powers as may be incidental to such business.

GEMMILL & MAY,
Solicitors for applicants.

Ottawa, 13th May, 1896. 46–9

NOTICE is hereby given that application will be made to the Parliament of Canada, at the next session thereof, for an Act to incorporate a company to construct a railway, and to work the same either by steam or by electric power or both, from the Town of Portage la Prairie in the Province of Manitoba, to a crossing of the Saskatchewan River, at or near Grand Rapids, thence by the most practicable route to deep water navigation on Hudson Bay, with a branch line from a point at or near the International Boundary between Ranges eleven and fifteen, west of the first principal Meridian, in the said Province of Manitoba, running in a northerly or north-westerly direction to its intersection with the main line; also a branch line from a point on the main line near Grand Rapids to Edmonton *viâ* Prince Albert and Battleford in the North-west Territories, with power to construct and operate telegraph and telephone lines along the said railway and branches for all purposes, also to acquire, build, purchase, charter, own and operate steam and other vessels on lakes, rivers and other navigable waters for the purpose of facilitating the traffic in connection with said railway; to acquire, build, purchase, and own elevators, warehouses, wharves, docks and dockyards in connection with the said railway, with all the proper or usual powers, rights, and privileges given or granted to companies incorporated for any of the purposes aforesaid.

GEO. ELDON KIDD,
Solicitor for applicants.

Dated at Ottawa, this 10th January, 1896. 28-27

APPLICATIONS FOR CHARTER BY LETTERS PATENT.

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such other persons as may become shareholders in the proposed company, a body corporate and politic under the name and for the purposes hereinafter mentioned:—

1. The proposed corporate name of the company is "The Bridgeburg and Black Rock Ferry Company" (Limited).

2. The purposes for which incorporation is sought are as follows:—

(*a*.) To operate, manage and control a ferry between a point at or near the Village of Bridgeburg, in the County of Welland, in the Province of Ontario, and a point at or near the City of Buffalo, in the County of Erie, and State of New York, one of the United States of America;

(*b*.) To purchase, build or hire and sell vessels, barges or steamboats to ply between the said Village of Bridgeburg, and the said City of Buffalo;

(*c*.) To purchase, build, lease and sell wharves, docks, warehouses and offices in connection with said ferry;

(*d*.) To purchase, lease, sell or hold real estate for the purposes aforesaid.

3. The proposed chief place of business of the company is the Village of Bridgeburg, in the County of Welland aforesaid.

4. The proposed capital stock is thirty thousand dollars in three hundred shares of one hundred dollars each.

5. The following are the names, addresses and callings of the applicants:—Benjamin Baxter, merchant, and Edwy Baxter, merchant, both of the Village of Fort Erie, in the County of Welland aforesaid; John Bethune, of the Village of Bridgeburg, in the County of Welland aforesaid, Esquire; James Moss, of the Village of Dunnville, in the County of Haldimand, and Province of Ontario; Peter P. Miller, boat-owner, William H. Davis, boat-owner, and Edward Maythan, tug-owner, all of the City of Buffalo, in the County of Erie aforesaid.

6. That the said Benjamin Baxter, Edwy Baxter, John Bethune, James Moss, Peter P. Miller, William H. Davis and Edward Maythan, are to be the first directors of the said proposed company.

RAYMOND & COHOE,
Solicitors for applicants.

52–6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, 1886, chapter 119, incorporating the applicants and such others as may become shareholders in the proposed company, a body corporate and politic, under the name and for the purposes hereinafter mentioned :—

1. That the name of the company is to be "The Imperial Mail Marking Machine Company" (Limited).

2. That the objects for which incorporation is sought are to acquire by purchase, grant, assignment, lease, license or otherwise, inventions in mail marking or stamping machines or other machines for in any way handling or treating mail matter, and patents already granted or hereafter to be granted, on such inventions for the Dominion of Canada, and for the United Kingdom of Great Britain and Ireland, especially the patents for said countries heretofore granted to Charles F. Brown on inventions of M. V. B. Ethridge and Henry E. Waite, together with all privileges of every nature and kind granted or conferred by virtue of such patents, and to manufacture or otherwise acquire and sell, lease or otherwise dispose of the machines covered by such patents, or any improvements thereon, together with power to sell or otherwise dispose of by lease, license or otherwise, the rights and privileges conferred under such patents in England, Ireland, Scotland, Wales or Canada, or in any of said countries, or part or parts thereof, and to acquire or obtain new patents for the benefit of the company for any improvements of such machines, and to do all and whatsoever may be necessary or incidental to the carrying on of the business of said company.

3. That the chief place of business of said company is to be at the City of Montreal, in the Province of Quebec.

4. That the amount of capital stock of the said company is to be five hundred thousand dollars ($500,000.)

5. That the number of shares is to be ten thousand (10,000), and the amount of each share fifty dollars ($50).

6. That the names in full, and the address and calling of each of the applicants are as follows :—Herbert S. Holt, gentleman, David Burke, insurance manager, James P. Dawes, brewer, and John Brooks Young, merchant, all of the City and District of Montreal, and Joaquin K. Souther, merchant, and Frank B. Dole, merchant, both of the City of Boston, in the State of Massachusetts, all of whom are to be the first or provisional directors of the said company, and the majority of whom are residents of Canada.

HALL, CROSS, BROWN & SHARP,
Solicitors for applicants.

Montreal, 28th April, 1896. 44–10

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such other persons as may become shareholders in the proposed company, a body politic and corporate under the name and for the purposes hereinafter mentioned :—

1. The corporate name of the company will be "La Compagnie de publications artistiques" (Limited).

2. The purposes for which incorporation is sought are the following :—

(*a.*) To acquire the necessary rights to print and publish literary, artistic and other works ;

(*b.*) To buy, sell, manufacture and produce such artistic, literary and other works ;

(*c.*) To obtain, use, sell, buy, lease or license the use of patents and patent rights, designs, copyrights, etc., and sell, lease and otherwise deal with the same ;

(*d.*) To acquire and possess all the printing material, engraving on wood and metal, the plant connected with and necessary to said arts and industries, and also the real property necessary to the purposes of the company, and to sell or otherwise dispose thereof ;

(*e.*) To acquire and hold shares in the capital stock of other companies, and to sell and otherwise dispose thereof.

3. The chief place of business of the company will be in the City of Montreal, Province of Quebec.

4. The amount of the capital stock of the company is fifty thousand dollars, divided into one thousand shares of fifty dollars each.

5. The names in full, address and occupation of each of the applicants are,—Guillaume Narcisse Ducharme, banker, of the City of St. Cunégonde of Montreal, Louis Joseph Odilon Beauchemin, stationer, Aphrodise Mathias Charbonnean, commission agent, Joseph Adam, advocate, and Ubalde Plourde, advocate ; these last four, of the City and District of Montreal, will be the first or provisional directors of the company.

ADAM & PLOURDE,
Solicitors for applicants.

Montreal, 18th May, 1896. 50–6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, constituting the applicants and such other persons as may become shareholders in the proposed company, a body politic and corporate, under the name and for the purposes hereinafter mentioned.

1. The name of the proposed company is to be "The Wrought Iron Range Company" (Limited).

2. The objects for which incorporation is sought, are the purchasing or otherwise acquiring the goodwill, business and assets of the manufacturing firm doing business throughout the Dominion of Canada, under the name and style of The Wrought Iron Range Company, or such part of such assets as the company may desire to purchase, and generally the manufacture and sale of furnaces and ranges, and other wares generally made, sold or used in connection therewith.

3. The chief place of business of the said company is to be at Toronto, in the Province of Ontario.

4. The capital stock of the company is to be one hundred thousand dollars ($100,000), divided into one thousand shares of one hundred dollars ($100) each.

5. The names in full, and address of each of the applicants are as follow :—William Wallace Culver, of the City of St. Louis, in the State of Missouri, one of the United States of America, manufacturer ; Henry Harrison Culver, of the same place, manufacturer ; Henry Harrison Culver, junior, of the same place, manufacturer ; Walter Llewellyn Culver, of the same place, manufacturer ; Edwin Raymond Culver, of the same place, manufacturer ; Lucius Llewellyn Purinton, of the City of Toronto, in the County of York, and Province of Ontario, manufacturer ; and James Brashear, of the City of Montreal, in the Province of Quebec, manufacturer ; of whom the said William Wallace Culver, Lucius Purinton and James Brashear are to be the first or provisional directors.

McCARTHY, OSLER, HOSKIN & CREELMAN,
Solicitors for the applicants.

Dated at Toronto, this 15th day of June, 1896. 51–6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants and such other persons as may become shareholders in the proposed company, a body corporate and politic under the name and for the purposes hereinafter mentioned :—

1. The proposed corporate name of the company is "The Talbot Brussels Carpet Company" (Limited).

2. The purposes within the purview of the Act for which incorporation is sought, are to manufacture carpets, spin yarns, and generally to carry on the business of carpet manufacturers, and any other business incidental thereto throughout the Dominion of Canada.

3. The chief place of business of the said company is to be the City of Montreal, in the Province of Quebec.

4. The intended amount of the capital stock is two hundred thousand dollars.

5. The number of shares is to be two thousand, and the amount of each share is to be of the value of one hundred dollars.

6. The names in full, and the address and calling of each of the applicants are as follow :—William Talbot, carpet manufacturer, and Emil Cockroft, spinner, both of Elora, in the Province of Ontario ; Frederick Talbot, carpet manufacturer, Edward Hobson Barker, gentleman, and Arthur William Patrick Buchanan, advocate, all of the City and District of Montreal ; all of whom are to be the first or provisional directors of the said company.

WHITE, O'HALLORAN & BUCHANAN,
Solicitors for the applicants.

Dated at the City of Montreal, this 15th day of June, A.D. 1896. 51-6

NOTICE is hereby given that within one month after the last publication of this notice in the *Canada Gazette*, application will be made to His Excellency the Governor General in Council for a charter of incorporation by letters patent under the provisions of The Companies Act, Revised Statutes of Canada, chapter 119, incorporating the applicants hereinafter described, and such other persons as may become shareholders in the proposed company, a body corporate and politic under the name and for the purposes hereinafter mentioned :—

1. The proposed corporate name of the company is "Kootenay Mine Exploration Company" (Limited).

2. The purposes for which incorporation is sought are :—

(*a.*) To search for, prospect, examine and explore mines and ground supposed to contain minerals or precious stones, and to search for and obtain information in regard to mines, mining districts and localities ;

(*b.*) To purchase or otherwise acquire, and to sell, dispose of and deal with, mines and mining rights of all kinds, and undertakings connected therewith ;

(*c.*) To work, exercise, develop and turn to account, mines and mining rights, and any undertaking connected therewith ;

(*d.*) To buy, sell, concentrate, smelt, refine, manipulate and deal in minerals of all kinds, and, in particular, gold, silver, and other precious metal and precious stones ;

(*e.*) To carry on any other businesses which may seem to the company capable of being conveniently carried on in connection with the above or calculated directly or indirectly to enhance the value of or render profitable any of the company's property or rights ;

(*f.*) To acquire and undertake the whole or any part of the business, property, and liabilities of any person or company carrying on any business which this company is authorized to carry on, or possessed of property suitable for the purposes of this company ;

(*g.*) To enter into partnership or into any arrangement for sharing profits, union of interests, co-operation, joint adventure, reciprocal concession, or otherwise, with any person or company carrying on, or engaged in or about to carry on or engage in, any business or transaction which this company is authorized to carry on or engage in, or any business or transaction capable of being conducted so as directly or indirectly to benefit this company. And to lend money to, guarantee the contracts of, or otherwise assist, any such person or company, and to take or otherwise acquire shares and securities of any such company, and to sell, hold, re-issue, with or without guarantee, or otherwise deal with the same ;

(*h.*) To sell the undertaking of the company or any part thereof for such consideration as the company may think fit, and in particular for shares, debentures, or securities in or of any other company having objects altogether or in part similar to those of this company ;

(*i.*) To promote any other company for the purpose of acquiring all or any of the property and liabilities of this company, or for any other purpose which may seem directly or indirectly calculated to benefit this company ;

(*j.*) Generally to purchase, take on lease or in exchange, hire, or otherwise acquire any real and personal property, and any rights or privileges which the company may think necessary or convenient for the purposes of its business and in particular any land, buildings, easements, machinery, plant and stock in trade ;

(*k.*) To remunerate any person or company for services rendered, in placing or assisting to place or guaranteeing the placing of any of the shares in the company's capital, or any debentures or other securities of the company, or in or about the promotion of the company or the conduct of its business ;

(*l.*) To do all or any of the above things in any part of the world and as principals, agents, contractors, trustees, or otherwise, and by or through trustees, agents, or otherwise, and either alone or in conjunction with others ;

(*m.*) To enter into any arrangements with any governments or authorities, supreme, municipal, local or otherwise, that may seem conducive to the company's objects, or any of them, and to obtain from any such government or authority, any rights, privileges and concessions which the company may think it desirable to obtain, and to carry out, exercise, and comply with any such arrangements, rights, privileges and concessions ;

(*n.*) To take, or otherwise acquire, and hold shares in any other company having objects altogether or in part similar to those of this company, or carrying on any business capable of being conducted so as directly or indirectly to benefit this company ;

(*o.*) To procure the company to be registered or recognized in any foreign country or place or in and elsewhere abroad ;

(*p.*) To construct, improve, maintain, work, manage, carry out, or control any roads, ways, tramways, railways, branches or sidings, reservoirs, watercourses, wharves, manufactories, warehouses, electric works, shops, stores, and other works and conveniences which may seem calculated directly or indirectly to advance the company's interests, and contribute to, subsidise, or otherwise assist or take part in the construction, improvement, maintenance, working, management, carrying out, or control thereof ;

(*q.*) To amalgamate with any other company having objects altogether or in part similar to those of this company ;

(*r.*) To distribute any of the property of the company among the members in specie.

3. The chief place of business of the proposed company is to be the City of Toronto.

4. The proposed amount of the capital stock of the company is $200,000.

5. The number of shares is to be 40,000 of a par value of $5 each.

6. The names in full, and the address and calling of each of the applicants are as follow :—George Gooderham, of the City of Toronto, distiller ; Rufus Henry Pope, of the Village of Cookshire, in the Province of Quebec, merchant ; Thomas Gibbs Blackstock, of the City of Toronto, barrister ; Joseph Walker Beatty, of the City of Toronto, accountant, and David Fasken, of the City of Toronto, barrister ; all of whom are to be first or provisional directors of the said company.

BEATTY, BLACKSTOCK, NESBITT,
CHADWICK & RIDDELL,

MISCELLANEOUS.

NOTICE.—The Dominion Bridge Company (Limited), hereby gives notice that its chief office and place of business is situated in the Town of Lachine, in the County of Jacques Cartier, and Province of Quebec, having been transferred to that place from the City of Montreal.

A. W. SHEARWOOD,
Secretary of the company.

Lachine Locks, June, 1896. 52-1

NOTICE is hereby given that the Toronto, Hamilton and Buffalo Railway Company has this day deposited in the office of the Secretary of State for Canada, at Ottawa, pursuant to the provisions of The Railway Act, the mortgage deed dated the 1st day of June, A.D. 1896, between the Toronto, Hamilton and Buffalo Railway Company, of the first part, S. Endicott Peabody, of the City of Boston, Massachusetts, and C. F. Cox, of the City of New York, trustees, of the second part, and The American Loan and Trust Company of Boston, of the third part, said mortgage deed having been given by the said railway company pursuant to the 94th section of The Railway Act, upon the whole of the property, assets, rents and revenues of the company, present and future, as therein described for the purpose of securing the bonds or debentures issued by the said company.

E. D. CAHILL,
Secretary,
Toronto, Hamilton and Buffalo Ry. Co.

Dated this 23rd day of June, A.D. 1896. 52-1

NOTICE is hereby given that in accordance with the provisions of the North-west Irrigation Act, the undersigned has filed the memorial required by section 12 of the said Act with the Agent of Dominion lands at Wetaskiwin, and has forwarded a copy thereof to the Minister of the Interior.

The applicant applies for the right to divert 26 cubic feet of water per second from the Battle River, at a point near the Roman Catholic Mission buildings, on Bobtail's Indian Reserve, in Alberta, to be used for power purposes; and for the right to construct the necessary works, as shown by the memorial filed, to enable the water so diverted to be used in the operation of the grist mill, saw mill and shingle mill on Samson's Indian Reserve, about one and one half miles east of the point above mentioned.

HAYTER REED,
Deputy Superintendent General of Indian Affairs.

Dated at Ottawa, 15th June, 1896. 52-5

ONTARIO BANK.

NOTICE is hereby given that under the provisions of The Bank Act, the Ontario Bank will apply to the Treasury Board after four publications of this notice as prescribed by the said Act for the issue of a certificate approving of the by-law reducing the capital stock of the said bank from $1,500,000 to $1,000,000, which by-law was passed at the annual meeting of the shareholders of the Ontario Bank held on the 16th day of June, 1896, and is in the words and figures following:—

"BY-LAW No. XVII, 1896.

"Whereas, by an Act of the Parliament of Canada, passed in the 45th year of the reign of Her Majesty, and chaptered 57, the capital stock of the Bank was fixed at $1,500,000, divided into 15,000 fully paid shares of $100 each.

"And whereas, at the annual general meeting held on the 16th day of June, 1896, the shareholders present representing a majority in value of all the shares issued by the Bank, deemed it expedient to reduce the said capital stock to $1,000,000, divided into 10,000 shares of $100 each, and approved of this by-law for that purpose.

"It is therefore enacted as follows:

"The capital stock of the Bank is hereby reduced to $1,000,000 divided into 10,000 shares of $100 each, and such reduction shall be effected by cancelling paid-up capital to the extent of $33.33 per share, so that for every three shares of the existing stock held by any shareholder he shall be entitled to two shares of $100 each, and so that any holders of shares less than three in number shall be entitled hereafter to shares reduced in value in the above proportion.

"This by-law shall take effect when approved by the Treasury Board pursuant to the provisions of The Bank Act."

MOSS, BARWICK & FRANKS,
Solicitors for The Ontario Bank.

25th June, 1896. 52-4

LA BANQUE DE ST. HYACINTHE.

The transfer books will be closed from the 22nd June to the 6th July next, both days inclusive.

By order of the Board,

J. N. GAUTHIER,
Cashier.

St. Jean, 6th May, 1896. 49–5

NOTICE is hereby given that application will be made by the Toronto, Hamilton and Buffalo Railway Company to His Excellency the Governor General in Council, at the Parliament Buildings, at the City of Ottawa, Ontario, on Tuesday, the 11th day of August, A.D. 1896, at the hour of 11 o'clock in the forenoon, or on the first day thereafter that the application may be heard at the same place and hour, for the approval by His Excellency the Governor in Council of, and for an order extending for a period of fifty years from the date thereof, the agreement bearing date the 9th day of July, A.D. 1895, made between the Toronto, Hamilton and Buffalo Railway Company, the Michigan Central Railroad Company, the Canada Southern Railway Company, the New York Central and Hudson River Railroad Company, and the Canadian Pacific Railway Company, for the division and apportionment of tolls, rates and charges in respect of traffic to be interchanged between the respective railways of the said companies, and for the regulation and interchange of traffic passing between the railways of the said companies respectively as provided for in the separate agreement between the same parties and the Dominion Construction Company and the American Loan and Trust Company, bearing even date therewith.

And notice is hereby further given that application will also be made by the said Toronto, Hamilton and Buffalo Railway Company to His Excellency the Governor in Council at the same place, date and hour, for the approval by His Excellency the Governor General in Council of the agreements bearing date respectively the 9th day of July, 1895, the 18th day of December, 1895, and the 21st day of April, 1896, between the Toronto, Hamilton and Buffalo Railway Company, the Michigan Central Railroad Company, the Canada Southern Railway Company, the New York Central and Hudson River Railroad Company, the Canadian Pacific Railway Company, the Dominion Construction Company, and the American Loan and Trust Company, for a lease or grant to the Canadian Pacific Railway Company of running powers over the extension of the track of the Toronto, Hamilton and Buffalo Railway Company, from a point near Garth Street, in the City of Hamilton, to a junction with the Grand Trunk Railway, near the Desjardins Canal, now in course of construction by this company, and also for a grant to the said Canadian Pacific Railway Company of the joint use with the Toronto, Hamilton and Buffalo Railway Company, of the yards and terminals within the City of Hamilton, of the Toronto, Hamilton and Buffalo Railway Company, as set out in said agreements.

And take notice that all persons interested may appear at the time and place aforesaid, and then and there be heard on such application.

E. D. CAHILL,
Secretary.

Toronto, Hamilton and Buffalo Railway Company.
Dated this 3rd day of June, A.D. 1896. 49–9

NOTICE is hereby given that The Steam Boiler and Plate Glass Insurance Company of Canada has ceased to transact business in Canada, and that pursuant to the provisions of The Insurance Act, application will be made to the Honourable the Minister of Finance on or after the 10th day of August next, by the said The Steam Boiler and Plate Glass Insurance Company of Canada, for the release of its securities, and all policy holders in Canada opposing such release are hereby required to file their opposition with the said the Honourable the Minister of Finance on or before the said 10th day of August next.

PARKE & PURDOM,
Solicitors for applicants.

Dated the 1st day of May, 1896. 45–14

NOTICE.—Lam Tung, of the City of New Westminster in the Province of British Columbia, has deposited with the Honourable the Minister of Public Works, at Ottawa, and also with the Registrar of Deeds for the District of New Westminster in the said province, a plan showing certain works or buildings constructed by him upon the Fraser River within the said district, and a description of the site in which such works have been placed.

The said Lam Tung will apply to the Governor General in Council immediately after one month from the first publication of this notice for his approval of such plan and site and of the construction of the said works.

LAM TUNG.

Dated this 1st day of May, 1896. 46–10

NOTICE is hereby given that a special general meeting of the shareholders of the Parry Sound Colonization Railway Company will be held at the office of the company, No. 82 Bridge Street, in the City of Ottawa, on Wednesday, the 15th day of July, 1896, at the hour of 2 o'clock in the afternoon, for the purpose of considering and sanctioning a deed amalgamating the Parry Sound Colonization Railway Company with the Ottawa, Arnprior and Parry Sound Railway Company, and for such other business respecting this matter as may be brought before the meeting.

A. W. FLECK,
Secretary.

Ottawa, 5th June, 1896. 50–5

ARRÊTÉS EN CONSEIL.

[1945]

HOTEL DU GOUVERNEMENT À OTTAWA.

Vendredi, le 12e jour de juin 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 84 des Statuts Revisés du Canada, intitulé "Acte concernant les havres, quais et brise-lames de l'Etat," et par et avec l'avis du Conseil privé de la Reine pour le Canada, de nommer M. David Pippin, gardien du quai de l'Etat à Magog, dans la province de Québec.

JOHN J. McGEE,
Greffier du Conseil privé.

52-4

[2077]

HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 11e jour de juin 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, d'approuver le règlement suivant passé par les Commissaires du Havre de Montréal, le 26e jour de mai 1896, abrogeant le règlement 130 et y substituant le règlement ci-dessous.

JOHN J. McGEE,
Greffier du Conseil privé.

A une réunion des Commissaires du Havre de Montréal, dûment convoquée et tenue à Montréal, le vingt-sixième jour de mai mil huit cent quatre-vingt-seize, étaient présents :—M. Henry Bulmer, président ; M. Victor Hudon, M. Richard White, M. W. W. Ogilvie, M. Hormisdas Laporte, M. Frank J. Hart, M. Hugh McLennan, M. L. E. Morin, M. Andrew Allan.

Le projet d'un amendement au règlement 130 est déposé devant l'assemblée, et il est—

Résolu,—Que le règlement 130 soit abrogé et remplacé par le règlement 130 suivant :—

"Ce qui suit sera le tarif des péages à compter de la date de l'entrée en vigueur du présent règlement :—

Sur la houille, coke, grain et graines de toutes sortes, 7½ centins par tonne.

Sur le lest, ciment, argile, tuyaux de drainage en poterie, briques réfractaires, gypse, chaux, marbre et toute autre pierre, phosphate, sable, sel, blocs de scories, ardoise, blanc de céruse, 10 centins par tonne.

Sur les pommes, oranges, citrons et autres fruits frais, paniers à claire-voie et leurs contenus, fleur et farine, poisson, viandes, poix, pommes de terre, goudron, chevaux, bêtes à cornes, moutons, cochons, foin, paille, pulpe de bois, tabac, saindoux, huile de saindoux et tourteaux de lin, 15 centins par tonne.

Sur le fer en gueuse, et ferraille, perlasse et potasse, 20 centins par tonne.

Sur les briques, 10 centins par mille ; sur le bois de corde, 5 centins par corde ; sur le bois de construction, 10 centins par mille pieds mesure de planche.

Sur tous effets, articles et marchandises, sauf les lingots et les espèces, non ailleurs spécifiés, 25 centins par tonne.

Sur les marchandises, pour lesquelles les commissaires du havre ne jugeront pas à propos de fixer des taux selon les susdites dispositions, les dits commissaires pourront prélever un taux de un quart de un pour cent sur leur valeur.

Nulle entrée ne sera moindre que cinq centins.

Il ne sera prélevé qu'un seul taux sur la propriété tombant sous les dispositions précédentes lorsque débarquée sur les quais pour être rembarquée seulement.

Les taux qui précèdent, moins 20 pour cent seront prélevés tel que ci-après énoncé, sur les dits articles lorsqu'ils seront débarqués ou expédiés dans le havre, ou transportés par rail sur les lisses du havre ou déposés dans le havre.

Sur toutes marchandises restant sur les quais plus longtemps que quatre jours ouvrables pleins à compter du déchargement du vaisseau dans lequel elles sont arrivées, dans le cas de marchandises importées, les taux supplémentaires suivants seront prélevés :—

Sur le ciment, un centin par baril par jour.

Sur le sel, un demi-centin par poche par jour.

Sur le fer un demi-centin par cent livres par jour.

Sur les briques, dix centins par mille par jour.

Sur les tuyaux de drainage et tous autres articles non énumérés, un demi-centin par cent livres par jour.

Pour les fins de ce règlement, une tonne sera calculée à 2,000 livres pesant, ou quarante pieds cubes, selon que ces marchandises auxquelles il s'applique auront été ou seront transportées par eau au poids ou à la tonne.

Le poids des articles ci-après décrits peut être calculé comme suit :—

Alcalis, potasse ou perlasse, trois barils pour une tonne.

Pommes, fleur, farine, pommes de terre, neuf barils pour une tonne.

Poisson, viandes, poix, goudron, sept barils pour une tonne.

Chevaux, deux pour une tonne,

Bêtes à cornes, trois pour une tonne.

Moutons, quinze pour une tonne.

Cochons, dix pour une tonne.

Certifié,

ALEXANDER ROBERTSON,
Secrétaire,
Commissaires du Havre de Montréal.

[2080]

HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 11e jour de juin 1896.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT qu'il est à propos que les règlements concernant l'expédition du bétail du Canada en Europe soient modifiés de façon à comprendre les chevaux expédiés du Canada en Europe, aussi bien que le bétail,—

En conséquence, il plaît à Son Excellence, sur la recommandation du Ministre de la Marine et des Pêcheries, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner, et il est par le présent ordonné que les dits règlements concernant l'expédition du bétail soient et ils sont par le présent modifiés en substituant ce qui suit à la clause définissant le mot "bétail."

Définition : — L'expression "bétail" signifie taureaux, bœufs, vaches et génisses de un et deux ans, et l'expression "chevaux" comprend aussi les juments.

Il plaît en outre à Son Excellence que l'article suivant soit ajouté aux règlements actuels concernant l'expédition du bétail du Canada.

No. 21. Afin de mieux protéger la santé du bétail, nul bétail ni chevaux ne seront pris à bord sauf le bétail ou les chevaux qui ont été inspectés et passés par un inspecteur vétérinaire dûment nommé par le gouvernement.

JOHN J. McGEE,
Greffier du Conseil privé.

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada*, voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre voulu d'insertions.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée. Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministère de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurances—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier où 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

et de la Papeterie publiques,
Ottawa, novembre 1891.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill prive ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

RÈGLE SPÉCIALE DU SÉNAT.

Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a*.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b*.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage a 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

COMPAGNIE ÉLECTRIQUE DE HULL.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte pour changer le nom de la dite compagnie en celui de "Compagnie de chemin de fer Hull et Aylmer,"—déclarer que le chemin de fer et autres travaux de la dite compagnie sont pour l'avantage général du Canada,—confirmer et ratifier un bail de l'embranchement Aylmer du chemin de fer Canadien du Pacifique en faveur des dits requérants pour une durée de trente-cinq ans,—prolonger la ligne de la dite compagnie jusqu'au pont suspendu entre Hull et Ottawa sur les travaux publics et ponts du Dominion du Canada, et pour d'autres fins.

HENRY AYLEN,
Solliciteur des requérants.

Ottawa, 26 juin 1896. 52-9

CHEMIN DE FER ET CANAL DU LAC MANITOBA.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte autorisant la compagnie à prolonger son chemin de fer jusqu'à la rivière Saskatchewan, et pour d'autres fins.

KINGSMILL, SAUNDERS ET TORRANCE,
Solliciteurs des requérants.

Toronto, 15 juin 1896. 51-9

AVIS public est par le présent donné qu'à la prochaine session du parlement du Canada, application sera faite pour l'incorporation d'une compagnie ayant pour objet la construction d'un pont, pour le trafic général et le passage des tramways électriques sur le fleuve Saint-Laurent, entre quelque point sur la rive sud et quelque point dans les limites de la cité de Montréal sur la rive nord, en touchant à l'île Ronde et à l'île Sainte-Hélène, la partie du chenal devant être traversée par un pont à transbordeur, *système Arnodin*, et pour la construction et l'opération des tramways électriques dans les comtés environnants sur la rive sud.

J. U. EMARD,
Avocat des requérants.

Montréal, 3 juin 1896. 49-9

CHEMIN DE FER BAIE D'HUDSON ET PACIFIQUE.

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire, exploiter et entretenir un chemin de fer mû par la vapeur et l'électricité partant de Port Churchill sur la Baie d'Hudson, traversant les territoires du Nord-Ouest et de Kéwatin jusqu'à Fond du Lac sur le lac Athabasca, et depuis Port Churchill susdit sur la Baie d'Hudson, traversant le territoire de Kéwatin au sud de la rivière Churchill et au nord de la rivière Nelson, jusqu'à un point à ou près de Sea Falls, sur la dite rivière ; de là, au nord du lac Winnipeg traversant le territoire de Saskatchewan jusqu'à

Prince-Albert, dans le dit territoire ; de là, continuant sur le dit territoire et le territoire d'Alberta, en ligne droite jusqu'à Calgary, dans le dit territoire en dernier lieu mentionné, avec pouvoir de construire un embranchement depuis un point près du lac Manitou, dans le territoire de Saskatchewan, jusqu'à Edmonton, dans le territoire d'Alberta. Aussi, avec pouvoir de construire, acheter, noliser, entretenir et naviguer des vaisseaux à vapeur et autres pour faire le service entre Fort Churchill et d'autres contrées, porter et transporter des passagers et du fret, et faire un service général de transport en rapport avec le dit chemin de fer ; construire, exploiter, et entretenir les ponts, docks, quais, élévateurs, etc., qui seront nécessaires et avantageux pour les fins de la dite entreprise. Aussi, construire et exploiter des lignes de télégraphe et de téléphone tout le long du chemin de fer projeté et du dit embranchement, pour la transmission de messages pour le public ainsi que pour les fins du dit chemin de fer ; aussi, acquérir les pouvoirs hydrauliques qui seront jugés nécessaires pour la génération de l'électricité pour les fins du chemin de fer et du dit embranchement, et l'achat, construction et entretien de tout outillage électrique qui sera trouvé nécessaire en rapport avec le dit chemin de fer et son embranchement, ses ponts, élévateurs, quais et docks ; et avec tous autres pouvoirs et droits qui pourront être avantageux et nécessaires au succès de la dite entreprise, y compris tels pouvoirs et droits qui pourront être accordés et prescrits, avec le consentement du parlement du Canada, par le parlement de la Grande-Bretagne et l'Irlande.

JOSEPH NELSON.

Ottawa, 12 mai 1896. 46–9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte constituant une compagnie pour construire un chemin de fer, mû par la vapeur ou par l'électricité, ou les deux, partant de la ville de Portage la Prairie, dans la province du Manitoba, et allant jusqu'à un gué de la rivière Saskatchewan, aux ou près des Grands Rapides ; de là, par la route la plus praticable, jusqu'à la navigation en eau profonde sur la Baie d'Hudson, avec un embranchement depuis un point à ou près de la frontière internationale entre les rangs onze et quinze, à l'ouest du premier médidien principal, dans la dite province du Manitoba, courant dans une direction nord ou nord-ouest jusqu'à son intersection avec la ligne mère ; aussi une ligne d'embranchement depuis un point sur la ligne mère près des Grands Rapides jusqu'à Edmonton *via* Prince-Albert et Battleford, dans les Territoires du Nord-Ouest ; avec pouvoir de construire et exploiter des lignes de télégraphe et de téléphone le long du dit chemin de fer et ses embranchements pour toutes fins que ce soit ; aussi acquérir, construire, acheter, noliser, posséder et naviguer des vaisseaux à vapeur et autres sur les lacs, rivières et autres eaux navigables, dans le but de faciliter le trafic en rapport avec le dit chemin de fer ; acquérir, construire, acheter et posséder des élévateurs, entrepôts, quais, docks et chantiers en rapport avec le dit chemin fer ; avec tous les pouvoirs et privilèges nécessaires ou ordinaires donnés ou conférés aux compagnies constituées pour aucune des fins susdites.

GEO. ELDON KIDD,
Solliciteur des requérants.

Ottawa, 14 mai 1896. 46–9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, afin d'obtenir un acte modifiant les actes constitutifs de la Compagnie des Steamships de Québec (à resp. limitée), et conférant à la dite compagnie le pouvoir d'acheter, construire, équipper, conduire ou louer, ou acquérir un intérêt dans des hôtels et propriété d'hôtel, et pour d'autres fins.

CARON, PENTLAND ET STUART,
Solliciteurs de la requérante.

Québec, 15 mai 1896. 47–9

COMPAGNIE DE CANAL ET NAVIGATION DE LA BAIE D'HUDSON.

AVIS est donné par le présent que demande sera faite au parlement du Canada, à sa prochaine session, à l'effet de passer un acte constituant une compagnie pour construire un canal depuis un point sur le bras est de la rivière Nelson jusqu'à la Baie d'Hudson ; et d'améliorer la navigation des rivières et cours d'eau se déversant dans le lac Winnipeg de façon à établir une navigation continue, et de prélever des péages ; et de construire, équiper et utiliser des barges et autres vaisseaux, et des tramways pour le transport du fret et des passagers ; et de construire et exploiter des élévateurs, moulins, quais, docks et entrepôts, et des lignes de télégraphe et de téléphone, des outillages hydrauliques et électriques, et fournir la force motrice s'y rattachant, et pour d'autres usages, et généralement avoir et exercer tels pouvoirs qui sont conférés aux corporations de chemins de fer par "l'Acte des chemins de fer," et qui seront applicables à la navigation des canaux et eaux intérieures.

N. F. HAGEL,
Solliciteurs des requérants.

Winnipeg, 2 mai 1896. 44–9

AVIS est donné par le présent qu'une demande sera adressée au parlement du Canada, à sa prochaine session, par la Compagnie de chemin de fer et de canal du Lac Manitoba, afin d'obtenir un acte confirmant certains arrangements avec le Gouvernement du Manitoba et la Compagnie de chemin de fer Manitoba et Nord-Ouest, et aussi pour confirmer certains transferts de sa subvention du gouvernement, et pour confirmer certaines hypothèques créées par la compagnie et l'émission de ses obligations, et pour autoriser la compagnie à émettre des octrois de terres et des obligations portant deuxièmes hypothèques et des actions privilégiées, et pour d'autres fins.

KINGSMILL, SAUNDERS ET TORRANCE,
Solliciteurs de la compagnie.

Toronto, 21 mai 1896. 47–9

AVIS public est donné par le présent que la Compagnie de poudre de Hamilton s'adressera au parlement du Canada, à sa prochaine session, afin d'obtenir un acte spécial lui permettant—

1. De changer le siège d'affaires de la compagnie à Montréal ;
2. D'augmenter le capital-actions de la compagnie ;
3. D'augmenter le nombre de directeurs de la compagnie ;
4. D'augmenter le montant pour lequel la compagnie peut actuellement émettre des obligations et débentures.

ROBERTSON, FLEET ET FALCONER,
Procureurs des requérants.

Montréal, 26 mai 1896. 48–9
